In assessing the four factors enumerated earlier, and in making its consequent Determination, the Commission has carefully considered all comments received. It is appropriate, however, to take special note of those comments which were adverse to this Determination, namely, those of Mr. Speth. In our judgment Mr. Speth's concern, summarized above, does not take appropriate account of several relevant considerations. To begin with, the existing technological base for the LMFBR program represents an investment of more than $1.3 billion over the past 20 years and the future monies projected to be expended on the overall program are about $5-6 billion. The planned expenditure of resources by AEC and other LMFBR program participants during the limited period of NEPA review (approximately $300 million), while not insubstantial, will not be of such magnitude in the context of prior and projected expenditures as to constitute an irrevocable commitment to the continuation of the base technology program. Nor, for the same reasons, would it affect the outcome of the NEPA review of the LMFBR program and the actions which may be appropriate in light thereof, including reorientation, delay or abandonment of the program, in whole or in part, or subsequent pursuit of alternative energy sources. It is worth additional note, in this connection, that the risk involved in the expenditure of such resources is not unique. Such risks are continually being taken in research and development efforts. As discussed in the Commission's Findings (at pp. 87-88), programs have been terminated where it has been found that their continuation is no longer justified, notwithstanding the substantial prior expenditure of time, effort and funds. This is addressed more fully in the supporting Findings.

The results of the Commission's examination of this matter in the light of all comments received are set forth in a document entitled, "Findings Supporting Determination in Regard to LMFBR Base Program Pending Preparation of a section 102(2)(C) NEPA Impact Statement." Copies of this document are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Copies may be obtained upon request, addressed to the United States Atomic Energy Commission, Washington, D.C. 20545, Attention: General Manager.

Based on the results of the foregoing examination, the Commission has determined that:

1. Continuation of the LMFBR base program during the period of preparation of the NEPA impact statement will not give rise to any significant adverse impact on the environment; and that the limited impact that may occur will be redressable should the full NEPA review of the program indicate that a course of action other than proceeding with the LMFBR program is advisable.

2. Subsequent adoption of program alternatives—including reorientation, delay or cessation of the program itself—would not be foreclosed by continuation of the LMFBR base program during the limited period of the NEPA review. All work performed in connection with this program can be terminated by AEC at any time.

3. Should continuation of the LMFBR base program be consistent with the outcome of the full NEPA program review, discontinuance of base program activities until the NEPA program review is completed would, adversely affect the public interest since (a) it could result in compromising program viability by the

V 39 160 MAR 27 74 XUM

loss of key management and engineering personnel in the many organizations involved in the program, and (b) it would result in delay in realizing the availability of a key energy option for the Nation, with significant adverse consequences in terms of increased program costs and substantial dollar penalties in higher costs of electricity.

4. The expenditure of resources by the AEC and the other program participants during the limited period of the NEPA review of the program (approximately $300 million), while not insubstantial, will not be of such magnitude, taken in relationship to monies already expended on the LMFBR program ($1.3 billion through fiscal year 1973) or monies projected to be expended during the course of completion of the LMFBR program ($5–6 billion), as to constitute an irrevocable commitment to the continuation of the base technology program; nor will it affect the eventual outcome of the NEPA review of the LMFBR program. Industrial participants have spent, and will continue to spend, their resources at their own risk since all base program activities are subject to alteration or termination pending the outcome of the NEPA program review. In the event the NEPA review suggests discontinuance of the base program in its presently projected dimensions, the accomplishments in design and analysis during this period will contribute to the technology of designing and constructing reliable components for nuclear power plants of all designs.

In summary, based on the results of the foregoing examination, the Commission has determined that the LMFBR base technology program may be continued during the limited period of the ongoing NEPA program review.

Dated at Washington, D.C., this 25th day of March 1974.

For the Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.74–7165 Filed 3–26–74;8:45 am]

[Docket No. 50–58]

OKLAHOMA STATE UNIVERSITY

Order Terminating Facility License

The Atomic Energy Commission ("the Commission") has found that Oklahoma State University's AGN–201 (Serial No. 102) nuclear research reactor previously located on its campus in Stillwater, Oklahoma, has been dismantled, decontaminated, and disposition made of the component parts and fuel, pursuant to the Commission's dismantling order dated July 13, 1972, in accordance with the Commission's regulations in 10 CFR, Chapter I, and in a manner not inimical to the common defense and security or to the health and safety of the public, and that termination of the license does not involve significant hazards considerations.

In accordance with the dismantling order and the safety evaluation issued in connection therewith dated July 13, 1972, the research reactor and the fuel have been removed and transferred to Tuskegee Institute in accordance with CPPR–117 issued March 23, 1973, to Tuskegee Institute. The former location of the reactor has been inspected by the Commission's Directorate of Regulatory Operations and, as required by the dismantling order dated July 13, 1972, Oklahome State University has submitted a report dated January 23, 1974, on radiation surveys of the facility which the Commission finds satisfactory.

Accordingly, pursuant to the application by Oklahoma State University dated May 26, 1971, and its request dated January 23, 1974, and Commission regulations, Facility License No. R–22 is hereby terminated as of the date of this order.

Also, Indemnity Agreement No. E–9 between Oklahoma State University and the Atomic Energy Commission, dated September 21, 1962, as amended, is hereby terminated as of the date of this order and concurrently Amendment No. 9 to Indemnity Agreement No. E–9 is being executed.

Date of issuance: March 19, 1974.

For the Atomic Energy Commission.

DONALD J. SKOVHOLT,
Assistant Director for Operating Reactors Directorate of Licensing.

[FR Doc.74–6986 Filed 3–26–74;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS

Notice of Meeting

MARCH 25, 1974.

In accordance with the purposes of sections 29 and 182b of the Atomic Energy Act (42 U.S.C. 2039, 2232b), the Advisory Committee on Reactor Safeguards will hold a meeting on April 11–13, 1974, in Room 1046, 1717 H Street, NW., Washington, D.C.

The following constitutes that portion of the Committee's agenda for the above meeting which will be open to the public:

1. Thursday, April 11, 1974: 9:45 a.m.–11:15 a.m.—Meeting with AEC Regulatory Staff—The Committee will hear presentations and discuss matters related to reactor operating experience and licensing activities, including:

Browns Ferry Nuclear Plant Unit 1—Pressure relief valve operation.
Surry Power Station—Modification of high pressure piping restraints.
Indian Point Nuclear Generating Station Unit 2—Performance of modified feedwater piping.

5:00 p.m.–6:00 p.m.—Meeting on North Anna Power Station Units 3 and 4—The Committee will hear presentations and hold discussions with representatives and consultants of the Regulatory Staff and the Virginia Electric Power Company regarding the nature of the seismic faults at the site in connection with an application for a construction permit for this facility.

2. *Friday, April 12, 1974:* 9:15 a.m.–12:30 p.m.—*Millstone Nuclear Power Station Unit 3*—The Committee will consider the application for a construction permit for this plant. This will include presentations by and discussions with representatives and consultants of the AEC Regulatory Staff and the Applicants for this project.

2:00 p.m.–7:00 p.m.—*Alvin W. Vogtle Nuclear Plant Units 1, 2, 3 and 4*—The Committee will consider the application for a construction permit for this plant. This will include presentations by and discussions with representatives and consultants of the AEC Regulatory Staff and the Georgia Power Company.

Closed sessions will be held during the periods noted above, if required, to discuss proprietary information related to security plans for these facilities and to fuel element, design, fabrication, and operation including loss-of-coolant accident analysis in accordance with subsection 10(d) of Public Law 92–463 and 5 U.S.C. 552(b)(4).

It should be noted that, in addition to the agenda items noted above, the Committee will hold other sessions not open to the public under the authority of subsection 10(d) of Public Law 92–463 (the Federal Advisory Committee Act), to consider the above applications and other matters. I have determined, in accordance with subsection 10(d) of Public Law 92–463, that it is necessary to close such portions of the meeting to protect classified documents and information (5 U.S.C. 552(b)(1) and (3)), and to protect the free interchange of internal views and to avoid undue interference with agency or Committee operation (5 U.S.C. 552(b)(5)).

Practical considerations may dictate alterations in the above agenda or schedule.

The Chairman of the Committee is empowered to conduct the meeting in a manner that in his judgment will facilitate the orderly conduct of business, including provisions to carry over an incompleted open session from one day to the next.

With respect to public participation in the open portion of the meeting, the following requirements shall apply:

(a) Persons wishing to submit written statements regarding the agenda items may do so by mailing 25 copies thereof, postmarked no later than April 3, 1974, to the Executive Secretary, Advisory Committee on Reactor Safeguards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Such written comments shall be based on documents related to the agenda items noted above, and related documents on file and available for public inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. 20545, and as follows:

NORTH ANNA NUCLEAR STATION

Office of Mr. Dean Agee
Executive Secretary
Board of Supervisors
Louisa County Courthouse
Louisa, Virginia 23093

MILLSTONE NUCLEAR STATION

Miss Margaret Walter, Librarian
Waterford Public Library
49 Rope Ferry Road
Waterford, Connecticut 06385

ALVIN W. VOGTLE PLANT

Burke County Library
Fourth Street
Waynesboro, Georgia 30830

(b) Those persons submitting a written statement in accordance with paragraph (a) above may request an opportunity to make oral statements concerning the written statement. Such requests shall accompany the written statement and shall set forth reasons justifying the need for such oral statement and its usefulness to the Committee. To the extent that the time available for the meeting permits, the Committee will receive oral statements during a period of no more than 30 minutes at an appropriate time, chosen by the Chairman of the Committee.

(c) Requests for the opportunity to make oral statements shall be ruled on by the Chairman of the Committee, who is empowered to apportion the time available among those selected by him to make oral statements.

(d) Information as to whether the meeting or portions of the meeting have been cancelled or rescheduled, and in regard to the Chairman's ruling on requests for the opportunity to present oral statements, and the time allotted, can be obtained by a prepaid telephone call on April 10, 1974, to the Office of the Executive Secretary of the Committee (telephone: 301–973–5651) between 8:30 a.m. and 5:15 p.m. daylight saving time.

(e) Questions may be propounded only by members of the Committee and its consultants.

(f) The use of still, movie, and television cameras, the physical installation and presence of which will not interfere with the course of the meeting, will be permitted both before and after the meeting and during any recess. The use of such equipment will not, however, be allowed while the meeting is in session.

(g) Persons desiring to attend portions of the meeting where proprietary information is being discussed may do so by providing, 7 days prior to the meeting, a copy of an executed agreement to safeguard this material.

(h) A copy of the transcript of the open portions of the meeting will be available for inspection during the following workday at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. On request, copies of the minutes of the meeting will be made available for inspection at the Atomic Energy Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., on or after June 12, 1974. Copies may be obtained upon payment of appropriate charges.

JOHN C. RYAN,
Advisory Committee Management Officer.

[Docket No. 50–201]

NUCLEAR FUEL SERVICES, INC. AND NEW YORK STATE ATOMIC AND SPACE DEVELOPMENT AUTHORITY

License No. CSF–1; Applications for Amendments; Conversion to Full-Term Operating License; Time for Submission of Views on Antitrust Matter

Nuclear Fuel Services, Inc., and New York State Atomic and Space Development Authority (the applicants), have filed applications for amendments to License No. CSF–1, including any construction permit required for authorization to perform certain modifications to the West Valley Fuel Reprocessing Plant and authorization to operate the modified Facility for a term of 40 years. Pursuant to the Commission's order of November 13, 1973, published in the FEDERAL REGISTER on November 20, 1973 (38 FR 31985), the applications will be processed in accordance with the requirements of section 103 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations pertaining to applications for a license pursuant to section 103 of the Act.

An application was tendered by Nuclear Fuel Services, Inc., on October 3, 1973. Following a preliminary review for completeness, it was amended and resubmitted on December 13, 1973. The application for the New York State Atomic and Space Development Authority was submitted on December 13, 1973. The applications were docketed on December 17, 1973.

The West Valley Fuel Reprocessing Plant is located in the Western New York Nuclear Service Center in the town of Ashford, near Riceville, Cattaraugus County, New York, about thirty miles south of Buffalo. After modification, the reprocessing facility will have an operating capacity of approximately 750 metric tons of uranium per year.

A Note of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust aspects of the applications presented to the Attorney General for consideration shall submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attn: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, Regulation, on or before May 20, 1974.

The request should be filed in connection with Docket No. 50–201A.

Copies of the applications are available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Memorial Library of Little Valley, Main Street, Little Valley, New York.

The applicants have also filed, pursuant to the National Environmental Policy Act of 1969, and the regulations of the Commission in Appendix D to 10 CFR part 50, an environmental report dated December 13, 1973. The report has been made available for public inspection at the aforementioned locations. The report, which discusses environmental considerations related to the proposed modifications and subsequent operation of the modified West Valley Fuel Reprocessing Plant is also being made available at the State Clearinghouse, New York State Office of Planning Services, 488 Broadway, Albany, New York 12207 and at the Southern Tier West Regional Planning Board, 303 Court Street, Little Valley, New York 14755.

After the report has been analyzed by the Commission's Director of Regulations or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission, will among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 5th day of March 1974.

For the Atomic Energy Commission.

LELAND C. ROUSE,
Chief, Fuel Fabrication and Reprocessing Branch, Directorate of Licensing.

[FR Doc.74–6324 Filed 3–19–74;8:45 am]

[Docket Nos. STN 50–477, STN 50–478]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Receipt of Application for Site Construction Permits and Facility Licenses and Availability of Applicant's Environmental Report; Time for Submission of Views on Antitrust Matters

Public Service Electric and Gas Company (the applicant), on behalf of itself and Atlantic City Electric Company and Jersey Central Power & Light Company, pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed an application, which was docketed on March 1, 1974, for authorization to construct all necessary site related structures and to install two floating nuclear power plants, each of which incorporates a pressurized water reactor. An application filed by Offshore Power Systems for a license to manufacture these and other floating nuclear plants is currently under review. The floating nuclear plants will be manufactured in Jacksonville, Florida, and towed to selected sites. The Public Service Electric and Gas Company application was tendered on December 19, 1973. Following a preliminary review for completeness, the application was found acceptable for docketing on February 11, 1974.

V 39160 MAR 27 74 XUM

The application has been docketed under one of the options of the Commission's standardization policy for nuclear power plants, wherein applications may be filed utilizing reactors manufactured at a location different from where they will eventually be located. Docket Nos. STN 50–477 and STN 50–478 have been assigned to the application and should be referenced in any correspondence relating to the application.

The proposed nuclear facilities, designated by the applicant as the Atlantic Generating Station, Units 1 and 2, are to be moored behind a protective breakwater in the Atlantic Ocean approximately 2.8 statute miles off the southeastern coast of New Jersey. Each unit is to be designed for initial operation at 3411 megawatts thermal and a net electrical output of approximately 1150 megawatts.

A Notice of Hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before May 20, 1974. The request should be filed in connection with Docket Nos. STN 50–477A and STN 50–478A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20545, and at the Stockton State College Library, Pomona, New Jersey 08240.

The applicant has also filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in Appendix D to 10 CFR Part 50, an Environmental Report dated March 1, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facilities, is being made available for public inspection at the aforementioned locations and at the Division of State and Regional Planning, Department of Community Affairs, P.O. Box 2768, Trenton, New Jersey 08625.

After the Environmental Report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 7th day of March 1974.

For the Atomic Energy Commission.

KARL R. GOLLER,
Chief, Light Water Reactors Group 13, Directorate of Licensing.

[FR Doc.74–6323 Filed 3–19–74;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket No. 26528; Order 74–3–97]

AMERICAN AIRLINES, INC.

Order of Suspension and Investigation Regarding Fuel-Related Freight Rate Surcharge

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 22d day of March, 1974.

By tariff revisions filed February 22 and marked to become effective March 24, 1974, American Airlines, Inc. (American) proposes a 6 percent surcharge applicable to bulk minimum charges, general and specific commodity bulk and container rates, and small package charges between points in the 48 contiguous states. American's proposal utilizes a rule published in the rules tariff[1] including a 6 percent surcharge table, and applicable to freight rates and charges published in the various tariffs.[2]

In support of its proposal, American contends that, inter alia, the surcharge is required to offset the rapidly escalating costs of jet fuel; the average fuel cost for the domestic industry in January 1974 was 17.23 cents per gallon as compared with only 11.75 cents in fiscal year 1973—an increase of 47 percent; fuel surcharges have been recognized by the Federal Power Commission, and, only recently the Interstate Commerce Commission allowed truck rate surcharges to offset the increased cost of fuel; by ER–831, the Board provided for automatic fuel price increases for Logair and Quicktrans rates, and recommended a surcharge for overseas and foreign military rates in EDR–263; the Board has allowed fuel surcharges to become effective in certain charter tariffs; the proposed surcharge will not cause windfall profits for the carriers; the increase is based only upon known currently incurred costs and does not involve any projected or hypothetical costs; the proposal will not permit the carrier to recover any of the other cost increases that are presently being incurred; and, between June 1973 and January 1974, the domestic industry absorbed about $85 million in higher fuel costs.

American has made a showing of increased costs based upon industry figures. The Board has been aware of the unprecedented increases of fuel prices in recent months and believes that some adjustment in rates and charges is warranted to help offset these increased costs.

The carrier, however, has made no showing that the resultant increased rates for the several types of traffic are in line with costs in various markets. Based upon data available to the Board, the following increased rates are found to exceed costs:

1. Westbound bulk general commodity rates for markets with lengths of haul of 1,800 miles and over;

2. Westbound general commodity container rates and charges for hauls of 750 miles or over for container Types A, LD–7, LD–5, and D, hauls 2,200 miles or over for B–2's, and hauls 1,300 miles and over for other container types;

3. Eastbound general commodity rates and charges for Type D, LD–5, and LD–7 for hauls 750 miles or over;

4. Bulk specific commodity rates, westbound, in markets with lengths of haul 2,100 miles or over; and

5. All bulk rates on human remains.

In view of the foregoing and upon consideration of all relevant factors, the Board finds that American's proposal may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. The Board further concludes that this proposal should be suspended pending investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a) and 1002 thereof,

It is ordered, That: 1. An investigation be instituted to determine whether the charges and provisions for account of the carrier "AA" in Rule No. 59 on 6th, 7th and 8th Revised Pages 29 and 30 of Airline Tariff Publishers, Inc., Agent's C.A.B. No. 96, and rules, regulations, or practices affecting such charges and provisions are, or will be, unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful charges and provisions, and rules, regulations, or practices affecting such charges and provisions;

2. Pending hearing and decision by the Board, the charges and provisions for account of the carrier "AA" in Rule No. 59 on 6th, 7th, and 8th Revised Pages 29 and 30 of Airline Tariff Publishers, Inc., Agent's C.A.B. No. 96 are suspended and their use deferred to and including June 21, 1974, unless otherwise ordered by the Board, and that no changes be made there in during the period of suspension, except by order or special permission of the Board;

3. The proceeding herein, designated Docket 26528, be assigned before an Administrative Law Judge of the Board at a time and place to be designated; and

4. Copies of this order shall be filed with the tariff and served upon American Airlines, Inc., which is hereby made a party to Docket 26528.

[1] Airline Tariff Publishers, Inc., Agent, C.A.B. No. 96.

[2] The proposed surcharge applies in connection with rates and charges published in Airline Tariff Publishers, Inc., Agent, Tariffs C.A.B. No. 131, 140, 169, and 208.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74–7079 Filed 3–26–74;8:45 am]

[Docket No. 25427]

LAKER AIRWAYS LTD.

Notice of Reassignment of Oral Argument

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that the oral argument in this proceeding heretofore assigned to be held before the Board on May 15, 1974, is hereby reassigned to be held on April 17, 1974, at 10 a.m. (local time) in Room 1027, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C.

Dated at Washington, D.C., March 22, 1974.

[SEAL] RALPH W. WISER,
Chief Administrative Law Judge.

[FR Doc.74–7082 Filed 3–26–74;8:45 am]

[Docket No. 26352; Order 74–3–101]

SOUTHERN AIRWAYS, INC.

Order To Show Cause Regarding Application for Amendment of Certificate

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 22d day of March 1974.

On January 25, 1974, Southern Airways, Inc. (Southern), filed an application (Docket 26352) to redesignate the intermediate point Florence-Sheffield-Tuscumbia, Alabama, on segments 2 and 4 of Route 98, as Muscle Shoals-Florence-Sheffield-Tuscumbia, Alabama. In addition, Southern filed a petition seeking issuance of an order to show cause why its certificate should not be amended as requested.

No answers in opposition were filed. In support of the application, Southern submitted a letter dated January 14, 1974, from the Muscle Shoals Council of Local Governments requesting Southern to use the designation "Muscle Shoals, Ala." for all purposes in identifying air service to the area. The letter was signed by the Mayor of each concerned community, i.e., Florence, Sheffield, Tuscumbia and Muscle Shoals. Southern states that if the requested redesignation is granted, it will utilize the single identification "Muscle Shoals" to the extent practicable.[1]

Upon consideration of the application and all the revelant facts, we tentatively find and conclude that the public convenience and necessity require the amendment of Southern's certificate for Route 98 so as to change the name of the intermediate point "Florence-Sheffield-Tuscumbia" to "Muscle Shoals-Florence-Sheffield-Tuscumbia."

In support of our tentative conclusion, we find that Southern Airways was authorized to serve Florence-Sheffield-Tuscumbia, Ala., on a temporary basis in the *Southeastern Area Local-Service Case*, 30 C.A.B. 1318 (1959);[2] that Southern inaugurated service at Florence-Sheffield-Tuscumbia through the Muscle Shoals Airport on February 26, 1960, and has continuously served the area through the same airport since that date; and that the requested redesignation will help to alleviate confusion on the part of the traveling public as to the availability of air service at Florence-Sheffield-Tuscumbia and, particularly, at Muscle Shoals.

Interested persons will be given 20 days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of facts or law and should be supported by legal precedent or detailed economic analysis. If an evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That: 1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending Southern's certificate of public convenience and necessity for Route 98 so as to redesignate the intermediate point "Florence - Sheffield - Tuscumbia, Ala.," as "Muscle Shoals-Florence-Sheffield-Tuscumbia, Ala.";

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 20 days after the service of a copy of this order, file with the Board, and serve upon all persons made parties to this proceeding a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections;

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived, and the Board may proceed to enter an order in accordance with the findings and conclusions set forth herein; and

5. A copy of this order shall be served upon the cities of Florence, Sheffield, Tuscumbia and Muscle Shoals, Alabama; Southern Airways; and the Airport Manager, Muscle Shoals Airport, who are hereby made parties to this proceeding.

This order shall be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74–7080 Filed 3–26–74;8:45 am]

[1] The communities of Florence, Sheffield and Tuscumbia will continue to be shown in Southern's schedules and cross-referenced to "Muscle Shoals" as shown currently in the *Official Airline Guide*.

[2] The authority to serve Florence-Sheffield-Tuscumbia was made permanent in the proceeding entitled *Renewal of Southern Airways, Inc., Segments 1(b), 6, 8, 9, and 10, and Anniston, Alabama on Segment 1* (43 C.A.B. 498 (1966)).

CIVIL SERVICE COMMISSION

DEPARTMENT OF AGRICULTURE

Notice of Grant of Authority To Make Noncareer Executive Assignment

Under authority of § 9.20 of Civil Service Rule IX (5 CFR 9.20), the Civil Service Commission authorizes the Department of Agriculture to fill by noncareer executive assignment in the excepted service the position of Deputy Administrator-Program Operations, Farmers Home Administration.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

FEDERAL EMPLOYEES PAY COUNCIL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Public Law 92-463, notice is hereby given that the Federal Employees Pay Council will meet at 2 p.m. on Wednesday, April 3, 1974, to continue discussions on the fiscal year 1975 comparability adjustment for the statutory pay systems of the Federal Government.

In accordance with the provisions of section 10(d) of the Federal Advisory Committee Act, it was determined by the Director of the Office of Management and Budget and the Chairman of the Civil Service Commission, who serve jointly as the President's Agent for the purposes of the Federal pay comparability process, that this meeting of the Federal Employees Pay Council would not be open to the public.

For the President's Agent.

RICHARD H. HALL,
Advisory Committee Management Officer for the President's Agent.

CONSUMER PRODUCT SAFETY COMMISSION

SHOCK, FIRE, AND OTHER HAZARDS FROM TELEVISION RECEIVERS

Notice of Public Hearing

Correction

In FR Doc. 74-6475 in the issue of Friday, March 22, 1974, make the following change.

On page 10931, in the table under paragraph B of main paragraph IV., the first entry under the heading "Number of deaths" should be changed from "0" to "3".

ENVIRONMENTAL PROTECTION AGENCY

AMCHEM PRODUCTS, INC.

Notice of Extension of Temporary Tolerances

Amchem Products, Inc., Ambler, PA 19002, was granted temporary tolerances for negligible residues of the herbicide *N-sec*-butyl-4-*tert*-butyl-2,6 dinitroaniline in or on cottonseed and soybeans at 0.1 part per million on March 26, 1973, in connection with Pesticide Petition 2G1285 (notice was published in the FEDERAL REGISTER of March 30, 1973, (38 FR 8301)).

The petitioner has requested a 1-year extension of the temporary tolerances to obtain additional experimental data. It is concluded that such extension of the temporary tolerances for residues of the herbicide in or on cottonseed and soybeans at 0.1 part per million will protect the public health. A condition under which these temporary tolerances are extended is that the herbicide will be used in accordance with the temporary permit which is being issued concurrently and which provides for distribution under the Amchem Products, Inc. name.

As extended, these temporary tolerances expire March 26, 1975.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038).

Dated: March 18, 1974.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

[FR Doc.74-6997 Filed 3-26-74;8:45 am]

BASF WYANDOTTE CORP.

Notice of Extension of Temporary Tolerance

BASF Wyandotte Corp., 100 Cherry Hill Road, Post Office Box 181, Parsippany, NJ 07054, was granted a temporary tolerance for residues of the herbicide bentazon (3-isopropyl-1*H*-2,1,3-benzothiadiazin(4)-3*H*-one-2,2-dioxide) in or on the raw agricultural commodity soybeans at 0.05 part per million on March 30, 1973, in connection with Pesticide Petition No. 3G1309 (notice was published in the FEDERAL REGISTER of April 5, 1973 (38 FR 8691)). The temporary tolerance expires March 30, 1974.

The firm has requested a 1-year extension of the temporary tolerance to obtain addition experimental data. It is concluded that this extension of the temporary tolerance of 0.05 part per million for residues of the herbicide in or on soybeans will protect the public health. A condition under which this temporary tolerance is extended is that the herbicide will be used in accordance with the temporary permit which is being issued concurrently and which provides for distribution under the BASF Wyandotte Corp. name.

As extended, this temporary tolerance expires March 30, 1975.

This action is taken pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(j), 68 Stat. 516; 21 U.S.C. 346a(j)), the authority transferred to the Administrator of the Environmental Protection Agency (35 FR 15623), and the authority delegated by the Administrator to the Deputy Assistant Administrator for Pesticide Programs (36 FR 9038).

Dated: March 18, 1974.

EDWIN L. JOHNSON,
Acting Deputy Assistant Administrator for Pesticide Programs.

MOTOR VEHICLE EXHAUST EMISSION RETROFIT DEVICES

Voluntary Retrofit Evaluation Program

Notice is hereby given that the Environmental Protection Agency seeks public comment on proposed motor vehicle exhaust emission retrofit device evaluation protocols.

The air quality implementation plans approved or promulgated by the Environmental Protection Agency for a number of states pursuant to section 110 of the Clean Air Act include provisions for the implementation of programs to retrofit emission control devices to motor vehicles presently in use.

The basic technology for such devices is essentially proven. For each category of devices, either all or the major part of the preliminary development work has been done, and individual devices in the category should be ready for widespread commercial use by the time the plans require this. To ensure this, however, the work of converting the proven basic technology into satisfactory commercially available and mass-produced devices must be pursued vigorously. In particular, further testing of such devices in the same or almost the same form as proposed for commercial use is called for. This will assist the individual states for which retrofit programs are required in selecting the specific devices which will be made eligible for installation to comply with the applicable retrofit requirements.

To provide such test data, and to avoid unnecessary duplication of data gathering and testing programs, the Environmental Protection Agency proposes to establish a voluntary retrofit evaluation program. Under the voluntary evaluation program, developers or marketers of individual retrofit emission control devices would arrange with independent testing laboratories for testing of their devices according to procedures published by the Environmental Protection Agency. Such testing would be at the expense of the device proponent. The Environmental Protection Agency would maintain cognizance over such testing programs, and would evaluate and confirm the results in its own laboratory as necessary. The results of all evaluations under the program would be published by the Environmental Protection Agency for use by states and other interested parties.

Proposed protocols for the conduct of this voluntary retrofit evaluation program are set forth below for public comment. Interested persons may submit written comments on these proposed protocols (in quadruplicate) to the Environmental Protection Agency, Office of Mobile Source Air Pollution Control (AW 455), 401 M Street SW., Washington, D.C. 20460. All relevant comments received not later than May 13, 1974, will be considered in the preparation of final protocols for the voluntary program.

Comments received will be available for public inspection during normal working hours (8 a.m. to 4:30 p.m.) at the Office of Public Affairs, Environmental Protection Agency, 401 M Street SW., Room 329 C, Washington, D.C. 20460.

Dated: March 15, 1974.

JOHN QUARLES,
Acting Administrator.

1.0 *General provisions.*

1.1 *Program Goals.* The purpose of this program is to provide a standardized and centralized evaluation program to compile technical data on various exhaust emission retrofit devices. The program does not include test procedures suitable for the evaluation of fuels, fuel additives, refueling loss retrofit devices, or evaporative emission control retrofit devices.

Data generated under this program will be evaluated by the Environmental Protection Agency and published for use by those authorities, state and local, responsible for the implementation of transportation controls to assist in the achievement of ambient air quality goals. It should be stressed that the role of this program will be the generation, analysis, and dissemination of technical data, and not one of approval or certification of retrofit devices.

The program will primarily address the emission control potential, durability, and driveability and fuel consumption effects of specific retrofit devices presented for evaluation. Multiple vehicle testing will allow statistical analysis of the test results. Testing is intended to be performed at independent commercial testing laboratories, and will be subject to monitoring and inspection by the Environmental Protection Agency. All costs incurred in the evaluation other than those of the Environmental Protection Agency's participation will be the responsibility of the applicant for evaluation.

1.2 *Eligibility for participation.* Participation in this evaluation program will be available to any individual or company who agrees to follow the procedures set forth in these protocols. Failure to conform to any aspect of these protocols, without the approval of the Environmental Protection Agency, may be interpreted by the Environmental Protection Agency, as withdrawal from participation in the program.

1.3 *Applicant's responsibility.* Each applicant for evaluation under this program will be responsible for the following:

(a) Submission of an application, of specified format, to the Environmental Protection Agency prior to initiation of the evaluation. Each application shall include summaries of any information available to the applicant concerning:

(i) whether or not the device or system in its operation or function causes a motor vehicle equipped with that device or system to emit into the ambient air any substance (other than hydrocarbons, carbon monoxide, oxides of nitrogen, or normal atmospheric constituents such as oxygen, nitrogen, or water vapor) in a quantity differing from that emitted in the operation of the motor vehicle without such device or system, and

(ii) whether or not the device or system in its operation or function or malfunction results in any unsafe condition endangering the motor vehicle or its occupants or persons or property in close proximity to the vehicle.

(b) Arrangement with independent testing laboratories for testing necessary for all phases of the evaluation,

(c) Payment of all costs incurred in the evaluation except for the costs of Environmental Protection Agency participation,

(d) Submisssion of progress reports and notifications to the Environmental Protection Agency as specified in these protocols, and

(e) Submission of a final report, of specified format, to the Environmental Protection Agency promptly after completion of the evaluation (details in section 7.2).

1.4 *Definitions.* (a) Except as specifically defined below, all terms used in these protocols which are defined in the Clean Air Act (42 U.S.C. 1857) or Subpart A of Title 40, Part 85 of the Code of Federal Regulations shall have the meanings provided therein.

(b) "Retrofit" means the addition or removal of an item of equipment, or a required adjustment, connection, or disconnection of an existing item of equipment, for the purpose of reducing emissions.

(c) "Light duty vehicle" means, for the purpose of these protocols, a motor vehicle other than a motorcycle whose gross vehicle weight is 6000 pounds or less. This class includes both passenger cars and light trucks.

(d) "Medium duty vehicle" means, for the purpose of these protocols, a motor vehicle whose gross vehicle weight is greater than 6000 but not more than 10,000 pounds.

(e) "Baseline configuration" means the unretrofitted test configuration after appropriate tune-up maintenance has been performed.

(f) "Parametrically adjusted configuration" means the test configuration after adjustment of engine parameters to the retrofit specifications, but *excluding* retrofit hardware installation.

(g) "Retrofitted configuration" means the test configuration after adjustment of engine parameters to the retrofit specifications and after all retrofit hardware has been installed.

(h) "Zero device-miles" means that period of time between retrofit installation and the accumulation of 50 miles of vehicle operation after installation.

(i) "Emission data fleet" means a fleet of vehicles tested at "zero device-miles" to determine the average emission reduction associated with the retrofit device.

(j) "Durability fleet" means a fleet of vehicles operated for mileage accumulation used to assess deterioration effects associated with the retrofit device.

(k) "Federal emission test procedures" means the test procedures specified in § 85.075–7 through § 85.075–27 of Title 40, Chapter I, Part 85 of the Code of Federal Regulations in effect on the date of the adoption of these protocols, except

as those procedures are modified in these protocols.

2.0 *Emission test procedures.*

2.1 *Light duty vehicle emission testing.* For the purpose of evaluation under these protocols, testing will utilize a modified 1975 Federal emission test procedure. The following modifications will be allowable to the Federal emission test procedures for evaluation of light-duty vehicles under these protocols:

(a) No evaporative emission loss need be measured (with the exception of systems modifying or disconnecting existing evaporative control devices or systems in such a manner as would be expected to adversely affect their evaporative emission control performance).

(b) Vehicle pre-conditioning shall consist of operation of the vehicle through one hot-start LA–4 driving cycle. This preconditioning must be done at least 12 hours before but no earlier than 24 hours before the emission test.

(c) While the test fuel must meet the specifications outlined in the Federal emission test procedures, fuel conditioning as specified for evaporative emission test procedures is not required.

2.2 *Medium duty vehicle emission testing.* For the purpose of evaluation under these protocols, emission testing of medium duty vehicles will be performed using a modification of the Federal emission test procedures for light duty vehicles. The following modifications to the Federal emission test procedures shall be employed for medium duty vehicle retrofit evaluation under these protocols:

(a) No evaporative emission loss need by measured.

(b) Vehicle pre-conditioning may be limited to operation of the vehicle through one hot-start LA–4 driving cycle. This preconditioning must be done at least 12 hours but no earlier than 24 hours before the emission test.

(c) While the test fuel must meet the specifications outlined in the Federal emission test procedures, no heat build or fuel conditioning is required.

(d) The following equation and table shall be used to determine inertia test weight and power absorption for the emission test:

Inertia weight = 500 lbs. if gross vehicle weight minus curb weight equals 2000 lbs
curb weight + 1000 lbs. if gross vehicle weight minus curb weight is greater than 2000 lbs. but not more than 4000 lbs.
1500 lbs. if gross vehicle weight minus curb weight is greater than 4000 lbs.

(The inertia weight should be rounded off to the closest 500 pound increment).

Inertia weight:	Actual absorbed HP
4,500	13.1
5,000	17.9
5,500	22.7
6,000	27.5
6,500	32.3
7,000	37.1
7,500	41.9
8,000	46.7
8,500	51.5
9,000	56.3
9,500	61.1
10,000	65.9

2.3 *Emission test configurations.* In order to measure the effectiveness (at zero device-miles) of a retrofit device or system at least two, and in some cases three, vehicle configurations will be tested.

The first test configuration is a baseline test. In this test the baseline or unretrofitted vehicle emissions will be measured.

The second test may be required at the discretion of the Environmental Protection Agency for the following reason: If a device concept uses both hardware and engine parameter modifications jointly to achieve emission control, it is necessary to distinguish the hardware effects from the parameter adjustments effects. If, in the Environmental Protection Agency's judgment based on a review of the application for evaluation, the combined effects of retrofit hardware installation and parametric adjustment could be substantially duplicated by parametric adjustment alone, then the Environmental Protection Agency may specify a second test, defined as the parametrically adjusted configuration, to evaluate such adjustment exclusive of the retrofit hardware.

The third test will evaluate the full retrofit system installed on the vehicle.

3.0 *Durability test procedures.*

3.1 *Test configuration.* Vehicles included in the durability fleet will be subjected, at zero device-miles, to the same test sequence as is specified in section 2.3. Subsequently they will be tested at 3,000 device-mile intervals, up to and including the final mileage point of 15,000 device-miles.

Testing at these mileage points will be performed with the vehicle equipped with the full retrofit system. Subsequent to the 15,000 mile test, the vehicle will be tuned as necessary and the retrofit adjusted to the developer's specifications. The fully restored retrofitted configuration will then be tested. The retrofit system will then be removed from the vehicle and the vehicle set to manufacturer's specifications. A tuned baseline test will then be conducted.

3.2 *Mileage accumulation procedure.* Mileage accumulation procedures shall follow those outlined in the Federal emission test procedures. Both light and medium duty evaluations should use the light duty mileage accumulation schedule or a suitable alternate procedure approved by the Environmental Protection Agency. Alternate accumulation procedures may be approved by the Environmental Protection Agency prior to initiating durability testing. Fuel used in the mileage accumulation shall be a commercial fuel available in the retail market.

3.3 *Maintenance.* Maintenance during the durability portion of this evaluation will be allowed and can best be considered in three separate categories:

(a) Normal scheduled vehicle maintenance

(b) Unscheduled vehicle maintenance

(c) Retrofit maintenance

Normal scheduled vehicle maintenance can be defined as those periodic services vehicle operators do or should perform during the life of their vehicles. These procedures are specified in the original owner's manual supplied to the owner at the time of new vehicle purchase. In general they will include:

Oil changes & lubrication
Oil filter changes
Normal tune-up items:
(1) spark plugs
(2) condenser
(3) rotor
(4) distributor contact points
Air Cleaner Element
Inspect PCV
Dwell & Timing check
Charging circuit check

In the event that periodic maintenance items, other than those listed above, are specified by the manufacturer of the durability vehicle the manufacturer's recommendations should be followed. In this eventuality the Environmental Protection Agency shall be notified of the intent to perform additional periodic maintenance. This notification should detail both the nature and frequency of the additional planned maintenance.

Because the vehicles used for durability evaluation in this program will probably have considerable mileage accumulation and unknown maintenance prior to inclusion in the program, it can be anticipated that certain vehicle and engine failures may occur. These failures may be unrelated to the retrofit device. Unscheduled maintenance will be allowed only in those cases where poor vehicle operation has been indicated by the driver of the vehicle. With the exception of the following, the Environmental Protection Agency shall be notified of the failure and must approve the maintenance prior to correction of the problem.

Tire replacement (same size)
Vehicle body repairs (remote from engine and retrofit)
Windshield wipers
Fluid levels unrelated to retrofit
Brakes
Hoses unrelated to retrofit
Belts unrelated to retrofit
Suspension failures
Wheel alignment
Steering
Wheel bearings
Non-engine electrical system

No unscheduled maintenance of the engine or drivetrain may be made without Environmental Protection Agency approval. At the time of notification of a need for unscheduled maintenance the Environmental Protection Agency may require before and after maintenance emission tests. If any questionable failure occurs, a general rule to notify the Environmental Protection Agency prior to performance of corrective maintenance will be the safest course of action.

Certain retrofit devices may require periodic maintenance. These maintenance requirements shall be detailed in the application to the Environmental Protection Agency. Maintenance of the retrofit device shall be performed periodically as specified by the retrofit developer. Emission tests should be performed before and after this maintenance.

A log of *all* maintenance shall be kept for every vehicle. These logs will be summarized and reported to the Environ-

V 39 160 MAR 27 74 XUM

mental Protection Agency in the final report.

4.0 *Other test procedures.*

4.1 *Driveability effects.* It is important to assess the impact which installation of a specific retrofit device may have on vehicle driveability. Driveability assessment of the baseline configuration, of the parametric adjustment configuration (if required), and of the fully retrofitted configuration shall be conducted at zero device-miles for all vehicles included in the durability fleet. Driveability evaluation procedures to be used are presented in Appendix A.

4.2 *Fuel consumption effects.* Part of the cost or benefit of a retrofit system can stem from that system's effect on fuel consumption. Carbon balance fuel consumption shall be calculated for all emission tests in all configurations during the evaluation program. Details of the carbon balance calculation are presented in Appendix B.

4.3 *Specialized testing.* Certain individual retrofit devices, due to their specific characteristics, may change engine operation in such a way as to potentially impact engine durability or cause potentially hazardous operational characteristics. It can be visualized, for instance, that dangerous temperature conditions, high exhaust valve temperatures or excessive noise levels may be encountered for certain devices. Evaluation of these problem areas will be an essential part of the retrofit program. In general, specific evaluations will be limited to the durability fleet. The Environmental Protection Agency will specify any additional evaluations required for a particular device subsequent to the receipt of the retrofit evaluation application. These evaluations will be based on a technical review of the operating principles of the specific device.

5.0 *Vehicle fleet selection.*

5.1 *Emission data fleet.* In order to compile data on the effectiveness of specific devices which will ultimately allow state authorities to make realistic device approval decisions, the following statistical goals have been established for this program. It is desired that the experiment allow determination of the mean percent reduction (or increase) of hydrocarbons, carbon monoxide, and oxides of nitrogen within a band of ±5 percent with 90 percent confidence. For example, the results of a particular evaluation might state that the mean hydrocarbon reduction associated with the device is a measured reduction of 25 percent within a band of 20 to 30 percent with 90 percent confidence.

An analysis of the variance experienced in various device evaluations previously performed by the Environmental Protection Agency indicates that a maximum sample size of 113 vehicles should be needed to obtain the desired statistical assurance.

To determine the sample size required for a particular device evaluation, two approaches are available to the applicant. First, he may elect to use a sample size of 113 vehicles. Alternatively he may conduct a preliminary device evaluation using a 10 vehicle fleet approved by the Environmental Protection Agency. The preliminary test data will be analyzed for variance by the Environmental Protection Agency and a new sample size will be determined which could be 113 or fewer vehicles. The data from the 10 vehicles can be included in the overall analysis. To assure adequate test vehicle coverage of the in-use vehicle population a minimum of 25 vehicles will be tested. Discussion of the statistical test to be used for fleet sizing can be found in Appendix C.

Once the sample size has been determined, the Environmental Protection Agency will specify the test fleet makeup by model, model year, engine displacement and transmission type. The sample of vehicles to be tested will be representative of the distribution of vehicles in the national population to which the device applies. Because of their limited availability and relatively small impact on air quality, no vehicles more than ten years old will be selected for evaluation. As appropriate, the oldest model year represented will be weighted to account for those older vehicles still in use.

The above criteria apply to both light and medium duty evaluations.

5.2 *Durability fleet.* A fleet of ten vehicles whose composition has been approved by the Environmental Protection Agency shall be operated and tested through 15,000 miles of device operation. This criterion applies for both light and medium duty evaluations.

5.3 *Specialized testing.* Unless otherwise specified by the Environmental Protection Agency, the durability fleet vehicles will be used for those specialized analyses necessary to evaluate potential detrimental effects of retrofit installation and operation. These may include temperature measurement, cold environment starting, time to coolant boil over at idle, noise level, etc. Requirements and details will be specified by the Environmental Protection Agency after review of the application.

5.4 *Test vehicle tune-up.* All vehicles employed in evaluations within this program will be adjusted to the vehicle manufacturer's specifications prior to conducting baseline testing. The following items may be replaced as necessary with suitable OEM replacements:

Oil
Oil Filter
Air Cleaner Element
Spark Plugs
Condenser
Rotor
Distributor Points
Ignition Wires
Distributor Cap
PCV Valve

No adjustments or replacements can be made to any internal engine component. Exhaust systems must be repaired to provide a leak-free system. A close visual scrutiny of each vehicle in the program must be made to assure this leak-free condition. Replacement of exhaust systems should use OEM parts and at least 50 miles of break-in should be provided to remove cutting oil residue.

5.5 *Vehicle rejection.* No vehicle within the confines of the selection criteria may be rejected from the program once it has been received by the test facility unless such gross mechanical defects are exhibited as would severely threaten its ability to complete the testing sequence. While diagnostic or inspection tests may be conducted, in *no* case will vehicles be rejected due to the results of engine diagnostic tests or inability to adjust engine parameters to the automobile manufacturer's or retrofit installation specifications.

6.0 *Device installation.* In order to assess the requirements for proper device installation through this evaluation the following procedures should be followed:

(a) Installers should be selected by the testing laboratory who have had no previous experience with installation of the specific system under evaluation.

(b) The applicant will design and conduct necessary training sessions and supply printed instructions to the installers.

(c) The applicant will not directly participate in the installation task.

(d) Anomalies encountered during installation should be corrected. Details on the problem and actions required to avoid the problem in future installations shall be submitted in the final report.

(e) Accurate records of the time required for installation and tools or equipment used for installation must be kept.

7.0 *Program administration.*

7.1 *Application format.* In order to compile relevant data on specific retrofit control techniques and to allow timely response by the Environmental Protection Agency to requests for evaluation, a standard application format should be used. Submissions should be made to:

Director, Emission Control Technology Division
Environmental Protection Agency
2565 Plymouth Road
Ann Arbor, Michigan 48105
Attn: Retrofit Evaluation

Three weeks should be allowed for analysis of the submission and response. As indicated in other sections of this document, evaluation may not proceed prior to the Environmental Protection Agency's approval of test fleets, specification of necessity of parameter testing and other testing requirements, and approval of proposed maintenance.

To facilitate rapid response by the Environmental Protection Agency, the application should concisely and yet fully detail the following: (It is recommended that the topics be organized in the same manner as the following outline.)

APPLICATION FORMAT

I. Device or Control Technique Description
A. Operational theory
B. Hardware description
1. Component description
2. Connections and interfaces to vehicle and/or engine
3. Sensors or modulators and calibration and trigger points
4. Materials used in device construction
5. Parametric adjustments
C. Pictorials showing installation
D. Retail cost estimate (installed)
E. Useful life (method of testing and data)
II. Device Applicability
A. Applicability to vehicle population
1. By make and model
2. By model year
3. By engine
B. Exceptions (e.g., multiple carburetion, fuel injection, 4 cylinder engines, trailer towing, high speed, etc.)
III. Installation Requirements
A. Printed installation instructions
B. Mechanic training required
C. Tools and/or equipment required
D. Estimated installation time
E. Parametric engine adjustments
F. Diagnotic procedures (special equipment)
VI. Device Maintenance
A. Frequency
B. Maintenance description
C. Time required
D. Tools, equipment, materials
E. Estimated cost to consumer
F. Diagnostic procedures
V. Existing Test Data, including information required by Section 1.3(a) of these protocols
IV. Proposed Testing Laboratory
A. Facility description
B. Capabilities
C. Calibration and maintenance procedures

7.2 *Reporting format.* In order for the Environmental Protection Agency to quickly analyze and disseminate the results of retrofit evaluations, the following report format should be employed and submitted to:

Director, Emission Control Technology Division
Environmental Protection Agency
2565 Plymouth Road
Ann Arbor, Michigan 48105
Attn: Retrofit Evaluation

REPORT FORMAT

I. Retrofit Device Effectiveness Data (data fleet)
A. Summary
1. Applicability (device)
2. Observed mean percent reduction (See Appendix C)
B. Test Fleet Description (tabular)
1. Make and model
2. Model year
3. Engine (CID)
4. Carburetion
5. Transmission
6. Odometer mileage
7. Program car number
8. Vehicle serial number
C. Emission Data
1. Program car number
2. Baseline HC, CO, CO_2, NO^x, fuel
3. Parametric HC, CO, CO_2, NO^x, fuel consumption (if required)
4. Retrofitted HC, CO, CO_2, NO , fuel consumption
D. Discussion of Statistical Analysis (See Appendix C)
II. Durability Results (durability fleet)
A. Summary
1. Individual plots of HC, CO, NO^x, and fuel consumption versus mileage for the retrofitted vehicles.
2. Device deterioration factors for individual vehicles and fleet average (See analysis technique in Appendix C)
B. Test Fleet Description (tabular)
1. Make and model
2. Model year
3. Engine (CID)
4. Carburetion
5. Transmission
6. Odometer mileage (begin and end)
7. Program car number
8. Vehicle serial number
C. Emission Data versus Mileage (tabular)
1. Program car number
2. Retrofitted configuration HC, CO, CO_2, NO^x, and fuel consumption versus mileage
3. Percent reduction of the fully retrofitted configuration as compared to baseline after the 15,000 mile tune-up.
D. Vehicle and Device Installation and Maintenance
1. Detailed description of all maintenance performed
2. Emission test results, where requested, before and after maintenance
3. Installation time requirements
IIII. Results of Other Testing
A. Driveability
B. Special tests

7.3 *EPA Monitoring.* In addition to those aspects of normal contact with the applicant discussed in previous sections, the Environmental Protection Agency will, to the extent possible, monitor the progress and execution of the retrofit evaluations. This monitoring may include announced and unannounced visits to testing sites, checks of raw data files, and limited correlation and/or confirmatory testing in the Environmental Protection Agency's Ann Arbor laboratory (vehicle to be shipped to Ann Arbor at applicant's expense if required by the Environmental Protection Agency).

Deficiencies will be reported to both the laboratory and to the applicant in order to facilitate correction. If necessary, however, caveats concerning the validity of the test results will be added to the test report by the Environmental Protection Agency prior to dissemination.

7.4 *Laboratory qualifications.* In order to qualify as a testing laboratory for this program, a facility must be so equipped as to be capable of conducting emission tests according to the Federal test procedures as specified in these protocols. In addition, the test facility should have the capabilities required for device installation, vehicle maintenance, and other testing as discussed in previous sections.

APPENDIX A

. DRIVEABILITY EVALUATION PROCEDURES

I. *General Provisions.*

A. *Background.* In addition to its ability to reduce emissions, the effect of a retrofit device on vehicle driveability is an important consideration. Since the term driveability encompasses a large number of different characteristics of the way in which a vehicle responds to different actions by the driver, it is necessary to employ a standardized driveability test procedure if comparisons between vehicles with and without retrofit devices and among different retrofit devices are to be meaningful. This appendix presents standard driveability test procedures which are to be used in performing all driveability evaluations required under these protocols.

B. *Definitions of Driveability Terms.* (1) *Road Load.* A fixed throttle position which maintains a constant vehicle speed on a level road.

(2) *Wide Open Throttle (WOT) Acceleration.* An acceleration made entirely at wide open throttle (from any speed).

(3) *Part Throttle (PT) Acceleration.* An acceleration made at any throttle position less than WOT.

(4) *Light Throttle Acceleration.* A part throttle acceleration made at a constant throttle position of approximately one-fourth of full throttle (WOT) opening.

(5) *Detent.* That point in throttle opening immediately preceding the point at which the transmission kickdown function of an automatic transmission is energized. (For manual transmission vehicles, wide open throttle will be used in place of detent position).

(6) *Tip-In.* A maneuver to evaluate vehicle response (up to two seconds in duration) to the initial opening of the throttle.

(7) *Crowd.* An acceleration made at a constant intake vacuum just prior to power enrichment (continually increasing throttle opening).

(8) *Idle Quality.* An evaluation of *vehicle* smoothness with the engine idling, as judged from the driver's seat.

(9) *Backfire.* An explosion in the induction or exhaust system.

(10) *Hesitation.* A temporary lack of initial response in acceleration rate to throttle opening.

(11) *Stumble.* A short, sharp reduction in acceleration rate.

(12) *Stretchiness.* A lack of anticipated response to throttle movement. This may occur on slight throttle movement from road load or during light to moderate accelerations.

(13) *Surge.* A continued condition of short, sharp fluctuations in power. These may be cyclic or random and can occur at any speed and/or load. Surge is usually caused by overlean carburetor mixtures.

(14) *Trace.* Rating of a malfunction that is just discernable to a test driver.

(15) *Moderate.* Rating of a malfunction that is judged to be probably noticeable to the average driver.

(16) *Heavy.* Rating of a malfunction that is pronounced and judged to be obvious to any driver.

II. *Test Procedures.*

A. *General Considerations.* (1) *Types of Testing Required.* Each driveability test consists of two parts, a cold driveability portion and a hot driveability portion. The cold portion of the test evaluates the starting characteristics of the vehicle, idle quality when cold, and driveability during a sequence of acceleration, low speed cruise, and idle modes as the engine warms up. The hot portion of the test evaluates the vehicle's driveability in a fully warmed-up condition during a series of cruise modes of different speeds, during various types of acceleration modes, and during idle. Evaluation of engine shut-down (for dieseling) and hot-restart are also made. The cold start testing is performed after an overnight soak at moderate (60–86 deg. F.) ambient temperature; no evaluation is made of vehicle starting or warm-up characteristics which would be encountered after overnight soak at low ambient temperatures.

(2) *Test Drivers.* A full driveability sequence (cold and hot portions) shall be performed on each vehicle configuration by each of three different test drivers. This is done to minimize the effect on the driveability rating given a vehicle configuration of the different subjective judgments made by different drivers. The same three drivers should be used to evaluate the baseline, retrofitted, and parametrically adjusted (if required) configurations of a given vehicle. The drivers shall not be informed as to what alterations or additions, if any, have been made to the vehicle, and the test driver should be given the opportunity to repeat any particular mode of the test sequence if necessary to confirm his evaluation. If possible, driver and observer teams should be used for the evaluations.

V 39 160 MAR 27 74 XUM

(3) *Test Facilities.* Driveability testing must be performed on a dry, level, smooth-surfaced track or highway. If a highway is used, care should be taken to eliminate any traffic interference, as well as any traffic-induced effects.

(4) *Data Recording.* Data should be recorded during the course of each portion of the driveability test, either by the observer, or by the driver at an appropriate portion of the driving sequence. Recommended formats for the data recording sheets are shown in Figures A–1 through A–4.[1]

B. *Cold Driveability Portion.* (1) Prior to initiating the cold driveability portion of the test, the vehicle shall have been allowed to "soak" without having been operated for a period of at least twelve hours in an area where the ambient temperature is maintained between 60° F. and 86° F.

(2) Record all necessary vehicle and test information as indicated on data sheet 1 (Figure A–1).

(3) Start engine per owner's manual procedure and record start time.

(4) Record engine speed and idle quality in Neutral or Park immediately after start, with foot removed from throttle pedal (fast idle cam).

(5) If engine stalls, repeat steps 3 and 4.

(6) After 5 seconds from start, accelerate engine briefly, and again release throttle; record engine speed, idle quality, and/or number of stalls. If engine stalls, repeat steps 3 through 6.

(7) After 10 seconds from start, apply brakes, shift to normal drive range, and record engine speed, idle quality and stalls. (This step may be omitted for vehicles equipped with manual transmissions.)

(8) After 15 seconds from start, make a light throttle acceleration to 25 mph at a constant throttle opening. (Use manufacturer's recommended shift points for manual transmission.) Cruise at 25 mph for 0.1 mile (to check for choke loading), open throttle to detent and accelerate from 25 to 35 mph at constant throttle in top gear. Decelerate to a stop and accelerate WOT to 35 mph. (For manual transmission vehicles, accelerate WOT from 20 to 35 mph in gear recommended by manufacturer for this speed range.) Decelerate to 10 mph and accelerate 10 to 25 mph at constant light throttle.

(9) Observe and record any malfunctions such as the following:

(a) Hesitations
(b) Stumbles
(c) Surge
(d) Stalls
(e) Backfires

(10) At 0.5 miles from start, brake moderately to a stop. Idle for 30 seconds in drive range (neutral for manual transmission) and record engine speed, intake vacuum, and idle quality.

(11) Repeat steps 8, 9, and 10 through 1.5 miles from start (3 cycles).

(12) Make a light throttle acceleration to 45 mph at constant vacuum (crowd condition to check lean operating with choke off). (For manual transmission vehicles, make constant vacuum acceleration in high gear from lowest speed attainable in that gear to 45 mph.) Decelerate 45 to 25 mph, open throttle to detent and accelerate from 25 to 35 mph at constant throttle in top gear. Decelerate to a stop and accelerate WOT to 35 mph. (For manual transmission vehicles, accelerate WOT from 20 to 35 mph in gear recommended by manufacturer for that speed range.) Decelerate to 10 mph and accelerate 10 to 25 mph at constant light throttle. Repeat steps 9 and 10 above.

(13) Repeat step 12 through 6.4 miles from start (7 cycles).

C. *Hot Driveability Portion.* (1) Warm up vehicle for about 10 miles at 70 mph.

(2) Evaluate curb idle in Neutral and Drive (automatic transmission only) range. Record engine speed, intake vacuum and idle quality.

(3) Cruise at road load from 20 through 70 mph at 10 mph increments, and record stretchiness and surge.

(4) Accelerate WOT from 0 to 30 mph at sudden, moderate and slow throttle opening rates. (For manual transmission, accelerate WOT from 20 to 30 mph in gear recommended by manufacturer for this speed range.) Record hesitation, stumble, and surge.

(5) Accelerate PT from 0 to 30 mph (20 to 30 mph for manual transmission) at constant throttle positions of ¼, ½, and ¾ throttle. Record hesitation, stumble, and surge.

(6) Evaluate part throttle crowds in high gear at constant vacuum from the minimum speed attainable in high gear to 70 mph (or the maximum speed at each vacuum if less than 70 mph). Several runs are to be made at different vacuums to determine the worst surge condition. Also record hesitations and stumbles.

(7) Evaluate "tip-in" characteristics by making several PT accelerations in high gear from 20 to 30 mph. Do not accelerate at a throttle opening which will cause the automatic transmission to downshift. Record hesitations and stumbles.

(8) Accelerate WOT from 0 to 70 mph and record acceleration time. Drive 5 miles at 70 mph and brake moderately to stop. Idle for 30 seconds, shut off engine, and soak for 15 minutes.

(9) After hot soak, restart engine according to manufacturer's hot-start procedure (record start time and number of attempts). Return to idle, and maintain idle for 60 seconds in Neutral (record engine speed, intake vacuum, and idle quality). If engine stalls during the 60 second idle, repeat this hot-start and idle procedure.

III. *Data Analysis & Reporting.* In evaluating the effectiveness of a retrofit device, the *difference* in scores for the vehicle with and without the device is important, rather than the absolute value of either score. Thus, variations in the severity of different drivers' evaluations will be nullified. The final rating assigned to a vehicle configuration will be the average of the three drivers' scores.

Driveability demerits to be used in scoring the results of driveability evaluations are given in the table below:

Demerit summary schedule

Function rated	Demerits				Weighting factor	Weighted demerits			
	T	*M*	*H*	*Yes*		*T*	*M*	*H*	*Yes*
Idle roughness	1	2	4	-------	1	1	2	4	-------
Hesitation	1	2	4	-------	6	6	12	24	-------
Stumble	1	2	4	-------	6	6	12	24	-------
Surge	1	2	4	-------	4	4	8	16	-------
Stall at start									8
Stall, driving									32
Backfire	1	2	4	-------	6	6	12	24	-------
Stretchiness	1	2	4	-------	1	1	2	4	-------
Starting time									(1)

[1] Starting time demerits computed as (seconds−2.0)×0.1.

The purpose of the weighting factor is to assign relative importance to the malfunctions encountered; i.e., a driving stall is more significant to vehicle operational safety than idle roughness. As can be seen, stalls are given only a weighted demerit. When compiling demerits for any maneuver only the most severe malfunction is considered. For example, if during an acceleration a trace hesitation, heavy stumble, and moderate surge were all encountered, the demerits assigned would be based on the heavy stumble. The weighted demerits for the maneuver would be 4×6, or 24 demerits. After each mode of operation has been thus evaluated, a total weighted demerit rating (TWD) can be assigned to a vehicle. Where the driveability test sequence calls for repetition of a given sequence of operating modes, each repetition is scored separately and included in the total rating.

The results of the driveability tests shall be submitted with the final retrofit evaluation report. The results are to be in tabular form showing the total demerits associated with each test configuration and the difference in demerits between the baseline and the parametric and retrofit test configurations. Results are to be reported both for each individual durability test vehicle and for the average of all durability vehicles.

Appendix B

Calculation of Fuel Consumption Data

Fuel consumption over the 1975 Federal emission test procedure will be calculated for each vehicle emission test performed as part of a retrofit evaluation. Fuel consumption will be calculated from the emission test results using the carbon balance technique which is based on the fact that the total mass of carbon (in the form of unburned hydrocarbons, carbon monoxide, and carbon dioxide) emitted by the vehicle per mile of travel provides a measure of the fuel consumed by the vehicle over that distance.

Fuel consumption will be calculated according to the following equations:

$$\text{mpg}=\frac{\text{grams of carbon/gallon of fuel}}{\text{grams of carbon in exhaust/mile}}$$

$$=\frac{(K_1)\ (\text{grams/gallon})}{(K_1)\ (\text{grams HC/mi})+(K_2)\ (\text{grams CO/mi})+(K_3)\ (\text{grams CO}_2\text{/mi})} \quad \text{(I)}$$

where:

K_1 = carbon weight fraction of gasoline or unburned HC, (mol. wt. C)/(mol. wt. $CH_{1.85}$) = 0.866

K_2 = carbon weight fraction of CO, (mol. wt. C)/(mol. wt. CO) = 0.429

K_3 = carbon weight fraction of CO_2, (mol. wt. C)/(mol. wt. CO_2) = 0.273

grams/gallon = mean density of Indolene 30 test fuel = 2789

grams HC/mi = weighted average gm/mi of HC over the 1975 Federal test procedure as calculated according to 40 CFR 85.-075–26, and similarly for grams CO/mi and grams CO_2/mi

$$\text{fuel consumption}=\frac{1}{\text{mpg}} \quad \text{(II)}$$

[1] Filed as part of the original document.

In calculating mean fuel consumption figures for purposes of reporting data on retrofit evaluations, it is necessary to average the fuel consumption values calculated according to equation (II), rather than averaging the mpg figures calculated according to equation (I).

Appendix C

Statistical Procedures

I. *Determination of Emission Data Fleet Size.* Under these protocols, the applicant will elect to use either a one-stage or a two-stage sampling procedure for determining the size of the emission data fleet. The two-stage procedure requires a separate initial testing program and additional statistical analysis, but may result in a smaller total testing requirement than the one-stage procedure.

A. *One-Stage Sampling Procedure.* If the applicant elects the one-stage sampling procedure, the size of the emission data fleet is automatically set at 113 vehicles. This number has been determined by the Environmental Protection Agency based upon the desired statistical confidence in the mean emission reduction for the emission data fleet and the variability observed in previous device evaluations conducted by the Environmental Protection Agency. The composition of the fleet in terms of models, model years, engine displacements, and transmission types to be included will be specified by the Environmental Protection Agency, considering the applicability of the device specified in the application for evaluation.

B. *Two-Stage Sampling Procedure.* If the applicant elects to employ the two-stage sampling procedure, he will be required to arrange initially for emission data (zero device-mile) testing of a 10 vehicle fleet. The composition of the initial fleet will be specified by the Environmental Protection Agency after review of the application for evaluation.

Based upon the results of such testing, the applicant will be required to report to the Environmental Protection Agency separately for each pollutant (HC, CO, and NOx) the individual vehicle test results, the sample mean percent reduction ($\bar{p}$), and the sample variance (s^2). (See equations (C-2) and (C-3), below.)

$$P_i=\frac{Y_{ri}-Y_{ci}}{Y_{ri}}\times 100\% \quad \text{(C-1)}$$

where:

P_i = percent reduction (increase) in emissions or fuel consumption for the i^{th} vehicle,

Y_{ri} = baseline emissions in grams/mile or fuel consumption in gallons/mile for the i^{th} vehicle, and

Y_{ci} = emissions in grams/mile or fuel consumption in gallons/mile for the i^{th} vehicle in the retrofitted (or parametrically adjusted) configuration.

$$\bar{p}=\frac{\sum_{i=1}^{n} P_i}{n} \quad \text{(C-2)}$$

where:

$\bar{p}$ = sample mean percent reduction of the retrofitted (or parametrically adjusted) configuration relative to the baseline configuration, and

n = total number of vehicles in the sample.

$$s^2=\frac{\sum_{i=1}^{n}(P_i-\bar{p})^2}{n-1} \quad \text{(C-3)}$$

where:

s^2 = sample variance.

The required size of the second sample (the remainder of the emission data fleet which will be required to be tested) will be determined by the Environmental Protection Agency using the data submitted for the initial fleet. The total size of the emission emission data fleet will be selected to provide assurance that the mean percent reduction of each pollutant can be bracketed within a band of at most plus or minus five percent with 90% confidence. The procedure which will be used to size the second sample is discussed in "Estimation by Double Sampling", by W. E. Cox (Biometrica, 1952, Vol. 39). The sample size is given by:

$$n=\frac{4s_1^2}{\Delta^2}\left(1+\frac{2}{N}\right)g_\alpha^2 \quad \text{(C-4)}$$

where:

n = size of total test sample,

s_1^2 = variance of first sample,

Δ = full width of desired confidence interval,

N = sample size of first sample, and

g_α = the normal deviate exceeded with probability α. In this case, $N=10$, and $\Delta=0.10$ and $g_\alpha=1.645$ to achieve the desired confidence intervals. Thus, equation (C-4) reduces to:

$$n=1298.9(s_1^2) \quad \text{(C-5)}$$

where:

s_1^2 is expressed in decimal fractions and n, the total sample size, is taken to the next higher integer.

Thus, the Environmental Protection Agency will use formula (C-5) and the results of the initial fleet test to determine the total size of the emission data fleet. The total sample size will be the largest of the three values of "n" calculated from equation (C-5) for the three pollutants, but in no case will the total sample size be selected at a value greater than 113 vehicles. The initial fleet of 10 vehicles will be counted as part of the total emission data fleet, and the Environmental Protection Agency will specify the composition of the remainder of the fleet.

II. *Statistical Analysis of Test Results for Reporting.*

A. *Emission Data Fleet.* (1) *Calculation of Mean Percent Reductions.* For each pollutant and for fuel consumption, the mean percent reduction ($\bar{p}$) will be calculated according to equation (C-2). Data from all emission data vehicles tested, including the initial 10 vehicle fleet for the two-stage sampling procedure, will be used.

(2) *Calculations of Confidence Intervals.*

For each pollutant and for fuel consumption, the 90% confidence interval around $\bar{p}$ will be calculated as follows:

$$90\%\ \text{confidence interval}=\bar{p}\pm(1.645)\frac{s}{\sqrt{n}} \quad \text{(C-6)}$$

where:

s = the standard deviation, the square root of the variance, and

n = the size of the total emission data fleet.

(3) *Calculation of the Median.* The median is the point on the scale of observations on each side of which there are equal areas under the frequency distribution, the 50th percentile point. Thus, the median is the middle observation if there are an odd number of observations. The median is the mean of the two central observations if there are an even number of cases. For each pollutant and for fuel consumption, the median will be computed.

(4) *Outlier Analysis.* An outlier is defined as any observation which is greater than $\bar{p}+3s$ or less than $\bar{p}-3s$ where $\bar{p}$ is the sample mean percent reduction and s is the sample standard deviation. For each pollutant and for fuel consumption, all outliers will be listed along with an explanation of possible causes.

(5) *Histograms.* For each pollutant and for fuel consumption, a histogram will be calculated. The histogram should contain approximately $\sqrt{n}$ subdivisions where n is the total sample size.

(6) *Ranked List of Observations.* For each pollutant and for fuel consumption, a separate ranked list of test results will be prepared listing all results in order of decreasing percent reduction. These lists will be used by the Environmental Protection Agency to extract any patterns which are present in the data. Each list should present for all three pollutants and fuel consumption the percent reduction, baseline, and retrofitted (or parametrically adjusted) values, and the car number, make, model year, and engine displacement.

(B) *Durability Fleet.* (1) *Graphical Presentation of Data.* Individual plots will be prepared for each vehicle for each pollutant and for fuel consumption showing the observed absolute emission or fuel consumption levels at each mileage test point for the fully retrofitted configuration.

2. *Calculation of Deterioration Factors.* For each pollutant and for fuel consumption, separate linear regression equations will be fitted for each vehicle using a least-squares regression procedure. The model to be used in the regression fit is:

$$c=ax+b \quad \text{(C-7)}$$

where:

c = emission or fuel consumption level as a function of mileage,

x = mileage, and

a, b = constants determined through least-squares regression.

For each vehicle, a deterioration factor (d_i) will be calculated for each pollutant and for fuel consumption as follows:

$$d=\frac{a_i}{b_i} \quad \text{(C-8)}$$

where:

d_i = deterioration factor for the i^{th} vehicle for a given pollutant or fuel consumption,

a_i = slope of linear regression equation for the i^{th} vehicle, and

b_i = intercept of the linear regression equation for the i^{th} vehicle.

The mean deterioration factor for each pollutant and for fuel consumption will then be calculated as follows:

$$\bar{d}=\frac{\sum_{i=1}^{10} d_i}{10} \quad \text{(C-9)}$$

[FR Doc.74-6848 Filed 3-26-74;8:45 am]

MINNESOTA AIR QUALITY IMPLEMENTATION PLAN

Notice of Cancellation of Public Hearing

On February 4, 1974 (39 FR 4503), notice was given that a public hearing under section 110(f) of the Clean Air Act would be held on March 26, 1974, in Duluth, Minnesota, to consider the postponement of the requirements of Regulation APC–5 of the State of Minnesota Implementation Plan to Achieve and Maintain Air Quality Standards as applied to the kraft pulp and paper mill located in International Falls, Minnesota, owned and operated by the Boise Cascade Corporation. Notice of postponement of the public hearing was given on February 28, 1974 (39 FR 7836), rescheduling the public hearing for April 2, 1974, in Duluth, Minnesota.

On March 18, 1974, the Governor of Minnesota withdrew his request that the Environmental Protection Agency postpone for one year the requirements of Regulation APC–5 of the State of Minnesota Implementation Plan, as said regulation applies to the Boise Cascade Corporation kraft pulp and paper mill in International Falls, Minnesota. Notice is hereby given that the public hearing, scheduled to be convened on April 2, 1974, beginning at 9:30 a.m., at the United States District Court, 515 West 1st Street, Duluth, Minnesota, is cancelled.

Dated: March 22, 1974.

ALAN G. KIRK,
Assistant Administrator for Enforcement and General Council.

[FR Doc.74–7241 Filed 3–26–74;10:20 am]

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 19967, 19968; File Nos. BPH-8289, BPH–8375]

KBND, INC., AND JUNIPER BROADCASTING, INC.

Order Designating Applications for Consolidated Hearing on Stated Issues

In re applications of KBND, Inc., Bend, Oregon, requests: 94.1 MHz, #231; 32.5 kW (H&V); 542 feet; Juniper Broadcasting, Inc., Bend, Oregon, requests: 94.1 MHz, #231; 50 kW (H&V): 1.909 feet; for construction permits.

1. The Commission, by the Chief Broadcast Bureau, acting pursuant to delegated authority, has under consideration the above-captioned applications which are mutually exclusive in that they seek the same channel in the same community.

2. Data submitted by the applicants indicate that there would be a significant difference in the sizes of the areas and populations which would receive service from the proposals. Consequently, for the purposes of comparison, the areas and populations which would receive primary service, together with the availability of other primary aural services (1 mV/m or greater in the case of FM) in such areas will be considered under the standard comparitive issue, for the purpose of determining whether a comparative preference should accure to either of the applicants.

3. Except as indicated by the issues specified below, the applicants are qualified to construct and operate as proposed. However, since the proposals are

V 39 I 60 MAR 27 74 XUM

mutually exclusive, they must be designated for hearing in a consolidated proceeding on the issues specified below.

4. Accordingly, *it is ordered*, That, pursuant to section 309(e) of the Communications Act of 1934, as amended, the applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent Order, upon the following issues:

1. To determine which of the proposals would, on a comparative basis, better serve the public interest.

2. To determine, in the light of the evidence adduced pursuant to the foregoing issue, which of the applications should be granted.

5. *It is further ordered*, That, to avail themselves of the opportunity to be heard, the applicants herein, pursuant to section 1.221(c) of the Commission's rules, in person or by attorney, shall, within 20 days of the mailing of this Order, file with the Commission in triplicate, a written appearance stating an intention to appear on the date fixed for the hearing and present evidence on the issues specified in this Order.

6. *It is further ordered*, That the applicants herein shall, pursuant to section 311(a)(2) of the Communications Act of 1934, as amended, and section 1.594 of the Commission's rules, give notice of the hearing, either individually or, if feasible and consistent with the rules, jointly, within the time and in the manner prescribed in such rule, and shall advise the Commission of the publication of such notice as required by section 1.594(g) of the rules.

Adopted: March 15, 1974.

Released: March 19, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

NATIONAL INDUSTRY ADVISORY COMMITTEE—AERONAUTICAL COMMUNICATIONS SERVICES SUBCOMMITTEE

Notice of Meeting

Pursuant to the provisions of Public Law 92-463, announcement is made of a public meeting of the Aeronautical Communications Services Subcommittee, National Industry Advisory Committee, to be held Thursday, April 11, 1974. The committee will meet at the FCC (Annex) 1229 20th Street, NW., at 10 a.m. in conference room #205.

Purpose. To consider, prepare and submit recommendations to the Federal Communications Commission concerning a Draft Aeronautical Emergency Communications Systems (AECS) Plan.

Agenda. The Agenda for the meeting is as follows:

Item ----------

1. Proposed new Part 87, Subpart Q—National Defense, of the Federal Communications Commission Rules and Regulations.
2. Final draft of the Basic Aeronautical Emergency Communications Systems Plan.
3. New Business.

It is suggested that those desiring more specific information about the meeting telephone the Emergency Communications Division, FCC (202) 632-7232.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

[Docket Nos. 19870, 19871; FCC 74R-101]

WINDHAM BROADCASTING GROUP AND NUTMEG BROADCASTING CO.

Memorandum Opinion and Order Enlarging Issues

In re applications of Kenneth N. Dawson and Randall M. Mayer, d/b/a Windham Broadcasting Group, Willimantic, Connecticut, Docket No. 19870, File No. BPH-8177; The Nutmeg Broadcasting Company, Willimantic, Connecticut, Docket No. 19871, File No. BPH-8113; for construction permits.

1. This proceeding involves the mutually exclusive applications of Windham Broadcasting Group (Windham) and The Nutmeg Broadcasting Company (Nutmeg) for a permit to construct and operate a new FM broadcast station on Channel 252A in Willimantic, Connecticut. Nutmeg is presently the licensee of Connecticut standard broadcast Stations WILI, Willimantic; WNTY, Southington; and WINY, Putnam. By Order, 38 FR 34362, published December 13, 1973, the Chief of the Broadcast Bureau, acting pursuant to delegated authority from the Commission, designated the applications for consolidated hearing. Presently before the Review Board is a motion to enlarge issues, filed December 28, 1973, by Windham, seeking addition of Rule 1.65 and 1.615 issues against Nutmeg.[1]

2. Windham alleges that Rule 1.65 and 1.615 issues are required because Nutmeg filed inconsistent, tardy, and erroneous information with the Commission in its application and Ownership Reports. In support of the requested 1.65 issue,[2] Windham avers that Nutmeg's Ownership Report, dated February 7, 1973, and filed February 13, 1973, discloses certain stock transfers that were never reported in Nutmeg's original application or subsequent amendments thereto. Specifically, petitioner alleges that Herbert C. Rice transferred gifts of Class B common stock to various persons on December 31, 1971, February 2, 1972, and February 1, 1973,[3] and that none of these gifts are reflected in the ownership information submitted by Nutmeg in its application filed October 17, 1972, or amendments thereto, filed November 22, 1972, and January 29, 1973. Windham further alleges that Nutmeg's explanation, set forth in its November 22, 1972, amendment, the Edward G. Gerbic *then* owned no stock in Nutmeg, is apparently erroneous since Nutmeg's ensuing amendment, filed January 29, 1973, discloses that Gerbic did not sell his interest in Nutmeg until December 20, 1972. Finally, Windham contends that paragraph 11, section II, page 2 of the November 22, 1972, amendment fails to reflect the retirement of Gerbic's stock. The request for the 1.615 issue[4] is predicated upon Nutmeg's alleged failure to comply with that provision relative to the December 31, 1971, and February 2, 1972, stock transfers. In this regard, Windham maintains that Nutmeg's Ownership Reports were untimely filed since the above sets of gifts of Class B common stock were not reported until the February 13, 1973, Ownership Report.

3. The Broadcast Bureau supports Windham's motion. In addition, the Bureau contends that Nutmeg's failure to properly report the stock ownership in its original application is an apparent violation of Commission Rule 1.514.[5] The Bureau supports a full inquiry into the Gerbic stock discrepancy unless a satisfactory explanation is offered by Nutmeg. Finally, based upon information contained in Nutmeg's "reply" to Windham's motion to enlarge issues,[6] the Bureau suggests that a possible further violation of Rule 1.615 may exist since, as of January 9, 1973, Nutmeg had not filed the required Form 323 reflecting a transfer of 100 shares of Class A stock on December 10, 1973, from Herbert C. Rice to Ethel A. Rice.

4. In response, Nutmeg concedes that its Ownership Reports were tardy, relative to the Class B common stock transfers, and that such information was not properly reflected in its original application. Respondent explains, however, that the gifts were part of an estate plan prepared by local attorneys and that the information was inadvertently not transmitted to its Washington counsel.[7] Although the error was discovered in February 1973, respondent continues, and the Ownership Reports updated, Nutmeg alleges that it "forgot" to amend its application to properly reflect this information. Nutmeg declares that it was not its intention to deceive the Commission and that the stock transfers did not involve a shift in control since the Class B common stock is non-voting stock. Respondent further declares that an amendment is being properly filed to cover all Class B and Class A stock transfers to date.[8] Respondent, however, disputes allegations relating to the circumstances surrounding the reporting of the Gerbic stock purchase and the transfer of Class A stock to Ethel Rice. Respondent maintains, with respect to the former, that it submitted the proper information[9] in its January 29, 1973, amendment[10] and, as for the latter, that an FCC Form 323 was filed on December 12, 1973, to reflect this stock gift.[11] Nutmeg requests that the issues not be expanded, arguing that the Commission's rules and regulations are "burdensome for the small station operator", and that the issues should not be clouded with "trivia".

5. In reply, Windham concurs with the Bureau that Nutmeg's failure to submit accurate stock information in its application is an apparent violation of Rule 1.514, and contends that specific reference to that rule is appropriate in its requested issues since its motion articulates clear violations of Rule 1.514. In addition, Windham alleges that there are other discrepancies contained in Nutmeg's responsive pleading, and argues that these additional questions support the requested issues.

6. At the outset, it appears from the pleadings that Nutmeg violated Rule 1.514 by not filing an accurate and complete application with regard to its stock ownership, and Rules 1.615 and 1.65 in not reporting the gift transfers of the Class B common stock in a timely fashion.[12] *Cf. Athens Broadcasting Co., Inc.*, 37 FCC 2d 374, 25 RR 2d 488 (1972); *RKO General, Inc.*, 34 FCC 2d 265, 24 RR 2d 16 (1972). The applicant's reliance upon local attorneys to inform Washington counsel does not absolve it of responsibility to timely report the above information. *Cf. Ultravision Broadcasting Co.*, 11 FCC 2d 394, 407, 12 RR 2d 137, 152 (1968), review denied, FCC 68-1078, October 30, 1968, affirmed *sub nom. WEBR, Inc.* v. *FCC*, 136 U.S. App. D.C. 316, 420 F. 2d 158, 16 RR 2d 2191 (1969); *Milton Broadcasting Company*, 34 FCC 2d 1036, 24 RR 2d 369 (1972); affirmed *sub nom. Mapoles* v. *FCC*, Case No. 72-1583, D.C. Cir., January 31, 1973. In the Board's view, Nutmeg's explanation regarding admitted violations appears to reflect carelessness and inattentiveness in preparing and updating its application and Ownership Reports. Even now, the applicant's amendment (see note 8, *supra*) contains at least two additional discrepancies.[13] Moreover, the question concerning the date when Nutmeg reported that Gerbic sold his stock, and submitted paragraph 11, Section II, page 2 (which fails to reflect the retirement of the stock), cannot be resolved on the basis of the pleadings since there is some indication that the pages reflecting such information may have been misfiled in the Commission's docket file. Accordingly, we believe that an inquiry is necessary to explore the facts and circumstances surrounding Nutmeg's failure to submit a complete and accurate original application, timely Ownership Reports, timely amendment to its application and the various discrepancies mentioned in the pleadings. An appropriate issue will, therefore, be added. However, inasmuch as there appears to have been no intent to mislead or deceive the Commission, and the Class B common stock transfers concerned non-voting stock, were confined within the same family, and were voluntarily reported to the Commission in an Ownership Report filed prior to the motion to enlarge issues, the issue will be added on a comparative basis only. *Cf. Minshall Broadcasting Co., Inc.*, 10 FCC 2d 647, 11 RR 2d 754 (1967); *RKO General, Inc., supra.*

7. *Accordingly, it is ordered*, That the motion to enlarge issues, filed December 28, 1973, by Windham Broadcasting Group is granted to the extent indicated herein, and is denied in all other respects; and the issues in this proceeding are enlarged to include the following issues:

To determine whether The Nutmeg Broadcasting Company complied with the provisions of Sections 1.514, 1.65, and 1.615 of the Commission's Rules with regard to its stock ownership, and, if not, the facts and circumstances surrounding such failure to comply; and to determine, in the light of the evidence adduced pursuant to the foregoing issue, the effect on The Nutmeg Broadcasting Company's comparative qualifications to be a Commission licensee.

8. *It is further ordered*, That the burden of proceeding with the introduction of evidence under the foregoing issues shall be upon Windham Broadcasting Group, and the burden of proof shall be upon The Nutmeg Broadcasting Company.

Adopted: March 18, 1974.

Released: March 20, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-7060 Filed 3-26-74;8:45 am]

FEDERAL POWER COMMISSION

[Doc. No. RP73-112]

ALGONQUIN GAS TRANSMISSION CO.

Extension of Time and Postponement of Prehearing Conference and Hearing

MARCH 21, 1974.

On February 12, 1974, Staff Counsel filed a motion to extend the procedural dates fixed by notice issued November 9, 1973, in the above-designated matter.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified as follows:

Service of Evidence by Staff, September 6, 1974.
Service of Evidence by Interveners, September 27, 1974.
Service of Rebuttal Evidence, October 18, 1974.

[1] Also before the Review Board are the following related pleadings: (a) Broadcast Bureau's comments, filed January 9, 1974; (b) reply [opposition], filed January 11, 1974, by Nutmeg; (c) comments on Broadcast Bureau's comments, filed January 17, 1974, by Nutmeg; and (d) reply, filed January 21, 1974, by Windham.

[2] Rule 1.65 requires disclosure when the information furnished in an application is no longer substantially accurate and complete in all significant respects or when changes which may be of decisional significance have occurred.

[3] Herbert C. Rice is Chairman of the Board and principal stockholder of The Nutmeg Broadcasting Company. Nutmeg's "reply" indicates that his children were the recipients of the Class B common stock gifts.

[4] Rule 1.615 provides in pertinent part, that: "(c) a supplemental Ownership Report (FCC Form 323) shall be filed by each licensee or permittee within 30 days after any change occurs in the information required by the Ownership Report from that previously reported. Such report shall include without limitation • • • (3) Any transaction affecting the ownership, direct or indirect, or voting rights of licensee's or permittee's stock such as: (i) a transfer of stock • • •".

[5] Rule 1.514 provides that: "(a) Each application shall include all information called for by the particular form on which the application is required to be filed • • •."

[6] On January 7, 1974, the Bureau received a copy of Nutmeg's opposition pleading, which is erroneously captioned a "reply". The Commission's copy was received on January 11, 1974.

[7] Nutmeg's opposition indicates that its Connecticut standard broadcast stations are represented by Washington communications counsel. In this proceeding, however, Michael C. Rice, president of Nutmeg, is representing the applicant pursuant to § 1.21(d) of the Rules.

[8] A copy of this amendment, including a chart labeled "Chart A" reflecting the dates of the stock transfers, is attached to Nutmeg's pleading. Nutmeg filed the amendment on February 21, 1974, and it was accepted by the Presiding Judge, by Order, FCC 74M-235, released March 6, 1974.

[9] Respondent acknowledges that paragraph 11, Section II, page 2 contains a mistake because of a misunderstanding of the question.

[10] There appears to be some confusion, reflected in the allegations and response, regarding the dates when paragraph 11, Section II, page 2 and the disclosure pertaining to Gerbic's stock transfer were filed and with which amendment they were attached, i.e., the November 22, 1972, amendment or the January 29, 1973, amendment.

[11] Nutmeg filed an unauthorized pleading in response to that portion of the Bureau's comments which had inappropriately raised new matter for the first time. *Cf. Saul M. Miller*, FCC 62R-122, 24 RR 550 (1962). In the light of the facts that the Bureau's pleading raises new matter, that Nutmeg is not represented by legal counsel in this proceeding, and that Nutmeg's responsive pleading would aid in clarifying the issue before us, we will accept this additional pleading. *Cf. Elim Bible Institute, Inc.*, 10 FCC 2d 632, 11 RR 2d 751 (1967); *Southland, Inc.*, 37 FCC 2d 125, 126 n. 7, 25 RR 2d 186, 190 n. 7 (1972). The Board notes, however, "that a party who elects to act without counsel must assume the burden of becoming acquainted with and conforming to the requirements of the Commission's Rules." *Southland, Inc., supra.* See *Silver Beehive Telephone Co.*, 34 FCC 2d 78, 24 RR 2d 238 (1972). With respect to the Bureau's allegation, the Commission's files reflect that Nutmeg did, in fact, file an Ownership Report on December 12, 1973. Accordingly, no further discussion of this allegation is necessary.

[12] With regard to the gift transfers of nonvoting stock, the fact that the late filings did not involve a shift in control of the applicant does not mitigate the significance of the violations.

[13] First, Chart A of Nutmeg's February 21, 1974, amendment indicates that Herbert Rice's gift of Class B common stock was transferred on December 29, 1971, while the Ownership Report of February 13, 1973, reveals that the transfer occurred on December 31, 1971; and second, Nutmeg's amendment of January 29, 1973, discloses that Gerbic sold his stock on December 20, 1972, whereas the February 21, 1974, amendment indicates that the stock purchase occurred on December 1, 1972.

V 39 160 MAR 27 74 XUM

Prehearing Conference, October 24, 1974 (10:00 a.m., e.d.t.).
Hearing, October 30, 1974 (10:00 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[Doc. No. RP74-61]

ARKANSAS LOUISIANA GAS CO.

Filing of Substitute Tariff Sheets

MARCH 21, 1974.

Take notice that on March 11, 1974, Arkansas Louisiana Gas Company (Arkla) tendered for filing substitute tariff sheets in Arkla's FPC Gas Tariff, First Revised Volume No. 1. The sheets are designated First Substitute Sheet No. 12B (superseding Original Sheet No. 12B) and First Substitute Sheet No. 12C (superseding Original Sheet No. 12C). Company states that this filing was made in compliance with Ordering Paragraph (I) of the Commission's Order issued February 22, 1974, and that copies of the filing are being sent to each of the five customers served under this FPC Gas Rate Schedule No. G-2.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 5, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Doc. No. RP74-56]

CASCADE NATURAL GAS CORP.

Notice of Extension of Time and Postponement of Hearing

MARCH 21, 1974.

On March 14, 1974, Cascade Natural Gas Corporation (Cascade) filed a motion for a limited extension of the procedural dates fixed by the notice issued February 27, 1974. The motion states that all of the participants including the Staff are agreeable to the extension.

Upon consideration, notice is hereby given that the procedural dates are further modified as follows:

Service of evidence by Cascade, April 12, 1974.
Service of evidence by Staff, May 6, 1974.
Hearing, May 16, 1974 (10 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-7088 Filed 3-26-74;8:45 am]

[Docket Nos. CP73-340 and CI74-430]

COLORADO INTERSTATE GAS CO. AND COLORADO OIL AND GAS CORP. AND GAS PRODUCING ENTERPRISES, INC.

Order Consolidating Dockets, Granting Motion of Staff for Deferral of Procedural Dates, and Establishing Further Procedures

MARCH 21, 1974.

By application filed on June 23, 1973, as supplemented on November 2, 1973, and amended on January 15, 1974, Colorado Interstate Corporation (CIG), proposes to construct and operate a major extension of its Wyoming Big Horn—Wind River line into the Bearpaw Mountain Area of Montana in order to attach a new gas supply. Included in the proposal are new transmission lines in Montana, additional looping in Wyoming, and a compressor station and dehydration plant near Big Sandy, Montana. CIG claims control over nearly 600,000 acres in the Bearpaw Mountain area throught a single contract with subsidiary companies from which proven and probable reserves are currently estimated to be 139,000 Mcf and 143,000 Mcf respectively. Additional potential reserves in the area are estimated to be 443,000 Mcf.

The Commission order issued November 15, 1973 (38 FR 32172), ---- FPC ---- set this matter for hearing on the direct case of CIG and supporting intervenors scheduled to commence on January 29, 1974. By notice issued January 3, 1974, the secretary postponed the hearing date at the request of CIG until April 16, 1974, and supplied dates for opposing testimony on March 15, 1974 and answering testimony on April 1, 1974. From these latter dates Staff now seeks relief by motion filed March 1, 1974. Staff points out that CIG amended its proposal on January 15, 1974, giving rise to a request for additional information and the need for reevaluation of the environmental impact of the project. Staff furthed noted that the producer application filed by Colorado Oil and Gas Corporation and Gas Producing Enterprises, Inc., in Docket No. CI74-430 may contain issues interrelated to the issues in Docket No. CP73-340. A similar motion seeking consolidation has been filed by Montana Power Company on February 28, 1974. No objections to consolidation have been filed, and we shall grant consolidation as herein ordered.

Although the parties are in general agreement on the matter of consolidation, the procedural dates are generating controversy. CIG's answer to Staff's motion filed March 15, 1974, urges that dates again be set for opposing and answering testimony prior to hearing, and that the hearing be delayed until June 19, 1974.

Public Service Company of Colorado, Western Slope Gas Company and Cheyenne Light, Fuel and Power Company, joint intervenors, by answer filed March 15, 1974, support the CIG proposal. In an answer filed March 1974, in support of Staff's motion, Montana Power Company stated that it has "no opposition to the commencement of the hearing on April 16, 1974, for the purpose of cross-examining the direct case of the pipeline and the producers."

Clearly there may be more than one way to accomplish an orderly and efficient disposition of this matter. For example, direct presentation of CIG and the producer may very well obviate the need for any opposing or answering testimony. This will not be known until the direct case of the applicants is presented and subjected to cross-examination. Moreover, until the availability of a Staff draft environmental impact statement can be established, dates cannot be set for the filing of any environmental presentation which Staff may wish to make. We also reiterate our position that the record in these proceedings must remain open until submission of the Commission Staff's final environmental impact statement. For these reasons we shall direct the hearing to commence as scheduled on April 16, 1974 on the applicants direct cases, leaving the matter of dates for the filing of answering or rebuttal cases to be set by the Presiding Law Judge at such time as he deems appropriate after cross-examination of the applicants' direct case.

The Commission finds:

(1) The issues presented in Docket No. CP73-340 and Docket No. CI74-430 may be interrelated and should be consolidated for hearing and decision.

(2) The motion of Commission Staff for deferral of procedural dates should be granted.

The Commission orders:

(A) The application of Colorado Interstate Gas Company filed in Docket No. CP73-340 and the application of Colorado Oil and Gas Corporation and Gas Producing Enterprises, Inc., filed in Docket No. CI74-430 are hereby consolidated for hearing and decision.

(B) The hearing scheduled to commence on April 16, 1974, at 10:00 a.m. shall commence as scheduled in a hearing room of the Federal Power Commission, 825 N. Capitol Street NE., Washington, D.C. 20426 to consider the direct case of the applicants in the consolidated docket.

(C) Colorado Oil and Gas Corporation and Gas Producing Enterprises, Inc., shall file testimony and exhibits in support of its position on or before April 1, 1974.

(D) The motion of Commission Staff filed March 1, 1974, is hereby granted as modified and conditioned herein.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. E-8522]

DELMARVA POWER AND LIGHT CO.

Extension of Time and Postponement of Prehearing Conference and Hearing

MARCH 21, 1974.

On March 15, 1974, Staff Counsel filed a motion for an extension of the procedural dates fixed by the Order issued December 28, 1974, in the above designated matter. The motion states that no party had any objection to the motion.

Upon consideration, notice is hereby given that the procedural dates are modified as follows:

Service of Staff's Evidence, April 30, 1974.
Prehearing Conference, May 7, 1974 (10 a.m., e.d.t.).
Service of Intervener's Evidence, May 14, 1974.
Service of Company's Rebuttal Evidence, May 28, 1974.
Hearing, June 18, 1974 (10 a.m., e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-7090 Filed 3-26-74;8:45 am]

[Docket Nos. CP73-132, CP73-135, CP73-230, CP74-122, CP74-137, CP73-148]

DISTRIGAS CORPORATION ET AL.

Notice of Further Extension of Time

MARCH 21, 1974.

On March 13, 1974, Distrigas Corporation *et al.*, filed a motion for a further extension of time to file a portion of applicants' direct case as required by notice issued March 8, 1974, in the above-designated matter and delegation of authority to the Presiding Administrative Law Judge to grant any further extension of time as may be deemed appropriate.

Upon consideration, notice is given that the time is extended to and including April 22, 1974, within which applicants shall file and serve the remainder of their case-in-chief. The request to delegate authority to the Presiding Administrative Law Judge to grant any further extension of time is denied.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[Project No. 2232]

DUKE POWER CO.

Application for Approval of Revised Exhibits and Permission To Withdraw Project Waters

MARCH 21, 1974.

Public notice is hereby given that application was filed August 20, 1973, for approval of revised exhibits and permission to withdraw project waters by Duke Power Company (Correspondence to: Mr. George W. Ferguson, Jr., Associate General Counsel, Duke Power Company, Legal Department, P.O. Box 2178, Charlotte, North Carolina 28201) for the Catawba Development of its constructed Catawba-Wateree Project No. 2232. The project lands involved are located on Big Allison Creek, Beaver Dam Creek, and Catawba River in York County, South Carolina and Mecklenburg County, North Carolina. The project affects navigable waters of the United States.

Applicant requests Commission approval of revised license Exhibits and for permission to remove from Lake Wylie, within project boundaries, a maximum of 350 cfs to meet needs of the proposed Catawba Nuclear Station for service water, cooling tower blowdown, and makeup water, of which approximately 287 cfs would be returned to the reservoir. The Station would be constructed adjacent to Lake Wylie and would have an installed capacity of 2360 mW.

Pursuant to the National Environmental Policy Act of 1969 and to the Council of Environmental Quality guidelines, particularly section 5(b), the Atomic Energy Commission will be the lead agency for the preparation of an environmental impact statement for any construction associated with the Catawba Nuclear Station, including the subject application.

Any person desiring to be heard or to make protest with reference to said application should on or before May 1, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-7003 Filed 3-26-74;8:45 am]

[Doc. No. E-8663]

DUKE POWER CO.

Supplement to Agreement

MARCH 21, 1974.

Take notice that on March 11, 1974 Duke Power Company (Duke) tendered for filing a supplement to its Rate Schedule FPC No. 231, an Electric Power Contract with the City of Abbeville, South Carolina (Abbeville). Duke requests that the Supplement be given an effective date of April 19, 1974.

Duke states that the Supplement provides for an increase in contract demand from 3,000 KW to 5,000 KW made at the request of the customer. Duke also states a copy of this filing has been mailed to Abbeville.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 8, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8654]

INTERSTATE POWER CO.

Notice of Application

MARCH 21, 1974.

Take notice that on March 8, 1974, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Interstate Power Company (Applicant), seeking an order authorizing the issuance of $17,000,000 principal amount of First Mortgage Bonds, due 2004, 100,000 shares of its authorized but unissued Preferred Stock of the par value of $50 per share, and 365,315 shares of additional Common Stock of the par value of $3.50 per share.

Applicant is incorporated under the laws of the State of Delaware, with its principal business office in Dubuque, Iowa, and is engaged principally in the electric utility business in northern and northeastern Iowa, in southern Minnesota and a few small communities in Illinois.

The Bonds proposed to be issued will be in the aggregate principal amount of $17,000,000 and will bear interest at a rate and shall be sold at a price to be determined by competitive bids which the Applicant proposes publicly to invite pursuant to the requirements of § 34.1a (b) of the Commission's regulations under the Federal Power Act. The Bonds will be dated as of May 1, 1974, and will be expressed to mature by May 1, 2004, and will be issued under a Thirteenth Supplemental Indenture to be dated as of May 1, 1974.

Applicant proposes to issue 100,000 shares of its authorized but unissued Preferred Stock of the par value of $50 per share. The dividend rate is proposed to be determined pursuant to competitive bidding on or about May 20, 1974, and to be sold in accordance with the requirements of § 34.1a(b) of the Commission's regulations.

V 39 160 MAR 27 74 XUM

Applicant also proposes to offer for subscription by its common stockholders 365,315 shares of additional Common Stock on the basis of one additional share for each 11 shares held on record. Should there be insufficient shares of Additional Common Stock to fill all Primary subscriptions, those made pursuant to the Primary Subscription Right on the basis of eleven Rights and exact multiples thereof will first be filled, then those made pursuant to the Incidental Right, first on the basis of ten Rights, then nine, and then successively eight, seven and so on in that order. Should it be possible to fill some but not all subscriptions for any one of such groups, subscriptions in the particular group will be filled in the order of their receipt. It is also proposed to issue and sell to underwriters at competitive bidding such of the 365,315 shares of additional Common Stock as shall not be subscribed for pursuant to the Company's proposed subscription offer. The closing date for the issuance of the Common Stock is tentatively fixed for June 14, 1974. The Applicant represents that the price at which the additional Common Stock will be offered to common stockholders for subscription will be determined by the Board of Directors of the Applicant shortly before the proposed offering date such price to be fixed in relation to, and at an appropriate discount from, the then market price of Applicant's presently issued and outstanding Common Stock. Applicant further represents that the compensation of the underwriters for their several commitments to purchase any such unsubscribed stock at such price is proposed to be fixed by competitive bidding to be conducted in accordance with the requirements of § 34.1a(b) of the Commission's regulations. It is presently proposed that sealed, written bids for the purchase of the unsubscribed stock will be opened at 3:45 p.m., New York time, on May 22, 1974, and that an amendment to this application giving the subscription price and the results of such competitive bidding will be filed on May 22, 1974 with this Commission and that a similar amendment will be filed with the Illinois Commerce Commission.

According to the application, the net proceeds to be received by the Applicant from the issuance and sale of the $17,000,000 principal amount of New Bonds, the shares of New Preferred Stock and the shares of Additional Common Stock will be used by the Applicant to discharge a portion of the short-term indebtedness on bank loans made by the Company which were used to pay for a portion of its construction program and towards payment of the $20,832,000 Construction program (excluding pollution control facilities) of the Applicant for 1974 and towards payment of the $49,000,000 Construction program for 1975 and for other corporate purposes. Additional funds will be raised from depreciation accruals, cash on hand and retained earnings.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 12, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Doc. No. E-7488]

IOWA PUBLIC SERVICE CO.

Notice of Application

MARCH 21, 1974.

Take notice that on March 13, 1974, Iowa Public Service Company (Applicant) filed a supplemental application pursuant to section 204 of the Federal Power Act seeking authority to issue $30 million of short-term unsecured promissory notes to commercial banks and commercial paper dealers. All proposed notes are to be issued on or before March 31, 1975 and will bear final maturity dates not later than March 31, 1976.

The application states that the bank notes will bear interest at the prime rate in effect at the lending bank at the date of each borrowing. The commercial paper, having maturities not to exceed 270 days, will be sold directly to commercial paper dealers and will bear interest rates determined by the market conditions at the time of each borrowing. The aggregate amount of commercial paper outstanding at any one time will not exceed 25 percent of the Applicant's gross revenues for the twelve months ending December 31, 1973.

Applicant proposes to use the funds for construction or acquisition of permanent improvements, extensions and additions to Applicant's property and/or to pay off maturing short-term loans.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 9, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Doc. No. CI74-19]

LVO CORP.

Settlement Agreement

MARCH 21, 1974.

The Federal Power Commission hereby issues notice of a settlement agreement submitted in this proceeding by LVO Corporation (LVO) on March 8, 1974. This proceeding involves an increase in rate for gas sold to Kansas-Nebraska Natural Gas Company, Inc. (Kansas-Nebraska), pursuant to LVO's FPC Gas Rate Schedule No. 10. This gas is produced in the Bradshaw Field, Hamilton County, Kansas.

On July 5, 1973, LVO filed an application for abandonment of sale or, alternatively, petition for special relief in this proceeding seeking an increase in its rate to Kansas-Nebraska. Subsequently, on August 10, 1973, LVO executed an amendment to its contract with Kansas-Nebraska providing for a rate of 35.0 cents per Mcf, subject to downward Btu adjustment. After Btu adjustment, the rate is 30.1 cents per Mcf. The amendment also includes a provision for annual escalations of 1.0 cent per Mcf. The amendment was filed with a notice of change in rate with the Commission on September 13, 1973.

Pursuant to Commission order issued January 22, 1974, a prehearing conference was held on March 5, 1974, and continued on March 8, 1974. At the prehearing conference held on March 5, 1974, LVO submitted testimony of three witnesses, two exhibits, and one item by reference in support of its increased rate.

As a result of the prehearing conferences, parties have arrived at a Settlement Agreement which provides that LVO's increased contract rate, designated as Supplement No. 5 to its FPC Gas Rate Schedule No. 10, and its notice of change in rate, designated as Supplement No. 6 to its FPC Gas Rate Schedule No. 10, shall become effective as of the date of the Commission's order approving the settlement. The Settlement Agreement is supported by cost-of-service studies submitted by LVO and by the Commission's Staff.

The Commission Staff has filed a separate statement in support of the Settlement Agreement and Kansas-Nebraska also filed a letter supporting the Settlement Agreement.

Comments on the proposed Settlement Agreement may be filed with the Commission on or before April 3, 1974.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8395]

MAINE YANKEE ATOMIC POWER CO.

Notice Rescheduling Prehearing Conference

MARCH 21, 1974.

On March 12, 1974, Staff Counsel filed a motion to reschedule the prehearing conference set for March 26, 1974 by notice issued February 7, 1974, in the above-designated matter. The motion states that all parties agree to the rescheduling of the prehearing conference.

Upon consideration, notice is hereby given that the prehearing conference will be held on April 8, 1974, at 10 a.m., e.d.t., preceding the hearing scheduled for that day.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-7093 Filed 3-26-74;8:45 am]

[Doc. Nos. IT-6078 and E-6640]

NIAGARA MOHAWK POWER CORP.

Notice of Applications

MARCH 20, 1974.

Take notice that Niagara Mohawk Power Corporation (Applicant), incorporated under the laws of the State of New York with its principal place of business at Syracuse, New York, filed applications with the Federal Power Commission in Docket Nos. IT-6078 and E-6640 on February 25, 1974 for supplemental orders, pursuant to section 202(e) of the Federal Power Act, authorizing increases in the amounts and rates of transmission of electric energy which Applicant may transmit from the United States to Canada.

By the Commission order issued March 28, 1969 in Docket No. IT-6078 (41 FPC 436), Applicant was authorized to transmit electric energy from the United States to Canada in an amount not to exceed 1,750,000 Kwh per year at a rate of transmission not to exceed 500 Kw for sale and delivery to Hydro-Quebec Electric Commission (Hydro-Quebec) over certain 4.8 Kv facilities of Applicant located at the international border between the United States and Canada near the Hamlet of Hogansburg, Franklin County, New York and within the boundaries of the St. Regis Indian Reservation. Applicant's facilities are covered by its Presidential Permit signed by the President of the United States on January 31, 1948, as amended, Docket No. IT-6079.

By Commission order issued March 28, 1969 in Docket No. E-6640 (41 FPC 438), Applicant was authorized to transmit electric energy from the United States to Canada in an amount not in excess of 750,000 Kwh per year at a rate of transmission not to exceed 200 Kw for sale and delivery to Hydro-Quebec over certain 4.8 Kv facilities of Applicant located at the international border between the United States and Canada in the vicinity of the Hamlet of Chapman, Town of Fort Covington, Franklin County, New York. Applicant's facilities are covered by its Permit signed by the Chairman of the Commission on January 24, 1956, Docket No. E-6640.

Applicant now requests that the authorizations granted by Commission orders of March 28, 1969, referred to above, be modified so as to authorize Applicant to export electric energy to Hydro-Quebec (1) in an amount not in excess of 3,000,000 Kwh per year at a rate of transmission not to exceed 800 Kw in Docket No. IT-6078, and (2) in an amount not in excess of 2,000,000 Kwh per year at a rate of transmission not to exceed 500 Kw in Docket No. E-6640, all for the purpose of meeting the growth in the electric service requirements of consumers served by Hydro-Quebec in the St. Regis Indian Reservation in the Province of Quebec, Canada. No change in Applicant's electric transmission facilities at the United States-Canadian border will be made by reason of the proposed increases in the amounts and transmission rates of the exported energy. That energy will be sold and delivered by Applicant to Hydro-Quebec in accordance with the terms and conditions and at the rates and charges set forth and included in the rate schedules which Applicant submitted as exhibits to its applications.

The amounts of electric energy which Applicant proposes to export to Hydro-Quebec will include energy purchased by Applicant from other electric utilities as well as energy generated by Applicant. According to the applications, such amounts are "relatively insignificant" when considered in the light of Applicant's total electric supply resources comprised of Applicant's own generation and purchases from other systems including Canadian Systems.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 5, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Doc. No. E-8578]

PUBLIC SERVICE COMPANY OF OKLAHOMA

Filing of Extension Agreement

MARCH 21, 1974.

Take notice that on March 6, 1974, Public Service Company of Oklahoma (Company) tendered for filing a Letter Agreement, dated February 25, 1974, extending the date of termination in Supplement No. 9 to Rate Schedule FPC No. 180 with the Associated Electric Cooperative, Inc.

According to Company, on February 22, 1974, Company was informed that Associated Electric Cooperative, Inc. wishes to extend the termination date of the agreement from February 28, 1974, to May 31, 1974. Company states that the terms and conditions of the three month extension are to remain the same as those contained in the original Letter Agreement dated January 31, 1973. Company requests waiver of the 30 day filing requirement of § 35.11 and an effective date for this agreement of March 1, 1974.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 5, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8660]

RUMFORD FALLS POWER CO.

Notice of Change in Rate Schedule

MARCH 21, 1974.

Take notice that on February 12, 1974 Rumford Falls Power Company (Rumford Falls) tendered for filing a change in rate schedule. Rumford Falls states that the change is from 3.51 mills per KWH to 6.95 miles per KWH on weekday purchases and from 3.12 mills per KWH to 5.33 mills per KWH on weekend purchases of surplus hydroelectric power by Central Maine Power Company.

Rumford Falls proposes an effective date of February 1, 1974 for said change.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 5, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies

V 39 160 MAR 27 74 XUM

of this filing are on file with the Commission and are available for public inspection.

[Project No. 719]

JESSIE I. SMITH

Application for New License for Constructed Project

MARCH 21, 1974.

Public notice is hereby given that application for new minor license was filed on June 30, 1972, and supplemented on December 26, 1972, under the Federal Power Act (16 U.S.C. 791a–825r) by Jessie I. Smith (Correspondence to: Jessie I. Smith, 12730 Lake City Way, Seattle, Washington 98125) for constructed Trinity Project No. 719, located on James and Phelps Creeks in Chelan County, Washington, in the Wenatchee National Forest.

The original license for Project No. 719 expired on November 1, 1972, and the project is currently under annual license. The installed capacity of the project is 240 kw.

The existing Trinity Project consists of: (1) A small diversion dam located on James Creek; (2) a 3,350-foot long spiral steel penstock extending along James Creek and across the Chiwawa River; (3) a diversion dam located on Phelps Creek; (4) a 9,450–foot long flume and penstock; (5) a powerhouse containing a 390 horsepower turbine connected to a 240 kw generator; and (6) appurtenant facilities.

The project power is used for general domestic purposes, serving three houses, two cabins, the powerhouse, a machine shop, and other buildings located on patented lands of the Applicant.

Any person desiring to be heard or to make protest with reference to said application should on or before May 17, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-7095 Filed 3-26-74;8:45 am]

[Project No. 1002]

SOUTHERN CALIFORNIA EDISON CO.

Application for Surrender of Transmission Line License

MARCH 21, 1974.

Public notice is hereby given that application was filed September 10, 1973, under the Federal Power Act (16 U.S.C. 791a–825r) by Southern California Edison Company (Correspondence to: Mr. P. B. Peecock, Manager, Right of Way and Land Dept., Southern California Edison Company, P.O. Box 800, 2244 Walnut Grove Avenue, Rosemead, California 91770) for surrender of its Transmission Line License Project No. 1002 located in Los Angeles County, California, and affecting lands of the United States within Angeles National Forest.

Project No. 1002 consists of a woodpole 4 KV transmission line extending 4.85 miles from a point in the SE¼NE¼, Sec. 36, T. 3N., R. 15W., to a point in the SE¼NW¼, Sec. 28, T. 3N., R. 14W., S.B.B. & M., California, with several branches.

Applicant requests termination of its minor part license for the reason that the transmission line is presently operated under a special use permit dated July 25, 1972, issued by the Angeles National Forest for the Kagel Canyon Distribution Area. Earlier, on June 22, 1970, the U.S. Forest Service granted Applicant permission to operate and maintain the aforementioned transmission line under the authority of the Kagel Canyon Distribution Area Permit and requested Applicant to file an application for surrender of license in order to accommodate a land exchange.

Any person desiring to be heard or to make protest with reference to said application should on or before May 3, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Project No. 2739]

CITY OF VANCEBURG, KENTUCKY AND VANCEBURG LIGHT, HEAT AND POWER SYSTEM

Application for Approval of a Preliminary Permit for Unconstructed Project

MARCH 21, 1974.

Public notice is hereby given that application for preliminary permit has been filed under the Federal Power Act (16 U.S.C. 791a-825r) by City of Vanceburg, Kentucky and Vanceburg Light, Heat and Power System (Correspondence to: Philip P. Ardery, Brown, Todd & Heyburn, Sixteenth Floor, Citizens Plaza, Louisville, Kentucky 40202) for proposed Project No. 2739, known as the Meldahl Project, which is located on the Ohio River on the Kentucky side of the Captain Anthony Meldahl Locks and Dam in the Commonwealth of Kentucky, County of Bracken some 436.2 river miles below Pittsburgh, Pennsylvania, and approximately 1.7 river miles downstream from the town of Chilo, Ohio. The proposed project would also be located near the towns of Maysville and Newport, Kentucky, and New Richmond, Ripley, and Cincinnati, Ohio.

The proposed run of the river project would affect approximately 81.4 acres of U.S. land which are under the supervision of the U.S. Corps of Engineers and would utilize water from a government dam. The hydroelectric facilities for this project would consist of a powerhouse containing low-head generating units with a proposed capacity of 70,000 kw.

Vanceburg plans to use the power generated at the project to meet its load requirements and to sell any excess energy to East Kentucky Rural Electric Cooperative Corporation. Vanceburg, through its transmission facilities, plans to be interconnected with the East Kentucky System.

Any person desiring to be heard or to make protest with reference to said application should on or before June 4, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to a proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-7001 Filed 3-26-74;8:45 am]

FEDERAL RESERVE SYSTEM

ADAIR CORP.

Order Denying Formation of Bank Holding Company

The Adair Corporation, Adair, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) of formation of a bank holding company through the acquisition of 97 percent of the voting shares of Exchange State Bank ("Bank"), Adair, Iowa.

At the same time, Applicant has applied for the Board's approval under section 4(c)(8) of the Act (12 U.S.C. 1843 (c)(8)) and § 225.4(b)(2) of the Board's Regulation Y to continue to engage in insurance agency activities in a community with a population of less than 5,000 persons.

Notice of the applications, affording opportunity for interested persons to submit comments and views, was published on December 17, 1973 (38 FR 35352, 35353) and the time for filing comments and views has expired. The Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act, and the considerations specified in section 4(c)(8) of the Act.

Applicant presently conducts general insurance agency activities in Adair, Iowa, a town of approximately 750 people. Bank has deposits of $6.6 million,[1] and is the smallest of 7 banks in the relevant banking market,[2] controlling 7.4 per cent of the total deposits in commercial banks in the market. The purpose of the proposed transaction is to effect a transfer of the ownership of Bank from individuals to a corporation owned by the same individuals with no change in Bank's management or operations. The principals of Applicant also own shares in several other bank holding companies and banks, including the Anita State Bank, Anita, Iowa ("Anita Bank"), which is located 7 miles from Bank and is Bank's nearest competitor. Anita Bank is the third largest bank in the market controlling about 10 per cent of deposits therein. Consummation of the proposal would have adverse effects on existing and potential competition, to the extent that it would facilitate maintenance of the existing ties between these two banks.

As it has indicated on previous occasions, the Board believes that a holding company should be a source of financial strength for its subsidiary bank(s) and every proposed acquisition or formation is closely examined with this consideration in mind. The future prospects of Applicant are primarily dependent upon the financial resources of Bank. Bank's capital to total assets ratio has declined significantly under current management of Bank. Despite Bank's need for additional capital, principals of Bank, who are also the owners of Applicant, have derived large management fees and cash dividends from Bank. The Iowa State Banking Department, in order to safeguard Bank's resources, has required that any future dividends must first be authorized by it. Obviously, any such limitation on Bank's dividends could impair Applicant's ability to service the debt it would assume incident to the proposed transaction.

The Board has considered Bank's present condition and declining capital position under current ownership. The past policies of principals of Applicant regarding the withdrawal from Bank of large management fees, makes it likely that Applicant would not have the necessary financial flexibility to meet its annual debt servicing requirements without adversely affecting the capital position of Bank. The above factors strongly suggest that the future financial requirements of Applicant could place an undue strain on Bank and thus impair Bank's ability to be a viable banking organization in meeting the banking needs of the communities which it serves. Such considerations lend weight toward denial of the application.

The Board notes that principals of Applicant already control or have significant interests in several other banks. The principals have received large management and directors' fees and liberal dividends from some of these other banks, resulting in the declining capital condition of such banks. These precedents lend support to the view that the capital position of Bank could be adversely affected upon approval of this proposal.

Under the above circumstances and on the basis of other facts of record, considerations relating to the financial condition, managerial policies and future prospects of Applicant and Bank lend weight for denial of the application. The Board does not sanction the use of a holding company structure to perpetuate management practices that will in due course impair the financial condition of the bank to be acquired. Such action would not be consistent with the standards of section 3(c) of the Act nor would it serve the public interest.

On the basis of all the facts in the record, it is the Board's judgment that the financial condition of Bank and management practices of principals of Applicant would be inconsistent with the standards set forth in Section 3(c) of the Act. Accordingly, the Board concludes that consummation of the proposal would not be in the public interest, and that the application should be denied.[3]

By order of the Board of Governors,[4] effective MARCH 20, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

[FR Doc.74-7011 Filed 3-26-74;8:45 am]

[1] Banking data are as of June 30, 1973.

[2] The market area is approximated by the upper half of Cass County and portions of Audubon, Adair and Guthrie counties.

[3] Denial of Applicant's § 3(a)(1) application renders moot Board action on the accompanying § 4(c)(8) application.

[4] Voting for this action: Chairman Burns and Governors Mitchell, Sheehan, Bucher and Holland. Absent and not voting: Governors Brimmer and Wallich.

BYERS STATE BANKSHARES, INC.

Order Approving Formation of Bank Holding Company and Acquisition of Certain Assets of a General Insurance Agency

Byers State Bankshares, Inc., Byers, Colorado, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) for the formation of a bank holding company through acquisition of 80 percent or more of the voting shares of Byers State Bank ("Bank"), Byers, Colorado.

At the same time, Applicant has applied for the Board's approval under Section 4(c)(8) of the Act (12 U.S.C. 1843 (c)(8)) and Section 225.4(b)(2) of the Board's Regulation Y to engage in the sale of life insurance in a community of less than 5,000 persons.

Notices of the applications, affording an opportunity for interested persons to submit comments and views, were published on January 23 and 24, 1974 (39 Federal Register 2645, 2806) and the time for filing comments and views has expired. The Board has considered the applications and all comments received in light of the factors set forth in Section 3(c), and the considerations specified in Section 4(c)(8) of the Act.

Applicant is a nonoperating corporation formed for the express purpose of becoming a bank holding company through the acquisition of Bank, and engaging in the sale of life insurance. Bank (deposits of $3.9 million)[1] is the only bank in Byers, a community of approximately 600 persons, and ranks 66th among 68 banks in the Denver banking market,[2] in which it controls 0.1 percent of total market deposits. Since the transaction involves only a change from individual to corporate ownership, consummation of the proposal will have no adverse effects on existing or potential competition.

The future prospects of Applicant are primarily dependent upon the financial resources of Bank. Applicant proposes to service the debt it assumes incident to this proposal over a 10-year period through dividends from Bank of not more than 50 percent of Bank's net income and life insurance agency revenue. In light of Bank's past earnings and anticipated growth, the projected earnings of Bank appear to provide Applicant with the necessary financial flexibility to meet its annual debt servicing requirements and maintain an adequate capital position for Bank. Therefore, considerations relating to the banking factors are consistent with approval of the application.

Although there is no evidence in the record to indicate that the banking needs of the residents of the Byers area are not currently being met, considerations relating to the convenience and needs of the community to be served are consistent with approval. It is the Board's judgment, therefore, that the proposed

[1] All banking data are as of June 30, 1973.

[2] The Denver banking market is approximated by Adams, Arapahoe, Denver, Jefferson Counties and the Broomfield area of Boulder County.

V 39 160 MAR 27 74 XUM

transaction would be in the public interest and that the application to acquire Bank should be approved.

Applicant proposes to acquire the life insurance portion of the general insurance agency presently being operated by Bank. Thereafter, Applicant would conduct the life insurance activities directly, and Bank would continue to operate the remaining insurance agency activities. The operation of general insurance agency activities by a bank holding company in a community with a population not exceeding 5,000 is an activity previously determined by the Board to be so closely related to banking as to be a proper incident thereto (12 CFR § 225.4 (a)(9)(iii)(a)); and the sale of life insurance is an activity included in the operation of a general insurance agency. Consummation of this proposal would permit Applicant to continue to offer Byers residents the convenience of obtaining banking and insurance services in conjunction with each other. There is no evidence in the record to indicate that approval of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interest or unsound banking practices.

Based on the foregoing and other considerations reflected in the record, the Board has determined that the considerations affecting the competitive factors under section 3(c) of the Act and the balance of the public interest factors the Board must consider under section 4(c)(8) are consistent with approval of the Applicant's proposal.

Accordingly, the applications are approved for the reasons summarized above. The acquisition of Bank shall not be made before the thirtieth calendar day following the effective date of this Order; nor shall the acquisition of Bank, or the acquisition of Bank's life insurance activities be made later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination of the permissibility of the insurance activities is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective MARCH 20, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

CHEMICAL FINANCIAL CORP.

Formation of Bank Holding Company and Proposed Acquisition of Chemical Financial Corporation

Chemical Financial Corporation, Midland, Michigan, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares of Chemical Bank and Trust Company, Midland, Michigan. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Chemical Financial Corporation has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y for permission to acquire voting shares of Westley's Data Processing Inc., Midland, Michigan. Notice of the application was published on February 13, 1974, in Midland Daily News, a newspaper circulated in Midland, Michigan.

Applicant states that the proposed subsidiary would engage in the activities of providing bookkeeping and data processing services for the internal operations of the proposed holding company and any future subsidiaries; storing and processing other banking financial or related economic data primarily for banks, savings and loan associations, credit unions, mortgage companies, municipalities and other bank customers including bookkeeping and billing; payroll accounting; process punch card accounting; account billing; accounts receivable; accounts payable; general ledger; write-up work; payroll; inventory accounting; tax and utility bill processing; demand deposits; savings, installment loans, mortgage loans, time deposits, certificates of deposit and trust accounting; and making excess computer time available to customers; furnishing byproducts of developments of programs; and furnishing services upon request of customers. Applicant states that such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 17, 1974.

Board of Governors of the Federal Reserve System, March 20, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

FIRST JERSEY NATIONAL CORP.

Amended Order

By Order dated April 30, 1973, the Board approved an application of First Jersey National Corporation, Jersey City, New Jersey, to acquire the assets of Atlantic City Loan Company ("ACL"), Atlantic City, New Jersey (38 FR 12168, May 9, 1973). Applicant's proposal contemplated that the transaction was to be effected through Applicant's wholly-owned subsidiary, Guardian Commercial Corporation ("GCC"), a company which had been acquired by Applicant on June 30, 1970, and under the provisions of section 4(a)(2) of the Bank Holding Company Act could not be retained beyond December 31, 1980, without Board approval. However, in approving the application, the Board's Order stated that "the application is hereby approved on the condition that Applicant maintain the assets of ACL separate and apart from those of GCC and operate ACL as a separate business entity." In view of such condition, Applicant effected the acquisition through a newly formed subsidiary of the holding company, Guardian Loan Company of Atlantic City ("Guardian Loan Company").

Applicant requests to be relieved from the condition in the Board's Order so that the assets of Guardian Loan Company may be transferred to GCC for the purpose of effecting a sale of GCC no later than May 15, 1974.

On the basis of Applicant's commitment to sell GCC no later than May 15, 1974, the Board has concluded that the request should be granted. Accordingly, the Board's Order of April 30, 1973, is hereby amended by deleting the requirement that "Applicant maintain the assets of ACL separate and apart from those of GCC and operate ACL as a separate business entity."

By order of the Board of Governors,[1] effective March 20, 1974.

[SEAL] THEODORE E. ALLISON,
Assistant Secretary of the Board.

McNEE, INC.

Formation of Bank Holding Company and Proposed Acquisition of McNee Insurance Agency

McNee, Inc., Grainfield, Kansas, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 81 percent or more of the voting shares of The Citizens State Bank, Grainfield, Kansas. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

McNee, Inc., has also applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y for permission to acquire voting shares of McNee Insurance Agency, Grainfield, Kansas. Notice of the application was published on February 8, 1974, in The Grainfield Cap Sheaf, a newspaper circulated in Gove County, Kansas.

Applicant states that the proposed subsidiary would engage in the activities of the sales of fire, casualty, crop hail, credit life, credit accident and health, and liability insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at Federal Reserve Bank of Kansas City, City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than April 17, 1974.

Board of Governors of the Federal Reserve System, MARCH 20, 1974.

GENERAL ACCOUNTING OFFICE

U.S. GOVERNMENT BILL OF LADING AND U.S. GOVERNMENT TRANSIT BILL OF LADING (GBL)

Notice of Revision

The General Accounting Office has revised effective April 1, 1974, the U.S. Government Bill of Lading, SF 1103; the U.S. Government Transit Bill of Lading, SF 1131; the continuation sheet, SF 1109, and related forms making up snapout sets thereof, to incorporate the recommendations of the Joint Agency Transportation Study. Attachments I and II[1] show specimen copies of the SF 1103 and SF1131. These revised forms and regulations are for the procurement of and billing and payment for freight transportation services furnished for account of the United States. Joint regulations of the Comptroller General and the Secretary of the Treasury prescribing standards for the payment of charges therefor are codified in 4 CFR Part 56.

After April 1, 1974, the current standard, transit, and short form GBLs shall not be issued by shippers who have received their stocks of the revised standard and transit GBLs. The new forms may be available in March 1974, but some shippers may not receive stocks of the new forms until after April 1, 1974. A period of transition may be required to process current forms of the standard and transit GBL that are not accomplished before the transition date. Thus, current forms of the SF 1103 and SF 1131 issued before but not accomplished until after April 1, 1974 (or used after that date because of nonreceipt of the revised forms), shall be certified by the consignees under procedures applicable to those forms. The following forms are abolished and will not be used after April 1, 1974, unless required in connection with current GBLs.

SF 1107	Temporary Receipt in Lieu of U.S. Government Bill of Lading
SF 1108	Certificate of Lieu of Lost U.S. Government Bill of Lading
SF 1108a	Certificate in Lieu of Lost U.S. Government Bill of Lading (memorandum copy)
SF 1196	Short Form—U.S. Government Bill of Lading
SF 1197	Certified True Copy of Lost Short Form—U.S. Government Bill of Lading

Stocks of the superseded or cancelled forms shall be disposed of by burning or shredding and the serial numbers thereof reported through channels to the General Services Administration.

In implementing procedures for handling the new forms, the following is authorized or required:

Mandatory surrender of the original of the GBL to the origin carrier, or its agent, at time shipment is tendered, thus making the carrier responsible for safeguarding the document and for its delivery to the last line-haul carrier authorized to bill the related charges.

Forwarding of a Consignee's Copy, SF 1103b/SF 1131b, to be sent to the consignee immediately upon tender of the consignment to the origin carrier. That copy includes on the reverse instructions to the consignee (attachment IV) as to action to be taken upon receipt of the shipment, including loss and damage. Agencies shall design internal forms necessary for the reporting of loss and damage by consignees, if such forms are not already available.

Certification by the authorized billing carrier rather than the consignee as to delivery of the consignment.

Elimination of the requirement in 4 CFR 52.19; in A-24222 dated June 20, 1968, to the Assistant Secretary of Defense, Comptroller; and in circular letter T-OD-G-83 dated November 8, 1971, for furnishing delivery receipts to support billings for international airline shipments, for shipments of unaccompanied baggage via freight, and for shipments originating in continental United States and moving overseas on through Government bills of lading. However, on these types of shipments, a carrier other than the last line-haul carrier authorized to bill (in privity with the contract of carriage as specified in 4 CFR 52.38) may bill the charges on its own certification of delivery, provided it has submitted to the paying office a blanket "Certificate of Billing Carrier in Lieu of Waiver from Delivering Carrier" in the general format specified in 4 CFR 52.20.

Incorporation of the conditions (attachment V) on the reverse of the current GBL into the Code of Federal Regulations (see 4 CFR 52.51).

Use of the Carrier's Waybill (Original), SF 1105/SF 1133, as the substitute form for lost original GBL (SF 1103/SF 1131). These must be properly certified on the reverse (1) by the issuing officer as to the request for the services and (2) by the billing carrier as to delivery of the consignment. Upon receipt of the SF 1105/SF 1133 from the carrier and after determining that the services were ordered, the issuing office shall place the following certification on the reverse thereof:

"I certify that the services shown on this Freight Waybill were requested.

(Signature of issuing officer) (Date)"

The issuing office will then return the SF 1105/SF 1133 to the carrier which must place on the reverse thereof an endorsement identical to the "Certificate of Carrier Billing for Charges" appearing on the original GBL to indicate the condition of the shipment upon receipt at destination.

In the event the Carrier's Waybill (Original), SF 1105/SF 1133, is also lost, the carrier should request and be furnished a certified true copy of the issuing office's memorandum copy, SF 1103a/SF 1131a, certified as specified above, for use as the substitute document.

Detailed instructions on the preparation and processing of the new forms are incorporated into a handbook published by General Services Administration (and available from the Government Printing Office) and into regulations issued by

[1] Filed as part of the original document.

V 39 160 MAR 27 74 XUM

the Military Traffic Management and Terminal Service, Department of the Army, for use of the military establishments and components. Pending complete revision of Part 52, Title 4, of the Code of Federal Regulations, §§ 52.3, 52.6, 52.7, 52.8, 52.9, 52.10, 52.11, 52.21, 52.22, 52.23, 52.24, 52.25, 52.26, 52.27 and 52.28, and those portions of §§ 52.18 and 52.19 that are inconsistent with the new procedures outlined above will no longer be complied with.

[SEAL] ELMER B. STAATS,
Comptroller General of the United States.

NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

SPECIAL PROJECTS ADVISORY PANEL

Notice of Meeting

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), notice is hereby given that a meeting of the Special Projects Advisory Panel to the National Council on the Arts will be held at 1:00 p.m. on March 30, and at 9:00 a.m. on March 31, 1974 in the first floor conference room of the Shoreham Building, 806 15th Street, NW., Washington, D.C.

A portion of this meeting will be open to the public on March 30 from 1:00 p.m. to 5:00 p.m. and on March 31 from 9:00 a.m. until 12:00 noon on a space available basis. Accommodations are limited. During the open session, policy and guidelines for reorganized Special Projects Program will be discussed.

The remaining sessions of this meeting, March 30 from 1:00 p.m. to 5:00 p.m., and March 31 from 9:00 a.m. to 5:00 p.m. are for purpose of Panel review, discussion, evaluation, and recommendation on applications for financial assistance under the National Foundation on the Arts and the Humanities Act of 1965, as amended, including discussion of information given in confidence to the agency by grant applicants. In accordance with the determination of the Chairman published in the FEDERAL REGISTER of January 10, 1973, these session, involving matters exempt from the requirements of public disclosure under the provisions of the Freedom of Information Act (5 U.S.C. 552(b) (4) and (6), will not be open to the public.

Further information with reference to this meeting can be obtained from Mrs. Luna Diamond, Advisory Committee Management Officer, National Endowment for the Arts, Washington, D.C. 20506, or call (202) 382-5871.

ED WOLFE,
Administrative Officer National Endowment for the Arts, National Foundation on the Arts and the Humanities.

OFFICE OF MANAGEMENT AND BUDGET

REQUEST FOR CLEARANCE OF REPORTS

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on March 22, 1974 (44 USC 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number, if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (x) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this Daily List may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202-395-4529).

[70-5436]

METROPOLITAN EDISON CO.

Notice of Proposed Charter Amendment To Increase Authorized Shares of Company's Cumulative Preferred Stock and Proxy Solicitation in Connection Therewith

MARCH 19, 1974.

Notice is hereby given that Metropolitan Edison Company, 2800 Pottsville Pike, Muhlenberg Township, Berks County Pennsylvania 19605 ("Met-Ed"), a wholly-owned electric utility subsidiary company of General Public Utilities Corporation ("GPU"), a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7 and 12(e) of the Act and Rules 62 and 65 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Met-Ed proposes to amend its corporate charter in order to increase the number of shares of cumulative preferred stock, par value $100 per share, which it is authorized to issue from its present authorization of 1,400,000 shares (of which 1,393,912 shares are now outstanding) to 2,150,000 shares. It is stated that the increase in the number of shares is being sought in order that Met-Ed will be in a position to issue and sell, from time to time, additional shares of cumulative preferred stock if such issuance and sale are deemed necessary or desirable in order to facilitate the financing of its construction program. It is Met-Ed's present intention to meet its capital requirements by the issuance of additional funded debt and with funds generated from operations. However, by reason of the first mortgage bond and debenture indenture constraint's upon the ability of Met-Ed to issue additional funded debt and the enormous capital requirements of its substantial construction program, (estimated to be $1,400,000 in 1974), it may become necessary for Met-Ed to issue additional shares of Cumulative Preferred Stock to enable it to continue with its construction program.

The proposed increase in the authorized Cumulative Preferred Stock of Met-Ed will require the consent of the holders of a majority of the total number of shares of Preferred Stock of all series outstanding. Met-Ed plans to seek such consent at a Special Meeting of Holders of Met-Ed's Preferred and Common Stock and to solicit proxies for the granting of such consent.

The fees and expenses to be incurred in connection with the proposed transactions will be filed by amendment. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 15, 1974, request in writing that a hearing be held with respect to the proposed matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be

V 39 160 MAR 27 74 XUM

served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective pursuant to Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

THIOKOL CORP.

Notice of Application for Unlisted Trading Privileges and of Opportunity for Hearing

MARCH 19, 1974.

In the matter of application of the Boston Stock Exchange for unlisted trading privileges in a certain security.

The above named national securities exchange has filed an application with the Securities and Exchange Commission pursuant to section 12(f)(1)(B) of the Securities Exchange Act of 1934 and Rule 12f-1 thereunder, for unlisted trading privileges in the common stock of the following company, which security is listed and registered on one or more other national securities exchange:

Thiokol Corporation (Virginia).

Upon receipt of a request, on or before April 4, 1974 from any interested person, the Commission will determine whether the application shall be set down for hearing. Any such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing, if ordered. In addition, any interested person may submit his views or any additional facts bearing on the said application by means of a letter addressed to the Secretary, Securities and Exchange Commission, Washington, D.C. 20549 not later than the date specified. If no one requests a hearing, this application will be determined by order of the Commission on the basis of the facts stated therein and other information contained in the official files of the Commission pertaining thereto.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

d. Branch Manager, Gulfport, Miss., Branch Office	50,000
e. Chief, District Financing Division	50,000

4. *Displaced Business and Other Economic Injury Loans.* a. To decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters in any amount and to approve such loans up to the following amounts (SBA share):

(1) Assistant Regional Director for Finance and Investment, $350,000.

b. To approve or decline displaced business loans, coal mine health and safety loans, consumer protection loans (meat, egg, poultry), occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters up to the following amounts (SBA share):

(1) Assistant Regional Director for Finance and Investment	$350,000
(2) District Director	350,000
(3) Assistant District Director for Finance and Investment	350,000
(4) Branch Manager, Gulfport, Miss., Branch Office	50,000
(5) Chief, District Financing Division	50,000

SECTION B. OTHER FINANCING AUTHORITY

1. a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, and coal mine health and safety and handicapped assistance, and strategic arms limitation economic injury loan participation agreements with banks:

(1) Ass't Regional Director for Finance Investment.
(2) District Director.
(3) Ass't District Director for Finance Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

b. To enter into blanket loan guarantee agreements with banks:

(1) Ass't Regional Director for Finance Investment.
(2) District Director.
(3) Ass't District Director for Finance Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

2. a. To execute loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

(1) Ass't Regional Director for Finance Investment.
(2) District Director.
(3) Ass't District Director for Finance Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

3. To cancel, reinstate, modify and amend authorizations:

a. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, handicapped assistance, and coal mine health and safety, and strategic arms limitation economic injury loans:

(1) Ass't Regional Director for Finance Investment.
(2) District Director.
(3) Ass't District Director for Finance Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

b. For *fully undisbursed* or *partially disbursed* business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), occupational safety and health, handicapped assistance, coal mine health and safety loans, and strategic arms limitation economic injury loans:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, handicapped assistance, strategic arms limitation economic injury loans, and occupational safety and health loans personally approved under delegated authority:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

4. To approve minor modifications in fully undisbursed loan authorization:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

5. a. To extend the disbursement period on all loan authorizations:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Branch Manager, Gulfport, Mississippi, Branch Office.

b. To extend the disbursement period on all loan authorizations on loans *fully undisbursed:*

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.
(5) Chief, District Financing Division.

6. To approve service charges by participating banks not to exceed 2 percent per annum on the outstanding principal balance of construction loans and loans involving accounts receivable and inventory financing:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.
(5) Chief, District Financing Division.

PART II—DISASTER PROGRAM

SECTION A. DISASTER LOAN AUTHORITY

1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and (2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, and strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) except to the extent of refinancing of a previous SBA disaster loan:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.

V 39 160
MAR 27 74
XUM

(4) Branch Manager, Gulfport, Mississippi, Branch Office.
(5) Chief, District Financing Division.
(6) Disaster Branch Manager, as assigned.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health and safety, occupational safety and health, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of $50,000: (None.)

3. To decline disaster guaranteed loans in any amount and to approve such loans up to an SBA guarantee of the following amounts:

a. Assistant Regional Director for Finance and Investment	$500,000
b. District Director	500,000
c. Assistant District Director for Finance and Investment	350,000
d. Branch Manager, Gulfport, Miss., Branch Office	350,000
e. Chief, District Financing Division	50,000

4. To appoint as a processing representative any bank in the disaster area. None.

SECTION B. ADMINISTRATIVE AUTHORITY

1. *Establishment of Disaster Field Offices.* (a) To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices when no longer advisable to maintain such offices; and (b) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space.

a. Assistant Regional Director for Finance & Investment.
b. District Director.

2. *Purchase and Contract Authority.* a. To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter.

(1) Ass't Regional Director for Administration.
(2) Ass't Regional Director for Finance & Investment.
(3) District Director.
(4) Disaster Branch Manager, as assigned.
(5) District Administrative Officer.
(6) Branch Manager, Gulfport, Mississippi, Branch Office.

b. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Ass't Regional Director for Administration.
(2) Regional Office Services Manager or Assistant.
(3) District Director.
(4) District Administrative Officer.
(5) District Office Services Mngr. or Office Services Ass't.
(6) Branch Manager, Gulfport, Mississippi, Branch Office.

PART III—COMMUNITY ECONOMIC DEVELOPMENT (CED) PROGRAM

SECTION A. SECTION 501 AND 502 LOAN APPROVAL AUTHORITY

1. To approve or decline section 501 state development company loans:
a. Without dollar limitation: None.
b. Up to the following amounts (SBA share), provided the official concurs in at least one prior recommendation:

(1) Assistant Regional Director for Finance and Investment	$350,000
(2) District Director	350,000
(3) Assistant District Director for Finance and Investment	350,000
(4) Branch Manager, Gulfport, Miss., Branch Office	50,000

2. To approve or decline § 502 local development company loans:
a. Up to the following amount (SBA share):

(1) Assistant Regional Director for Finance and Investment	$350,000
(2) District Director	350,000
(3) Assistant District Director for Finance and Investment	350,000
(4) Branch Manager, Gulfport, Miss., Branch Office	50,000

b. Up to the following amount (SBA share) when project cost does not exceed $1,000,000, provided the official concurs in at least one prior recommendation: None.

c. Up to the following amount (SBA share) when project cost does not exceed $700,000, provided the official concurs in at least one recommendation: None.

SECTION B. OTHER 501 AND 502 AUTHORITY

1. a. To extend the disbursement period on §§ 501 and 502 loan authorizations:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Branch Manager, Gulfport, Mississippi, Branch Office.

b. To extend the disbursement period on fully undisbursed §§ 501 and 502 loans: None.

2. a. To execute sections 501 and 502 loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

3. a. To cancel, reinstate, modify, and amend authorizations for §§ 501 and 502 loans:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Branch Manager, Gulfport, Mississippi, Branch Office.

b. To cancel, reinstate, modify, and amend authorizations for fully undisbursed or partially disbursed §§ 501 and 502 loans: None.

4. To enter into § 502 loan participation agreements with banks:

(a) Ass't Regional Director for Finance & Investment.
(b) District Director.
(c) Ass't District Director for Finance & Investment.
(d) Branch Manager, Gulfport, Mississippi, Branch Office.

SECTION C. LEASE GUARANTEE APPROVAL AUTHORITY

1. To approve or decline applications for the direct guarantee of payment of rent not to exceed the following amounts:

(a) Assistant Regional Director for Finance and Investment	$500,000
(b) District Director	500,000

2. To guarantee sureties of small businesses against portions of losses resulting from the breach of bid, payment, or performance bonds on contracts not to exceed $500,000:
(a) Ass't Regional Director for Finance & Investment.

SECTION D. OTHER LEASE GUARANTEE AUTHORITY

1. a. To issue and modify commitment letters:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.

SECTION E. EDA LOAN DISBURSEMENT AUTHORITY

1. a. To disburse approved EDA loans, as authorized: None.

PART IV—PORTFOLIO MANAGEMENT (PA) PROGRAM

SECTION A. PORTFOLIO MANAGEMENT, SERVICING, COLLECTION, AND LIQUIDATION AUTHORITY

1. To take all necessary actions in connection with the administration, servicing, collection, and liquidation of all loans, exclusive of matters in litigation, and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer, and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or

hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing; the approval of bank applications for use of liquidity privilege under the loan guaranty plan; and to advertise regarding the public sale of collateral in connection with liquidation of loans, and acquired property:

a. *Excerpt: To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participation or guaranty agreement:

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.

b. Except: To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; *to authorize the liquidation of a loan; and the cancellation of authority to liquidate:*

(1) Ass't District Director for Finance & Investment.
(2) Chief, District & Branch Portfolio Management Div.

c. Except: To compromise or sell any primary obligation or other evidence or indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan *other than a disaster home loan* and the cancellation of authority to liquidate any loan *other than a disaster home loan:* None.

2. To contract for the services of fee appraisers, engineering, marketing and feasibility studies, and other required services, in conjunction with loan processing, servicing, and loan liquidation.

(a) Ass't Regional Director for Finance & Investment.
(b) District Director.
(c) Ass't District Director for Finance & Investment.
(d) Chief, District Portfolio Management Division.
(e) Chief, Branch Portfolio Management Division.

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans, exclusive of matters in litigation and acquired collateral, when and as authorized by EDA:

(a) Ass't Regional Director for Finance & Investment.
(b) District Director.
(c) Ass't District Director for Finance & Investment.
(d) Branch Manager, Gulfport, Mississippi, Branch Office.
(e) Chief, District Portfolio Management Division.
(f) Chief, Branch Portfolio Management Division.

SECTION B. PARTICULAR ACTIONS IN SERVICING ACCOUNTS NOT CLASSIFIED "IN LITIGATION"

1. To approve the following actions, except as to non-current § 502 loans:
a. Use of such portions of the cash surrender value of assigned life insurance as are required to pay premiums due on the policy.
b. Release of dividends on assigned life insurance or consent to application of dividends against premiums due or to become due.
c. Minor modifications in the authorizations.
d. Extension of disbursement period on loans partially undisbursed.
e. Extension of initial principal payments.
f. Adjustment of interest payment dates.
g. Release of hazard insurance checks on behalf of the Agency where SBA is named as joint loss payee.
h. Release of equipment with or without consideration where the value of equipment being released does not exceed $500.

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.
(3) Ass't District Director for Finance & Investment.
(4) Branch Manager, Gulfport, Mississippi, Branch Office.
(5) Chief, District Portfolio Management Division.
(6) Chief, Branch Portfolio Management Division.

SECTION C. LEASE GUARANTEE ADMINISTRATION AND SERVICING AUTHORITY

1. To service, approve payment or recommend denial of claims.
a. Issued in the Region:

(1) Ass't Regional Director for Finance & Investment.

b. Issued in his District:

(1) District Director.
(2) Ass't District Director for Finance & Investment.
(3) Chief, District Portfolio Management Division.

c. Assigned to Gulfport Branch Office:

(1) Branch Manager, Gulfport.
(2) Chief, Branch Portfolio Management Division.

2. To take all actions necessary to mitigate losses from lease guarantees.
a. Issued in the Region:

(1) Ass't Regional Director for Finance & Investment.

b. Issued in his District:

(1) District Director.
(2) Ass't District Director for Finance & Investment.
(3) Chief, District Portfolio Management Division.

c. Assigned to Gulfport Branch Office:

(1) Branch Manager, Gulfport, Mississippi, Branch Office.
(2) Chief, Branch Portfolio Management Division.

PART V—PROCUREMENT AND MANAGEMENT ASSISTANCE

SECTION A. CERTIFICATE OF COMPETENCY APPROVAL AUTHORITY

1. With the exception of re-referred cases, to approve applications for Certificates of Competency up to but not exceeding $250,000 bid value received from small business concerns located within Region IV:
a. Ass't Regional Director for Procurement Assistance.
2. To deny an application for a Certificate of Competency when an adverse determination as to capacity or credit is concurred in:
a. Ass't Regional Director for Procurement Assistance.

SECTION B. SECTION 8(a) CONTRACTING AUTHORITY

1. To enter into contracts, not exceeding the following amounts, on behalf of the Small Business Administration with the U.S. Government and any department, agency, or officer thereof having procurement powers, obligating the Small Business Administration to furnish articles, equipment, supplies or materials to the Government and agreeing as to the terms and conditions of such contracts:
a. Ass't Regional Director for Procurement Assistance, not exceeding $350,000.
2. To arrange for the performance of such contracts by negotiating or otherwise letting subcontracts to small business concerns or others for the manufacture, supply or assembly of such articles, equipment, supplies, or materials, or parts thereof, or servicing or processing in connection therewith, or such management services as may be necessary to enable the Small Business Administration to perform such contracts:
a. Ass't Regional Director for Procurement Assistance.
3. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract, not exceeding the following amounts, to be let by any such officer:
a. Ass't Regional Director for Procurement Assistance, $350,000.

V 39 160 MAR 27 74 XUM

SECTION C. SECTION 406 CONTRACT MANAGEMENT AUTHORITY

1. To take all necessary actions in connection with the administration and management of contracts, executed by the Associate Administrator for Financial Assistance under the authority granted in Section 406 of the Economic Opportunity Act of 1964, as amended, except changes, amendments, modifications, or termination of the original contract:

a. Ass't Regional Director for Management Assistance.

PART VI—LEGAL SERVICES

SECTION A. AUTHORITY TO CONDUCT LITIGATION ACTIVITIES

1. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing:

a. The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation.

(1) *Except: To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement:

(a) Regional Counsel.
(b) Regional Office Attorney.
(c) District Counsel.
(d) District Office Attorney.
(e) Branch Counsel, Gulfport, Miss., Branch Office.

(2) *Except: To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; *to authorize the liquidation of a loan; and the cancellation of authority to liquidate:* None.

2. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, with the exception of the following, which are reserved to regional and district counsel:

a. The assignment, endorsement, transfer and delivery of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation: None.

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans having litigative aspects, when and as authorized by EDA:

a. Regional Counsel.
b. Regional Office Attorney.
c. District Counsel.
d. District Office Attorney.
e. Branch Counsel, Gulfport, Miss., Branch Office.

SECTION B. LOAN CLOSING AUTHORITY

1. To close and disburse approved SBA loans and rehabilitation loans for Department of Housing and Urban Development:

a. Regional Counsel.
b. Regional Office Attorney.
c. District Counsel.
d. District Office Attorney.
e. Branch Counsel, Gulfport, Miss., Branch Office.
f. Loan Closing Assistant as assigned.

2. To approve, when requested, in advance of disbursements, conformed copies of notes and other closing documents; and certify to the participating bank that such documents are in compliance with the participation authorization:

a. Regional Counsel.
b. Regional Office Attorneys.
c. District Director.
d. District Office Counsel.
e. District Office Attorneys.
f. Branch Manager, Gulfport, Miss., Branch Office.
g. Branch Counsel, Gulfport, Miss., Branch Office.

3. To close, approve EDA loans as authorized. None.

PART VII—ELIGIBILITY AND SIZE DETERMINATIONS

SECTION A. ELIGIBILITY DETERMINATIONS

1. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance under programs of the agency, except the SBIC program, as indicated:

a. Loans under Sec. 7 of the Small Business Act, under the Economic Opportunity Act, under the Small Business Investment Act, and under related loan statutes:

(4) Supervisory Loan Specialist, Financing Division, if no Ass't District Director for Finance & Investment is assigned.
(5) Branch Manager, Gulfport, Mississippi, Branch Office.
(6) Ass't Regional Director for Management Assistance.
(7) Ass't District Director for Management Assistance.

b. Lease guarantees

(1) Ass't Regional Director for Finance & Investment.
(2) District Director.

c. Certificates of Competency, Sec. 8(a) contracts not involving Divestiture Agreements, and subcontracting programs, *except* product classification decisions for procurement purposes:

(1) Ass't Regional Director for Procurement Assistance.

2. Product classification decisions for procurement purposes are made by contracting officers.

PART VIII—ADMINISTRATION

SECTION A. AUTHORITY TO PURCHASE, RENT, OR CONTRACT FOR EQUIPMENT, SERVICES AND SUPPLIES

1. To purchase reproductions of loan documents, chargeable to the revolving fund, requested by U.S. attorneys in foreclosure cases:

a. Assistant Regional Director for Administration.
b. District Director.
c. District Administrative Officer.
d. Branch Manager, Gulfport, Mississippi, Branch Office.

2. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter:

a. Assistant Regional Director for Administration.
b. Regional Office Services Manager or Office Services Ass't.
c. District Director.
d. District Administrative Officer.
e. District, Office Services Manager or Office Services Ass't.
f. Branch Manager, Gulfport, Mississippi, Branch Office.

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration:

a. Assistant Regional Director for Administration.
b. Regional Office Services Manager or Office Services Ass't.
c. District Director.
d. District Administrative Officer.
e. District, Office Services Manager or Office Services Ass't.
f. Branch Manager, Gulfport, Mississippi, Branch Office.

4. Use of Seal of the Small Business Administration. To certify true copies of any books, records, papers, or other documents on file with the Small Business Administration; to certify extracts from such material; to certify the non-existence of records on file; and to cause the Seal of the Small Business Administration to be affixed to all such certifications:

a. District Director.
b. Branch Manager, Gulfport, Mississippi, Branch Office.

PART IX—EXERCISE OF AUTHORITY BY OFFICE IN AN ACTING CAPACITY AND REDELEGATION

The authority delegated herein to a specific position may not be redelegated; however, such authority may be exercised by an SBA employee designated as acting in that position.

PART X—RESCISSION OF AUTHORITY

All authority previously delegated by the Administrator to specific positions in Region IV is hereby rescinded without prejudice to actions taken under all such delegations of authority prior to effective date hereof.

Effective dates:

Atlanta Regional Office, September 30, 1973.
Atlanta District Office, September 30, 1973.
Birmingham District Office, November 11, 1973.
Charlotte District Office, December 16, 1973.
Columbia District Office, November 11, 1973.
Jackson District Office, December 16, 1973.
Jacksonville District Office, November 11, 1973.
Louisville District Office, November 11, 1973.
Miami District Office, November 11, 1973.
Nashville District Office, November 11, 1973.
Gulfport Branch Office, December 16, 1973.

WILEY S. MESSICK,
Regional Director,
Region IV.

[FR Doc.74-7032 Filed 3-26-74;8:45 am]

[Delegation of Authority No. 30—Region IX; Rev. 1]

ASSISTANT REGIONAL DIRECTOR FOR F AND I, ET AL.

Delegation of Authority To Conduct Program Activities in Region IX

Delegation of Authority No. 30, Region IX, (37 FR 17624), as amended, (37 FR 20288 and 38 FR 7033), is hereby revised in its entirety to reflect proper position title responsibility for certain program functions as a result of the establishment of a District Office in the Regional Office city and various position changes throughout the region, and reads as follows:

Pursuant to the authority delegated to Regional Directors by Delegation of Authority No. 30 (Revision 14), (37 FR 12651), as amended, the following authority is hereby redelegated to the positions within Region IX as indicated herein:

PART I—FINANCING PROGRAM

(5) District Supervisory Loan Specialist	50,000

SECTION B. OTHER FINANCING AUTHORITY

1. a. To enter into business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, and handicapped assistance loan participation agreements with banks:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Financing Division.
(5) District Supervisory Loan Specialist.
(6) Branch Manager.

b. To enter into blanket loan guarantee agreements with banks:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.

2. a. To execute loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

V 39 160 MAR 27 74 XUM

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Financing Division.
(5) District Supervisory Loan Specialist.
(6) Branch Manager.

3. To cancel, reinstate, modify, and amend authorizations: a. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, and handicapped assistance loans:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Financing Division.
(5) District Supervisory Loan Specialist.
(6) Branch Manager.

b. For fully undisbursed or partially disbursed business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, and handicapped assistance loans:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Financing Division.
(5) Chief, Portfolio Management Division (for partially disbursed loans).
(6) District Supervisory Loan Specialist.
(7) Branch Manager.

c. For business, economic opportunity, disaster, displaced business, consumer protection (meat, egg, poultry), coal mine health and safety, occupational health and safety, strategic arms limitation economic injury, and handicapped assistance loans personally approved under delegated authority: Does Not Apply.

4. To approve minor modifications in fully undisbursed loan authorizations:

(1) District Loan Specialist, FD.
(2) Branch Loan Specialist, FD.

5. a. To extend the disbursement period on all loan authorizations:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Branch Manager.

b. To extend the disbursement period on all loan authorizations on loans fully undisbursed:

(1) Chief, Financing Division.
(2) District Supervisory Loan Specialist, FD.
(3) District Loan Specialist, FD.
(4) Branch Loan Specialist, FD.

6. To approve service charges by participating banks not to exceed 2 percent per annum on the outstanding principal balance of construction loans and loans involving accounts receivable and inventory financing:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Financing Division.
(5) District Supervisory Loan Specialist.

PART II—DISASTER PROGRAM

SECTION A. DISASTER LOAN AUTHORITY

1. To decline direct disaster and immediate participation disaster loans in any amount and to approve such loans up to the total SBA funds of: (1) $50,000 per household for repairs or replacement of the home and/or not to exceed an additional $10,000 allowable for household goods and personal items, but in no event may the money loaned for physical loss or damage exceed $55,000 for a single disaster on home loans, except for funds to refinance prior liens or mortgages, which may be approved in addition to the foregoing limits for amounts up to $50,000; and

(2) $500,000 on disaster business loans (excluding displaced business loans, coal mine health and safety loans, occupational safety and health loans, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture (for natural disasters) except to the extent of refinancing of a previous SBA disaster loan.

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Financing Division.
(5) Disaster Branch Manager.

2. To decline direct disaster and immediate participation disaster loans (excluding displaced business loans, coal mine health, and safety, occupational safety and health, strategic arms limitation economic injury loans, and economic injury disaster loans in connection with declarations made by the Secretary of Agriculture for natural disasters) in any amount and to approve such loans up to the total SBA funds of $50,000:

(1) District Supervisory Loan Specialist.

(3) Assistant District Director for Finance and Investment	500,000
(4) Chief Financing Division	500,000
(5) District Supervisory Loan Specialist	50,000
(6) Disaster Branch Manager	500,000

4. To appoint as a processing representative any bank in the disaster area:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Branch Manager.
(4) Disaster Branch Manager.

5. To approve the request of an applicant to file for a disaster loan after the period for acceptance under the original disaster declaration, or extension thereof, has expired.

(1) Assistant Regional Director for F&I.

SECTION B. ADMINISTRATIVE AUTHORITY

1. *Establishment of Disaster Field Offices.* a. To establish field offices upon receipt of advice of the designation of a disaster area and to close disaster field offices when no longer advisable to maintain such offices; and (b) to obligate the Small Business Administration to reimburse the General Services Administration for the rental of temporary office space.

(1) Assistant Regional Director for F&I.
(2) Assistant Regional Director for Administration.
(3) Disaster Coordinator.
(4) District Director.
(5) Disaster Branch Manager.

2. *Purchase and Contract Authority.* a. To contract for local credit bureau services and loss verification services pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter.

(1) Assistant Regional Director for F&I.
(2) Disaster Coordinator.
(3) Assistant Regional Director for Administration.
(4) Regional Office Services Manager.
(5) Regional Office Services Assistant.
(6) District Director.
(7) District Administrative Officer.
(8) Disaster Branch Manager.

b. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that Chapter.

(1) Assistant Regional Director for F&I.
(2) Disaster Coordinator.
(3) Assistant Regional Director for Administration.
(4) Regional Office Services Manager.
(5) Regional Office Services Assistant.
(6) District Director.
(7) District Administrative Officer.
(8) Disaster Branch Manager.

PART III—COMMUNITY ECONOMIC DEVELOPMENT (CED) PROGRAM

SECTION A. SECTIONS 501 AND 502 LOAN APPROVAL AUTHORITY

1. To approve or decline Section 501 state development company loans: a. Without dollar limitation: Does Not Apply.

b. Up to the following amounts (SBA share), provided the official concurs in at least one prior recommendation:

(1) Assistant Regional Director for Finance and Investment	$350,000
(2) District Director	350,000
(3) Assistant District Director for Finance and Investment	350,000

2. To approve or decline section 502 local development company loans: a. Up to the following amount (SBA share): Does Not Apply.

b. Up to the following amount (SBA share) when project cost does not exceed $1 million, provided the official concurs in at least one prior recommendation:

(1) Assistant Regional Director for Finance and Investment	$350,000
(2) District Director	350,000
(3) Assistant District Director for Finance and Investment	350,000

c. Up to the following amount (SBA share) when project cost does not exceed $700,000, provided the official concurs in at least one prior recommendation: Does Not Apply.

SECTION B. OTHER 501 AND 502 AUTHORITY

1. a. To extend the disbursement period on sections 501 and 502 loan authorizations:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, CED Division.
(5) District Supervisory Economic Development Specialist.
(6) District Economic Development Specialist.

b. To extend the disbursement period on fully undisbursed sections 501 and 502 loans: Does Not Apply.

2. a. To execute sections 501 and 502 loan authorizations for loans approved by higher authority and for loans personally approved under delegated authority:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, CED Division.
(5) Supervisory Economic Development Specialist.

3. a. To cancel, reinstate, modify, and amend authorizations for sections 501 and 502 loans:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, CED Division.
(5) District Supervisory Economic Development Specialist.

b. To cancel, reinstate, modify, and amend authorizations for fully undisbursed or partially disbursed sections 501 and 502 loans: Does Not Apply.

4. To enter into section 502 loan participation agreements with banks:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, CED Division.
(5) District Supervisory Economic Development Specialist.
(6) District Economic Development Specialist.

SECTION C. LEASE GUARANTEE APPROVAL AUTHORITY

1. To approve or decline applications for the direct guarantee of payment of rent not to exceed the following amounts:

(1) Assistant Regional Director for Finance and Investment	$500,000
(2) District Director	500,000
(3) Assistant District Director for Finance and Investment	500,000
(4) Chief, CED Division	250,000
(5) Supervisory Economic Development Specialist	250,000

2. To guarantee sureties of small businesses against portions of losses resulting from the breach of bid, payment, or performance bonds on contracts not to exceed $500,000:

(1) Assistant Regional Director for F&I.
(2) District Director, SF/DO only.
(3) Assistant District Director for F&I, SF/DO only.
(4) Chief, CED, Division, SF/DO only.
(5) Supervisory Economic Development Specialist, SF/DO only.

SECTION D. OTHER LEASE GUARANTEE AUTHORITY

1. a. To issue and modify commitment letters:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, CED Division.
(5) Supervisory Economic Development Specialist.

SECTION E. EDA LOAN DISBURSEMENT AUTHORITY

1. a. To disburse approved EDA loans, as authorized:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, CED Division.
(5) District Supervisory Economic Development Specialist.

PART IV—PORTFOLIO MANAGEMENT (PM) PROGRAM

SECTION A. PORTFOLIO MANAGEMENT, SERVICING, COLLECTION, AND LIQUIDATION AUTHORITY

1. To take all necessary actions in connection with the administration, servicing, collection, and liquidation of all loans, exclusive of matters in litigation, and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer, and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing; the approval of bank applications for use of liquidity privilege under the loan guaranty plan; and to advertise regarding the public sale of collateral in connection with the liquidation of loans, and acquired property.

a. *Except: To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Portfolio Management Division.
(5) Supervisory Loan Specialist.
(6) Branch Manager.

b. *Except: To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; *to authorize the liquidation of a loan;* and *the cancellation of authority to liquidate:* Does Not Apply.

c. *Except: To compromise or sell* any primary obligation or other evidence or indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan *other than a disaster home loan* and the cancellation of authority to liquidate any loan *other than a disaster home loan:* Does Not Apply.

2. To contract for the services of fee appraisers, engineering, marketing, and feasibility studies, and other required services, in conjunction with loan processing, servicing, and loan liquidation:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Portfolio Management Division.
(5) District Supervisory Loan Specialist.
(6) Branch Manager.

3. To take all necessary action in liquidating Economic Development Administration (EDA) loans, exclusive of matters in litigation, and acquired collateral, when and as authorized by EDA:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Portfolio Management Division.
(5) District Supervisory Loan Specialist.

SECTION B. LOAN ADMINISTRATION, SERVICING AND COLLECTION AUTHORITY

1. To take all necessary actions in connection with the administration, servicing, and collection of all loans, *other than those accounts classified as "in liquidation,"* and to do and perform and

V 39 160 MAR 27 74 XUM

to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing, the assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator; the execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations releases (in whole or part) of liens, satisfaction pieces, affidavits, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing; and the approval of bank applications for use of liquidity privilege under the loan guaranty plan:

a. *Except: To compromise or sell* any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate: Does Not Apply.

2. To approve the following actions:

a. Use of such portions of the cash surrender value of assigned life insurance as are required to pay premiums due on the policy.

b. Release of dividends on assigned life insurance or consent to application of dividends against premiums due or to become due.

c. Minor modifications in the authorizations.

d. Extension of disbursement period on loans partially undisbursed.

e. Extension of initial principal payments.

f. Adjustment of interest payment dates.

g. Release of hazard insurance checks not in excess of $500 and endorsement of such checks on behalf of the Agency where SBA is named as joint loss payee.

h. Release of equipment with or without consideration where the value of equipment being released does not exceed $500.

(1) Concerning all current direct and participation loans and First Mortgage Plan 502 Loans:

1. District Loan Specialist.
2. Branch Loan Specialist.

(2) Concerning all direct and participation loans: Does No Apply.

SECTION C. LEASE GUARANTEE ADMINISTRATION AND SERVICING AUTHORITY

1. a. To service claims arising under all lease insurance policies issued in the region, approving the payment, or recommending denial of such claims:

(1) Assistant Regional Director for F&I.

b. To service claims arising under all lease insurance policies issued in the district, approving the payment, or recommending denial of such claims:

(1) District Director.
(2) Assistant District Director for F&I.
(3) Chief, Portfolio Management Division.
(4) Supervisory Loan Specialist.

c. To service claims arising under all lease insurance policies issued in the branch office area, approving the payment or recommending denial of such claims:

(1) Branch Manager.

2. To take all actions necessary to mitigate losses from lease guarantees:

(1) Assistant Regional Director for F&I.
(2) District Director.
(3) Assistant District Director for F&I.
(4) Chief, Portfolio Management.
(5) Supervisory Loan Specialist.
(6) Branch Manager.

PART V—PROCUREMENT ASSISTANCE (PA) PROGRAM

SECTION A. CERTIFICATE OF COMPETENCY APPROVAL AUTHORITY

1. With the exception of re-referred cases, to approve applications for Certificates of Competency up to but not exceeding $250,000 bid value received from small business concerns located within the geographical jurisdiction of the following: Does Not Apply.

2. To deny an application for a Certificate of Competency when an adverse determination as to capacity or credit is concurred in: Does Not Apply.

SECTION B. SECTION 8(a) CONTRACTING AUTHORITY

1. To enter into contracts not exceeding the following amount on behalf of the Small Business Administration with the U.S. Government and any department, agency, or officer thereof having procurement powers, obligating the Small Business Administration to furnish articles, equipment, supplies or materials to the Government and agreeing as to the terms and conditions of such contracts:

(1) Assistant Regional Director for Procurement Assistance	$500,000
(2) District Director	100,000
(3) Assistant District Director for Procurement Assistance	100,000

2. To arrange for the performance of such contracts by negotiating or otherwise letting subcontracts to small business concerns or others for the manufacture, supply, or assembly of such articles, equipment, supplies, or materials, or parts thereof, or servicing or processing in connection therewith, or such management services as may be necessary to enable the Small Business Administration to perform such contracts:

(1) Assistant Regional Director for PA.
(2) District Director.
(3) Assistant District Director for PA.

3. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract not exceeding the following amounts to be let by any such officer:

(1) Assistant Regional Director for Program Assistance	$500,000
(2) District Director	100,000
(3) Assistant District Director for Program Assistance	100,000

PART VI—MANAGEMENT ASSISTANCE (MA) PROGRAM

SECTION 406 CONTRACT MANAGEMENT AUTHORITY

To take all necessary actions in connection with the administration and management of contracts, executed by the Associate Administrator for Procurement and Management Assistance under the authority granted in section 406 of the Economic Opportunity Act of 1964, as amended, except changes, amendments, modifications, or termination of the original contract:

(1) Assistant Regional Director for MA.
(2) Assistant District Director for MA.

PART VII—LEGAL SERVICES

SECTION A. AUTHORITY TO CONDUCT LITIGATION ACTIVITIES

1. To conduct all litigation activities, including SBIC matters as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, including without limiting the generality of the foregoing:

a. The assignment, endorsement, transfer and delivery (but in all cases without representation, recourse, or warranty) of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents, and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain, and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation.

(1) *Except:* To compromise or sell any primary obligation or other evidence of

indebtedness owed to the Agency for a sum less than the total amount due thereon; and to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement:

(1) Regional Counsel.

(2) *Except:* To compromise or sell any primary obligation or other evidence of indebtedness owed to the Agency for a sum less than the total amount due thereon; to deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the assertion of a claim for recovery from a participating bank under any alleged violation of a participation or guaranty agreement; to authorize the liquidation of a loan; and the cancellation of authority to liquidate:

(1) District Counsel.
(2) Branch Counsel.

2. To conduct all litigation activities, including SBIC matters, as assigned, and to take all action necessary in connection with matters in litigation; and to do and perform and to assent to the doing and performance of, all and every act and thing requisite and proper to effectuate the granted powers, with the exception of the following, which are reserved to regional and district counsel and district attorneys:

a. The assignment, endorsement, transfer and delivery of notes, claims, bonds, debentures, mortgages, deeds of trust, contracts, patents and applications therefor, licenses, certificates of stock and of deposit, and any other liens, powers, rights, charges on and interest in or to property of any kind, legal and equitable, now or hereafter held by the Small Business Administration or its Administrator, as to all matters in litigation.

b. The execution and delivery of contracts of sale or of lease or sublease, quitclaim, bargain and sale of special warranty deeds, bills of sale, leases, subleases, assignments, subordinations, releases (in whole or part) of liens, satisfaction pieces, affidavits, proofs of claim in bankruptcy or other estates, and such other instruments in writing as may be appropriate and necessary to effectuate the foregoing, as to all matters in litigation: Does Not Apply.

3. To take all necessary action liquidating Economic Development Administration (EDA) loans having litigative aspects, when and as authorized by EDA:

(1) Regional Counsel.
(2) District Directors.
(3) District Counsel.
(4) District Attorneys.
(5) Branch Manager.
(6) Branch Counsel.

SECTION B. LOAN CLOSING AUTHORITY

1. To close and disburse approved SBA loans and rehabilitation loans for Department of Housing and Urban Development:

(1) Regional Counsel.
(2) District Counsel.
(3) District Attorneys.
(4) Branch Counsel.

2. To close and disburse approved SBA loans: Does Not Apply.

3. To close approved EDA loans, as authorized:

(1) Regional Counsel.
(2) District Director.
(3) District Counsel.
(4) District Attorneys.
(5) Branch Manager.
(6) Branch Counsel.

4. To approve, when requested, in advance of disbursement, conformed copies of notes and other closing documents; and certify to the participating bank that such documents are in compliance with the participation authorization:

(1) Regional Counsel.
(2) District Counsel.
(3) District Attorneys.
(4) Branch Counsel.

PART VIII—ELIGIBILITY AND SIZE DETERMINATIONS

SECTION A. ELIGIBILITY DETERMINATIONS

1. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance *under any program of the Agency:*

(1) *Except:* The SBIC program:

(1) District Director.

(2) *Except:* The SBIC, procurement assistance and management assistance programs:

(1) Assistant Regional Director for F&I.
(2) Assistant District Director for F&I.

2. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance *under the procurement assistance program of the Agency:*

(1) Assistant Regional Director for PA.
(2) Assistant District Director for PA.

3. In accordance with Small Business Administration standards and policies, to determine eligibility of applicants for assistance *under the management assistance program of the Agency:*

(1) Assistant Regional Director for MA.
(2) Assistant District Director for MA.

4. All positions to which approval authority in any program has been delegated are authorized to determine eligibility of applicants to the extent of the approval authority delegated to that position.

SECTION B. SIZE DETERMINATIONS

1. a. To make initial size determinations *in all cases* within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions *for financial assistance purposes only:* Does Not Apply.

b. To make initial size determinations in all cases within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions *for financing purposes only:*

(1) Assistant Regional Director for F&I.
(2) Assistant District Director.
(3) Assistant District Director for F&I.

c. To make initial size determinations in all cases within the meaning of the Small Business Size Standards Regulations, as amended, *except sections 501 and 502 loans*, and further, to make product classification decisions *for financing purposes only:*

(1) Chief, Finance Division.

d. To make initial size determinations *in all sections 501 and 502 loans* within the meaning of the Small Business Size Standards Regulations, as amended, and further, to make product classification decisions for sections 501 and 502 loans only:

(1) Chief, CED Division.

e. To make initial size determinations in all procurement assistance programs within the meaning of the Small Business Size Standards Regulations, as amended.

(1) Assistant Regional Director for PA.
(2) District Director.
(3) Assistant District Director for PA.

f. Product classification decisions for procurement purposes are made by contracting officers.

PART IX—ADMINISTRATIVE

SECTION A. AUTHORITY TO PURCHASE, RENT OR CONTRACT FOR EQUIPMENT, SERVICES, AND SUPPLIES

1. To purchase reproductions of loan documents, chargeable to the revolving fund, requested by U.S. Attorneys in Foreclosure cases:

(1) Assistant Regional Director for Administration.
(2) Regional Office Services Manager.
(3) Regional Office Services Assistant.
(4) District Director.
(5) District Administrative Officer.
(6) Branch Manager.

2. To purchase office supplies and equipment, including office machines and rent regular office equipment and furnishings; contract for repair and maintenance of equipment and furnishings; contract for printing (Government sources only); contract for services required in setting up and dismantling and moving SBA exhibits; and issue Government bills of lading pursuant to Chapter 4 of Title 41, United States Code, as amended, subject to the limitations contained in section 257 (a) and (b) of that chapter.

(1) Assistant Regional Director for Administration.
(2) Regional Office Services Manager.
(3) Regional Office Services Assistant.
(4) District Director.
(5) District Administrative Officer.
(6) Branch Manager.

3. To rent motor vehicles and garage space for the storage of such vehicles when not furnished by this Administration.

(1) Assistant Regional Director for Administration.
(2) Regional Office Services Manager.
(3) Regional Office Services Assistant.
(4) District Director.

V 39 160 MAR 27 74 XUM

(5) District Administrative Officer.
(6) Branch Manager.

SECTION B. USE OF SEAL OF THE SMALL BUSINESS ADMINISTRATION

1. To certify true copies of any books, records, papers, or other documents on file with the Small Business Administration; to certify extracts from such materials; to certify the non-existence of records on file; and to cause the Seal of the Small Business Administration to be affixed to all such certifications:

(1) District Director.
(2) Branch Manager.

PART X—EXERCISE OF AUTHORITY BY OFFICE IN AN ACTING CAPACITY AND REDELEGATION

The authority delegated herein to a specific position may not be redelegated; however, such authority may be exercised by an SBA employee designated as acting in that position.

PART XI—RESCISSION OF AUTHORITY

All authority previously delegated by the Regional Director to specific positions in Region IX is hereby rescinded without prejudice to actions taken under all such delegations of authority prior to effective date hereof.

Effective date: October 15, 1973.

GILBERT MONTANO,
Regional Director, Region IX

[Declaration of Disaster Loan Area 1043]

TEXAS

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of February 1974, because of the effects of a certain disaster, damage resulted to property located in the State of Texas;

Whereas, the Small Business Administration has investigated and received reports of other investigation of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Orange, Hardin, and Liberty Counties, Texas, and adjacent affected areas, suffered damage or destruction resulting from severe storms and flooding which occurred the beginning of February 1974.

Applications will be processed under the provisions of Public Law 93-24.

Office:
Small Business Administration
District Office
Niels Esperson Building, Room 1210
808 Travis Street
Houston, Texas 77002

2. Applications for disaster loans under the authority of this declaration will not be accepted subsequent to May 16, 1974.

Dated: March 15, 1974.

THOMAS S. KLEPPE,
Administrator.

[Notice No. 11]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

MARCH 22, 1974.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules—Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC-2202 (Deviation No. 126), ROADWAY EXPRESS, INC., P.O. Box 471, Akron, Ohio 44309, filed March 18, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over deviation routes as follow: (1) From junction U.S. Highway 66 and Oklahoma Highway 33 at or near Tulsa, Okla., over Oklahoma Highway 33 to junction U.S. Highway 69, and (2) from junction U.S. Highway 69 and U.S. Highway 62 at or near Muskogee, Okla., over

V 39160 MAR 27 74 XUM

U.S. Highway 62 to junction U.S. Highway 75 near Okmulgee, Okla., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over pertinent service routes as follow: (1) From junction U.S. Highway 66 and Oklahoma Highway 33 at or near Tulsa, Okla., over U.S. Highway 66 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction Oklahoma Highway 33, and (2) from junction U.S. Highway 69 and U.S. Highway 62 at or near Muskogee, Okla., over U.S. Highway 69 to junction U.S. Highway 266, thence over U.S. Highway 266 to junction U.S. Highway 75, thence over U.S. Highway 75 to junction U.S. Highway 62 near Okmulgee, Okla., and return over the same routes.

No. MC–42487 (Deviation No. 102), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 7101 South Cicero Avenue, Chicago, Illinois 60629, filed March 15, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cincinnati, Ohio, over Interstate Highway 75 to junction Interstate Highway 64 at or near Lexington, Ky., thence over Interstate Highway 64 to junction Interstate Highway 77 at or near Charleston, W. Va., thence over Interstate Highway 77 to junction U.S. Highway 460 near Princeton, W. Va., thence over U.S. Highway 460 to junction Virginia Highway 100 at or near Pearisburg, Va., thence over Virginia Highway 100 to junction U.S. Highway 221 at or near Hillsville, Va., thence over U.S. Highway 221 to junction U.S. Highway 52 at or near Hillsville, Va., thence over U.S. Highway 52 to Winston-Salem, N.C., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cincinnati, Ohio, over U.S. Highway 25 to Corbin, Ky., thence over U.S. Highway 25E to Newport, Tenn., thence over U.S. Highway 25 to Asheville, N.C., thence over U.S. Highway 70 to Statesville, N.C., thence over U.S. Highway 64 to Mocksville, N.C., thence over U.S. Highway 158 to Winston-Salem, N.C., and return over the same route.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74-7103 Filed 3-26-74;8:45 am]

[Notice No. 23]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MARCH 22, 1974.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100 247 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1974.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 138317 (REPUBLICATION), filed January 2, 1973, and published in the FR issue of February 8, 1973, and republished this issue. Applicant: CEMENT TRANSPORT, INC., Valley Station, Ky. 40272. Applicant's representative: Ollie L. Merchant, Suite 202, 140 South Fifth Street, Louisville, Ky. 40202. An Order of the Commission, Review Board Number 1, dated March 12, 1974, and served March 15, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *cement*, in bulk, in tank vehicles, and in bags, from the plant site of the Klintkote Company-Diamond Kosmos Division at or near Kosmosdale, Ky., to those points in Illinois, Indiana, and Ohio, within 180 miles of Kosmosdale, and to points in Tennessee, subject to the restriction that applicant shall not tack or join such grant with any authority to perform a through service; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to accurately indicate the authority applied for in part (1) of the application which should read cement, in bulk, in tank vehicles, and in bags, from Kosmosdale, Ky., to points in Illinois, Indiana, and Ohio, wtihin 180 miles of Kosmosdale, Ky., and to points in Tennessee. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld until April 26, 1974, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 138661 (REPUBLICATION), filed April 16, 1973, and published in the FR issue of March 13, 1974, and republished this issue. Applicant: ROBERT E. KUKURUZA, doing business as BTS, 50 Solano Avenue, Vallejo, Calif. 94590. Applicant's representative: Jack B. Burstein, 1730 Sonoma Boulevard, Vallejo, Calif. 94590. An Order of the Commission, Review Board Number 1, dated February 21, 1974, and served March 1, 1974, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, of *wrecked driveable automobiles*, in truckaway service, from San Francisco, San Jose, and Vallejo, Calif., to Troutdale, Oreg., under a continuing contract or contracts with Arrow Factors, of Troutdale, Oreg., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and with the Commission's rules and regulations thereunder. The purpose of this republication is to indicate the correct docket number of this application as MC–138661 instead of MC–138861, as erroneously published in the FR issue of March 13, 1974. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld until April 26, 1974, of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 138770 (Sub-No. 1) (Republication), filed April 26, 1973, and published in the FR issue of June 21, 1973, and republished this issue. Applicant: BOYD TRUCKING CO., INC., 637 South Hamilton Street, Dalton, Ga. 30720. Applicant's representative: Ariel V. Conlin, 53 Sixth Street NE., Atlanta, Ga. 30308. An Order of the Commission, Review Board Number 1, dated March 4, 1974, and served March 12, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *textile and textile products*, (1) from Winchester, Tenn., to Dalton and Ringgold, Ga.; (2) from Trenton and Chatsworth, Ga., to Winchester, Tenn.; and (3) from Decatur, Tenn., to points in that part of Georgia north of a line beginning at the Alabama-Georgia State line and extending along Interstate Highway 20 to Atlanta, Ga., and thence northeasterly along Interstate Highway 85 to the South Carolina-Georgia State line; that applicant is fit, willing and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to

indicate the correct number of this application to be MC–138770 (Sub-No. 1) rather than MC–138711 as previously published in the FEDERAL REGISTER issue of June 21, 1973. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld until April 26, 1974, of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 107654 (Sub-No. 3) (Notice of Filing of Petition To Modify Permit) filed March 7, 1974. Petitioner: GLEN E. TRIPP, doing business as SPECIAL SERVICE, 760 Lindenwood Lane, Medina, Ohio 44246. Petitioner's representative: Paul F. Beery, 8 East Broad Street, Ninth Floor, Columbus, Ohio 43215. Petitioner holds a motor *contract carrier* permit in No. MC 107654 (Sub-No. 3) issued October 9, 1962, authorizing transportation, over irregular routes, of *canned and preserved foods*, from Medina, Ohio, to Baltimore, Md., Wilmington, Del., and the District of Columbia, under a continuing contract or contracts with The H. W. Madison Company of Medina, Ohio. By the instant petition, petitioner seeks to add the following authority to those described above: "from Orrville, Ohio, to points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and points in Pennsylvania (except those on and south of a line beginning at the Ohio-Pennsylvania State Boundary line and extending along U.S. Highway 422 to Indiana, Pa., and those on and west of a line beginning at Indiana, Pa., and extending along U.S. Highway 119 to its intersection with the Pennsylvania-West Virginia State Boundary line) and Baltimore, Md., Wilmington, Del., and the District of Columbia, under a continuing contract or contracts with The J. M. Smucker Company, Orrville, Ohio." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before April 26, 1974.

No. MC 110098 (Sub-No. 53) (Notice of Petition To Eliminate a Vehicle Restriction), filed March 8, 1974. Petitioner: ZERO REFRIGERATED LINES, 1400 Ackerman Rd., P.O. Box 20386, San Antonio, Tex. 78220. Petitioner's representative: Donald L. Stern, Suite 530, Univac Building, 7100 West Center Road, Omaha, Nebr. 68106. Petitioner holds a motor *common carrier* certificate in No. MC 110098 (Sub-No. 53), issued April 11, 1968, authorizing transportation, over irregular routes, of *foods, food preparations, foodstuffs, candy, and confectionery products* (except in bulk, in tank vehicles), in vehicles equipped with mechanical refrigeration, from points in California, to points in Arizona, New Mexico, and Texas. By the instant petition, petitioner seeks to eliminate the vehicle restriction "in vehicles equipped with mechanical refrigeration." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 111839 (Notice of Filing of Petition To Eliminate a Service Restriction), filed March 8, 1974. Petitioner: BEE LINE EXPRESS, INC., Highway 75 North, P.O. Box 388, Albertville, Ala. 35950. Petitioner's representative: Drew L. Carraway and Elliot Bunce, 618 Perpetual Bldg. NW., Washington, D.C. 20004. Petitioner holds a motor *common carrier* certificate in No. MC 111839 issued June 24, 1963, authorizing transportation, over regular routes, of *general commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Chattanooga, Tenn., and Birmingham, Ala., serving the intermediate points of Albertville, Ala., and all intermediate points between Albertville, Ala., and Chattanooga, Tenn., with service at Albertville, Ala., restricted to the transportation of shipments moving from, to, or through Chattanooga, Tenn., and serving off-route points within three miles of the indicated portion of Alabama Highway 75: From Chattanooga, over U.S. Highway 11 to Trenton, Ga., thence over Georgia Highway 143 to the Alabama-Georgia State Boundary line, thence over Alabama Highway 75 via Albertville and Oneonta, Ala., to Birmingham, and return over the same route; (2) between Rainesville, Ala., and Scottsboro, Ala., serving all intermediate points: From Rainesville over Alabama Highway 35 to Scottsboro and return over the same route; and (3) between Scottsboro, Ala., and Chattanooga, Tenn., serving all intermediate points in Alabama on U.S. Highway 72 between Scottsboro and the Tennessee-Alabama State Boundary line, and the off-route point of Widows Creek, Ala.: From Scottsboro over U.S. Highway 72 to Chattanooga, and return over the same route. RESTRICTION: The service authorized herein is subject to the condition that the traffic moving to, from, or through Chattanooga may not be transported by said carrier to or from Birmingham. By the instant petition, petitioner seeks to eliminate the service restriction stated immediately above on operations between Chattanooga, Tenn., and Birmingham, Ala., to allow through operations between the two cities. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 114725 (Sub-No. 52) (Notice of Filing of Petition to Modify an Origin Point), filed March 3, 1974. Petitioner: WYNNE TRANSPORT SERVICE, INC., 2606 North 11th St., Omaha, Nebr. 68110. Petitioner's representative: Patrick E. Quinn, P.O. Box 82028, Lincoln, Nebr. 68501. Petitioner holds a motor *common carrier* certificate in No. MC 114725 (Sub-No. 52) issued February 1, 1974, authorizing transportation, over irregular routes, of, *fuel oil*, in bulk, in tank vehicles, from Falls City, Nebr., to Marshall, Mo. By the instant petition, petitioner seeks to delete Falls City, Nebr., as a point of origin and substitute in lieu thereof, points in Richardson County, Nebr. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 134145 (Sub-Nos. 1 and 19) (Notice of Filing of Petition to Modify Commodity Descriptions), filed March 7, 1974. Petitioner: NORTH STAR TRANSPORT, INC., Route #1, Thief River Falls, Minn. 56701. Petitioner's representative: Robert P. Sack (same address as petitioner). Petitioner holds motor *contract carrier* permits in No. MC 134145 (Sub-Nos. 1 and 19) issued July 19, 1973, and April 3, 1973, respectively, authorizing transportation, over irregular routes, of in Sub-No. 1, (1) (a) *snowmobiles, boats, motor bikes, and racing vehicles;* and (b) *parts and accessories* of the commodities in (a) above, from Roseau, Thief River Falls, Karlstad, and Minneapolis, Minn., and Afton, Wyo., to points in the United States (except Alaska and Hawaii); and (2) *materials, supplies, and equipment* used in the manufacture of the commodities described in (1) (a) and (b) above (except commodities in bulk), from points in California, Colorado, Connecticut, Idaho, Iowa, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Montana, Nebraska, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Texas, Washington, and Wisconsin, to Roseau, Thief River Falls, Karlstad, and Minneapolis, Minn., and Afton, Wyo., under a continuing contract or contracts with Polaris Industries, Inc., of Roseau, Minn., and Arctic Enterprises, Inc., of Thief River Falls, Minn., and Arctic Metals Products, Inc., of Minneapolis, Minn.; and in Sub-No. 19, *materials, supplies, and equipment* used in the manufacture and sale of snowmobiles and motorbikes (except commodities in bulk), from points in Alabama, Arizona, Arkansas, Delaware, Florida, Georgia, Iowa, Kentucky, Louisiana, Nevada, New Hampshire, New Mexico, North Carolina, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, and Wyoming, to Clearbrook, Detroit Lakes, Karlstad, Minneapolis, Moorhead, Roseau, and Thief River Falls, Minn.,

V 39 60 MAR 27 74 XUM

under a continuing contract or contracts with Arctic Enterprises, Inc., of Thief River Falls, Minn., and Polaris Industries, Inc., of Roseau, Minn. By the instant petition, petitioner seeks to modify its commodity description in Sub-No. 1, 1(a) to read: *"Snowmobiles, boats, motor bikes, racing vehicles, and agriculture implements,"* and in (Sub-No. 19, to read: *"Materials, supplies, and equipment* used in the manufacture and sale of snowmobiles, motor bikes, and agriculture implements." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before April 26, 1974.

No. MC 136408 (Notice of Filing of Petition To Add an Additional Contracting Shipper), filed March 14, 1974. Petitioner: CARGO CONTRACT CARRIER CORP., P.O. Box 206, U.S. Highway 20, Sioux City, Iowa 51102. Petitioner's representative: William J. Hanlon, 60 Park Place, Newark, N.J. 07102. Petitioner holds a motor *contract carrier*, permit in No. MC 136408 issued August 30, 1972, authorizing, as pertinent, transportation, over irregular routes, of *meats, meat products, and meat byproducts and dairy products*, as described in Sections A and B of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from Sioux City, Iowa, to New York, N.Y., under a continuing contract or contracts with Iowa Beef Packers, Inc., of Sioux City, Iowa (successor-in-interest to Sioux City Quality Packers, Inc.). By the instant petition, petitioner seeks to add Armour Food Co. as an additional contracting shipper to the authority described above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition on or before April 26, 1974.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE.

No. MC 2202 (Sub-No. 459), filed February 6, 1974. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, Akron, Ohio 44309. Applicant's representative: William O. Turney, 2001 Massachusetts Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, live stock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), (1) Between Monroe, La., and Shreveport, La., serving the intermediate points of West Monroe, Ruston, Homer, and Springhill, La.: From Monroe over Interstate Highway 20 to Ruston, thence over U.S. Highway 80 to Arcadia, thence over Louisiana Highway 9 to junction of U.S. Highway 79, thence over U.S. Highway 79 to Homer, thence over Louisiana Highway 2 to junction of Louisiana Highway 159, thence over Louisiana Highway 159 to junction of Louisiana Highway 157, thence over Louisiana Highway 157 to junction of Louisiana Highway 3, thence over Louisiana Highway 3 to Shreveport, restricted against the transportation of local traffic between Homer and Springhill, La.; (2) between Arcadia and Shreveport, La., serving intermediate points of Minden and Bossier City: From Arcadia over U.S. Highway 80 to Shreveport and return over the same route; (3) between the junction of U.S. Highway 80 and Louisiana Highway 7 to Springhill, La., serving no intermediate points: From the junction of U.S. Highway 80 and Louisiana Highway 7 over Louisiana Highway 7 to Springhill and return over the same route;

(4) Between Bernice, La. and Vidalia, La., serving all intermediate points between Bernice and Jonesboro, La., Winnfield, La., and all intermediate points between Packton, La., and Vidalia, La.: From Bernice over U.S. Highway 167 to Packton, La., thence over Louisiana Highway 50 (formerly Louisiana Highway 108) to junction of U.S. Highway 84, thence over U.S. Highway 84 to Ferriday, thence over U.S. Highway 65 to Vidalia and return over the same route; (5) between Trout and Alexandria, La., serving all intermediate points: From Trout over Louisiana Highway 8 (formerly Louisiana Highway 19) to Pollack, thence over U.S. Highway 165 to Alexandria and return over the same route; (6) between Pollack, La., and junction of U.S. Highways 165 and 84 serving no intermediate points and serving the junction of U.S. Highways 165 and 84 for the purpose of joinder only: From Pollack over U.S. Highway 65 to junction of U.S. Highway 84 and return over the same route; and (7) between Winnfield and Trout, La. serving no intermediate points: From Winnfield over U.S. Highway 84 to Trout and return over the same route.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. The purpose of this application is to convert the Certificates of Registration issued to Kavanaugh Motor Freight MC 121162 to Certificates of Public Convenience and Necessity. This is a matter directly related to the Section 5 purchase proceeding in MC-F-12129 published in the FR issue of February 13, 1974. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La., or Washington, D.C.

No. MC 85850 (Sub-No. 9), filed December 26, 1973. Applicant: NEYLON FREIGHT LINES, INC., 541 South First Street, Lincoln, Nebr. 68508. Applicant's representative: Earl H. Scudder, Jr., 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value), Classes A and B explosives, commodities in bulk, commodities which because of size or weight require the use of special equipment, and commodities of unusual value), between Lincoln, Nebr., and Sidney, Nebr., serving the junction of U.S. Highway 385 and Nebraska Highway 19 as an intermediate point, with service at Sidney restricted for purposes of joinder only: From Lincoln, Nebr., via U.S. Highway 6 to junction Interstate Highway 80, thence via Interstate Highway 80 to junction U.S. Highway 385, thence via U.S. Highway 385 to junction U.S. Highway 30, thence via U.S. Highway 30 over its junction with Nebraska Highway 19 to Sidney, Nebr. and return over the same route.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. Common control may be involved. The purpose of this application is to convert applicant's irregular route authority to regular route authority. This matter is directly related to the Section 5 purchase proceeding in MC-F-11852, published in the FR issue of July 25, 1973. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC-F-11774. (Amendment) (MERCHANTS TRUCK LINE, INC.—CONTROL—MISSISSIPPI FREIGHT LINES, INC.), published in the January 24, 1973, issue of the FEDERAL REGISTER, on page 2368. Prior notice to be modified to read: "MERCHANTS TRUCK LINE, INC.—CONTROL AND *MERGER*—MISSISSIPPI FREIGHT LINES, INC.)."

No. MC-F-12126. (Correction) (REDBANK TRANSPORT, INC.—PURCHASE—CARL KREBS), published in the February 13, 1974, issue of the FEDERAL REGISTER on page 5543. Prior publication should be corrected to show that DRAVO CORPORATION controls UNION MECHLING CORPORATION, a motor common and contract carrier, and that UNION MECHLING CORPORATION controls RIVER FORWARDERS, INC., a freight forwarder.

No. MC-F-12137. (Correction) (MILLER TRANSFER AND RIGGING CO.—PURCHASE—COMMODORE CARTAGE COMPANY), published in the February 27, 1974, issue of the FEDERAL REGISTER on page 7629. Prior notice to be corrected to read as follows: ". . . commodities requiring special equipment because of size or weight . . ."

No. MC-F-12143. Authority sought for purchase by MAR VAN HAULING & RIGGING, INC., Avenue B, P.O. Box 169, Watervliet, NY 12189, of a portion of the operating rights of FORT EDWARD EXPRESS CO., INC., Route 9 Saratoga Rd., Fort Edward, NY 12828, and for acquisition by JAMES W. MARSHALL, AND ALVIN VAN DENBERG, both of Watervliet, NY 12189, of control of such rights through the purchase. Applicants' attorney: John J. Brady, Jr., 77 State St., Albany, NY 12207. Operating rights sought to be transferred: *Commodities* which because of size or weight require special equipment and special handling, as a *common carrier* over irregular routes, between points in Clinton, Essex, and Franklin Counties, N.Y., on the one hand, and, on the other, points in Franklin and Chittenden Counties, Vt. Vendee is authorized to operate under section 210a(a), pursuant to contract carrier permit in pending No. MC-136594 (Sub-No. 1). Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12150. (CORRECTION) (MOTOR CARGO—PURCHASE—WHOLESALE SERVICES, INC., DBA, R & R TRANSPORTATION COMPANY), published in the March 6, 1974, issue of the FEDERAL REGISTER on page 8696. Prior notice to be corrected to include: Applicants' attorney: Earl H. Scudder, Jr., P.O. Box 82028, Lincoln, NE 68501; vendee is authorized to operate as a common carrier in Nevada, and Utah. The phrase (over regular routes) should be deleted from prior description.

No. MC-F-12154, (DODDS TRUCK LINE, INC.—PURCHASE—CLINTON TRUCK LINES, INC.), published in the March 13, 1974, issue of the FEDERAL REGISTER on page 9729. Application filed March 13, 1974, for temporary authority under section 210a(b).

No. MC-F-12169. Authority sought for purchase by HOWARD HALL COMPANY, INC., P.O. Box 698, Birmingham, AL 35201, of the operating rights and property of FOY CHALKER AND A. C. CREEL, doing business as DOVE TRUCK LINE, P.O. Box 1484, Dothan, AL 36301, and for acquisition by HOWARD HALL, SR., also of Birmingham, AL 35201, of control of such rights and property through the purchase. Applicants' attorney: Maurice F. Bishop, 603 Frank Nelson Bldg., Birmingham, AL 35203. Operating rights sought to be transferred: *General commodities*, excepting among others, dangerous explosives, and household goods, as a *common carrier* over irregular routes, from Jacksonville, Fla., to Dothan, Ala.; *canned citrus fruits and juices, and canned tomatoes*, from Winter Haven, Fla., and points and places in Florida within 70 miles of Winter Haven to Dothan and points and places in Alabama within 125 miles of Dothan; *cottonseed and raw peanuts*, from points and places in Georgia within 75 miles of Dothan, Ala., to Dothan; *cottonseed meal, peanut meal, shelled peanuts, cottonseed hulls, cotton lintors, cottonseed oil, and peanut oil*, from Dothan, Ala., to Mobile, Ala., and points and places in Georgia within 125 miles of Dothan and points and places in Florida west of Jefferson County; *cotton, cotton tags, livestock, and fertilizer*, between points and places in Florida west of Jefferson County, Fla., points and places in Georgia within 125 miles of Dothan, Ala., and points and places in Alabama within 125 miles of Dothan, including Dothan and Mobile, Ala.; *shelled corn*, between Dothan, Ala., and points and places in Alabama within 50 miles of Dothan, on the one hand, and, on the other, points and places in Georgia within 50 miles of Dothan, from Dothan, Ala., and points and places in Alabama and Georgia within 50 miles of Dothan, to points and places in Florida; *table sauces, mayonnaise, salad dressing, sandwich spread, French dressing, chili sauce, prune juice, and beverage syrup* (except in bulk, in tank vehicles), from Brundidge, Ala., to certain specified points in Florida; *canned non-alcoholic beverages*, other than citrus, from points in that part of Florida east of the Apalachicola River, to certain specified points in Alabama; *foodstuffs*, except in bulk, from Brundidge, Ala., to certain specified points in Florida, with restriction; *fruit and vegetable crystals*, from Lake Wales, Fla., to certain specified points in Alabama. Vendee is authorized to operate as a *common carrier* in Alabama, Florida, Georgia, North Carolina, and South Carolina. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12170. Authority sought for purchase by THE SANTA Fe TRAIL TRANSPORTATION COMPANY, 433 E. Waterman St., P.O. Box 56, Wichita, KS 67202, of a portion of the operating rights and property of THOMPSON BROS., INC., 21001 Cabot Blvd., Hayward, CA 94504, and for acquisition by SANTA Fe INDUSTRIES, INC., 80 E. Jackson Blvd., Chicago, IL 60604, of control of such rights and property through the purchase. Applicant's attorneys: Phillip Robinson, P.O. Box 2207, Austin, TX 78767, and Bertram S. Silver, 140 Montgomery St., San Francisco, CA 94104. Operating rights sought to be transferred: Under a certificate of registration in Docket No. MC-6275 (Sub-No. 6), covering the transportation of general commodities, as a common carrier, in interstate commerce, within the State of California. Vendee is authorized to operate as a *common carrier* in Nebraska, Oklahoma, Kansas, Missouri, Colorado, New Mexico, Texas, California, Arizona, and Arkansas. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12171. Authority sought for purchase by DON WARD, INC., P.O. Box 1488, Durango, CO 80216, of the operating rights of LESLEY ESTES, doing business as ESTES TRUCKING CO., P.O. Box 551, Rifle, CO 81650, and for acquisition by DON WARD, also of Denver, CO 80216, of control of such rights through the purchase. Applicants' attorney: Peter J. Crouse, 1700 Western Federal Bldg., Denver, CO 80202. Operating right sought to be transferred: *General commodities*, with exceptions, as a *common carrier* over irregular routes, between points in Garfield and Pitkin Counties, Colo., between points in Garfield and Pitkin Counties, Colo., on the one hand, and, on the other, points in Colorado, with restriction, between Rifle, Colo., on the one hand, and, on the other, points within 20 miles of Rifle except those on U.S. Highways 6 and 24; *oil shale*, in bulk, from points in Garfield and Rio Blanco Counties, Colo., to points in Albany County, Wyo. Vendee is authorized to operate as a *common carrier* in Arizona, California, Colorado, Iowa, Kansas, Montana, Nebraska, New Mexico, Oklahoma, South Dakota, Texas, Utah, and Wyoming. Application has not been filed for temporary authority under section 210a(b).

No. MC-F-12172. Authority sought for purchase by OLIVER TRUCKING COMPANY, INC., P.O. Box 53, Winchester, KY 40319, of a portion of the operating rights of HARRISON - SHIELDS TRANSPORTATION LINES, INC., P.O. Box 445, Meadow Lands, PA 15347, and for acquisition by RALPH OLIVER, also of Winchester, KY 40391, of control of such rights through the purchase. Applicants' attorneys: Louis J. Amato, 1301 Ambassador Bldg., St. Louis, MO 63101 and Maxwell A. Howell, 1100 Investment Bldg., 1511 K St. NW., Washington, DC 20005. Operating rights sought to be transferred: *Such merchandise* as is dealt in by mail order houses and department stores, the business of which is the sale of general commodities, as a *common carrier* over irregular routes, between Coraopolis, McKeesport, Neville Island, and Pittsburgh, Pa., on the one hand, and, on the other, Williamson, W. Va., and Ashland, Ky. Vendee is authorized to operate as a *common carrier* in Kentucky, Pennsylvania, West Virginia, Tennessee, North Carolina, Georgia, Alabama, Mississippi, Illinois, Indiana, Michigan, Missouri, Ohio, South Carolina, Virginia, Wisconsin, Arkansas, Delaware, Florida, Iowa, Louisiana, Maryland, Minnesota, New Jersey, New York, Connecticut, Maine, Massachusetts, New Hampshire, Oklahoma, Rhode Island, Texas, Vermont, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

No. MC-F-12173. Authority sought for purchase by CHEROKEE HAULING & RIGGING, INC., 540 Merritt Ave., Nashville, TN 37203, of the operating rights of VIRGINIA HAULING COMPANY, 1205 8th Ave., So. Nashville, TN 37203, and for acquisition by M. BRYAN STANLEY, also of Nashville, TN 37203, of control of such rights through the purchase. Applicants' attorney: Paul M. Daniell, P.O. Box 872, Atlanta, GA 30301. Operating rights sought to be transferred: *Lime*, as a *common carrier*, over irregular routes, from points in a defined area of Virginia, to points in a defined area of Maryland, and Pennsylvania, and Wilmington, Del., Washington, D.C., and points within ten miles of Washington, D.C., from Glen Allen, Va., to Washington, D.C., and points in a defined area of

V 39 160 MAR 27 74 XUM

Maryland, Pennsylvania, and Wilmington, Del., and points in Maryland within ten miles of Washington, D.C., from Richmond, and Boulevard, Va., to points in a defined area of Maryland, and Washington, D.C., and points within ten miles of Washington, D.C., from points in Mathews and Gloucester Counties, Va., to Washington, D.C., and Baltimore, Md., from Hagerstown, Md., and Martinsburg, W. Va., to points in a defined area of Virginia; *fertilizer* and *fertilizer materials*, from Baltimore, Md., to Richmond, Va.; (1) *commodities* the transportation of which because of size or weight requires the use of special equipment, (2) *self-propelled articles*, each weighting 15,000 pounds, and (3) *building materials*, between points in Virginia, except those points located in Northumberland, Lancaster, Westmoreland, and Richmond Counties, Va., and in that part of King George County, Va., on and east of U.S. Highway 301, on the one hand, and, on the other, points in the District of Columbia, and points in North Carolina, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, and New York;

Farm products, in truckload lots, between points in Virginia, excepting those located in Northumberland, Lancaster, Westmoreland and Richmond Counties, Va., and in that part of King George County, Va., on the east of U.S. Highway 301, on the one hand, and, on the other Washington, D.C., and New York, N.Y.; *wooden pallets*, set up or knocked down, from Williamsburg, Va., to points in Delaware, Maryland, New Jersey, and Pennsylvania, and those on Long Island, N.Y., and New York, N.Y., and the District of Columbia; *wooden pallets* and *lumber*, except plywood and veneer, from points in Virginia to points in Massachusets, Rhode Island, Connecticut, and Ohio (except from Chase City and Keysville, Va., to points in Ohio); *wooden pallets*, from Lorne and Tylers, Va., and from the plant site of Thornburg Manufacturing Company, Inc., near Woodford, Va., to points in North Carolina, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, and the District of Columbia; *iron and steel articles*, as described in Appendix V to the report *Description in Motor Carrier Certificates*, 61 M.C.C. 209, on flatbed trailers, from the sites of plants or warehouses of the United States Steel Corporation located at Clairton, Duquesne, Braddock, Homestead, McKees Rocks, West Mifflin, and Vandergrift, Pa., and from the sites of plants or warehouses of Jones and Laughlin Steel Company located at Aliquippa and Pittsburgh, Pa., to points in Virginia (except points in King George, Fairfax, Loudoun, Clarke, Fauquier, Prince Williams, Frederick and Stafford Counties;

Wire bound box material, *wooden pallets*, and *pallet parts*, from Richmond, Va., to Greensburg, Creighton, and Ford City, Pa.; *pallets*, *pallet boxes*, *skids* and *platforms*, from points in a defined area of Virginia, to points in Delaware, New Jersey, New York, and a portion of West Virginia and Pennsylvania; *salt*, in bags, from Fairport Harbor, Ohio to points in a defined area of Virginia; *salt* and *salt mixtures*, from Cleveland, Akron, Rittman, Fairport, and Fairport Harbor, Ohio, to points in a defined area of Virginia; *composition building board*, from the plant site and storage facilities of Southern Johns-Manville Corporation at Jarratt, Va., to points in Connecticut, Massachusetts, and Rhode Island; *steel articles*, from the sites of the plants, warehouses, and storage facilities of Commercial Shearing and Stamping Company, and of Syro Steel Company at or near Youngstown, Ohio, to points in Maryland, Virginia, and the District of Columbia; *silica sand* (except in bulk), from the plant site of Ottawa Silica Company at North Stonington, Connecticut, to the plant site of Southern Johns-Manville Corporation at Jarratt, Va.; *wood fiberboard*, from the plant site and storage facilities of Evans Products Company at or near Doswell, Va., to points in North Carolina, Virginia, West Virginia, Maryland, Delaware, Pennsylvania, New Jersey, New York, Connecticut, Rhode Island, Massachusetts, Ohio, and the District of Columbia. Vendee is authorized to operate as a common carrier in all of the States in the United States (except Alaska and Hawaii). Application has not been filed for temporary authority unler section 210a(b).

Notice is hereby given that Fort Dodge, Des Moines & Southern Railway Company, 400 West Madison Street, Chicago, Illinois 60606, by its attorney, Christopher A. Mills, has filed an application with the Interstate Commerce Commission pursuant to section 5(2) of the Interstate Commerce Act for authority to purchase all of the assets of Des Moines Western Railway Company. The application has been docketed as Finance Docket No. 27575. The assets to be purchased include 4.83 miles of main, yard and side tracks and a freight house, all located in the City of Des Moines, Polk County, Iowa. In the opinion of the applicant, Commission approval of the proposed transaction will not constitute a major Federal action having a significant effect upon the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—Nat'l Environmental Policy Act of 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b) (1)–(5), 340 I.C.C. 431, 461. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission on or before April 26, 1974.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 50]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before April 16, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–74947. By order of March 22, 1974, the Motor Carrier Board approved the transfer to Norbert R. Peters, doing business as Norbs Trucking, Delmont, S. Dak., Certificate No. MC–102570 issued October 30, 1967, to Lester Ebright, Delmont, S. Dak., authorizing the transportation of livestock between Delmont, S. Dak., on the one hand, and, on the other, Sioux City, Iowa; and building materials, livestock, poultry feed, and fertilizer from Sioux City, Iowa, to Delmont, S. Dak. Mr. Don A. Bierle, Attorney at Law, 322 Walnut Street, Box 38, Yankton, S. Dak. 57078.

No. MC–FC–74958. By order of March 21, 1974, the Motor Carrier Board approved the transfer to A & W Service, Inc., doing business as Chandley Cartage Co., Henderson, Ky., of the operating rights in Certificates Nos. MC–1035 and MC–1035 (Sub-No. 3) issued September 17, 1943, and May 10, 1973, respectively, to John W. Chandley, doing business as Chandley Cartage Co., Henderson, Ky., authorizing the transportation of general commodities, with exceptions, between Henderson, Ky., and Evansville, Ind., serving intermediate or off-route points in Henderson, McLean, and Webster Counties, Ky (except Geneva, Henderson, Providence, and Sebree, Ky., and points in the commercial zones thereof), and household goods as defined by the Commission, between Henderson, Ky., on the one hand, and, on the other, Evansville, Ind. William M. Deep, 140 North Main Street, Henderson, Ky. 42420, attorney for applicants.

No. MC–FC–75010. By order entered March 22, 1974, the Motor Carrier Board approved the transfer to Schoelman Lines of Texas, Inc., Houston, Tex., of the operating rights set forth in Permits Nos. MC–134455 and MC–134455 (Sub-No. 2), issued November 16, 1971, as corrected February 28, 1972, and July 11, 1973, respectively, to Schoelman Lines, Inc., Houston, Tex., authorizing the transportation of dry animal and poultry feeds and feed ingredients (except lime, urea, and salt), between points in Texas, on the one hand, and, on the other, points in Arkansas, Louisiana, and Mississippi, and Memphis, and Tiptonville, Tenn., under a continuing contract with Hathan Segal & Company, Incorporated; and defluorinated phosphate feed supplements, from Houston, Tex., to points in Mississippi, under a continuing contract with Olin Corporation. E. H. Thornton, Jr., 3610 One Shell Plaza, Houston, Tex. 77002, attorney for applicants.

READING CO.

Rerouting Traffic

MARCH 22, 1974.

Upon further consideration of I.C.C. Order No. 76 (Reading Company) and good cause appearing therefor:

It is ordered, That:

I.C.C. Order No. 76 be, and it is hereby, amended by substituting the following paragraph (g) for paragraph (g) thereof:

(g) *Expiration date.* This order shall expire at 11:59 p.m., June 15, 1974, unless otherwise modified, changed, or suspended.

It is further ordered, That this amendment shall become effective at 11:59 p.m., March 15, 1974, and that this order shall be served upon the Association of American Railroads, Car Service Division, as agent of all railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that it be filed with the Director, Office of the Federal Register.

Issued at Washington, D.C., March 13, 1974.

[Service Order 1179]

TEXAS AND PACIFIC RAILWAY CO.

Order To Operate Trains of National Railroad Passenger Corporation (Amtrak)

At a Session of the Interstate Commerce Commission, Division 3, held in Washington, D.C., on the 21st day of March 1974.

It appearing, that the National Railroad Passenger Corporation (Amtrak) has established through passenger train service between St. Louis, Missouri, and Laredo, Texas; that the operation of these trains requires the use of the employees, tracks and other facilities of The Texas and Pacific Railway Company (T&P) between a connection with the Missouri Pacific Railroad Company (MP) at Texarkana, Arkansas, and a connection with The Atchison, Topeka, and Sant Fe Railway Company (ATSF) at Fort Worth, Texas; that the T&P has refused to permit the continued operation of the aforementioned Amtrak trains over its tracks between Texarkana, Arkansas, and Fort Worth, Texas, pending completion of an operating agreement with Amtrak; that the failure to operate these trains over their entire routes would force the public to find alternative methods of transportation requiring greater expenditures of energy, thus creating an emergency and that operation of the aforementioned Amtrak trains over tracks of the T&P between Texarkana, Arkansas, and Fort Worth, Texas is necessary in the interest of the public and the commerce of the people; that notice and public procedure herein are impracticable and contrary to the public interest; and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 1179 **The Texas and Pacific Railway Company ordered to operate trains of National Railroad Passenger Corporation (Amtrak).**

(a) The Texas and Pacific Railway Company (T&P) be, and it is hereby, ordered, to operate trains of the National Railroad Passenger Corporation (Amtrak) between a connection with the Missouri Pacific Railroad Company (MP) at Texarkana, Arkansas, and a connection with The Atchison, Topeka and Santa Fe Railway Co. (ATSF) at Fort Worth, Texas including the use of any of its employees, tracks and other facilities as may be required.

(b) *It is further ordered*, That such operations of Amtrak trains by or over the facilities of T&P shall be continued until such time as they may be conducted under the terms of an agreement between Amtrak and the T&P which agreement shall be retroactive to the first day of operation of such trains. The aforementioned agreement may be voluntarily reached between the carriers or, if unable to so agree, shall be determined by the Commission after hearing.

(c) *It is further ordered*, That the relief granted herein is subject to, and without prejudice to the rights of the parties in, Civil Action 74–CV–111–4–4, *National Railroad Passenger Corporation v. Missouri Pacific Railroad Company, et al.*, before the United States District Court for the Western District of Missouri and any appeals from orders of said Court.

(d) *Application.* The provisions of this order shall apply to intrastate, interstate, and foreign traffic.

(e) *Effective date.* This order shall become effective at 12:01 a.m., March 22, 1974.

(f) *Expiration date.* The provisions of this order shall expire at 11:59 p.m., November 30, 1974, unless otherwise modified, changed, or suspended by order of this Commission.

(45 U.S.C. (562).)

It is further ordered, That copies of this order shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the FEDERAL REGISTER.

By the Commission, Division 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

COST OF LIVING COUNCIL

HEALTH INDUSTRY WAGE AND SALARY COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92–463, 86 Stat. 770) notice is hereby given that the Health Industry Wage and Salary Committee, established under the authority of section 212(f) of the Economic Stabilization Act, as amended, section 4(a)(iv) of Executive Order 11695, and Cost of Living Council Order No. 14, will meet on April 3, 1974. The meeting will be open to the public on a first-come, first-served basis at 10 a.m., in Conference Room 8009, 2025 M Street, NW., Washington, D.C.

The agenda will consist of a discussion of the health industry wage cases currently pending before the Cost of Living Council.

The Chairman of the Committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business.

Issued in Washington, D.C., on March 25, 1974.

HENRY H. PERRITT, Jr.,
Executive Secretary,
Cost of Living Council.

PHASE IV HEALTH CARE REGULATIONS

Miscellaneous Amendments

V 39 60 MAR 27 74 XUM

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 150—PHASE IV PRICE REGULATIONS

Correcting and Supplemental Amendments to the Phase IV Health Care Regulations

The purpose of these amendments is to correct typographical and other errors and to clarify and supplement certain of the Phase IV health care regulations.

On November 5, 1973, the Council issued a notice of proposed rulemaking, 38 FR 30850 (November 7, 1973) setting out proposed Phase IV health care regulations for comment by the public. On January 23, 1974, at 39 FR 2670, the Council published the health care regulations in final form, with substantial changes from the proposed regulations as a result of extensive public participation in the rulemaking. On March 6, 1974, the Council issued for public comment certain proposed health care forms to be used for reports required by the regulations, and indicated at that time that additional clarifying and supplemental amendments to the regulations would be published in the near future. The proposed forms were published at 39 FR 9768 (March 13, 1974). These amendments include certain changes which the Council is making as a result of the development of the proposed forms (including frequent consultation with interested persons in the health care sector), as well as clarifying changes resulting in large part from public response to the regulations.

In order that the public may have a complete set of Phase IV health care regulations, with the changes incorporated in the text, Subpart R of Part 150 is being republished at this time. The more significant changes are indicated below for each category of covered health care provider: Acute care hospitals (§§ 150.701 through 150.722), medical practitioners and medical laboratories (§§ 150.730 through 150.745), Health Maintenance Organizations and Health Maintenance Organization providers of health care (§§ 150.748 through 150.764), and long term care institutions (§§ 150.769 through 150.788). In addition, various other clarifying and conforming changes have been made in Subparts D, M, and O of Part 150, and Part 155, as indicated below.

Miscellaneous Provisions

Section 150.57 of Subpart O has been substantially amended to provide greater clarity. Paragraph (a) contains the list of exempt providers, to which inhalation therapists have been added. The exemption for rehabilitation centers has been clarified to apply only to rehabilitation outpatient centers. A general classification has been added for residential shelter or child care institutions not included within the definition of long term care institutions.

Paragraph (b) excepts from the exemption provisions most of the categories of providers if they are owned or operated by an acute care hospital, long term care institution, Health Maintenance Organization or HMO provider of health care services, and clinics and dispensaries, if they are owned or operated by a medical practitioner.

Paragraph (c) has been added to § 150.57 to clarify that the exemption provided by this section is effective during the fiscal year ending on or after January 1, 1974, and all subsequent fiscal years.

Section 150.415 has been amended in several respects. The introductory language in both paragraphs (a) and (b) has been revised to make clear that "each health insurer is authorized and expected" to monitor and report violations by health care providers. Paragraph (b) has been revised in several minor respects to clarify the intent of the section. Previously this paragraph provided that claims selected for review need not include claims under all coverages. As revised, insurers may exclude from their review those coverages which represent an insignificant portion of that insurer's premium volume. However, in its semi-annual report (Form CLC–102) the insurer shall state the proportion of its premium volume that is thus excluded. The amendments to § 150.415 include references to Forms CLC–101 and 102 which have not been published. The Council anticipates the publication of the proposed Forms CLC–101 and 102 within the near future, as well as Form CLC–27 relating to prenotification and reporting requirements for HMOs.

Section 150.501 has been amended to clarify the scope of Subpart O. Essentially, the applicability of Subpart O is limited as provided in Subpart R.

Several minor changes have been made in Part 155 to update and correct references to the new health care sections of the regulations. Section 155.21 (c) has been amended to provide for the new reporting requirements of § 150.415 of Subpart M. Paragraph (d) of § 155.21 has also been amended to include reference to persons subject to Subpart R. Section 155.41 has been amended to include reference to persons subject to Subpart R.

Subpart R—Health Care, Acute Care Hospitals

There have been a number of clarifying changes in the acute care hospital regulations and a number of changes correcting typographical or other minor errors in the regulations published January 23, 1974. Other changes explained in this preamble are of substance and represent a refinement of the health care regulations.

In § 150.701, the March 31, 1974 deadline for the election between Subpart O and Subpart R has been changed to Monday, April 1, 1974. Paragraph (c) of § 150.701 has been revised to make clear that acute care hospitals subject to the HMO sections (§§ 150.758 through 150.764) are subject to the option provision of § 150.701. Paragraph (d) of § 150.701 clarifies that distinct long term care units within acute care hospitals are subject to the long term care sections (§§ 150.769 through 150.788) in lieu of §§ 150.701 through 150.722.

A paragraph (e) has been added to § 150.701 to emphasize that the acute care hospital regulations of Subpart R shall prevail over any other provisions of Part 150, should there be any conflict.

Several definitions in § 150.703 have been revised. The definition of "Cost reimbursement arrangement" has been amended to include arrangements for payment on the basis of charges when charges are less than cost. "Free care" has been redefined as the customary charges for health care services and property furnished to an inpatient unable to pay and for which a bill is not rendered to the patient or third party payor. "Free care" also includes the difference between the customary charge and the amount actually billed. The definition expressly excludes contractual allowances, bad debts and courtesy discounts.

An important change has been made in the definition of "new facility." Basically, the decision has been made to limit "new facility" treatment to hospitals which commence operations for the first time or have not operated for one year prior to current operations, or which have undergone physical replacement. Thus, as of the date of issuance of these clarifying amendments, the 70 percent test is no longer available to qualify a hospital as a new facility. That test is related to a determination of quality of services or property under the Phase II/III rules (6 CFR 300.409). Since any capital expenditure will result in an add on to the authorized base, there is no need to give special treatment to capital expenditures amounting to 70 percent net of book value. Under the definition as amended, "new facility" status will be allowed for any hospital that met the 70 percent or $100,000 test, which receives a "new facility" determination in response to a request filed prior to March 20, 1974, or which receives approval from the State planning agency or the Council in response to a request filed between January 1, 1974 and March 20, 1974, or which meets the requirements of § 150.713(a)(2).

The definition of "new market" has been deleted. Any situation formerly covered by that term will be treated as a new facility. The definition of "total inpatient reimbursed expenses" has been clarified to include total inpatient operating expenses either accrued or paid, or accrued and paid under the cost reimbursement arrangements.

Following publication of the final health care regulations in January it became apparent that § 150.704 was subject to conflicting interpretation. The prior commitments section was therefore clarified. As amended, § 150.704 provides that interpretations, decisions and prospective exceptions issued to hospitals prior to January 17, 1974, remain in force. Paragraph (b) of this section provides that the prior commitment shall not apply to exceptions authorizing dollar increases under Subpart O to hospitals that are subject to Subpart R

(either by election or automatically by the provisions of § 150.701). In other words, an exception under the Phase III rules granting a dollar increase in the future may be used only under the Phase III rules. The exception is inoperative under Phase IV rules. Finally, § 150.704 has been clarified to permit the annualization of charge increases and charges for new services allowed and put in effect during a hospital's last fiscal year under Subpart O, for purposes of determining the base for allowances under Subpart R.

The basic limitation of § 150.705 has been amended in several minor respects. The 7.5 percent limitation on increased charges and expenses is computed by reference to the lesser of the authorized or actual levels of charges and expenses in the base year. Paragraph (a) has been further amended to apply the adjustments of §§ 150.706, 150.708 and 150.712 to the trigger (total inpatient operating expenses) relaxing the limitations on total inpatient reimbursed expenses. Here again, the percentage limitation is computed by reference to the lesser of the authorized or actual level of total inpatient operating expenses per admission.

Paragraph (b) of § 150.706 has been amended to provide that the limitation on total inpatient reimbursed expenses shall not apply if total inpatient operating expenses do not exceed 107.5 percent of the authorized or actual level of total inpatient operating expenses for the preceding year, whichever is less. The substance of § 150.706(e) has been retained under the special pricing rules, § 150.709.

Section 150.707 has been changed in several places to provide greater clarity. References to "prices" in the formula in § 150.707(c)(2)(iii) have been changed to "charges." In § 150.707(c)(1) the parenthetical phrase has been deleted, since the rounding to the nearest quarter dollar was never intended to authorize increases up to a quarter dollar over allowables. Rounding remains permissible so long as the charge increase limitations are not exceeded.

In § 150.707(c)(2)(iii), "B_t" in the formula has been clarified to mean total gross charges during the immediately preceding fiscal year for outpatient services and property subject to the limitations of this section. Section 150.707(c)(3), as now amended, gives hospitals the option to use an alternative formula for determining %AWCI.

A number of changes have been made in § 150.709 to clarify the section itself, and to enable hospitals to understand more easily the inter-relationship of the special pricing rules and the capital expenditure provisions. Section 150.709(a) thus provides that the rules of this section may only be used as authorized in other sections of Subpart R; specifically, §§ 150.713 and 150.714(c).

For example, the price rule available to a new facility may be used only if the capital expenditure which results in the new facility meets the requirements of § 150.713 or § 150.714(c).

Section 150.709(b) is similar to § 150.709(a) of the regulations issued January 17, 1974. The references to new markets and capital expenditures not meeting the definition of a new facility have been deleted. A new facility, which, as previously explained, would include a new market situation, may utilize the special pricing rules of § 150.709(b). Section 150.709(e) applies to approved capital expenditures that do not result in a new facility.

Section 150.709(b)(1), (2) and (3) has undergone minor changes. The first has been amended to set the occupancy rate at "not less than" 65 percent (or such higher figure as may be appropriate). Section 150.709(b)(1), (2) and (3) have each been amended by the substitution of the word "interest" for "debt service" in the regulations as issued January 17, 1974. The previous allowance of debt service and depreciation costs inadvertently provided a double allowance for principal.

Section 150.709(b) of the previous regulations has been deleted. Phased construction will be priced as a single capital expenditure or as distinct capital expenditures.

The language in § 150.709(d) has been changed and the last sentence of this paragraph as issued on January 17, 1974, has been deleted. The effective limit of the time in which the special price rules may be used is unchanged.

Section 150.709(e) has been substantially revised to clarify the manner of pricing services because of capital expenditures. In the case of a capital expenditure which results in a new facility, the hospital may establish new charges for all services and property. For other capital expenditures, for each fiscal year in which the capital project is being constructed (or if it is not a construction project, for the fiscal year in which the project is being introduced) and during the first fiscal year of operation, the hospital may establish a level of charges and expenses sufficient to produce the level of revenues approved by the State agency described in § 150.713(c) or by the Council. The hospital shall determine for each fiscal year prior to the second full fiscal year of operation the allowable total inpatient operating charges and expenses. In each of the applicable fiscal years the level of charges and expenses established under § 150.709(e) are added to the base to which the adjustments authorized by §§ 150.705, 150.706, 150.708 and 150.712 are made.

Section 150.709(f) has been amended by the addition of a provision which subjects outpatient charges provided in a new facility to the unit charge limitations of § 150.707(c)(1) in the first full fiscal year after the service or property was made available to patients, and thereafter to § 150.707(c)(1) or (2).

The title of § 150.710 has been changed to "Charge schedules," and the last sentence has been amended to clarify that charge increases must be entered on the charge schedule before they may be implemented. The posting requirement and the requirement that he schedule be available for inspection remains in effect whether or not there is a charge increase.

Section 150.711, formerly reserved, now requires the maintenance of records sufficient for the hospital to establish its compliance status. Such records must be available for inspection upon request of an officer or employee of the Council, or any other person authorized to represent the Council. The section establishes a retention period of 3 years from the end of the fiscal year to which the records pertain.

A number of clarifying changes have been made in the patient mix section. The provisions under System B in § 150.712(b) have been amended to provide as an alternative system the Eighth Revision, International Classification of Diseases, which is the official disease classification in use by the U.S. Government and which has also been widely adopted by acute care hospitals. Several clarifying changes have been made in § 150.712(c), steps 6 through 8, including the substitution of "total inpatient operating expenses" in step 8 in place of "total inpatient reimbursed expenses."

The provisions of § 150.712(f) relating to the patient mix adjustment have been amended to include the percentage limitation of § 150.708 along with those of §§ 150.705 and 150.706. The prenotification required by § 150.712(f) must be given to the Council as soon as the hospital becomes aware of the trend in patient mix permitting the adjustment.

Section 150.713 relating to State approval procedures for capital expenditures has been substantially revised. Except as provided in § 150.713(a)(2), when a hospital has the approval of the State planning agency for a capital expenditure pursuant to § 150.713, it may establish new charges in accordance with § 150.709 necessary to produce, but not to exceed, the level of revenues approved by the State agency.

Section 150.713(a)(2) excepts from the provisions of paragraphs (b) through (f) of § 150.713 and paragraph (c) of § 150.714 those hospitals that have taken the following actions prior to January 1, 1974:

The hospital shall have obtained an approval on the merits by the State planning agency on the basis of community need for the capital expenditure. This requirement shall not apply, however, where the State approval procedures of § 150.713(b)(1) were neither required nor available. In the case of capital expenditures involving construction, the hospital shall have completed and have the approval of the governing board for the design development for the capital expenditure.

In the case of capital expenditures that do not involve construction, the hospital shall have been committed to the capital expenditure by authorization of the hospital's governing board and one or more implementing financial obligations shall have been contractually incurred in reliance on the authorization. Where these requirements have been met the hospital may establish new charges in accordance

V 39 160 MAR 27 74 XUM

with § 150.709. The Council reserves the right to review the application of the special pricing rules authorized by this paragraph and to take appropriate action if it determines that the requirements have not been met.

Section 150.713(c) requires hospitals to obtain approval from the State agency of a level of revenues that is not unreasonable to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, for the first full fiscal year of operations. This paragraph, as amended, also specifies that before a State approving agency may act pursuant to this section, the Council and the State agency shall have first agreed in writing for the State agency to approve capital expenditures pursuant to this section.

Section 150.713(d) has been added to authorize the State agency to allow an adjustment, where appropriate, for changes in volume of admissions resulting from a capital expenditure involving a change in bed capacity.

Several clarifying changes have also been made to § 150.713(e). A paragraph (f) has been added to provide for the situation where increased construction costs mean that the hospital needs to obtain approval for a higher level of revenues than originally authorized. The procedure for obtaining approval of a higher level of revenues is the same as used to obtain the original approval, except that in addition the hospital is required to submit documentation to substantiate the changed financial conditions that necessitate the increased level of revenues.

Section 150.714 (a) and (b) has been amended in minor respects for clarification. Section 150.714(c) has been amended to conform its provisions for Council approval of capital expenditures where no State approving agency exists to the provisions of § 150.713 for approval of capital expenditures by State agencies.

Section 150.715 has been amended to provide for the Council to authorize and appoint a Federal official to meet with State advisory agencies, and grant and deny exception requests pursuant to § 150.714.

Section 150.717 has been amended in several respects. Paragraph (a) as amended requires that the Form CLC–61 be filed with the Council, that it be signed by the chief executive officer, administrator or chief financial officer, and that it be furnished upon request to third party payors. Paragraph (b) of § 150.717 requires hospitals which, pursuant to § 150.713(a)(2); establish new charges for services or property resulting from a capital expenditure to append to and file with the Form CLC–61, a statement of incurred expenses and a statement of the method of application of § 150.709 to establish charges, prior to the second full fiscal year after the service or property was first made available to patients.

Section 150.720 has been amended at paragraph (a)(2) by the deletion of the words "charges and" which had been erroneously inserted.

Section 150.720(a) has been amended by the addition of a paragraph (3) to provide authority for the Council to order the reduction of prospective rate payments where the limitations of §§ 150.705 and 150.706 on prospective rate revenues have been exceeded. Paragraph (b) of § 150.720 has been amended to delay the requirement of filing a compliance plan where at the time for filing the annual report an exception request is pending which, if granted, would eliminate the violation. In such case the compliance plan must be filed within 20 days of receipt of the decision and order denying the exception request or granting an amount less than necessary to eliminate the violation.

MEDICAL PRACTITIONERS AND MEDICAL LABORATORIES

A number of clarifying changes have been made to the sections in Subpart R which govern the price increases made by medical practitioners and medical laboratories. Typographical and similar minor errors have been corrected throughout.

Paragraph (b) of § 150.730, "Scope and applicability", has been amended to treat as an HMO provider of health care any medical laboratory which derives at least 75 percent of its aggregate annual revenues from services rendered to Health Maintenance Organization members pursuant to a contract. Similar changes have also been made in those sections governing Health Maintenance Organizations and HMO providers of health care.

A new paragraph (c) has been added to § 150.730 to make clear that the provisions of Subpart R prevail over any possibly conflicting provisions within Part 150.

Section 150.731 *Continued applicability of existing regulations* has been expanded to specify that the prices in effect on December 28, 1973 shall be used as the base for the computation of allowable price increases.

The date for determining eligible base period fiscal years in the definition of "base period" in § 150.722 has been changed from August 15, 1968 to August 14, 1968. This change has been made in recognition of the fact that a fiscal year ending on August 15, 1968 would have been one of the three most recently completed fiscal years at the time the Economic Stabilization Program was announced on August 15, 1971. Fiscal years ending prior to August 15, 1968 which had been previously authorized for inclusion in the base period remain unaffected by the change.

The definition of "medical laboratory" has been modified to clarify the Cost of Living Council's intent that only independent medical laboratories are subject to the price controls on medical laboratories. If a firm providing laboratory services meets the definition of a medical practitioner or is owned or operated by an acute care hospital or long term care institution, it is not considered a "medical laboratory" notwithstanding the fact that it otherwise fits within that definition.

A typographical error has been corrected in the definition of "new market" by changing the citation for a medicare locality from 30 CFR 405.505 to 20 CFR 405.505.

The definition of "price" has been revised. Formerly the charge for a service or property was the price, even where the charge was greater than the amount actually reimbursed. Under the revised definition, in such a case the amount actually reimbursed is the price. The medical practitioner in revising his prices must subject such amounts to the unit price increase limitation or to the aggregate weighted price increase limitation of § 150.734.

Section 150.733 *Prior commitments* has been amended to permit the use of the aggregate weighted price increase formula provided in this subpart for unused allowable percentage price increases accumulated from Phases II and III.

Section 150.734 *Price increase limitations* has been amended to clarify that only the prices for services and property related to the provision of health care are subject to control under Subpart R. The rounding to the nearest quarter dollar provision has been deleted since it was not the Council's intention to make rounding of the price charged mandatory; rounding remains permissible so long as the price increase limitations are not exceeded. The Cost of Living Council has also determined that unused price increases in a fixed dollar amount contract may be accumulated for more than one calendar year; paragraph (c) has been amended to reflect this decision. Paragraph (d)(3) has been revised to give the medical practitioner or medical laboratory the option of using an alternative formula for determining %AWPI.

The revenue margin limitation provision, § 150.735, has been amended in paragraph (b) to identify more clearly the years for which salary and certain deferred compensation must be excluded from operating expenses.

The only change in § 150.736, "New services and property," is to delete the phrase "or expenses" in paragraph (c) since § 150.736 makes no provision for the establishment of an expense level for new services or property.

Section 150.738 *Price schedules* has been amended to clarify that price increases must be entered on the price schedule before they may be implemented. The posting requirement and the requirement that the schedule be available for inspection remains in effect whether or not there is a price increase.

The address for submission of compliance plans in § 150.741 *Remedies for non-compliance* is now the "Office of Health" instead of the "Office of Health (Compliance)."

A new § 150.743 *Reporting* has been added to provide for reporting to the Cost of Living Council upon request of the Council on Form CLC–81. Another new section, § 150.74, has been added to provide for the retention and availability of records. The savings and severability provision has been renumbered from §§ 150.743 to 150.745.

HEALTH MAINTENANCE ORGANIZATIONS (HMOs) AND HEALTH MAINTENANCE ORGANIZATION PROVIDERS OF HEALTH CARE

Section 150.748 *Scope and applicability* has been rewritten to make the effective date of these rules for Health Maintenance Organizations January 1, 1974, consistent with the provision in § 150.752 that all rate increases after December 31, 1973 must be made in accordance with the criteria set forth in that section. The revised section also makes the effective dates for HMO providers of health care consistent with the dates specified for acute care hospitals, medical practitioners, medical laboratories, and long term care institutions.

Section 150.749 *Continued applicability of existing regulations* has also been revised to correspond with the equivalent provisions elsewhere in Subpart R.

The definition of "HMO provider of health care" in § 150.750 has been expanded to include a medical laboratory under contract to an HMO which derives at least 75 percent of its aggregate annual revenues from services rendered to HMO members.

The prior commitments section, § 150.751, has been extensively revised to correspond with the changes made in §§ 150.704, 150.733 and 150.772 for acute care hospitals, medical practitioners and medical laboratories, and long term care institutions. The revisions provide the same authorizations for HMO providers of health care to adjust the base on which the Subpart R allowances are computed as are authorized for acute care hospitals, medical practitioners, medical laboratories, and long term care institutions.

Factors that may be used in the rate-making process to anticipate costs or price increases, § 150.752(a)(5), have been modified to include outpatient care provided in a long term care institution and health care provided by a medical laboratory. The factor representing provision of health care by medical practitoners or medical laboratories has been revised to make clear that contracts on a percentage of gross or net revenue basis are treated the same as contracts on a fee-for-service basis.

The form on which an HMO is to prenotify a rate increase has been specified in an amendment to § 150.754 *Prenotification*. The Form CLC–27 is to be used both for prenotification and for annual reports required under § 150.760.

Section 150.757 *Federal employees health benefits law* has been corrected by the reinsertion of language which was inadvertently omitted in both the proposed and final regulations governing HMOs. The additional language corresponds to the language in § 150.413 *Federal employees health benefits law* of Subpart M—Insurance.

Section 150.760 *Reporting* has been amended to specify that the annual report, filed on Form CLC–27, shall be signed by the chief executive officer or by an individual to whom he has delegated that authority. A copy of the delegation must be filed with the Cost of Living Council.

The rules for HMO providers of health care, § 150.761, have been modified to subject medical laboratories to the same limitations as medical practitioners and to clarify the Council's intent that contracts on a fee-for-service basis include contracts for a percentage of gross or net revenue. The rules have been further modified to make HMO providers of health care that are acute care hospitals and long term care institutions subject to the capital expenditure approval provisions, §§ 150.713, 150.714(c), 150.781, and 150.782(c), in addition to the special pricing rules, §§ 150.709 and 150.778, as appropriate.

A new § 150.763 *Retention and availability of records*, has been added and the existing § 150.763 *Savings and severability* has been renumbered § 150.764.

Corrections of typographical errors and changes in citations to correspond with these amendments have been made when necessary throughout these rules.

LONG TERM CARE INSTITUTIONS

On February 7, 1974, the United States District Court for the District of Columbia enjoined enforcement of the Economic Stabilization price regulations against nursing homes. The Council has appealed this decision to the Temporary Emergency Court of Appeals. These amendments to §§ 150.769 through 150.788 are being published for those long term care institutions not covered by the Court's order. With respect to nursing homes covered by the Court's order, the Council will take such action in the future as may be appropriate under the terms of a final Court order.

Many of the changes in §§ 150.769 through 150.788 parallel the changes made in §§ 150.701 through 150.722 relating to acute care hospitals which are discussed above. In particular, reference should be made to the earlier discussions of changes in the following sections: "Scope and applicability" (§§ 150.701 and 150.769), "Definitions," particularly that of "New facility" (§§ 150.703 and 150.771), "Prior commitments" (§§ 150.704 and 150.772), "Special pricing rules" (§§ 150.709 and 150.778), "Price schedules" (§§ 150.710 and 150.779), "Reporting procedures" (§§ 150.717 and 150.780), "Approval of capital expenditures by a State's planning agency" (§§ 150.713 and 150.781), "Exceptions" (§§ 150.714 and 150.782), "Advisory State actions" (§§ 150.715 and 150.783), and "Retention and availability of records" (§§ 150.711 and 150.787). The changes discussed below are unique to the sections relating to long term care institutions.

In § 150.772 relating to prior commitments, the provision for annualizing price increases allowable under Subpart O has been modified to conform with the long term care limitation on average realized revenues per diem. Section 150.772(c) now provides that for purposes of calculating the base, a long term care institution may use the average per diem charges lawfully in effect for each class of purchasers and level of care on the last day of the institution's last fiscal year under Subpart O and, for cost reimbursement arrangements, the total authorized cost reimbursements expressed on a per diem basis for the last fiscal year under Subpart O.

In § 150.775, the limitation on increases for outpatient services has been changed from a "price" limitation to a "charge" limitation in light of the fact that the definition of "price" under the Phase II/III health care regulations has been construed to include, in addition to a direct price paid, a price reimbursed by a third party payor on a cost basis. The intention of the Cost of Living Council under the Phase IV health care regulations is to control only the charges for outpatient services provided by a long term care institution.

APPENDIX TO SUBPART R

Only typographical corrections have been made in the Appendix to Subpart R—Control of Hospital Costs under the Economic Stabilization Program.

Because it is intended to authorize immediate application of these revised Phase IV health care regulations, the Council finds that publication in accordance with normal rule making procedure is impractical and that good cause exists for making these amendments effective in less than 30 days. Interested persons may submit written comments regarding these amendments. Communications should be addressed to the Office of the General Counsel, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489).

In consideration of the foregoing, 6 CFR Parts 150 and 155 are amended as set forth herein, effective March 20, 1974.

Issued in Washington, D.C., on March 20, 1974.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

1. In 6 CFR Part 150, the table of contents is amended by revising the following items for Subpart R:

Subpart R—Health Care

ACUTE CARE HOSPITALS

150.701 Scope and applicability.
150.702 Continued applicability of existing regulations.
150.703 Definitions.
150.704 Prior commitments.
150.705 Limitation on charge and expense increases per inpatient admission.
150.706 Volume adjustment for change in inpatient admissions.
150.707 Limitation on charge increases for outpatient services.
150.708 Cumulative increases.
150.709 Special pricing rules.
150.710 Charge schedules.
150.711 Retention and availability of records.

150.786 Remedies for non-compliance.
150.787 Retention and availability of records.
150.788 Savings and severability.

Appendix to Subpart R—Control of Hospital Costs under the Economic Stabilization Program.

2. Section 150.57 of Subpart D is amended to read as follows:

§ 150.57 Certain providers of health care.

(a) Except as provided in paragraph (b) of this section, the following health care providers and categories of health care providers are exempt from the coverage of this part:

(1) Blood banks and blood donor stations.
(2) Chiropractors.
(3) Clinical psychologists.
(4) Clinics and dispensaries.
(5) Christian Science practitioners.
(6) Community mental health centers.
(7) Contact lens technicians.
(8) Curative baths or spas.
(9) Dental laboratories.
(10) Dieticians.
(11) Drug and alcohol abuse centers.
(12) Family planning clinics.
(13) Health camps and resorts.
(14) Homemaker, home health aide, and home health agencies or services.
(15) Housing for the elderly not included in the definition of "long term care institution" of § 150.771.
(16) Inhalation therapists.
(17) Institutions for the mentally retarded.
(18) Medical photography.
(19) Midwives.
(20) Migrant health clinics.
(21) Naturopaths.
(22) Neighborhood health centers.
(23) Nutritionists.
(24) Occupational therapists.
(25) Opticians.
(26) Optometrists.
(27) Oxygen tent service.
(28) Physiotherapists who are not licensed physicians.
(29) Psychiatric social workers.
(30) Rehabilitation outpatient centers (therapy and treatment).
(31) Tuberculosis and other sanatoria.
(32) Visiting nurse associations.
(33) Vocational rehabilitation institutions.
(34) Any other institutions for residential shelter or child care services not included within the definition of long term care institution.

(b) Except for homemaker, home health aide, and home health agencies or services and visiting nurse associations or services for which separate financial accounts are maintained, the exemption provided in paragraph (a) of this section does not apply to—

(1) Any health care provider, including a clinic or dispensary, which is owned or operated by an acute care hospital, long term care institution, Health Maintenance Organization or HMO provider of health care services (excluding an HMO provider who is a medical practitioner) as defined in Subpart R of this part; and

(2) Any clinic or dispensary which is owned or operated by a medical practitioner as defined in Subpart R of this part.

(c) The exemption provided in this section shall be applicable to all services and property furnished by these health care providers during the fiscal year ending on or after January 1, 1974 and all subsequent fiscal years.

3. Section 160.415 is amended to read as follows:

§ 150.415 Monitoring by health insurers.

(a) Each health insurer is authorized and expected to monitor and report to health care providers any price increases by those providers that involve significant deviation from the provisions that apply to those providers and any increases in use of services or benefits that significantly exceeds its experience with that provider. Upon the receipt of such a report, the provider and the insurer shall make a good faith effort to determine whether any violation of this part has occurred and to take any steps to remedy such violation.

(b) Each health insurer is authorized and expected in connection with its customary claims practices to review a percentage of the claims it processes which involve medical practitioners' fees to assist medical practitioners to comply with the limitations on increases in individual fees in § 150.734. The percentage of claims selected for review must be acceptable to the Cost of Living Council. The claims selected for review shall consist of (1) selected claims in which the practitioner's fee exceeds the fee determined by the insurer to be the prevailing fee for the geographic area or varies significantly from the practitioner's usual fee and (2) a random selection from all other claims payable by the carrier. Unless otherwise directed by the Council, an insurer in selecting claims for review need not include claims under coverages which represent an insignificant portion of that insurer's premium volume. In its semi-annual report (Form CLC–102) the insurer shall state the proportion of its premium volume that is represented by coverages excluded from review. For each claim reviewed, the insurer may request from the medical practitioner involved the price schedule required by § 150.738. Each insurer shall report to the Council on Form CLC–101 all instances of apparent non-compliance for possible investigation by the Council to determine whether there has been a violation of Subpart R. In addition, each insurer shall report to the Council on Form CLC–101 a 10 percent random sample of all other claims it reviews under this paragraph. The insurer shall include in each report to the Council any price schedule received from the medical practitioner concerned.

(c) Each health insurer shall file semi-annual reports not later than 45 days after the end of its second and fourth

quarters, on its monitoring activities under paragraph (b) of this section with the Cost of Living Council on a Form CLC–102.

4. Section 150.501 of Subpart O is amended to read as follows:

§ 150.501 Scope.

This subpart applies to institutional providers of health services. Except as provided in §§ 150.1, 150.2, 150.3, the definition of "base period" in §§ 150.31, 150.57, and Subpart R, no other provisions of Part 150 apply to institutional providers of health services.

5. Part 150 is amended by the addition of a new Subpart R to read as follows:

Subpart R—Health Care

ACUTE CARE HOSPITALS

§ 150.701 Scope and applicability.

(a) Sections 150.701 through 150.722 apply to each acute care hospital whose fiscal year commences on or after January 1, 1974. However, an acute care hospital may make an irrevocable election:

(1) To be governed by this subpart if its current fiscal year commenced on or after August 15, 1973, but before January 1, 1974; or

(2) To be governed by Subpart O of this part in effect on December 31, 1973, if its fiscal year commences on or after January 1, 1974, but before April 1, 1974. In no event may an acute care hospital elect to be governed by Subpart O if its fiscal year commences on or after April 1, 1974.

(b) No election made under paragraph (a) (1) or (2) of this section by any acute care hospital is valid unless the hospital files with or mails to the Cost of Living Council written notice of its specific election. The written notice must be filed with the Council not later than April 1, 1974, or mailed to the Council by certified or registered mail (return receipt requested) postmarked no later than April 1, 1974. No notice is required if the acute care hospital does not make an election referred to in paragraph (a) (1) or (2) of this section.

(c) Notwithstanding paragraph (a) of this section, an acute care hospital which is owned or operated by or is under contract to a Health Maintenance Organization and which derives at least 75 percent of its gross inpatient operating charges from services rendered to enrolled participants, is subject to this section and to §§ 150.748 through 150.764 governing Health Maintenance Organizations.

(d) Long term care, provided as a distinct unit of an acute care hospital and for which separate financial accounts are maintained by the hospital, is subject to §§ 150.769 through 150.788, in lieu of §§ 150.701 through 150.722.

(e) To the extent that §§ 150.701 through 150.722 of this subpart may conflict with other provisions of this part, §§ 150.701 through 150.722 shall prevail.

§ 150.702 Continued applicability of existing regulations.

Except as otherwise provided in § 150.701, each acute care hospital whose current fiscal year begins prior to January 1, 1974, is subject until the completion of its current fiscal year to Subpart O of this part in effect on December 31, 1973.

§ 150.703 Definitions.

For purposes of this subpart and in addition to the definitions in § 150.31:

"Acute care hospital" means any hospital that meets the requirements of the American Hospital Association for registration as a general or special hospital (see "Classification of Health Care Institutions," 1968 edition, American Hospital Association, 840 North Lake Shore Drive, Chicago, Ill. 60611) and in which the average length of stay for all patients is less than 30 days or over 50 percent of all patients are admitted to units where the average length of stay is less than 30 days.

"Admissions" means the number of patients (including free care patients) accepted for inpatient service either in beds licensed for hospital care or, in states where licensing is not required, in beds staffed for hospital care. For the purpose of this definition, births or transfers between departments may be treated as admissions if the hospital has by consistent administrative practice treated transfers or births as admissions.

"Capital expenditure" means an expenditure defined as a capital expenditure in 42 CFR 100.103(a) of the regulations implementing section 1122 of the Social Security Act as added by section 221(a) of the Social Security Amendments of 1972 (Pub. L. 92–603, 86 Stat. 1386–89 (42 U.S.C. 1320a–1)).

"Cost reimbursement arrangement" means any formula provided by contract or legislation to calculate the final amount payable for health services furnished by an acute care hospital on the basis of cost rather than charges or on the basis of charges when the charges are less than cost. Arrangements pursuant to which the amount to be reimbursed for one year is calculated on the basis of costs occurring in any other year are not cost reimbursement arrangements.

"Design development" means the documentation which describes the size and character of the construction project, including:

(1) the site plan indicating the nature of the improvements such as topography, utilities, and streets;

(2) plans, elevations and sections required to describe the project with respect to structural, mechanical and electrical systems;

(3) schedules and lists required to identify all fixed equipment with respect to character, size, function and finishes of interior spaces; and

(4) a general description of the types and requirements of the materials to be used.

"Free care" means the customary charge for health care services and property furnished to an inpatient unable to pay for such services or property and for which a bill is not rendered to the patient or third party payor. It also includes the difference between the customary charge for an inpatient service or property and the amount actually billed to the patient. Contractual allowances, bad debts, and courtesy discounts are excluded from the scope of this definition.

"New facility" means an acute care hospital which:

(1) commences operation for the first time, or which has not operated for at least one year prior to its current date of operation; or

(2) has undergone physical replacement; or

(3) has undergone major renovation, remodeling or expansion that costs a dollar amount equal to 70 percent of the book value (net of accumulated depreciation) of the property, plant and equipment in service at the end of the fiscal year in which the hospital was committed to construction by prior authorization of the hospital's governing board, or $100,000, whichever is greater, and which

(i) Receives a "new facility" determination in response to a request filed with the Council prior to March 20, 1974, under Cost of Living Council Notice 73–2 (38 FR 30798); or

(ii) Receives approval from the State planning agency or the Council in response to a request filed on or after January 1, 1974, and prior to March 20, 1974, for approval of a capital expenditure pursuant to § 150.713 or § 150.714 (c); or

(iii) Has undertaken a capital expenditure that meets the requirements of § 150.713(a)(2).

For purposes of this definition, the mere acquisition of a hospital or of the person that controls the hospital by another person does not result in the creation of a new facility.

"New service" means a service or property which the hospital did not sell or lease in the same or substantially similar form at any time during the one-year period immediately preceding the first date on which it is offered for sale or lease. For the purposes of this definition, a change in appearance or arrangement, or a change in the method or technology of providing a service, does not create a new service or property.

"Prospective rates" means payments applicable to third party payors established in advance for health care services, without provision for retrospective adjustment based on actual charges or costs incurred during the year in which the services were rendered.

"Total inpatient operating charges" means the sum of gross charges for all services performed on an inpatient basis in any fiscal year, computed by taking the sum of all inpatient service charges for the year concerned, including—

(1) Charges for daily patient services (routine services);

(2) Charges for other nursing services (operating room, central services and supplies, and similar services);

(3) Charges for other professional services (ancillary-laboratory, radiology, anesthesiology, and similar services); and

V 39 160
MAR 27 74
XUM

(4) All other inpatient service charges not covered above;

But excluding those charges not collected as a result of free care.

"Total inpatient operating expenses" means the sum of all operating expenses determined in accordance with generally accepted accounting principles for hospitals as reflected in the AICPA Hospital Audit Guide (1972 edition, American Institute of Certified Public Accountants, Inc., 666 Fifth Avenue, New York, New York 10019), or by a system of accounting principles approved for use by Blue Cross (as defined in the principal Blue Cross plan in the community served by the hospital), Medicare, or a State Uniform Hospital Accounting System (as defined in the relevant state statutes and implementing regulations); and allocated to inpatient services in accordance with one of the latter three accounting systems. Once a selection of accounting principles has been made by an acute care hospital from among the systems identified above, the hospital may not thereafter adopt a different system without prior written approval by the Council, but must consistently apply the principles in all relevant calculations required by the Economic Stabilization Program.

"Total inpatient reimbursed expenses" means the total inpatient operating expenses accrued or paid or accrued and paid, under cost reimbursement arrangements.

§ 150.704 Prior commitments.

(a) Except as provided in paragraph (b), of this section, all interpretations, and decisions or exceptions having prospective effect, issued under the Economic Stabilization Act prior to January 17, 1974, to acute care hospitals covered under this subpart remain in force.

(b) This section shall not apply to any exception issued under Subpart O of this part authorizing a dollar increase to any hospital that is subject to Subpart R pursuant to § 150.701.

(c) Each acute care hospital may annualize the charge increases and charges for new services allowed and implemented under Subpart O of this part in effect on the last day of the hospital's last fiscal year under Subpart O of this part, for purposes of calculating the base on which allowances are authorized under this subpart.

§ 150.705 Limitation on charge and expense increases per inpatient admission.

(a) Except as otherwise provided in these regulations, an acute care hospital's total inpatient operating charges per admission and total inpatient reimbursed expenses per admission during any fiscal year may not exceed 107.5 percent of their respective authorized or actual levels for the preceding fiscal year, whichever respective level is less. This limitation on total inpatient reimbursed expenses per admission does not apply if the total inpatient operating expenses per admission do not exceed 107.5 percent, as may be adjusted in accordance with §§ 150.706, 150.708 and 150.712, of the authorized or actual level of total inpatient operating expenses per admission for the preceding year, whichever level is less.

(b) The total prospective rate revenues may not exceed the total charges for those patients whose health care is paid on the basis of prospective rates.

§ 150.706 Volume adjustment for change in inpatient admissions.

(a) If during any fiscal year an acute care hospital has more admissions than in its preceding fiscal year, for each admission exceeding 102 percent of the admissions during the preceding fiscal year, total inpatient operating charges and total inpatient reimbursed expenses per admission may not exceed 43 percent of their respective levels for the preceding fiscal year. This limitation on total inpatient reimbursed expenses per admission does not apply if, for each admission exceeding 102 percent of the admissions during the preceding fiscal year, the total inpatient operating expenses per admission do not exceed 43 percent of the preceding fiscal year's total inpatient operating expenses per admission. However, this paragraph does not require that the overall increase in total inpatient operating charges and total inpatient reimbursed expenses per admission permitted by § 150.705, this paragraph, and § 150.708 be limited to less than 103 percent of their respective levels for the preceding fiscal year.

(b) If during any fiscal year a hospital's admissions are less than 100 percent but not less than 95 percent of its admissions during the preceding fiscal year, its total inpatient operating charges and total inpatient reimbursed expenses for that fiscal year may not exceed 107.5 percent of their respective levels for the preceding fiscal year. This limitation on total inpatient reimbursed expenses does not apply if the total inpatient operating expenses do not exceed 107.5 percent of the authorized or actual level of total inpatient operating expenses for the preceding year, whichever is less.

(c) If during any fiscal year, a hospital has fewer admissions than in its preceding fiscal year, for each admission less than 95 percent of the admissions during the preceding year, the hospital shall deduct an amount from total inpatient operating charges and total inpatient reimbursed expenses per admission equal to 43 percent of their respective levels for the preceding fiscal year. This limitation on total inpatient reimbursed expenses does not apply if, for each admission less than 95 percent of the admissions during the preceding fiscal year, the total inpatient operating expenses per admission do not exceed 43 percent of the preceding fiscal year's total inpatient operating expenses per admission. However, the overall increase in total inpatient operating charges and total inpatient reimbursed expenses per admission authorized by § 150.705, this paragraph, and § 150.708 shall not exceed 120 percent of their respective levels for the preceding fiscal year.

(d) In the case of a hospital which has either less than $2,500,000 total inpatient operating charges or fewer than 4,000 admissions in its preceding fiscal year, the limitations on total inpatient operating charges and total inpatient reimbursed expenses per admission contained in paragraphs (a) and (c) of this section do not apply unless its admissions increase above 104 percent or fall below 90 percent of the admissions for the preceding fiscal year.

§ 150.707 Limitation on charge increases for outpatient services.

(a) This section applies to—

(1) the charges in each revenue department and cost center, as determined by the hospital's customary accounting practice, in which at least 70 percent of the gross charges of that revenue department or cost center are attributable to the provision of outpatient services; and

(2) the charge for each outpatient service which differs from the inpatient charge for the same service.

(b) Whether or not charges for outpatient services are required to be controlled under this section, all charges attributable to the provision of inpatient services shall be included in the computations made under §§ 150.705 and 150.706.

(c) Each acute care hospital shall control its charges for outpatient services under this section on the basis of either a unit charge system or an aggregate weighted charge system.

(1) If the hospital elects the unit charge system, it may not increase its charge for any outpatient service beyond 106 percent of the charge lawfully in effect for that service on the last day of the preceding fiscal year.

(2) If the hospital elects the aggregate weighted charge system:

(i) the aggregate weighted charges for all of its outpatient services may not exceed 106 percent of the aggregate weighted charges for all such services lawfully in effect during the preceding fiscal year; and

(ii) the charge for any outpatient service may not be more than 110 percent of the charge lawfully in effect for that service on the last day of the preceding fiscal year (however, this paragraph does not require that charge increases be limited to amounts less than $1.00).

(iii) the formula for determining charge increases computed on an aggregate weighted basis under this paragraph (c)(2), herein referred to as %AWCI, is as follows:

$$\%AWCI \quad \sum \frac{C_2}{C_1} \times \frac{B_1}{B_2} \times 100$$

where,

C_1 = the charge lawfully in effect on the last day of immediately preceding fiscal year for a service or property.
C_2 = the highest charge made or to be made during the current fiscal year for that service or property.
B_1 = the actual gross charges during the immediately preceding fiscal year for that service or property.
B_2 = the total gross charges during the immediately preceding fiscal year for all outpatient services and property subject to the limitations of this section.
Σ = the sum of.

(3) At the option of the acute care hospital the formula for determining %AWCI in paragraph (c)(2) of this section may be restated as follows:

$$\%AWCI = \sum \%I \times \frac{G_1}{B_2}$$

where,

$\%I$ = the highest percentage charge increase for any service or property within a group of similar or related services or property.
G_1 = the actual gross charges during the immediately preceding fiscal year for that group of similar or related services and property.

(4) If the charges in effect on the last day of the preceding fiscal year had been temporarily lowered to effect a restitution of overcharges to assure compliance by the end of that year, then such charges may be adjusted to the legally authorized level.

§ 150.708 Cumulative increases.

In the application of §§ 150.705, 150.706, and 150.707, charge or expense increases permitted in one year but not fully implemented may be accumulated, but not compounded, and may be implemented only in the fiscal year following the year in which the full allowable increase was not implemented.

§ 150.709 Special pricing rules.

(a) The methods of establishing charges for services or property set forth in this section may be used only after an acute care hospital has been authorized to use these provisions pursuant to other sections of this subpart.

(b) In the case of a new facility resulting from a capital expenditure which meets the requirements of § 150.713 or § 150.714(c), or a new outpatient service or property, the charges for services or property may be determined by any one of the following methods without regard to the limitations prescribed in §§ 150.705, 150.706, and 150.707:

(1) An acute care hospital may establish a charge capable of sustaining without financial loss the provision of the inpatient service or property by the hospital based on an occupancy rate of not less than 65 percent (or such higher figure as may be appropriate) for staffed beds in the hospital; or capable of sustaining without financial loss the provision of the new outpatient service or property by the hospital based on the projected utilization rate of the new outpatient service or property. The charges so determined may reflect an incremental charge attributable to interest and depreciation costs.

(2) An acute care hospital may establish a charge for a service or property which is not unreasonably inconsistent with the prevailing charges of a substantial number of current transactions for a similar service or property by a substantial number of other acute care hospitals. The charges so determined may reflect an incremental charge for interest and depreciation costs.

(3) An acute care hospital may establish its charges by using any charging practice commonly used by a substantial number of acute care hospitals. The charges so determined may reflect an incremental charge for interest and depreciation costs.

(c) New charges authorized pursuant to this section shall become effective no earlier than the first day on which the services or property shall be made available to patients. However, if the request for approval under § 150.713 or the request for exception under § 150.714(c) has not been filed before the close of the fiscal year in which the service or property was made available to patients, then the new charges shall become effective no earlier than the first day of the fiscal year in which the request was filed.

(d) An acute care hospital may use the special pricing rules of this section at any time within, but not later than, twelve months after the service or property described in paragraph (b) of this section was first made available to patients.

(e) In the case of a capital expenditure approved pursuant to § 150.713 or § 150.714(c) which does not result in a new facility, the charges for services or property for inpatient care shall be determined as follows: For each fiscal year in which the project resulting from the capital expenditure is being constructed or otherwise introduced, and during the first full fiscal year of operation, the hospital shall establish a level of charges and incur a level of expenses for the services and property sufficient to produce a level of revenues which has been approved by the agency described in § 150.713(c) or by the Council. The hospital shall calculate the total amount of allowable total inpatient operating charges and total inpatient operating expenses for each fiscal year prior to the second full fiscal year of operation. The level of inpatient charges and inpatient expenses established pursuant to this paragraph shall be added in each applicable fiscal year to the base to which the adjustments authorized by §§ 150.705, 150.706, 150.708 and 150.712 are made.

(f) In the case of a new facility the limitations set forth in § 150.705 shall apply during the second full fiscal year of operation and subsequent fiscal years, and the limitations set forth in § 150.706 shall apply during the third full fiscal year of operation and subsequent fiscal years. For an outpatient service or property which is provided in a new facility and to which the limitations in § 150.707 apply, an acute care hospital shall be subject to the unit charge limitation of § 150.707(c)(1) in the first full fiscal year after the service or property was first made available to patients; thereafter, the hospital may elect as provided in § 150.707(c).

(g) The Council may modify, defer, suspend, or disapprove any charges or expenses implemented pursuant to this section if the Council finds that such charges or expenses are inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 150.710 Charge schedules.

Each acute care hospital shall maintain at each of its facilities a schedule showing its charges for all services on the last day of the preceding fiscal year, and each subsequent change in those charges and the date each change was made. The schedule shall be made available for public inspection, and a copy shall be furnished or mailed promptly to third party payors or to the Cost of Living Council upon request. Each hospital shall post an easily readable sign stating the availability and location of the schedule. The sign must be posted conspicuously in each location where payment for services is accepted. No charge increase may be implemented before the increase has been entered on the schedule as required by this section.

§ 150.711 Retention and availability of records.

(a) Each acute care hospital subject to this subpart shall maintain such records as are sufficient to establish the compliance status of the hospital with respect to this title.

(b) Records required to be maintained under paragraph (a) of this section shall be made available for inspection at any time upon the request of an officer or employee of the Council, or of any other person authorized to represent the Council.

(c) Each acute care hospital required to maintain records under this section shall retain such records for at least 3 years after the last day of the fiscal year in which the transactions or other events recorded in such records occurred or the property was acquired by that acute care hospital.

§ 150.712 Adjustment for significant changes in patient mix.

(a) If an acute care hospital experiences significant changes in patient mix, and if the hospital uses either of the systems described in paragraph (b) of this section and the methodology set forth in paragraph (c) of this section to allocate its admissions and to adjust its charges and expenses, the hospital may increase its applicable fiscal year allowances in total inpatient operating charges and total inpatient operating expenses per admission prescribed in §§ 150.705 and 150.706 in accordance with the provisions of this section.

(b) Standard Patient Allocation Systems. An acute care hospital shall use either of the following two standard patient allocation systems to allocate admissions:

System A. An acute care hospital may classify admissions among the following categories:

Medical	Obstetric
Surgical	Psychiatric
Pediatric	

System B. An acute care hospital may use the ICDA–8 "Eighth Revision International Classification of Diseases, Adapted for Use in the United States (Public Health Service Publication No. 1693, U.S. Department of Health, Education, and Welfare, Public Health Service, National Center for Health Statistics, Rockville, Maryland 20852, December 1968)" or the Hospital Adaptation-International Classification of Diseases Adapted for Use in the United States (H–ICDA, 1968 edition, Commission on Professional and

V 39160
MAR 27 74
XUM

Hospital Activities, 1968 Green Road, Ann Arbor, Michigan 48105) in such a way as to include at least 86 percent of its admissions. The balance of the admissions must be included as "other."

(c) Standard Methodology for Adjustment of Charges and Expenses.

STEP 1. Determine the basic patient categories according to either standard System A or B described in paragraph (b) of this section, or another allocation system.

STEP 2. Determine the current year distribution of patients using the categories selected in Step 1.

STEP 3. Calculate last year's total admissions, and apply the current year's distribution (Step 2) to them, i.e., restate last year's admissions in terms of this year's patient distribution.

STEP 4. Determine on a reliable and valid sample basis last year's gross charges per admission in each of the categories selected in Step 1.

STEP 5. Apply last year's gross charges per admission for each category (Step 4) to the number of "restated" admissions in each category (Step 3) to obtain the "restated" total charges for last year.

STEP 6. Divide the restated total charges (Step 5) by the actual admissions last year to obtain the "restated" charges per admission.

STEP 7. Substract last year's actual or authorized charges per admission, whichever is less, from last year's "restated" charges per admission and divide the result by last year's actual or authorized charges per admission, whichever is less, to obtain a "patient mix factor."

STEP 8. Adjust the limitations of the total inpatient operating charges and total inpatient operating expenses of §§ 150.705 and 150.706 by adding to the limitations set forth in such sections the patient mix factor obtained in Step 7. The supporting calculations must be included with the annual report (Form CLC–61) filed with the Cost of Living Council. For purposes of paragraph (f) of this section, if the adjustment is calculated on the basis of budgeted or projected data, the calculations shall be restated in the annual report on the basis of actual data.

(d) Notwithstanding the provisions of paragraphs (a) through (c) of this section, at any time during a fiscal year, an acute care hospital may request approval from the Cost of Living Council of a patient classification system different from those set forth in paragraph (b) of this section to document the effects of patient mix changes. The acute care hospital may also request approval of a methodology differing from that set forth in paragraph (c) of this section to adjust charges and expenses. The acute care hospital must demonstrate in documentation accompanying the request for approval of a differing methodology, the validity and reliability of its data and the proposed method to identitify the effects of change in patient mix. Once the alternative system or methodology has been approved, the acute care hospital may use it to adjust increases in total inpatient operating charges and total inpatient operating expenses per admission.

(e) Once an acute care hospital has received approval from the Council to document patient mix changes on the basis of an alternative system, any further change in system can be made only with the prior written approval of the Council. The Council will not approve changes to less sophisticated systems.

(f) (1) If the adjustment authorized by this section exceeds 25 percent of the percentage limitation authorized by §§ 150.705, 150.706, and 150.708, and is calculated on the basis of budgeted or projected data, the hospital shall notify the Council in writing of the magnitude of the percentage and dollar amount of the adjustment. The hospital may not apply the adjustment until the notice of the proposed adjustment, Form CLC–61, prepared in accordance with the instructions to Schedule M, and substantiating documentation, have been filed with the Council and 30 days have elapsed from the day on which the notice and substantiating documentation were filed. The notice required by this paragraph shall be filed as soon as the hospital becomes aware of the trend in patient mix which permits the adjustment pursuant to this section.

(2) If the adjustment authorized by this section exceeds 25 percent of the percentage limitation specified in §§ 150.705 and 150.706 but it is calculated on the basis of actual data, the hospital may immediately apply the adjustment up to a maximum adjustment of 25 percent of the percentage limitations specified in § 150.705 or § 150.706 for total inpatient operating charges and total inpatient operating expenses but may not apply that portion of the total adjustment exceeding 25 percent until after thirty days have elapsed following the filing of the annual report required by § 150.717 together with its request for permission to apply the adjustment in full. The Council shall notify the hospital in writing of the date of filing.

(3) During the 30 day period specified in this paragraph, the Council may issue an order disapproving, modifying, suspending or deferring the proposed adjustment in whole or in part, if it finds that the proposed adjustment does not conform to the rules of this part.

(4) The Council may issue a notice temporarily suspending the running of a 30 day period if it finds additional information is necessary, or if it finds that any notice or documentation required by this section is incomplete or inadequate, or if it finds that the annual report required by paragraph (f) (2) of this section is incomplete or insufficient with respect to the patient mix adjustment. The 30 day period shall resume running when the Council notifies the hospital in writing that the additional information has been received and accepted.

(5) If the Council does not act on the proposed adjustment within the 30 day period specified in this paragraph, the hospital may apply the proposed adjustment immediately upon expiration of the 30 day period. Failure of the Council to act upon the proposed adjustment within the 30 day period does not constitute approval of the adjustment and nothing in this section shall be construed to limit the authority of the Council to modify, suspend, disapprove or defer in whole or in part any adjustment applied pursuant to this section if the Council finds that the adjustment is based on erroneous calculations, has been applied in bad faith, or does not conform to the rules of this title.

§ 150.713 Approval of capital expenditures by a State's planning agency.

(a) (1) Except as provided in paragraph (a) (2) of this section, when an acute care hospital has obtained the approval of a State planning agency for a capital expenditure in accordance with the provisions of this section, the hospital may, in accordance with § 150.709, establish new charges for the services or property resulting from the capital expenditure which are necessary to produce, but not to exceed, the level of revenues approved by the agency.

(2) An acute care hospital shall not be subject to paragraphs (b) through (f) of this section or to § 150.714(c), and may establish new charges for the services or property furnished to patients as a result of the capital expenditure in accordance with the applicable provisions of § 150.709 when the following occurrences have taken place prior to January 1, 1974:

(i) the capital expenditure was approved on its merits on the basis of community need by a planning agency listed in paragraph (b) of this section; however, this requirement shall not apply where State approval procedures described in paragraph (b) of this section were neither required nor available to an acute care hospital; and

(ii) (A) With respect to a capital expenditure involving construction, the design development for the capital expenditure was completed and approved by the governing board of the hospital; or

(B) With respect to a capital expenditure which does not involve construction, the hospital was commited to the capital expenditure by authorization of the hospital's governing board and one or more implementing financial obligations were contractually incurred in reliance on the authorization.

The provisions of this paragraph (a) (2) are self-executing. No written determination or ruling of the Council is required to authorize an acute care hospital to apply the special pricing rules of § 150.709 if the hospital meets the criteria set forth in this paragraph.

If the Council determines upon subsequent review that the conditions of this paragraph have not been satisfied, it may disapprove any charges implemented pursuant to § 150.709 or take such other action as may be appropriate to ensure compliance with the rules of this subpart.

(b) A capital expenditure under consideration by the acute care hospital must be approved on the merits, based upon a clear demonstration of community need, by the appropriate planning agency specified in this paragraph. The acute care hospital must request approval from the planning agency designated pursuant to section 1122 of the Social Security Act. (Pub. L. 92–603, 86 Stat. 1386–89 (42 U.S.C. 1320a–1)). If a State is not participating in the program under section 1122, then the approval must be obtained from the State agency administering a certificate of need program for acute care hospitals. If a State is not participating in a program under section 1122 and has no State agency administering a certificate of need program, then the approval must be obtained from an agency designated under section 314(b) of the Public Health Service Act (Pub. L. 92–585, 86 Stat. 1292 (42 U.S.C. 246(b)); otherwise, approval must be obtained from a State agency designated pursuant to section 314(a) of the Public Health Service Act (Pub. L. 92–585, 86 Stat. 1292 (42 U.S.C. 246(a)).

(c) Approval of a level of revenues that is not unreasonable to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, for the first full fiscal year of operation must be obtained from either the same agency which granted an approval under paragraph (b) of this section or another agency (such as a rate-setting commission or hospital commission) designated by the governor of the State or the mayor of the District of Columbia to perform this specific function. If a State is participating in the program under section 1122, the agency that performs the function specified in this paragraph must be the agency designated pursuant to section 1122. The agency that performs the function specified in this paragraph shall be referred to as the "State approving agency." Prior to the State approving agency taking any action to approve a level of revenues in accordance with this section the Council and the State agency shall have first agreed in writing for the State agency to approve capital expenditures pursuant to this section. For purposes of this paragraph, the first full fiscal year of operation means the first full fiscal year after the inauguration of all services and property resulting from the capital expenditure.

(d) For a capital expenditure involving a change in bed capacity, the State approving agency is authorized to approve a modification of the adjustment for changes in volume of admissions, where appropriate, to reflect anticipated changes in volume of admissions resulting from the capital expenditure.

(e) Within sixty (60) days after the date of an approval by the State approving agency, the chief executive officer of the acute care hospital shall notify the Council of such approval by sending a copy of the written decision to the Council, together with a written statement signed by the chairman of the governing board of the hospital certifying that funds legally available from restricted reserves have or will be applied to the capital expenditure or its directly related operating expenses in accordance with the approval.

(f) If after the original agency approval it appears that the authorized level of revenues will not reach the level required to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, the hospital may file with the State approving agency a request in writing to allow the hospital to achieve a level of revenues in excess of the level originally authorized. A request under this paragraph shall be considered on the same basis as an original request under paragraph (c) of this section, except that in addition, the hospital shall submit sufficient documentation to enable the State approving agency to evaluate changes in financial conditions that have occurred since the original approval under paragraphs (c) and (d) of this section was granted, or other relevant circumstances which significantly alter the assumptions upon which the earlier approval was based. The notification provisions of paragraph (e) of this section shall apply to approvals under this paragraph.

§ 150.714 Exceptions.

(a) No acute care hospital may exceed the limitations set forth in §§ 150.705, 150.706, and 150.707 except as may be authorized pursuant to this subpart. Each acute care hospital making a request for exception shall, in addition to meeting the specific requirements of this section, prepare any request for exception to be filed with the Council in conformity with the general provisions relating to exceptions prescribed by Part 155 of this title and shall obtain the recommendation of the State advisory agency referred to in § 150.715 on the request for exception. The State advisory agency shall forward the hospital's request for exception, together with its recommendation, directly to the Council. The requirement for the recommendation shall not apply if the State advisory agency fails to act within thirty (30) days (and the hospital may then file its request directly with the Council) unless the agency shall have requested corrected or additional information in which case the thirty (30) day period shall be suspended from the date of the request until the agency informs the hospital that the information has been received. The 30 day period shall then resume running.

(b) Requests for exception filed under this section by an acute care hospital are considered to be provisionally approved 60 days after the date of filing of the request with the Council. The Council shall inform the acute care hospital promptly by written notice of the date of filing and the docket number of the request for exception. During the 60 day period, the Council may issue a suspense notice which shall have the effect of preventing the unexpired portion of the 60 day period from continuing to run, if the documents submitted by the hospital are incomplete, erroneous or do not meet the criteria set forth in this section. In any case in which the Council issues a suspense notice and requests additional or corrected information from the hospital, the 60 day period shall resume running only after the Council has informed the hospital that the information has been received and accepted. The charge or expense increases authorized by this section shall be applied only to services or property provided to patients by the hospital after the 60-day period has expired. If after implementation of an increase following the expiration of the 60-day period, the Council finds that the increase is inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program, it may issue an order modifying, deferring, suspending or disapproving the increase. In such an instance, if the exception request had been submitted in good faith, the acute care hospital shall not be required to refund any monies received, or to reduce reimbursements otherwise allowable from the date of expiration of the 60-day period until the Council's determination of the request or be subject to any criminal fine or civil penalty on account of the increase implemented on the basis of the provisional approval of this section.

(c) (1) If the State approval procedures referred to in § 150.713 are not or were not available to an acute care hospital, the hospital may request from the Council an exception to establish, in accordance with § 150.709, new charges for services or property resulting from a capital expenditure which are necessary to produce, but not to exceed, the level of revenues approved by the Council pursuant to this paragraph. The request for exception must be accompanied by supporting documentation, indicating the reason why the approval procedures are or were not available, and permitting the Council to evaluate the following:

(i) Whether there exists a community need for the proposed project adequate to assure financial support without causing localized shortages of labor or serious hospital market disruptions susceptible of requiring other exceptions by the Council;

(ii) Whether the project will foster cost containment initiatives or improved efficiency and productivity in the acute care hospital;

(iii) All expenses attributable to the operating expenses directly related to the capital expenditure, including interest and depreciation, calculated without regard to the annual allowances authorized by this subpart;

(iv) The level of patient service revenues required to finance the proposed project for the first full fiscal year of operation, considering funds legally available from restricted reserves for both capital expenditure and operating expenses; and

(v) The charge and expense level expressed in per admission terms which the hospital would propose to establish to produce the requested level of revenues.

(2) For a capital expenditure involving a change in bed capacity, the Council may approve a modification of the adjustment for changes in volume of admissions, where appropriate, to reflect anticipated changes in volume of admissions resulting from the capital expenditure.

(3) Each request shall be signed by the chief executive officer of the hospital and shall be accompanied by a written statement signed by the chairman of the

V 39 60 MAR 27 74 XUM

governing board of the hospital certifying that funds legally available from restricted reserves have been or will be applied to the operating expenses directly related to the capital expenditures including interest and depreciation as stated in the request for exception.

(4) If after the original Council approval it appears that the authorized level of revenues will not reach the level required to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, the hospital may file with the Council a request in writing to allow the hospital to achieve a level of revenues in excess of the level originally authorized. Such requests shall be considered on the same basis as an original request under this paragraph, except that in addition, the hospital shall submit sufficient documentation to enable the Council to evaluate changes in financial conditions that have occurred since the approval under this paragraph was initially granted, or other relevant circumstances which significantly alter the assumptions upon which the earlier approval was based.

(d) An acute care hospital may request an exception for experimentation in hospital reimbursement methodologies. The Council may grant a prospective exception to a single hospital or to a group of hospitals as members of a class, geographic or otherwise. The Council may consult with the Department of Health, Education and Welfare prior to making its determination. Requests submitted pursuant to this paragraph need not be cost justified.

(e) (1) An acute care hospital may request an exception as provided in this paragraph when a serious hardship or gross inequity has been caused by any of the following occurrences:

(i) a demonstrable increase in bad debts experience that causes the hospital's gross charges not to reflect accurately actual collections;

(ii) increased expenses resulting from requirements imposed by law or government regulation; and

(iii) increased expenses incurred by reason of wage and salary increases that are exempt under the provisions of § 152.32 of this chapter, or are below minimum wage rates imposed by Federal or State statutes of general application.

(2) Each request for an exception shall be evaluated on the basis of cost justification. In reviewing evidence of the cost justification submitted by the hospital, the Council will also consider evidence of cost containment initiatives, prudent management practices and evidence of consistent application of accepted accounting principles demonstrated by the hospital. As part of its evaluation, the Council will review the following financial factors:

(i) all allowable operating expenses, including depreciation, and special reserve accounts that are required to be replenished by reason of contractual agreement or consistent historical application of a governing board resolution;

(ii) working capital needs; and

(iii) all revenues from patient services, and revenues from other operating activities.

(f) An acute care hospital may request an exception for any reason causing a serious hardship or gross inequity. Each request submitted pursuant to this paragraph shall be evaluated on the basis of cost justification. In reviewing the cost justification submitted by the hospital, the Council will also consider evidence of cost containment initiatives, prudent management practices and consistent application of accepted accounting principles demonstrated by the hospital. As part of its evaluation, the Council will review the following financial factors:

(1) all allowable operating expenses, including depreciation, and special reserve accounts that are required to be replenished by reason of contractual agreement or consistent historical application of a government board resolution;

(2) working capital needs;

(3) all legally available funds from revenues from patient services, revenues from other operating activities; and revenues from non-operating sources such as unrestricted gifts received during the fiscal year being reviewed or unrestricted income from unrestricted and restricted reserves;

(4) changes in any charges or directly related operating expenses resulting from capital expenditures previously authorized under this subpart or resulting from services or property for which new charges have been authorized under Cost of Living Council Notice No. 73–2 (38 FR 30798); and

(5) evidence of cost behavior that is unanticipated and significantly different from that on which the hospital has budgeted.

§ 150.715 Advisory State actions and Federal Approving Officers.

(a) The governor of each State and the mayor of the District of Columbia are each requested to designate an agency to advise the Council on requests for exceptions to these regulations or on any other matters that the Council may from time to time specify. Each agency shall review the requests for exception filed with it under § 150.714(a) pursuant to the applicable guidelines set forth in this subpart and whenever it considers that the granting of an exception is essential to the provision of adequate health services and consistent with the Economic Stabilization Program shall recommend to the Administrator of the Office of Health, Cost of Living Council, or to an official appointed under paragraph (b) of this section, that an exception be granted by the Council.

(b) The Council may authorize and appoint an official who shall be a full time employee of the Federal Government to whom may be subsequently delegated the authority to issue initial decisions on requests for exceptions submitted under the provisions of § 150.714. Such official may, in his discretion, hear representatives of acute care hospitals, and request and receive additional information. He shall consult with, and receive the advice and recommendations of, State advisory agencies with respect to the requests for exception. After having reviewed the record and considered the recommendation of the State advisory agency, and all applicable statutory and regulatory criteria, he shall grant or deny the request for exception, in whole or in part, or shall forward the request to the Council, with or without a recommendation. He shall notify the requesting hospital in writing of his decision. A hospital aggrieved by an initial action under this paragraph may request reconsideration pursuant to Part 155 of this chapter.

§ 150.716 State control program.

(a) Any State or the District of Columbia, or within such jurisdiction, an agency designated by the governor or mayor of the District of Columbia that has a health care price control program may apply to the Cost of Living Council for authorization to administer the control program within the State in lieu of the controls set forth in §§ 150.701 through 150.722 and administered by the Cost of Living Council. The State agency shall submit to the Cost of Living Council a comprehensive description of its proposed stabilization plan and of its existing or proposed rules for use by the agency in considering requests for price increases for the acute care hospitals under its jurisdiction. The submission to the Council must include an evaluation by the acute care hospitals or associations of acute care hospitals to be covered by the control program.

(b) The governor of a State or the mayor of the District of Columbia may designate an agency to coordinate a health care price control program and assign to a nongovernmental organization the responsibility for administering the program.

(c) To qualify for authorization under this section, a control program must—

(1) have as its objective the substantial limitation of the rising price of health care, and there must be reasonable basis for determination that the objective can be met;

(2) include rules and regulations that are fair and equitable;

(3) contain adequate and assured funds for staffing, commencement of program and operations for a minimum of one year;

(4) provide for participation in policy development by provider groups, acute care hospitals and consumers;

(5) be coextensive in coverage with the Economic Stabilization Program controls for acute care hospitals, or it must be demonstrated that the State program will have substantial impact on health care charges and expenses;

(6) include objective standards by which to measure overall performance;

(7) include uniform standards for measuring individual provider performance;

(8) include procedures for consideration of requests for exception and for review of original decisions denying such requests;

(9) include provisions to assure compliance (Such provisions may provide for the agency to order refunds, rollbacks, or such other remedies that are reasonable and appropriate to achieve compliance.); and

(10) include a provision for price posting similar to that required in § 150.710.

(d) If the Cost of Living Council approves the proposed stabilization program and rules of an agency, it will notify the agency that when those proposed rules are finally adopted and put into effect by the agency, the Cost of Living Council will issue a certificate of compliance to that agency. If the Cost of Living Council approves existing rules of an agency, it will issue a certificate of compliance to that agency.

(e) An acute care hospital may place in effect, in accordance with the rules of an agency to which a certificate of compliance has been issued, any price increase authorized or allowed to go into effect under the State program.

(f) Except as provided in paragraphs (g) and (h) of this section, actions taken under the program of an agency to which a certificate of compliance has been issued under paragraph (d) of this section are not subject to review by the Cost of Living Council.

(g) Each agency to which a certificate of compliance has been issued under paragraph (d) of this section shall also agree to furnish periodically to the Cost of Living Council such information as the Council may prescribe for the Council's use in determining whether the agency is following its adopted rules and whether the purposes of the Economic Stabilization Program are being served.

(h) The Cost of Living Council may revoke a certificate of compliance issued under paragraph (d) of this section at any time, or take such other action with respect to the certificate as it considers appropriate, if it determines that the rules to which the certificate applies are not being followed or are not serving the purposes of the Economic Stabilization Program. Price increases approved under the State program prior to such revocation or other action shall in no way be affected by such revocation or other action.

(i) Any acute care hospital not subject to a control program certified under this section is subject to this subpart.

§ 150.717 Reporting procedures.

(a) Within 120 days after the end of each fiscal year, each acute care hospital shall file a completed Form CLC–61 signed by the chief executive officer, the administrator or the chief financial officer with the Office of Health, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508. Each acute care hospital shall, upon request, furnish a copy of the completed Form CLC–61 to third party payors.

(b) Each acute care hospital which, pursuant to § 150.713(a)(2), is authorized to establish new charges for services or property resulting from a capital expenditure and to adjust its charges and expenses, is required to file the following information with its annual report for each year prior to the second full fiscal year after the service or property was first made available to patients:

(1) Statement of incurred expenses attributable to the operating expenses directly related to the capital expenditure, including interest and depreciation;

(2) Statement of the method of application of § 150.709 to establish new charges for services and property to obtain the projected level of revenues required to finance the operating expenses directly related to the capital expenditure, including interest and depreciation.

§ 150.718 Self-monitoring.

Acute care hospitals are urged to monitor their own compliance with the regulations of this subpart by the quarterly preparation and review of Form CLC–61, and in accordance with any guidelines promulgated by the Council for the purposes of enhancing initiatives of self-compliance.

§ 150.719 Prohibition.

No acute care hospital subject to this subpart may adopt any change in charging practices, reduction in quality or quantity of services, or any other practice that has the effect of avoiding compliance with any provision of this title.

§ 150.720 Remedies for non-compliance.

(a) In addition to any remedies provided in Part 155, if the Council determines that:

(1) The limitations of charges contained in § 150.705, § 150.706, or § 150.707 have been exceeded and no exception has been granted, the Council may order—

(i) the reduction of charges to compensate for those charges made in excess of the limitations; or

(ii) The reduction of charges to assure that total charges will not exceed the limitations contained in § 150.705, § 150.706, or § 150.707; or

(iii) the refund to all charge payors of an amount equal to that portion of the excess allocable to charge paying patients (the amount to be refunded or credited to an account shall be allocated on a pro rata basis—each charge multiplied by the percent of excess over total charges); or

(iv) any other action which is reasonable and appropriate to cause the remission of such excess charges, or

(v) any combination of actions under this paragraph (a)(1);

(2) the limitations on total inpatient reimbursed expenses contained in §§ 150.705 and 150.706 have been exceeded, and the total inpatient operating expenses per admission have increased over the preceding fiscal year's total inpatient operating expenses per admission by a percentage greater than the percentage increase allowable for reimbursements, the Council may order—

(i) the amount of the excess of total inpatient reimbursed expenses to be credited to settlements with cost reimbursers on a pro rata basis; or

(ii) any other action which is reasonable and appropriate to cause the restitution of such excess reimbursed expenses.

(3) The limitations on prospective rate revenues contained in §§ 150.705 and 150.706, have been exceeded, and no exception has been granted, the Council may order—

(i) The reduction of prospective rate payments to compensate for those payments made in excess of the limitations; or

(ii) The reduction of prospective rate payments to assure that total payments will not exceed the limitations contained in §§ 150.705 and 150.706; or

(iii) Any other action which is reasonable and appropriate to cause the remission of such excess prospective rate revenues; or

(iv) Any combination of actions under this paragraph (a)(3).

(b) Except as otherwise provided in this subpart, if an acute care hospital determines that it has exceeded the applicable limitations of § 150.705, § 150.706, or § 150.707, unless an exception request is pending, the granting of which would eliminate the violation, the hospital shall submit together with its annual report filed pursuant to § 150.717, a plan for achieving compliance with these sections to the Office of Health, Cost of Living Council, 2000 M Street NW., Washington, D.C. 20508. If the hospital has such an exception request pending at the time of filing the annual report pursuant to § 150.717, the compliance plan required by this paragraph shall be filed with the Council within 20 days of receipt by the hospital of a decision and order denying the exception request or granting an amount less than that necessary to eliminate the violation. Such a compliance plan may provide for a reduction of charges or reimbursed expenses, a stipulation of no charge or reimbursed expense increases for a certain period of time, refunds, or any other action which is reasonable and appropriate to cause the remission of such excess charges or reimbursed expenses, or a combination of any of the foregoing. The Cost of Living Council may approve such a plan, order certain changes, or order a different plan of its own design.

§ 150.721 Communications with the Cost of Living Council.

Acute care hospitals should address all notices and requests made to the Council under this subpart to the Office of Health, Cost of Living Council, 2000 M Street NW., Washington, D.C. 20508.

§ 150.722 Savings and severability.

(a) If this subpart is held invalid with respect to any acute care hospital, Subpart O of this part in effect on December 31, 1973 shall govern the acute care hospital.

(b) If any provision of §§ 150.701 through 150.722 applicable to acute care

V 39 60 MAR 27 74 XUM

hospitals is held invalid, the other provisions of those sections shall remain in full force and effect.

MEDICAL PRACTITIONERS AND MEDICAL LABORATORIES

§ 150.730 Scope and applicability.

(a) Effective January 1, 1974, §§ 150.730 through 150.745 apply to each medical practitioner and, except for §§ 150.734(e), 150.735, and 150.737, to each medical laboratory.

(b) A medical practitioner or a medical laboratory which is under contract to one or more Health Maintenance Organizations and which derives at least 75 percent of its aggregate annual revenues from services rendered to Health Maintenance Organization members pursuant to a contract, is subject to §§ 150.748 through 150.764 governing Health Maintenance Organizations.

(c) To the extent that §§ 150.730 through 150.745 of this subpart may conflict with other provisions of this part, §§ 150.730 through 150.745 shall prevail.

§ 150.731 Continued applicability of existing regulations.

Each medical practitioner and each medical laboratory is subject to Subpart O of this part through December 31, 1973, and the prices in effect on December 28, 1973 shall be deemed to be in effect on December 31, 1973 for purposes of forming the base on which the allowances permitted in this subpart are calculated.

§ 150.732 Definitions.

For purposes of this subpart and in addition to the definitions in § 150.31:

"Aggregate annual revenues" means the total revenues for the fiscal year concerned derived from the provision of all medical services and properties, including—

(1) Revenues from daily patient services (surgery, laboratory and X-ray, office visits, home and hospital calls, and similar services);

(2) Revenues from the sale of medicines and drugs; and

(3) Revenues from other services, sales, and activities directly related to the provision of health care.

"Base period" means, at the option of the medical practitioner, any two of that practitioner's fiscal years ending after August 14, 1968, and prior to a fiscal year for which compliance is being measured. However, a practitioner who was authorized under the provisions of 6 CFR 130.110 in effect on August 12, 1973, to include in its base period a fiscal year which ended before August 15, 1968, may continue to include that fiscal year in its base period.

"Base period revenue margin" means the ratio that the base period net revenues (aggregate annual revenues less total operating expenses directly related to the provision of health care) bears to the base period aggregate annual revenues, computed in accordance with generally accepted accounting principles consistently applied. For the purpose of this definition, revenues and operating expenses derived from the provision of health care under a contract with a Health Maintenance Organization may be excluded in the computation of base period revenue margin.

"Class of purchasers" means a category or a group of purchasers to which a medical practitioner or medical laboratory has charged a comparable price for a comparable service or property pursuant to a customary price differential among those groups or categories of purchasers.

"Customary price" means the price which was or would be charged in a substantial number of transactions to a class of purchasers for a service or property.

"Medical laboratory" means a firm or that part of a firm primarily engaged in providing professional analytic or diagnostic laboratory services to a provider of health care or to a patient on prescription of a medical practitioner. For purposes of this definition, the term does not include a medical practitioner, a dental laboratory, or a medical laboratory owned or operated by an acute care hospital or a long term care institution.

"Medical practitioner" means a physician, surgeon, osteopathic physician, dentist, dental surgeon, or podiatrist. A medical practitioner may be an individual practicing alone, or a group of individuals practicing together in the form of a professional partnership, association, or corporation.

"New market" means a location in a Medicare locality, as determined under 20 CFR 405.505, other than the Medicare locality in which a medical practitioner or medical laboratory had been providing health care services or property, or, with the prior approval of the Council by exception, a different location within the same Medicare locality.

"New service or property" means a service or property which the medical practitioner or medical laboratory did not sell or lease in the same or substantially similar form at any time during the one-year period immediately preceding the first date on which it is offered for sale or lease. For the purposes of this definition, a change in appearance, arrangement, combination, method or technology of providing a service, or certification by a medical specialty board, does not create a new service or property.

"Price" means any fee or charge for the sale or lease of any service or property, regardless of form.

"Revenue margin" means the ratio that net revenues (aggregate annual revenues less total operating expenses directly related to the provision of health care) bears to aggregate annual revenues for a fiscal year, computed in accordance with generally accepted accounting principles consistently applied. For the purpose of this definition, revenues and operating expenses derived from the provision of health care under a contract with an HMO may be excluded in the computation of revenue margin.

§ 150.733 Prior commitments.

(a) Notwithstanding any other provision of this subpart, all prospective decisions, interpretations, and exceptions authorizing a minimum dollar increase issued prior to January 17, 1974, to a specific medical practitioner or medical laboratory covered under this subpart remain in force.

(b) For purposes of calculating the first year's allowances authorized under this subpart, each medical practitioner and medical laboratory shall use no more than the unused portion of the maximum authorized allowable percentage price increase available on December 28, 1973, for the two control years under the non-institutional providers of health services sections of Subpart O of this part. The maximum authorized allowable percentage price increase for purposes of this paragraph is 5 percent, computed on an aggregate weighted basis in accordance with the formula specified in § 150.734(d).

§ 150.734 Price increase limitations.

(a) Except as provided in paragraph (b) of this section with respect to a fixed dollar amount charged under a contract with another health care provider and except for prices charges under a contract with a new HMO, a medical practitioner or medical laboratory may not increase any of its prices for services and property related to the provision of health care in excess of the following limitations:

(1) The customary prices for all services and property may not exceed 104 percent, computed on an aggregate weighted basis using the immediately preceding calendar year's billings, of the customary prices for all services and property lawfully in effect on the last day of the immediately preceding calendar year; and

(2) The price charged for any service or property may not exceed 110 percent of the customary price lawfully in effect for that service or property on the last day of the immediately preceding calendar year. However, price increases need not be limited to amounts less than $1.00.

(3) For purposes of paragraph (a) of this section, a "price" in a percentage of gross or net revenue contract with another health care provider is the amount determined by multiplying the percentage specified therein times the appropriate unit price, i.e. gross or net revenue price, of each service performed or product provided.

(b) The fixed dollar amount specified in a contract with another health care provider for a service or property, other than on a fee-for-service basis but including a maximum or minimum guarantee, may not exceed 106.2 percent of the dollar amount specified in the contract for the same service or property in the preceding contract year.

(c) Notwithstanding the limitations of paragraphs (a) (1) and (b) of this section, any unused price increase to which a medical practitioner or medical laboratory is lawfully entitled (including those accruing prior to the effective date of this regulation) may be accumulated for more than one calendar year and carried forward for use in a subsequent year, but not compounded.

(d) (1) The formula for determining price increases computed on an aggregate weighted basis under paragraph (a) (1) of this section, herein referred to as %AWPI, is as follows:

$$\%AWPI=\Sigma\frac{P_2-P_1}{P_1}\times\frac{B_1}{B_2}\times 100$$

where,

P_1 = the customary price lawfully in effect on the last day of the immediately preceding calendar year for a service or property.
P_2 = the highest customary price charged or to be charged during the current calendar year for that service or property.
B_1 = the actual gross billings during the immediately preceding calendar year for that service or property.
B_2 = the total gross billings during the immediately preceding calendar year for all services and property.
Σ = the sum of.

(2) If a medical practitioner or medical laboratory elects not to increase a price for any service or property over the price lawfully in effect for that service or property on the last day of the immediately preceding calendar year in excess of that percentage increase authorized under paragraphs (a) (1) and (c) of this section, the price increases may be implemented without regard to the computation of %AWPI in paragraph (d) (1) of this section.

(3) At the option of a medical practitioner or medical laboratory, the formula for determining %AWPI in paragraph (d) (1) of this section may be restated as follows:

$$\%\ AWPI=\Sigma\ \%\ I\times\frac{G_1}{B_2}$$

where,

$\%I$ = the highest percentage price increase for any service or property within a group of similar or related services or property.
G_1 = the actual gross billings during the immediately preceding calendar year for that group of similar or related services and property.

(e) A dentist may increase the price of a dental item in which gold or silver is used, without regard to paragraphs (a) (1) and (a) (2) of this section, to reflect the actual increase since November 14, 1971, in the cost of gold or silver used in that item on a dollar-for-dollar basis, without rounding off. Any actual decrease in the cost of gold or silver used in that item shall likewise be reflected, dollar-for-dollar, in the price of that item.

§ 150.735 Revenue margin limitation.

(a) In addition to the limitations set forth in § 150.734, if a medical practitioner increases any price, except for a price charged under a contract with a Health Maintenance Organization, as defined in § 150.750, over the price lawfully in effect on the last day of the immediately preceding fiscal year, his revenue margin may not exceed his base period revenue margin during—

(1) that fiscal year, if the price is increased during the first fiscal quarter, or

(2) that fiscal year and the succeeding fiscal year, if the price is increased subsequent to the first fiscal quarter.

(b) If a medical practitioner has incorporated or has abandoned its corporate status during or subsequent to the base period, the medical practitioner shall determine its revenue margin and base period revenue margin under paragraph (a) of this section by excluding from operating expenses for each year of incorporation all amounts of salary and the amount of deferred compensation in excess of the amount permitted to be deferred under the self-employed retirement plan (the Keogh Plan), authorized by 26 U.S.C. 401, for any individual medical practitioner who is an owner-employee as defined at 26 U.S.C. 401(c)(3).

(c) If a medical practitioner is a professional partnership, the partnership shall determine its revenue margin and base period revenue margin under paragraph (a) of this section by excluding from operating expenses any salaries paid to employees who are medical practitioners. For purposes of this paragraph employees who are medical practitioners shall include only those earning more than 50 percent of their medical practice income from the partnership.

§ 150.736 New services or property.

(a) The price for a new service or property or for a service or property being provided in a new market shall be determined as follows:

(1) The price of the service or property shall be the customary price charged by a substantial number of other comparable medical practitioners or medical laboratories providing a comparable health care service or property in the same marketing area; or

(2) If comparable health care services or property are not provided by other comparable medical practitioners or medical laboratories, then the medical practitioner or medical laboratory may use any other pricing practice commonly used by other comparable medical practitioners or medical laboratories engaged in comparable medical practice in the same marketing area.

(b) A medical practitioner or medical laboratory may use the special pricing rules of this section at any time within twelve months after the service or property described in paragraph (a) was first made available to patients. A medical practitioner or medical laboratory may not raise its charges for such a service or property when more than twelve months have elapsed since the service or property was first made available to patients.

(c) The Council may modify, defer, suspend or disapprove any charges implemented pursuant to this section if the Council finds that such charges are inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 150.737 Group practice.

(a) The price with respect to the furnishing of a service or property when one medical practitioner joins or forms a group with another medical practitioner or practitioners shall be—

(1) The price previously in effect for each of the medical practitioners; or

(2) The highest price at or above which all medical practitioners to be in the group charged for the service or property in at least 25 percent of their transactions within the same market with the same class of purchasers during the immediately preceding calendar year.

(b) The revenue margin and base period revenue margin, when one medical practitioner joins or forms a group with another medical practitioner or practitioners, shall be combined and reconciled consistent with generally accepted accounting principles.

§ 150.738 Price schedules.

Each medical practitioner and medical laboratory shall maintain at each facility a schedule showing the customary prices in effect on December 31, 1973, for each class of purchasers for services or property which comprise 90 percent of aggregate annual revenues, each subsequent change (if any) in the price of these services or property, and the date the change of price was made. If price increases are computed on an aggregate weighted basis under § 150.734(d) (1) or (3), the weights for each service or property or group of related services or property whose prices are increased shall also be shown on the schedule. The schedule shall be made available for public inspection, and a copy shall promptly be furnished or mailed to any third party payor or Cost of Living Council representative upon request. Each practitioner and medical laboratory shall post a conspicuous and easily readable sign in each facility stating the availability and location of the schedule. No price increase may be implemented before the increase has been entered on the schedule as required by this section.

§ 150.739 Exceptions.

(a) Unless a medical practitioner or medical laboratory has requested and received an exception from the Cost of Living Council for the purpose of preventing or correcting a serious hardship or gross inequity, the medical practitioner or medical laboratory shall not implement a price increase in excess of the limitations set forth in these sections and the medical practitioner shall not exceed the revenue margin limitation set forth in § 150.735. Subject to the general requirements relating to exceptions imposed by Part 155 of this chapter, the Council shall consider all relevant factors in reviewing an exception request such as:

(1) For the revenue margin limitation—

(i) whether the base period is substantially unrepresentative of the petitioner's current practice;

(ii) whether a demonstrably significant increase in the amount of medical care has been delivered (including as one measurement, the additional total hours worked); or

(iii) whether effective cost containment initiatives have been undertaken by the medical practitioner.

(2) For the price increase limitations—

(i) whether the prices lawfully in effect prior to the effective date of these

V 39 160 MAR 27 74 XUM

regulations are substantially unrepresentative of the petitioner's current practice;

(ii) whether a significant imbalance exists between the costs and a price charged for a specific service or property;

(iii) whether the medical practitioner is contemplating a move to an underserved area where medical care is badly needed.

(b) In the absence of the factors enumerated in paragraph (a)(2) of this section, it shall be presumed that the petitioner's revenue margin must not be increasing before factors such as the following are considered for an exception request for the price increase limitations:

(1) Substantial government mandated cost increases;

(2) Cost increases related to substantial and significant improvements in the quality of service or property already provided;

(3) Current operating revenues inadequate to meet current operating expenses;

(4) Significant change in amount of bad debts; or

(5) Increased expenses incurred by reason of wage and salary increases that are exempt under the provisions of § 152.32 of this chapter, or below minimum wage rates imposed by Federal or State statutes of general application.

(c) Requests for exception submitted by a medical practitioner or medical laboratory may be considered to have been provisionally approved sixty days after the date of filing of the request with the Council. The Council shall inform the medical practitioner or medical laboratory promptly by written notice of the date of filing and the docket number of the request for exception. During the 60-day period, the Council may issue a suspense notice which shall have the effect of preventing the unexpired portion of the 60-day period from continuing to run if the documents submitted by the medical practitioner or medical laboratory are incomplete or erroneous. In any case in which the Cost of Living Council issues a suspense notice and requests additional or corrected information from the medical practitioner or medical laboratory, the 60-day period shall resume running only after the Council has informed the medical practitioner or medical laboratory that the information has been received and accepted. The price increases made under the authority of this section shall be applied only to services or property provided to patients by the medical practitioner or medical laboratory after the 60-day period has expired. If after implementation of an increase pursuant to the expiration of the 60-day period, the Council finds that the increase is inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program, it may issue an order modifying, deferring, suspending or disapproving the increase. In such an instance, if the exception request had been submitted in good faith, the medical practitioner or medical laboratory shall not be required to refund any monies received, or to reduce reimbursements otherwise allowable from the last day of the 60-day period through the date of the Council's determination of the request; nor shall the medical practitioner or medical laboratory be subject to any criminal fine or civil penalty on account of the increase implemented on the basis of provisional approval granted pursuant to the operation of this section.

§ 150.740 Prohibition.

No medical practitioner or medical laboratory subject to this subpart may adopt any change in charging practices, reduction in quality or quantity of services, or any other practice that has the effect of avoiding compliance with any provision of this title.

§ 150.741 Remedies for non-compliance.

(a) In accordance with Subpart E of Part 155 of this chapter, and in addition to any remedies provided therein, if the Council determines that either the revenue margin limitation contained in § 150.735 or the price increase limitations contained in § 150.734 have been exceeded, and no exception has been granted, the Council may order—

(1) the reduction of prices to compensate for the amount by which the limitations were exceeded; or

(2) the reduction of prices to assure that the medical practitioner is in compliance; or

(3) the refund of an aggregate amount equal to the amount by which the limitations were exceeded (the amount to be refunded or credited to an account shall be allocated on a pro rata basis); or

(4) any other action which is reasonable and appropriate to cause the remission of such excess prices; or

(5) any combination of actions under paragraphs (a) (1), (2), (3), or (4) of this section.

(b) If a medical practitioner has exceeded the revenue margin limitation under § 150.735 or a medical practitioner or medical laboratory has exceeded any price increase limitation under § 150.734, the medical practitioner or medical laboratory shall submit a plan for achieving compliance with these sections to the Office of Health, Cost of Living Council, 2000 M Street N.W., Washington, D.C. 20508. Such a compliance plan may provide for a reduction of prices, a stipulation of no price increases for a certain period of time, the refund of revenues, or any other action which is reasonable and appropriate to cause the remission of such excess prices, or a combination of any of the foregoing. The Cost of Living Council may approve such a plan, order certain changes, or order a different plan of its own design.

§ 150.742 Communications with the Cost of Living Council.

Medical practitioners and medical laboratories should address all notices and requests made to the Council under this subpart to the Office of Health, Cost of Living Council, 2000 M Street, N.W., Washington, D.C. 20508.

§ 150.743 Reporting procedures.

Medical practitioners and medical laboratories are encouraged to make their computations and monitor compliance with §§ 150.734 and 150.735 of this part on Form CLC–81. Each medical practitioner and medical laboratory shall file a completed Form CLC–81 with the Office of Health, Cost of Living Council, 2000 M Street, N.W., Washington, D.C. 20508 within 30 days of a request therefor by the Cost of Living Council. The completed Form CLC–81 must be signed by the medical practitioner, a designated partner, the chief executive officer, the administrator, or the chief financial officer, and submitted together with such additional data as the Council may request.

§ 150.744 Retention and availability of records.

(a) Each medical practitioner and medical laboratory subject to this subpart shall maintain such records as are sufficient to establish the compliance status of the practitioner or laboratory with respect to this title.

(b) Records required to be maintained under paragraph (a) of this section shall be made available for inspection at any time upon the request of an officer or employee of the Council or of any other person authorized to represent the Council.

(c) Each medical practitioner or medical laboratory required to maintain records under this section shall retain such records for at least 3 years after the last day of the fiscal year in which the transactions or other events recorded in such records occurred or the property was acquired by that practitioner or laboratory.

§ 150.745 Savings and severability.

(a) If this subpart is held invalid with respect to any medical practitioner or medical laboratory, Subpart O of this part in effect prior to the effective date of Subpart R shall govern the medical practitioner or medical laboratory.

(b) If any provision of §§ 150.730 through 150.745 applicable to medical practitioners and medical laboratories is held invalid, the other provisions of those sections shall remain in full force and effect.

Health Maintenance Organizations (HMOs) and Health Maintenance Organization Providers of Health Care

§ 150.748 Scope and applicability.

Effective January 1, 1974, §§ 150.748 through 150.764 apply to each Health Maintenance Organization (HMO) and each HMO provider of health care that is a medical practitioner or a medical laboratory. Sections 150.748 through 150.764 apply to each HMO provider of health care that is an acute care hospital or long term care institution beginning with the effective date of these rules for acute care hospitals and long term care institutions as established in §§ 150.701 and 150.769 of this subpart.

§ 150.749 Continued applicability of existing regulations.

Except as otherwise provided in § 150.748, each HMO provider of health care whose current fiscal year begins prior to January 1, 1974 is subject to Subpart O of this part in effect on December 31, 1973, until the completion of its current fiscal year.

§ 150.750 Definitions.

For purposes of this subpart and in addition to the definitions in § 150.31:

"Health maintenance organization" (HMO) means a private or public organization which provides, either directly or indirectly through arrangements with others, reasonably comprehensive health care services to HMO members primarily on a per capita pre-payment basis, and which requires that a medical practitioner or group of medical practitioners who are under contract with an HMO share in the financial risk for the provision of health care services, and that members served are broadly representative of the general population. If an HMO operates in more than one geographical region, then for the purposes of this definition, the HMO may elect to treat each region as a separate HMO.

"HMO member" means a person entitled to the provision of health care by virtue of a prepaid contract or for stipulated consideration with an HMO.

"HMO provider of health care" means:

(1) An acute care hospital which owns or operates an HMO or which is owned or operated by or is under contract to an HMO, and which derives at least 75 percent of its total inpatient operating charges from services rendered to HMO members;

(2) A medical practitioner or a medical laboratory which is under contract to an HMO and which derives at least 75 percent of its aggregate annual revenues from services rendered to HMO members; or

(3) A long term care institution which owns or operates an HMO or which is owned or operated by or under contract to an HMO and which derives at least 75 percent of its realized revenues from services rendered to HMO members.

"New HMO" means an HMO that has been providing health care pursuant to a contract for prepaid services for less than four years and has fewer than HMO 35,000 members at the end of the last completed fiscal year.

"Prenotifier" means an HMO that had more than 60,000 HMO members at any time during the calendar year preceding the effective date of a proposed rate increase.

"Rate" means a unit charge which produces a premium amount to be charged or paid for the providing of health care through an HMO, calculated in accordance with a ratemaking practice or formula, or developed under a classification system.

"Rate increase" means any increase in the premium or co-payments, a restriction in coverage, an increase in a deductible level, or any similar reduction in benefits to HMO members without a corresponding reduction in rates.

"State regulatory agency" means any commission, board or other legal instrumentality of the State or District of Columbia that has jurisdiction over rates or practices of HMOs in the State or the District of Columbia.

§ 150.751 Prior commitments.

(a) Except as provided in paragraph (b), all interpretations, and decisions or exceptions having prospective effect, issued under the Economic Stabilization Act prior to January 17, 1974, to Health Maintenance Organizations or HMO providers of health care covered under this subpart remain in force.

(b) This section shall not apply to any exception issued under Subpart O of this part authorizing a dollar increase to any HMO provider of health care that is subject to Subpart R of this part pursuant to § 150.701 or § 150.769.

(c) Each HMO provider of health care that is an acute care hospital may annualize the charge increases and charges for new services allowed and implemented under Subpart O of this part in effect on the last day of the hospital's last fiscal year under Subpart O of this part, for purposes of calculating the base on which allowances are authorized under this subpart.

(d) Each HMO provider of health care that is a medical practitioner or a medical laboratory may add to the first year's allowances authorized under this subpart no more than the unused portion of the maximum authorized allowable percentage price increase available on December 28, 1973, for the two control years under the noninstitutional providers of health services sections of Subpart O of this part. The maximum authorized allowable percentage price increase for purposes of this paragraph is 5 percent, computed on an aggregate weighted basis.

(e) For purposes of calculating the base on which allowances are authorized under this subpart, each HMO provider of health care that is a long term care institution may use the average per diem charges lawfully in effect for each class of purchasers and level of care on the last day of the institution's last fiscal year under Subpart O of this part and, for each class of purchasers and level of care for which the institution is paid under a cost reimbursement arrangement, the total authorized cost reimbursements expressed on a per diem basis determined for the institution's last fiscal year under Subpart O of this part.

§ 150.752 Criteria for rate increases.

(a) Except as provided in paragraphs (b) and (c) of this section, each rate increase put into effect by an HMO after December 31, 1973, which would increase the rate above the level in effect on that date, must be consistent with the following criteria:

(1) Actual costs may be used in the customary manner in the ratemaking process.

(2) Factors in the ratemaking process or in the actual determination of the final rate that relate to or reflect changes in claim frequency, occurrence or utilization, or similar changed conditions of risk may be used in accordance with customary practice provided such factors are supported statistically.

(3) Administrative expenses may be loaded on an actual cost basis, if statistically supported. If factors for administrative expenses are loaded as a percentage of the rate, they must be limited to a maximum of a 5 percent increase in the dollar amount represented by the loading.

(4) Any profit portion of the rate, whether loaded as a percentage of the rate or a dollar amount per contract, must be limited to a 2.5 percent increase in the dollar amount represented by the loading for the profit that was used in the prior rate. For purposes of this section, any portion of the rate which is classified as a contribution to reserve, contingency reserve or similar element where a profit as such is not a part of the ratemaking process, shall be treated as the profit provision.

(5) Factors in the ratemaking process anticipating costs or price increases may be used, if statistically supported, in accordance with the customary practice in the ratemaking process, subject to the following restrictions:

(i) For that portion of the factor that represents the provision of inpatient care in an acute care hospital, if the contract between the HMO and the acute care hospital is on a percentage of charge or fixed charge per admission basis, the increase is limited to 7.5 percent per admission per year; if the contract is on a per diem or charge basis, it shall be recomputed on a per admission basis and subject to the per admission contract limitation; if the contract is on a fixed dollar amount or per capita basis, the increase is limited to 9 percent per fixed dollar amount or per capita per year; or if the acute care hospital owns or operates an HMO or is owned or operated by the HMO, the increase is limited to 9 percent of its inpatient operating expenses per year.

(ii) For that portion of the factor that represents the provision of outpatient care in an acute care hospital or long term care institution, if the contract is on a charge per procedure basis, the increase is limited to 6 percent per procedure per year; or if the contract is on a fixed dollar amount or per capita basis, the increase is limited to 9 percent per year.

(iii) For that portion of the factor that represents the provision of health care by a medical practitioner or medical laboratory, if the contract is on a fee-for-service or a percentage of gross or net revenue basis, the increase is limited to 4 percent per charge per year; or if the contract is on a fixed dollar amount or per capita basis, the increase is limited to 6.2 percent per year. For purposes of the preceding sentence, a "charge" in a percentage of gross or net revenue contract is the amount determined by multiplying the percentage specified therein times the appropriate unit charge, i.e.,

V 39 160 MAR 27 74 XUM

gross or net revenue charge, of each service performed or product provided.

(iv) For that portion of the factor that represents the provision of inpatient care by a long term care institution, the increase is limited to 6.5 percent in average realized revenues per diem per year.

(b) Increases in charges by an HMO for services and property not covered by a rate are not subject to any limitations as long as the anticipated revenues from such sources are offset against the rate that otherwise would be permissible.

(c) A new HMO is not subject to the limitations set forth in this section.

§ 150.753 Change in ratemaking formula.

No HMO may change a ratemaking formula, procedure or technique, or other element in the ratemaking process unless—

(a) the change will not result in an overall rate increase; or

(b) the change is necessitated by legislation or regulation promulgated in a particular jurisdiction; or

(c) written approval has been granted by the Cost of Living Council.

§ 150.754 Prenotification.

Each prenotifier shall file a written notice on Form CLC–27 with the Cost of Living Council and the appropriate State regulatory agency of the State to which the rate increase is applicable or the State regulatory agency of the HMO's domicile when a rate increase is proposed for use in more than one State, of each proposed rate increase in excess of 5 percent which affects $500,000 or more of its annual revenues under the existing rate. Each HMO submitting a notice under this section shall certify to the Cost of Living Council and the State regulatory agency that the proposed rate increase conforms to the requirements of §§ 150.752 and 150.753. The certification must be signed by the chief executive officer of the prenotifier or by an individual to whom he has delegated that authority. A copy of the delegation must be filed with the Cost of Living Council.

§ 150.755 Certification by State regulatory agency.

A State regulatory agency may agree, in writing, with the Cost of Living Council to certify that the rate increases of which it has received prenotification under § 150.754 are or are not in compliance with §§ 150.752 and 150.753. Each agency entering into such agreement with the Cost of Living Council shall furnish its certification to the Council (with a copy to the HMO) within 20 days after it receives the notice. A certification by an agency under this section is prima facie evidence that the proposed rate increase is or is not in compliance with §§ 150.752 and 150.753.

§ 150.756 Self-certification.

Whenever a prenotifier cannot obtain a certification of a rate increase from a State regulatory agency in accordance with § 150.755 because:

(a) There is no State regulatory agency;

(b) The State regulatory agency concerned has not agreed to furnish certification under that section; or

(c) The State regulatory agency did not act upon the filing within the period required under § 150.755, the prenotifier shall immediately notify the Cost of Living Council that it cannot obtain the certification and may request the Council to act upon the certification filed with it under § 150.754.

§ 150.757 Federal employees health benefits law.

The Cost of Living Council designates the U.S. Civil Service Commission to act as certifying agent for contracts of HMOs under the Federal Employees Health Benefits Law (5 U.S.C., Chapter 89). Each prenotifier that proposes to increase rates under a Federal Employees Health Benefits contract by more than 5 percent shall file notice thereof with the Cost of Living Council and the Civil Service Commission. The Civil Service Commission shall, with respect to each such proposed increase, certify to the Cost of Living Council that the increase is or is not in compliance with § 150.752 and that certification is prima facie evidence of compliance or noncompliance. A rate certified by the Civil Service Commission as being in compliance may go into effect on any date, specified by that Commission, that is at least 10 days after the date of the certification, and at least 30 days after the date of prenotification.

§ 150.758 Cost of Living Council actions.

(a) With respect to any rate increase certified by a State regulatory agency under § 150.755, or self-certified by a prenotifier, the Cost of Living Council may, within 30 days after the State regulatory agency received the prenotification, or within 30 days after the Cost of Living Council receives the prenotification under § 150.754, take one or more of the following actions:

(1) Require the HMO to furnish additional information regarding the increase.

(2) Delay the effective date of the increase pending further Council action.

(3) Suspend all or part of the effect of the increase, pending further action by the Cost of Living Council or by the State regulatory agency.

(4) Limit, refuse, rescind, reduce, or modify the increase.

(b) If the Cost of Living Council does not act upon a request under this section before the end of the thirtieth day as described above, the increase may go into effect. However, in any case in which that period would otherwise end on a Saturday, Sunday, or Federal holiday, it will end at the close of the next succeeding workday. However, if after implementation of the rate increase the Council finds that the increase is inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program, it may issue an order modifying, deferring, suspending or disapproving the rate increase. A rate increase prenotified to a State regulatory agency which has been certified by that agency as being not in compliance with §§ 150.752 and 150.753 may not be placed into effect unless the written approval of the Cost of Living Council has been granted.

§ 150.759 HMO rates subject to State laws.

Approval of an HMO rate increase or rating formula under these sections does not authorize the use of a rate or formula in contravention of any applicable State law.

§ 150.760 Reporting.

Each HMO shall file an annual report on Form CLC–27 with the Cost of Living Council with a copy to the appropriate State regulatory agency at the time it normally releases its annual reports, but in any event no later than 120 days after the end of the fiscal year. This report must be signed by the chief executive officer of the HMO or by an individual to whom he has delegated that authority. A copy of the delegation must be filed with the Cost of Living Council.

§ 150.761 HMO providers of health care.

(a) An HMO provider of health care that is an acute care hospital is limited to—

(1) In the provision of outpatient care—

(i) An increase of 6 percent per year in its charges, computed on an aggregate weighted basis, if the contract between the HMO and the acute care hospital is on a charge per procedure basis; or

(ii) An increase in its charges of 9 percent per year, if the contract is on a fixed dollar amount or on a per capita basis.

(2) In the provision of inpatient care—

(i) An increase in its charges of 7.5 percent per admission per year, if the contract is on a percentage of charge or fixed charge per admission basis. Any contract on a per diem or charge basis shall be recomputed to a per admission basis and is subject to the per admissions limitation; or

(ii) An increase in its charges of 9 percent per capita per year, if the contract is on a per capita basis; or

(iii) An increase in its inpatient operating expenses of 9 percent per capita per year if that acute care hospital owns or operates the HMO or is owned or operated by the HMO.

(b) An HMO provider of health care that is a medical practitioner or a medical laboratory is limited to:

(1) An increase in its charges of 6.2 percent per year if remuneration under the contract is on a fixed dollar amount or on a per capita basis; or

(2) An increase of 4 percent per year in its prices, computed on an aggregate weighted basis using the preceding calendar year's billings, for all services and property, if the contract between the HMO and the practitioner or laboratory is on a fee-for-service or percentage of gross or net revenue basis. For purposes of the preceding sentence, a "price" in a percentage of gross or net revenue contract is the amount determined by multiplying the percentage

specified therein times the appropriate unit price, i.e., gross or net revenue price, of each service performed or product provided.

(c) An HMO provider of health care that is a long term care institution is limited to:

(1) In the provision of outpatient care—

(i) An increase of 6 percent per year in its charges, computed on an aggregate weighted basis, if the contract between the HMO and the long term institution is on a charge per procedure basis; or

(ii) An increase in its charges of 9 percent per year, if the contract is on a fixed dollar amount or on a per capita basis.

(2) In the provision of inpatient care, an increase of 6.5 percent per year in its average realized revenues per diem.

(d) Increases in charges by an HMO provider of health care for services and property not paid for by an HMO are not subject to any limitations as long as the anticipated revenues from such sources are offset against the limitations of paragraphs (a), (b), and (c) of this section.

(e) An HMO provider of health care is also subject to the provisions of §§ 150.709, 150.713, 150.714(c), 150.736, 150.778, 150.781, and 150.782(c) of this subpart relating to acute care hospitals, medical practitioners and medical laboratories, and long term care institutions, as appropriate.

(f) An HMO provider of health care is excluded from the limitations of paragraphs (a), (b), and (c) of this section if it is providing health care to a new HMO.

§ 150.762 Prohibition.

No Health Maintenance Organization or HMO provider of health care subject to this subpart may adopt any change in charging practices, reduction in quality or quantity of services, or any other practice that has the effect of avoiding compliance with any provision of this title.

§ 150.763 Retention and availability of records.

(a) Each Health Maintenance Organization and HMO provider of health care subject to this subpart shall maintain such records as are sufficient to establish the compliance status of the HMO or HMO provider of health care with respect to this title.

(b) Records required to be maintained under paragraph (a) of this section shall be made available for inspection at any time upon the request of an officer or employee of the Council or of any other person authorized to represent the Council.

(c) Each HMO and HMO provider of health care required to maintain records under this section shall retain such records for at least 3 years after the last day of the fiscal year in which the transactions or other events recorded in such records occurred or the property was acquired by the HMO.

§ 150.764 Savings and severability.

(a) If this subpart is held invalid with respect to any HMO or HMO provider of health care, Subpart M or Subpart O of this part in effect on December 31, 1973 shall govern the HMO or HMO provider of health care.

(b) If any provision of §§ 150.748 through 150.764 of this subpart applicable to HMOs and HMO providers of health care is held invalid, the other provisions of these sections shall remain in full force and effect.

LONG TERM CARE INSTITUTIONS

§ 150.769 Scope and applicability.

(a) Sections 150.769 through 150.788 apply to each long term care institution whose fiscal year commences on or after January 1, 1974. However, any long term care institution may make an irrevocable election:

(1) To be governed by this subpart if its current fiscal year commenced on or after August 15, 1973, but before January 1, 1974; or

(2) To be governed by Subpart O of this part in effect on December 31, 1973, if its fiscal year commences on or after January 1, 1974, but before April 1, 1974. In no event may a long term care institution elect to be governed by Subpart O if its fiscal year commences on or after April 1, 1974.

(b) No election made under paragraph (a) (1) or (2) of this section by any long term care institution is valid unless the institution files with or mails to the Cost of Living Council written notice of its specific election. The written notice must be filed with the Council not later than April 1, 1974, or mailed to the Council by certified or registered mail (return receipt requested) postmarked no later than April 1, 1974. No notice is required if the long term care institution does not make an election referred to in paragraph (a) (1) or (2) of this section.

(c) Notwithstanding paragraph (a) of this section, a long term care institution which is owned or operated by or under contract to a Health Maintenance Organization and which derives at least 75 percent of its gross inpatient operating revenues from services rendered to enrolled participants, is subject to this section and to §§ 150.748 through 150.764 governing Health Maintenance Organizations.

(d) To the extent that §§ 150.769 through 150.788 of this subpart may conflict with other provisions of this part, §§ 150.769 through 150.788 shall prevail.

§ 150.770 Continued applicability of existing regulations.

Except as otherwise provided in § 150.769, each long term care institution whose current fiscal year begins prior to January 1, 1974, is subject until the completion of its current fiscal year to Subpart O of this part in effect on December 31, 1973.

§ 150.771 Definitions.

For purposes of this subpart and in addition to the definitions in § 150.31:

"Average realized revenues per diem" means the realized revenues for each long term care institution's class of purchasers for each level of care divided by the number of patient days of care provided for the same level of care for the same class of purchasers. However, the number of patient days for which revenues were not realized may be excluded in determining the average realized revenues per diem.

"Capital expenditure" means an expenditure defined as a capital expenditure in 42 CFR 100.103(a) of the regulations implementing section 1122 of the Social Security Act as added by section 221(a) of the Social Security Amendments of 1972 (Pub. L. 92–603, 86 Stat. 1386–89 (42 U.S.C. 1320a–1)).

"Design development" means the documentation which describes the size and character of the construction project, including:

(1) The site plan indicating the nature of the improvements such as topography, utilities, and streets;

(2) Plans, elevations and sections required to describe the project with respect to structural, mechanical and electrical systems;

(3) Schedules and lists required to identify all fixed equipment with respect to character, size, function and finishes of interior spaces; and

(4) A general description of the types and requirements of the materials to be used.

"Levels of care" means the following:

(1) For Medicare patients—skilled nursing care and hospital care.

(2) For Medicaid patients—those categorizations of care specified by each State Title XIX (42 USC 1395aa) agency for reimbursement purposes.

(3) For all other patients—existing classifications of levels of care for patients, specifically identified in the accounting practices of the institution during the preceding fiscal year, including acute care.

"Long term care institution" means:

(1) A licensed hospital that is not an acute care hospital as defined in § 150.703.

(2) An institution that is certified for participation in Medicare as a skilled nursing facility.

(3) An institution that participates in Medicaid as a skilled nursing facility or intermediate care facility.

(4) Any other skilled nursing or intermediate care facility.

(5) The distinct unit of an acute care hospital, for which the hospital maintains separate financial accounts, that provides health care services similar to these specified in items (1) through (4).

For the purposes of this definition, if any housing for the elderly includes as part of its facility a distinct part licensed or certified for the provision of skilled nursing or intermediate care, only such distinct part is included in this definition. As used herein, "housing for the elderly" includes purely residential shelter, and personal and sheltered care institutions that provide health related services as part of a general program of supervision and personal care to residents not in need of substantial, continuous nursing services or medical care. The availability of 24-hour nursing service does not preclude the inclusion of an institution in the definition of "housing for the eld-

V 39 160 MAR 27 74 XUM

erly", unless the primary purpose of the institution, or of a distinct part of the institution, is to provide nursing care on a continuous basis.

"New facility" means a long term care institution which:

(1) Commences operation for the first time, or which has not operated for at least one year prior to its current date of operation; or

(2) Has undergone physical replacement; or

(3) Has undergone major renovation, remodeling or expansion that costs a dollar amount equal to 70 percent of the book value (net of accumulated depreciation) of the property, plant and equipment in service at the end of the fiscal year in which the institution was committed to construction by prior authorization of the institution's governing board, or $100,000, whichever is greater, and which

(i) Receives a "new facility" determination in response to a request filed with the Council prior to March 20, 1974, under Cost of Living Council Notice 73–2 (38 FR 30798); or

(ii) Receives approval from the State planning agency or the Council in response to a request filed on or after January 1, 1974, and prior to March 20, 1974, for approval of a capital expenditure pursuant to § 150.781 or § 150.782 (c); or

(iii) Has undertaken a capital expenditure that meets the requirements of § 150.781(a)(2).

For purposes of this definition, the mere acquisition of an institution or of the person that controls the institution by another person does not result in the creation of a new facility.

"New level of care" means a new separate category of services recognized by third party payors or approved by the Cost of Living Council. For purposes of this definition, the new category of services must entail distinct costs which are significantly different from the costs associated with the levels of care previously provided. The new level of care must furnish significantly different kinds or intensity of services from those already prevailing within the institution.

"New service or property" means a service or property which the long term care institution did not sell or lease in the same or substantially similar form at any time during the one-year period immediately preceding the first date on which it is offered for sale or lease. For the purposes of the definition, a change in appearance, or arrangement, or a change in the method or technology of providing a service, does not create a new service or property.

"Realized revenues" means:

(1) For institutions on a cash basis of accounting, the total cash received for patient services. Revenue adjustments from retroactive cost reimbursement settlements shall be considered in the fiscal year received unless other treatment is consistent with generally accepted accounting principles; and

(2) For institutions on an accrual basis of accounting, the total charges less discounts, contractual allowances, bad debts, and charity allowances accrued for patient services rendered during the same fiscal year. Revenue adjustments from retroactive cost reimbursement settlements that were not accrued in the prior period shall be considered in the fiscal year received unless other treatment is consistent with generally accepted accounting principles.

§ 150.772 Prior commitments.

(a) Except as provided in paragraph (b) of this section, all interpretations, and decisions or exceptions having prospective effect, issued under the Economic Stabilization Act prior to January 17, 1974, to long term care institutions covered under this subpart remain in force.

(b) This section shall not apply to any exception issued under Subpart O of this part authorizing a dollar increase to any institution that is subject to Subpart R pursuant to § 150.769.

(c) For purposes of calculating the base on which allowances are authorized under this subpart, each long term care institution may use the average per diem charges lawfully in effect for each class of purchasers and level of care on the last day of the institution's last fiscal year under Subpart O and, for each class of purchasers and level of care for which the institution is paid under a cost reimbursement arrangement, the total authorized cost reimbursements expressed on a per diem basis determined for the institution's last fiscal year under Subpart O.

§ 150.773 Limitations on average realized revenues per diem.

A long term care institution's average realized revenues per diem by level of care for each class of purchasers during any fiscal year may not be more than 106.5 percent of its average realized revenues per diem by level of care for each class of purchasers during the preceding fiscal year.

§ 150.774 Application of limitations.

For purposes of § 150.773—

(a) In determining the levels of care provided and the amount of average realized revenues, an institution shall follow generally accepted accounting principles consistently applied. However, no institution shall change the criteria used during the preceding fiscal year for determining the respective levels of care for its patients.

(b) The unused portion of authorized revenue increases permitted for any level of care of any class of purchasers in any fiscal year may not be applied in that year to any other level of care of any class of purchasers.

(c) The unused portion of authorized revenue increases permitted in one year but not fully implemented may be implemented only in the fiscal year following the year in which the full allowable increase was not implemented and only for the level of care of the class of purchasers to which the increase applied. The unused portion of authorized revenue increases may not be compounded.

§ 150.775 Limitation on charge increases for outpatient services.

(a) Each long term care institution shall control its charges for outpatient services on the basis of either a unit charge system or an aggregate weighted charge system.

(1) If the institution elects the unit charge system, it may not increase its charges for any outpatient service beyond 106 percent of the charge lawfully in effect for that service on the last day of the preceding fiscal year.

(2) If the institution elects the aggregate weighted charge system:

(i) the aggregate weighted charges for all of its outpatient services may not exceed 106 percent of the aggregate weighted charges for all such services lawfully in effect during the preceding fiscal year; and

(ii) the charge for any outpatient service may not be more than 110 percent of the charge lawfully in effect for that service on the last day of the preceding fiscal year (however, this paragraph does not require that charge increases be limited to amounts less than $1.00).

(iii) the formula for determining charge increases computed on an aggregate weighted basis under this paragraph (a)(2), herein referred to as %AWCI, is as follows:

$$\%AWCI = \Sigma \frac{C_2 - C_1}{C_1} \times \frac{B_1}{B_2} \times 100$$

where,

C_1 = the charge lawfully in effect on the last day of the immediately preceding fiscal year for a service or property.
C_2 = the highest charge made or to be made during the current fiscal year for that service or property.
B_1 = the actual gross charges during the immediately preceding fiscal year for that service or property.
B_2 = the total gross charges during the immediately preceding fiscal year for all outpatient services and property subject to the limitations of this section.
Σ = the sum of.

(3) At the option of a long term care institution, the formula for determining %AWCI in paragraph (a)(2) of this section may be restated as follows:

$$\%\ AWCI = \Sigma\ \%\ I \times \frac{G_1}{B_2}$$

where,

%I = the highest percentage charge increase for any service or property within a group of similar or related services or property.
G_1 = the actual gross charges during the immediately preceding fiscal year for that group of similar or related services and property.

(4) If the charges in effect on the last day of the preceding fiscal year had been temporarily lowered to effect a restitution of overcharges to assure compliance by the end of that year, then such charges may be adjusted to the legally authorized level.

(b) The unused portion of authorized charge increases permitted in one year but not fully implemented may be implemented only in the fiscal year following the year in which the full allowable increase was not taken. The unused portion of authorized charge increases may not be compounded.

§ 150.776 Medicaid reimbursement rates.

(a) If a State agency responsible for administering the Medicaid program within that State decides to raise its State or a regional level of Medicaid reimbursement by more than 6.5 percent over the preceding fiscal year rate for any level of care and to obtain an exception to the limitations of § 150.773 with respect thereto for each long term care institution participating in Medicaid reimbursement within that region or State, the State shall demonstrate and certify to the Council the following with respect to that Medicaid reimbursement rate increase:

(1) The former rate, the date it was established, the new rate, the percentage increase, and the proposed effective date of the new rate;

(2) That the increase is cost related, as demonstated by a reliable and valid statistical sample;

(3) That the increase is necessary to implement and maintain the standards of service required by Federal or State regulations, or both; and

(4) That the increase, in the opinion of the agency, is not inflationary within the meaning of the Economic Stabilization Program guidelines.

(b) Within 30 days after receipt of the State agency's certification, the Council may take one or more of the following actions:

(1) Require the State agency to furnish additional information regarding the rate increase.

(2) Suspend the 30-day period for Council action.

(3) Issue the State agency a certificate of compliance.

(4) Refuse to issue the State agency a certificate of compliance.

(c) If the Council issues a certificate of compliance to a State agency or fails to take any action within the 30-day period specified in paragraph (b) of this section, then long term care institutions participating in Medicaid reimbursement within that region or State shall not be subject to the limitations contained in § 150.773 with respect to their average realized revenues per diem derived from levels of care covered by the State agency's certification.

(d) If the Council refuses to issue a certificate of compliance to a State agency, then long term care institutions in that region or State shall remain subject to all the limitations contained in § 150.773. Where a refusal to issue a certificate of compliance occurs after expiration of the 30-day period, the Council may issue an order modifying, deferring, suspending, or disapproving any increases already implemented by those long term care institutions.

§ 150.777 Patient's personal funds.

When a long term care institution provides services or property which are paid for from the personal funds of patients, the institution shall increase the price to the patient of a service or property only on a dollar-for-dollar basis for those net cost increases that have been incurred with respect to that service or property. In addition, a long term care institution shall not charge to a Medicaid patient's personal account any services or property that have been or are normally paid for from other sources.

§ 150.778 Special pricing rules.

(a) The methods of establishing prices for services or property set forth in this section may be used only after a long term care institution has been authorized to use these provisions pursuant to other sections of this subpart.

(b) In the case of a new level of care, a new outpatient service or property, or a new facility resulting from a capital expenditure which meets the requirements of § 150.781 or § 150.782(c), the prices for services or property may be determined by either of the following methods, without regard to the limitations prescribed in §§ 150.773 and 150.775:

(1) The price for the service or property or level of care shall not be unreasonably inconsistent with the prevailing prices charged in a substantial number of current transactions for a similar service or property by a substantial number of other long term care institutions providing health care services and properties. The prices so determined may reflect an incremental charge for interest and depreciation costs.

(2) The long term care institution shall establish its prices by using any pricing practice commonly used by a substantial number of long term care institutions. The prices so determined may reflect an incremental charge for interest and depreciation costs.

(c) New prices authorized pursuant to this section shall become effective no earlier than the first day on which the services or property shall be made available to patients. However, if the request for approval under § 150.781 or the request for exception under § 150.782(c) has not been filed before the close of the fiscal year in which the service or property was made available to patients, then the new prices shall become effective no earlier than the first day of the fiscal year in which the request was filed.

(d) A long term care institution may use the special pricing rules of this section at any time within, but not later than, twelve months after the service or property described in paragraph (b) of this section was first made available to patients.

(e) In the case of a capital expenditure approved pursuant to § 150.781 or § 150.782(c) which does not result in a new level of care or a new facility, the prices for services or property shall be determined as follows: For each fiscal year in which the project resulting from the capital expenditure is being constructed or otherwise introduced, and during the first full fiscal year of operation, the long term care institution shall establish prices sufficient to produce a level of revenues for the services and property which has been approved by the agency described in § 150.781(c) or by the Council. The institution shall calculate the total amount of allowable realized revenues per diem by level of care for each class of purchasers for each fiscal year prior to the second full fiscal year of operation. The approved level of revenues shall be added to the base authorized by §§ 150.773 and 150.774.

(f) The revenues derived from the provision of new levels of care and from the provision of services or property by a new facility shall be subject to the limitations contained in § 150.773 during the second full fiscal year such levels of care or services or property were provided, and subsequent fiscal years. For an outpatient service or property which is provided in a new facility, a long term care institution shall be subject to the unit charge limitation of § 150.775(a)(1) in the first full fiscal year after the service or property was first made available to patients; thereafter, the institution may elect as provided in § 150.775(a).

(g) The Council may modify, defer, suspend or disapprove any prices implemented pursuant to this section if the Council finds that such prices are inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program.

§ 150.779 Price schedules.

Each long term care institution shall maintain at each of its facilities a schedule showing its prices for all services on the last day of the preceding fiscal year, and each subsequent change in such a price and the date such change was made. The schedule shall be made available for public inspection, and a copy shall be furnished or mailed promptly to third party payors or to the Cost of Living Council upon request. Each institution shall either post a conspicuous and easily readable sign in each of its facilities stating the availability and location of the schedule or affix a legend to all billing statements stating the availability and location of the schedule. No price increase may be implemented before the increase has been entered on the schedule as required by this section.

§ 150.780 Reporting procedures.

(a) Within 120 days after the end of each fiscal year, each long term care institution shall file a completed Form CLC–71 signed by the chief executive officer, the administrator or the chief financial officer with the Office of Health, Cost of Living Council, 2000 M Street, N.W., Washington, D.C. 20508. Each long term care institution shall, upon request, furnish a copy of the completed Form CLC–71 to third party payors.

(b) Each long term care institution which, pursuant to § 150.781(a)(2), is authorized to establish new charges for services or property resulting from a capital expenditure and to adjust its charges and expenses, is required to file the following information with its annual report for each year prior to the second full fiscal year after the service or property was first made available to patients:

(1) Statement of incurred expenses attributable to the operating expenses

V 39 160 MAR 27 74 XUM

directly related to the capital expenditure, including interest and derpreciation;

(2) Statement of the method of application of § 150.778 to establish new charges for services and property to obtain the projected level of revenues required to finance the operating expenses directly related to the capital expenditure, including interest and depreciation.

§ 150.781 Approval of capital expenditures by a State's planning agency.

(a) (1) Except as provided in paragraph (a) (2) of this section, when a long term care institution has obtained the approval of a State planning agency for a capital expenditure in accordance with the provisions of this section, the institution may, in accordance with § 150.778, establish new charges for the services or property resulting from the capital expenditure which are necessary to produce, but not to exceed, the level of revenues approved by the agency.

(2) A long term care institution shall not be subject to paragraphs (b) through (e) of this section or to § 150.782(c) and may establish new charges for the services or property furnished to patients as a result of the capital expenditure in accordance with the applicable provisions of § 150.778 when the following occurrences have taken place prior to January 1, 1974:

(i) the capital expenditure was approved on its merits on the basis of community need by a planning agency listed in paragraph (b) of this section; however, this requirement shall not apply where State approval procedures described in paragraph (b) of this section were neither required nor available to a long term care institution; and

(ii) (A) With respect to a capital expenditure involving construction, the design development for the capital expenditure was completed and approved by the governing board of the institution; or

(B) With respect to a capital expenditure which does not involve construction, the institution was committed to the capital expenditure by authorization of the institution's governing board and one or more implementing financial obligations were contractually incurred in reliance on the authorization.

The provisions of this paragraph (a) (2) are self-executing. No written determination or ruling of the Council is required to authorize a long term care institution to apply the special pricing rules of § 150.778 if the institution meets the criteria set forth in this paragraph. If the Council determines upon subsequent review that the conditions of this paragraph have not been satisfied, it may disapprove any charges implemented pursuant to § 150.778 or take such other action as may be appropriate to ensure compliance with the rules of this subpart.

(b) A capital expenditure under consideration by a long term care institution must be approved on the merits, based upon a clear demonstration of community need, by the appropriate planning agency specified in this paragraph. The long term care institution must request approval from the planning agency designated pursuant to section 1122 of the Social Security Act (Pub. L. 92–603, 86 Stat. 1386–89 (42 U.S.C. 1320a–1)). If a State is not participating in the program under section 1122, then the approval must be obtained from the State agency administering a certificate of need program for long term care institutions. If a State is not participating in a program under section 1122 and has no State agency administering a certificate of need program, then the approval must be obtained from an agency designated under section 314(b) of the Public Health Service Act (Pub. L. 92–585, 86 Stat. 1292 (42 U.S.C. 246(b)); otherwise, approval must be obtained from a State agency designated pursuant to section 314(a) of the Public Health Service Act (Pub. L. 92–585, 86 Stat. 1292 (42 U.S.C. 246(a)).

(c) Approval of a level of revenues that is not unreasonable to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, for the first full fiscal year of operation must be obtained from either the same agency which granted an approval under paragraph (b) of this section or another agency (such as a rate-setting commission or long term care commission) designated by the governor of the State or the mayor of the District of Columbia to perform this specific function. If a State is participating in the program under section 1122, the agency that performs the function specified in this paragraph must be the agency designated pursuant to section 1122. The agency that performs the function specified in this paragraph shall be referred to as the "State approving agency." Prior to the State approving agency taking any action to approve a level of revenues in accordance with this section the Council and the State agency shall have first agreed in writing for the State agency to approve capital expenditures pursuant to this section. For purposes of this paragraph, the first full fiscal year of operation means the first full fiscal year after the inauguration of all services and property resulting from the capital expenditure.

(d) Within sixty (60) days after the date of an approval by the State approving agency, the chief executive officer of the long term care institution shall notify the Council of such approval by sending a copy of the written decision to the Council, together a written statement signed by the chairman of the governing board of the institution certifying that funds legally available from restricted reserves have or will be applied to the capital expenditure or its directly related operating expenses in accordance with the approval.

(e) If after the original agency approval it appears that the authorized level of revenues will not reach the level required to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, the institution may file with the State approving agency a request in writing to allow the institution to achieve a level of revenues in excess of the level originally authorized. A request under this paragraph shall be considered on the same basis as an original request under paragraph (c) of this section, except that in addition, the institution shall submit sufficient documentation to enable the State approving agency to evaluate changes in financial conditions that have occurred since the original approval under paragraph (c) of this section was granted, or other relevant circumstances which significantly alter the assumptions upon which the earlier approval was based. The notification provisions of paragraph (d) of this section shall apply to approvals under this paragraph.

§ 150.782 Exceptions.

(a) No long term care institution may exceed the limitations set forth in §§ 150.773, 150.775 and 150.777 except as may be authorized pursuant to this subpart. Each long term care institution shall, in addition to meeting the specific requirements of this section, prepare any request for exception to be filed with the Council in conformity with the general provisions relating to exceptions prescribed in Part 155 of this title and shall obtain the recommendation of the State advisory agency referred to in § 150.783 on the request for exception. The State advisory agency shall forward the institution's request for exception, together with its recommendation, directly to the Council. The requirement for the recommendation shall not apply if the State advisory agency fails to act within thirty (30) days (and the institution may then file its request directly with the Council) unless the agency shall have requested corrected or additional information in which case the thirty (30) day period shall be suspended from the date of the request until the agency informs the institution that the information has been received. The 30 day period shall then resume running.

(b) Requests for exception filed under this section by a long term care institution are considered to be provisionally approved 60 days after the date of filing of the request with the Council. The Council shall inform the long term care institution promptly by written notice of the date of filing and the docket number of the request for exception. During the 60-day period, the Council may issue a suspense notice which shall have the effect of preventing the unexpired portion of the 60-day period from continuing to run, if the documents submitted by the institution are incomplete, erroneous or do not meet the criteria set forth in this section. In any case in which the Cost of Living Council issues a suspense notice and requests additional or corrected information from the institution, the 60-day period shall resume running only after the Council has informed the institution that the information has been received and accepted. The price increases authorized by this section shall be applied only to services or property provided to patients by the institution after the 60-day period has expired. If after implementation of an increase following the expiration of the 60-day period, the Council finds that the increase is inconsistent with the rules of this subpart or unreasonably inconsistent with the goals of the Economic Stabilization Program, it may issue an order modifying, deferring, suspending or disapproving the increase. In such an instance, if the exception request had been submitted in good faith, the long term care institution shall not be required to refund any monies received, or to reduce reimbursements otherwise allowable from the date of expiration of the 60-day period until the Council's determination of the request or be subject to any criminal fine or civil penalty on account of the increase implemented on the basis of the provisional approval of this section.

(c) (1) If the State approval procedures referred to in § 150.781 are not or were not available to a long term care institution, the institution may request from the Council an exception to establish, in accordance with § 150.778, new prices for services or property resulting from a capital expenditure which are necessary to produce, but not to exceed, the level of revenues approved by the Council pursuant to this paragraph. The request for exception must be accompanied by supporting documentation, indicating the reason why the approval procedures are or were not available, and permitting the Council to evaluate the following:

(i) Whether there exists a community need for the proposed project adequate to assure financial support without causing localized shortages of labor or serious long term care market disruptions susceptible of requiring other exceptions by the Council;

(ii) Whether the project will foster cost containment initiatives or improved efficiency and productivity in the long term care institution;

(iii) All expenses attributable to the operating expenses directly related to the capital expenditure, including interest and depreciation, calculated without regard to the annual allowances authorized by this subpart;

(iv) The level of patient service revenues required to finance the proposed project for the first full fiscal year of operation, considering funds legally available from restricted reserves for both capital expenditures and operating expenses; and

(v) The charge and cost reimbursement level expressed in terms of average realized revenues per diem which the institution would propose to establish to produce the requested level of revenues.

(2) Each request shall be signed by the chief executive officer of the institution and shall be accompanied by a written statement signed by the chairman of the governing board of the institution certifying that funds legally available from restricted reserves have been or will be applied to the operating expenses directly related to the capital expenditure, including interest and depreciation, as stated in the request for exception.

(3) If after the original Council approval it appears that the authorized level of revenues will not reach the level required to finance the operating expenses directly related to the capital expenditure, including interest and depreciation, the institution may file with the Council a request in writing to allow the institution to achieve a level of revenues in excess of the level originally authorized. Such requests shall be considered on the same basis as an original request under this paragraph, except that in addition, the institution shall submit sufficient documentation to enable the Council to evaluate changes in financial conditions that have occurred since the approval under this paragraph was initially granted, or other relevant circumstances which significantly alter the assumptions upon which the earlier approval was based.

(d) A long term care institution may request an exception for experimentation in long term care reimbursement methodologies. The Council may grant a prospective exception to a single institution or to a group of institutions as members of a class, geographic or otherwise. The Council may consult with the Department of Health, Education, and Welfare prior to making its determination. Requests submitted pursuant to this paragraph need not be cost justified.

(e) (1) A long term care institution may request an exception as provided in this paragraph when a serious hardship or gross inequity has been caused by any of the following occurrences:

(i) A demonstrable increase in bad debts experience that causes the institution's gross charges not to reflect accurately actual collections;

(ii) Increased expenses resulting from requirements imposed by law or government regulation; and

(iii) Increased expenses incurred by reason of wage and salary increases that are exempt under the provisions of § 152.32 of this chapter, or are below minimum wage rates imposed by Federal or State statutes of general application.

(2) Each request for an exception shall be evaluated on the basis of cost justification. In reviewing evidence of the cost justification submitted by the institution, the Council will also consider evidence of cost containment initiatives, prudent management practices and evidence of consistent application of accepted accounting principles demonstrated by the institution. As part of its evaluation, the Council will review the following financial factors:

(i) All allowable operating expenses, including depreciation, and special reserve accounts that are required to be replenished by reason of contractual agreement or consistent historical application of a governing board resolution;

(ii) Working capital needs; and

(iii) All revenues from patient services, and revenues from other operating activities.

(f) A long term care institution may request an exception for any reason causing a serious hardship or gross inequity. Each request submitted pursuant to this paragraph shall be evaluated on the basis of cost justification. In reviewing the cost justification submitted by the institution, the Council will also consider evidence of cost containment initiatives, prudent management practices and consistent application of accepted accounting principles demonstrated by the institution. As part of its evaluation, the Council will review the following financial factors:

(1) All allowable operating expenses, including depreciation, and special reserve accounts that are required to be replenished by reason of contractual agreement or consistent historical application of a governing board resolution;

(2) Working capital needs;

(3) All legally available funds, including revenues from patient services, revenues from other operating activities, and revenues from non-operating sources such as unrestricted gifts received during the fiscal year being reviewed or unrestricted income from unrestricted and restricted reserves;

(4) Changes in any prices or directly related operating expenses resulting from capital expenditures previously authorized under this subpart or resulting from services or property for which new prices have been authorized under Cost of Living Council Notice 73–2 (38 FR 30798) published on November 7, 1973; and

(5) Evidence of cost behavior that is unanticipated and significantly different from that on which the institution has budgeted.

§ 150.783 Advisory State actions and Federal Approving Officers.

(a) The governor of each State and the mayor of the District of Columbia are each requested to designate an agency to advise the Council on requests for exceptions to these regulations or on any other matters that the Council may from time to time specify. Each agency shall review the requests for exceptions filed with it under § 150.782(a) pursuant to the applicable guidelines set forth in this subpart and whenever it considers that the granting of an exception is essential to the provision of adequate health services and consistent with the Economic Stabilization Program shall recommend to the Administrator of the Office of Health, Cost of Living Council, or to an official appointed under paragraph (b) of this section, that an exception be granted by the Council.

(b) The Council may authorize and appoint an official who shall be a full time employee of the Federal Government to whom may be subsequently delegated the authority to issue initial decisions on requests for exceptions submitted under the provisions of § 150.782. Such official may, in his discretion, hear representatives of long term care institutions, and request and receive additional information. He shall consult with, and receive the advice and recommendations of, State advisory agencies with respect to the requests for exception. After having reviewed the record and considered the recommendation of the State advisory agency, and all applicable statu-

V 39 160 MAR 27 74 XUM

tory and regulatory criteria, he shall grant or deny the request for exception, in whole or in part, or shall forward the request to the Council, with or without a recommendation. He shall notify the requesting institution in writing of his decision. An institution aggrieved by an initial action under this paragraph may request reconsideration pursuant to Part 155 of this chapter.

§ 150.784 State control program.

(a) An agency designated by the governor of a State or mayor of the District of Columbia that has a long term care price control program may apply to the Cost of Living Council for authorization to administer the control program within the State or District of Columbia in lieu of the controls set forth in §§ 150.769 through 150.788 and administered by the Cost of Living Council. The State agency shall submit to the Cost of Living Council a comprehensive description of its proposed stabilization plan and of its existing or proposed rules for use by the agency in considering requests for price increases for the long term care institutions under its jurisdiction. The submission to the Council shall include an evaluation by the long term care institutions or associations of long term care institutions to be covered by the control program.

(b) The governor of a State or the mayor of the District of Columbia may designate an agency to coordinate a long term care price control program and assign to a nongovernmental organization the responsibility for administering the program.

(c) To qualify for authorization under this section, a control program must—

(1) Have as its objective the substantial limitation of the rising price of long term care, and there must be reasonable basis for determination that the objective can be met;

(2) Include rules and regulations that are fair and equitable;

(3) Contain adequate and assured funds for staffing, commencement of program and operations for a minimum of one year;

(4) Provide for participation in policy development by provider groups, long term care institutions and consumers;

(5) Be coextensive in coverage with the Economic Stabilization Program controls for long term care institutions, or it must be demonstrated that the State program will have substantial impact on long term care charges and expenses;

(6) Include objective standards by which to measure overall performance;

(7) Include uniform standards for measuring individual provider performance;

(8) Include procedures for consideration of requests for exception and for review of original decisions denying such requests;

(9) Include provisions to assure compliance (such provisions may provide for the agency to order refunds, rollbacks, or such other remedies that are reasonable and appropriate to achieve compliance); and

(10) Include a provision for price posting similar to that required in § 150.779.

(d) If the Cost of Living Council approves the proposed stabilization program and rules of an agency, it will notify the agency that when those proposed rules are finally adopted and put into effect by the agency, the Cost of Living Council will issue a certificate of compliance to that agency. If the Cost of Living Council approves existing rules of an agency, it will issue a certificate of compliance to that agency.

(e) A long term care institution may place in effect, in accordance with the rules of an agency to which a certificate of compliance has been issued, any price increase authorized or allowed to go into effect under the State program.

(f) Except as provided in paragraphs (g) and (h) of this section, actions taken under the program of an agency to which a certificate of compliance has been issued under paragraph (d) of this section are not subject to review by the Cost of Living Council.

(g) Each agency to which a certificate of compliance has been issued under paragraph (d) of this section shall also agree to furnish periodically to the Cost of Living Council such information as the Council may prescribe for the Council's use in determining whether the agency is following its adopted rules and whether the purposes of the Economic Stabilization Program are being served.

(h) The Cost of Living Council may revoke a certificate of compliance issued underparagraph (d) of this section at any time, or take such other action with respect to the certificate as it considers appropriate, if it determines that the rules to which the certificate applies are not being followed or are not serving the purposes of the Economic Stabilization Program. Price increases approved under the State program prior to such revocation or other action shall in no way be affected by such revocation or other action.

(i) Any long term care institution not subject to a control program certified under this section is subject to this subpart.

§ 150.785 Prohibition.

No long term care institution subject to this subpart may adopt any change in charging practices, reduction in quality or quantity of services, or any other practice that has the effect of avoiding compliance with any provision of this title.

§ 150.786 Remedies for non-compliance.

(a) In addition to any remedies provided in Part 155, if the Council determines that the limitations contained in § 150.773, § 150.775, or § 150.777 have been exceeded, and no exception has been granted, the Council may order:

(1) The reduction of prices to compensate for realized revenues or other increases in excess of the limitations; or

(2) The reduction of prices to assure that realized revenues and prices will not exceed the limitations contained in § 150.773, § 150.775, or § 150.777,; or

(3) The refund to appropriate classes of purchasers of an aggregate amount equal to the excess (the amount to be refunded or credited to an account shall be allocated on a pro rata basis); or

(4) Any other action which is reasonable and appropriate to cause the remission of such excess realized revenues; or

(5) Any combination of actions under this paragraph.

(b) Except as otherwise provided in this subpart, if a long term care institution determines that it has exceeded the applicable limitations of § 150.773, § 150.775, or § 150.777, unless an exception request is pending, the granting of which would eliminate the violation, the institution shall submit together with its annual report filed pursuant to § 150.780, a plan for achieving compliance with these sections to the Office of Health, Cost of Living Council, 2000 M Street, N.W., Washington, D.C. 20508. If the institution has such an exception request pending at the time of filing the annual report pursuant to § 150.780, the compliance plan required by this paragraph shall be filed with the Council within 20 days of receipt by the institution of a decision and order denying the exception request or granting an amount less than that necessary to eliminate the violation. Such a compliance plan may provide for a reduction of charges, a stipulation of no price increases for a certain period of time, refunds, any other action which is reasonable and appropriate to cause the remission of excess charges, or a combination of any of the foregoing. The Cost of Living Council may approve such a plan, order certain changes, or order a different plan of its own design.

§ 150.787 Retention and availability of records.

(a) Each long term care institution subject to this subpart shall maintain such records as are sufficient to establish the compliance status of the institution with respect to this title.

(b) Records required to be maintained under paragraph (a) of this section shall be made available for inspection at any time upon the request of an officer or employee of the Council or of any other person authorized to represent the Council.

(c) Each long term care institution required to maintain records under this section shall retain such records for at least 3 years after the last day of the fiscal year in which the transactions or other events recorded in such records occurred or the property was acquired by that institution.

§ 150.788 Savings and severability.

(a) If this subpart is held invalid with respect to any long term care institution, Subpart O of this part in effect on December 31, 1973, shall govern the long term care institution.

(b) If any provision of §§ 150.769 through 150.788 of this subpart applicable to long term care institutions is held invalid, the other provisions of these sections shall remain in full force and effect.

6. In 6 CFR Part 150, an Appendix is added to Subpart R to read as follows:

APPENDIX TO SUBPART R—CONTROL OF HOSPITAL COSTS UNDER THE ECONOMIC STABILIZATION PROGRAM

Current inflationary problems of the health sector and the need for Federal activity

result from the nature of the industry itself, and the incentives faced by health care managers. As will be discussed below, the fact that most hospital bills are now paid on a cost-plus basis has generated a "blank check" environment for the financing of hospital care. Although this kind of reimbursement system existed before 1965, it was not until the introduction of Medicare and Medicaid that cost-plus reimbursement accounted for a substantial proportion of hospital revenue. Hence, it was this massive infusion of Federal and State funds that radically affected hospital behavior. The effects were especially significant given the original intent of Congress that Federal financing programs should be neutral with respect to the delivery system. Many now consider the passage of the Medicare and Medicaid amendments in 1972 as a partial repeal of the original intent of Congress.

Among the many amendments included in this bill, P.L. 92-603, several stand out as major changes in the role of the Federal Government vis-a-vis health providers: those with respect to capital expenditures, Professional Standards Review Organizations, limitations on reasonable cost reimbursement, payment for the services of teaching physicians, utilization review, and prospective reimbursement. In several instances the provisions of this act specifically prohibit reimbursement for costs that would normally be allowed unless the hospital has complied with comprehensive health planning requirements, and does not provide care in a much more expensive way than other similar providers. The usual procedure has been for Medicare to reimburse all costs actually incurred by an institution in providing medically necessary care to program beneficiaries. The important feature of the 1972 amendments is that they now recognize that some of the costs which used to be considered reasonable may not be reimbursed if a hospital spends more than other comparable institutions to provide similar services. Similarly, if non-Medicare and non-Medicaid patients are not asked to pay (the key is being asked, not actually paying) their full share of costs, i.e., charges are less than costs, Medicare will reimburse only to the level of charges.

At the time that most of these amendments were being debated in the Congress, the Administration introduced, in August 1971, Phase I of its Economic Stabilization Program. It is crucial for an understanding of this program to appreciate the environment in which it was created. This environment has both a past and a future. The past is Medicare and Medicaid; the future is National Health Insurance. A critical issue involved in the debate over National Health Insurance will be the level of government participation in the medical care system.

In the end, the discussion about the Economic Stabilization Program is really whether an uncontrolled and unregulated health delivery system should exist when all or most of the medical bill is paid on a cost-plus basis by some third-party payor. A second issue, of course, is if controls are necessary, what shape should they take.

Phase IV controls are now also being issued for long term care institutions, medical practitioners and medical laboratories, and health maintenance organizations. The remainder of those who were designated as "noninstitutional providers of health services", during Phase II are no longer covered by specific health price controls. The goal of the Phase IV controls in each sector of the health industry is to define the required limitations on the proper unit of volume and at the appropriate level in order to allow for continued development and growth within an effective cost containment framework.

Medical practitioners and medical laboratories are to continue under price increase limitations although prices may be raised an average of 4% instead of 2.5%, in recognition of higher practice costs. The Phase II requirement of cost justification has been removed, and the exceptions process simplified and liberalized. The new HMO controls attempt to deal directly with the dual nature of the HMO—they include provisions to cover both the insurance company functions and the activities that the HMO performs as a provider of health service. They are designed to aid and encourage the development of HMOs.

Long term care institutions are being placed under a system which limits to 6.5% increases in realized per diem revenue by class of purchaser. This recognizes the character of long term care institutions in which much revenue comes from just a few sources such as State Medicaid programs. The new system also recognizes the fact that stays are generally long, occupancy stable, and the bulk of reimbursed services can be included in a single daily rate.

Because of the overriding importance of the hospital sector and the complex procedures necessary to control its costs, we will focus our discussion on the hospital and the controls designed to moderate the rate of increase in hospital costs.

BACKGROUND

In the modern history of the health industry, 1965 stands out as a line of demarcation—pre- and post-Medicare/Medicaid.

Table 1, below, shows the rate of change of the Consumer Price Index for medical care and semi-private room rate compared with the "all-items" C.P.I. for selected years. This index, constructed and maintained by the Bureau of Labor Statistics is also referred to as the "cost of living" index. Even prior to the passage of Medicare, hospital costs were increasing more rapidly than the overall cost of living.

TABLE 1.—*Average annual increases in consumer price index*

[In percent]

	All items	Medical care	Semi-private room
1950			
1955	2.2	3.8	6.9
1960	2.0	4.1	6.3
1965	1.3	2.5	5.8
1967	2.9	7.1	19.8
1969	5.4	6.8	13.4
1970	5.9	6.3	12.9
1971	4.3	6.5	12.2
1972	3.3	3.2	6.6
Fiscal years 1969 to 1971	5.6	6.7	13.0
Phase II (November 1971 to January 1973)	3.6	3.4	5.4

Source: Consumer Price Index, Bureau of Labor Statistics.

The pre-Medicare/Medicaid experience suggests that the health industry has always possessed significant inflationary potential. However, it was only after the introduction of Medicare and Medicaid that the problem of hospital and medical care inflation really became serious and succeeded in achieving great visibility. The semi-private room rate which had been increasing at about 6.0 percent a year jumped to rates of increase of between 13 and 20 percent following the introduction of these two Federal programs. These rates of increase were more than three times the increase reported for all prices in the economy.

Table 2 presents a summary of the growth in hospital expenses for various items—labor, nonlabor, and capital in pre- and post-Medicare/Medicaid periods. Again the dramatic increases following the introduction of those Federal programs is apparent.

TABLE 2.—*Compound growth rates for selected hospital indices*

[In percent]

Index	Pre-medicare (1960-65)	Post-medicare (1966-71)
Total expense	10.2	17.0
Payroll expense	10.1	15.9
Nonpayroll expense	10.4	18.6
Personnel	5.1	5.6
Average salary	4.7	9.8
Increase in plant assets	8.0	9.1

Source: "The Hospital—A Changing Environment," Investment Research, First National City Bank, 1973, p. 6.

With the aid of this very simple table, two important aspects of hospital cost increases are shown:

1. Although significant, wage increase in the post-Medicare period did not account for all of the growth in payroll expenses; much of the increase resulted from increases in the number of hospital employees.

2. Payroll expenses in total grew in the post-Medicare period less rapidly than did nonpayroll expenses.

To obtain more meaningful measures of hospital cost increase, these aggregate statistics are converted into two commonly used measures—expense per patient day and expense per admission. These measures take into account the full picture of hospital cost inflation including the fact that major increases in spending resulted from increased use of laboratory tests, X-rays, therapy, drugs, etc.

Table 3 below summarizes these increases for selectively grouped periods.[1]

[1] The Phase III/IV row and the "intensity" columns were calculated using the projections and index discussed in the section on Phase IV controls.

TABLE 3.—*Increase in hospital expenses*

[In percent]

	Expense per adjusted patient-day	Expense per adjusted admission	Intensity of services per day [1]	Intensity of services per admission [2]
Pre-medicare (1963 to 1965)	7.5	8.2	3.0	3.7
Post-medicare (1966 to 1969)	12.2	14.4	7.2	9.0
Pre-ESP (1969 to 1971)	13.9	11.6	5.1	2.3
Phase II (1972 to 1973)	10.4	8.9	4.2	2.8
Phase III	[3] 9.0	[3] 7.4	2.9	1.9

NOTE.—The wage increases included in the input price index were of health workers which rose significantly faster after Medicare than wages for all workers. Hence, the increase in "wages and prices" is not all uncontrollable in the usual sense. The increase in intensity of services is therefore the amount of funds used to purchase more equipment or personnel.

[1] Obtained by dividing expense per adjusted patient-day by hospital wage and price index and calculating percentage increases.

[2] Obtained by dividing expense per adjusted admission by hospital wage and price index and calculating percentage increase.

[3] Projection using January-July 1973 and projected through 1974.

V 39 160 MAR 27 74 XUM

Before Medicare, expense per patient day and expense per admission were rising at rates of 7.5 percent and 8.2 percent respectively. This meant intensity increases of 3.0 percent and 3.7 percent respectively.[2]

In contrast, the immediate post-Medicare period saw increases of 12.2% in expense per day and 14.4% in expense per admission, with increases in intensity of 7.2 percent per day and 9.0 percent per admission. As explained in the notes accompanying Table 3, these increases in intensity represent the amount spent in the provision of more services per patient day or per admission, after taking into account increases in the prices of goods and services bought by hospitals.

The period just before the imposition of economic controls (1969–1971) saw the annual per diem increase go up even more, to 13.9 percent. However, during 1968 the average length of stay declined with the result that expense per admission rose only 11.6 percent or an intensity increase of 2.3 percent. Intensity increases per day rose 5.1 percent, down from the 7.2 percent of the immediately preceding period, but still higher than before Medicare. These figures clearly show the very rapid growth of hospital costs per day of service or per day in a hospital immediately following the introduction of Medicare. They also show the start of a very encouraging trend. Length of stay has been declining steadily in the range of 1–2 percent annually since 1968. This means that when people go into the hospital, they get out faster. Thus, the cost of a total stay in a hospital, the real cost with which the patient is concerned, has been rising more slowly than the cost per day. More tests and other services are being performed, but in a shorter number of days.

The use of the last two columns in Table 3 is an attempt at separating hospital cost increases into: (1) Those necessary to provide the same level of services as in the previous year; and (2) those cost increases which were used to provide more services per day or per stay in a hospital, i.e., increases in "intensity of services". As noted in Table 2 however, part of the increase in the cost of producing the same care in the post-Medicare period was for wage increases higher than those offered to most workers in the economy. In the usual sense of an index, one would not take the data for the index from the area under analysis. Rather, comparisons would be drawn to the area from what had occurred in the economy in general. In this case, however, we have attempted to use actual input price data from the health industry itself wherever possible, in order to highlight the growth in the amount spent to provide more services. That is, after Medicare, when the pressures to control costs were reduced, hospital workers received increases in wages greater than those paid to non-hospital workers. Although some of this wage increase went to increase the earnings of low wage earners, all hospital workers benefited from these increases. This difference could amount to as much as one percent of total cost diverted from increased use of inputs to higher wage increases for health workers.

Table 4 brings together many of the ideas which we have discussed thus far. On a per patient day basis, cost increases accelerated rapidly after 1965 with an important factor being greater intensity and services provided per day of care. In order to understand the need for and the potential impact of economic controls it was necessary to decompose these cost increases in some summary format into that part which arose from the higher prices paid for the inputs, and that part that arose from increases in services.

Before the introduction of Medicare, the relatively low rates of increase in costs were divided evenly between increases in wages and prices, and increases in the amount spent on more services. With the introduction of Medicare, increased use of inputs began immediately, followed shortly thereafter by large increases in wages and hiring of more employees.

Table 4 shows that during the 1960–1971 period, when average cost per patient day was rising 14.8 percent, wages were rising 10 percent, and hospitals were increasing their employees per day at a rate of 3.7 percent. Similarly, non-payroll expenses during this period were rising 15.9 percent annually, when prices were going up only 5.1 percent and the use of non-wage inputs was increasing at an annual rate of 10.3 percent.

TABLE 4.—*Factors contributing to hospital cost increases (expenses per patient day)*

Item	Average annual percentage increase					
	1950–60	1960–65	1965–67	1967–69	1969–71	1971–72 [1]
Total increase	7.5	6.7	10.3	13.8	14.8	11.6
Increase in wages and prices	3.8	3.5	4.1	8.0	8.2	5.7
Wages	5.2	4.7	4.7	9.9	10.0	7.0
Prices	1.5	1.3	2.9	4.8	5.1	3.3
Changes in service	3.7	3.2	6.2	5.8	6.6	5.9
Labor	3.1	1.7	3.8	2.8	3.7	2.2
Other	4.6	5.6	9.6	9.8	10.3	10.1
Percent of total increase due to—						
Wages and prices	49.6	51.6	39.7	58.2	55.3	49.5
Changes in services	50.4	48.4	60.3	41.8	44.7	50.5

[1] Based on estimates from the "Hospital Indicators" National Hospital Panel Survey in Hospitals, J.A.H.A., Dec. 16, 1972.

Source: Price data are from the Consumer Price Index, Bureau of Labor Statistics. All other data are from Hospitals, Guide Issues, August 1, various years, and Hospital Statistics 1971, American Hospital Association, 1972.

The proportion of the increase in per day costs going into more inputs of all types has continued to the point where these intensity increases amount to almost half of the total. One possible explanation for this trend is that the system has not yet fully adjusted from the tremendous increase in inputs that began in 1965. Although the relative proportion of increases going to increased use of inputs declined in 1967–1969, it was not because these increases were tapering off, but because wages and prices began to increase at double pre-Medicare rates.

Having established that by all definitions of cost, hospital costs were rising at very high rates between 1965 and 1971, let us turn briefly to theories and definitions of hospital inflation before proceeding to discuss economic controls as they were designed to combat inflation in this health care sector.

INFLATION IN THE HOSPITAL INDUSTRY

In the discussion thus far we have passed over a discussion of the appropriate measure of the price of hospital services. As indicated previously, we have concentrated on the more inclusive measures of hospital prices such as cost per patient day or cost per admission. While these inclusive definitions of hospital prices are now widely used in the economics of health care literature, their use in the design of the health care cost control regulations is at the heart of the current controversy over the proposed Phase IV controls. To understand why the definitions of price as used in other sectors of the economy are not appropriate for the hospital sector, it is useful to briefly discuss why hospital cost inflation has occurred.

Martin Feldstein offers much evidence that hospital cost inflation is caused primarily by increases in the demand for services.[3] Several reasons are offered for the increased demand. As insurance coverage increases, and the net cost to the patient is reduced, more and higher quality care is demanded, hence higher costs. The growth of cost-plan reimbursement (see above) has also put hospitals in a position where they may incur higher costs (to provide higher quality or more expensive services) without fear of reductions in demand, or a reduction in their revenues.[4]

Explanations of the causes of inflation of this type usually place the emphasis on a general increase in demand for a commodity or service which can only be satisfied at higher prices. The higher price then serves to ration the available supply, making it available to those willing to pay this higher price. The inflation in health cost, due to increased demand for services was, however, characterized by an unusual circumstance. As the cost of care rose, because of the addition of more and costlier inputs, demand did not slacken. The patient faced an extremely low net price, resulting from ever-increasing insurance. In addition, under Medicare and Medicaid, where the net price to the patient is essentially zero, with the programs paying for all incurred costs, the desire to increase the number and kinds of services when totally unchecked. In essence, the potential menu of services rendered by the hospital was unlimited.

Blue Cross had always reimbursed on a cost basis, but until the introduction of Medicare and Medicaid, and the tremendous growth of insurance coverage in the late 1960's, Blue Cross cost reimbursement alone was generally not sufficient to cause this tremendous alteration in hospital behavior. The growth of Blue Cross during the 1940's and 1950's did change hospital behavior somewhat, but it was only when Medicare and Medicaid began, and over 50% of all hospital revenues came from cost reimbursement, that behavior changed substantially. In addition, at some point higher hospital costs are reflected back

[2] Feldstein (p. 17) using a different set of adjustments had calculated an annual increase in intensity of about 4 percent in this period, and a 3.8 percent average of 1955–1968 "The Rising Cost of Hospital Care". Martin S. Feldstein, 1971, Information Resources Press.

[3] Ibid, Chapter 3.

[4] Medicare, Medicaid, and most Blue Cross plans contract with participating hospitals, and agree to pay the costs of providing services to the beneficiaries or subscribers of the third party. The share of costs to be assumed is determined retrospectively (i.e., after the fiscal year is over) by calculating the ratio of the subscribers' gross charges to the total charges billed by the institution, and applying the ratio to the total costs of the covered departments.

to patients in the form of higher Blue Cross premiums. This was not the case with Medicare and Medicaid where the patient essentially pays no premium. There is however, a one day hospital deductible under Medicare which has gone up in proportion to increased hospital costs, but this accounts for only a small amount of the dollar increase in hospital expenses. The net result of all these changed activities is that while the total cost of a day of hospital care rose from $16 in 1950 to $109 in 1973, a patient's out-of-pocket costs actually declined from $10 per day to $9 per day.[5] As mentioned above one of the factors that generally limits inflation is the inability to expand production or services indefinitely as demand increases. The relative ease with which supply can respond to changes in price is called the "elasticity of supply". It has often been assumed that the supply of hospital services is relatively inelastic, i.e., that it does not respond significantly to changing prices or conditions. However, the post-Medicare/Medicaid experience did much to dispel that notion. The quantity response of the hospitals to the increase in demand that accompanied the introduction of Medicare and Medicaid was implicit in the increase in the number of nonfederal short-term general hospitals, the number of beds, and the average hospital size from 1965–1970 (see Table 5).

[5] Hospital Indicators Panel Survey.

TABLE 5.—*Hospitals, beds, size, and utilization, selected years*

Year	Hospitals	Beds (thousands)	Average bed size	Average length of stay (days)	Occupancy rate
1965	6,736	741	129	7.8	76.0
1968	6,890	866	138	8.4	78.2
1970	6,859	848	145	8.2	78.0
1972	5,843	884	151	7.9	75.2

Source: Hospital Statistics, 1972.

These figures might lead one to question the long-term wisdom of the post-Medicare/Medicaid quantity response. It is necessary to ask how many beds were really needed. If there had been no more beds in 1972 than in 1965, each bed would have had to be occupied only 88% of the time in order to serve all the 1972 admissions to hospitals. This does not seem to be an unusually high capacity untilization rate. But even granting that the optimal occupancy rate for most hospitals is several percentage points lower, one is still troubled by the expansion of supply and the resultant costs to all patients of maintaining one out of every four beds empty at all times.

The causes of hospital cost inflation described above, and the large increase in hospital expenses, would lead one to the conclusion that there would have been an inflation problem even if the prices hospitals paid for their inputs (labor, capital, consumable goods) had not risen in any unusual manner. Yet such increases did occur in the latter half of the 1960s, somewhat fueled by the cost pass-through approach to reimbursement, but also caused by external forces. These increases add an additional layer to the inflation problem. There have been many empirical studies which have shown the contribution to inflation made by increases in the cost of each factor. In the recent book by Karen Davis and Richard Foster,[6] the authors summarize this literature. The two basic cost items that have exacerbated the cost inflation problem are capital[7] and labor.[8] The assurance of adequate reimbursement for services led to an essentially unconstrained increase in the amount of equipment purchased and the number of hospitals, beds, and an increase in average bed size. These increases often occurred without regard to the usual analytical criteria of efficiency, need, or likely utilization. It also led to increases in the number of hospitals offering various kinds of complexity expanding services.[9] That is, as demand expanded without constraint, the use of non-wage inputs and different technologies expanded as well. Much of this expansion was in the physical plant itself, where the relatively small proportion of cash required allowed major capital expansion with the assurance that third party payments would generate adequate revenues to meet mortgage obligations.

Increased labor costs as well have been a factor in adding to hospital inflation. Increases in the hospital's wage bill have come about both through increases in the wages per employee, in part due to so-called "catch-up" wage increases, and increases in the number of employees.

The question of "catch-up" wage increases has two phases—catch-up of lower paid hospital employees with other hospital employees and catch-up of hospital employees with non-hospital employees. Although comparison is difficult since many hospital jobs do not exist elsewhere, data from the triennial BLS Industry Wage Study in Hospitals when compared with the general "Area Wage Surveys," also conducted by BLS, show that there has been significant closing of the gaps between hospital employees and those in other industries.[10]

Although it is difficult to measure the precise impact of the extension of minimum wage legislation to hospital employees, and the spread of collective bargaining agreements, there is little doubt that they have had major effects. Those areas of the country, such as Oakland-San Francisco and New York City, which had some of the first collective bargaining agreements (and strikes by hospital employees) now have the highest wage scales in the health industry, and have wages generally comparable to, if not higher than, similarly employed individuals outside the hospital industry. Much of these increases are reflected in the 10 percent wage increases after Medicare that are shown in Table 4.

In summary, the analysis of hospital cost inflation reveals that the uncontrolled increases in expenditures for health care were directed into a variety of channels. They were reflected only in part in higher room and board rates. Still further increases were reflected in the costs of ancillary services. The need for these increases had resulted from substantially higher wage increases to hospital employees, the employment of more workers per patient served, the purchase of newer and more elaborate equipment, and the building of more and fancier hospitals.

All of these cost increases were translated into higher unit charges and larger increases in the aggregations of charges per day and per stay, and higher total reimbursements from third party payors.

Consequently, no single measure of price can properly reflect the changes that occurred, nor can one seek to control hospital cost inflation by limiting the growth in only one price or group of prices. It is for this reason that most health economists now rely on the more inclusive measures of cost per patient day and the cost per admission as indices of hospital prices.

FIRST ATTEMPTS AT ECONOMIC CONTROLS—PHASE II

In 1971 hospital room charges were rising at 13 percent per year, and hospital costs per patient day were rising even faster, at 14.8 percent. The tremendous increase in the use of inputs, especially non-wage inputs, continued, and wage rates were now rising at 10 percent per year. Prices in the general economy were rising faster than at any time in the previous twenty years (at 5.1 percent per year).

The decision was made by the President in the summer of 1971 to place the economy under a 90-day wage and price freeze with a series of Phase II economic controls to be established by the end of the freeze. Because of its unique characteristics, the health industry was singled out for separate controls that would deal with the special nature of inflation in that sector of the economy. These controls, issued by the Price Commission in December 1971, were developed in conjunction with the Health Services Industry Committee.

[10] In addition to the evidence presented in Feldstein, Chapter 5, there is a discussion of hospital nursing wages relative to other nurse wages and relative to other female-oriented occupations such as teacher and secretary in: Altman, S.H. "The Present and Future Supply of Registered Nurses", 1971, U.S. Department of Health, Education and Welfare, Division of Nursing, p. 80. Altman shows significant progress made by registered nurses relative to these other occupations. Unpublished data from the same study also show larger increases for RN's relative to industrial nurses.

PHASE II CONTROLS

The Phase II health controls included regulations for institutional providers of care (hospitals and nursing homes) and non-institutional providers of care (predominantly physicians and dentists). While the goal of the institutional provider regulations was based on the Price Commission goal for the general economy, a halving of inflation rates in each sector, it was impossible to implement health controls that were the same as, for example, shoe controls. As indicated previously, there are factors other than a narrow definition of price per unit of service that enter the picture; cost reimbursement, technological advance, greater use of inputs, and the ambiguous nature of the product produced by a hospital.

The first major problem was how to correlate hospital care paid for under cost reimbursement contracts with that paid for on the basis of charges per service.[11] Using a limitation of 6.0 percent on increases in aggregate annual revenues due to price increases as the basic control, a per diem limitation of 8.0 percent was instituted for cost reimbursers, with the additional 2.0 percent for increased intensity of services per day. Thus, there was an explicit limit on price increases for both charge paying patients (revenues generated through increases in prices) and cost paying patients (maximum allowable per diem increases in costs). Combined with the 6.0 percent increase in aggregate annual revenues due to price increases was a 5.5% limit on increases in the wage bill, not the wage rate. This meant that additional employees had to be balanced against funds for old workers. This 5.5 percent wage bill increase produced an allowable 3.3 percent increase in total costs.[12] The remainder of the 6 percent allowance was divided between a 2.5 percent increase in non-wage costs (the general goal for the entire economy) and a 1.7 percent factor to allow for increases in expenditures for new technology not directly billed to patient services. This was a residual intensity factor not specifically defined.

The 1.7 percent allowance for new technology and the 2 percent intensity allowance for cost reimbursement allowed for increases attributable to changes in the number of services and their method of provision. Table 6 shows increases in the intensity of hospital services for the years up to the beginning of the Economic Stabilization Program. As can be seen, these increases had fallen off from a high of 7.2 percent in 1968 to 4.5 percent in 1970.

TABLE 6.—*Estimated per diem "intensity" increases*

[In percent]

Year	Total	Excluding new technology factor
(1)	(2)	(3)[1]
1956 to 1965	3.2	1.8
1966	6.7	5.0
1967	7.6	5.9
1968	7.2	5.5
1969	5.5	3.8
1970	4.5	2.8

[1] Column (3) is derived by subtracting the 1.7 percent new technology factor from column (2), leaving just the intensity increases experienced in each year.

Source: 1972 Annual Report of the Board of Trustees of the Federal Hospital Insurance Trust Fund, p. 21, transmitted June 6, 1971, to the Speaker of the House of Representatives.

[11] The Social Security Administration estimates (unpublished data) that in 1971 about 54% of all hospital care was paid for under cost reimbursement contracts.

[12] Labor costs in a hospital are estimated by the Social Security Administration to be about 60% of total costs.

The other main feature of the Phase II regulations was a volume index which adjusted a hospital's level of allowable cost and revenues, as the number of days of care or admissions increased or decreased. It was this volume index which prevented the total revenue of a hospital from being fixed, regardless of the number of services rendered. It did, however, provide for a one-to-one correspondence between changes in volume and changes in allowable revenue and costs.

The Phase II system was designed for the short run and therefore, it could not deal completely with such factors as changes in the volume of services of new capital facilities.

It has always been recognized that the added cost of treating more patients, particularly in a well-functioning hospital, is far less than the average cost of treating all patients. As a hospital adds a few more patients, it is not necessary to add such items as more X-ray machines, nurses, or even beds. Therefore, the hospital that increased its volume of patients was permitted more allowable costs and revenues than it really needed to treat the additional patients. The requirement for cost justification meant that if these potential revenues were not actually spent, they had to be returned. Thus, there was still an incentive to spend.

The hospital that declined in volume of patients faced a different and more severe problem. If the decline in volume was 5%, expenses had to be reduced by a full 5%. However, because a significant portion of hospital costs is fixed in the short run, the effect of the Phase II volume adjustment was to take away some allowable costs that had to be incurred regardless of how many patients were served. The result was that many hospitals facing declines in volume had to dip into (and perhaps exhaust) reserves in order to meet operating expenses.

RESULTS UNDER PHASE II

The 13 months under Phase II saw a halving of increases in the hospital room and board rates. The semi-private room rate rose only 6.6% during 1972, and only 5.4% between November 1971 and January 1973.[13] Analysis of just this measure of cost alone would have led one to believe that the problem of health care cost inflation was over. Yet economists, as was demonstrated previously, caution that the average daily service charge omits a large and growing fraction of costs that grows differently. Therefore, it was necessary to review the performance of other indices of cost such as cost per patient day and cost per admission. It became clear that while the rate of increase in room and board rates declined by over 50% during Phase II, cost per adjusted patient day and cost per adjusted admission declined by much less—only about 25%. What appears to have happened was that hospitals were willing to sacrifice some part of price increase revenues from charge payors as long as they knew that cost reimbursers were still there to pay the majority of the bills.

The Phase II regulations produced some unusual results in hospitals especially during the extension periods of Phase III/IV in 1973. Hospital charge increases were contained, and revenue increases from charge payors reduced accordingly. On the other hand, costs continued to increase at almost the pre-ESP rates. To the extent that they found them reasonable, cost reimbursers were continuing to reimburse for all incurred costs, thereby assuming a relatively larger share of reimbursed expenses than they had in the past. Aside from the general implications to the system this result was of special concern to the public programs such as Medicare and Medicaid. Although it is difficult to explain the reasons behind this result with any precision, it is also clear that admissions increased under Phase II. Whereas in 1971 admissions had only risen .4 percent and patient days went down 1.5 percent, during 1972, admissions rose 2.6 percent and patient days increased 1.8 percent. The trend toward shorter length of stay did, however, continue.

[13] Consumer Price Index, Bureau of Labor Statistics.

PHASE IV CONTROLS

The Phase IV hospital controls switch the emphasis from individual prices as a proxy for costs to a more aggregate measure of price—total cost of a hospital stay. Under the Phase IV regulations, changes in the number of admissions is used as a means of adjusting the hospital's volume of services and allowable cost increases.

Two important departures from the Phase II system are the separate treatment of increased costs due to new and approved capital expenditure and the separation of the controls on inpatient and outpatient services. The Phase II system had included a single 6% control limit which was to be an average for every hospital service. For the institution that was not expanding, such a limit was more than sufficient to meet its expenses. However, new construction generally requires a new pricing structure, and that required an exception which was not easy to obtain. Further complicating the situation was the fact that it was often impossible to obtain financing unless some assurance could be given that when the project was completed, the hospital pricing structure could be changed. Such an assurance was generally unobtainable, even in the exceptions process.

The Phase IV health regulations now provide that an institution planning a capital expenditure of more than $100,000 can recover such costs if it has demonstrated the need for the project and the reasonableness of the costs. The approval of the state agency designated under section 1122 of the Social Security Act) comprehensive health planning provisions) is to be taken as demonstration of community need. This change makes the process more reasonable and manageable since capital allowances are included in addition to those allowed for current operations. The new provisions also reinforce the development of area-wide and State-wide planning activities rather than the continued predominance of Federal controls.

In order not to discourage the trend towards increased use of outpatient services, a separate limit of 6 percent was established for hospital outpatient services. Such a limit could be implemented either on an aggregate weighted (by service) basis, similar to the physician limitations, or a 6 percent increase across the board for all services. This provision does not place any limits on the amount of outpatient services provided.

The controls dropped the requirement of cost justifying all price increases in order to maximize managerial flexibility. The only internal cost constraint remaining is the 5.5% wage limitation plus all allowable fringe benefit increases.

THE 7.5 PERCENT LIMIT

The basic control of Phase IV is a limit of 7.5 percent on increases in charges and reimbursed cost per admission. These limitations are placed on the institution that does not plan, and does not in fact have a different volume of admissions than in the past year. Since no change in admissions is projected, this allowance really amounts to a budget prospectively set no higher than 7.5 percent above the prior year's operating budget (remembering that new capital expenditure, even for the same number of patients is still an add-on).

Experience during the first part of 1973 showed that 7.5 percent was likely to be a reachable target. Data for the first quarter of 1973 taken from the "Hospital Indicators Panel Survey of the American Hospital Association" showed expenses per adjusted admission rising at an annualized rate of 7.1 percent compared to a rate of 8.9 percent for 1972 (and a rate of 8.2 percent for the fourth quarter of 1972). Results for the first half of the year showed an increase of about 7.5 percent. This was a significant trend since the economy was generally decontrolled under voluntary Phase III guidelines. It was this period that was used for projecting increases for 1974 rather than a time when the whole economy was under strict controls.

The 7.5 percent control limit was based on three components:

1. an estimate of the cost of producing the same level of services as in the previous year;
2. a productivity offset to account for more efficient production of last years' services; and
3. an intensity factor to provide a margin for increases in the quantity of services (in addition to those which result from capital expenditures of more than $100,000).

In estimating the increased cost of producing the same level of services, there was no difficulty in estimating the impact of wage increases because the 5.5 percent guideline plus 0.7% fringe benefit limit is still in effect. Similarly, it was not difficult to determine the proportion of a hospital's cost imputed to labor and non-labor inputs. It is generally recognized that a 60% payroll factor and 40% non-payroll factor are reasonable.[14]

The problem of estimating an index of factor prices, as Feldstein has noted, was the most severe. The major reason for the difficulty is the lack of weights to be attributed to each of the major non-wage items purchased by a hospital.

Because such an index was not generally available it was necessary for the Cost of Living Council to develop such an index. This was accomplished by using three sources for weights for non-wage items, and a variety of sources for projections of inflation. Table 7 presents the categories selected (column 1), their estimated percentage of non-wage costs (column 2), the increases projected for 1974 using 1973 observations as of September 1973 (column 3), and their weighted contributions to non-wage and total cost increases (columns 4 & 5). This factor input price index has also been applied retrospectively to data for 1963–1972 and calculations have yielded the wage and price index with values for the last ten years. These values were used to adjust the expense data in Table 3 to come up with estimates of the increases in intensity expenditures per day and per admission in pre-control years.

[14] These ratios were first used by the Phase II Health Services Industry Committee and have also been used by the Phase IV Health Industry Advisory Committee.

TABLE 7

1974 PROJECTION OF INCREASES IN NONWAGE COST ITEMS

Category	Percent of nonwage costs	Likely increase	Contribution to increase in—	
			Nonpayroll costs	Total costs
(1)	(2)	(3)	(4)	(5)
		Percent	*Percent*	*Percent*
1. Fringe benefits	13.5	0.7		0.42
2. Drugs	7.0	1.2	0.08	.03
3. Raw food	7.0	15.0	1.05	.42
4. Utilities	4.2	8.3	.35	.14
5. Depreciation	9.5			
6. Interest	4.1	3.5	.48	.19
7. Insurance	1.9	3.3	.06	.03
8. Medical supplies	21.5	4.6	.99	.40
9. Other	31.3	5.0	1.57	.63
Total	100.0		4.61	2.26

The weights used in rows 2–7 of column (2) were calculated from a sample of S–52 forms on file at the Cost of Living Council. Rows 1 and 8 were estimated from data supplied by the New York State Hospital Association, which also confirmed the estimates from the sample of S–52's. The weights derived were later confirmed to be consistent with available data from the American Hospital Association. The increases projected in column (3) are either 1973–1974 CPI projections or estimates based on other available data. The CPI drugs index showed no significant changes in 1973, but an allowance was included to allow for some substitution of more expensive drugs outside of the "intensity" allowance discussed later.

Most interest and depreciation funds are covered under the "new capital" provisions and can be recovered without regard to the operating limit. However, an allowance was included to take into account the effect of small (less than $100,000) projects. The increases projected for insurance (3.3%), and utilities and fuel (8.3%) are the 1973 CPI projections. The events of the last few months, however, suggest that the amount of future increases in hospital fuel costs are uncertain. For this reason a separate notice is being issued with the regulations to permit hospitals to adjust their allowance because of increased fuel costs.

The increases projected for medical supplies (4.6%) is half the annual increase in the value of industry shipments as projected by the U.S. Department of Commerce for 1972–1980. This item may be somewhat misleading because many supply prices do not increase as new products enter the market (similar to drugs). However, half the increase in shipment values was included to permit a large part of the product substitution (without technological change) without resort to the intensity allowance. The final item, the residual, "other", was estimated to increase by 5 percent. This represents the average increase for 1973 in the CPI all items, less food. This index was selected because we had already taken account of increases in the cost of raw food. The process was repeated using the 1973 WPI, less agricultural products, with similar results. This projection was originally designed to be consistent with COLC goals, but there was enough rounding in the final calculations so that even increases of up to 8 percent could be accommodated within the same control limit. The original estimate of wage and input price increases (using 5% CPI increase) was 5.86%. Using a 6% assumption the factor goes up to 5.97% while 7% yields 6.11% and 8% yields 6.23%.

PRODUCTIVITY OFFSET

It was necessary to develop some offset of the Phase IV allowances to recognize increased productivity of hospital services. The three authors whose works are discussed here provided us with the background for the selection of the 1% tradeoff.

Richard Elnicki estimates average annual changes in labor productivity in three combined Connecticut hospitals from a high of 1.54% to a low of .62% over a 10 year period.[15] As part of an effort undertaken for the Cost of Living Council, Jim Jeffers, Professor of Economics at Iowa University,[16] developed an alternative methodology and used the same data as Elnicki. Although the estimates are not comparable, the work of both Elnicki and Jeffers indicate that the hospitals studied experience significant increases in factor productivity over the period. Jeffers' estimates ranged from around .5% to about 1.7%. Jerry Cromwell, Senior Economist of Abt Associates, also undertook a study for the Department of Health, Education and Welfare.[17] He estimated hospital productivity nationally over the 1964–1971 period for nine cost centers that incur slightly more than 50% of all hospital costs. The results show a positive productivity increase for all bed sizes, and an overall productivity gain, nationally, of 1.13 percent. It was therefore determined that a 1% tradeoff for productivity gains was not unreasonable.

INTENSITY ALLOWANCE

Table 6 shows the per diem intensity increases recorded by the Social Security Administration for the pre- and post-Medicare periods. Before Medicare, per diem intensity increases averaged 3.2% annually. We divided these increases by the value of our wage and price index for each year and recalculated the effective increase in intensity in terms of 1967 input prices, obtaining 3.6 percent. Then in establishing our intensity allowances for Phase IV we sought to repeat the calculations for 1974 so as to obtain an intensity allowance which would be similar to the long term pre-Medicare trend.

Since all calculations for Phase IV had been done on a per admission basis, we had to establish a bridge from per diem increases to per admission increases. We have also seen that under Phase II rules, costs for the first nine months of 1973 have risen 7.4% per admission and 8.9% per day (since length of stay has continued to drop at 1.3%). If that relationship were to continue, the basic Phase IV system is likely to produce a 9% per diem increase. It is also likely that the more liberal capital expansion provisions, case mix adjustment, and exceptions policies should inflate that figure another 1.0 to 1.5 percent. Thus, the total per diem increase should be in the range of 10.0 to 10.5 percent.

We assumed that 50% of the per diem cost increase would be due to intensity (5.0–5.25 percent).[18] When the 10.0 to 10.5 percent per diem increases are deflated by the 1974 value

[15] Richard Elnicki, "Effect of Phase II Price Controls on Hospital Services," "Health Services Research," Summary 1972, Pp. 106–116.

[18] See table four.

V 39160 MAR 27 74 XUM

of the index, the resulting real increases in intensity allowed by the Phase IV regulations are 3.2–3.3 percent, which is comparable to the pre-Medicare intensity increases. That is, the 2.5% intensity allowance included in the 7.5% operating limit, is consistent with these intensity increases recorded before the Medicare/Medicaid inflationary cycle.

Combining the three factors, increased cost needed to produce last years' services, productivity offset, and intensity factor, leads to the following result:

TABLE 8

PHASE IV COST INCREASES

	Percent
Increased cost of unchanged operations	5.9
Payroll 6.0% × 60% (weight) = 3.6%	
Non-payroll 5.7% × 40 (weight) = 2.3%	
Adjustment for increased productivity	−1.0
Allowance for increased intensity	2.5
Net income increase	7.4

THE MARGINAL COST ASSUMPTIONS

Whereas Phase II assumed that almost all costs were variable as volume changed, the Phase IV controls took careful account of the differences that had to be recognized between fixed and variable costs. We used three pieces of research that could be categorized as studies in short run relationships of marginal (i.e., those that vary with output) to average costs, P. Feldstein, Lave and Lave, and M. Feldstein.[18]

J. Lave and L. Lave, "Estimated Cost Functions," "American Economic Review" June 1970, Pp. 370–395.

M. Feldstein, Economic Analysis for Health Service Efficiency, Amsterdam, North Holland Publishing Company, 1968.

Paul Feldstein used monthly cost and activity observations over a two year period for Gary (Indiana) Methodist Hospital. He found that the ratio of short run marginal cost to short run average cost ranged from 21–27%. Feldstein also estimated short run total cost functions for each of several hospital departments and concluded that in most cases, costs did not vary significantly with small increments in output.

The Laves used semi-annual observations on 74 Western Pennsylvania hospitals, and estimated an average cost function based on utilization, size, and a time trend. A second stage regressed the coefficients of the independent variables against a number of environmental factors (urban-rural, teaching status) to determine in each case the optimum set of explanatory variables according to the usual goodness of fit criteria. This technique of economic analysis yields a quantitative estimate of the amount of variation in costs explained by changes in volume of patients. The Laves also found evidence of slight economies of scale (services can be produced more cheaply as the number produced increases) and of an accelerating rate of cost inflation. They also found that marginal cost varied between 40–65% of average cost.

Martin Feldstein analyzed the cost implications of differences in the intensity of utilization of a given stock of facilities (Chapter 5). He was specifically concerned with the average and marginal costs of short-run increases in the rate of case-flow. The marginal cost of a case was found to be almost 21% of average cost, calculated at the mean values of the independent variables. Feldstein also calculated the MC/AC ratios for seven individual case-mix categories. The MC/AC ratios, by category, are: general medical, 0.17; pediatrics, 0.26; surgery, 0.21; ear-nose-throat, 0.47; gynecology, 0.03; obstetrics, 0.47; and others, 0.40. Feldstein also found a serious underutilization of the stock of hospital facilities in the short-run.

After evaluating the literature, with special emphasis on the above three studies, and with the assistance of the Bureau of Health Services Research and Evaluation of the Department of Health, Education, and Welfare, a marginal cost to average cost factor of 40% was included in the Phase IV regulations. If this adjustment were used from zero change in admissions, it would mean that an institution that was increasing in volume would be allowed only 40% of average cost and charge for each extra admission. The hospital that was declining in volume would be allowed to keep 60% of the average cost and charge of each lost admission, and recover the difference from the remaining patients.

There are, however, statistical indications that while the 40/60 ratio is a reasonable average, when volume of admissions increases the marginal cost may actually be somewhat higher, i.e., it costs more than 40% to service the increased admissions and that when volume is declining the fixed costs may be higher, i.e., a hospital cannot reduce its cost per case by 40%.[20] For this reason, and to reduce the need for hospitals to make charge adjustments for small changes in volume, a "zone of no adjustment" was created.

ZONE OF NO ADJUSTMENT

The imposition of the Phase IV volume adjustment is delayed for most hospitals, with the extent of the delay dependent on their size. For the first 2% increase in admissions for large hospitals (and 4% increase for small[21]) the 7.5% allowance is permitted over last year's per admission averages, with no adjustment required. That is to say, the hospital is allowed to assume that all costs are variable.

The large hospital that declines up to 5% in admissions (10% for small hospitals) is allowed to assume that all costs are fixed. That is to say, the hospital may keep its total budget at 107.5% of the last year's budget. Once volume changes go beyond these limits, the volume adjustment begins. The equations for calculating the percentage limits for each change in volume appear in the appendix. Much has been made of the marginal cost assumption and the potential harshness of the volume adjustment. The effect of the zone, however, is to postpone the volume adjustment and to liberalize the marginal cost assumption. Table 9 shows, for both large and small hospitals, the actual marginal cost assumption of the regulations, depending upon the change in volume that is actually experienced. A further modification in the volume adjustment formula is a limit on the required reduction in price for volume increases such that a hospital could impose at least a 3% increase in cost per admission. On the down-side a limit of 20% was imposed on the allowable cost increase per admission. These are shown in Table 9.

[18] P. Feldstein, "An Empirical Investigation of the Marginal Cost of Hospital Service," Chicago, University of Chicago, 1961.

[20] The American Hospital Association has been concerned with the 60–40 split of costs. They presented data that show that on the up-side, marginal costs are 80% of average costs and on the down-side, they are only 10–20% of average cost.

[21] A small hospital is defined as one with less than $2.5 million in budget or less than 4,000 admissions.

CASE-MIX ADJUSTMENT

There has also been much concern about the flexibility of the Phase IV system when a hospital's patient-mix changes. As many hospital services are shifted to out-patient settings, and as more illnesses become treatable, hospital patient-mix will become generally more complex, and perhaps also more expensive. There can also be shifts among institutions, with certain hospitals becoming referral centers for difficult cases.

The Phase IV controls include adjustment of revenues and costs that recognizes the increased costs of a more complex patient-mix. It is not part of the basic control system, and is placed in force at the option of the hospital. It will not be used to penalize hospitals that shift to less complex patients and is a self-executing adjustment.

The patient-mix adjustment procedure relies on either of two standard patient allocation systems. In addition, a hospital may use another allocation system with prior COLC approval. The procedure to allocate charges and expenses works in the following way. The current year's distribution of patients is determined by the category list below, and last year's total admissions are restated in these proportions.

ALLOCATION OF PATIENTS

1. Medical, Surgical, Obstetrics, Pediatrics, Psychiatric; OR

2. H-ICDA diagnostic codes representing at least 85% of the hospital's admissions, the balance being included in a residual "other" category.

A restated "total charges" for the last year is then calculated using the actual charge per case (in each category) multiplied by the restated number of admissions in that category, with all the results added. The restated total budget is then divided by the actual total admissions to get a restated average charge per admission for the last year. The percent by which this amount exceeds last year's actual average charge per admission is the increment which could be added to the basic control allowances for charges and expenses. There is, however, a potential bias in the assumption that expenses due to patient-mix changes will change by the same percentage as the charges. The more likely case is that the difference in costs would be greater than the difference in charges. This is due to the fact that charges for high cost items are often redistributed to room and board rates. Patients do not pay $800 per day for coronary care. They pay perhaps $250, with all the other patients absorbing $1–2 in their room rates. Therefore charge ratios might not reflect cost differences. If a hospital felt that the data were indeed not reflective of a particular situation, it could request an exception.

INCENTIVES UNDER PHASE IV

As in any system of control based on a particular unit of output, the incentive is to increase the volume of that unit. That is true of the Phase IV system as it was under Phase II. But Phase IV includes three features to minimize such undesirable incentives:

(1) It is more difficult to create an unnecessary admission than to extend each hospital stay one extra day or order some extra tests "just in case".

(2) The simple outpatient limitation (with no intensity limitation) does not inhibit the trend toward more services being performed on an outpatient basis.

(3) Finally, and most importantly, the hospital that increases its volume of admissions beyond the zone is required to recognize that all costs are not variable, and that some economies of scale should be realized. In contrast, the Phase II system allowed free rein to increase costs and charges one-for-one with volume increases.

The Phase II system worked in such a way as to have undesirable effects on the hospital that had declining length of stay or declining occupancy. The Phase IV regulations changed that situation. The Phase IV zone on the down-side is structured to allow hospitals to maintain their budgets even if volume decreases. This volume reduction might have been unanticipated, but it might also have been the result of an active program of utilization reivew or a movement to pre-admission testing. Either way, the institution is not forced into a position of having to stop such desirable and Federally required activities or face financial ruin.

Finally, the control limit itself was designed to provide for the needs of hospitals, although it will be necessary to exercise some measure of cost consciousness in order to continue operations without financial difficulties. The capital exception and patient-mix adjustment are added measures of flexibility to permit desirable growth and change in the industry.

APPENDIX

There are four regions of volume changes, and hence operating allowances, between the 20% ceiling and 3% floor of the Phase IV regulations. For those who wish to do their own calculations we list below the relevant equation for each region.

$$\text{Limitation} = \frac{ADM_B^{1.075}\left[1-\left(\frac{A}{ADM_B}\right)\cdot(C\cdot ADM_B)-(ADM_C)\right]}{ADM_C}-1$$

REGION 2—Negative change in admissions within the zone.

$$\text{Limitation} = \frac{ADM_B \cdot 1.075}{ADM_C}-1$$

REGION 3—Positive or no change in admissions within the zone—7.5% limitation.

REGION 4—Positive change in admissions beyond the zone (minimum allowance is 3%).

$$\frac{1.075}{ADM_C}\cdot[(C\cdot ADM_B)+.4(ADM_C-(C\cdot ADM_B))]-1$$

NOTATION

ADM_B = Number of admissions in the base year.
ADM_C = Number of admissions in the control year.
C = Zone level, defined as ratio (e.g., −5% zone is .95, +2% is 1.02).
1.075 = Base standard.

7. In 6 CFR Part 155, § 155.21(c) and (d) is amended to read as follows:

§ 155.21 Purpose and scope.

* * * * * *

(c) Except as provided in § 150.415 with respect to health insurers, insurers subject to Subpart M of Part 150 of this chapter shall make all filings pursuant to that subpart and shall file requests for interpretation with the Cost of Living Council, Insurance Division, 2000 M Street, N.W., Washington, D.C. 20508.

(d) Institutional providers of health services subject to Subpart O and persons subject to Subpart R of Part 150 of this chapter shall file requests for interpretation and shall make all other filings with the Office of Health, Cost of Living Council, 2000 M Street, N.W., Washington, D.C. 20508.

8. In 6 CFR Part 155, § 155.41(a) is amended to read as follows:

§ 155.41 Purpose and scope.

Exceptions from the provisions of Part 150 of this title may be granted for the purpose of preventing or correcting a serious hardship or gross inequity.

(a) All persons requesting exceptions shall file their applications with the key IRS District Office which serves the district in which their corporate headquarters are domiciled except that persons who are: (1) Insurers subject to subpart M of part 150 of this chapter, shall file with the Cost of Living Council, Insurance Division, 2000 M Street, N.W., Washington, D.C. 20508 and (2) Institutional providers of health services subject to subpart O and persons subject to subpart R of Part 150 of this chapter, shall file with the Office of Health, Cost of Living Council, 2000 M Street, N.W., Washington, D.C. 20508. All requests for exception, wherever filed, must conform to the requirements set out in § 155.11.

Pages 11407–11516

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

EXECUTIVE ORDERS—
Abolishing the Energy Policy Office 11415
Amending Executive Order No. 11768, Placing Certain Positions in Levels IV and V of the Executive Schedule .. 11413

ENVIRONMENT—
EPA proposed regulations for control of thermal discharges; comments by 5–28–74 11434
EPA lists applications for pesticide registration 11459

PASSENGER CAR TIRES—DoT responds to petitions for reconsideration of revised performance requirements; effective 3–29–74 11423

HEALTH SERVICES—HEW proposes scholarship program for health specialties; effective 3–28–74, comments by 4–12–74 11430

NEW DRUGS—FDA proposes to amend "directions for use" requirements for bulk packages; comments by 5–28–74 11430

FISHERIES—Commerce Department proposed amendments to financial aid program procedures; comments by 6–26–74 11429

AIR FARES—CAB investigation of proposed fuel-related increases 11451

TEXTILE IMPORTS—CITA adjusts import levels for certain products from Thailand 11458

MUTUAL FUNDS—SEC proposes to liberalize certain sale confirmation requirements; comments by 5–3–74 11441

(Continued inside)

PART II:

EFFLUENT LIMITATIONS—
EPA guidelines for the electroplating point source category; effective 5–28–74 11510
Proposed application of EPA guidelines for existing sources to pretreatment standards for incompatible pollutants for the electroplating category; comments by 4–29–74 11515

REMINDERS

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

DoT—Delegation of authority to Under Secretary and General Counsel regarding United States Railway Association..... 7424; 2–26–74

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

ECONOMIC STABILIZATION—
CLC exempts cordage and twine firms from Phase IV regulations; effective 3–26–74..... 11425
CLC extends acute care hospitals and long term care institutions filing deadline to 4–15–74..... 11425

MEETINGS—
HEW: Secretary's Advisory Committee on the Rights and Responsibilities of Women, 4–4 and 4–5–74..... 11449
Health Resources Administration, National Advisory Bodies, April meetings (2 documents)..... 11447, 11448
DoD: U.S. Army Transportation School Board of Visitors, 4–24 through 4–27–74..... 11444
Board of Advisors of the Industrial College of the Armed Forces, 4–5–74..... 11444
Defense Intelligence Agency Scientific Advisory Committee, 4–2, 4–3, and 4–4–74..... 11444
USDA: Forest Service, Descanso District Grazing Advisory Board, 4–16–74..... 11446
National Advisory Council on the Education of Disadvantaged Children, 4–4 and 4–5–74..... 11471
Civil Service Commission: Federal Prevailing Rate Advisory Committee, 4–4, 4–18, and 4–25–74..... 11458
Committee on Private Voluntary Agency Eligibility, 4–2–74..... 11458
AEC: Licensing Procedures, 4–16–74..... 11434
GSA: Special Study Committee on the Selection of Architects and Engineers, 4–4 and 4–5–74..... 11451
Commission on Revision of the Federal Court Appellate System, 4–2–74..... 11458
Office of Management and Budget: Business Advisory Council on Federal Reports, 4–11–74..... 11471
National Science Foundation: Advisory Panel for Physics, 4–4 and 4–5–74..... 11471
CITA: Importers Textile Advisory Committee, 4–11–74.. 11458
National Advisory Council on Supplementary Centers and Services, 4–4–74..... 11504
Federal Energy Office: Northeast Group of the Petroleum Industry Advisory Committee (Independent Sector), 4–4–74..... 11504
Electric Utilities Committee, 3–29–74..... 11504
MEETING CHANGE—CITA: Management-Labor Textile Advisory Committee..... 11459

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published seperately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

EXECUTIVE ORDER 11774

Amending Executive Order No. 11768, Placing Certain Positions in Levels IV and V of the Executive Schedule

By virtue of the authority vested in me by section 5317 of title 5 of the United States Code, as amended, section 1 of Executive Order No. 11768,[1] of February 20, 1974, placing certain positions in level IV of the Executive Schedule, is amended by deleting "(7) Director of Program Analysis and Evaluation, Department of Defense." and inserting in lieu thereof "(7) Director of Telecommunications and Command and Control Systems, Department of Defense.".

Richard Nixon

THE WHITE HOUSE,
March 26, 1974.

[FR Doc. 74-7290 Filed 3-26-74; 1:56 pm]

[1] 39 FR 6693, February 22, 1974.

V 39 61 MAR 28 74 XUM

EXECUTIVE ORDER 11775

Abolishing the Energy Policy Office

Executive Order No. 11726 of June 29, 1973, established in the Executive Office of the President an Energy Policy Office. Executive Order No. 11748 of December 4, 1973, established in the Executive Office of the President a Federal Energy Office. In order to permit an orderly transition, the Energy Policy Office was continued in being on an interim basis. That transition has been successfully completed and the Energy Policy Office should now be abolished.

NOW, THEREFORE, by virtue of the authority vested in me as the President of the United States of America it is hereby ordered as follows:

SECTION 1. The Energy Policy Office is hereby abolished and Executive Order No. 11726 of June 29, 1973, is hereby superseded.

SEC. 2(a). Section 8 of Proclamation No. 3279, as amended, is hereby amended to read as follows:

"SEC. 8. The Oil Policy Committee shall consist of the Administrator of the Federal Energy Office as Chairman, and the Secretaries of State, the Treasury, Defense, the Interior, Agriculture, Commerce, and Transportation, the Attorney General, the Chairman of the Council of Economic Advisers, and the Administrator of the Environmental Protection Agency. The President may, from time to time, designate other officials to serve as members of the Committee."

(b) The Oil Policy Committee, as reconstituted by the amendment made by subsection (a) of this section, is hereby continued.

(c) So much of the personnel, property, records, and unexpended balances of appropriations, allocations, and other funds employed, used, held, available, or to be made available in connection with the functions transferred by the amendment made by subsection (a) of this section from the Director of the Energy Policy Office, to the Administrator of the Federal Energy Office, as Chairman of the Oil Policy Committee, as the Director of the Office of Management and Budget shall determine, in conformity with section 202(b) of the Budget and Accounting Act of 1950 (31 U.S.C. 581c(b)), shall be transferred at such time or times as he shall direct for use in connection with the functions transferred.

(d) Executive Order No. 11743 of October 23, 1973, is hereby superseded.

SEC. 3. The Administrator of General Services shall take such steps as may be necessary to wind up the affairs of the Energy Policy Office, and unobligated funds, if any, that may remain available to defray the expenses of that Office shall be returned to the Emergency Fund of the President.

Richard Nixon

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Revision 1, Amendment 2]

PART 106—SBA RULES AND REGULATIONS

Lease Guarantee

On January 28, 1974, there was published in the FEDERAL REGISTER (39 FR 3573) a notice that the Small Business Administration proposed to amend 13 CFR Part 106. A proposed addition to § 106.12 permits SBA, as insurer, to postpone the requirement that the lessor evict the defaulting tenant to obtain claim payments for defaulted rent, where such action is in the best interest of SBA and the small business tenant. The revisions to § 106.11 bring this section into conformance with the change to § 106.12. The new § 106.18 sets forth the rights and obligations of any assignee of the lease guarantee insurance policy. The change to § 106.10 permits the use of deductible period up to 6 months where it is in the interest of the insurer.

Prior to adoption of the amendments, a period of thirty (30) days from the date of publication was given for comments from interested parties. Since no comments have been received, 13 CFR Part 106 is hereby amended.

1. Revise § 106.10(a)(2) as follows:

§ 106.10 Minimizing the risk.

(a) • • •

(2) The lessor shall accept an insurance policy providing for a deduction of from three (3) to six (6) months rent due after the date of default as the amount of loss to be borne by the lessor, as determined by the insurer.

2. Revise § 106.11 (c), (d), and (h) as follows:

§ 106.11 Lessor's duties to lessee and insurers.

• • • • •

(c) Unless such default is corrected by amicable agreement of the lessee and lessor on or before 30 days from date of notice, the lessor will take prompt action to terminate the occupancy of the lessee, to make such repairs to the property as are necessary to restore it to its original condition, ordinary wear and tear excepted, and to deliver vacant possession to the insurer unless the requirement for vacant possession is postponed pursuant to § 106.12(c): *Provided, however,* This shall not be construed to prohibit improvements in the premises permitted by the lease.

(d) If such default is not corrected by the lessee, the lessor shall utilize the entire period for which there are funds available in escrow for the payment of rental claims (or the deductible period) in reasonably diligent efforts to eliminate or minimize losses by rerenting the property covered by the lease to another lessee subject to the approval of the insurer for the purpose of retaining the insurance coverage unless vacant possession has been postponed pursuant to § 106.12(c).

• • • • •

(h) Upon filing a claim for guaranteed rent in default, the lessor will continue to make reasonably diligent effort to minimize losses by assisting the insurer to locate a prospective lessee. Upon such filing and the exhaustion of the escrowed fund or the expiration of the deductible period, the lessor shall deliver vacant possession to the insurer with the right to rerent the premises unless vacant possession has been postponed pursuant to § 106.12(c).

3. Add the following paragraph (c) to § 106.12:

§ 106.12 Insurer's rights.

• • • • •

(c) The insurer may pay claims for the guaranteed rent where the lessor has been notified by the insurer, in writing, to postpone dispossession of the lessee, if in the judgment of the insurer it would be in the best interest of the insurer or the lessee and consistent with SBA's statutory purpose to permit the lessee to continue to occupy the property.

4. Add the following new § 106.18:

§ 106.18 Rights and obligations of assignees of the lease rerental-guarantee insurance policy.

An assignee of a lease rental guarantee insurance policy becomes a loss payee for its interest in rental payments made by the insurer after default by the tenant through an assignment of interest endorsement to the policy. Such rental payments will be made only when the lessor, or the assignee acting as lessor, is in compliance with the provisions of the policy and 106.11 of these regulations.

Effective date. This amendment shall become effective on March 28, 1974.

THOMAS S. KLEPPE,
Administrator.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 73-EA-108]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Airways

On January 17, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 2107) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would realign V-123 and V-467 southwest of LaGuardia, N.Y.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t. May 23, 1974, as hereinafter set forth.

Section 71.123 (39 FR 307) is amended as follows:

a. In V-123 "Robbinsville; LaGuardia, N.Y.;" is deleted and "Robbinsville; INT Robbinsville 044° and LaGuardia, N.Y., 209° radials; LaGuardia;" is substituted therefor.

b. In V-467 "Millville, INT Millville 037° and LaGuardia, N.Y., 211° radials;" is deleted and "Millville; INT Millville 037° and LaGuardia, N.Y., 209° radials;" is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on March 21, 1974.

RAYMOND M. MCINNIS,
Acting Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 73-NW-18]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation and Redesignation of Federal Airways

On January 29, 1974, a notice of proposed rule making (NPRM) was pub-

V 39 61 MAR 28 74 XUM

lished in the FEDERAL REGISTER (39 FR 3686) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would extend VOR Federal Airway No. 121 from Eugene, Oreg., to McCall, Idaho, and redesignate the segment of V–121 between Eugene, Oreg., and Redmond, Oreg., as V–121N.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 23, 1974, as hereinafter set forth.

Section 71.123 (39 FR 307) is amended as follows:

In V–121 "INT Eugene 070° and Redmond, Oreg., 281° radials; Redmond." is deleted and "Redmond, Oreg.; including a N alternate via Eugene 070° and Redmond 281° radials; Kimberly, Oreg.; Baker, Oreg.; to McCall, Idaho." is substituted therefor.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on March 22, 1974.

RAYMOND M. MCINNIS,
Acting Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 73–AL–21]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Federal Airway and Designation of Transition Area

On January 29, 1974, a notice of proposed rule making (NPRM) was published in the FEDERAL REGISTER (39 FR 3687) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would realign VOR Federal Airway No. 317S between Johnstone Point, Alaska, and Anchorage, Alaska, and designate a 700-foot transition area in the vicinity of Johnstone Point, Alaska.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., May 23, 1974, as hereinafter set forth.

1. Section 71.125 (39 FR 340) is amended as follows:

In V–317 "Anchorage, including a south alternate via Johnstone Point 275° and Anchorage 130° radials" is deleted and "Anchorage, including a south alternate via INT Johnstone Point 271° and Anchorage 130° radials" is substituted therefor.

2. Section 71.181 (39 FR 440) is amended by adding:

JOHNSTONE POINT, ALASKA

That airspace extending upward from 700 feet above the surface within 4 miles north and 5 miles south of the Johnstone Point VORTAC 286° and the 106° radials, extending from 5 miles east to 23 miles west of the VORTAC; within a 35 mile radius of the Johnstone Point VORTAC, extending clockwise from the north edge of V–317 to the 332° radial of the VORTAC; and within 5 miles northeast of the Johnstone Point VORTAC 332° radial extending from the VORTAC to 23 miles northwest of the VORTAC.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on March 22, 1974.

RAYMOND M. MCINNIS,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74–7071 Filed 3–27–74;8:45 am]

Title 15—Commerce and Foreign Trade

CHAPTER III—DOMESTIC AND INTERNATIONAL BUSINESS ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER B—EXPORT REGULATIONS

PART 379—TECHNICAL DATA

Export Administration Regulations

Before exporting technical data relating to certain processes and commodities to Country Groups T and V under the provisions of General License *GTDR*, the exporter must obtain from the importer a written assurance that neither the technical data nor the direct product thereof is intended to be shipped, directly or indirectly, to a destination in Country Group Q, W, Y, or Z.

The export of technical data and services related to those processes and commodities listed in §§ 379.4(e) (1) (i) and (ii) no longer requires a written assurance since these commodities have been decontrolled to the SZ level and may now be exported under General License *G–DEST* to Country Group Q, W, or Y.

Accordingly, §§ 379.4(e) (1) (i) and 379.4(e) (1) (ii) of the Export Administration Regulations are deleted and reserved for future use.

Effective Date: March 20, 1974.

RAUER H. MEYER,
Director,
Office of Export Administration.

[FR Doc.74–7234 Filed 3–27–74;8:45 am]

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

PART 239—FORMS PRESCRIBED UNDER THE SECURITIES ACT OF 1933

Correction

In Release No. 33–5100 dated November 12, 1970, which was published in the FEDERAL REGISTER for November 24, 1970 at 35 FR 17992, the Commission announced certain revisions in the instructions and items to Form S–7 (17 CFR 239.26). The effect of such revisions was not reflected in an amendment to 17 CFR 239.26 through an oversight. Accordingly, current editions of Title 17 of the Code of Federal Regulations should be corrected by revising § 239.26 of Chapter II thereof to read as follows:

§ 239.26 Form S–7, for registration under the Securities Act of 1933 of securities of certain issuers to be offered for cash.

Any registrant which meets the following conditions may use this form for registration under the Securities Act of 1933 of any securities which are offered for cash by or on behalf of the registrant or any other person, in a rights offering or otherwise:

(a) The registration meets either of the following conditions:

(1) Has a class of equity securities registered pursuant to Section 12(b) of the Securities Exchange Act of 1934; or

(2) Is organized under the laws of the United States or any State or Territory or the District of Columbia, has its principal business operations in the United States or its Territories and has a class of equity securities registered pursuant to section 12(g) of the above Act.

(b) The registrant has been subject to and has complied in all respects, including timeliness, with the requirements of sections 13 and 14 of the Securities Exchange Act of 1934 for a period of at least three fiscal years immediately preceding the filing of the registration statement on this form.

(c) A majority of the existing board of directors of the registrant have been directors of the registrant or a predecessor of the registrant from the beginning of the registrant's last three fiscal years to the date of filing the registration statement on this form.

(d) The registrant and its subsidiaries have not during the past ten years defaulted in the payment of any dividend or sinking fund installment on preferred stock, or in the payment of any principal, interest or sinking fund installment on any indebtedness or borrowed money, or in the payment of rentals under long term leases.

(e) The registrant and its consolidated subsidiaries had a net income, after taxes but before extraordinary items net of tax effect, of at least $500,000 for each of the last five fiscal years.

(f) If the securities to be registered are common stock or securities convertible into common stock, the registrant earned in each of the last five fiscal years any dividends, including the fair market value of any stock dividends, paid in each such year on all classes of securities. If the registrant paid a stock dividend in any of such fiscal years, the aggregate amount transferred from additional capital to capital in respect of each such dividend was charged only to retained earnings account and was equal to the aggregate fair market value of the stock issued as such dividend.

For the Commission, by the Division of Corporation Finance pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

MARCH 11, 1974.

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Reg. No. 5, further amended]

PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED

Certification Procedure for Providers and Suppliers of Services; Redesignation of Subpart

On January 17, 1974, there were published in the FEDERAL REGISTER amendments to Part 405 of Chapter III of Title 20 (39 FR 2237). These amendments included the addition of Subpart T of Part 405 relating to certification procedure for providers and suppliers of services under the Medicare program. The new subpart contains sections numbered §§ 405.1901–405.1910.

At present, there are 18 subparts in Regulations No. 5, designated by letters A through Q and T. Subparts R and S are reserved. In order to reserve the Subpart R and T designations (rather than R and S) for corresponding section numbers series § 405.1801 et seq. and § 405.2001 et seq., Part 405 (20 CFR Part 405) is amended as follows:

Subpart T, Certification Procedure for Providers and Suppliers of Services, is redesignated Subpart S.

(Sec. 1871, 79 Stat. 331; 42 U.S.C. 1395hh)

Effective date. This amendment is effective on March 28, 1974.

Dated: March 12, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: March 21, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

[FR Doc.74–7182 Filed 3–27–74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 5A—FEDERAL SUPPLY SERVICE, GENERAL SERVICES ADMINISTRATION

PART 5A–11—FEDERAL, STATE, AND LOCAL TAXES

Exemptions From Federal Excise Taxes

This revision sets forth instructions to exempt from payment of Federal excise taxes GSA stock tires and tubes items which are ordered for direct delivery to overseas destinations.

Section 5A–11.270 is amended as follows:

§ 5A–11.270 Federal excise taxes.

• • • • • •

(a) Except when a contract is made on behalf of AID and the GSA Form 1246, GSA Supplemental Provisions (AID Procurement), is used as provided in § 5A–2.201–70(f) definite quantity contracts for nonstock items shall provide for the price to be exclusive of any Federal excise tax only if it is estimated that the amount of the tax will exceed $200. When making a definite quantity contract and it is estimated that the amount of the Federal excise tax will exceed $200 the clause set forth in § 1–11.401–3(b) shall be used.

(b) Where export delivery orders are issued under requirements type contracts which expressly set forth the Federal excise tax (e.g., as in contracts for tires and tubes), such orders shall exclude the Federal excise tax and the statement "For export or shipment to a possession" shall be entered on such orders. Where the Federal excise tax is not expressly set forth in the contract, purchase orders placed against such contracts shall be written including the Federal excise tax except where it is known (or estimated and the precise amount can be obtained from the contracting office) that the Federal excise tax exceeds $200, in which case the order shall exclude this tax.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)); 41 CFR 5–1.101(c))

Effective date. This regulation is effective on March 14, 1974.

Dated: March 14, 1974.

M. J. TIMBERS,
Commissioner, FSS.

[FR Doc.74–7164 Filed 3–27–74;8:45 am]

PART 5A–30—CONTRACT FINANCING

The following is to update the procedures and to add instructions on contract financing.

The table of contents for Part 5A–30 is revised to read as follows:

Subpart 5A–30.1—Forms of Financing

Sec.
5A–30.109 Partial payments—description.

Subpart 5A–30.2—Basic Policies

5A–30.212 Coordination before contract award.

Subpart 5A–30.4—Advance Payments

5A–30.403 Interest.
5A–30.405 Statutory requirements.
5A–30.406 Responsibility—delegation of authority.
5A–30.410 Findings, determinations, and authorization.
5A–30.412 Action by contracting officer.
5A–30.414 Agreement for special bank account and contract provisions.
5A–30.414–2 Contract provisions for advice payments.
5A–30.450 Procedure for approval.

Subpart 5A–30.5—Progress Payments Based on Costs

5A–30.503 Customary progress payments—standards.
5A–30.503–50 Use of benchmarks with progress payments based on costs.
5A–30.504 Formal advertising — small business restricted advertising.
5A–30.504–1 Progress payment provision in invitation for bids.
5A–30.504–4 Notice to bidders.
5A–30.505 Unusual progress payments—standards—procedure.
5A–30.510 Contract clauses.
5A–30.511 General instructions for progress payment clauses.
5A–30.511–2 Variation in percentages.
5A–30.512 Progress payment liquidation.
5A–30.517 Contract financing office clearance.
5A–30.521 Administration—general.
5A–30.524 Suspension or reduction of payments—general.
5A–30.525 Government title.
5A–30.550 Eligibility for progress payments.
5A–30.551 Explanation of limitations and illustrations of their application.
5A–30.551–1 Total costs basis.
5A–30.551–2 Direct labor and materials costs basis.
5A–30.551–3 Illustrations.

Subpart 5A–30.7—Assignment of Claims

5A–30.702 Conditions governing assignment of claims.
5A–30.702–70 Requirements-type and indefinite quantity contracts.
5A–30.703 Contract clause—assignment of claims.
5A–30.703–70 Requirements-type and indefinite quantity contracts for use by more than one agency.
5A–30.703–71 Definite quantity contracts and requirements-type or indefinite quantity contracts for use only by GSA.
5A–30.706 Procedures upon receipt of notice of assignment and instrument of assignment.
5A–30.706–70 Requirements-type and indefinite quantity contracts for use by more than one agency.
5A–30.706–71 Definite quantity contracts and requirements-type or indefinite quantity contracts for use only by GSA.
5A–30.707 Further assignments and reassignments.

Subpart 5A–30.1 is added as follows:

Subpart 5A–30.1—Forms of Financing

§ 5A–30.109 Partial payments—description.

Partial payments shall be made as provided in § 1–7.102–7 and Clause 7 of Standard Form 32, General Provisions (Supply Contract).

Subpart 5A–30.2 is added as follows:

Subpart 5A–30.2—Basic Policies

§ 5A–30.212 Coordination before contract award.

(a) *Definitions.* As used in this § 5A–30.212, the following terms shall have the meanings set forth below:

(1) "Financial provisions" means provisions for payments (generally), partial payments, progress payments, advance payments, insurance provisions, or any other financial terms and conditions contained in or proposed to be included in an invitation for bids, solicitation of proposals, or resultant contract.

(2) "Standard financial provisions" means financial provisions which have been formally prescribed by the FPR, GSPR, or otherwise authorized by the Administrator, Assistant Administrator for Administration, a Regional Adminis-

V 39 61
MAR 28 74
XUM

trator, or a Regional Director of Administration, as appropriate.

(3) "Nonstandard financial provisions" means financial provisions (or proposed additions, deletions, or other modifications with respect to standard financial provisions) which have not been formally prescribed in accordance with § 5A-30.212(a)(2).

(4) "Appropriate financial office" means the Director of Finance, OAD, or the regional Director, Finance Division, for regional contracts.

(b) *Assistance in development of financial provisions.* It is imperative that adequate and appropriate financial provisions are developed or properly used in accordance with Part 1–30 and this Part 5A–30. The appropriate financial office shall, upon request, provide technical advice and assistance in the development of all financial aspects of invitations for bids, solicitations of proposals, and resultant contracts. In addition, although there is no requirement to do so, advice may be requested by the procuring activity as to the adequacy of proposed contracts containing standard financial provisions.

(c) *Clearances.* Invitations for bids, requests for proposals, and amendments of existing contracts involving nonstandard financial provisions shall be forwarded to the appropriate financial office for review as early as possible during the procurement process. In all cases such review shall be prior to execution or submission of a contract to higher authority for clearance or approval. In cases of proposed additions, deletions, or other modification regarding standard financial provisions, applicable deviation procedures (§ 5A–1.109) must also be followed.

(d) *Action by appropriate financial office.* Where a matter has been referred to a financial office for review or clearance, that office shall immediately notify the contracting officer as to the sufficiency of the financial provisions. If financial provisions are proposed which are inadequate or improper, such deficiencies will be explained together with recommended remedial measures which must be taken.

Subpart 5A–30.4 is added as follows:

Subpart 5A–30.4—Advance Payments

§ 5A–30.403 Interest.

The Office of Finance, OAD, will inform procuring activities of the interest rate to be charged on the unliquidated balance of all advances payments.

§ 5A–30.405 Statutory requirements.

The determination required under § 1–30.405(c) shall be prepared by the contracting officer in cooperation with the appropriate legal counsel and representatives of the Director of Finance, OAD, or the regional Finance Division for regional contracts.

§ 5A–30.406 Responsibility—delegation of authority.

The responsibility and authority for making findings and determinations with respect to advance payments, and in each case for approval of contract provisions for advance payments, or for approval of the terms and conditions thereof, shall be exercised by the appropriate Commissioner or his designee.

§ 5A–30.410 Findings, determinations, and authorization.

The findings, determinations, and authorizations for advance payments provided under § 1–30.410 shall be made by the appropriate Commissioner or his designee in accordance with § 5A–30.406.

§ 5A–30.412 Action by contracting officer.

See § 5A–30.450.

§ 5A–30.414 Agreement for special bank account and contract provisions.

§ 5A–30.414–2 Contract provisions for advance payments.

The contracting officer shall prepare contract provisions for advance payments after coordination with the appropriate legal counsel and representatives of the Director of Finance, OAD, or the regional Director, Finance Division, for regional contracts.

§ 5A–30.450 Procedure for approval.

The required findings and determinations, proposed advance payments clauses, supporting data and recommendation (see § 1–30.412), and an indication of compliance with the procedures of Subpart 1–30.4 shall be submitted by the contracting officer after coordination in accordance with §§ 5A–30.405 and 5A–30.414–2 to the appropriate Commissioner, or his designee for review and approval.

Subpart 5A–30.5 is added as follows:

Subpart 5A–30.5—Progress Payments Based on Costs

§ 5A–30.503 Customary progress payments—standards.

§ 5A–30.503–50 Use of benchmarks with progress payments based on costs.

In unusual circumstances it may be desirable for progress payments based on costs (see § 1–30.501) to provide for the achievement of specified benchmarks prior to the receipt of progress payments where payments prior to the achievement of such benchmarks are not in the best interest of the Government. For example, such a benchmark might be the submission and acceptance of a preproduction or pilot model.

(a) The making of progress payments based on costs under any individual contract or class of contracts may be conditioned, in unusual circumstances, upon the achievement of specified benchmarks during the performance of the contract where the appropriate Commissioner determines in writing, based on all relevant facts, that the use of benchmarks is in the best interest of the Government. Where such a determination has been made, an appropriate provision establishing one or more such benchmarks shall be included in the invitation for bids or request for proposals and each resulting contract.

(b) Benchmarks may not be used in such a manner that their effect is to convert progress payments based on costs into progress payments based on a percentage or stage of completion. Where the use of progress payments based on a percentage or stage of completion is desired, such use shall be approved by the appropriate Commissioner as provided in § 1–30.501.

§ 5A–30.504 Formal advertising—small business restricted advertising.

§ 5A–30.504–1 Progress payment provision in invitation for bids.

(a) Where the contracting officer determines that the time between starting performance (usually immediately following date of award) and delivery of the first end items will be of short duration (6 months or less), the need for progress payments will ordinarily be obviated.

(b) Upon written determination by the contracting officer, provision for progress payments may be included in an invitation for bids even though one or more of the criteria enumerated in § 1–30.504–1(a)(2) or in (a) of this § 5A–30.504–1 may apply. Such determination must demonstrate that provision for progress payments is practical or reasonably necessary by documenting compliance with the appropriate standards and procedure concerning unusual progress payments set forth in § 1–30.505.

§ 5A–30.504–4 Notice to bidders.

When the notice set forth in § 1–30.504–4(b) is included in an invitation to bid, such notice shall include the following statement as an additional part thereof:

If a bidder desires progress payments, and accompanies his bid with a written request therefor, he shall also check the appropriate box below:

☐ Progress payments are desired but bid is not conditioned on receiving progress payments.

☐ Bid is conditioned on receiving progress payments.

(NOTE.—1. If a bid is conditioned on the availability of progress payments and bidder is found ineligible for such payments, the bid will be rejected. 2. Submission of a bid without requesting progress payments does not preclude the bidder from later requesting progress payments in accordance with applicable regulations, prior to or after award of the contract.)

§ 5A–30.505 Unusual progress payments—standards—procedure.

The appropriate Commissioner or his designee shall exercise responsibility for the approval or disapproval of requests for unusual progress payments on a case-by-case basis.

§ 5A–30.510 Contract clauses.

The contracting officer shall select the appropriate progress payment clause to be used in a particular contract after coordinating the matter with appropriate legal counsel and the Director of Finance, OAD, or regional Director, Finance Division, for regional contracts.

§ 5A–30.511 General instructions for progress payment clauses.

For general explanation and illustrations of the limitations (expressed in terms of the percentages specified in §§ 1–30.511–2, 1–30.511–3, and 1–30.511–4) on amounts of payments and liquidation incorporated in the progress payments clauses, see § 5A–30.551.

§ 5A–30.511–2 Variation in percentages.

Provision for progress payments based on costs at rates in excess of 70 percent of total costs or 85 percent of direct labor and material costs (either or both), as stated in paragraph (a)(1) of the clauses in §§ 1–30.510–1 and 1–30.510–2, or in excess of the respective percentages applicable to contracts with small business concerns (see §§ 1–30.503, 1–30.504–2, and 1–30.504–3), shall be made only with the approval of the appropriate Commissioner or his designee and the Director of Finance, OAD, or the Regional Director of Administration for regional contracts in accordance with the standards and procedures set forth in § 1–30.505.

§ 5A–30.512 Progress payment liquidation.

Recovery at rates lower than those specified in paragraph (b) of the clauses in §§ 1–30.510–1 and 1–30.510–2 may be made only with the approval of the appropriate Commissioner or his designee and the Director of Finance, OAD, or the Regional Director of Administration for regional contracts. The Office of Finance or the regional Director, Finance Division, in the case of regional contracts, will provide assistance to contracting officers in estimating costs for the purpose of establishing the liquidation rate.

§ 5A–30.517 Contract financing office clearance.

The contract financing office clearance required by § 1–30.517 shall be the responsibility of the Director of Finance, OAD, or the Regional Director of Administration for regional contracts.

§ 5A–30.521 Administration—general.

The Office of Finance, OAD, shall establish adequate administrative and fiscal procedures to ensure the accomplishment of the fiscal aspects of § 1–30.521. The Director of Finance, OAD, or the regional Director, Finance Division, for the appropriate regional accounting center, shall promptly report to the contracting officer the date and amount of each progress payment to a contractor and shall provide the contracting officer with written recommendations whenever findings are made which warrant action by the Government. (See § 1–30.216)

§ 5A–30.524 Suspension or reduction of payments—general.

Action recommended by the contracting officer under § 1–30.524 shall be submitted to the appropriate Commissioner or his designee for approval after coordination with the appropriate legal counsel and representatives of the Director of Finance, OAD, or the regional Director, Finance Division, for regional contracts. The circumstances and decision shall be documented in an appropriate finding as provided in § 1–30.524.

§ 5A–30.525 Government title.

In the interest of clarifying the provision of § 1–30.525, it should be noted that (a) the clauses in §§ 1–30.510–1(a) and 1–30.510–2(a) provide for the passage of title to property to the Government as of the date of the contract, and (b) the clauses in §§ 1–30.510–1(b) and 1–30.510–2(b) provide for the passage of title to property to the Government when any progress payment is made under the contract.

§ 5A–30.550 Eligibility for progress payments.

(a) Contracting officers shall determine the eligibility of contractors or prospective contractors to receive progress payments. The determination shall be approved by the appropriate Commissioner or his designee and the contractor or prospective contractor and the Office of Finance, OAD, or the regional Director, Finance Division, as appropriate, for regional contracts, shall be so notified. (See § 1–30.507) Contract files shall include appropriate documentation which supports such determinations.

(b) To be eligible to receive a progress payment, a contractor or prospective contractor must:

(1) Have submitted a written request therefor;

(2) Have been found responsible under the provisions of §§ 1–1.1200, 5A–1.1205, and 1–30.210; and

(3) Have an accounting system and controls adequate for the proper administration of the Progress Payments clause as described in § 1–30.506.

§ 5A–30.551 Explanation of limitations and illustrations of their application.

In accordance with § 1–30.510, all progress payment clauses must include limitations expressed in terms of percentages controlling the total amount of each progress payment, the aggregate amount of progress payments, the rate of liquidation of progress payments, and the amount of unliquidated progress payments. These limitations are described in (a) through (d) of this § 5A–30.551.

(a) A limitation on the total amount of each progress payment, expressed in terms of the cumulative costs to the contractor which are allocable to the contract (referred to in this § 5A–30.551 as percentage A), and included in paragraph (a)(1) of the clauses set forth in §§ 1–30.510–1 and 1–30.510–2.

(b) A limitation on the aggregate amount of progress payments, expressed in terms of a percentage of the total contract price (referred to in this § 5A–30.551 as percentage B), and included in paragraph (a)(4) of the clauses set forth in §§ 1–30.510–1 and 1–30.510–2(a) and in the second percentage space indicated in paragraph (a)(3) of the clause set forth in § 1–30.510–2(b).

(c) A limitation, expressed in terms of a percentage, prescribing the minimum portion of the payments for delivered items which must be applied toward the reduction of unliquidated progress payments (referred to in this § 5A–30.551 as percentage C), and included in paragraph (b) of the clauses set forth in §§ 1–30.510–1 and 1–30.510–2.

(d) A limitation on the amount of unliquidated progress payments at any one time, expressed in terms of the percentage specified in paragraph (a)(3) of the clauses set forth in §§ 1–30.510–1 and 1–30.510–2(a) and in the first percentage space indicated in paragraph (a)(3) of the clause set forth in § 1–30.510–2(b) (referred to in this § 5A–30.551 as percentage D), which provides that the amount of such unliquidated progress payments shall not exceed the lesser of the specified percentage (percentage D) of either (1) the contractor's total costs or costs of direct labor or material, as the case may be, plus any unliquidated progress payments to subcontractors, both of which are applicable only to the supplies and services not yet delivered and invoiced to and accepted by the Government, or (2) the total contract price of supplies and services not yet delivered and invoiced to and accepted by the Government, less unliquidated advance payments.

§ 5A–30.551–1 Total costs basis.

When either of the total costs type progress payments clauses set forth in § 1–30.510–1 is used, the maximum payments made (percentage A) may not ordinarily exceed 70 percent of the cumulative total costs allocable to the contract (see § 5A–30.511–2 regarding use of higher percentages). Under these clauses, percentage A is established first, and percentages B, C, and D are always the same as percentage A, except that a lower percentage for percentage C may be established pursuant to § 1–30.512–2. A discussion of these percentages and related computations are set forth in detail in §§ 1–30.511–3 and 1–30.512.

§ 5A–30.551–2 Direct labor and materials costs basis.

When the progress payment clause is based on costs of direct labor and materials (or based on narrower and more limited costs such as direct labor only or specified direct costs other than direct labor and material costs) utilizing the types of clauses set forth in § 1–30.512–2, the maximum progress payments made (percentage A) may not ordinarily exceed 85 percent of the cumulative direct labor and materials costs (or other specified costs) allocable to the contract. Under these types of clauses, percentage A is established first. (See § 5A–30.511–2 regarding the use of higher percentages.) The percentage used for B, C, and D equals the percentage which is to percentage A as the amount of estimated costs forming the basis for the progress

V 39 61 MAR 28 74 XUM

payments is to the amount of the estimated total costs. (For a percentage C lower than the percentage computed pursuant to this method and § 1–30.512–1(b), see § 1–30.512–2.) A discussion of the percentages and related computations for these clauses are set forth in detail in §§ 1–30.511–4, 1–30.511–5, and 1–30.512.

§ 5A–30.551–3 Illustrations.

(a) In paragraphs (b) and (c) of this section, the following hypothetical contract values are used to illustrate the computation and application of the limiting percentages described in this § 5A–30.551:

(1) Total contract value: $100,000.

(2) Total costs: $90,000.

(3) Costs of direct labor and materials: $63,000.

(4) Value of delivered items at contract prices: $60,000.

(5) Value of undelivered items at contract prices: $40,000.

(6) Value of invoice submitted for payment of delivered items: $60,000.

(7) Percentage A (total costs basis): 70%.

(8) Percentage A (direct labor and materials costs basis): 85%.

(b) Under a total costs clause, percentage A is 70 percent by hypothesis (see § 5A–30.551–3(a)(7)) and percentages B, C, and D are 70 percent by definition. Accordingly, the dollar values of the factors corresponding to the limiting percentages are as follows:

Factor limited by percentage	Computation	Limit value of factor
A	$90,000×70%	$63,000
B	$100,000×70%	70,000
C	$60,000×70%	42,000
D	$40,000×70%	28,000

(c) Under a direct labor and materials costs clause, percentage A is 85 percent by hypothesis. (See § 5A–30.551–3(a)(8).) By definition, percentages B, C, and D are computed:

(1) By establishing a ratio as follows:

(B, C, or D)[1] : Percentage A = Costs of direct labor and materials : Total costs
(B, C, or D)[1] : 0.85 = $63,000 : $90,000

(2) Calculating the percentages as follows:

$$(B, C, \text{ or } D) = 0.85 \times \frac{63{,}000}{90{,}000}$$

$$(B, C, \text{ or } D) = 0.85 \times 0.70$$

$$(B, C, \text{ or } D) = 0.60 \text{ or } 60\%$$

(Percentage rounded off for purposes of this illustration.)

Factor limited by percentage	Computation	Limit value of factor
A	$63,000×85%	$53,550
B	$100,000×60%	60,000
C	$60,000×60%	36,000
D	$40,000×60%	24,000

[1] Percentages.

Subpart 5A–30.7—Assignment of Claims

1. Section 5A–30.706 is added as follows:

§ 5A–30.706 Procedures upon receipt of notice of assignment and instrument of assignment.

When complying with the procedures set forth in §§ 1–30.706(a)(3) and 1–30.707 with respect to the acknowledgement of an assignment or reassignment of claims in proper form, the contracting officer shall at the same time notify the contractor (assignor) that all future invoices or other requests for payment under the contract shall specify the name and address of the assignee and include a notation that payments due thereunder have been duly assigned and should be made to the named assignee.

2. Section 5A–30.707 is added as follows:

§ 5A–30.707 Further assignments and reassignments.

See § 5A–30.706.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. These regulations are effective on the date shown below.

Dated: March 15, 1974.

M.J. TIMBERS,
Commissioner,
Federal Supply Service.

[FR Doc.74–7174 Filed 3–27–74;8:45 am]

CHAPTER 14H—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

PART 14H—GENERAL

Designation of Contracting Officer Positions

Chapter 14H of 41 CFR was published in the FEDERAL REGISTER for August 26, 1969, at 38 FR 13659. Chapter 14H contains the Bureau of Indian Affairs Procurement Regulations (BIAPR). Section 14H–1.451–2 of Chapter 14H was subsequently amended, most recently on page 32258 of the November 23, 1973, FEDERAL REGISTER (38 FR 32258).

Pursuant to the authority contained in the Act of November 2, 1921, Ch. 115, 42 Stat. 208 (25 U.S.C. 13) and 41 CFR 14–1.008, 41 CFR 14H–1.451–2 is being amended to reflect organization and title changes and to add several positions to the list of contracting officer positions. The position of Property and Supply Officer, Administrative Services Center, Albuquerque, New Mexico has been abolished. In lieu of that position, the Administrative Officer and the Procurement Officer at the Administrative Services Center in Albuquerque are designated as contracting officer positions. In addition, the Director of Southeastern Agencies is also designated as a contracting officer position.

Since this amendment involves internal Bureau procedures, advance notice and public procedure thereon have been deemed unnecessary and are dispensed with under the exception provided in subsection (b)(B) of 5 U.S.C. 553 (1970).

Since delay in the amendment becoming effective could delay the internal processing of contracts in the Bureau with resultant delay in providing services to the Indian and Alaskan Native people, the 30-day deferred effective date is dispensed with under the exception provided in subsection (d)(3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective March 28, 1974.

As amended, 41 CFR 14H–1.451–2 reads as follows:

§ 14H–1.451–2 Designation of contracting officer positions.

(a) Each of the following organizational titles are designated as contracting officer positions:

(1) Headquarters Office Officials:

(i) Commissioner.

(ii) Deputy Commissioner.

(iii) Director, Office of Administration.

(iv) Chief, Division of Contracting Services.

(v) Chief, Division of Procurement and Property Management.

(vi) Chief, Division of Facilities Engineering, Albuquerque, New Mexico.

(vii) Chief, Indian Technical Assistance Center, Denver, Colorado.

(viii) Administrative Officer, Administrative Services Center, Albuquerque, New Mexico.

(ix) Procurement Officer, Administrative Services Center, Albuquerque, New Mexico.

(2) Area Office Officials:

(i) Area Director.

(ii) Deputy Area Director.

(iii) Assistant Area Director, Minneapolis and Sacramento Area Offices.

(iv) Assistant Area Director for Administration.

(v) Area Administrative Officer.

(vi) Area Property and Supply Officer.

(vii) Director, Seattle Liaison Office, Seattle, Washington.

(viii) Director of Southeastern Agencies.

LAFOLLETTE BUTLER,
Acting Deputy Commissioner of Indian Affairs.

MARCH 18, 1974.

[FR Doc.74–7120 Filed 3–27–74;8:45 am]

Title 47—Telecommunications

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[FCC 74–34; Docket No. 19493]

PART 1—PRACTICE AND PROCEDURE

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

PART 21—DOMESTIC PUBLIC RADIO SERVICES (OTHER THAN MARITIME MOBILE)

PART 43—REPORTS OF COMMUNICATION COMMON CARRIERS AND CERTAIN AFFILIATES

In the matter of amendments of Parts 1, 2, 21, and 43 of the Commission's rules and regulations to provide for licensing and regulation of common carrier radio stations in the Multipoint Distribution Service.

1. The Commission has before it a Motion for Extension of Time filed March 18, 1974 by Counsel for Microband Corporation of America and ten other MDS applicants requesting a one month extension of time (through April 19, 1974), for filing amendments to pending applications in compliance with the Report and Order, released January 18, 1974 (FCC 74–34), appearing at 39 FR 2760, Jan. 24, 1974, and corrected at 39 FR 7134, Feb. 25, 1974. It is stated that this extension is required to allow sufficient time to prepare complete and meaningful amendments to bring numerous MDS applications presently pending into compliance with the new rules.

2. We recognize that some attorneys and consulting engineers are directly involved with revision of a large number of applications. Therefore, we believe a 30 day extension would be equitable and reasonable. However, at the end of such period we will review all applications to determine if they have been amended. It is anticipated that those that have not be amended by such date (or the Commission otherwise notified that no amendment is required to bring them into compliance with the rules) will be dismissed.

3. *Accordingly, it is hereby ordered,* Pursuant to the authority of Section 0.303 (e) of the Commission's Rules, that the time for filing amendments to applications as specified in paragraphs 26 and 28 of said Report and Order, supra, is extended to and including April 19, 1974.

Adopted: March 19, 1974.

Released: March 21, 1974.

[SEAL] KELLEY E. GRIFFITH,
Acting Chief,
Common Carrier Bureau.

[FR Doc.74–7181 Filed 3–27–74;8:45 am]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

[OST Docket No. 1; Amdt. 1–91]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Assistant Secretary for Environment, Safety, and Consumer Affairs

The Assistant Secretary for Environment, Safety and Consumer Affairs has previously been delegated, at 49 CFR 1.58(d)(1), functions vested in the Secretary by the Natural Gas Pipeline Safety Act of 1968 (August 12, 1968, Pub. L. 90–481, 82 Stat. 720; 49 U.S.C. 1671 et seq.). In 1972 the Act was amended (August 22, 1972, Public Law 92–401, 86 Stat. 616). The purpose of this amendment is to clarify that it is those functions which are vested by the Act as amended which are delegated to the Assistant Secretary.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure thereon are unnecessary and it may be made effective in fewer than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, 49 CFR 1.58(d)(1) is revised to read as follows:

§ 1.58 Delegations to Assistant Secretary for Environment, Safety and Consumer Affairs.

(d) • • •

(1) The Natural Gas Pipeline Safety Act of 1968, as amended (49 U.S.C. 1671 et seq.).

Effective date. This amendment is effective March 28, 1974.

(Sec. 9(e), Department of Transportation Act (49 U.S.C. 1657(e)); 49 CFR 1.59(m).)

Issued in Washington, D.C., on March 21, 1974.

RODNEY E. EYSTER,
General Counsel.

[FR Doc.74–7150 Filed 3–27–74;8:45 am]

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM–86; Amdt. Nos. 173–76, 177–28, 178–29]

PART 173—SHIPPERS

PART 177—SHIPMENTS MADE BY WAY OF COMMON, CONTRACT, OR PRIVATE CARRIERS BY PUBLIC HIGHWAY

PART 178—SHIPPING CONTAINER SPECIFICATIONS

Cargo Tank Use and Testing, Compressed Gases in Portable and Cargo Tanks, and Specification MC 331

On October 5, 1973, the Hazardous Materials Regulations Board ("the Board") published Amendment Nos. 173–76, 177–28, 178–29 (38 FR 27595) under Docket No. HM–86 which deleted obsolete requirements, updated the regulations, made editorial changes pertaining to the specification for the MC 331 cargo tank, and amended the requirements for the use and testing of portable and cargo tanks. A petition has been received to delay the effective date for § 178.337–11(c).

Included in the amended regulations was a requirement for a remotely controlled internal shut-off valve on each liquid and vapor discharge opening in a tank used for a flammable liquid, flammable compressed gas, or anhydrous ammonia. The Board has received a petition from the National LP-Gas Association to extend until October 1, 1974, the effective date for mandatory compliance with the requirement for an internal shut-off valve having a 1¼-inch diameter on liquefied petroleum gas tank trucks that have water capacities of 3,500 gallons or less. The amendments to the regulations were to become mandatorily effective March 31, 1974.

The reason for this requested delay is that the National LP-Gas Association states that it has been advised by manufacturers of internal valves that there is not a sufficient supply of 1¼-inch diameter internal shut-off valves available to meet the sudden demand brought about by § 178.337–11(c), as amended. The Association states that a six months extension of time for mandatory compliance would alleviate this temporary shortage condition.

The Board considers that the request for delay of the effective date for § 178.337–11(c) for cargo tanks of 3500 gallons or less to be reasonable and valid. In consideration of the foregoing, the Board has revised the next to the last paragraph of FR Doc. 73–21252 (38 FR 27595) to read as follows:

Amendment Nos. 173–76, 177–28, 178–29, except for § 178.337–11(c) as it pertains to cargo tanks having a water capacity of 3500 gallons or less, are effective March 31, 1974, and are effective in their entirety on September 30, 1974. However, compliance with the regulations, as amended therein, is authorized immediately.

(Transportation of Explosives Act (18 U.S.C. 831–835), section 6 of the Department of Transportation Act, (49 U.S.C. 1655); Title VI and section 902(h) of the Federal Aviation Act of 1958, (49 U.S.C. 1421–1430, 1472 (h), and 1655(c)))

Issued in Washington, D.C. on March 25, 1974.

ALAN I. ROBERTS,
Secretary.

[FR Doc.74–7210 Filed 3–27–74;8:45 am]

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 71–10; Notice 5]

PART 571—MOTOR VEHICLE SAFETY STANDARDS

New Pneumatic Tires: Revised Performance Requirements; Response to Petitions for Reconsideration

This notice responds to petitions for reconsideration received in response to the notice, published September 28, 1973 (38 FR 27050), revising the performance requirements of Motor Vehicle Safety Standard No. 109 (49 CFR 571.109). That notice modified the criteria for tire failure when tires are subjected to the high speed performance and endurance tests of the standard.

Timely petitions for reconsideration were received from five parties: The Firestone Tire and Rubber Company, Rubber Manufacturers' Association, Uniroyal Tire Company, B. F. Goodrich Tire Company, and the General Tire and Rubber Company. The petitions requested the agency to reconsider the definition of "innerliner separation" and the requirement that the tire be removed from the test wheel for inspection immediately after the prescribed tests are completed.

The petitions have argued that the definition of "innerliner separation" (a "parting of the innerliner from the carcass") is inconsistent with the defini-

V 39 61 MAR 28 74 XUM

tion of "carcass" ("the tire structure, except tread and sidewall rubber"), for the former unlike the latter creates the inference that the innerliner is not part of the carcass. One petitioner (B. F. Goodrich) argued that innerliner should not be considered part of the carcass and would redefine carcass to so specify. The NHTSA agrees with the comments which argue that the definition of "innerliner separation" should reflect that the innerliner is part of the carcass. That definition is accordingly modified as recommended by the petitions to mean a separation of the innerliner from the cord material of the carcass. The NHTSA believes no ascertainable benefit would be achieved by further distinctions within the definition of "carcass." The requirement prohibiting the separation of the innerliner from the carcass cord material is the same whether or not the definition of "carcass" is further refined.

The petitions also state that innerliner is frequently composed of more than one layer of material. The definition of innerliner is revised to take this into account. However a separation of one innerliner layer from another does not constitute "innerliner separation" under the standard. That term means only a separation of the innerliner from the carcass cord material. The requirements specify that "visual evidence" of enumerated conditions will constitute a failure to the standard. The NHTSA believes the visual test, which has been consistently used in the past, to be satisfactory. However, in the case of innerliner separation, the visual evidence may not reflect an actual separation of the cord material from the innerliner. In such cases the standard is not intended to preclude a more detailed examination of the condition, including a cutting of the tire. This procedure has been afforded to manufacturers in past NHTSA enforcement efforts, and is considered consistent with the revised requirements.

The petitions also requested modification of the requirement that each tested tire be removed from the test wheel for inspection immediately after its testing is completed. The petitions argue that rapid deflation of a hot tire can cause innerliner separation. While several petitions recommended that the tire be allowed to cool to ambient temperature, Uniroyal has indicated that a one-hour period had been found sufficient to eliminate the chance that artificially caused separations will occur. The NHTSA agrees with the comment from Uniroyal that a one-hour period is adequate for the tire to cool and has amended the standard accordingly.

The Rubber Manufacturers' Association has argued that minor nicks and tears in the tread which would not grow in size during service might be improperly considered "chunking" under the standard. RMA alludes to the discussion of the micro-siping process in the preamble to the notice of September 28, 1974, claiming it recognizes that small pieces of the tread can be broken away which do not affect performance. The standard is clear that chunking in a new tire before testing will be considered a failure. A minor tear in the tread does not appear to involve a removal of rubber from the tire, and is not within the definition of chunking. Whether a "nick" in the tread represents chunking would necessarily be based on its size. As in micro-siping, minor tread loss resulting from the manufacturing process that is evident before test does not constitute a failure. Any loss resulting from the laboratory wheel test is a failure.

In light of the above, Motor Vehicle Safety Standard No. 109, "New Pneumatic Tires," appearing at 49 CFR 571.109, is amended as set forth below.

1. Paragraph S3., *Definitions*, is amended by revising the definitions of "innerliner" and "innerliner separation," as follows:

"Innerliner" means the layer(s) forming the inside surface of a tubeless tire that contains the inflating medium within the tire.

"Innerliner separation" means the parting of the innerliner from cord material in the carcass.

2. Identical paragraphs S5.4.2.4 and S5.5.5 are amended to read:

Immediately after running the tire the required time, measure its inflation pressure. Allow the tire to cool for one hour. Then deflate the tire, remove it from the test rim, and inspect it for the conditions specified in S4.2.2.5(a).

Effective date: March 29, 1974. This amendment modifies slightly amendments whose effective date was originally established as the above date on September 28, 1973. As these amendments relieve restrictions, provide clarification, and impose no additional burden on any person, good cause is found for an effective date less than 30 days from publication.

(Secs. 103, 110, 201, and 202, Pub. L. 89-563, 80 Stat. 718, 15 U.S.C. 1392, 1407, 1421, and 1422; delegation of authority at 49 CFR 1.51)

Issued on March 25, 1974.

JAMES B. GREGORY,
Administrator.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER C—ACCOUNTS, RECORDS AND REPORTS

[No. 32155 (Sub-No. 3)]

PART 1207—UNIFORM SYSTEM OF ACCOUNTS FOR CLASS I AND CLASS II COMMON AND CONTRACT MOTOR CARRIERS OF PROPERTY

Revenue and Expense Accounts

At a general session of the Interstate Commerce Commission, held at its office in Washington, D.C., on the 20th day of March 1974.

Upon consideration of the record in the above-entitled proceeding, including the prior report and order of the Commission, 344 I.C.C. 373 (1973); and

(1) Joint petition of Household Goods Carriers' Bureau and American Movers Conference for reconsideration, filed December 14, 1973;

(2) Petition of Movers Round Table for leave to intervene, embracing tendered petition for reconsideration, filed December 27, 1973; and

It appearing, that Movers Round Table should be allowed to intervene; and that the petitions provide sufficient and adequate basis for waiving the requirement for authorized carriers to obtain a detailed schedule of revenues and expenses from their agents for the calendar year preceding the date of an agency agreement as set forth in 49 CFR Part 1207, Instruction 2 Records, paragraph (f)(i);

It further appearing, that, as noted in the prior report in this proceeding, 344 I.C.C. 373, 381, and in Household Goods—Agency Relationships, 115 M.C.C. 628 (1972), principal carriers are required to use due diligence and to exercise reasonable care in selecting and maintaining agents because the principals, holding the certificates of public convenience and necessity, are fully liable for all acts or omissions of their agents which relate to the performance of interstate transportation held out in the name of the principals or where shippers are misled to believe the transportation would be performed by the principals; that, accordingly, the Commission looks only to the principal carriers whose responsibility it is to see to it that their agents keep the same records as the principals, and that where an agent experiences reporting difficulties, it is the principal's responsibility to resolve the matter by aiding the agent in its recordkeeping activities or terminating the agency where the agent is unable or unwilling to provide the principal with the appropriate records;

It further appearing, that the petitions therefore, except as noted above, set forth no material facts or arguments in addition to those previously considered in this proceeding; that the findings and conclusions in the prior report and order herein, except as modified in this order, are adequately supported by the record; and that no basis has been demonstrated for the relief sought other than as noted; and good cause appearing therefor:

It is ordered, That Movers Round Table be, and it is hereby, permitted to intervene and to participate fully in all future aspects of this proceeding.

It is further ordered, That the petitions, except to the extent granted herein be, and they are hereby denied.

It is further ordered, That 49 CFR Part 1207, Instruction 2, Records, paragraph (f)(i) be, and it is hereby, amended as set forth below.

It is further ordered, That this order shall become effective upon its date of service.

And it is further ordered, That service of this order shall be made on all parties to the proceeding; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and filing a copy with the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

(49 Stat. 546, as amended, 563 as amended, and 564, as amended, (49 U.S.C. 304, 320, and 322))

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

In 49 CFR Part 1207, in Instruction 2 *Records*, paragraph (f) is amended to read as follows:

2. Records.

• • • • • •

(f) Carriers classified as household goods carriers shall also comply with the following requirements.

(1) As evidence of the financial condition of agents required in § 1056.19(b) of this chapter, Required Filings Relating to Agency Agreements, the authorized carrier shall acquire from each of its agents (i) an income statement for the calendar year preceding the effective date of the agency agreement and (ii) a balance sheet as of the last day of said year. Annually thereafter, for each year an agency agreement is in effect th authorized carrier shall acquire the required statements and a detailed schedule of operating revenues and expenses, from each of its agents no later than the time for the filing of the authorized carrier's annual report with the Commission. The required financial statements shall be prepared in accordance with the prescribed schedules for such statements in the annual report form filed with the Commission by the authorized carrier.

(2) The agents' annual financial statement shall be retained by the authorized carrier in a separate file as part of its required records for a period of 3 years.

[FR Doc.74-7214 Filed 3-27-74;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

Acute Care Hospitals and Long-Term Care Institutions, Extension of Time To File Notices of Election To Be Governed Under Subpart O or Subpart R

The purpose of these amendments is to extend from April 1, 1974, to April 15, 1974, the deadline for acute care hospitals and long term care institutions to file notices of their election to be governed under Phase II/III regulations (Subpart O of Part 150) or under Phase IV regulations (Subpart R of Part 150).

The original filing date deadline of March 31, 1974, was included in the Phase IV regulations pertaining to health care (Subpart R) issued on January 16, 1974, 39 FR 2670 (January 23, 1974). Because March 31 falls on a Sunday, the date was changed to April 1 as part of a series of recent amendments to those regulations issued on March 20, 1974, 39 FR 11371 (March 27, 1974). To provide an opportunity for consideration of health regulation refinements incorporated in the March 20 amendments and because reporting forms relating to those regulations were not available to all concerned hospitals and institutions until mid-March, the Council, in response to a number of requests, has decided to allow additional time for the hospitals and institutions concerned to make their elections and file the required notices. These amendments to the filing dates do not change the references to April 1, 1974, in § 150.701(a)(2) or § 150.769(a)(2) with regard to fiscal years.

Since these amendments merely grant additional time for complying with previously prescribed election and filing requirements, the Council finds that publication of notice for public comment is not required and that the amendments can be made effective in less than 30 days after publication.

In consideration of the foregoing 6 CFR 150.701 and 150.769 are amended as set forth below, effective March 26, 1974.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730; 38 FR 19345; Cost of Living Council Order Number 14, 38 FR 1489)

Issued in Washington, D.C., on March 26, 1974.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

1. In 6 CFR 150.701(b), the second sentence is amended to read as follows:

§ 150.701 Scope and applicability.

• • • • • •

(b) • • • The written notice of election must be filed with the Administrator, Office of Health, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508, not later than April 15, 1974, or mailed to the Administrator by certified or registered mail (return receipt requested) postmarked not later than April 15, 1974. • • •

• • • • • •

2. In 6 CFR 150.769(b), the second sentence is amended to read as follows:

§ 150.769 Scope and applicability.

• • • • • •

(b) • • • The written notice of election must be filed with the Administrator, Office of Health, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508, not later than April 15, 1974, or mailed to the Administrator by certified or registered mail (return receipt requested) postmarked not later than April 15, 1974. • • •

• • • • • •

[FR Doc.74-7301 Filed 3-26-74;3:30 pm]

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

PART 152—COST OF LIVING COUNCIL PHASE IV PAY REGULATIONS

Cordage and Twine; Price and Pay Exemptions

The purpose of these amendments is to exempt the sale of cordage and twine by firms which manufacture those products and to add a parallel exemption to the Phase IV pay regulations.

In accordance with the Council's objective to remove controls selectively where conditions permit, the Council has decided to exempt the sale by manufacturers of cordage and twine products listed in the Standard Industrial Classification Manual, 1972 edition, under Industry No. 2298. The products listed include rope, cable, cordage, twine, and related products manufactured from abaca, sisal, henequen, hemp, cotton, paper, jute, flax, man-made fibers including glass, and other fibers.

The cordage and twine industry faces serious shortages of both raw materials and processed fibers. For example, the supply of agricultural twine to be used in baling the 1974 hay crop is expected to fall 15 to 20 percent short of the projected demand. Hay baling is the primary use for natural cordage and twine in the U.S. (about 90 percent of the annual hay crop is now baled, and of this less than one-fifth is baled with wire). Unless relieved, this projected shortage could reduce the supply of hay used for feed and have a detrimental effect on the dairy industry.

Approximately 90 percent of finished cordage and twine used in the U.S. is imported, and over 90 percent of the domestic industry's output of natural fiber twine is made from imported raw materials such as sisal and abaca. With world demand for raw fibers outstripping supply (the entire U.S. stockpile of sisal was sold in 1973), the Council expects that this exemption will encourage expanded domestic production of synthetic products such as polypropylene twine. In the short run, the exemption should also encourage domestic production of natural fibers. Currently, the U.S. produces only 7 to 10 percent of its raw material requirements for natural baling twine.

Only the sale by the manufacturer of products listed under Industry No. 2298 is exempt. Other items which may be generically similar but are not listed do not come within the scope of these amendments.

Under §§ 150.11(e) and 150.161(b), a firm with revenues in its most recent fiscal year from the sale of exempt items remains subject to the profit margin constraints and reporting provisions of the Phase IV program unless it derived both less than $50 million in annual sales or revenues from the sale or lease of nonexempt items and 90 percent or more of its sales and revenues from the sale of exempt items or exempt sales.

As a complementary action to the exemption from price controls, the Council has also exempted pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the cordage and twine industry. The exemption is set forth in new § 152.391. *Establishment in the cordage and twine industry* is defined as an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Industry No. 2298

V 39 61
MAR 28 74
XUM

(Cordage and Twine) and primarily engaged in the manufacture of products classified under such Industry Number. The exemption is inapplicable to any employee who receives an item of incentive compensation or who is a member of an executive control group. The exemption is also inapplicable to any employee whose duties and responsibilities are not of a type exclusively performed in or related to the cordage and twine industry and whose pay adjustments are historically related to the pay adjustments of employees performing such duties outside the industry and are not related to the pay adjustments of other employees that are within the exemption. The exemption is further inapplicable to employees who are part of an appropriate employee unit where 25 percent or more of the members of such unit are not engaged on a regular and continuing basis in the operation of an establishment in the cordage and twine industry or in support thereof. In cases of uncertainty of application, inquiries concerning the scope or coverage of the pay exemption should be addressed to the Administrator, Office of Wage Stabilization, PO. Box 672, Washington, D.C. 20044.

As with all exemptions from Phase IV controls, firms subject to these amendments remain subject to review for compliance with appropriate regulations in effect prior to this exemption. A firm affected by these amendments will be held responsible for its pre-exemption compliance under all phases of the Economic Stabilization Program. A firm affected by this exemption alleged to be in violation of stabilization rules in effect prior to this exemption is subject to the same compliance actions as a nonexempt firm. These compliance actions include investigations, issuance of notices of probable violation, issuance of remedial orders requiring rollbacks or refunds, and possible penalty of $2,500 for each stabilization violation.

The Council retains the authority to reestablish price and wage controls over the industry exempted by these amendments if price or wage behavior is inconsistent with the policies of the Economic Stabilization Program. The Council also has the authority, under §§ 150.-162 and 152.6, to require firms to file special or separate reports setting forth information relating to the Economic Stabilization Program in addition to any other reports which may be required under the Phase IV controls program.

Because the purpose of these amendments is to grant an immediate exemption from the Phase IV price and pay regulations, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making these amendments effective in less than 30 days. Interested persons may submit written comments regarding these amendments. Communications should be addressed to the Office of the General Counsel, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345, Cost of Living Council Order No. 14, 38 FR 1489).

In consideration of the foregoing, 6 CFR Parts 150 and 152 are amended as set forth herein, effective March 26, 1974.

Issued in Washington, D.C., on March 26, 1974.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

1. In 6 CFR Part 150, § 150.58 is amended to add a new paragraph (h) to read as follows:

§ 150.58 Additional price adjustments.

* * * * *

(h) *Cordage and twine.* The prices which manufacturers of the following products charge for those products are exempt: The products listed in the Standard Industrial Classification Manual, 1972 edition, under Industry No. 2296 (Cordage and Twine).

2. In 6 CFR Part 152, Subpart D is amended by adding thereto a new § 152.39i to read as follows:

§ 152.39i Cordage and twine industry.

(a) *Exemption.* Pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the cordage and twine industry or in support of such operation are exempt from and not limited by the provisions of this title.

(b) *Establishment in the cordage and twine industry.* For purposes of this section, "Establishment in the cordage and twine industry" means an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Industry Number 2298 and primarily engaged in the manufacture of products classified under such Industry Number.

(c) *Covered employees.* For purposes of this section, an employee is considered to be engaged on a regular and continuing basis in the operation of an establishment in the cordage and twine industry or in support of such operation only if such employee is employed at an establishment in the cordage and twine industry and only if such employee is employed by the firm which operates such establishment.

(d) *Limitations.* The exemption provided in paragraph (a) of this section shall not be applicable to—

(1) An employee who receives an item of incentive compensation subject to th provisions of § 152.124, § 152.125, or § 152.126.

(2) An employee who is a member of an executive control group (determined pursuant to § 152.130).

(3) Employees whose occupational duties and responsibilities are of a type not exclusively performed in or related to the cordage and twine industry and whose pay adjustments are—

(i) Historically related to the pay adjustments of employees performing such duties outside the cordage and twine industry; and

(ii) Not related to pay adjustments of another unit of employees engaged on a regular and continuing basis in the operation of an establishment in the cordage and twine industry or in support of such operation within the meaning of paragraph (c) of this section.

(4) Employees who are members of an appropriate employee unit if 25 percent or more of the employees who are members of such unit are not engaged on a regular and continuing basis in the operation of an establishment in the cordage and twine industry or in support of such operation.

(e) *Effective date.* The exemption provided in this section shall be applicable to pay adjustments with respect to work performed on and after March 26, 1974.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 318]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period March 29–April 4, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.618 Navel Orange Regulation 318.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges was easier during the past week. Prices f.o.b. averaged $3.31 a carton on a reported sales volume of 1,421 carlots last week, compared with an average f.o.b. price of $3.36 per carton and sales of 1,569 carlots a week earlier. Track and rolling supplies at 831 cars were up 41 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this regulation until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this regulation effective during the period herein specified; and compliance with this regulation will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 26, 1974.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period March 29, 1974, through April 4, 1974, are hereby fixed as follows:

(i) District 1: 1,260,000 cartons;

(ii) District 2: 140,000 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 27, 1974.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–7359 Filed 3–27–74;10:20 am]

[Valencia Orange Reg. 457]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period Mar. 29–Apr. 4, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.757 Valencia Orange Regulation 457.

(a) *Findings.* (1) Pursuant to the marketing agreement as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuatae the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee reports that prices f.o.b. averaged $7.61 per carton on a reported sales volume of 67 carlots last week, compared with an average f.o.b. price of $2.74 per carton and sales of 64 carlots a week earlier.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require

V 39 61 MAR 28 74 XUM

any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 26, 1974.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period March 29, 1974, through April 4, 1974, are hereby fixed as follows:

(i) District 1: Unlimited;

(ii) District 2: Unlimited;

(iii) District 3: 125,000 cartons.

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: March 27, 1974.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Customs Service

[19 CFR Part 4]

VESSELS IN FOREIGN AND DOMESTIC TRADES

Provision of Information Relative to Collection of Navigation Fee

Notice is hereby given that under the authority of 5 U.S.C. 301, R.S. 251, as amended (19 U.S.C. 66), R.S. 2654, as amended (19 U.S.C. 58), R.S. 4382, as amended (46 U.S.C. 330), sections 440, 624, 46 Stat. 712, as amended, 759 (19 U.S.C. 1440, 1624), and section 501, 65 Stat. 290 (31 U.S.C. 483a), it is proposed to amend § 4.98 of the Customs Regulations to set forth additional information relative to the collection of navigation fee number 5, which is collected whenever an American or foreign vessel is required to file a post entry covering merchandise or baggage which was not included in or did not agree with the manifest. Section 4.98 presently sets forth additional information regarding the collection of each of the eight navigation fees listed in that section, except fee number 5. As a result, some uncertainty has arisen with respect to the proper collection procedures for fee number 5.

Consequently, in order to provide additional information regarding the collection of fee number 5, it is proposed to amend § 4.98, Customs Regulations, by adding a new paragraph (e–1) between paragraphs (e) and (f) to read as follows:

§ 4.98 Navigation fees.

* * * * *

(e–1) Fee 5 shall be collected from a foreign or American vessel at each port where the vessel is required to file a post entry in accordance with the provisions of § 4.12(a)(3). An original post entry may be supplemented by additional post entries in instances where items were omitted from the original post entry. A separate fee shall be collected for each supplemental post entry made to the original post entry.

* * * * *

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20229. To insure consideration of such communications, they must be received on or before April 29, 1974.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.8(b) of the Customs Regulations (19 CFR 103.8(b)), at the Regulations Division, Headquarters, United States Customs Service, Washington, D.C., during regular business hours.

[SEAL] G. R. DICKERSON,
Acting Commissioner of Customs.

Approved: March 19, 1974.

JAMES B. CLAWSON
Acting Assistant Secretary of the Treasury.

National Oceanic and Atmospheric Administration

[50 CFR Part 251]

FINANCIAL AID PROGRAM PROCEDURES

Fishery for Salmon in Alaska

MARCH 21, 1974.

Notice is hereby given that the Director, National Marine Fisheries Service, National Oceanic and Atmospheric Administration, has under consideration an amendment to the regulations (50 CFR Part 251) which sets forth financial aid program procedures.

It is the intent of Part 251 of this chapter that financial assistance programs will not be made available when upon review of situations and conditions at hand, as well as prospective developments, the Director deems that the use of such financial assistance programs would not be consistent with the wise use and with the development, advancement, management, conservation, and protection of fisheries resources.

The proposed amendment, as set forth below, would incorporate in subpart B of the regulation a new § 251.21 to classify the "fishery for salmon in Alaska" as a Conditional Fishery as the term is defined in § 251.1(i).

The principal situations and conditions under consideration for determining that the "fishery for salmon in Alaska" is in need of regulation under Part 251 of this chapter are described in the following Explanatory Statement.

Federal and State agencies as well as the public will be given time and opportunity to comment on this proposed amendment. Comments that are received will be evaluated giving full consideration to the national interest and the multiplicity of environmental, biological, economic, social, and other situations and conditions as the Director may deem relevant. Upon evaluation of all comments and available information the Director will take action as may be appropriate and will continue to monitor and assess situations and conditions related to the "fishery for salmon in Alaska" to determine the continued need for regulation. This proposed amendment is published pursuant to the authority contained in section 4 of the Fish and Wildlife Act, 1956, as amended, Title XI of the Merchant Marine Act, 1936, as amended, Section 607 of the Merchant Marine Act, 1936, as amended, the National Environmental Policy Act, and Reorganization Plan No. 4 of 1970.

Written views, data, or arguments on this proposed amendment should be submitted to the Director, National Marine Fisheries Service, Washington, D.C. 20235. All communications received on or before June 26, 1974, will be considered before action is taken with respect to adoption of the proposed amendment. No public hearing is contemplated at this time; however, any persons desiring a public hearing may request such a hearing by writing to the Director, National Marine Fisheries Service, Washington, D.C. 20235. In the event that a public hearing is found necessary, an appropriate notice to that effect will be published in the FEDERAL REGISTER.

By order of the Administrator, National Oceanic and Atmospheric Administration.

ROBERT M. WHITE,
Administrator.

Explanatory statement. The Director considers it necessary to classify the "fishery for salmon in Alaska" as a Conditional Fishery for regulation under Part 251 of this chapter. The necessary situations and conditions for such classification follow.

The "fishery for salmon in Alaska" is controlled by two regulatory agencies, the Alaska Department of Fish and Game and the Alaska Commercial Fisheries Entry Commission. These agencies consider that the number of fishermen participating in the harvest of salmon has reached acute levels in many areas. Thus, even though Alaska has developed a substantially improved biological management program for its salmon fishery, this fishery is not as healthy as it should be because a steadily increasing number of fishermen are participating in the harvest, including high seas fishing for salmon by foreign fleets. Consequently, from the dual perspective of adequate economic return to fishermen and manageability of the fishery, it is considered that there are presently too many units of salmon fishing gear being used in almost every salmon management area of Alaska.

V 39 61 MAR 28 74 XUM

The Alaska Department of Fish and Game has compared the number of units of salmon fishing gear registered in each management area with estimates of the optimum number required to fully harvest the resource. In almost every area existing levels of gear were found to be substantially above optimum levels necessary for a healthy fishery. This agency also determined that there were a growing number of instances where too much concentrated fishing pressure made sound management of the salmon fishery difficult, if not impossible. Therefore, in view of these situations and conditions involving excess fishing capacity, Alaska established the Alaska Commercial Fisheries Entry Commission to control future participation in its salmon fisheries. All fishermen will be required to obtain a permanent entry permit to fish in a "distressed fishery" after January 1, 1975. A "distressed fishery," as defined by Alaska, is a fishery where excessive numbers of gear detrimentally affect the ability to manage this fishery, or where returns to capital and labor are severely depressed. Once a fishery is declared distressed, the Commission will seek to reduce the number of entry permits to a level which will be manageable and wil provide a reasonable average rate of return to labor and capital. Alaska plans that a reduction of entry permits will be achieved through a voluntary buy-back program. It is recognized that fishing pressure for salmon in Alaska has increased to a level at which reductions, not additions, of vessels and gear are needed for Alaska to achieve its management and conservation objectives.

Consequently, the Director is considering that the "fishery for salmon in Alaska" should be a Conditional Fishery in accordance with Part 251 of this chapter as it now appears that the use of financial assistance programs to add vessel capacity to this fishery would not be consistent with the needs and objectives of management.

It is proposed to amend Part 251 of this chapter, Subpart B—Conditional Fisheries, to add a new § 251.21 as follows:

§ 251.21 Fishery for salmon in Alaska.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 1]

DRUGS IN BULK PACKAGES

Exemption for Processing, Repacking, or Manufacture

Section 1.106(l) of Part 1 (21 CFR 1.106(l)) sets forth certain requirements for drugs in bulk packages intended for a use in manufacture, processing, or repacking which causes the finished article to be a new drug.

The Commissioner of Food and Drugs, having been petitioned by Merck, Sharp & Dohme, Division of Merck & Co., Inc., West Point, PA 19486, to amend § 1.106 (l), has determined that there may be occasions prior to approval of a new drug application where these provisions could be unduly restrictive, could cause unnecessary delay in production of drugs, and are not in the public interest. For example, the present provisions preclude interstate shipment of a new drug active ingredient for manufacture into final dosage form, thus increasing by several weeks or months the time that it may take for a useful new drug to be marketed after approval of a new drug application. The Commissioner has therefore concluded that this regulation should be amended to provide for an exemption from these requirements, conditioned upon the requirements that there may be no shipment of the finished drug product after it is manufactured. This exemption will not apply to exports. Pertinent background material has been filed with the Hearing Clerk, Food and Drug Administration, Room 6-86, 5600 Fishers Lane, Rockville, MD 20852.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 201(n), 502, 505, 507, 701, 52 Stat. 1041, 1050-1053 as amended, 1055-1056 as amended by 70 Stat. 919 and 72 Stat. 948, 59 Stat. 463 as amended; 21 U.S.C. 321(n), 352, 355, 357, 701) and under authority delegated to him (21 CFR 2.120), the Commissioner proposes to amend Part 1 in § 1.106(l) by changing the period at the end of subparagraph (2) to a semicolon and by adding the word "or" immediately thereafter such semicolon, and by adding a new subparagraph (3). Section 1.106(l) is revised to read as follows:

§ 1.106 Drugs and devices; directions for use.

* * * * *

(l) * * *

(2) If no application is approved with respect to such new drug or new animal drug, the label statement "Caution: For manufacturing, processing, or repacking" is immediately supplemented by the words "in the preparation of a new drug or new animal drug limited by Federal law to investigational use," and the delivery is made for use only in the manufacture of such new drug or new animal drug limited to investigational use as provided in § 130.3 or § 135.3 of this chapter; or

(3) A new drug application covering the use of the drug substance in the production and marketing of a finished drug product has been submitted but not yet approved or disapproved, the bulk drug is not exported, and the finished drug product is not further distributed after it is manufactured.

* * * * *

Interested persons may, on or before May 28, 1974, file with the Hearing Clerk, Food and Drug Administration, Room 6-86, 5600 Fishers Lane, Rockville, MD 20852, written comments (preferably in quintuplicate) regarding this proposal. Comments may be accompanied by a memorandum or brief in support thereof. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: March 22, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

Public Health Service

[42 CFR Part 62]

PUBLIC HEALTH AND NATIONAL HEALTH SERVICE CORPS SCHOLARSHIP PROGRAM

Award of Scholarships

Section 225 of the Public Health Service Act, as added by section 5 of the Emergency Health Personnel Act Amendments of 1972 (Pub. L. 92-585) directs the Secretary of Health, Education, and Welfare to establish a scholarship program to obtain trained physicians, dentists, nurses and other health-related specialists for the National Health Service Corps and other units of the Public Health Service. The section further provides that any person who receives a scholarship under this program is obligated to serve as a commissioned officer in the Service or as a civilian in the National Health Service Corps on a year for year basis with at least one-half of such service spent providing health care and services in an underserved (shortage) area.

Notice is hereby given that the Assistant Secretary for Health, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 42, Code of Federal Regulations by adding a new Part 62 which sets forth the conditions and procedures for the award of scholarships to obtain trained health specialists for the National Health Service Corps and other units of the Public Health Service.

Interested persons are invited to submit written comments, suggestions, or objectives regarding the proposed regulations to the Director, Office of Personnel Management, Public Health Service, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852. Presently potential health professionals, for whom this program is designed, are completing their academic training and making decisions concerning their future employment. Delay in the adoption of the rules governing this program could not only deprive such persons of the opportunity for a scholarship but also adversely affect the Department's initial recruitment effort. In view of the foregoing, comments must be submitted on or before April 12, 1974. All comments received in response to this request will be available for public inspection in Room 18A-33 Parklawn Building, between the hours of 8:30 a.m. and 5 p.m., Monday through Friday.

It is therefore proposed to issue a new Part 62 as set forth below to be effective on the date of its republication in the FEDERAL REGISTER.

Dated: March 20, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: March 25, 1974.

CASPAR W. WEINBERGER,
Secretary.

PART 62—PUBLIC HEALTH AND NATIONAL HEALTH SERVICE CORPS SCHOLARSHIP PROGRAM

Sec.
62.1 Applicability.
62.2 Definitions.
62.3 Eligibility.
62.4 Application and selection.
62.5 Scholarship and tuition.
62.6 Designation of health related specialties and stipend amounts.
62.7 Service obligation.
62.8 Failure to perform.
62.9 Waiver or suspension.

AUTHORITY: Section 5, 86 Stat. 1293 (42 U.S.C. 234).

§ 62.1 Applicability.

The regulations in this part are applicable to scholarships awarded pursuant to section 225 of the Public Health Service Act, which authorized the Secretary to award scholarships in order to obtain trained physicians, dentists, nurses and other health-related specialists for the National Health Service Corps and other Units of the Public Health Service.

§ 62.2 Definitions.

As used in this part, the following terms shall have the following meanings:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(c) "School" means a public or private, school or medicine, osteopathy, dentistry, pharmacy, nursing or other health related specialty which provides a course of study, or a portion thereof, which leads respectively to a degree of Doctor of Medicine, Doctor of Osteopathy, Doctor of Dental Surgery or an equivalent degree, Bachelor of Science in pharmacy, an associate degree, diploma, or baccalaureate degree in nursing or an appropriate degree for the particular health specialty and which is accredited or assured accreditation by an accrediting agency or association that is recognized for such purpose by the United States Commissioner of Education, or where appropriate by the Secretary.

(d) "Full time student" means a student who is enrolled in a school pursuing a course of study leading to a degree or diploma and who is enrolled for a sufficient number of credit hours in any semester or other academic term to enable such student to complete the course of study within not more than the number of semesters or other academic terms normally required therefor at the school in which such person it enrolled.

(e) "Service" means the United States Public Health Service.

(f) "Academic year" means the traditional, approximately nine month September to June annual session. For the purpose of computing academic year equivalents for students who, during a twelve-month period, attend for a longer period than the traditional academic year, the academic year will be considered to be of nine-months duration.

(g) "Corps" means the National Health Service Corps.

§ 62.3 Eligibility.

To be eligible for a scholarship under this subpart an applicant must:

(a) Be accepted for enrollment, or be enrolled, as a full-time student in a school in the United States or its territories or possessions;

(b) Maintain an acceptable level of academic standing. For the purpose of this paragraph acceptable level of academic standing means the eligibility of a student to continue in attendance at the school where the student is enrolled in accordance with the school's standards and practices;

(c) Be eligible for, or hold, an appointment as a commissioned officer in the Regular or Reserve Corps of the Service or be selected for civilian service in the National Health Service Corps;

(d) Agree in writing to serve, as described in § 62.7 in the Commissioned Corps of the Service or as a civilian member of the National Health Service Corps;

(e) Be a citizen of the United States.

§ 62.4 Application and selection.

(a) An application for a scholarship under this subpart shall be submitted in such form and at such time as the Secretary may require.

(b) Applicants in the health-related specialties so designated by the Secretary pursuant to section 62.6 will be evaluated and selected by the Secretary taking into consideration (1) academic performance, (2) faculty recommendations, (3) work experience, and (4) relative need of the Service for particular health-related specialties.

§ 62.5 Scholarship and tuition.

(a) The Secretary may award scholarships for each approved academic year of training not to exceed four years for any individual recipient. The amount of the scholarship stipend which will be paid monthly shall be an amount not in excess of the basic pay and allowances of a commissioned officer, without dependents, on active duty in pay grade 0-1 with less than two years of service as established by the Secretary pursuant to § 62.6.

(b) The Secretary will contract or otherwise arrange for the payment of those tuition and other educational fees necessarily incurred by a full time student.

§ 62.6 Designation of health related specialties and stipend amount.

(a) The Secretary will from time to time designate and publish in the FEDERAL REGISTER those health-related specialties for which the Service has need and for which support under this subpart will be available.

(b) The Secretary will also from time to time determine and publish in the FEDERAL REGISTER the amount of the scholarship stipend for each health-related specialty for which support under this subpart will be available.

§ 62.7 Service obligation.

(a) A scholarship recipient is obligated to serve on active duty for one year as a Commissioned Officer in the Service or as a civilian member of the National Health Service Corps following completion of academic training, for each academic year of support or fraction thereof received under this program: *Provided, however,* That in no event shall a recipient serve less than two years.

(b) At least one-half the total period of service required by paragraph (a) of this section to be performed by each recipient shall be spent providing health care and services: (1) In an area designated under section 329(b) of the Act, as a critical health manpower shortage area; (2) as a member of the Indian Health Service or Federal Health Programs Service and in an area determined by the Secretary (under section 329 of the Act or otherwise) to have a health manpower shortage; or (3) in connection with any program designated by the Secretary, for the provision of health care and services in such an area.

(c) For recipients receiving a degree from a school of medicine, osteopathy, or dentistry, the commencement of a period of obligated service may be deferred for a period of time not to exceed one year for internship (or equivalent training) and for good cause shown, at the option of the Secretary for an additional period of time for residency training. Such periods of internship and residency shall not be creditable in satisfying an active duty service obligation, unless such internship and residency is served in a facility of the Public Health Service, or other facility of the National Health Service Corps.

(d) For recipients receiving degrees in other health-related specialties the obligated service period will commence upon completion of their academic training.

§ 62.8 Failure to perform.

(a) If, for any reason, a participant fails to complete an active duty service obligation, such participant shall be liable for the payment of an amount equal to the scholarship payments, tuition and other educational fees paid, plus interest at the maximum legal prevailing rate running from the date such payments were made. Any amount which the United States is entitled to recover under this paragraph, shall within the three year period beginning on the date on which it is determined that a breach occurred, be paid to the United States. For the purpose of this paragraph maximum legal prevailing rate of interest shall mean the maximum

FEDERAL REGISTER, VOL. 39, NO. 61—THURSDAY, MARCH 28, 1974

V 39 61 MAR 28 74 XUM

permissible rate prescribed by the District of Columbia Code on the day of breach applicable to this type of debt.

(b) When a person undergoing training in the program terminates academic training, he shall be liable for repayment to the United States for an amount equal to the cost of tuition and other educational expenses paid to or for such person from Federal funds plus any scholarship payments received by such person under the program. Repayment of such amount shall be within three years of the date of termination.

§ 62.9 Waiver or suspension.

(a) A person who fails to complete an active duty service obligation or who fails to complete academic training may seek waiver or suspension of any obligation incurred pursuant to § 62.7 upon written request to the Secretary setting forth the basis, circumstances and causes which support the requested action.

(b) The Secretary may waive or suspend any obligation under § 62.7 with respect to any individual whenever compliance by such individual:

(1) Is impossible or

(2) Would involve extreme hardship to such individual and if enforcement of such obligation with respect to any such individual would be against equity and good conscience.

(c) For the purpose of paragraph (b) (1) of this section compliance with an obligation by an individual will be deemed impossible, and such compliance will be waived, where the Secretary determines, on the basis of such information and documentation as he may require that the individual has died or suffers from a physical or mental disability that results in the inability of such individual to perform the services or other activities which would be necessary in order to comply with the obligation.

(d) For the purpose of paragraph (b) (2) of this section in determining whether to waive or suspend any or all of indebtedness or service obligation of an individual as imposing an undue hardship and being against equity and good conscience, the Secretary on the basis of such information and documentation as he may require, will take into consideration the following:

(1) The individual's present financial resources and obligations;

(2) The individual's estimated future financial resources and obligations;

(3) The extent to which the individual is practicing the profession for which support was provided in a manner which is similar to and consistent with the position which such individual would have occupied in the Public Health Service or the Corps;

(4) The extent to which the individual has problems of a personal nature, e.g. physical or mental disability, terminal illness in the immediate family, which so intrude on the individual's ability to perform as to raise a presumption that the individual will be unable to perform the obligations incurred.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-AL-5]

CONTROL ZONE

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the Fort Yukon, Alaska, control zone by increasing the effective period from six to seven days per week. The Fort Yukon, Alaska, control zone is presently effective from 0800 to 1700 local time daily except Sunday.

A review of the present and the projected traffic activities anticipated at the Fort Yukon Airport, indicates the need for part-time control zone designation seven days per week.

Therefore, it is proposed to change the effective period of the control zone to 0800 to 1700 local time daily.

This proposed action will enhance the level of safety of flight operations conducted during the hours from 0800 to 1700 local time Sundays.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the office of the Regional Counsel, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

1. In § 71.171 (39 FR 354) the Fort Yukon control zone is amended by deleting the words ". . . except Sunday . . ."

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Anchorage, Alaska, on March 20, 1974.

LYLE K. BROWN,
Director, Alaska Region.

[FR Doc.74-7156 Filed 3-27-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-AL-3]

CONTROL ZONE AND TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations which would alter the Fairbanks, Alaska, terminal airspace structure.

Interested persons are invited to participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501. All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the office of the Regional Counsel, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska.

Application of the U.S. Standard Terminal Instrument Procedures (TERPS) revised criteria for establishment of terminal airspace require amendments to the Fairbanks, Alaska, terminal airspace structure. Additionally, refined coordinates of the Fort Wainwright Airport Reference Point and an editorial change correcting the airport name from Wainwright to Fort Wainwright are contained in this docket.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

1. In § 71.171 (39 FR 354) the Fairbanks, Alaska, control zone is amended to read:

FAIRBANKS, ALASKA (EIELSON AFB)

Within a 5-mile radius of Eielson AFB (latitude 64°39'55" N., longitude 147°05'55" W.); within 2 miles each side of the Eielson localizer S course extending from the 5-mile radius zone to the Eielson outer marker; and within 2 miles each side of the Eielson Tacan 324° radial extending from the Eielson 5-mile radius zone to 6 miles NW of the Tacan.

FAIRBANKS, ALASKA (FAIRBANKS INTERNATIONAL/FORT WAINWRIGHT AAF)

Within a 5-mile radius of Fairbanks International Airport (latitude 64°49'09" N., longitude 147°51'14" W.); within a 5-mile radius of Fort Wainwright AAF (latitude 64°50'13" N., longitude 147°36'52" W.); within 2 miles each side of the Fairbanks localizer NE course, extending from the Fairbanks 5-mile radius zone to the outer marker; within 2 miles each side of the Fairbanks localizer SW course, extending from the Fairbanks 5-mile radius zone to 5 miles SW of the localizer antenna (latitude 64°48'11" N., longitude 147°53'01" W.); and within 2 miles each side of the Fairbanks RR E course, extending from the Fort Wainwright 5-mile radius zone to 5 miles E of the RR.

2. In § 71.181 (39 FR 440) the Fairbanks, Alaska, transition area is amended to read:

FAIRBANKS, ALASKA

That airspace extending upward from 700 feet above the surface within 9.5 miles W and 4.5 miles E of the Eielson localizer S course extending from the Eielson VOR to 18.5 miles S of the VOR; within 2 miles NW and 4.5 miles SE of the Fairbanks localizer NE course, extending from the Fairbanks outer marker to Fox RBN; within 4.5 miles SE and 9.5 miles NW of the Fairbanks localizer NE course extending from Fox RBN to 18.5 miles NE of the RBN; within 4.5 miles NW and 9.5 miles SE of the Fairbanks localizer SW course, extending from 5 miles SW of the localizer antenna (latitude 64°48'11" N., longitude 147°53'01" W.) to 18.5 miles SW of the localizer antenna; within 4.5 miles N and 9.5 miles S of the Fairbanks RR E course, extending from Fairbanks RR to 18.5 miles E of the RR; and that airspace extending upward from 1,200 feet above the surface beginning at latitude 68°00'00" N., longitude 153°00'00" W.; to 68°00'00" N., 144°00'00" W.; to 63°10'00" N., 144°00'00" W.; to 62°-38'00" N., 145°41'00" W.; to 62°45'00" N., 148°48'00" W.; to 62°59'00" N., 150°15'00" W.; to 63°00'00" N., 151°10'00" W.; to 64°-00'00" N., 153°00'00" W.; to points of beginning, excluding the portion within Restricted Areas R2202B and R2206.

The action proposed herein would alter the Fairbanks International, Fort Wainwright AAF, and Eielson AFB control zones to comply with new criteria. The configuration of the 700-foot transition area would be altered and reduced to accommodate revised instrument approach procedures at Eielson AFB, and the proposed instrument landing system (ILS) serving runway 01 at Fairbanks International Airport.

These amendments are proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Anchorage, Alaska on March 20, 1974.

LYLE K. BROWN,
Director, Alaskan Region.

[FR Doc.74-7157 Filed 3-27-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-NE-4]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Highgate, Vermont, 700-foot Transition Area.

A standard instrument approach procedure has been established for Franklin County State Airport, Highgate, Vermont. This new procedure requires the designation of a Highgate, Vermont, 700-foot Transition Area in order to provide controlled airspace protection for aircraft executing this new procedure.

Interested persons may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, New England Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Operations, Procedures and Airspace Branch, New England Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Highgate, Vermont, proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the Highgate, Vermont, 700-foot Transition Area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within an arc of a 5-mile radius circle centered on Franklin County State Airport, Highgate, Vermont (Lat. 44°56'26" N., 73°05'54" W.) extending clockwise between the 305° and 050° bearings from the Franklin County State Airport; within an arc of a 7-mile radius circle centered on Franklin County State Airport, extending clockwise between the 050° and 305° bearings of Franklin County State Airport; within 6.5 miles northwest and 4 miles southeast of Plattsburgh, New York VORTAC 060° radial extending from the radius area to the VORTAC, excluding that portion of the Plattsburgh, New York, 700-foot Transition Area.

This amendment is proposed under sec. 307(a) of the Federal Aviation Act of 1958, 72 Stat. 749 (U.S.C. 1348) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on March 15, 1974.

W. E. CROSBY,
Acting Director,
New England Region.

[FR Doc.74-7153 Filed 3-27-74;8:45 am]

[14 CFR Part 75]

[Airspace Docket No. 74-SO-22]

JET ROUTES

Proposed Designation and Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would designate J-165 from Charleston, S.C., to Richmond, Va., and extend J-121 from Norfolk, Va., to Charleston, S.C.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Administration, P.O. Box 20636, Atlanta, Ga. 30320.

All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW, Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

A ten-day traffic survey indicated 55 daily flights from Charleston direct Richmond, and 39 daily flights from

V 39 61 MAR 28 74 XUM

Charleston direct Norfolk. In order to reduce pilot/controller communications and to simplify flight planning, it is proposed to designate jet routes over these frequently used route segments.

During those times when Special Operating Areas (SOA) are in use in the vicinity of these proposed jet routes, the FAA would clear en route traffic at or above FL 240.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348 (a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Washingon, D.C., on March 21, 1974.

RAYMOND M. MCINNIS,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-7154 Filed 3-27-74;8:45 am]

[14 CFR Part 75]

[Airspace Docket No. 74-WA-6]

JET ROUTE

Proposed Establishment

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would realign Jet Route No. 595 between London, Ontario, Canada, and Plattsburgh, N.Y.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon, Des Plaines, Ill. 60018. All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW, Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would realign J-595 from London, Ontario, Canada, via the new Ash, Ontario, Canada, VORTAC (43°19'40'' N., 80°01'30'' W.) direct to Plattsburgh, N.Y. The centerline of the proposed jet route lies within Canadian airspace until entering United States' airspace north of Watertown, N.Y.; however, near Buffalo, N.Y., the route's airspace to be protected would overlap into United States' airspace for a longitudinal distance of approximately 43 miles and a lateral penetration of 6 miles or less. A letter of agreement would be executed which would give the Canadian Toronto ARTCC air traffic control jurisdiction of the airspace to be protected within the United States. Realignment of J-595 would provide a shorter route for aircraft proceeding over London to Canadian eastern provinces.

This amendment is proposed under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on March 21, 1974.

RAYMOND M. MCINNIS,
Acting Chief, Airspace and Air Traffic Rules Division.

ATOMIC ENERGY COMMISSION

[10 CFR Parts 31 and 32]

BYPRODUCT MATERIAL CONTAINED IN CERTAIN DEVICES; REVISION OF GENERAL LICENSE

Notice of Public Meeting

On February 5, 1974 the Atomic Energy Commission published in the FEDERAL REGISTER (39 FR 4583) a notice of proposed changes in its regulations pertaining to the use of byproduct material in certain gauges and similar devices. The proposed changes, among other things, would require the user to register with the Commission prior to receiving byproduct material for use under the general license in § 31.5 of the Commission's regulation, 10 CFR Part 31, General Licenses for Byproduct Material. Related changes would be made in the requirements imposed on persons specifically licensed under 10 CFR 32.51 to distribute byproduct material in devices for use under the general license. Interested persons were invited to submit written comments or suggestions in connection with the proposed amendments by March 18, 1974. That date was later extended to April 17, 1974.

On April 16, 1974, the Commission will hold a public meeting on the proposed changes to the general license in § 31.5 and related sections, beginning at 9:30 a.m. in Conference Room P-118, U.S. Atomic Energy Commission, 7920 Norfolk Avenue, Bethesda, Maryland. Interested persons are invited to attend the meeting and present oral or written statements on the proposed changes. The meeting will be conducted informally and as expeditiously as practicable, consistent with affording a reasonable opportunity for presentation of views. Written statements may be received for the record. Anyone desiring to make a statement should notify the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545 by April 11, 1974. It is expected that such statements will be limited to 10 minutes. Written summaries or copies of oral presentations are encouraged. Depending on the time available, discussion of the pertinent points raised by the participants may be undertaken by the regulatory staff.

A transcript of the meeting will be made and a copy of the transcript, together with copies of documents presented at the meeting, will be placed in the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., where they will be available for inspection by members of the public.

Persons desiring additional information regarding the meeting should contact Mr. R. F. Barker of the Commission's Directorate of Regulatory Standards, telephone 301-443-6910.

(5 U.S.C. 552(a))

Dated at Rockville, Maryland this twenty-first day of March 1974.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[FR Doc.74-7116 Filed 3-27-74;8:45 am]

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 122]

THERMAL DISCHARGES

Proposed Procedures for the Imposition of Alternative Effluent Limitations

Notice is hereby given that the Environmental Protection Agency proposes to add a new Part 122 to Chapter I of Title 40 of the Code of Federal Regulations to implement section 316(a) of the Federal Water Pollution Control Act, as amended, 33 USC 1251, 1326(a).

Section 316(a) authorizes the Administrator to impose alternative effluent limitations for the control of the thermal component of a discharge if the owner or operator of a point source has demonstrated to the satisfaction of the Administrator that effluent limitations proposed with respect to the thermal component of the discharge are more stringent than necessary to assure the protection and propagation of a balanced indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made. This authority has been delegated to the Regional Administrator in EPA Order of Delegation 1270.4.

Section 316(a) requires that any such alternative effluent limitation imposed by the Administrator assure the protection and propagation of a balanced indigenous population of shellfish, fish and wildlife in and on that body of water into which the discharge is to be made.

Section 316(a) authorizes alternative effluent limitations to be imposed by a State (in those cases in which it is appropriate) upon an identical demonstration to the satisfaction of the State, and requires that any such alternative effluent limitation also assure the protection and propagation of a balanced, indigenous aquatic population.

The regulations proposed today would establish the procedures for the imposition of alternative effluent limitations, on the thermal component of discharges, authorized by section 316(a).

The following features of the proposed regulations should be noted:

(1) The proposed regulations establish substantially identical procedures for the imposition of alternative effluent limitations by the Administrator (in those cases in which the Environmental Protection Agency is to make the determinations) or by the Director of a State water pollution control agency (in those cases in which the determinations are to be made by a State participating in the National Pollution Discharge Elimination System pursuant to a State program approved by the Administrator).

(2) The proposed regulations are intended to assure that requests for imposition of alternative thermal effluent limitations are made at the earliest feasible time in the process of applying for a discharge permit and that the determination of the propriety of such effluent limitations is coordinated, wherever possible, with the resolution of all other issues involved in the permit application. Accordingly, the proposed regulations require the applicant to notify the Regional Administrator at the time an application for an NPDES permit is filed that imposition of alternative thermal effluent limitations is requested under section 316(a) and to submit evidence in support of this request. Any person desiring a hearing to consider more fully the effluent limitations proposed must request a hearing within 30 days after issuance of the public notice of the permit application, which notice will contain the proposed thermal effluent limitations as well as all other proposed terms and conditions of the permit.

(3) In addition, the regulations would provide that proposed alternative effluent limitations may themselves be included in the public notice of the permit application, in addition to effluent limitations which would be applicable apart from Section 316(a), in certain instances. Thus, where an applicant can produce sufficient evidence to demonstrate to the satisfaction of the Regional Administrator or the Director that no appreciable harm has resulted from the previous operation of an existing source and that its thermal discharge has not disturbed the balanced indigenous population in the receiving waters, alternative effluent limitations may be proposed initially, subject to later deletion or revision on the basis of information received during the public comment period or evidence submitted at any hearing held to consider the permit. Moreover, in those cases in which an applicant can demonstrate that the discharge will assure the protection and propagation of one or more "representative, important species" selected by the Regional Administrator after consultation with the State Director, alternative effluent limitations could be proposed. Evidence that the discharge will comply with maximum temperature tolerance levels specified by the Administrator under section 304(a) outside appropriately limited mixing zones would thereafter allow imposition of alternative effluent limitations unless subsequently received information casts doubt upon the correctness of the species selected; the sufficiency of the temperature tolerance levels employed to calculate the alternative effluent limitations; or the size, volume, location or configuration of the zone allowed.

(4) The Agency recognizes that, in some cases, the final resolution of all issues may not be possible in a single proceeding because the applicant will not possess sufficient data, at the time the hearing under section 316(a) must be requested, to permit a knowledgeable determination of the issues pertinent to a request for a section 316(a) determination. Since the Act clearly imposes the burden of proof on the applicant, the Agency is not empowered in such instances to issue a permit containing less stringent thermal limitations. Nevertheless, its seems probable that at least some plants in this category would be able, in a relatively short additional time, to assemble sufficient data for an informed determination to be made. Accordingly the regulation provides that, in appropriate cases, the Regional Administrator may issue a permit including the thermal effluent limitations which would otherwise be applicable under the Act but with a proviso allowing the permittee to request their modification at a subsequent 316(a) hearing, to be held after the engineering and biological studies necessary to develop the required information have been held. Such a deferred hearing must be held sufficiently in advance of the final compliance date in the permit to allow the applicant to install the technology required to comply should the 316(a) request ultimately be denied.

(5) The proposed regulations are also designed to ensure that adequate publicity is given to proposed effluent limitations on thermal components and that the public is afforded an opportunity to participate in the process of deciding whether or not alternative thermal effluent limitations are justified in a particular case. Thus, the proposed regulations would require that the public notice of a permit application include, where appropriate, information on the thermal effluent limitations proposed and indicate whether or not they are less stringent than limitations which would be required under sections 301 or 306 of the Act. If they are less stringent, the public notice must advise that all the data submitted by the applicant are available for inspection, and that comments may be submitted and a hearing requested by members of the public or that a hearing will be held at the instance of the Regional Administrator. If they are not less stringent, the public notice must advise that the applicant is entitled to request a hearing to consider imposition of alternative thermal effluent limitations.

(6) Hearings held by the Regional Administrator to consider imposition of alternative thermal effluent limitations normally will be conducted as adjudicatory hearings in accordance with 40 CFR 125.34(c). State held hearings are, of course, a matter of State law. Appeal from decisions of the Regional Administrator is to the Administrator and his review of the former's decision is to be conducted in accordance with the provisions of 40 CFR Part 125 prescribing review of permit decisions generally. State decisions concerning thermal effluent limitations are to be transmitted to and reviewed by the Regional Administrator in the same fashion as are other permit decisions, i.e., in accordance with the provisions of 40 CFR Part 124.

(7) The regulations contain a list of important biological characteristics which typify "balanced, indigenous" populations and a description of certain features of aquatic populations which are compatible with its being balanced and indigenous and of other features which are incompatible.

The description in the regulations recognizes that an "indigenous" population may contain species not historically native to the area which have resulted from major irreversible modifications to the water body (such as hydroelectric dams) or to the contiguous land area (such as deforestation attributable to urban or agricultural development) or from deliberate introduction in connection with a program of wildlife management. To qualify for an exemption under section 316(a) it is therefore not necessary to show that the discharge is compatible with a population which may have existed in a pristine environment but which has not persisted.

On the other hand, a "balanced" population would not, under the description contained in the regulations, include a population dominated by pollution-tolerant species whose dominance is attributable to polluted water conditions. The opposite position (i.e., determining the indigenous population in all cases by reference to that presently existing) would unfairly reward dischargers located on heavily polluted waters for their past neglect. In areas of poor water quality, modification of thermal limitations would be appropriate only if they would assure protection of those species which could be expected to exist if the receiving water met water quality criteria designed to protect fish, shellfish and wildlife.

During the interagency review period of these regulation, the Agency received several suggestions many of which are incorporated in the regulations as proposed. Others because of the pressures of time resulting from the necessity to publish these regulations in conjunction with the proposed effluent limitations guidelines for steam electric powerplants, are not reflected in the proposed 316(a) regulations. They will, however, receive careful consideration during the public comment period. Included in this category are suggestions for coordinating decisions under section 316(a) with decisions of the Atomic Energy Commission, which has statutory responsibility for licensing the construction or operation of nuclear-fueled electric generating facilities, and

V 39 61 MAR 28 74 XUM

other Federal agencies with statutory responsibilities for the production of electrical energy of the protection of wildlife.

The most significant suggestions proffered during the interagency review process concern the relationship of existing State water quality standards to section 316(a) determinations. The Agency concurs in the view that section 316(a) permits imposition of effluent limitations, in particular cases, less stringent than those which would otherwise be applicable under section 301(b)(1)(C) of the Act. Effluent limitations derived from the technology-based guidelines issued under sections 304(b) and 306 are subject to modification upon a showing that they are more stringent than necessary to protect the relevant aquatic community. In addition, however, effluent limitations derived from water quality standards are similarly subject to section 316(a) review and modification when they have been demonstrated to be excessively stringent. Section 122.7(c) of the proposed regulation, concerning State certification, is intended to make this position.

In addition, it was urged forcefully that the section 316(a) regulations should provide that a demonstration that a discharge presently complies or will comply with existing water quality standards for fish and aquatic life uses approved by the Administrator under sections 303 (a) and (c), with water quality standards promulgated or proposed for promulgation under section 303 (b) or (c), or (when no such standards exist) with water quality standards in effect prior to passage of the 1972 Amendments to the Federal Water Pollution Control Act give rise to a presumption that the requirements of section 316(a) are satisfied. It was suggested that compliance with water quality standards may be demonstrated by submitting evidence of a previous determination by appropriate Federal or State agencies that the discharge in question does comply with the relevant standards. The presumption arising from this showing would be rebuttable, though the burden would of course be upon parties other than the applicant to produce substantial evidence that the water quality standards relied upon are less stringent than necessary to assure protection and propagation of a balanced indigenous aquatic population.

The Agency is uncertain as to the precise effect of such a provision and has not, accordingly, included it in the proposed regulation. This procedure, however, is receiving careful consideration. The Agency therefore solicits comments, not only on all aspects of the regulation as proposed, but on the desirability of this alternative, and the specific methods in which it should, if adopted, be implemented.

Interested members of the public may participate in this rulemaking by submitting written comments, in triplicate, to the Office of the General Counsel, Water Quality Division, Environmental Protection Agency, Washington, D.C. 20460. All comments received on or before May 28, 1974, will be considered prior to promulgation of the regulations in final form.

In consideration of the foregoing, it is proposed to amend Chapter I of Title 40, Code of Federal Regulations, by adding a new Part 122, to read as set forth below.

Dated: March 21, 1974.

JOHN QUARLES,
Acting Administrator.

PART 122—THERMAL DISCHARGES

Subpart A—General

Sec.
122.1 Definitions.
122.2 Scope and purpose.
122.3 Law authorizing alternative effluent limitations.
122.4 Delegation of authority.

Subpart B—EPA Determination of Alternative Effluent Limitations

122.5 Application for determination under section 316(a).
122.6 Public notice.
122.7 State certification.
122.8 Proposal of alternative effluent limitations.
122.9 Determination of alternative effluent limitations.
122.10 Public hearings.

Subpart C—State Determination of Alternative Effluent Limitations

122.11 Application for determination under section 316(a).
122.12 Public notice.
122.13 Proposal of alternative effluent limitations.
122.14 Determination of alternative effluent limitations.
122.15 Public hearings.
122.16 Transmission to regional administrator of proposed effluent limitations.
122.17 Transmission to regional administrator of issued effluent limitations.

AUTHORITY: 33 U.S.C. 1251, 1326(a).

Subpart A—General

§ 122.1 Definitions.

Except as otherwise specifically provided:

(a) The term "Act" means the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251, et seq.

(b) The term "Administrator" means the Administrator of the U.S. Environmental Protection Agency.

(c) The term "alternative effluent limitations" means effluent limitations for the control of the thermal component of any discharge which are imposed pursuant to section 316(a) of the Act and these regulations in lieu of effluent limitations or standards of performance otherwise applicable under sections 301 or 306 of the Act.

(d) The term "Director" means the chief administrative officer of a State water pollution control agency or interstate agency. In the event responsibility for water pollution control and enforcement is divided among two or more State or interstate agencies, the term "Director" means the administrative officer authorized to perform the particular procedure to which reference is made.

(e) The term "Environmental Protection Agency" means the U.S. Environmental Protection Agency.

(f) The term "Regional Administrator" means one of the Regional Administrators of the Environmental Protection Agency.

(g) The term "Representative, important species" means one or more species which are representative, in terms of biological needs, of a balanced, indigenous population of shellfish, fish and wildlife in the body of water into which discharge of heat is made.

(h) The term "balanced, indigenous population" refers to a population typically characterized by diversity at all trophic levels, the capacity to sustain itself through cyclic seasonal changes, presence of necessary food chain species and non-domination of pollution-tolerant species. Such a population may include historically non-native species introduced in connection with a program of wildlife management and species whose presence or abundance results from substantial, irreversible environmental modifications. Normally, however, such a population will not include species whose presence or abundance is attributable to the introduction of pollutants.

(i) The term "water quality standards" means applicable water quality standards which have been (1) approved or permitted to remain in effect by the Administrator pursuant to sections 303(a) or 303(c) of the Act, or (2) promulgated or proposed from promulgation by the Administrator pursuant to sections 303(b) or 303(c) of the Act, as of the date any notice is issued pursuant to § 122.6(a) or § 122.12(a) of this part.

(j) The term "section 316(a)" shall mean section 316(a) of the Act.

(k) The definitions of the following terms contained in section 502 of the Act shall be applicable to such terms as used in this part unless the context otherwise requires: "State water pollution control agency," "interstate agency," "State," "person," "pollutant," "navigable waters," "territorial seas," "contiguous zone," "ocean," "effluent limitations," "discharge of a pollutant," "point source," "discharge," and "pollution."

§ 122.2 Scope and purpose.

(a) The regulations in this part prescribe the procedures to be followed in connection with the imposition of alternative effluent limitations, pursuant to section 316(a), upon the thermal component of discharges from point sources otherwise subject to sections 301 and 306 of the Act.

(b) The regulations in this part prescribe the procedures for the imposition of such alternative effluent limitations in conjunction with applications both for permits which are issued by the Administrator pursuant to section 402(a) of the Act and for permits which are issued by the Director of a State water pollution control agency or interstate

agency which is authorized to issue permits pursuant to a program approved by the Administrator under section 402 of the Act and Part 124 of this chapter.

§ 122.3 Law authorizing alternative effluent limitations.

(a) Section 316(a) provides that:

With respect to any point source otherwise subject to the provisions of section 301 or section 306 of this Act, whenever the owner or operator of any such source, after opportunity for public hearing, can demonstrate to the satisfaction of the Administrator (or, if appropriate, the State) that any effluent limitation proposed for the control of the thermal component of any discharge from such source will require effluent limitations more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife in and on the body of water into which the discharge is to be made, the Administrator (or, if appropriate, the State) may impose an effluent limitation under such sections for such plant, with respect to the thermal component of such discharge (taking into account the interaction of such thermal component with other pollutants), that will assure the protection and propagation of a balanced indigenous population of shellfish, fish, and wildlife in and on that body of water.

§ 122.4 Delegation of authority.

(a) Subject to the appeal provisions of § 125.34 of this chapter and the national security responsibility provisions of § 125.34(c) of this chapter, the Regional Administrator is hereby delegated the authority, for the area which he administers, to impose alternative effluent limitations to control the thermal component of discharges in accordance with the provisions of section 316(a).

(b) This authority may be redelegated to the Director, Enforcement Division, of each region.

Subpart B—EPA Determinstion of Alternative Effluent Limitations

§ 122.5 Application for determination under section 316(a).

(a) (1) The owner or operator of any point source who desires the Regional Administrator to impose alternative effluent limitations pursuant to section 316(a) shall so notify the Regional Administrator and the appropriate State or interstate agency empowered to issued section 401 certifications in writing upon the filing of an application for a permit pursuant to § 125.12 of this chapter.

(2) Notice pursuant to paragraph (a)(1) of this section shall, in the case of any point source for which a discharge permit application has been filed prior to the publication of these proposed regulations, be given not later than 60 days after promulgation of these regulations or 60 days after promulgation of effluent limitations guidelines under section 304 or standards of performance under section 306 applicable to that point source, whichever is later.

(b) The owner or operator shall submit to the Regional Administrator within 60 days thereafter such data and other information as are available to it and, as soon as practicable thereafter, such other data as it wishes to be considered in support of its application for alternative effluent limitations.

§ 122.6 Public notice.

(a) In addition to the information required by § 125.32(c) of this chapter, the public notice of any application for a permit for a discharge which is subject, pursuant to sections 301 or 306 of the Act, to effluent limitations controlling its thermal component and for which an application has been filed pursuant to § 122.5 of this part shall include:

(1) A statement that the thermal component of the discharge is subject to effluent limitations pursuant to sections 301 or 306 of the Act and a brief description (which shall include a quantitative statement) of the thermal effluent limitations proposed pursuant to section 301 or 306; and

(2) A statement that such an application has been filed and that alternative (and less stringent) effluent limitations may be imposed on the thermal component of the discharge pursuant to section 316(a), and a brief description (which shall include a quantitative statement) of the proposed alternative effluent limitations, if any.

(b) (1) If no proposed alternative effluent limitations are described in the public notice of the application, it shall include, in addition to the statements required by paragraph (a) of this section, a statement that the applicant is entitled, at any time within 30 days of the issuance of the public notice, to request a hearing pursuant to § 125.34(c) of this chapter in order to demonstrate, pursuant to sec. 316(a) and these regulations, that the proposed effluent limitations are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(2) If proposed alternative effluent limitations are described in the public notice of the permit application (in addition to the limitations applicable pursuant to sections 301 or 306 of the Act), the notice shall include, in addition to the statements required by paragraph (a) of this section, a statement that the applicant has submitted evidence in support of its request for alternative effluent limitations which warrants further consideration and that the Regional Administrator is considering imposition of such alternative limitations. The notice shall state that all data submitted by the applicant, as well as a summary thereof, are availible at the office of the Regional Administrator for public inspection during office hours. The notice shall also state that any person may comment in writing upon these proposed alternative effluent limitations in accordance with the provisions of § 125.32(c)(6) of this chapter and may request a hearing pursuant to § 125.34 of this chapter.

(c) The public notice of any hearing held pursuant to § 122.10(a) of this part shall include the information required by § 125.32(d) of this chapter.

(d) Nothing in this section shall be construed to relieve the applicant of the burden of demonstrating to the satisfaction of the Regional Administrator, after opportunity for public hearing afforded by § 122.10 of this part, that the effluent limitations proposed pursuant to sections 301 or 306 of the Act are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife.

§ 122.7 State certification.

(a) Notification pursuant to § 122.5(a) of this part to a state or interstate agency empowered to issue section 401 certifications shall be deemed a withdrawal of any pending application for certification as to the compliance of the thermal component of the discharge with sections 301, 302, 306 and 307 of the Act. Such notification shall, as to the thermal component of the discharge, toll the running of the period of time within which the state or interstate certifying agency must act.

(b) When the Regional Administrator, (or the Administrator pursuant to § 125.34(p) of this chapter) has made a final determination as to the effluent limitations to be imposed on the thermal component of the discharge, he shall within 10 days thereafter notify the State or interstate certifying agency in writing of that determination. Such notification shall be deemed a resubmission of any application for certification as to the thermal component of the discharge under section 401 of the Act and the period of time within which the certifying agency must act shall resume upon receipt of such notification.

(c) Any alternative effluent limitation established pursuant to section 316(a) shall constitute the applicable thermal provisions of sections 301, 302, 306, and 307 of the Act for purposes of section 401 of the Act.

§ 122.8 Proposal of alternative effluent limitations.

(a) The Regional Administrator may include in the public notice of the permit application proposed alternative effluent limitations on the thermal component of the discharge if the owner or operator satisfies the requirements of either paragraph (a)(1) or (a)(2) of this section.

(1) *Demonstration of absence of prior harm.* In the case of a point source which has commenced operation and discharge prior to the filing of the notice required by § 122.5(a) of this Part, alternative effluent limitation... may be included in the public notice of the permit application if the owner or operator has demonstrated, to the satisfaction of the Regional Administrator, that no appreciable harm has resulted from the thermal component of the discharge (taking into account the interaction of such thermal component with other pollutants and the additive effect of other thermal sources) to the species of shellfish, fish, and wildlife in and on the body of water into

V 39 61 MAR 28 74 XUM

which the discharge has been made, and therefore that the thermal component of the discharge has not disturbed a balanced, indigenous population of such species. In determining whether or not appreciable harm or disturbance has occurred, the Regional Administrator shall consider evidence demonstrating compliance during the period of operation and discharge with water quality standards designed to protect fish and aquatic life together with any additional evidence submitted by the owner or operator.

(2) *Protection of representative important species.* (i) In the case of any source, whether or not it has commenced operation and discharge prior to the filing of the notice required by § 122.5(a) of this Part, alternative effluent limitations may be included in the public notice of the permit application if the owner or operator has demonstrated, to the satisfaction of the Regional Administrator, that the discharge will assure the protection and propagation of representative, important species (selected in accordance with paragraph (2)(ii) of this section) whose protection and propagation, if assured, will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on that body of water. In determining whether or not the protection and propagation of such species will be assured, the Regional Administrator shall consider evidence demonstrating that the discharge will comply with the temperature requirements for growth, reproduction and survival of the selected species, as specified in the water quality criteria and water quality information published by the Administrator pursuant to section 304(a) of the Act, together with any additional information submitted by the owner or operator or required by the Regional Administrator.

(ii) (A) Whenever an applicant proposes to include a demonstration pursuant to this paragraph as an element of its support for an application for a determination pursuant to section 316(a), it shall so notify the Regional Administrator at the time the application is filed. The Regional Administrator shall promptly seek the advice and recommendation of the director as to the species whose protection and propagation in and on the receiving water body will, if assured, satisfy the requirements of paragraph (2)(i) of this section. Any species included in the State's approved water quality standards shall be selected, together with such additional species as the Regional Administrator considers appropriate. The Regional Administrator shall advise the applicant of the species selected within 60 days after receipt of notification under this paragraph.

(B) If the available information is insufficient to enable the Regional Administrator to select one or more representative, important species, the applicant may, at the request of the Regional Administrator, conduct such studies and furnish such evidence as may be necessary to select appropriate species. In such cases, the applicant shall have the burden of proving the appropriateness of the species as well as that its discharge will assure the protection and propagation of such species.

(C) Compliance with the temperature levels referred to in paragraph (a)(2)(i) of this section shall be determined outside a mixing zone whose temporal and spatial (area, volume, configuration and location) distribution will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the receiving water body.

(b) If an applicant is unable to demonstrate to the satisfaction of the Regional Administrator either that no appreciable harm has resulted from the thermal component of a discharge (pursuant to paragraph (a)(1) of this section) or that a discharge will assure the protection and propagation of any species selected (pursuant to paragraph (a)(2) of this section), the Regional Administrator shall not include proposed alternative effluent limitations in the public notice of the permit application. However, the applicant may thereafter request a hearing pursuant to § 122.10 of this Part at which evidence may be submitted in support of the application for a determination under section 316(a). Such evidence may consist of evidence intended to satisfy the requirements of paragraphs (a)(1) or (a)(2) of this section, or any other new or historical biological data, physical monitoring data, engineering or diffusion models, or other relevant evidence.

(c) Determinations of the Regional Administrator made pursuant to paragraphs (a)(1) and (a)(2) of this section may be reconsidered in any hearing held pursuant to § 122.10 of this Part.

§ 122.9 Determination of alternative effluent limitations.

(a) The Regional Administrator may impose alternative effluent limitations included in the public notice of the permit application pursuant to § 122.8(a)(1) of this Part (or appropriate modifications thereof) unless:

(1) Information received during the period provided for public comment under § 125.34(b) of this chapter or evidence introduced at any hearing held to consider the permit indicates that appreciable harm has occurred as a result of the thermal component of the discharge (taking into account the interaction of such thermal component with other pollutants) or that the thermal discharge has disturbed the balanced, indigenous population of shellfish, fish and wildlife; and

(2) The applicant does not demonstrate that, despite the occurrence of such previous harm or disturbance, the alternative effluent limitations proposed (or appropriate modifications thereof) will nevertheless assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is made.

(b) The Regional Administrator may impose alternative effluent limitations included in the public notice of the permit application pursuant to § 122.8(a)(2) of this Part (or appropriate modifications thereof) unless:

(1) Information received during the period provided for public comment under § 125.34(b) of this chapter or evidence introduced at any hearing held to consider the permit indicates: (i) that the species selected by the Regional Administrator is or are not representative, in terms of biological needs, of a balanced, indigenous population in the receiving water body; or (ii) that the temperature requirements employed in calculating the proposed alternative effluent limitations are not adequate to assure the protection and propagation of those species in and on the receiving water body; or (iii) that the temporal or spatial (area, volume, location and configuration) distribution of the mixing zone permitted is excessively large or otherwise inconsistent with the purposes of section 316(a); and

(2) This evidence is not rebutted.

§ 122.10 Public hearings.

(a) *Requests for hearings.* (1) If alternative effluent limitations are proposed any person may, within 30 days following the issuance of the public notice of the permit application containing such proposed limitations, submit to the Regional Administrator a request for a hearing pursuant to § 125.34 of this chapter to consider whether the alternative effluent limitations will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(2) If effluent limitations or alternative effluent limitations are proposed any person may, within 30 days following the issuance of the public notice of the permit application, or, if a public hearing is held pursuant to § 125.34(b), of this chapter, within 20 days following issuance of the notice provided in § 125.34(b)(4), submit to the Regional Administrator a request for a hearing pursuant to § 125.34(e) to consider any issues concerning the permit application including whether the effluent limitations or the alternative effluent limitations proposed are more stringent than necessary to assure the protection and propagation of a balanced indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(3) Any request for a hearing made pursuant to paragraph (a)(2) of this section shall include the issue of proposed effluent limitations and/or proposed alternative effluent limitations on the thermal component of the discharge in the statement of issues proposed to be considered at the hearing, as provided by § 125.34(c)(3), of this chapter.

(4) If a request for a hearing to consider the proposed effluent limitations or the proposed alternative effluent limitations on the thermal component of the discharge is granted, the Regional Administrator shall consolidate this issue with other issues, if any, relating to the proposed permit and its conditions raised by the owner or operator, or by any other person, which are included in the list or lists of issues submitted pursuant to § 125.34(c)(3) of this chapter and shall consider and resolve all such issues in a single hearing, unless he determines to defer the hearing on issues related to the proposed effluent limitations or proposed alternative effluent limitations on the thermal component pursuant to paragraph (b) of this section or deems such a procedure to be inappropriate for other reasons.

(5) Any hearing, other than a hearing held pursuant to § 125.34(b) of this chapter, held pursuant to this section shall be conducted in accordance with the provisions of sections 34 (a) and (c) through (o) of Part 125 of this chapter.

(6) The Regional Administrator may not impose an alternative effluent limitation on the thermal component of any discharge which is less stringent than the effluent limitations otherwise required by sections 301 or 306 of the Act unless the owner or operator has demonstrated that the effluent limitations otherwise required are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish, and wildlife.

(7) The Regional Administrator may impose an alternative effluent limitations with respect to the thermal component of any discharge only if he is satisfied that such alternative effluent limitation (taking into account the interaction of such thermal component with other pollutants) will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(8) The Regional Administrator may hold a hearing pursuant to § 125.34 of this chapter in any case or class of cases in which he deems it appropriate.

(b) *Deferral of hearings.* (1) In any case in which the Regional Administrator determines, after reviewing the evidence which the owner or operator proposes to present at the hearing, that sufficient information is likely not to be available upon which to base a knowledgeable determination of whether or not the proposed effluent limitations on the thermal component of the discharge are more stringent than necessary, he may order that the hearing requested pursuant to section 316(a) be severed from the hearing scheduled pursuant to section 402 of the Act and be deferred until the owner or operator has completed such engineering and biological studies as the Regional Administrator may consider necessary.

(2) If the studies required under paragraph (b)(1) of this section have not been completed at the conclusion of the hearing held pursuant to section 402 of the Act and Part 125 of this chapter, the Regional Administrator shall issue a permit which is for a term of up to five years and which requires that the point source achieve the effluent limitations initially proposed for the control of the thermal component of the discharge no later than the date specified in applicable effluent limitations guidelines issued pursuant to sections 304(b) or 306 of the Act but which affords the permittee an opportunity to request a hearing under section 316(a) after having conducted biological and engineering studies in order to develop information sufficient for the Regional Administrator to make a knowledgeable determination as to whether alternative effluent limitations may be imposed pursuant to section 316(a).

(3) Any hearing scheduled under paragraph (b)(2) of this section shall be publicized in accordance with the requirements of § 125.32(b) of this chapter and shall be held sufficiently in advance of the final compliance date specified in the permit to allow the permittee to take necessary measures to comply by that date in the event its request for modification of thermal limits is denied after the hearing is concluded.

(c) *Appeal or review of decision of Regional Administrator.* (1) Any party shall have the right to appeal to the Administrator from a decision of the Regional Administrator imposing effluent limitations or alternative effluent limitations on the thermal component of a discharge following a hearing held pursuant to § 125.34(c) of this chapter. The Administrator may, on his own motion, review any decision of the Regional Administrator. Such appeal or review shall be conducted in accordance with the provisions of § 125.34(p) of this chapter.

(2) If an owner or operator did not request a hearing pursuant to paragraph (a) of this section in order to consider whether effluent limitations proposed for the control of the thermal component of a discharge are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which discharge is to be made, he may raise this issue on appeal to the Administrator only if:

(i) The public notice also contained proposed alternative effluent limitations less stringent than those otherwise required under sections 301 or 306 of the Act; and

(ii) The decision of the Regional Administrator after the hearing imposed effluent limitations or alternative effluent limitations with respect to the thermal component of the discharge more stringent than those contained in the public notice of the application.

Subpart C—State Determination of Alternative Effluent Limitations

§ 122.11 Application for determination under section 316(a).

(a) (1) The owner or operator of any point source who desires the Director to impose alternative effluent limitations pursuant to section 316(a) shall so notify the Director in writing upon the filing of an application for a NPDES permit.

(2) Notice pursuant to paragraph (a)(1) of this section shall, in the case of any point source for which a discharge permit application has been filed prior to the publication of these proposed regulations, be given not later than 60 days after promulgation of these regulations or 60 days after promulgation of effluent limitations guidelines under section 304 or standards of performance under section 306 applicable to that point source, whichever is later.

(b) The owner or operator shall submit to the Director within 60 days thereafter such data and other information as are available to it; and as soon as practicable thereafter, such other data as it wishes to be considered in support of its application for alternative effluent limitations.

§ 122.12 Public notice.

(a) In addition to the information required by § 124.32(c) of this chapter, the public notice of any application for a permit for a discharge which is subject, pursuant to sections 301 or 306 of the Act, to effluent limitations controlling its thermal component and as to which an application has been filed pursuant to § 122.11 of this Part shall include:

(1) a statement that the thermal component of the discharge is subject to effluent limitations pursuant to sections 301 or 306 of the Act and a brief description (which shall include a quantitative statement) of the thermal effluent limitations proposed pursuant to section 301 or 306; and

(2) a statement that such an application has been filed and that alternative (and less stringent) effluent limitations may be imposed on the thermal component of the discharge pursuant to section 316(a), and a brief description (which shall include a quantitative statement) of the proposed alternative effluent limitations, if any.

(b) (1) If no proposed alternative effluent limitations are described in the public notice of the application, it shall include, in addition to the statements required by paragraph (a) of this section, a statement that the applicant is entitled, at any time within 30 days of the issuance of the public notice, to request a hearing pursuant to § 124.36 of this chapter in order to demonstrate, pursuant to section 316(a) and these regulations, that the proposed effluent limitations are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(2) If proposed alternative effluent limitations are described in the public notice of the permit application (in addition to the limitations applicable pursuant to sections 301 or 306 of the Act), the notice shall include, in addition to the statements required by paragraph (a) of this section, a statement that the applicant has submitted evidence in support of its request for alternative effluent limitations which warrants further consideration and that the Director is considering

V 39 61 MAR 28 74 XUM

imposition of such alternative limitations. The notice shall state that all data submitted by the applicant, as well as a summary thereof, are available at the Office of the Director for public inspection during office hours. The notice must also state that any person may comment in writing upon these proposed alternative effluent limitations in accordance with the provisions of § 124.32 of this chapter and may request a hearing pursuant to § 124.36 of this chapter.

(c) The public notice of any hearing held pursuant to § 122.15(a) of this Part shall include the information required by § 124.37 of this chapter.

(d) Nothing in this section shall be construed to relieve the applicant of the burden of demonstrating to the satisfaction of the Director, after opportunity for public hearing afforded by § 122.15 of this part, that the effluent limitations proposed pursuant to sections 301 or 306 of the Act are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife.

§ 122.13 Proposal of alternative effluent limitations.

(a) The Director may include in the public notice of the permit application proposed alternative effluent limitations on the thermal component of the discharge if the owner or operator satisfies the requirements of either paragraph (a)(1) or (a)(2) of this section.

(1) *Demonstration of absence of prior harm.* In the case of a point source which has commenced operation and discharge prior to the filing of the notice required by § 122.11(a) of this Part, alternative effluent limitations may be included in the public notice of the permit application if the owner or operator has demonstrated, to the satisfaction of the Director, that no appreciable harm has resulted from the thermal component of the discharge (taking into account the interaction of such thermal component with other pollutants and the additive effect of other thermal sources) to the species of shellfish, fish and wildlife in and on the body of water into which the discharge has been made, and that therefore the thermal component of the discharge has not disturbed a balanced, indigenous population of such species. In determining whether or not appreciable harm or disturbance has occurred, the Director shall consider evidence demonstrating compliance during the period of operation and discharge with water quality standards designed to protect fish and aquatic life, together with any additional evidence submitted by the owner or operator.

(2) *Protection of representative, important species.* (i) In the case of any source, whether or not it has commenced operation and discharge prior to the filing of the notice required by § 122.11(a) of this Part, alternative effluent limitations may be included in the public notice of the permit application if the owner or operator has demonstrated, to the satisfaction of the Director, that the discharge will assure the protection and propagation of representative, important species (selected in accordance with paragraph (a)(2)(i) of this section) whose protection and propagation, if assured, will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on that body of water. In determining whether or not the protection and propagation of such species will be assured, the Director shall consider evidence demonstrating that the discharge will comply with the temperature requirements for growth, reproduction and survival of the selected species, as specified in the water quality criteria and water quality information published by the Administrator pursuant to section 304(a) of the Act, together with any additional information submitted by the owner or operator or required by the Director.

(ii) (A) Whenever an applicant proposes to include a demonstration pursuant to this paragraph as an element of its support for an application for a determination pursuant to section 316(a), it shall so notify the Director at the time the application is filed. The Director shall promptly select the species whose protection and propagation in and on the receiving water body will, if assured, satisfy the requirements of paragraph (a)(2)(i) of this section. Any species included in the State's approved water quality standards shall be selected, together with such additional species as the Director considers appropriate. The Director shall advise the applicant of the species selected within 60 days after receipt of notification under this subparagraph.

(B) If the available information is insufficient to enable the Director to select one or more representative, important species, the applicant may, at the request of the Director, conduct such studies and furnish such evidence as may be necessary to select appropriate species. In such case, the applicant shall have the burden of proving the appropriateness of the species as well as that its discharge will assure the protection and propagation of such species.

(C) Compliance with the temperature levels referred to in paragraph (a)(2)(i) of this section shall be determined outside a mixing zone whose temporal and spatial (area, volume, configuration and location) distribution will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the receiving water body.

(b) If an applicant is unable to demonstrate to the satisfaction of the Director either that no appreciable harm has resulted from the thermal component of a discharge (pursuant to paragraph (a)(1) of this section) or that a discharge will assure the protection and propagation of any species selected (pursuant to paragraph (a)(2) of this section), the Director shall not include proposed alternative effluent limitations in the public notice of the permit application. However, the applicant may thereafter request a hearing pursuant to § 122.15 of this Part at which evidence may be submitted in support of the application for a determination under section 316(a). Such evidence may consist of evidence intended to satisfy the requirements of paragraphs (a)(1) or (a)(2) of this section, or any other new or historical biological data, physical monitoring data, engineering or diffusion models, or other relevant evidence.

(c) Determinations of the Director made pursuant to paragraphs (a)(1) and (a)(2) of this section may be reconsidered in any hearing held pursuant to § 122.15 of this Part.

§ 122.14 Determination of alternative effluent limitations.

(a) The Director may impose alternative effluent limitations included in the public notice of the permit application pursuant to § 122.13(a)(1) of this Part (or appropriate modifications thereof) unless: information received during the period provided for public comment under § 124.34 of this chapter or evidence introduced at any hearing held to consider the permit indicates that appreciable harm has occurred as a result of the thermal component of the discharge (taking into account the interaction of such thermal component with other pollutants) or that the thermal discharge has disturbed the balanced, indigenous population of shellfish, fish and wildlife and the applicant does not demonstrate that, despite the occurrence of such previous harm or disturbance, the alternative effluent limitations proposed (or appropriate modifications thereof) will nevertheless assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(b) The Director may impose alternative effluent limitations included in the public notice of the permit application pursuant to § 122.14(a)(2) of this Part (or appropriate modifications thereof) unless:

(1) Information received during the period provided for public comment under § 124.34 of this chapter or evidence introduced at any hearing held to consider the permit indicates (i) that the species selected by the Director is or are not representative, in terms of biological needs, of a balanced, indigenous population in the receiving water body, or (ii) that the temperature requirements employed in calculating the proposed alternative effluent limitations are not adequate to assure the protection and propagation of those species in and on the receiving water body; or (iii) that the temporal and spatial (area, volume, location and configuration) distribution of the mixing zone permitted are excessively large or otherwise inconsistent with the purposes of section 316(a).

§ 122.15 Public hearings.

(a) *Requests for hearings.* (1) If alternative effluent limitations are proposed any person may, within 30 days following the issuance of the public notice of the permit application containing such proposed limitations, submit to the Director a request for a hearing pursuant to § 124.32(b) of this chapter to consider whether the alternative effluent limitations will assure the protection and propagation of a balanced indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(2) If effluent limitations or alternative effluent limitations are proposed any person may, within 30 days following the issuance of the public notice of the permit application, submit to the Director a request for a hearing pursuant to § 124.36 of this chapter to consider any issues concerning the permit application including whether the effluent limitations or the alternative effluent limitations proposed are more stringent than necessary to assure the protection and propagation of a balanced indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(3) If a request for a hearing to consider the proposed effluent limitations or the proposed alternative effluent limitations on the thermal component of the discharge is granted, the Director shall consolidate this issue with other issues, if any, relating to the proposed permit and its conditions raised by the owner or operator, or by any other person, and shall consider and resolve all such issues in a single hearing, unless he determines to defer the hearing on issues related to the proposed effluent limitations or proposed alternative effluent limitations on the thermal component pursuant to paragraph (b) of this section or deems such a procedure to be inappropriate for other reasons.

(4) The Director may not impose an alternative effluent limitation on the thermal component of any discharge which is less stringent than the effluent limitations otherwise required by sections 301 or 306 of the Act unless the owner or operator has demonstrated that the effluent limitations otherwise required are more stringent than necessary to assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife.

(5) The Director may impose an alternative effluent limitation with respect to the thermal component of any discharge only if he is satisfied that such alternative effluent limitation (taking into account the interaction of such thermal component with other pollutants) will assure the protection and propagation of a balanced, indigenous population of shellfish, fish and wildlife in and on the body of water into which the discharge is to be made.

(b) *Deferral of hearings.* The provisions of § 122.10(b) of this part are applicable in any case in which the Director determines, after reviewing the evidence which the owner or operator proposes to present at the hearing, that sufficient information is likely not to be available upon which to base a knowledgeable determination of whether or not the proposed effluent limitations on the thermal component of the discharge are more stringent than necessary.

§ 122.16 Transmission to regional administrator of proposed effluent limitations.

(1) Any State or interstate agency whose permit program has been approved pursuant to section 402 of the Act and Part 124 of this chapter which proposes to issue a permit containing effluent limitations on the thermal component of a discharge less stringent than those otherwise required by sections 301 or 306 shall, if transmittal of such permit to the Regional Administrator is required under the agreement provided for in § 124.46 of this part, indicate to the Regional Administrator that the proposed effluent limitations are less stringent and shall set forth the grounds upon which they were proposed.

(2) The Regional Administrator may comment upon, object to or make recommendations with respect to such proposed effluent limitations pursuant to any agreement entered into under § 124.46 and may request a public hearing to consider them pursuant to § 124.36.

§ 122.17 Transmission to regional administrator of issued effluent limitations.

Any State or interstate agency which has issued a permit containing effluent limitation with respect to the thermal component of a discharge shall, in transmitting a copy of the permit to the Regional Administrator pursuant to § 124.47 of this chapter, indicate whether or not such effluent limitations are less stringent than would otherwise be required under sections 301 or 306 of the Act and, if they are less stringent, shall also transmit the evidence (including the record of any hearing) upon which they were determined.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 240]

[Release No. 34-10681, IC-8275, File No. S7-516]

SALES OF SHARES OF REGISTERED OPEN-END INVESTMENT COMPANIES TO PARTICIPANTS IN GROUP PLANS AND QUALIFIED INDIVIDUAL PENSION PLANS

Notice is hereby given that the Securities and Exchange Commission has under consideration the amendment of Rule 15c1-4 [17 CFR 240.15c1-4] under the Securities Exchange Act of 1934 ("Act") [15 U.S.C. 78a et seq.] to modify the confirmation requirements with respect to the sale of shares of registered open-end investment companies in connection with certain group plans and qualified individual pension plans. The amendment to Rule 15c1-4 is proposed pursuant to sections 15(c)(1) and 23(a) of the 1934 Act [15 U.S.C. 78o, 78w].

Rule 15c1-4 presently requires brokers and dealers to give or send to their customers written confirmations of transactions effected with or for the account of such customers at or before the completion of each such transaction. Representatives of the mutual fund industry have brought to the Commission's attention the need for an amendment to Rule 15c1-4 to make it economically more feasible for registered open-end investment companies to sell shares to participants in group plans and qualified individual pension plans involving small and often frequent purchases. The need for this amendment is considered to be especially important in view of the pending pension plan legislative which would permit the use of mutual funds as investment media for tax qualified individual and group pension plans. Because of the costs of preparing and mailing confirmations for each purchase of mutual fund shares mutual fund underwriters suggest that it is presently uneconomic for them to offer these plans to small investors purchasing under an individual or group investment plan.

Proposed new paragraph (b) of Rule 15c1-4 of the 1934 Act. The proposed amendment to Rule 15c1-4 would modify the present confirmation requirements under Rule 15c1-4 by redesignating present Rule 15c1-4 as paragraph (a) and adding a new paragraph (b) of Rule 15c1-4. Proposed new paragraph (b) would permit mutual funds, principal underwriters or their agents to send confirmations for purchases of mutual fund shares by participants in a group plan to a person designated by the group to receive the confirmations and to distribute them to plan participants. Under the proposed amendment, the designated person would be required to remit payments for mutual fund shares collected from members of any group promptly but in no event could such monies be accumulated for more than 30 days. Principal underwriters would be expected to obtain reasonable assurances that funds received for investment were remitted on a timely basis as contemplated by the rules.

For investors purchasing mutual fund shares under a group pension or profit-sharing plan qualified under Section 401 [26 U.S.C. 401] of the Internal Revenue Code and other employer-sponsored plans, principal underwriters or their agents would be permitted under the amendment to delay sending confirmations for mutual fund share purchases for as long as 90 days after payment is received. For investors purchasing mutual fund shares under individual retirement plans which may be qualified under proposed Section 408 of the Code as contemplated by the pending pension plan legislation or group purchase plans other than plans sponsored by employers for their employees, mutual funds, principal underwriters or their agents would be permitted under the amendment to delay sending confirmations for mutual fund share purchases for as long as 30 days after payment is received. For such non employer-employee groups, confirmations could be sent to a designated agent for distribution to members

V 39 61 MAR 28 74 XUM

of the group. In either case, confirmations would cover the details of all transactions within the previous 90-day or 30-day period and would include an explanation of all information included in each statement.

The purpose of this amendment is to reduce the economic burden of the confirmation requirements with respect to mutual fund investment plans without, at the same time significantly lessening investor protections.

The present proposal is limited to group and individual pension and retirement plans funded by purchases of securities issued by registered investment companies. However, the concepts embodied in the rule amendment may well be applicable to other investment plans or to brokerage services which involve the accumulation of relatively small payments toward purchases of securities. The Commission specifically requests comments on the desirability or possible disadvantages of extending the proposed liberalization of the confirmation rules to such other investment plans or services.

The Commission also specifically requests comments with respect to the appropriate length of the extended time period within which mutual fund group or individual plan investors would receive confirmations under the proposed amendment.

The present Rule 15c1–4. which will be designated as paragraph (a) if the proposed new paragraph (b) is adopted, requires any broker or dealer effecting a transaction for the account of a customer to provide, at or before the completion of the transaction, a written notification of the capacity in which he has acted in the transaction, and, if he has acted as a broker, certain other specified information including the amount of any compensation received by him.

Commission action. Accordingly the Securities and Exchange Commission, pursuant to authority given to it in sections 15(c)(1) and 23(a) of the Securities Exchange Act of 1934, hereby proposes to amend 17 CFR Part 240 by amending § 240.15c1–4. The present provisions of § 15c1–4 will be redesignated as paragraph (a) and the amendment herein proposed will be added thereafter as paragraph (b) and, as so amended, will read as follows:

§ 240.15c1–4 Confirmation of transactions.

(a) The term "manipulative, deceptive, or other fraudulent device or contrivance," as used in section 15(c)(1) of the act is hereby defined to include any act of any broker or dealer designed to effect with or for the account of a customer any transaction in, or to induce the purchase or sale by such customer of, any security (other than United States Tax Savings Notes, United States Defense Savings Stamps, or United States Defense Savings Bonds, Series E, F, and G) unless such broker or dealer, at or before the completion of each transaction, gives, or sends to such customer written notification disclosing (1) whether he is acting as a broker for such customer, as a dealer for his own account, as a broker for some other person, or as broker for both such customer and some other person; and (2) in any case in which he is acting as a broker for such customer or both such customer and some other person, either the name of the person from whom the security was purchased or to whom it was sold for such customer and the date and time when such transaction took place or the fact that such information will be furnished upon the request of such customer, and the source and amount of any commission or other remuneration received or to be received by him in connection with the transaction.

(b) Notwithstanding paragraph (a) of this section, any broker or dealer which is a principal underwriter as defined in section 2(a)(29) of the Investment Company Act of 1940 (15 U.S.C. 80a–2(a)(29)), for a registered open-end investment company, may effect with or for the account of any customer the purchase of securities issued by such registered open-end investment company without giving or sending to such customer at or before the completion of each such transaction a written notification as required by paragraph (a) of this section provided that:

(1) The amounts paid by such customer pursuant to a group plan for the purchase of securities of a registered open-end investment company received by the broker or dealer as soon as practicable but in no event more than 30 days after the receipt of such amounts by a person designated by the group of which such customer is a member to collect and remit such amounts to the broker or dealer or an agent of the broker or dealer; and

(2)(i) If such securities are purchased by the customer pursuant to a group pension or profit sharing plan qualified under section 401 of the Internal Revenue Code, or other employer-sponsored plan, a written notification as required by paragraph (a) of this section is given or sent to such customer within 90 days of the completion of each such transaction, or

(ii) If such securities are purchased by the customer pursuant to an individual purchase plan qualified under section 408 of the Internal Revenue Code, or a group purchase plan other than a plan sponsored by an employer, a written notification as required by paragraph (a) of this section is given or sent to such customer within 30 days of the completion of each such transaction.

(3) The written notifications referred to in paragraph (b)(2)(i) and (iii) of this section may be given in bulk within such period to an employer or other person designated by the group for distribution to such customer.

(Sec. 2, 15 Stat. 1075, 15 U.S.C. 78o; sec. 15(c)(1), 23(a), 48 Stat. 895, 901 as amended 49 Stat. 1377, 15 U.S.C. 78o(c)(1), 78w(a).)

All interested persons are invited to submit their written views and comments on the proposed amendment to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549, on or before May 3, 1974.

All communications in this regard should refer to File No. S7–516, and will be available for public inspection.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

MARCH 15, 1974.

[FR Doc.74–7225 Filed 3–27–74;8:45 am]

VETERANS ADMINISTRATION

[38 CFR Part 3]

EFFECTIVE DATES OF AWARDS

Clarification

The Administrator of Veterans' Affairs proposes a regulatory change to clarify certain provisions relating to effective dates of awards of increased benefits on account of dependents.

Additional disability compensation is payable to veterans with dependents who are rated 50 percent or more disabled. No additional amount is payable when the rating is less than 50 percent.

Section 3010(f) of 38 U.S.C. provides that an award of additional compensation on account of dependents based on establishment of a disability rating at the requisite percentage evaluation will be effective from the effective date of the rating if proof of dependency is received within 1 year from the date of notification of the rating action. Under this provision where a veteran with dependents was previously rated at less than 50 percent disabled and current rating action increases the evaluation to 50 percent or more, additional compensation may be paid from the effective date of the increased evaluation if proof of dependency is already on file or is submitted within 1 year from the date he is notified of the increased disability evaluation. The regulatory provision related to this statutory provision is phrased in general terms and its intended application is not always realized. The proposed change rewords this provision to more specifically relate to the statutory provision on which it is based. This change is for clarification only and does not in any way affect benefits payable. To effect the change it is proposed to amend 38 CFR Part 3, as set forth below.

In addition minor editorial changes have been made in §§ 3.400(w) and 3.401(c) and the note following § 3.401(d) designed to reflect agency policy to avoid any appearance of seeming to preclude benefits for female veterans, dependents, or beneficiaries. No substantive change affecting benefits is involved.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans' Affairs (27H), Veterans Administration, 810 Vermont Avenue NW., Washington, D.C. 20420. All relevant material received before April 29, 1974, will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m. Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any person visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in room 132. Such visitors to any field station will be informed that the records are available for inspection only in Central Office and furnished the address and the above room number.

Notice is given that the proposed amendment to § 3.401(b) would be effective the date of final approval.

1. In § 3.400, the heading of paragraph (w) is amended to read as follows:

§ 3.400 General.

* * * * * *

(w) *Termination of remarriage of widow (widower) (38 U.S.C. 3010 (a), (k); 38 U.S.C. 103(d)(2) and 3010(1), effective January 1, 1971; § 3.55).*

* * * * * *

2. In § 3.401, paragraphs (b) and (c) and the Note following paragraph (d)(1) are amended to read as follows:

§ 3.401 Veterans.

* * * * * *

(b) *Dependent, additional compensation or pension for.* Latest of the following dates:

(1) Date of claim. This term means the following, listed in their order of applicability:

(i) Date of veteran's marriage, or birth of his or her child, or, adoption of a child, if the evidence of the event is received within 1 year of the event; otherwise,

(ii) Date notice is received of the dependent's existence, if evidence is received within 1 year of the Veterans Administration request.

(2) Date dependency arises.

(3) Effective date of the qualifying disability rating provided evidence of dependency is received within 1 year of notification of such rating action. (38 U.S.C. 3010(f))

(4) Date of commencement of veteran's award. (38 U.S.C. 3010 (f), (n)) (Other increases, see § 3.400(o). For school attendance see § 3.667.)

(c) *Divorce of veteran and wife (husband).* See § 3.501(d).

(d) * * *

NOTE.—If apportionment under §§ 3.452 (c) and 3.454 is in order or payment under § 3.850(a), Personal Funds of Patients account will not be set up but difference withheld for dependents.

* * * * * *

Approved: March 22, 1974.

By direction of the Administrator.

[SEAL] R. L. ROUDEBUSH, *Deputy Administrator.*

FOREIGN CURRENCIES

Certification of Rates

Rates of exchange certified to the Secretary of the Treasury by the Federal Reserve Bank of New York.

The Federal Reserve Bank of New York, pursuant to section 522(c), Tariff Act of 1930, as amended (31 U.S.C. 372 (c)), has certified the following rates of exchange which varied by 5 per centum or more from the quarterly rate published in Treasury Decision 74-40 for the following countries. Therefore, as to entries covering merchandise exported on the dates listed, whenever it is necessary for Customs purposes to convert such currency into currency of the United States, conversion shall be at the following daily rates:

Switzerland franc:	
Mar. 11, 1974	$0.3248
Mar. 12, 1974	.3238
Mar. 13, 1974	.3241
Mar. 14, 1974	.3210
Mar. 15, 1974	.3218

[Treasury Dept. Order 190-2]

DEPUTY ASSISTANT SECRETARY FOR TAX POLICY (TAX LEGISLATION)

Delegation of Authority

By virtue of authority vested in the Secretary of the Treasury, which authority has been delegated to me as Assistant Secretary for Tax Policy by Treasury Department Order No. 190 (Revision 9), I hereby delegate to the Deputy Assistant Secretary for Tax Policy (Tax Legislation) authority to act on requests for changes in accounting for the investment credit in financial reports to Federal agencies, as required by section 101 (c) of the Revenue Act of 1971 (P.L. 92-178). This authority may be exercised by him in his own capacity and under his own title, and he shall be responsible for referring to the Assistant Secretary for Tax Policy any requests for changes in accounting for the investment credit on which action should appropriately be taken by him.

Dated: March 22, 1974.

[SEAL] FREDERIC W. HICKMAN,
Assistant Secretary for Tax Policy.

U.S. ARMY TRANSPORTATION SCHOOL BOARD OF VISITORS

Notice of Meeting

MARCH 21, 1974.

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463), announcement is made of the following committee meeting.

The U.S. Army Transportation School Board of Visitors will meet during the period 24-27 April 1974 in Room 2, Wylie Hall, Fort Eustis, Virginia. Sessions on Wednesday, Thursday and Friday will commence at 8:30 a.m. and conclude approximately 4:30 p.m. The Saturday session will begin at 8:30 a.m. and conclude approximately 10 a.m. Agenda subjects will be as follows:

U.S. Army Transportation School Trends & Developments.
Briefing & Discussion of Officer Personnel Management Systems.
Briefing & Discussion of Transportation Officer Advanced and Transportation Officer Basic Course programs of instruction.
Briefing & Discussion of Combat & Training Development Projects.
Observation of TOBC Instruction in the Field (FTX).
Briefing & Discussion of Enlisted Personnel Management Systems.
Noncommissioned Officers' Education System—Briefing & Discussion.
The Station of Choice Program—Briefing & Discussion.
The Army Education Center & Volunteer Army Briefing & Tour of Facilities.
Briefing & Discussion of Industry Accreditation Program.
Observation of Enlisted Instruction.
Observation of Student Oriented Learning Environment (SOLE).
Discussion of Findings & Preparation of Report.

This meeting is open to the public. Any interested person may attend, appear before, or file statements with the committee at the time and in the manner permitted by the committee.

Any additional information concerning the meeting may be obtained from Dr. H. Jackson Darst, Special Assistant to the Commandant—Educational Advisor, Fort Eustis, Virginia, (804) 927-4400.

By authority of the Secretary of the Army.

R. B. BELNAP,
Special Advisor to TAG.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Serial Number AR 04855]

ARIZONA

Termination of Proposed Withdrawal and Reservation of Lands

Notice of application AR 04855, filed by the Corps of Engineers, United States Army, for withdrawal and reservation of lands to provide a site for the construction of a dam across the basin of the Gila River, to provide a reservoir and flowage area and a flood control channel, and for other purposes appurtenant to and necessary for the establishment and maintenance of the Painted Rock Reservoir Project, was published as FR Doc. 60-999, on page 882 of the FEDERAL REGISTER for February 2, 1960. The applicant agency has canceled its application insofar as it affects the following described lands. Therefore, pursuant to the regulations contained in 43 CFR 2091.2-5, such lands, at 10 a.m. on April 11, 1974, will be relieved of the segregative effect of the above mentioned application. However, the lands herein involved are included in Multiple Use Classification A 922 for the Fred Weiler Green Belt and will remain segregated as provided in that classification. The lands are also subject to the Cooperative Agreement dated February 16, 1974, between the Corps of Engineers and the Bureau of Land Management, serial No. A 7944.

DESCANSO DISTRICT GRAZING ADVISORY BOARD

Notice of Meeting

The Descanso District Grazing Advisory Board will meet at 7:30 p.m., April 16, 1974 at the Alpine Ranger Station Office, 2707 Alpine Boulevard, Alpine, CA 92001.

The purpose of this meeting is to provide National Forest grazing permittees means for expression of recommendations concerning management and administration of Cleveland National Forest grazing resource; better understanding of policy, regulations, and requirements; to develop local interest and responsibility in better range management; and to elect members to the Board of Directors and other offices of the organization as set forth in the bylaws.

The contact address is: William Tulloch, Star Route, Pine Valley, CA 92062, phone (714) 437-8344.

Written statements may be filed with the committee before or after the meeting.

The committee has established the following rules for public participation. Public members may participate only when they are recognized by the officer in charge of the meeting.

Dated: March 13, 1974.

DONALD H. SMITH,
Forest Supervisor.

BADLANDS PLANNING UNIT MULTIPLE USE PLAN

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for Badlands Planning Unit Multiple Use Plan, Forest Service report number USDA-FS-DES (Adm) R1-74-12.

The environmental statement concerns the implementation of a Multiple Use Plan for the Badlands Planning Unit, Little Missouri River National Grasslands, Custer National Forest. The Planning Unit is located in McKenzie, Golden Valley, Billings, and Slope Counties of North Dakota and contains 1,232,831 acres of which 636,379 acres are administered by the U.S. Forest Service. In addition, this action considers four specific petroleum-related proposals. Two of these are oil pipelines; the other two proposals are seismic activity and leasing.

This draft environmental statement was filed with CEQ on March 22, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230
12th St. & Independence Ave., S.W.
Washington, D.C. 20250

USDA, Forest Service
Northern Region
Federal Building
Missoula, MT 59801

USDA, Forest Service
Custer National Forest
2602 1st Avenue North
Billings, MT 59103

USDA, Forest Service
Medora Ranger District
1409 West Villard
Dickinson, ND 58601

USDA, Forest Service
McKenzie Ranger District
P.O. Box 492
Watford City, ND 58854

A limited number of single copies are available upon request to Forest Supervisor D.C. MacIntyre, Custer National Forest, P.O. Box 2556, Billings, MT 59103.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Virginia 22151. Please refer to the name and number of the environmental statement above when ordering.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor D. C. MacIntyre, Custer National Forest, P.O. Box 2556, Billings, MT 59103. Comments must be received by May 22, 1974, in order to be considered in the preparation of the final environmental statement.

Dated: March 22, 1974.

KEITH M. THOMPSON,
Acting Regional Forester,
Forest Service.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

[Order 47-1; Amdt. 2]

DEPUTY ASSISTANT SECRETARY FOR INTERNATIONAL ECONOMIC POLICY AND RESEARCH

Organization and Functions

This order effective February 25, 1974 amends the material appearing at 39 FR 1649 of January 11, 1974.

DIBA Organization and Function Order 47-1, dated November 12, 1973, as amended, is hereby further amended.

Section 8. *Office of Economic Research* is revised to read, as follows:

SEC. 8. *Office of Economic Research.*

.01 The *Office of the Director* includes: the *Director* who shall plan and direct the execution of policies and programs of the Office, and the *Deputy Director* who shall assist in the direction of the Office and perform the functions of the Director in his absence. The Director shall supervise and direct the following organizational components:

.02 The *Applied Research Division* shall conduct research and analysis on economic developments affecting U.S. trade and commercial interests abroad; shall conduct special economic and econometric studies to evaluate policy alternatives on issues impacting on U.S. trade and international economic relations; shall evaluate and analyze the effect that expected domestic economic conditions will have on U.S. international economic relations; shall conduct micro-economic studies of economic phenomena affecting U.S. trade and investment; and shall develop informational systems support for other offices reporting to the Deputy Assistant Secretary for International Economic Policy and Research.

.03 The *International Economic Division* shall be responsible for the development and coordination of econometric models concerned with longer-term U.S. trade and investment projections; shall conduct basic research in the area of the macro-economic factors affecting the U.S. comparative advantage in world trade and investment; shall employ econometric modeling, operations research techniques, and input-output analysis to forecast and simulate the behavior of economic sectors of importance to international economic policy issues; and shall serve as liaison with U.S. Government research and intelligence agencies as well as with private research groups.

Effective date: February 25, 1974.

TILTON H. DOBBIN,
Assistant Secretary for Domestic and International Business.

Maritime Administration

[Docket No. S-413]

SPRUCE SHIPPING CO.

Notice of Application

Notice is hereby given that Spruce Shipping Company has filed an application dated March 7, 1974, under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy on three proposed 89,700 DWT tankers to be employed in U.S. foreign trade. Inasmuch as affiliated companies of Spruce Shipping Company own and/or operate U.S. flag tankers which from time to time may operate in domestic intercoastal or coastwise trade, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required by Spruce Shipping Company if its application for operating-differential subsidy is approved.

Spruce Shipping Company requests permission under section 805(a) for its affiliates to own and operate a total of 31 U.S. flag vessels for the transportation of liquid bulk cargoes within and between the following coastal areas with free interchange of the vessels among these various domestic trades. The following list also shows the maximum number of vessels to be employed in each domestic trade at any one time:

U.S. Gulf-Atlantic Coastwise	17 vessels.
U.S. Gulf-Atlantic-Puerto Rico	2 vessels.
U.S. Atlantic-Gulf Intercoastal (including Alaska and Hawaii)	5 vessels.
Pacific Coast-Alaska-Hawaii	10 vessels.

As information, the following U.S. flag tankers are owned, managed, or operated by Spruce's affiliates.

Baldbutte	Keytanker
Fort Fetterman	Keystoner
Julesburg	Keytrader
Gaines Mill	Valley Forge
Mill Spring	Golden Gate
Northfield	Chancellorsville
Tullahoma	Perryville
Meadowbrook	Shenandoah
Sandy Lake	Santa Clara
Mobiligas	Edgar M. Queeny
Monmouth	Sinclair Texas
Spirit of Liberty	Mobil Power
Birch Coulie	Mobil Fuel
Catawba Ford	David E. Day

Interested parties may inspect this application in the Office of Subsidy Administration, Maritime Administration, Room No. 4888, Department of Commerce Building, Fourteenth and E Streets NW., Washington, D.C. 20230.

Any person, firm or corporation having interest (within the meaning of section 805(a)) in such application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on April 5, 1974, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

In the event that petitions for leave to intervene are received and a hearing is scheduled the purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act relative to domestic trade operations.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

(Catalog of Federal Domestic Assistance Program No. 11.504 Operating-Differential subsidies (ODS))

By Order of the Maritime Subsidy Board/Maritime Administration.

Dated: March 26, 1974.

JAMES S. DAWSON, Jr.
Secretary.

[FR Doc.74-7338 Filed 3-27-74;8:45 am]

Office of the Secretary

OZARKS ECONOMIC DEVELOPMENT REGION

Modification of Boundaries

Pursuant to the provisions of section 501(a) of the Public Works and Economic Development Act of 1965, as amended (42 U.S.C. 3181(a)), and having examined all pertinent data, I have determined that the Ozarks Economic Development Region, composed of part of the State of Kansas and the States of Arkansas, Louisiana, Missouri and Oklahoma, meets the requirements of the Act for enlargement. Accordingly, in response to a recommendation from the Ozarks Regional Commission and to a request from the Governor of the State of Kansas, I have today modified the boundaries of the Ozarks Economic Development Region so that it now includes the entire State of Kansas in addition to the entire States of Arkansas, Louisiana, Missouri and Oklahoma.

Inquiries relating to this modification should be addressed to the Special Assistant to the Secretary for Regional Economic Coordination, 2092 Main Commerce Building, Washington, D.C. 20230.

FREDERICK B. DENT,
Secretary of Commerce.

MARCH 25, 1974.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Resources Administration

NATIONAL ADVISORY BODIES

Notice of April Meetings

Pursuant to the Federal Advisory Committee Act (P.L. 92-463) the Administrator, Health Resources Administration, announces the meeting dates and other required information for the following National Advisory bodies scheduled to assemble the month of April 1974:

V 39 61 MAR 28 74 XUM

Council name	Date, time, place	Type of meeting and/or contact person
National Advisory Council on Health Professions Education.	April 8–9, 8:30 a.m., Conference Room No. 10, Building 31-C, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md.	Open—April 8, 1974, 8:30 a.m.—10:30 a.m. Closed remainder of meeting. Contact: Ms. Lynn Stevens, Room 4C-06, Building 31-C, National Institutes of Health, 9000 Rockville Pike, Bethesda, Md. 20014. Code 301-496-5353.

Purpose. Advises the Secretary with respect to the administration of programs of financial assistance for the health professions, including construction of facilities, student loans and scholarships, capitation for the support of educational programs, special projects and other purposes to improve the quality of education and conducts the final review of grant applications in these areas.

Agenda. The Council will discuss administrative and staff support and this portion will be open to the public. The Council will review grant applications, and this portion will be closed to the public, in accordance with the determination by the Administrator, Health Resources Administration, pursuant to Public Law 92–463, section 10(d).

Council name	Date, time, place	Type of meeting and/or contact person
Health Care Technology Study Section.	April 16–17, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open—April 16, 9 a.m.–10 a.m. Closed remainder of meeting. Contact: John R. Hall, Room 15–19 Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. 20852. Code 301-443-2920.

Purpose. The Committee is charged with the initial review of grant applications for Federal assistance in the program areas administered by the Bureau of Health Services Research which relate to the use of systems analysis, operations research, management sciences, and computer sciences in the broad fields of community health services, hospital medicine, and patient care. It makes recommendations to the Bureau and its Advisory Councils on the scientific merits of such applications.

Agenda. During the open session the Study Section will conduct necessary administrative and informational business. During the closed sessions the Study Section will review research grant applications in the fields of systems analysis, operations research, management sciences and computer sciences and will be closed to the public, in accordance with the determination by the Administrator, Health Resources Administration, pursuant to Pub. L. 92–463, section 10(d).

Committee name	Date, time, place	Type of meeting and/or contact person
Long-Term Care for the Elderly Research Review and Advisory Committee.	April 18–19, 1974, 9 a.m., Conference Room M, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md.	Open April 18, 1974, 9 a.m.—10 a.m. Closed remainder of day. Open April 19, 1974, 9 p.m.–5 p.m. Contact: David McFall, Room 15–29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2930, or Martha O. Greenspan, Room 11A-33, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-3346.

Purpose. The Committee provides a coordinated professional technical review of proposals submitted to the Department concerning long-term care for the elderly, and identifies problems and issues and develops a tentative ordering of priorities in long-term care for consideration by the Division of Long-Term Care, Bureau of Health Services Research, Health Resources Administration.

Agenda. During the open sessions, the committee will review the Administrative Report, Minutes, establish future meeting dates and discuss other related general matters. The committee will also consult with Federal employees concerned with issues relating to training and continuing education and research and development. There will be a progress report on activities and a Bureau status report will be presented. During the closed session the Committee will review proposals concerning the care of the elderly, which will include nursing homes. This portion is closed in accordance with the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92–463, section 10(d).

Committee name	Date, time, place	Type of meeting and/or contact person
Health Services Research Study Section.	April 21, 1974, 8:30 p.m., Holiday Inn—Bethesda, 8120 Wisconsin Ave., Bethesda, Md., and April 22–24, 1974, 8:30 a.m., Conference Room G, Parklawn Bldg., Rockville, Md.	Open—April 21, 1974, 8:30 p.m.—10 p.m. Closed remainder of meeting. Contact: Dr. Alan E. Mayers, Room 15–19, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. Code 301-443-2920.

Purpose. The Study Section is charged with the initial review of grant applications for Federal assistance in the program areas administered by the Bureau of Health Services Research and makes recommendations to the National Advisory Councils for final review.

Agenda. The open session of the meeting will be devoted to a business meeting covering administrative matters and reports. During the closed session, the Study Section will be reviewing research grant applications relating to the delivery and acceptance of health services, and this portion will be closed to the public in accordance with the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92–463, section 10(d).

Council name	Date, time, place	Type of meeting and/or contact person
Health Services Developmental Grants Study Section.	April 24, 1974, 8 p.m., Lobby Room, Holiday Inn of Chevy Chase, 5520 Wisconsin Ave., Chevy Chase, Md. and April 25–26, 1974, 9 a.m., Conference Room G, Parklawn Bldg., Rockville, Md.	Open—April 24, 1974, 8 p.m. to Adjournment, Closed remainder of meeting. Contact: David McFall, Room 15–29, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md., Code 301-443-2930.

Purpose. The Study Section is charged with the initial review of developmental grant applications for Federal Assistance in the program areas administered by the Bureau of Health Services Research.

Agenda. The Study Section during the open session will review the Administrative Report, Minutes, establish future meeting dates and discuss other related general matters. The Study Section during the closed sessions will be reviewing research grant applications which relate to the development, utilization, quality, organization, and financing of services, facilities and resources of hospital care, and other medical facilities, and this portion will be closed to the public in accordance with the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92–463, Section 10(d).

Agenda items are subject to change as priorities dictate.

Those portions of the meetings so indicated, are open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members or other relevant information on the Committees, should contact the person listed above.

Dated: March 18, 1974.

KENNETH M. ENDICOTT,
Administrator,
Health Resources Administration.

NURSING RESEARCH AND EDUCATION ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92–463), the Administrator, Health Resources Administration, announces the meeting date and other required information for the following National Advisory body scheduled to assemble the month of April 1974:

Committee name	Date, time, place	Type of meeting and/or contact person
Nursing Research and Education Advisory Committee.	April 16–18, 8:30 a.m., Conference Room B168, Federal Bldg., 7550 Wisconsin Ave., Bethesda, Md.	Open—April 16, 8:30 a.m.–10 a.m. Closed—remainder of meeting. Contact Dr. Doris Bloch, Federal Bldg., Room 6A-10, 9000 Rockville Pike, Bethesda, Md. Code 301-496-6955.

Purpose. The committee is charged with the initial review of research grant applications in all areas of nursing education and practice, including studies of extended professional roles, model curricula, clinical investigations, historical research, and institutional research development and with surveying the status of research in nursing education and practice.

Agenda. The committee will discuss administrative and staff reports and this portion of the meeting will be open to the public. During the closed session, the committee will review grant applications, and this portion will be closed to the public in accordance with the determination by the Administrator, Health Resources Administration, pursuant to Public Law 92–463, section 10(d).

Agenda items are subject to change as priorities dictate.

That portion of the meeting so indicated is open to the public for observation and participation. Anyone wishing to participate, obtain a roster of members, or other relevant information should contact the person listed above.

Dated: March 22, 1974.

KENNETH M. ENDICOTT,
Administrator,
Health Resources Administration.

Office of the Secretary

SECRETARY'S ADVISORY COMMITTEE ON THE RIGHTS AND RESPONSIBILITIES OF WOMEN

Notice of Meeting

The Secretary's Advisory Committee on the Rights and Responsibilities of Women, which was established to review the policies, programs, and activities of the Department of Health, Education, and Welfare relative to women and to make recommendations to the Secretary on how to better the services of HEW's programs to meet these special needs of women, will meet Thursday and Friday, April 4–5, 1974. On Thursday, April 4, the Committee will meet from 9 a.m. to 4:30 p.m. in HEW Region VII Office, Federal Building, 601 E. 12th Street, Kansas City, Missouri. The four Subcommittee's; Education, Health, Social Services & Welfare, and Administration Fiscal will meet concurrently to hear from consumers of HEW programs. Those persons wishing to address the Committee should contact Mr. Max Mills, HEW Region VII, Regional Director by Monday, March 25, 1974. Phone: 816–374–5012. Written statements may also be sent to Mr. Max Mills for distribution to members of the Committee. Friday, the full Committee will hold its regular meeting from 11:30 a.m. to 4 p.m. in the HEW Region VII office building. At this meeting, the Committee will discuss recommendations and findings to date especially in the areas of their four priorities: Title IX of the Education Amendments of 1972, National Health Insurance, Career Ladders for Women, and Social Security. Members of the public are invited to attend the meeting.

Dated: February 28, 1974.

KAREN KEESLING,
Executive Secretary, Secretary's Advisory Committee on the Rights and Responsibilities of Women.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Federal Disaster Assistance Administration

[Docket No. NFD–163; FDAA–419–DR]

OKLAHOMA

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11749 of December 10, 1973; and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238; and by virtue of the Act of December 31, 1970, entitled "Disaster Relief Act of 1970" (84 Stat. 1744), as amended by Pub. L. 92–209 (85 Stat. 742); notice is hereby given that on March 22, 1974, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Oklahoma resulting from heavy rains and flooding, beginning about March 10, 1974, is of sufficient severity and magnitude to warrant a major disaster declaration under Public Law 91–606. I therefore declare that such a major disaster exists in the State of Oklahoma. You are to determine the specific areas within the State eligible for Federal assistance under this declaration.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11749, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D–73–238, to administer the Disaster Relief Act of 1970 (Pub. L. 91–606, as amended), I hereby appoint Mr. Joe D. Winkle, HUD Region 6, to act as the Federal Coordinating Officer to perform the duties specified by section 201 of that Act for this disaster.

I do hereby determine the following areas in the State of Oklahoma to have been adversely affected by this declared major disaster:

The counties of:

Kay	Rogers
Osage	Tulsa
Ottawa	Washington

This disaster has been designated as FDAA–419–DR.

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: March 22, 1974.

MACARTHUR BRIDGE TOLLS AND KEOKUK BRIDGE TOLLS, IOWA

Order Fixing Time for Filing Exceptions and Briefs

In the Matter of MacArthur Bridge Tolls (Burlington, Iowa) and Keokuk Bridge Tolls (Keokuk, Iowa).

On March 4, 1974, the Administrative Law Judge issued his recommended decisions in these two proceedings pursuant to § 310.12 of the Bridge Toll Procedural Rules, 49 CFR 310.12. The recommended decisions were received by the Federal Highway Administration on March 9, 1974. Under § 310.12(b) of the rules, parties to each proceeding are entitled to file exceptions to the recommended decision within 30 days of the date it was served.

In consideration of the foregoing, *it is hereby ordered*, That the parties to each of these procedings may file exceptions to the recommended decision of the Administrative Law Judge, together with a supporting brief, which must be received not later than the close of business on April 8, 1974. Exceptions and briefs filed by mail should be addressed to the Chief Counsel (HCC–1), Federal Highway Administration, Washington, D.C. 20590.

Issued on March 20, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

ATOMIC ENERGY COMMISSION

[Docket No. 50-386]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC.

Assignment of Members of Atomic Safety and Licensing Appeal Board

In the matter of the Consolidated Edison Company of New York, Inc. (Indian Point Nuclear Generating Unit 3).

Notice is hereby given that, in accordance with the authority in 10 CFR 2.727 (a), the Chairman of the Atomic Safety and Licensing Appeal Panel has assigned the following panel members to serve as the Atomic Safety and Licensing Appeal Board for the proceeding.

Alan S. Rosenthal, Chairman.
Dr. John H. Buck, Member.
William C. Parker, Member.

Dated: March 22, 1974.

MARGARET E. DU FLO,
Secretary to the Appeal Board.

[FR Doc.74-7173 Filed 3-27-74;8:45 am]

[Docket No. PRM-20-5]

NATURAL RESOURCES DEFENSE COUNCIL, INC.

Filing of Petiton for Rule Making

Notice is hereby given that the Natural Resources Defense Council, Inc. (NRDC) by petition for rule making dated February 14, 1974, has petitioned the Atomic Energy Commission to amend its radiation protection standards as they apply to insoluble particles of plutonium and other alpha-emitting hot particles as more fully described in a report appended to the petition by Drs. Arthur R. Tamplin and Thomas B. Cochran, entitled "Radiation Standards for Hot Particles."

The petitioner states that NRDC's basic interest in requesting amendment of the radiation protection standards is to assure that the public and radiation workers are adequately protected from exposure to hot particle radiation by establishing radiation standards governing permissible exposure to hot particles which carry a risk comparable to existing radiation standards governing uniform exposure to whole body radiation. It is the view of NRDC that the present radiation standards, when applied to hot particles, are too high. The petitioner proposes that, when hot particles are involved, the existing radiation standards governing plutonium exposure should be reduced by a factor of 115,000.

The petitioner states that although the report appended to the petition is written with reference to hot particles formed from plutonium-239, the standards requested by petitioner are intended to be applicable to all radionuclides or mixtures thereof capable of forming hot particles.

The petitioner requests that all approvals for construction or operation of any facilities for the handling, processing or reprocessing of plutonium, or other radionuclides or mixtures thereof, capable of forming hot particles, or for use of such radionuclides, be held in abeyance until final resolution of the matters raised by the petitioner. As to projects already using or processing such radionuclides, the petitioner requests that no increase in the quantity of such radionuclides processed or used be approved until final resolution of the matters raised by the petition.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. A copy of the petition may be obtained by writing the Rules and Proceedings Branch at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Rules and Proceedings Branch, Office of Administration—Regulation, U.S. Atomic Energy Commission, Washington, D.C., on or before May 28, 1974.

Dated at Germantown, Md., this 25th day of March 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.74-7171 Filed 3-27-74;8:45 am]

RADIOISOTOPIC POWER GENERATORS AND CONTAINMENT PROPERTIES OF SEALED RADIOACTIVE SOURCES

Issuance and Availability of Regulatory Guides

The Atomic Energy Commission has issued two new guides, Regulatory Guide 6.3, "Design, Construction, and Use of Radioisotopic Power Generators for Certain Land and Sea Applications" and Regulatory Guide 6.4, "Classification of Containment Properties of Sealed Radioactive Sources Contained in Certain Devices to be Distributed for Use Under General License," in its Regulatory Guide series. This series has been developed to describe and to make available to the public methods acceptable to the AEC Regulatory staff for implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain information needed by the staff in its review of applications for permits and licenses.

Regulatory Guides 6.3 and 6.4 indicate acceptability, subject to conditions, of the use of International Atomic Energy Agency Safety Series No. 33 and American National Standards Institute Standard USASI N5.10-1968, respectively, in implementing certain parts of the Commission's regulations.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of the issued guides (which may be reproduced) or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated.

Other Division 6 Regulatory Guides currently being developed include the following:

Quality Control Sampling Procedures for Exempted and Generally Licensed Items Containing Byproduct Material
General Safety Standard for Installations Using Non-Medical Sealed Gamma-Ray Sources
(5 U.S.C. 552(a))

Dated at Bethesda, Maryland this 20th day of March 1974.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

[FR Doc.74-7172 Filed 3-27-74;8:45 am]

ADVISORY COMMITTEE ON REACTOR SAFEGUARDS SUBCOMMITTEE ON REGULATORY GUIDES

Change of Meeting Agenda

MARCH 26, 1974.

The FEDERAL REGISTER notice, published at 39 FR 10644 (March 21, 1974), relating to the April 10, 1974 Meeting of the ACRS Subcommittee on Regulatory Guides, is revised to remove two of the agenda items scheduled for discussion during the open portion of the meeting and to include discussion of preliminary working papers relating to those items during the closed session with members of the Regulatory Staff.

The items scheduled for discussion in open portions of this Subcommittee meeting are Regulatory Staff drafts of the following proposed Regulatory Guides in Division 1 of the Regulatory Guide series.

(1) Proposed Revision 2 of Regulatory Guide 1.3, "Assumptions Used for Evaluating the Potential Radiological Consequences of a Loss-of-Coolant Accident for Boiling Water Reactors", Draft 1.

(2) Proposed Revision 2 of Regulatory Guide 1.4, "Assumptions Used for Evaluating the Potential Radiological Consequences of a Loss-of-Coolant Accident for Pressurized aWter Reactors", Draft 1.

(3) Proposed Regulatory Guide 1.XX, "Preoperational Testing of Instrument Air Systems", Draft 1.

(4) Proposed Revision 1 of Regulatory Guide 1.21, "Measuring, Evaluating and Reporting Radioactivity in Solid Wastes and Releases of Radioactivity in Liquid and Gaseous Effluents from Light-Water Nuclear Power Plants", Draft 2.

(5) Proposed Regulatory Guide 1.XX, "Inservice Inspection of Steam Generator Tubes", Draft 2.

(6) Proposed Regulatory Guide 1.XX, "Collection, Storage and Maintenance of Nuclear Power Plant Quality Assurance Records", Draft 1.

(7) Proposed Regulatory Guide 1.XX, "Construction Criteria for Class I Components in Elevated Temperature Reactors", Draft 1.

(8) Proposed Revision 1 of Regulatory Guide 1.35, "Inservice Inspection of Ungrouted Tendons in Prestressed Concrete Containment Structures", Draft 1.

(9) Proposed Regulatory Guide 1.XX, "Code Case Acceptability—ASME Section III Design and Fabrication", Draft 1.

(10) Proposed Regulatory Guide 1.XX, "Code Case Acceptability—ASME Section III Materials", Draft 2.

(11) Proposed Regulatory Guide 1.XX, "Assumptions Used for Evaluating the Habitability of a Nuclear Power Plant Control Room During a Postulated Hazardous Chemical Release", Draft 3.

(12) Proposed Regulatory Guide 1.XX, "Protection Against Postulated Piping Failures in Fluid Systems Outside of Containment", Draft 2.

The Subcommittee and any of its consultants that may be required will meet in closed session with members of the Regulatory Staff for the purpose of discussing Regulatory Staff preliminary working papers concerning requirements for instrumentation to assess plant conditions during and following an accident; quality group classifications and standards for water-, steam-, and radioactive waste-containing components of nuclear power plants; and sumps for emergency core cooling and containment spray systems.

I have determined, in accordance with subsection 10(d) of Public Law 92-463, that the above-noted closed session with the Regulatory Staff will involve discussion of Regulatory Staff working papers which fall within exemption (5) of 5 U.S.C. 552(b). It is essential to close such portions of the meeting to protect the free interchange of internal views and to avoid undue interference with Subcommittee and agency operation.

All other matters pertaining to this meeting remain unchanged.

JOHN C. RYAN,
Advisory Committee Management Officer.

GENERAL SERVICES ADMINISTRATION

SPECIAL STUDY COMMITTEE ON THE SELECTION OF ARCHITECTS AND ENGINEERS

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of meetings of the GSA Special Study Committee on the Selection of Architects and Engineers, on April 4, 1974, at 9 a.m. and April 5, 1974, at 9 a.m. in room 2126, General Services Building, 18th and F Sts., NW., Washington, DC 20405.

The purpose of these meetings is for the Committee to receive and review reports of the various subcommittees and to discuss other matters brought up by members of the Study Committee.

These meetings will be open to the public. Interested persons wishing to attend should telephone 202-343-6306 by close of business Tuesday, April 2, 1974.

Dated: March 21, 1974.

ALLAN G. KAUPINEN,
Assistant Administrator.

CIVIL AERONAUTICS BOARD

[Docket No. 26527; Order 74-3-96]

FUEL-RELATED FARE INCREASES; VARIOUS CARRIERS

Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 22d day of March, 1974.

By recent tariff revisions, seven trunk and four local service carriers have proposed domestic passenger-fare increases of between four and six percent.[1] In justification, the carriers allege that the increases are both warranted and necessary in order to alleviate the severe revenue imbalance occurring as the direct result of rapidly escalating fuel price increases. They claim to have applied data used by the Board in authorizing the five percent domestic fare increase, effective December 1, 1973 (Order 73-11-93) as the starting point for all fare calculations, and to have modified these data to reflect the latest information available on the magnitude of actual fuel cost increases. In addition, the carriers contend that their justifications fully consider all cost-reduction benefits which flow from the mandatory fuel allocation program, e.g., capacity reduction, higher load factors, reduced labor expenses, etc., and that the proposed increases will not result in excessive earnings or windfall profits.

The carriers propose various publication methods in implementing the increases. Continental Air Lines, Inc. (Continental), Eastern Air Lines, Inc., (Eastern), and Western Air Lines, Inc. (Western) propose specific across-the-board increases in basic fares. United Air Lines, Inc. (United) and Allegheny Airlines, Inc. (Allegheny), on the other hand, propose "tariff supplements" to be used in conjunction with existing tariffs, which would be in the nature of a surcharge table but which would provide the user with the total adjusted fare. The remaining carriers propose to publish a series of surcharges which would require the ticketing agent to add a specified amount to the published fare in each instance.

Proponents of specific publication of point-to-point fares in single-sum amounts cite ticketing accuracy and speed as the primary benefit, while proponents of the surcharge method suggest that this vehicle is most responsive to identifiable fluctuations in fuel costs and will ultimately permit a more timely flow-through of such changes. United cites tariff simplification, low publication cost, and both speed and accuracy in ticketing as the salient features of its proposal.

The Board has concluded that none of the proposals are excessive. However, we will nevertheless suspend all the filings other than that of United for reasons subsequently discussed herein. Since the need for a fare increase in the range proposed has been adequately demonstrated, we also conclude that the public interest would not be served by requiring carriers to refile on the full 30 days' statutory notice. On the other hand, some measure of public notice should be provided. Accordingly, the Board will be receptive to requests for short notice to publish the proposed increases effective not earlier than April 16, 1974, on not less than 15 days' notice.

Complaints against the proposal have been filed by the General Services Administration (GSA), Mimi Cutler and the Aviation Consumer Action Project (ACAP), and the Honorable John E. Moss et al., Members of Congress (MOC) requesting suspension and investigation. GSA alleges, inter alia, that the carriers have failed to consider the financial and operational benefits resulting from curtailments in flight frequency, reduced fuel consumption, lower labor costs and other factors which have resulted from imposition of the mandatory fuel allocation program. GSA further contends that the test period ending June 30, 1973 upon which the carriers have predicated their proposals, represents a time frame which totally ignores the altered circumstances surrounding the energy shortage and the magnitude of its effect upon the industry's economic operations.

ACAP takes the position that the domestic carriers have already been permitted direct and indirect passenger-fare increases of approximately 19.4 percent over the past few years. ACAP also alleges that the financial and statistical data offered by Eastern in support of its proposal are deficient in both level and quantity, particularly in that the impact of cost savings brought about by capacity reductions, decreased manpower requirements, etc., are not adequately considered.

MOC's consolidated complaint goes essentially to the argument that present price sensitivity in air transportation may be something greater than the −0.7 coefficient of elasticity which the Board used in Phase 7 of the Domestic Passenger-Fare Investigation (DPFI), and upon which the carriers now rely. It is MOC's position that higher fares at the present time may depress revenues to the point that the unit-cost increases will exceed the increases in unit yield, and thereby further depress carriers' earnings. Accordingly, MOC believes that unless historical market demand or consumer survey data can be shown to support such a coefficient as being "just and reasonable," its use should be deferred.

[1] Revisions to Airline Tariff Publishers, Inc., Agent, C.A.B. Nos. 142 and 202. The following trunkline carriers have filed fare revisions: American Airlines, Inc., Braniff Airways, Inc., Continental Air Lines, Inc., Eastern Air Lines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and Western Air Lines, Inc. In addition, four local service carriers, Allegheny Airlines, Inc., Frontier Airlines, Inc., Hughes Air Corp., d/b/a Airwest, and Southern Airways, Inc., have also filed increased fare proposals.

V 39 61 MAR 28 74 XUM

MOC further alleges that the instant fare-increase proposals may adversely impact on the movement of traffic, both domestic and international, industry employment, and U.S. demand for foreign fuel imports, as well as lead to a deterioration in the U.S. position vis-a-vis international balance of payments.

The carriers have answered the various allegations, requesting that the complaints be dismissed as substantially inaccurate and immaterial. To the complaint that they have based their respective proposed increases on "outdated historical data," the carriers contend that they have incorporated all of the Board's standards applied in Order 73–11–93, and have adjusted fuel-cost statistics to reflect the latest available figures. The carriers rebut GSA's argument that approval of the proposals will reduce investment risk, since the proposals will do nothing more than protect the carriers from uncontrollable cost increases.

The Board last dealt with the matter of the domestic general fare level and the carriers' revenue requirements in Order 73–11–93, November 20, 1973. There the Board reviewed the latest available financial and operating data, applied its ratemaking policies and adjustments, found that unit costs of operation had risen 4.74 percent, and concluded the five percent general fare increase proposed by the carriers was warranted to provide the carriers an opportunity to realize the 12 percent return on investment (ROI) required in the long term to attract capital and maintain necessary services. Those tariff filings by the carriers and their subsequent disposition by the Board took place very early in the then developing fuel crisis. The questions of both future fuel supply and price were highly problematical at the time, and the carriers' filings and the Board's action did not purport to give any tangible consideration to possible further developments in this regard.[3]

Material changes in the fuel situation have developed since last year. Airline fuel supplies have been significantly reduced, schedules have been cut, and in numerous cases personnel laid off and aircraft grounded. Load factors have risen as a consequence of reductions in capacity and moderate traffic growth, and approximated 55 percent in January and February of this year. On the other hand, not the least of the changes has been a precipitous rise in jet fuel price per gallon. Fuel which cost the domestic trunkline carriers an average of 11.65 cents per gallon in the year ended June, 1973, cost 17.14 cents in January and 18.39 cents in February, 1974. Based on data adjusted for the various ratemaking standards, this would increase annual fuel costs by about $270 million (January prices) or in excess of $300 million (February prices).

[3] The overall cost increase of 4.74 percent included a small increase (1.8 percent) related to the price of fuel. This is a far cry from the increases sustained subsequently, which range upwards of 50 percent.

It seems perfectly clear that cost increases of this magnitude cannot be absorbed by the carriers, and that there currently exists an urgent need to provide a reasonable basis for recovery of this higher cost from the users of air transportation. To defer reasonable fare increases pending investigation would be to forestall forever recovery of the much escalated fuel costs now being experienced, and to impact seriously on the carriers' earnings prospects for 1974. By the same token, the facts regarding fuel costs are clear and isolable and an investigation would add little.

ACAP and GSA argue that schedule cutbacks resulting from the fuel shortage will have a favorable impact on earnings which will offset fuel price increases. While we agree that schedule cutbacks should reduce costs and improve profitability, this nevertheless affords no present basis to preclude the carriers from raising fares to cover the precipitous increase in fuel cost they have experienced. The costs attributable to excess capacity—those costs the carriers are now saving—are to a great extent the very elements of cost the Board has disallowed for purposes of evaluating fare level by applying load-factor standards.[4] In reviewing the carriers' need for the December 1973 increase, we disallowed more than $500 million in operating expenses, almost as much investment from the rate base, and excluded 9.6 percent of the capacity actually operated. This capacity adjustment is commensurate with actual capacity reductions since the offset of cost and investment reductions stemming from the fuel shortage is well in excess of short-term savings actually possible. Thus, the DPFI adjustments, in effect, recognize and meet the complainants contentions.

In short, by cutting schedules and attendant costs, albeit under the present unprecedented constraints, the carriers are bringing their services into line with the standards which the Board applies for rate-making purposes. The short answer to contentions that the Board must now offset the cost savings inherent in these schedule and personnel reductions against higher fuel costs is that we have done so. Whether or not the carriers' actual profitability improves in the immediate months ahead because of service cutbacks is not, in our opinion, dispositive of the issue before us. While actual return may increase from its present substandard average level, the same result does not necessarily follow as to the return adjusted for the various rate-making standards and it is the latter we rely on for rate-making purposes. (This issue is discussed in our order on reconsideration of the December, 1973 fare increase. Order 74–3–43). The fact remains that the industry's earnings would be substantially below the level needed to achieve the 12 percent rate of return on investment found reasonable by the Board if it must absorb the fuel cost increases. By the same token, it is clear that the fare increases proposed herein would not produce excess earnings for the carriers.[5] We emphasize, however, that our decision to permit the carriers to pass through their fuel cost increases rests solely on the extraordinary and precipitous nature of the price escalation, a unique circumstance which is clearly beyond the control of carrier managements.

Turning to the remaining complaint, MOC again raises the question of elasticity as its major argument against a fare increase at this time. The Board recently dealt at considerable length with MOC's arguments (Order 74–3–43, March 8, 1974), and it would serve no useful purpose to repeat that discussion here. Despite reiterations that the −0.7 elasticity coefficient is in error, and that the Board must weigh the probative value of various consumer confidence surveys through the hearing process before permitting any fare increase, MOC has yet to establish error in the Board's decision on this long-term elasticity coefficient. Irrespective of the fact that we remain unpersuaded that there is an inherent correlation between consumer confidence studies, which monitor and register the sum total of all demand for consumer goods and services, and the price elasticity of demand for one product in the spectrum (air service), we believe it relevant to note that traffic in January and February of this year (based on preliminary data) has grown by 4.6 and 7.3 percent, respectively, despite the recency of a five percent fare increase.

MOC seems to be suggesting that, because a fare increase may temporarily depress revenues and allegedly may therefore adversely affect profits in the short run, the increase should not be permitted notwithstanding the carriers' need in the longer run. Such an approach is directly at odds with the basic rate-making scheme developed in the DPFI.

In view of all these considerations, the Board is unable to find a basis for denying carriers an opportunity to cover the known increases in the price of jet fuel not included in the December 1973 general five percent increase, net of the savings flowing from fuel conservation measures adopted by the carriers. However, because of the volatility of fuel prices, we believe it is necessary to provide a means for dealing promptly with the matter should it develop that the need for such increases is reduced or

[4] By contrast, in the mainland-San Juan market where the present fare level has not been predicated on *DPFI* type rate-making standards, the Board has required carriers to consider cost savings stemming from a reduced scale of operations (Order 74–2–83, February 20, 1974).

[5] In particular, there is no reason to believe, nor is there any allegation, that the carriers have achieved savings in costs apart from those involved in the capacity costs discussed supra and the fuel conservation costs which we have taken into account. In this regard we take notice of the upward trend in unit costs experienced by the carriers in recent years (Order 73–11–93, November 20, 1973) and the effect of rising costs in the general economy on goods and services used in the conduct of the carriers' operations.

eliminated. Accordingly, we will require any tariffs reflecting a fuel-related increase to bear an expiration date, as some already do. The October 31, 1974 date proposed by United will permit the Board to evaluate the fare level on the basis of data through the second quarter of 1974 and thus appears reasonable.

Our analysis, which is designed solely to offset fuel price escalation on a flow-through basis, indicates that none of the proposed fare increases are excessive. Our basic approach, as set forth in Appendix A, was to adjust data for the year ended September 30, 1973 to reflect the increase in fuel prices which has occurred through February, 1974. The approach netted the amount of the increase already recognized by the Board in permitting the December 1 fare increase, and made a further adjustment to reflect potential savings in fuel stemming from conservation efforts.[6] Specifically, we first determined the price increase of fuel per gallon (domestic system operations of all trunk carriers excluding Pan American) for the month of February, 1974, compared with the average price per gallon for the year ended June 30, 1973 (used in our consideration of the December 1 increase). Against this was netted an estimate of the fuel increase already recognized in the December 1973 fare increase, which was made by calculating the increased price per gallon of fuel from year ended June 1972 to June 1973, and a further adjustment to reflect a three percent potential savings in fuel as a result of various conservation measures.

As indicated, the various filings reflect three methods by which the increases would be published, i.e., surcharge, increase in the published fare, or tariff supplement. We continue to favor the publication of domestic fares in single-sum amounts, and have no intention of departing from this longstanding policy in the longer term. We certainly would not countenance a surcharge as a device for rapid, repeated fare escalations based alone on fuel or any other single cost factor in the longer term. However, in the present circumstances and as a temporary measure, we tend to favor a surcharge approach, which we believe is consistent with the flow-through concept.[6] Reliable hard data on the full impact of the fuel shortage and price escalation will not be available until summer. The fuel situation is extremely volatile, and applicable regulations have also been subject to frequent change. In this light, we believe it preferable that fuel-related fare increases be kept as an isolated element which can be treated separately from more basic rate-making considerations, rather than one which becomes embedded in the fare base. The Board favors United's tariff supplement approach, which has the advantages both of flexibility and ease of fare quotation by selling agents.[7]

Upon consideration of the tariff filings, the justifications, complaints, answers, and all relevant matters, the Board concludes that each of the proposals here under consideration, except that of United, may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful and should be investigated. We further conclude that the fares should be suspended pending investigation.[8]

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204, 403, 404, and 1002 thereof,

It is ordered, That: 1. An investigation be instituted to determine whether the fares and provisions described in Appendix B attached hereto, including subsequent revisions and reissues thereof, and rules, regulations, and practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, or practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix B hereto are suspended and their use deferred to and including June 21, 1974, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein, the complaints in Dockets 26363, 26367, 26392, 26405, 26455, 26456, 26461, 26496, 26497, 26498, 26503, and 26506 are hereby dismissed;

4. The investigation ordered herein be assigned before an Administrative Law Judge at a time and place hereafter to be designated;

5. The provisions of sections 221.50, 221.52, and 221.110 of the Board's Economic Regulations are hereby waived to the extent necessary to permit carriers to file supplements to implement domestic fare increases in the manner proposed by United Air Lines, Inc.; and

6. A copy of this order be filed with the aforesaid tariffs and be served on the domestic scheduled certificated air carriers, the General Services Administration, the Honorable John E. Moss et al., Members of Congress, and Mimi Cutler and the Aviation Consumer Action Project which are hereby made parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board:

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[6] Lower cruising speeds, one-engine taxiing, reduced climb speed, delayed engine starts, etc.

[7] Notwithstanding the desirability of the surcharge concept, the methodology initially proposed by Frontier and matched by Airwest and Southern may result in unreasonable fares. Frontier's surcharge table is set forth in $10.00 increments, which we consider too broad, because application of the surcharge amount results in increases considerably more (or less) than the average increase sought. By comparison, the surcharge table proposed by American is set up in increments of $2.00 which substantially minimizes variances from the intended overall fare increase.

[8] We will herein grant the waiver necessary to implement the tariff supplement approach.

[9] We are suspending the proposals of Airwest Frontier, and Southern because the use of a $10.00 increment in their surcharge table does not equitably spread the increases, as discussed above. All other proposals are being suspended due to the lack of an expiration date.

Postponement of Prehearing Conference and Hearing

Fiji-Majuro via Intermediate Points and Fiji-Pago Pago via Intermediate Points.

Counsel for the applicant has requested a postponement of the prehearing conference and hearing on the above-entitled application from March 26, 1974, to April 23, 1974. Accordingly, notice is hereby given that the prehearing conference and hearing now scheduled for March 26, 1974 (39 FR 10174, March 18, 1974), is hereby postponed to April 23, 1974, at 10 a.m. (local time), in Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, D.C., before the undersigned Administrative Law Judge.

Since it is contemplated that hearing in this proceeding may be held immediately following conclusion of the prehearing conference, any person objecting to this procedure should notify the Judge and all parties on or before April 10, 1974. Interested persons should also notify the Judge and all parties on or before April 10, 1974, of points on which they differ with Bureau Counsel's statement of issues and request for evidence, dated March 13, 1974.

Dated at Washington, D.C., March 25, 1974.

[FR Doc.74–7205 Filed 3–27–74;8:45 am]

[Dockets Nos. 26113, 24365; Order 74–3–103]

ALLEGHENY AIRLINES, INC.

Order

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 22nd day of March 1974.

Application of Allegheny Airlines, Inc. under section 401 of the Federal Aviation Act of 1958, as amended, for an amendment of its certificate of public convenience and necessity for Route 97 so as to delete Lima, Ohio from segments 9 and 11.

Application of Allegheny Airlines, Inc. for authority to suspend service temporarily at Lima, Ohio.

On November 16, 1973, Allegheny Airlines, Inc. filed an application for amendment of Order 73–1–65 so as to permit the continuation of its suspension of service at Lima without the commuter replacement service now operated by Apollo Aviation, Inc.[1] The carrier has requested that such revised suspension authority continue pending a final Board determination on its concurrently filed application in Docket 26113 for deletion of Lima from its certificate. On the same day, Allegheny filed a petition for an order to show cause why Lima should not be deleted from its certificate.

In support of its application for amendment of Order 73–1–65, Allegheny alleges, interalia, that commencing on March 1, 1973, Apollo offered the Lima community an excellent pattern of commuter service, with six round trips offered in the Lima-Columbus market and two round trips in the Lima-Toledo market; that traffic response has been very low, with a March–September average of only 1.7 passengers per departure; that Allegheny financial guarantee payments to Apollo during the first seven months have amounted to more than $82,000, reflecting an average of $11,700 per month to achieve a breakeven operation; [2] that Lima is not isolated, being located on Interstate 75 which affords expeditious access to the air services available at both Dayton and Toledo; [3] and that it would be wasteful of effort and resources for Allegheny to be required to resume service at Lima.

In support of its petition for an order to show cause, Allegheny states, inter alia, that because of the advance of very large sums of cash support (which would amount to an annual outlay of over $140,000), Allegheny and Apollo have been compelled to agree to an early termination of the Lima commuter service; [4]

[1] By Order 73–1–65, dated January 22, 1973, the Board authorized Allegheny to temporarily suspend service at Lima, Ohio, and approved Agreement C.A.B. 23016, which provided for an Allegheny Commuter replacement service by Apollo. The authority was made effective for a period of ten years.

[2] Allegheny indicates that including the preoperating advances ($30,000) and the unreimbursed costs it has incurred in providing reservation and ground handling support for Apollo ($12,133), the Lima Allegheny Commuter service has for the first seven months alone cost Allegheny nearly $125,000.

[3] Dayton is situated 76 road miles from Lima and Toledo is situated 79 road miles from Lima.

[4] Allegheny attached as an appendix to its application a letter in which Allegheny and Apollo agree to the termination of the Lima Allegheny Commuter service upon the deletion of Lima from Route 97 or a grant by the Board of a modification of Allegheny's suspension authority at Lima so as to continue such authority without Apollo's replacement service. In any event, the Allegheny-Apollo service agreement has terminated and Apollo's commuter replacement service ceased as of March 1, 1974.

that changes in scheduled trunk service between Toledo and Columbus, and a simultaneous decline in traffic in that market have resulted in less than the predicted level of enplanements upon which the substitution agreement and order was predicated; that if Allegheny were required to resume service at Lima, it would incur an operating loss of nearly $180,000 and a subsidy requirement of $194,116; and that the deletion of Lima from Allegheny's certificate is consistent with current policy and recent Board precedent.

The U.S. Postal Service, the City of Lima, and the Lima Area Chamber of Commerce filed answers in opposition to Allegheny's application and petition.[5] The Postal Service states that Lima generates an average of 700 pounds of airmail daily, which is presently transported by Apollo to Columbus; that bus schedules are not adapted to the daily timely transportation of airmail from Lima; and that ten months' experience with the replacement service is not a sufficient period on which to base grant of the relief Allegheny now seeks.

The Lima Parties contend that the cessation of scheduled air service will exert an adverse effect on the community's orderly economic development, and that for a matter of this magnitude and importance and in order to protect the rights of the citizens of the community a formal hearing procedure should be authorized.

Allegheny filed a reply to the answer of the Postal Service, stating that Apollo cannot afford to retain the one flight in which the Postal Service has expressed an interest (a late-evening departure which generated only seven-tenths of a passenger per departure) and that a total of eight flights of the ten Apollo operated during November between Lima and Columbus carried no mail at all including the four flights Apollo now operates.[6]

Upon consideration of the pleadings and all the relevant facts, we have decided to deny Allegheny's request for modification of Order 73–1–65 and its petition for an order to show cause, and to set for hearing its application for deletion of Lima. In light of the objections of the civic parties and the Postal Service, and considering that this would be the first of the Allegheny Commuter replacement arrangements to be completely terminated at a city, we find that temporary suspension without a replacement carrier and deletion by show cause procedures would be inappropriate, and that the disputed facts and issues can best be resolved on the basis of an evidentiary record after hearing.[7]

Accordingly, it is ordered, That:

1. The application of Allegheny Airlines, Inc. in Docket 24365 for amendment of Order 73–1–65 so as to permit the continuation of its suspension of service at Lima without the commuter replacement service now operated by Apollo Aviation, Inc., be and it hereby is denied;

2. The petition of Allegheny Airlines, Inc. in Docket 26113 for an order to show cause, be and it hereby is denied;

3. The application of Allegheny Airlines, Inc. in Docket 26113 be and it hereby is set for hearing at a time and place to be hereafter designated; [8]

4. The motions of the City of Lima, the Lima Area Chamber of Commerce, and the U.S. Postal Service, for leave to file a late-filed answer, be and they hereby are granted; and

5. A copy of this order shall be served upon Allegheny Airlines, Inc.; Apollo Aviation, Inc.; Mayor, City of Lima; Chairman, Regional Airport Authority; Airport Manager, Allen County Airport; and the Postmaster General (attention: Assistant General Counsel of Transportation), U.S. Postal Service.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74–7208 Filed 3–27–74;8:45 am]

[Docket No. 25667; Order 74–3–105]

HUGHES AIRWEST

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 25th day of March 1974.

Application of Hughes Airwest for deletion of Lake Tahoe, California.

By application filed on July 2, 1973, and a petition for an order to show cause filed on July 26, 1973, Hughes Airwest has requested amendment of its certificate of public convenience and necessity for route 76 so as to delete therefrom Lake Tahoe, California.

The City of South Lake Tahoe filed an answer stating that it does not oppose the application.

Upon consideration of the application and petition and all the relevant facts, we have decided to issue an order to show cause why the deletion should not be granted. In addition, we will authorize Airwest to suspend service temporarily at Lake Tahoe pendente lite. Accordingly, we tentatively find and conclude that the public convenience and necessity require the amendment of Airwest's certificate for route 76 so as to delete the point, Lake Tahoe, California.

In support of our ultimate conclusion, we make the following tentative findings and conclusions. Airwest's service at Lake Tahoe has been characterized by declining traffic, excessive costs and inability to compete effectively with Holiday Airlines, its major competitor at Lake Tahoe.[1] Since 1967, Airwest's enplanements at Lake Tahoe have declined from a high of 10,946 to a 1972 level of 2,519.[2] Over the past five years Holiday has captured from 88 to 94 percent of the total origin-destination traffic by virtue of its superior schedules and equipment.[3]

The deletion of Lake Tahoe will, according to our estimate for the year ended May 31, 1973, reduce Airwest's operating loss by $33,000 and its subsidy need by $48,000, or nearly $7.50 per passenger. This saving can be achieved without seriously inconveniencing the traveling public. In addition to Holiday, Ram Airways, a commuter carrier, provides multifrequency small-aircraft service to Las Vegas, Reno and Carson City, Nevada, as well as to San Francisco; and Air Nevada, another Part 298 carrier, holds exemption authority to operate Electra aircraft in many California-Lake Tahoe markets, directly and via Hawthorne, Nevada.[4] Finally, Lake Tahoe is 55 miles over four-lane limited-access highway from Reno, Nevada; surface transportation is provided by two bus

[5] The answers were accompanied by motions for leave to file late documents. Good cause having been shown, the motions will be granted.

[6] Effective January 7, 1974, Apollo reduced its service pattern at Lima to two daily round trips between Lima and Columbus, the minimum service permitted under the terms of its replacement contract and Order 73–1–65.

[7] Allegheny has filed a letter with the Board, pursuant to section 205.8 of the Board's Economic Regulations, indicating that the resumption of service at Lima, which was scheduled to begin March 1, 1974, will be involuntarily postponed for an indefinite period. The carrier states that the postponement is necessitated by the fact that the Allen County Airport serving Lima is not certificated as required by Part 139 of the Federal Aviation Regulations nor has a waiver of the provisions of that Part been granted by the FAA. In consequence, Allegheny is prohibited from conducting regularly scheduled, large aircraft operations at Lima's Allen County Airport, until such time as the airport is properly certificated by the FAA or until a waiver of the FAA provisions is obtained. Thus, as a practical matter, Lima may be without certificated air service until steps are taken to qualify the Allen County Airport under FAA regulations.

[8] The hearing shall determine whether the public convenience and necessity require that Allegheny's certificate be altered, amended, or modified so as to suspend or delete Lima. As an alternative to amending Allegheny's certificate, we shall place in issue whether the public interest requires the temporary suspension of service by the carrier, with or without conditions.

[1] Holiday, an intrastate carrier, provides multi-frequency service between Lake Tahoe and Burbank, Los Angeles, Oakland, San Diego, San Francisco and San Jose, California. OAG, January 15, 1973.

[2] There was no service in 1972 until April 17 because of a mechanics' strike.

[3] Holiday operates Lockheed Electra aircraft which are better suited to cope with the various operational limitations of the airport than are Airwest's F–27 aircraft.

[4] Order 74–1–134, January 25, 1974. It should be noted that the order also authorized Holiday to engage in interstate air transportation with large aircraft in certain Lake Tahoe markets. Such authority will enhance the utility of Holiday's services. Furthermore, in dismissing the Lake Tahoe Service Investigation in Order 74–1–134, we found that Lake Tahoe does not appear to be a suitable point for certificated service and we herein incorporate that finding by reference.

V 39 61 MAR 28 74 XUM

lines and by limousine under contract to some of the Lake Tahoe resorts. In these circumstances, the Lake Tahoe area will not be isolated from the nation's transportation system in the absence of Airwest.[4]

We have also concluded that the public interest requires the temporary suspension of Airwest pending the effectiveness of the proposed certificate amendment.[5] As noted above, Airwest's service is uneconomical, alternatives are available and the community has interposed no objection to having the service discontinued. Moreover, we believe that the need to conserve valuable fuel resources warrants a suspension under standards recently applied, quite apart from the pending deletion application.[7] In view of all these factors, it would be contrary to the public interest to require the carrier to continue its minimum level of service while its unopposed application for deletion is being processed.

Interested persons will be given twenty days following service of this order to show cause why the tentative findings and conclusions set forth herein should not be made final. We expect such persons to support their objections, if any, with detailed answers, specifically setting forth the tentative findings and conclusions to which objection is taken. Such objections should be accompanied by arguments of fact or law and should be supported by legal precedent or detailed economic analysis. If any evidentiary hearing is requested, the objector should state in detail why such a hearing is considered necessary and what relevant and material facts he would expect to establish through such a hearing that cannot be established in written pleadings. General, vague, or unsupported objections will not be entertained.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order making final the tentative findings and conclusions stated herein and amending Hughes Airwest's certificate of public convenience and necessity for route 76 so as to delete Lake Tahoe, California, therefrom;

2. Any interested persons having objections to the issuance of an order making final any of the proposed findings, conclusions, or certificate amendments set forth herein shall, within 20 days after service of a copy of this order, file with the Board and serve upon all persons listed in paragraph 6 a statement of objections together with a summary of testimony, statistical data, and other evidence expected to be relied upon to support the stated objections; [8]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedual steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein;

5. Hughes Airwest be and it hereby is authorized to suspend service temporarily at Lake Tahoe, California, on route 76 until 60 days after the effective date of the Board's final decision on the application to delete Lake Tahoe, Docket 25667;

6. The authority granted in paragraph 5 above may be amended or revoked at any time at the discretion of the Board without hearing; and

7. A copy of this order shall be served upon Hughes Airwest; Mayor, City of South Lake Tahoe; Governor, State of California; California Public Utilities Commission; Airport Manager, South Lake Tahoe Airport; and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-7206 Filed 3-27-74;8:45 am]

[Dockets Nos. 26435, 26482; Order 74-3-100]

TRANS WORLD AIRLINES, INC.

Order Dismissing Complaints

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 22nd day of March 1974.

Demand-Scheduling fares proposed by Trans World Airlines, Inc.

By tariff revisions [1] marked to become effective March 25, 1974, Trans World Airlines, Inc. (TWA) proposes to establish a revised version of its Demand-Scheduling fare, which was originally introduced in 1973.[2] The proposed fares would apply between Boston, New York, Philadelphia, Baltimore, and Washington, on the one hand, and Los Angeles and San Francisco, on the other, for travel commencing on and after July 8, 1974.

The proposed fares vary depending on whether travel commences on a weekend (Friday, Saturday, or Sunday) or a weekday, and during the peak or off-peak (October 1 through March 31) season. Discounts from regular coach fares range from 16 to 32 percent during the peak season, and 22 to 37 percent during the remainder of the year.

Reservations must be made at least 90 days in advance; a $20 nonrefundable deposit must be submitted within 15 days of reservation, with full payment due 45 days prior to commencing travel. At the time a reservation is accepted, TWA commits itself to carry the passenger on the specified date for which the booking is made. After the carrier receives full payment, the pasenger will receive a ticket indicating the flight number, departure and arrival times, and routing of the transportation.

As originally contemplated, the 1973 Demand-Scheduling experiment was to be a self-contained operation—separate from regular service and operated with aircraft isolated from the carrier's fleet. Under the instant proposal, Demand-Scheduling passengers will be carried on regularly scheduled flights. The number of weekly seats the carrier will sell in each market is based on the number of nonstop seats scheduled during February 1974 in that market. From this base, TWA will make available seven percent of the average weekly nonstop scheduled seats in a particular market during the peak season, and 12 percent during the off-peak season. As a further constraint, no more than 150 percent of average daily seat inventory would be available for Demand-Scheduling service on any particular day. TWA expects to carry 197,000 passengers at Demand-Scheduling fares during the year ending June 30, 1975, and to achieve a profit of $5.14 million. It also calculates that it will break even if the fares generate 65,100 passengers.

Certain member carriers of the National Air Carrier Association (NACA) have filed a complaint against TWA's proposal, requesting that it be suspended and investigated. NACA contends that as a result of the Board's Phase 5 decision, combined with the effects of the fuel shortage and the capacity reduction agreements, the array of below-cost discount fares which have long plagued the domestic scheduled airline industry are finally being phased out, and that until now it appeared that the domestic air transport system would at long last return to a sound, rational, nondiscriminatory, cost-based pricing policy. TWA's proposed fares would allegedly start the same cycle all over again, and the Board should therefore adhere to its determination in Phase 5 to prohibit discount fares which do not cover fully-allocated costs, except where such fares are needed on a short-term basis to deal with temporary periods of excess capacity or to promote traffic in "thinly-developed markets served at low load factors with a minimum service pattern." NACA estimates that if capacity costs are taken into account, the fares would produce a

---

[4] We also tentatively find that the carrier is fit, willing and able properly to perform the transportation pursuant to the proposed amended certificate of public convenience and necessity and to conform to the provisions of the Act and the Board's rules, regulations and requirements thereunder.

[5] Airwest reinstated a single round trip at Lake Tahoe on February 15 after having suspended service in apparent violation of its certificate early in January. Our action herein does not render moot any past violations of the Act and neither prejudices any enforcement action which may be taken for such violations nor lessens the severity of any such offense.

[7] See, e.g., Orders 74-1-3 and 74-1-9, January 2, 1974.

[8] All motions and/or petitions for reconsideration shall be filed within the period allowed for filing objections and no further such motions, requests, or petitions for reconsideration of this order will be entertained.

[1] Revisions to Airline Tariff Publishers, Inc., Agent, Tariff Nos. 202 and 142.

[2] American Airlines, Inc. (American) and United Air Lines, Inc. (United) have filed to match in those markets covered by the TWA proposal where they provide nonstop service. American also includes the San Diego market, while United includes Seattle.

net loss of $2.31 million, rather than TDA's projected profit of $5.14 million, even accepting the accuracy of TDA's rather optimistically assumed 50 percent generation/diversion ratio.

NACA asserts that substantial displacement of full-fare passengers is inevitable, notwithstanding TWA's contention that the limitation on the number of Demand-Scheduling seats to be sold and the carrier's ability to assign passengers to any available flight (including, if necessary, a flight with intermediate stops) will tend to prevent these passengers from replacing those paying full fares. This is allegedly so since there are no blackout days or periods, and Demand-Scheduling passengers would accordingly be able to travel even during periods of peak demand. It asserts that Demand-Scheduling passengers would be assigned to specific flights no later than 30 days prior to departure, whereas most full-fare passengers normally make their reservations closer to departure date.

In answer to NACA's complaint, TWA alleges that its Demand-Scheduling proposal meets the Board's Phase 5 tests in all respects; it contends that the Board rejected a policy of prohibiting non-cost-based promotional fares, since that "• • • would largely remove the element of competition from airline pricing, and thus inhibit some of the dynamism and innovation which has been characteristic of the industry;" that the Board stated that the two objectives of allowing the carriers flexibility in pricing techniques and at the same time preventing discount fares from over-burdening the general fare level are not irreconcilable, and concluded that they could be achieved by adopting the following standards: (1) all discount-fare proposals must be accompanied by a prima facie showing that the fares will have a favorable profit impact; (2) the proposed discount-fare tariff must be marked to expire no later than 18 months following its effective date; and (3) in determining revenue requirements for fare-level purposes, the impact of promotional fares will be eliminated. TWA alleges that its filing meets the first two standards and, since the impact of promotional fares will not be recognized in evaluating the revenue needs of the industry, utilization of the profit-impact test is fully warranted.

TWA disputes NACA's allegation that Demand-Scheduling will result in substantial displacement of full-fare passengers and contends that never before has a promotional fare been so specifically structured to avoid such a possibility. While there are no travel black-outs, NACA ignores the fact that well over 95 percent of the nonstop seats in the peak season in these markets will be blacked-out to Demand-Scheduling travel by the capacity limitations of the proposal, a far more effective and meaningful black-out than is possible with customary daily or periodic black-outs. Since there is a limit on the number of seats which can be sold in a given week, each carrier will find it counter-productive to make too many of those seats available on a day or days when it would otherwise anticipate peak demand at full fare; that the more seats carriers might choose to sell on a day of potentially peak demand, the fewer it will have to sell on the surrounding days in the same week; and that normal business judgment will thus lead each carrier to concentrate Demand-Scheduling availability on days other than those of highest demand.

Finally, TWA concedes NACA's allegation that most full-fare passengers make reservations less than 30 days prior to departure. However, it contends that it will have an indication of the trend in bookings and the prospective loads on different flights by the time it must firm up Demand-Scheduling travel, and will therefore have the capability of planning for the distribution of this traffic onto flights where the loads are likely to be lightest.

Delta Air Lines, Inc. (Delta) has filed a consolidated complaint against the Demand-Scheduling fares proposed by American and United. Delta's primary concern is that the proposed "uneconomic, yield-diluting fares cannot be limited to the transcontinental markets," and alleges that such fares are particularly inappropriate now during the current period of serious fuel shortage and the concomitant limitations imposed upon airline capacity. Delta further asserts that claims of prior success with Demand Scheduling must be considered in light of American's statement, in connection with its cancellation of the fares, that it experienced a significant amount of diversion, as evidenced by a substantial decline in load factor on regular scheduled flights.

In answer to Delta's complaint, the three transcontinental carriers assert, inter alia, that Delta's concern over the spread of Demand Scheduling to other markets is merely hypothetical, and opportunity to complain will be available should a Demand-Scheduling tariff be filed in a Delta market; and that the capacity ceilings built into the fare program make it clear that the fares will not create short-term pressure to increase capacity to accommodate lower-yield traffic generation. With respect to last year's experiment, American asserts that it was the cost of operating separate flights which made the experiment uneconomic, since it was not possible to make a corresponding reduction in scheduled flights and thereby cut costs. Instead, diverted passengers moved on the added flights which had the effect of doubling the flight cost for these passengers.

Upon consideration of the tariff filings, the complaints, and answers thereto, and all other relevant matters, the Board finds that the complaints do not set forth sufficient facts to warrant investigation of the filings and the requests therefor, and consequently the requests for suspension, will be denied and the complaints dismissed.

Delta and NACA argue that the instant proposal raises the spectre of a renewed emphasis on unwise and unneeded industry-wide discounts, and contend that the proposal is contrary to the principles set forth in Phase 5. We do not agree. The Board did not intend to stifle reasonable pricing innovation by its Phase 5 decision. The decision was, in fact, explicit to the contrary, although it does require that carriers approach discount-fare pricing in a more cautious manner than in the past, and that a proposed fare must not only be nondiscriminatory but, most important, must not burden the general fare level. The safeguards built into the fare here proposed should protect against such a result.

In our opinion, excellent response to the Demand-Scheduling program last year is evidence that a significant segment of the public is willing to tolerate considerable restriction on their travel in order to qualify for the reduced fare and, by the same token, is sufficiently price-conscious that they would most probably not otherwise travel by air. We believe TWA's generation estimate to be reasonable and, accordingly, its estimate of profit impact, particularly since several major discount fares which have been available for a number of years will be terminated after the first week in June.[3]

We distinguish between this program and the Florida midweek excursion fares proposed by United which were suspended by the Board (Order 73-12-76). There the Board was concerned with the possibility that the fares would create pressure for additional capacity or would displace regular-fare passengers during a period of schedule reductions necessitated by the fuel shortage. In the instant case, on the other hand, the Demand-Scheduling capacity is specifically pegged to a maximum percentage of February 1974 schedules, and cannot be changed without Board approval. Similarly, Delta's concern with the possible spread of Demand-Scheduling fares to other cities, which is at best premature, is likewise controllable by the Board, since any expansion would necessitate a tariff filing.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. The complaints in Dockets 26435 and 26482 be and hereby are dismissed; and

2. Copies of this order be served upon American Airlines, Inc., Capitol International Airways, Inc., Delta Air Lines, Inc., Saturn Airways, Inc., Trans International Airlines, Inc., Trans World Airlines, Inc., United Air Lines, Inc., and World Airways, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-7207 Filed 3-27-74; 8:45 am]

---

[3] We will expect carriers offering Demand-Scheduling fares to file reports with the Board, the contents of which are set forth in Appendix A. Appendix A filed as part of the original document.

V 39 161 MAR 28 74 XUM

CIVIL SERVICE COMMISSION

COMMITTEE ON PRIVATE VOLUNTARY AGENCY ELIGIBILITY

Notice of Closed Meeting

Pursuant to the provisions of section 10 of Pub. L. 92–463, effective January 5, 1973, notice is hereby given that the Committee on Private Voluntary Agency Eligibility will hold a closed meeting on April 2, 1974. The meeting will be held in Room 5323, Civil Service Commission Building, 1900 E Street NW., Washington, D.C., beginning at 1:30 p.m. and ending at approximately 4:30 p.m.

The Committee's primary responsibility is to make recommendations to the Chairman of the Civil Service Commission regarding eligibility of national voluntary agencies to participate in the Federal fund-raising program. At this meeting the Committee will review applications for fund-raising privileges which have been submitted by voluntary organizations to the Commission in compliance with the Federal Fund-Raising Manual.

The meeting will be closed to the public under a determination to do so made under the provisions of section 10(d) of Pub. L. 92–463. Additional information concerning this meeting may be obtained by contacting the Office of the Chairman, U.S. Civil Service Commission, 1900 E Street, NW., Washington, D.C.

IRVING KATOR,
Assistant to the Chairman.

[FR Doc.74–7126 Filed 3–27–74;8:45 am]

FEDERAL PREVAILING RATE ADVISORY COMMITTEE

Notice of Committee Meetings

Pursuant to the provisions of section 10 of Pub. L. 92–463, effective January 5, 1973, notice is hereby given that meetings of the Federal Prevailing Rate Advisory Committee will be held on:

Thursday, April 4, 1974
Thursday, April 18, 1974
Thursday, April 25, 1974

The meetings will convene at 10 a.m. and will be held in Room 5A06A, Civil Service Commission Building, 1900 E Street NW., Washington, D.C.

The committee's primary responsibility is to study the prevailing rate system and from time to time advise the Civil Service Commission thereon.

At these scheduled meetings, the committee will consider proposed plans for implementation of Pub. L. 92–392, which law establishes pay systems for Federal prevailing rate employees.

The meetings will be closed to the public under a determination to do so, made under the provisions of section 10(d) of Pub. L. 92–463.

However, members of the public who wish to do so, are invited to submit material in writing to the Chairman concerning matters felt to be deserving of the committee's attention. Additional information concerning these meetings may be obtained by contacting the Chairman, Federal Prevailing Rate Advisory Committee, Room 5451, 1900 E Street NW., Washington, D.C.

DAVID T. ROADLEY,
Chairman, Federal Prevailing Rate Advisory Committee.

MARCH 25, 1974.

[FR Doc.74–7124 Filed 3–27–74;8:45 am]

COMMISSION ON REVISION OF THE FEDERAL COURT APPELLATE SYSTEM

NOTICE OF MEETING

Notice is hereby given that the Commission on Revision of the Federal Court Appellate System will meet Tuesday, April 2, 1974, at 1:30 p.m., in Room 2247 of the Rayburn House Office Building.

The purpose of the meeting is to discuss, preliminarily, proposals for creation of a National Division of the United States Court of Appeals, methods of selection of a Chief Judge and other items relevant to the Commission's study of the "structure and internal procedures of the Federal courts of appeal system."

The meeting is open to all interested persons.

A. LEO LEVIN,
Executive Director.

[FR Doc.74–7166 Filed 3–27–74;8:45 am]

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN COTTON TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THAILAND

Entry or Withdrawal From Warehouse for Consumption

MARCH 25, 1974.

On April 2, 1973, there was published in the FEDERAL REGISTER (38 FR 8469) a letter dated March 27, 1973 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs, establishing levels of restraint applicable to certain specified categories of cotton textiles and cotton textile products produced or manufactured in Thailand and exported to the United States during the twelve-month period beginning April 1, 1973. As set forth in that letter, the levels of restraint are subject to adjustment pursuant to paragraph 5 of the Bilateral Cotton Textile Agreement of March 16, 1972, between the Governments of the United States and Thailand, which provides that within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than 5 percent.

Accordingly, there is published below a letter of March 25, 1974, from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs amending the level of restraint applicable to cotton textile products in Category 9/10, produced or manufactured in Thailand and exported to the United States during the twelve-month period which began on April 1, 1973.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

COMMISSIONER OF CUSTOMS,
Department of the Treasury, Washington, D.C. 20229.

DEAR MR. COMMISSIONER: On March 27, 1973, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry during the twelve-month period beginning April 1, 1973 of cotton textiles and cotton textile products in certain specified categories produced or manufactured in Thailand in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Pursuant to paragraph 5 of the Bilateral Cotton Textile Agreement of March 16, 1972 between the Governments of the United States and Thailand, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed, effective as soon as possible, to increase the level of restraint established for cotton textile products in Category 9/10 to 2,009,300 square yards[2] for the twelve-month period which began on April 1, 1973.

The actions taken with respect to the Government of Thailand and with respect to imports of cotton textiles and cotton textile products from Thailand have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs being necessary to the implementation of such actions fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.74–7203 Filed 3–27–74;8:45 am]

IMPORTERS TEXTILE ADVISORY COMMITTEE

Notice of Meeting

MARCH 27, 1974.

The Importers' Textile Advisory Committee will meet at 10:30 a.m. on April 11, 1974, in Room 4833, Department of Commerce, 14th and Constitution Avenue, NW., Washington, D.C. 20230.

[1] The term "adjustment" refers to those provisions of the Bilateral Cotton Textile Agreement of March 16, 1972 between the Governments of the United States and Thailand which provide, in part, that within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; and for administrative arrangements.

[2] This level has not been adjusted to reflect any entries made on or after April 1, 1973.

The Committee, which is comprised of 19 members having expertise in the importation of textiles and apparel, advises Department officials of the effects on import markets of the cotton, wool and man-made fiber textile agreements.

The agenda for the meeting is as follows:

1. Review of Import Trends.
2. Implementation of Textile Agreements.
3. Report on Conditions in the Domestic Market.
4. Other Business.

A limited number of seats will be available to the public. The public will be permitted to file written statements with the Committee before or after the meeting. To the extent time is available at the end of the meeting, the presentation of oral statements will be allowed.

Further information concerning the Committee may be obtained from Arthur Garel, Director, Office of Textiles, Main Commerce Building, U.S. Department of Commerce, Washington, D.C. 20230.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistants.

MANAGEMENT-LABOR TEXTILE ADVISORY COMMITTEE

Change of Meeting Date

MARCH 27, 1974.

On March 25, 1974, there was published in the FEDERAL REGISTER (39 FR 11133) a notice announcing that a meeting of the Management-Labor Textile Advisory Committee would be held on April 3, 1974 at 2 p.m., in Room 4833, Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230. The purpose of this notice is to advise that the date of that meeting has been changed to April 10, 1974. The time and location of the meeting remain the same.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

ENVIRONMENTAL PROTECTION AGENCY

[Docket No. 301]

CANCELLATION OF REGISTRATION OF 707–X KILLS-CONTROLS RATS-MICE 707 WARFARIN MOUSE & RAT KILLER

Objections and Request for Hearing

Notice is hereby given pursuant to § 164.8 of the EPA rules of practice (38 FR 19371; 40 CFR 164.8), issued under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (86 Stat. 973; 7 U.S.C. 136), that objections and a request for a public hearing has been filed under § 164.20 of those rules, by The 707 Company, in connection with notices of intent to cancel registrations of the above-named products (EPA Reg. Nos. 1193–17 and 1193–48). The notices were based on the failure to supply revised labelings and required efficacy data as to the products.

For information concerning the issues involved and other details, interested persons are referred to the docket of this proceeding on file with the Hearing Clerk, Environmental Protection Agency, Room 1019, Waterside Mall, East Tower 401 M Street SW., Washington, D.C. 20460.

FREDERICK W. DENNISTON,
Administrative Law Judge.

[OPP–32000/29]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION; DATA TO BE CONSIDERED IN SUPPORT OF APPLICATIONS

On November 19, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 979), and its procedures for implementation. This policy provides that EPA will, upon receipt of every application, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–37, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before May 28, 1974, any person who (a) is or has been an applicant, (b) desires to assert a claim for compensation under section 3(c)(1)(D) against another applicant proposing to use supportive data previously submitted and approved, and (c) wishes to preserve his opportunity for determination of reasonable compensation by the Administrator must notify the Administrator and the applicant named in the FEDERAL REGISTER of his claim by certified mail. Every such claimant must include, at a minimum, the information listed in this interim policy published on November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy in regard to usage of existing supportive data for registration will be processed in accordance with existing procedures. Applications submitted under 2(c) will be held for the 60-day period before commencing processing. If claims are not received, the application will be processed in normal procedure. However, if claims are received within 60 days, the applicants against whom the particular claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after May 28, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 554–RGN, Agsco Chemicals, Inc., P.O. Box 458, Grand Forks, North Dakota 58201. *Agsco 666 Herbicide.* Active Ingredients: 2,4-Dichlorophenoxy acetic acid, isooctyl ester 94.40%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11327–RR. Chemco Industries, 7501 Adamo Drive, Tampa, Florida 33619. *N.T.I.–300.* Active Ingredients: (5-Benzyl-3-furyl) methyl 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate 3.000%; Related compounds 0.409%; Aromatic petroleum hydrocarbons 91.471%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 8314–EE. Cincinnati Milacron Chemicals Inc., 500 Jersey Avenue, New Brunswick, New Jersey 08903. *Avacide LP–100.* Active Ingredients: Bis (Tri-n-butyltin) Oxide 10%. Method of Support: Application proceeds under 2(a) of interim policy.

EPA File Symbol 33585–R. Crop King, P.O. Box 574, Yakima, Washington 98907. *Crop King Parathion 4–E.* Active Ingredients: Parathion (O, O-diethyl O-p-nitrophenyl thiophosphate) 46.4%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 279–2676AA. FMC Corporation, Agricultural Chemical Division, 100 Niagara Street, Middleport, New York 14105. *Furadan 4 Flowable Insecticide.* Active Ingredients: Carbofuran 40.64%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 12059–L. Jag Chemical Corporation, 1965 New Highway, Farmingdale, New York 11735. *Assassinate Residual Surface Spray with Pyrenone/Diazinon.* Active Ingredients: O,O-Diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 0.500%; Pyrethrins 0.052%; Piperonyl Butoxide, Technical 0.261%; Petroleum Distillate 98.608%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 12059–A. Jag Chemical Corporation, 1865 New Highway, Farmingdale, New York 11735. *Larvicon Fogger Insecticide.* Active Ingredients: Pyrethrins 0.050%; Piperonyl Butoxide, Technical 0.125%; Malathion 2.000%; Aromatic Petroleum Derivative Solvent 7.625%; Petroleum Distillate 90.200%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 1021–RGRG. McCaughlin Gormley King Company, 8810 Tenth Avenue, North, Minneapolis, Minn. 55427. *Pyrocide Intermediate 7217.* Active Ingredients: Pyrethrins 1.95%; Piperonyl butoxide, technical 9.73%; Rotenone 0.09%; Other cube resins 0.19%; 2-(1-methylethoxy) phenol methylcarbamate 2.78%; Petroleum distillate 40.61%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11800–O. Midwest Agricultural Warehouse Company, 200 S. Main, Fremont, Nebraska 68025. *Clean Crop Maneb-Lindane Seed Protectant.* Active Ingredients: Maneb (Manganese ethylene bisdithiocarbamate) 50.00%; Lindane (Gamma Isomer of Benzene Hexachloride) 16.75%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 3468–UG. Harold E. Schall Wholesale Chemical Co., 130 N. Broadway, Monte Vista, Colorado 81144. *Tozaphene-Lindane Stock Spray and Dip.* Active Ingredients: Gamma Isomer of Benzene Hexachloride (from Lindane) 1.9%; Toxaphene (Technical chlorinated camphene) 42.0%; Xylene range aromatic solvent 49.7%. Method of Support: Application proceeds under 2(c) of interim policy.

V 39 61 MAR 28 74 XUM

EPA File Symbol 33722–A. Tex-Ag Company, P.O. Box 633, Mission, Texas 78572. *Methyl Parathion 4Lb. Emulsifiable Concentrate.* Active Ingredients: O,O-dimethyl O-p-nitrophenyl phosphorothioate 45.42%; Xylene-range aromatic solvent 49.50%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 33722–R. Tex-Ag Company, P.O. Box 633, Mission, Texas 78572. *Forty-Four Emulsifiable Concentrate.* Active Ingredients: Toxaphene 37.1%; O,O-dimethyl-O, p-nitrophenyl thiophosphate 37.1%; Xylene Range Aromatic Hydrocarbon Solvent 22.8%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 10486–E. Trenor Laboratories, P.O. Box 586, Houston, Ms. 38851. *Trenor HG–9 Germicidal Detergent.* Active Ingredients: n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethly benzyl ammonium chlorides 4.5%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 4.5%; Sodium Carbonate 4.0%; Tetrasodium ethylenediamine tetraacetate 2.0%. Method of Support: Application proceeds under 2(b) of interim policy.

REPUBLISHED ITEMS

The following items represent corrections and/or changes in the list of Applications Received previously published in the Federal Register of March 18, 1974 (39 FR 10160).

EPA File Symbol 33734–R. J. R. Schneider Co., Inc., Post Office Box 878, Tiburon, California 94920. *Schneider Micor-Cide II.* Active Ingredients: 1-(3-chloroallyl)-3,5,7 - triaza-1 - azoniaadamantane chloride 67.5%. Correction: Originally published as 1-(3-chloroallyl)-3,5,7-triaza - 1 - azoniaadamantene chloride 67.5%.

EPA Reg. No. 984–57. Whitmoyer Laboratories, Inc., 19 North Railroad Street, Myerstown, Pennsylvania 17067. *Whitmoyer Laro.* Active Ingredients: Soap 10%; Isopropanol 10%; 4 & 6-chloro-2-phenylphenol 7%; O-phenylphenol 6%; tetrasodium ethylenediamine tetraacetate 1.5%; p-tertiary amyphenol 1.0% 35.5%. Correction: One line of Active Ingredients statement deleted at time of publication.

Dated: March 21, 1974.

JOHN B. RITCH, JR.,
Director, Registration Division.

[Report No. 692]

COMMON CARRIER SERVICES INFORMATION[1]

Domestic Public Radio Services Applications Accepted for Filing[2]

MARCH 18, 1974.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

21056–C2P–(9)–74, New York Telephone Company (KEA774). C.P. to replace transmitter, change antenna system and relocate facilities to operate on base facilities 152.51, 152.57, 152.63, 152.69, 152.75, 152.81, 35.42, and 35.66 MHz and auxiliary test facilities 43.42 and 43.66 MHz to be located at One Marine Midland Center, Buffalo, New York.

21057—C2–P–74, Frank L. Yates, Jr., d/b as Gulf Mobilphone (New). C.P. for a new 2-way station to operate on 454.025 MHz to be located 3.6 miles Northeast of Picayune, Mississippi.

21059–C2–P–(3)–74, Communications Industries, Inc., d/b as Mobilfone (KKG565). C.P. for additional facilities to operate on 454.125, 454.225, and 454.300 MHz at Loc. #1: 2 miles SW of Midland, Texas, on US Highway 80, Midland, Texas.

21060–C2–P–74, Continental Telephone Company of California (KFL908). C.P. to change antenna system operating on 152.60 MHz and add facilities to operate on 152.72 MHz located at Junction of Nevada State Route #18 and Hwy. #50, Stateline, Nevada.

21061–C2–P–74, Tel-Page Corporation (KEC518). C.P. to add antenna Location #2 to operate on 43.58 MHz to be located 0.25 mile SW of Junction of Parish and McCarthy Road, Ionia, New York.

21062–C2–P–74, Kearsarge Telephone Company (New). C.P. for a new 1-way signaling station to operate on 158.10 MHz to be located at Main Street, New London, New Hampshire.

21063–C2–P–74, Kearsarge Telephone Company (New). C.P. for a new 2-way station to operate on 152.57 MHz to be located at Main Street, New London, New Hampshire.

21064–C2–P–74, E. B. Brownell d/b as Worland Services (KOP254). C.P. to change antenna location and control point location at Loc. #3 operating on 158.55 to be located at 337 North 6th Street, Thermopolis, Wyoming, new Loc. #3.

21065–C2–TC–74, Sigma Communications Corporation. Consent to Transfer of Control from Sandra Ottenstein, Transferor to Harvey Ottenstein, Transferee. Station: KCC484, Farmington, Connecticut.

21067–C2–P–(3)–74, Southeast Mobilphone, Inc. (KCI306). C.P. for additional facilities to operate on 454.025, 454.050, and 454.200 MHz at Loc. #3: WBIR TV Tower, Knoxville, Tennessee.

21068–C2–P–(4)–74, Fresno Mobile Radio, Inc. (KMA830). C.P. to replace transmitter operating on 2172 and 2178.4 MHz at Loc. #3: 160 North Broadway, Fresno, California; and replace transmitter operating on 2128.4 MHz at Loc. #1: 30 miles NE of Fresno at Adler Springs, California, and 2122 MHz at Loc. #2: On Joaquin Ridge, Nr. Coalinga, California.

21069–C2–P–74, New England Telephone and Telegraph Company (KCC473). C.P. to replace transmitter operating on 152.57 MHz located on Brownell Mtn., 5.9 miles SSE of Burlington, Vermont.

21070–C2–P–(3)–74, Delta Valley Radiotelephone Co., Inc. (KMA743). C.P. to replace transmitter and change antenna system operating on 454.325 MHz at Loc. #4: 7.5 miles NE of Danville, atop North Peak of Mt. Diablo, nr. Danville, California; replace transmitter and change antenna system operating on 152.21 MHz at Loc. #1: 3502 Kroy Way, Sacramento, California; and change antenna system operating on 152.21 MHz at Loc. #2: 1800 ft W. of California Hwy. 49, 3.5 miles S. of El Dorado, California.

21071–C2–P–74, RCC of Virginia, Inc. (New). C.P. for a new 2-way station to operate on 152.18 MHz to be located nr NW intersection of Va. 190 and Centerville Turnpike, Virginia Beach, Virginia.

Major Amendments

7056–C2–P–73, Radio Phone Communications, Inc. (New), Shoulders Hill, Virginia. Delete 152.18 MHz base frequency and add 454.250 and 454.300 MHz base frequencies. All other particulars to remain as reported on PN #642 dated April 2, 1973.

20488–C2–P–(4)–74, Exavier W. Nady d/b as Mobilephone-Yuma. Amend base frequency 152.18 MHz to read 152.21 MHz. All other particulars are to remain the same as reported on PN #673, dated November 5, 1973.

Informative

It appears that the following applications may be mutually exclusive and subject to the Commission's Rules regarding Ex Parte presentations by reason of economic competition or potential electrical interference.

Tel Page Corp. Horseheads, New York (KRH-636), File No. 8437–C2–P–73.

Williamsport Mobile Telephone Co., Williamsport, Pa. (New), File No. 20029–C2–P–(2)–73.

Correction

8561–C2–P–73, Morris Communications, Inc. (KFL904). Correct PN #651 dated June 4, 1973, to read: C.P. to change antenna system, location and power operating on 152.18 MHz and add additional facilities to operate on 152.12 MHz at 211 Clinckscales Street, Anderson, South Carolina.

Renewal of Licenses expiring April 1, 1974.
Term: April 1, 1974, to April 1, 1979.

RURAL RADIO SERVICE

60232–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 454.375 MHz to be located at remote repeater site near Wiseman Village on Alyeska Pipeline route; 164 miles NW of Fairbanks, Coldfoot, Alaska.

60233–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 459.375 MHz to be located at Alyeska Pipeline construction site near Hill 2246; 155 miles NW of Fairbanks, Prospect Camp, Alaska.

60234–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 454.650 and 454.400 MHz to be located at remote repeater site near Hill 3911 on Alyeska Pipeline route; 128 miles NW of Fairbanks, Hamlin, Alaska.

60235–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 459.400 MHz to be located at Alyeska pipeline construction site near Hill 3154; 92 miles NW of Fairbanks, Five Mile Camp, Alaska.

60236–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 459.650 MHz to be located at Alyeska Pipeline construction site near Hill 3911; 118 miles NW of Fairbanks, Oldman Camp, Alaska.

60237–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 454.575 MHz to be located at remote repeater site at Hill 2758 on the Alyeska pipeline route; 60 miles NW of Fairbanks, West, Alaska.

60238–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 459.575 MHz to be located at Alyeska pipeline construction site near Livengood Village; 47 miles NW of Fairbanks, Livengood Camp, Alaska.

60239–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 454.375 MHz to be located at 200 Gaffney Rd., Fairbanks, Alaska.

60240–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 459.650 MHz to be located at Alyeska pipeline construction site near Eielson AFB; 38 miles SE of Fairbanks, Pump Stn #8, Alaska.

60241–C6–P–74, RCA Alaska Communications, Inc. (New). C.P. for a new inter-office station to operate on 459.375 MHz to be located at Alyeska pipeline construction site; 10 miles east of Fairbanks, Fairbanks Camp, Alaska.

POINT-TO-POINT MICROWAVE RADIO SERVICE

3410–C1–P–74, Southern Bell Telephone & Telegraph Co. (KJA89), 208 N. Caldwell Street, Charlotte, North Carolina. Lat. 34°–13'28'' N., Long. 80°50'15'' W. C.P. to add freq. 6034.2V MHz towards Anderson Mtn., N.C., on azimuth 328°49'.

3411–C1–P–74, Same (KJA86), Anderson Mountain, 6.5 Miles ESE of Maiden, N.C., Lat. 35°33'57'' N., Long. 81°05'26'' W. C.P. to add freq. 4050H MHz towards Cajah Mtn., N.C., on azimuth 305°47'; freq. 6256.5V MHz towards Charlotte, N.C., on azimuth 148°40'.

3412–C1–P–74, Same (KJA91), Cajah Mountain, 5 miles South of Lenoir, N.C., Lat. 35°49'38'' N., Long. 81°32'14'' W. C.P. to add freq. 4090H MHz towards Anderson Mtn., N.C., on azimuth 125°41'; freq. 4090V MHz towards Marion, N.C., on azimuth 250°59'.

3413–C1–P–74, Same (KJA92), End of Milford Avenue, Marion, North Carolina. Lat. 35°41'18'' N., Long. 82°01'39'' W. C.P. to add freq. 4050H MHz towards Black Mtn., N.C., on azimuth 245°39'; chg. polarization from Vertical to Horizontal on freq. 3730, 3810, 3890, and 3970 and from Horizontal to Vertical on freq. 3750, 3830, 3910, and 4070 MHz towards Black Mtn., N.E.; add freq. 4050V MHz towards Cajah Mtn., N.C., on azimuth 70°42'.

3414–C1–P–74, Same (KJA93), 2 Miles Southeast of Black Mountain, North Carolina. Lat. 35°35'26'' N., Long. 82°17'28'' W. C.P. to add freq. 4090H MHz towards Marion, N.C., on azimuth 65°29'; chg. polarization from Vertical to Horizontal on freq. 3770, 3850, 3930, and 4010 MHz and from Horizontal to Vertical on freq. 3710, 3790, 3870, and 4030 MHz; add freq. 4050V MHz towards Mt. Olive Church, North Carolina, on azimuth 279°03'.

3415–C1–P–74, Same (KJA95), 24 O'Henry Avenue, Asheville, North Carolina. Lat. 35°-35'45'' N., Long. 82°33'29'' W. C.P. to add freq. 4050H MHz towards Mt. Olive Church, N.C., on azimuth 56°06'; chg. polarization from Vertical to Horizontal on freq. 3730, 3810, 3890, and 3970 MHz and from Horizontal to Vertical on freq. 3710, 3790, 3870, and 4030 MHz. towards Mt. Olive Church, N.C.; add freq. 3890V MHz towards Camp Creek Bald, Tennessee, on azimuth 343°51'.

3416–C1–P–74, Same (KJA94), Mt. Olive Church, 3 miles Northeast of Asheville, North Carolina. Lat. 35°37'10'' N., Long. 82°30'54'' W. C.P. to add freq. 4090H MHz towards Asheville, N.C., on azimuth 236°-08'; chg. polarization from Vertical to Horizontal on freq. 3770, 3850, 3930, and 4010 MHz and from Horizontal to Vertical on freq. 3750, 3830, 3910, and 4070 MHz towards Asheville, North Carolina; add freq. 4090V MHz towards Black Mtn., North Carolina on azimuth 98°55'.

3417–C1–P–74, Northwestern Bell Telephone Company (New), 3.4 miles NNE of Lonsdale, Minn. Lat. 44°31'43'' N., Long. 93°-24'25'' W. C.P. for a new station on freq. 3930V MHz towards Minneapolis, Minn., on azimuth 12°32'; freq. 3930H MHz towards Medford, Minn., on azimuth 165°41'.

3418–C1–P–74, Same (KAS70), 224 South 5th Street, Minneapolis, Minn. Lat. 44°58'39'' N., Long. 93°15'59'' W. C.P. to add freq. 3890V MHz towards Lonsdale, Minn. on azimuth 192°38'; and correct geographical coordinates to read as above.

3419–C1–P–74, Same (New), 1.5 miles WSW of Medford, Minnesota. Lat. 44°10'03'' N., Long. 93°16'44'' W. C.P. for a new station on freq. 3890H MHz towards Lonsdale, Minnesota, on azimuth 345°46'; freq. 3890H MHz towards Owatonna, Minnesota, on azimuth 155°51';

3420–C1–P–74, Same (KYS97), 216 South Cedar, Owatonna, Minnesota. Lat. 44°04'-59'' N., Long. 93°13'35'' W. C.P. to add freq. 3930H MHz towards a new point of communication at Medford, Minnesota, on azimuth 335°54'.

3442–C1–P–74, West Texas Microwave Company (KLU88), Brakeen Ranch, Texas. Lat. 32°46'43'' N., Long. 98°29'10'' W. C.P. to change freqs. 6286.2V and 6315.9H to 6286.2H and 6315.9V MHz, respectively, towards Breckenridge, Texas, on azimuth 267°06', and (via power split) towards Graham, Texas, on azimuth 344°23'.

3443–C1–P–74, Same (KLU89), Breckenridge, Texas. Lat. 32°45'33'' N., Long. 98°55'43'' W. C.P. to change freq. 6063.8H and 6034.2V to 6063.8V and 6034.2H MHz via power split towards the following points of communication; Cisco, Texas, on azimuth 183°49'; Davis Ranch, Texas, on azimuth 262°43'; and Albany (intercept), Texas, on azimuth 262°43'.

3444–C1–P–74, Same (KLU91), Davis Ranch, Texas. Lat. 32°42'17'' N., Long. 99°25'26'' W. C.P. to change freq. 6315.9V to 6315.9H MHz towards Clyde, Texas, on azimuth 185°45'; and to change freqs. 6315.9H and 6286.2V to 6315.9V and 6286.2H MHz toward Estes Ranch, Texas, on azimuth 236°02'.

3448–C1–P–74, Continental Telephone Company of Utah (New), Hall's Crossing Post Office, Halls Crossing, Utah. Lat. 37°28'19'' N., Long. 110°42'43'' W. C.P. for a new station on freq. 2179.0V MHz towards Escalante (WOE34), Utah, on azimuth 05°32'.

3449–C1–P–74, Same (WOE34), Bullfrog Basin, 51 Miles SE of Escalante, Utah. Lat. 37°32'34'' N., Long. 110°42'12'' W. C.P. to add freq. 2129.0V MHz towards a new point of communication at Halls Crossing, Utah, on azimuth 185°32' and correct coordinates and ground elevation of antenna site to read as above.

3434–C1–P–74, Eastern Microwave, Inc. (KYZ75), High Knob, 1.5 Miles West of Peck's Pond, Pennsylvania. Lat. 41°18'00'' N., Long. 75°07'31'' W. C.P. to add freq. 5960.0V and 6019.3V MHz (Via Power Split) towards Ransom (#2), Pennsylvania, on azimuth 286°50'.

3435–C1–P–74, Same (New), Ransom (#2), Pennsylvania. Lat. 41°26'08'' N., Long. 75°43'39'' W. C.P. for a new station on freqs. 11385V and 11625V MHz towards Swoyersville, Pennsylvania, on azimuth 217°39'.

3445–C1–MP–74, United Video, Inc. (WPX22), 2.5 Miles East of Gridley, Illinois. Lat. 40°45'12'' N., Long. 88°49'57'' W. Modification of C.P. to change point of communication at Bloomington, Illinois, resulting in change of azimuth to 211°17'.

3436–C1–P–74, Midwestern Relay Company (WOF70), 2.2 Miles NE of Rochester, Minnesota. Lat. 44°02'46'' N., Long. 92°23'57'' W. C.P. to add freq. 6345.5H MHz towards Dexter (WOF71), Minn., on azimuth 211°52'.

3437–C1–P–74, Same (WOF71), 1.1 Mile SSE of Dexter, Minn. Lat. 43°42'33'' N., Long. 92°41'15'' W. C.P. to add freq. 6093.5H MHz towards Elma (WOF72), Iowa on azimuth 169°04'.

3438–C1–P–74, Same (WOF72), 6.1 Miles West of Elma, Iowa. Lat. 43°14'35'' N., Long. 92°33'50'' W. C.P. to add freq. 6345.5H MHz towards Bremer (WIF73), Iowa, on azimuth 163°54'.

3439–C1–P–74, Same (WOF73), 0.8 Miles East of Bremer, Iowa. Lat. 42°46'15'' N., Long. 92°22'42'' W. C.P. to add freq. 6123.1V (via power split) and 5945.2V MHz towards a new point of communication at Traer, Iowa, on azimuth 196°56'. (NOTE.—A waiver of Section 21.701(l) is requested by Midwestern.)

3446–C1–P–74, Eastern Microwave, Inc. (KEL89), Roger's Knob, 8 Miles NE of Sidney, New York. Lat. 42°23'27'' N., Long. 75°19'42'' W. C.P. to add freq. 6360.3H MHz towards Oneonta, New York, on azimuth 72°13'.

3447–C1–P–74, Same (KEL89), Same location as above. C.P. to add freq. 6360.3H MHz towards Norwich, New York, on azimuth 313°38'.

3440–C1–P–74, West Texas Microwave Company (KLU66), Aledo, Texas. Lat. 32°41'38'' N., Long. 97°40'29'' W. C.P. to change freq. 6315.9H to 6315.9V MHz towards Mineral Wells, Texas, on azimuth 288°33'.

3441–C1–P–74, Same (KLU87) Mineral Wells, Texas. Lat. 32°48'53'' N., Long. 98°06'13'' W. C.P. to change freq. 6063.8V to 6063.8H MHz towards Brackeen Ranch, Texas, on azimuth 263°44'.

3423–C1–P–74, RCA Alaska Communications, Inc. (New), Coldfoot. Remote repeater site near Wiseman Village on Alyeska Pipeline Route; 184 miles N.W. of Fairbanks, Alaska. Lat. 67°16'42'' N., Long. 150°15'56'' W. C.P. for a new station on freq. 2117.2H MHz towards Hamlin, Alaska, on azimuth 190° 16'; freq. 2112.0V MHz towards Table Mountain, Alaska on azimuth 18°43'; freq. 2122.-0H MHz towards Coldfoot Camp, Alaska on azimuth 125°17'.

3424–C1–P–74, Same (New), Coldfoot Camp. Remote repeater site near Wiseman Village on Alyeska Pipeline Route; 180 miles NW of Fairbanks, Alaska. Lat. 67°15'25'' N., Long. 150°11'15'' W. C.P. for a new station on freq. 2172.0H MHz towards Coldfoot, Alaska on azimuth 305°21'.

3425–C1–P–74, Same (New), Hamlin. Remote repeater site near Hill 3911 on Alyeska Pipeline route; 128 miles NW of Fairbanks, Alaska. Lat. 66°08'33'' N., Long 150°46'24'' W. C.P. for a new station on freq. 2174.8V MHz towards West, Alaska on azimuth 133°34'; freq. 2167.2 MHz towards Coldfoot, Alaska, on azimuth 9°48'.

3426–C1–P–74, Same (New), West. Remote repeater site at Hill 2758 on the Alyeska Pipeline route; 60 miles NW of Fairbanks, Alaska. Lat. 65°28'41'' N., Long. 149°06'55'' W. C.P. for a new station on freq. 2118.4H MHz towards Murphy, Alaska, on azimuth 143°50'; freq. 2124.8V MHz towards Hamlin, Alaska, on azimuth 315°05'.

STANDARD BROADCAST APPLICATIONS READY AND AVAILABLE FOR PROCESSING

Notice is hereby given, pursuant to § 1.571(c) of the Commission's rules, that on May 1, 1974, the standard broadcast applications listed in the attached Appendix will be considered as ready and available for processing. Pursuant to § 1.227 (b)(1) and § 1.591(b) of the Commission's rules, an application, in order to be considered with any application appearing on the attached list or with any other application on file by the close of business on April 30, 1974, which involves a conflict necessitating a hearing with any application on this list, must be substantially complete and tendered for filing at the offices of the Commission in Washington, D.C., by the close of business on April 30, 1974. The attention of prospective applicants is directed to the fact that some contemplated proposals may not be eligible for consideration with an application appearing in the attached Appendix by reason of conflicts between the listed applications and applications appearing in previous notices published pursuant to § 1.571(c) of the Commission's rules.

The attention of any party in interest desiring to file pleadings concerning any pending standard broadcast application, pursuant to section 309(d)(1) of the Communications Act of 1934, as amended, is directed to § 1.580(i) of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

Adopted: March 21, 1974.

Released: March 22, 1974.

FEDERAL MARITIME COMMISSION

DELTA STEAMSHIP LINES, INC. AND EMPRESA LINEAS MARITIMAS ARGENTINAS, S.A.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, NW., Room 10126; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 17, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Thos. E. Stakem, Esq.
Macleay, Lynch, Bernhard & Gregg
1625 K Street, N.W.
Washington, D.C. 20006

Agreement No. 10039–1, between the lines listed above, modifies the approved basic agreement covering the apportionment of general liner cargo transported by the parties in the Northbound and Southbound trade between Gulf ports of the United States and Argentina by (1) deleting item c, subparagraph VII of Article 7 of both Annex I (Northbound) and Annex II (Southbound), in relation to the computation of pool penalty payments and to substitute therefor a revised pool penalty formula as more fully set forth in the modification, and (2) extending the term of the agreement, as amended, for three years from January 1, 1974, to December 31, 1976.

Agreement No. 10039, as presently constituted, is set to expire on May 3, 1974, unless extended. The first accounting period under the agreement ended on December 31, 1973; the second accounting period commencing on January 1, 1974.

By Order of the Federal Maritime Commission.

Dated: March 22, 1974.

FRANCIS C. HURNEY,
Secretary.

[Independent Ocean Freight Forwarder License No. 1459]

ACE SHIPPING CORP.

Revocation of License

By letter dated January 7, 1974, Air Cargo Expediters, Inc. d/b/a Ace Shipping Corp., P.O. Box 8621, San Francisco, California 94128 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1459 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before March 9, 1974.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Air Cargo Expediters, Inc. d/b/a Ace Shipping Corp. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) section 7.04(g) (dated 9/15/73);

It is ordered, That Independent Ocean Freight Forwarder License No. 1459 of Air Cargo Expediters, Inc. d/b/a Ace Shipping Corp. be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 1459 be and is hereby revoked effective March 9, 1974.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon Air Cargo Expediters, Inc. d/b/a Ace Shipping Corp.

AARON W. REESE,
Managing Director.

SOCIETA ITALIANA DE ARMAMENTO S.P.A. AND COSTA ARMATORI S.P.A.

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1100 L Street, N.W., Room 10126; or may inspect the agreement at the field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, on or before April 17, 1974. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statment describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the Commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Stanley O. Sher, Esq.
Billig, Sher & Jones, P.C.
Suite 300
1126 Sixteenth Street, N.W.
Washington, D.C. 20036

Agreement No. 10120 is an agreement between the above named parties to establish a joint service to be known as "Sidarma—Costa Line Joint Service" to operate in the trade between U.S. South Atlantic and Gulf ports and ports in the Mediterranean and on the Atlantic coasts of Spain, Portugal and Morocco.

By order of the Federal Maritime Commission.

Dated: March 25, 1974.

JOSEPH C. POLKING,
Assistant Secretary.

[Independent Ocean Freight Forwarder License No. 1385]

E. BRUCE TILLMAN

Revocation of License

By letter dated February 12, 1974, E. Bruce Tillman, c/o Sealand Terminal Corp., P.O. Box 1857, Gulfport, Mississippi 39501 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 1385 would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before March 8, 1974.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

E. Bruce Tillman has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 1 (revised) section 7.04(g) (dated 9/15/73);

It is ordered, That Independent Ocean Freight Forwarder License No. 1385 of E. Bruce Tillman be returned to the Commission for cancellation.

It is further ordered, That Independent Ocean Freight Forwarder License No. 1385 be and is hereby revoked effective March 8, 1974.

It is further ordered, That a copy of this Order be published in the FEDERAL REGISTER and served upon E. Bruce Tillman.

AARON W. REESE,
Managing Director.

FEDERAL POWER COMMISSION

[Doc. No. G–5716, et al.]

CERTIFICATES OF CONVENIENCE AND NECESSITY

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

MARCH 21, 1974.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before April 12, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

V 39 61 MAR 28 74 XUM

plications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket Nos. RI73-258, *et al.*]

RATE CHANGES

Order Providing for Hearing on and Suspension of Proposed Changes in Rates, and Allowing Rate Changes To Become Effective Subject to Refund [1]

MARCH 21, 1974.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth in Appendix A hereof.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[1] Does not consolidate for hearing or dispose of the several matters herein.

	....do.....		[5] 32		239,432	2-27-74	.....	8-30-74	[7] 17.9023	[7] 36.0	

[*] Unless otherwise stated, the pressure base is 14.65 psia 10/in²a.
[1] Not stated.
[2] Variation in rates due to quality adjustment for different gas.
[3] Substitute increase for prior periodic increase to 29.109 cents per Mcf suspended in Docket No. RI73-263.
[4] Amended by letter dated Mar. 4, 1974.
[5] Includes 2.40 cents per Mcf reduction for quality.
[6] Amendment providing for drilling of new additional wells on certain acreage and among other things, a new price schedule for production from the additional wells.
[7] Subject to Btu adjustment.
[8] Applicable to production and sales pursuant to Supp. No. 31.
[9] Accepted for filing as of the date set forth in the "Effective Date Unless Suspended" column.

The proposed rate increase of Texas Pacific Oil Company, Inc., reflects an increase to a rate that was under suspension at the time of issuance of Opinion No. 662, and consistent with prior Commission action in other cases, it is suspended for one day from the date of filing.

The proposed rate increase of Continental Oil Company represents a favored nations increase which Continental proposes to substitute for a periodic increase that was suspended until June 18, 1974 in Docket No. RI73-263.

The remaining proposed increases exceed the applicable area ceiling rate and are suspended for five months.

[Doc. No. RI74-174]

HIGH CREST OILS, INC.

Order for Hearing and Suspension of Proposed Change in Rate, Allowing Rate Change To Become Effective Subject to Refund [1]

MARCH 21, 1974.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A below.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto (18 CFR, Chapter I), and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[5] Base rate of 40 cents plus tax reimbursement; adjusted for low Btu.
[6] Accepted for filing to be effective Mar. 22, 1974, 30 days after date of filing.

The proposed rate increase of High Crest Oils, Inc. exceeds the applicable area ceiling rate under Order No. 435, and is suspended for five months.

On February 19, 1974, High Crest filed a motion to consolidate for hearing the subject proceeding with Docket No. RI74-79 which has previously been set for hearing. The contracts and amendments thereto involved in these proceedings are virtually identical. They involve sales by the same producer to the same purchaser. The sole difference is that one contract covers the Tiger Ridge Area and the other one covers the Sherard area. Moreover, the evidence submitted in Docket No. RI74-79 is applicable to both proceedings. In view of the foregoing, these proceedings are hereby consolidated and all intervenors in Docket No. RI74-79 are also deemed to be intervenors in the subject proceeding.

[Docket No. CP74-98]

EL PASO NATURAL GAS CO.

Extension of Time

MARCH 22, 1974.

On March 20, 1973, El Paso Natural Gas Company filed a motion for an extension of time for the filing of testimony as required by order issued March 5, 1974, in the above-designated matter. The motion states that Southern Union Gas Company supports the motion, and the staff and other intervenors do not object.

Upon consideration, notice is hereby given that the time for filing testimony in the above-designated matter is extended to and including March 29, 1974. The hearing remains scheduled for April 9, 1974.

MARY B. KIDD, *Acting Secretary.*

[FR Doc.74-7186 Filed 3-27-74;8:45 am]

[Docket No. CI74-498]

J. M. HUBER CORP.

Notice of Application

MARCH 22, 1974.

Take notice that on March 8, 1974, J. M. Huber Corporation, (Applicant), 2000 West Loop South, Houston, Texas 77027, filed in Docket No. CI74-498 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transwestern Pipeline Company (Transwestern) from the No. 1 Moore Com. Well; South Carlsbad Field, Eddy County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it commenced an emergency sale of natural gas to Transwestern which will terminate on June 15, 1974, within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for one year from the end of the emergency period within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell approximately 9,000 Mcf of gas per month to Transwestern at 55.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot with a 1,175 Btu upward limit.

Any person desiring to be heard or to make any protest with reference to said application should on or before April 15, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-7187 Filed 3-27-74;8:45 am]

[Docket No. RP73-103]

McCULLOCH INTERSTATE GAS CORP.

Extension of Time and Postponement of Prehearing Conference and Hearing

MARCH 22, 1974.

On September 25, 1973, Staff Counsel filed a motion to extend the procedural dates fixed by notice issued July 26, 1973. On October 15, 1973, a notice was issued deferring the procedural dates pending disposition of the motion. On February 14, 1974, Staff Counsel filed a motion for a further extension of the procedural dates. The motion states that there is no opposition to the request.

Upon consideration, notice is hereby given that the procedural dates in the above matter are further modified:

Staff Service, May 7, 1974.
Prehearing Conference, May 20, 1974 (10:00 a.m. e.d.t.).
Intervener Service, May 30, 1974.
Company Rebuttal, June 10, 1974.
Hearing, June 24, 1974 (10 a.m. e.d.t.).

KENNETH F. PLUMB, *Secretary.*

[Docket Nos. E-8251, E-8169, E-8476]

NEW ENGLAND POWER CO.

Clarification

MARCH 22, 1974.

On March 5, 1974, a notice was issued which changed the procedural dates fixed by notice issued November 23, 1973 in Docket Nos. E-8251 and E-8169; by order issued December 28, 1973, consolidating Docket No. E-8476 with Docket No. E-8169 and No. E-8251, and order issued February 7, 1974, instituting an investigation in Docket No. E-8251.

V 39 I 61 MAR 28 74 XUM

The procedural dates are the same as set forth in the March 5, 1974 notice:

Service of NEPCO's rebuttal evidence as required by notice of 11/23/73 and order of 12/28/73 (Docket Nos. E–8251, E–8169 and E–8476), April 2, 1974.
Service of Staff's evidence on cost adjustment clauses (Docket No. E–8251, order of 2/7/74), April 2, 1974.
Prehearing Conference and Hearing (Docket Nos. E–8251, E–8169, and E–8476, notice of 11/23/73 and order of 12/28/74), April 16, 1974 (10 a.m. e.d.t.).
Service of NEPCO's rebuttal evidence on cost adjustment clauses (Docket No. E–8251, February 7, 1974 order), April 16, 1974.
Prehearing Conference and Hearing on cost adjustment clause (Docket No. E–8251, 2/7/74 order), April 23, 1974 (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. E–8252]

NORTHERN STATES POWER CO.

Extension of Time

MARCH 21, 1974.

On March 15, 1974, Northern States Power Company (Minnesota) filed a motion for an extension of time to file its rebuttal testimony as required by the notice issued March 6, 1974, in the above-designated matter.

The motion states that neither the Company, Staff, nor interveners object to the proposed schedule revision.

Upon consideration, notice is hereby given that the time for the filing of rebuttal testimony by Northern States Power Company is postponed to April 2, 1974. The prehearing conference and hearing scheduled for April 22 and April 23, respectively, are unchanged.

KENNETH F. PLUMB,
Secretary.

[Docket No. RP74–25]

TEXAS GAS TRANSMISSION CORP.

Extension of Time and Postponement of Prehearing Conference and Hearing

MARCH 22, 1974.

On February 5, 1974, Staff Counsel filed a motion for an extension of the procedural dates fixed by order issued October 31, 1973, in the above-designated matter. On February 15, 1974, a notice was issued deferring the procedural dates pending further order of the Commission.

On February 14, 1974, Texas Gas Transmission Corporation (Texas Gas) filed a response in opposition to Staff's motion. Texas Gas also suggested that a prehearing conference be convened on March 25, 1974 and that the staff serve its evidence, on as many items of cost of service as possible prior to the prehearing conference.

On February 26, 1974, Cincinnati Gas & Electric Company and Lawrenceburg Gas Transmission Company advised that they jointly supported the response of Texas Gas.

On February 26, 1974, Indiana Gas Company also filed a response which supported the filing of Texas Gas.

On February 22, 1974, Memphis Light, Gas and Water Division filed a response stating that it did not agree with the response of Texas Gas.

Upon consideration, notice is hereby given that the request of Texas Gas is denied and the procedural dates are modified as follows:

Service of Evidence by the Staff, July 12, 1974.
Prehearing Conference, July 23, 1974 (10 a.m. e.d.t.).
Service of Evidence by Interveners, August 6, 1974.
Service of Rebuttal Evidence, August 20, 1974.
Hearing, September 24, 1974 (10 a.m. e.d.t.).

KENNETH F. PLUMB,
Secretary.

[FR Doc.74–7191 Filed 3–27–74;8:45 am]

[Docket No. RP72–156]

TEXAS GAS TRANSMISSION CORP.

Proposed Changes in FPC Tariff

MARCH 22, 1974.

Take notice that Texas Gas Transmission Corporation (Texas) on March 13, 1974, tendered for filing Ninth Revised Sheet No. 7 to its FPC Gas Tariff, Third Revised Volume No. 1. Texas requests an effective date of May 1, 1974, for said Revised Sheet.

Texas states the Sheet is being issued pursuant to the purchased gas cost adjustment provision of its FPC Gas Tariff, Third Revised Volume No. 1 and reflects increased purchased gas costs. Texas also states that copies of the filing were served on its jurisdictional customers and interested state commissions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before April 15, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

NATIONAL ADVISORY COUNCIL ON THE EDUCATION OF DISADVANTAGED CHILDREN

NOTICE OF PUBLIC MEETING

Notice is hereby given, PL 92–463, that the next meeting of the National Advisory Council on the Education of Disadvantaged Children will be held on April 4, 1974 at 1 p.m.–7 p.m., and April 5, 1974 at 9 a.m.–10 p.m., located at 425 13th Street NW., Suite 1012, Washington, D.C. 20004.

The National Advisory Council on the Education of Disadvantaged Children is established under section 148 of the Elementary and Secondary Act (20 U.S.C. 2411) to advise the President and the Congress on the effectiveness of compensatory education to improve the educational attainment of Disadvantaged Children.

The meeting is called to review and discuss the 1974 annual report and to plan Council activities for 1974–75 report year.

Because of limited space for the meeting of April 4 and April 5, all persons wishing to attend should call for reservations at Area Code 202/382–6945 by March 29, 1974.

Records shall be kept of all Council proceedings and shall be available for public inspection at the Office of the National Advisory Council on the Education of Disadvantaged Children, located at 425 13th Street, N.W., Suite 1012, Washington, D.C. 20004.

Signed at Washington, D.C. on March 25, 1974.

ROBERTA LOVENHEIM,
Executive Director.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR PHYSICS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92–463), notice is hereby given of a meeting of the Advisory Panel for Physics to be convened at 9 a.m. on April 4 and 5, 1974, in Room 540 at 1800 G Street NW., Washington, D.C. 20550.

The purpose of this Panel is to provide general advice and recommendations on the impact of the NSF support of Physics and to review and evaluate specific proposals in Physics.

The agenda for this meeting shall include:

APRIL 4

This session will be devoted to remarks and presentations by NSF officials and staff on the following topics:
1. NSF FY 1975 budget
2. Energy related research
3. The review of intermediate energy Physics
4. Physics in other components of NSF
5. Other business of interest to the Panel

APRIL 5

Continuation of discussions on April 4.
Discussion of planning issues and future trends in Physics.

Review of individual Physics projects (3:00 to 5:00 p.m.).

The entire session on April 4 and the morning and early afternoon portions (until 3 p.m.) of the April 5 session shall be open to the public. The late afternoon portion (3 to 5 p.m.) of the April 5 session is concerned with matters which are within the exemptions of 5 U.S.C. 552(b) and will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92–463. Persons requiring further information concerning this Panel should contact Dr. Marcel Bardon, Section Head, Physics Section, at 632–4310 or Room 348, 1800 G Street NW., Washington, D.C. 20550. Summary minutes relative to the open portions of the meeting may be obtained from the Management Analysis Office, Room K–720, 1800 G Street NW., Washington, D.C. 20550.

T. E. JENKINS,
Assistant Director
for Administration.

SECURITIES AND EXCHANGE COMMISSION

[70–5340]

ALLEGHENY POWER SYSTEM, INC., ET AL.

Supplemental Notice of Proposed Amendments

MARCH 20, 1974.

In the matter of Allegheny Power System, Inc., 320 Park Avenue, New York, New York 10022; Monongahela Power Company, 1310 Fairmont Avenue, Fairmont, West Virginia 26554; The Potomac Edison Company, Downsville Pike, Hagerstown, Maryland 21740; The Potomac Edison Company of Virginia, Rt. 11 South, Kernstown, Virginia 22601; The Potomac Edison Company of West Virginia, 901 Wilson Street, Martinsburg, West Virginia 25401; The Potomac Edison Company of Pennsylvania, N. Grant Street Extension, Waynesboro, Pennsylvania 17268; Monterey Utilities Corporation, Monongahela Power Company Building, Fairmont, West Virginia 26554 (70–5340).

Notice is hereby given that Allegheny Power System, Inc. ("APS"), a registered holding company, its subsidiary electric utility and registered holding companies, Monongahela Power Company ("Monongahela") and The Potomac Edison Company ("PE"), PE's subsidiary electric utility companies, The Potomac Edison Company of Virginia (PE Va.), The Potomac Edison Company of West Virginia (PE W. Va.) and The Potomac Edison Company of Pennsylvania (PE Pa.) and Monongahela's electric utility subsidiary company, Monterey Utilities Corporation (Monterey), have filed further amendments to the amended application-declaration originally filed with this Commission designating sections 5(d), 9, 10 and 12 of the Public Utility Holding Company Act of 1935 ("Act") as applicable to the following proposed transactions. All interested persons are referred to the application-declaration, as further amended, which is summarized below, for a complete statement of the proposed transactions.

By notice dated August 27, 1973, in this proceeding (Holding Company Act Release No. 18069) notice was given of a proposal by APS to simplify its corporate structure through the following steps: (i) PE Va. will acquire Monterey's common stock for cash equal to the stock's underlying book value; (ii) Monterey, PE Va., PE W. Va., PE Pa. will merge into PE; and (iii) PE will acquire the Maryland public utility properties ("Maryland properties") of Monongahela for cash equal to the Maryland properties' original cost depreciated. Applicants-declarants request that upon consummation of the proposed transactions, a further order be issued declaring that Monongahela and PE have each ceased to be holding companies under the Act and that their registrations under the Act are no longer in effect.

The notice stated, among other things, that PE proposes to amend and restate its Certificate of Incorporation ("Charter") without any change in the substance thereof. Applicants-declarants have now filed amendments to the original application-declaration proposing, among other things, to amend the PE Charter to increase the amount of cumulative preferred stock PE is authorized to issue from 450,000 shares to 5,450,000 shares. Additional changes to the PE Charter are also proposed, including revisions in the provisions relating to the number of PE Directors, the inclusion of a statement of powers exercisable by PE in the state of Virginia, and an amendment to state that the consent of "more than" two-thirds of the cumulative preferred stock rather than "at least" two-thirds of the cumulative preferred stock will be required in certain instances.

It is stated that these changes will not adversely affect the present PE preferred stockholders.

Notice is further given, that any interested person may, not later than April 12, 1974, request in writing that a hearing be held with respect to the proposed transactions, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended and as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74–7127 Filed 3–27–74;8:45 am]

[File No. 500–1]

AMERICAN DATA SERVICES, INC.

Suspension of Trading

MARCH 21, 1974.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of American Data Services, Inc. being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from 10 a.m. (e.d.t.) on March 21, 1974 through March 30, 1974.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[FR Doc.74–7226 Filed 3–27–74;8:45 am]

[812–3599]

ASA LTD.

Filing of Application

MARCH 20, 1974.

Notice is hereby given that ASA Limited (54 Marshall Street, Johannesburg, South Africa) ("Applicant"), a non-diversified, closed-end management investment company registered under the investment Company Act of 1940 (the "Act"), has been filed an application for an order of the Commission pursuant to section 6(c) of the Act declaring that Wesley A. Stanger, Jr. ("Stanger"), a director of Applicant, shall not be considered an "interested person" of Applicant within the meaning of section 2(a)(19) of the Act solely by reason of his status as a registered representative of Edwards & Hanley, a limited partnership, and a registered broker-dealer under the Securities Exchange Act of 1934 (the "1934 Act"). All interested persons are referred to the application on file with the Commission for a statement of the representations contained therein, which are summarized below.

Applicant is a South African corporation which was permitted to register under the Act as a foreign investment company pursuant to the provisions of section 7(d) of the Act and Rule 7d–1 thereunder.

Applicant has not offered any of its securities for sale since 1958, and it has no underwriter. Its investment adviser, South African Investment Adviser (Proprietary) Limited ("SAIA"), is also a South African corporation and conducts no business other than acting as Applicant's investment adviser. Applicant's investment policy does not permit it to invest in the securities of any companies other than those doing the major portion of their business in South Africa. Applicant's securities transactions are arranged for by SAIA acting as its adviser and, with very rare exceptions, are executed on the Johannesburg Stock Exchange.

The Commission on July 10, 1973 issued an order pursuant to section 6(c) of the Act (Investment Company Act Release No. 7894) declaring that Stanger, a director of Applicant shall not be considered an "interested person" of Applicant within the meaning of section 2(a)(19) of the Act solely by reason of his status as a registered representative of Riter, Pyne, Kendall & Hollister ("Riter Pyne"), a registered broker-dealer under the 1934 Act. Applicants state that subsequent to the issuance of such order, Edwards & Hanley succeeded to the business of Riter Pyne.

Stanger has been a director of Applicant since 1960, and at Applicant's annual shareholders meeting on April 30, 1973, he was reelected to serve until the 1974 shareholders meeting. Mr. Stanger holds a $108,000 principal amount subordinated debenture of Edwards & Hanley but is not one of its officers or directors, and receives no salary from it. As a registered representative he receives commissions from Edwards & Hanley on transactions he handles, and he is covered by its major medical policy. Edwards & Hanley has no relationship of any kind with Applicant or its adviser, has no office outside the United States and has no particular expertise or experience with respect to South African securities. It has never sold a security to nor purchased a security from Applicant. Furthermore, it has agreed not to do so as long as Stanger remains a director of Applicant, and Applicant and SAIA have agreed that Applicant will engage in no securities transactions with Edwards & Hanley during such time. Applicant seeks the requested exemption to provide further flexibility in the composition of its board of directors in the event that deaths, resignations, or other circumstances make changes of directors necessary or advisable, and it contends that Stanger's association with Edward & Hanley will not impair his independence in acting on behalf of Applicant and its shareholders.

Section 2(a)(19) of the Act defines the term "interested person" of an investment company to include, in part, any broker or dealer registered under the 1934 Act or any affiliated person of a broker or dealer. The definition of "affiliated person" of any person contained in section 2(a)(3) of the Act includes any employee of such person. Consequently, Stanger, as a registered representative of a broker-dealer may be deemed to be an "interested person" of Applicant.

Section 6(c) of the Act provides that the Commission may, upon application, conditionally or unconditionally exempt any person from any provision of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than April 15, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0–5 of the rules and regulations promulgated under the Act, an order disposing of the matter will be issued as of course following April 15, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

DATE-A-SUPERGIRL, INC.

Order Permanently Suspending Exemption

MARCH 21, 1974.

I. Date-A-Supergirl, Inc. ("Issuer"), a Florida corporation, 1666 Kennedy Causeway, North Bay Village, Florida 33141, filed with the Commission on October 10, 1972, a notification, offering circular and supporting exhibits relating to a proposed offering of 50,000 shares of its $.01 par value common stock at $1.50 per share for an aggregate of $75,000. The purpose of this filing was to obtain an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to section 3(b) thereof and Regulation A promulgated thereunder.

II. The Commission on October 2, 1973, temporarily suspended the Regulation A exemption of Date-A-Supergirl, Inc., stating it had reasonable cause to believe that:

A. The notification and offering circular contained untrue statements of material facts and omitted to state material

V 39 61 MAR 28 74 XUM

facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading, particularly in that:

1. The notification and offering circular failed to adequately disclose securities sold or to be sold to the underwriter;

2. The offering circular failed to state that the lump sum payment due in connection with the sale of its first and only franchise had been extended over a three-year period; and,

3. The offering circular named H. E. Simpson & Co. as underwriter for the offering, and that no amendment was filed to disclose that H. E. Simpson & Co. withdrew as underwriter on November 10, 1972.

B. The terms and conditions of Regulation A had not been complied with in that:

1. The notification did not adequately disclose the jurisdictions in which the securities were to be offered;

2. The Issuer failed to disclose in the notification the proposed offerings of securities to the underwriter and Marketing Systems of America, Inc.;

3. The Issuer failed to include financial statements of the predecessor partnership as required by paragraph 11 of Schedule I;

4. The Issuer failed to adequately and accurately disclose in the offering circular the percentage of the Issuer's common stock to be held by its officers, directors and promoters, and the percentage to be held by the public investors assuming all shares offered are sold as required by paragraph 9(d) of Schedule I; and,

5. The Issuer failed adequately and accurately to disclose in the offering circular the present annual remuneration to each of the Issuer's three highest paid officers and the aggregate annual remuneration to all officers and directors as a group, as required by paragraph 9(b) of Schedule I.

C. The Issuer failed to cooperate with the Commission in that the Issuer and its officers failed or refused to reply to a comment letter and two follow-up requests from the Commission's staff with respect to the amending of the notification and offering circular.

D. The offering, if allowed to commence, would have been in violation of section 17 of the Securities Act of 1933.

No hearing having been requested by Date-A-Supergirl, Inc. within 30 days after the entry of an order temporarily suspending the exemption of the Issuer under regulation A, the Commission finds that it is in the public interest and for the protection of investors that the exemption of the Issuer under regulation A be permanently suspended;

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of Date-A-Supergirl, Inc. under regulation A be, and it hereby is, permanently suspended.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

NOTE.—An appendix listing parties to whom this order has been sent is filed as part of the original document.

INSTITUTIONAL FUND OF AMERICA, INC.

Notice of Filing of Application

MARCH 20, 1974.

Notice is hereby given that Institutional Fund of America, Inc., 611 West Sixth Street, Los Angeles, California 90017 ("Applicant"), registered as a diversified, open-end management investment company under the Investment Company Act of 1940 (the "Act"), has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant, a Delaware corporation, registered under the Act in November 1970 by filing a notification of registration. Applicant has not filed a registration statement on Form N-8B-1 under the Act or on Form S-5 under the Securities Act of 1933.

Applicant has no assets and no public offering or sale of shares of Applicant has been or will be made. Applicant has no present intention of commencing operations as an investment company.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the effectiveness of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than April 15, 1974, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein will be issued by the Commission as of course following April 15, 1974, unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 81-127]

JOURNAL CO. AND JOURNAL EMPLOYEES' STOCK TRUST

Order for Hearing on Application for Exemptions

MARCH 21, 1974.

Notice is hereby given that The Journal Company ("the Journal") and The Journal Employees' Stock Trust ("JEST") (hereinafter sometimes referred to collectively as "the Applicants") have filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended, (the "Act"), for an order exempting the Applicants from the registration provisions of section 12(g) of the Act. Exemption from section 12(g) will have the additional effect of exempting the Applicants from sections 13 and 14 of the Act and their officers, directors and 10 percent beneficial owners from section 16 of the Act.

Section 12(g) of the Act requires the registration of the equity securities of every issuer which is engaged in a business affecting interstate commerce, or whose securities are traded by use of the mails or any means or instrumentality of interstate commerce, and on the last day of the fiscal year has total assets exceeding $1 million and a class of equity securities held of record initially by 500 or more persons. Registration is terminated 90 days after the issuer files a certification with the Commission that the number of holders of the registered class of securities is fewer than 300 persons.

Section 12(h) empowers the Commission to exempt, in whole or in part, any issuer from the registration, periodic reporting and proxy solicitation sections of the Act and to grant exemption from the insider reporting and trading provisions of the Act if the Commission finds by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer, or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Application, including the exhibits thereto, states, inter alia, that:

1. The Journal, a Wisconsin corporation with its principal offices in Milwaukee, Wisconsin, is engaged, through various subsidiaries, in the newspaper, broadcasting and printing business.

2. The Journal has total assets exceeding $1,000,000 and its only class of outstanding equity securities is owned by JEST and by two charitable foundations and two corporations controlled by family members of a deceased former chief executive and principal stockholder of the Journal.

3. JEST was established on May 15, 1937 in order to promote stability and continuity of management and control of the Journal by enabling its employees to acquire ownership of the Journal.

4. As of January 1, 1974, JEST owned 1,485,000 shares, representing 82.5 percent of the Journal's outstanding common stock, which securities have a value in excess of $1,000,000; and had 1,468 unitholders, each of whom was an employee of the Journal or a subsidiary thereof.

5. There are certain restrictions on the ownership and transfer of JEST units and certain information concerning the Journal is supplied or made available to all JEST unitholders.

For a more detailed statement of the information presented all persons are referred to said application which is on file in the Commission's Office of Public Reference at 1100 L Street, NW., Washington, D.C.

It is ordered, Pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended, that a hearing on the application of the Journal Company and the Journal Employees' Stock Trust for exemptions from the provisions of section 12(g) of that Act be held on April 29, 1974 at 10 a.m., at the offices of the Securities and Exchange Commission, 500 North Capitol Street, Washington, D.C. An Administrative Law Judge will be designated to preside at the hearing. Any person desiring to be heard is directed to file with the Secretary of the Commission his request as provided for by rule 9(c) of the Commission's rules of practice, setting forth any issues of fact or law which he desires to controvert and/or setting forth any additional issues which he feels should be considered.

The Division of Corporation Finance advises that it has made a preliminary examination of the application and that, on the basis thereof, the following matters and questions are to be presented for consideration at the hearing:

1. Whether the number of public investors and the amount of trading interest, actual or potential, in Applicants' securities is sufficiently limited to justify the requested exemptions for either or both of the Applicants; and

2. Whether the nature and extent of the activities of the Applicants are such

V 39 61 MAR 28 74 XUM

to justify the requested exemptions for either or both of the Applicants; and

3. Whether adequate information is and will be available to investors concerning the financial affairs of the Applicants, to justify the requested exemptions for either or both of the Applicants; and

4. Generally, whether the requested exemptions are consistent with the public interest and with the protection of investors.

It is further ordered, That the Secretary of the Commission shall give notice of the aforesaid hearing by mailing a copy of this notice and order by registered mail to the Journal Company and the Journal Employee's Stock Trust and to their attorney and that notice to all other persons be given by publication of this notice and order in the FEDERAL REGISTER, and that a general release of this Commission in respect to this notice and order be distributed to the press and mailed to those persons whose names appear on the mailing list for release.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[70-4854]

METROPOLITAN EDISON CO. AND YORK HAVEN POWER CO.

Supplemental Notice of Proposed System Transactions

MARCH 20, 1974.

Notice is hereby given that Metropolitan Edison Company ("Met-Ed"), an electric utility subsidiary company of General Public Utilities Corporation, a registered holding company, and York Haven Power Company ("YHP"), a Pennsylvania corporation, 2800 Pottsville Pike, Muhlenberg Township, Berks County, Pennsylvania 19605, have filed a joint application-declaration and an amendment thereto with this Commission, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), 10, 12(d) and 12 (f) of the Act and Rule 43 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the joint application-declaration, which is summarized below, for a complete statement of the proposed transactions.

By notice dated February 26, 1968, in this proceeding (Holding Company Act Release No. 15982), notice was given of a proposal for YHP to issue to Met-Ed, and Met-Ed to acquire from YHP, in exchange for certain Met-Ed property, all the capital stock of YHP consisting of 500 shares of common stock without par value.

YHP is a Pennsylvania corporation which was incorporated on December 19, 1967 at Met-Ed's instance. YHP does not have any securities outstanding and does not propose to issue any securities prior to the consummation of the transactions herein proposed.

The property which Met-Ed proposes to transfer to YHP consists of (a) substantially all of the tangible and intangible project property comprising Met-Ed's York Haven hydroelectric project, as revised, which project has been licensed as Project No. 1888 under Part I of the Federal Power Act, and (b) the license, as amended, for said project. The transfer will exclude the land on which the Three Mile Island ("TMI") nuclear generating station is being constructed, as well as all land owned by Met-Ed and embraced generally within a radius of 2,000 feet from the center of the reactor building of each of the two units of said station.

The transfer will reserve to Met-Ed (and its successors and assigns) the right to make joint use of project waters for make-up, normal and cooling purposes at the TMI nuclear station and for the dilution and disposal of radioactive wastes, subject to water quality regulatory standards applicable to discharges of water for such purposes. The transfer will also exclude rights-of-way and facilities for existing transmission and distribution lines and a railroad and access road bridge and rights-of-way for certain future transmission and distribution lines, all of which are not part of the hydroelectric project. Met-Ed will contract with YHP for the rights, for the life of the nuclear generating station, to make joint use of the waters of the licensed project for make-up water and emergency cooling purposes for the nuclear station and the rights-of-way and easements across the project property necessary for the construction, operation and maintenance of the nuclear station.

The transfer will provide for the annual payment of $500 by Met-Ed (and its successors and assigns) to the licensee of the hydroelectric project for the value of the power and energy loss occasioned by the joint use of water for the TMI nuclear station.

The fees and expenses to be incurred in connection with the proposed transactions will be filed by amendment. The filing states that the Pennsylvania Public Utility Commission has jurisdiction with respect to Met-Ed's proposed sale of property to YHP and that the FPC has jurisdiction with respect to the proposed amendment to the license for the hydroelectric project and related matters. Copies of the orders of such commissions will be filed by amendment.

Notice is further given that any interested person may, not later than April 11, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said joint application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the joint applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the joint application-declaration, as amended, or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[FR Doc.74-7136 Filed 3-27-74;8:45 am]

[70-5415]

MIDDLE SOUTH UTILITIES, INC., ET AL.

Notice of Proposed Post-Effective Amendment

MARCH 19, 1974.

In the matter of Middle South Utilities, Inc., 280 Park Avenue, New York, New York 10017; System Fuels, Inc., 225 Baronne Street, New Orleans, Louisiana 70112; Arkansas Power & Light Company, Ninth and Louisiana Streets, Little Rock, Arkansas 72203; Louisiana Power & Light Company, 142 Delaronde Street, New Orleans, Louisiana 70174; Mississippi Power & Light Company, P.O. Box 1640, Jackson, Mississippi 39205; New Orleans Public Service, Inc., P.O. Box 60340, New Orleans, Louisiana 70160.

Notice is hereby given that System Fuels, Inc. ("SFI"), a jointly owned nonutility subsidiary of Arkansas Power & Light Company ("AP&L"), Louisiana Power & Light Company ("LP&L"), Mississippi Power & Light Company ("MP&L") and New Orleans Public Service, Inc. ("NOPSI"), hereinafter collectively referred to as the "Operating Companies," each an electric utility subsidiary company of Middle South Utilities, Inc. ("MSU"), a registered holding company, have jointly filed a first post-effective amendment to their application-declaration in this proceeding, as previously amended, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 12(b) and 12(f) of the Act and Rules 45 and 50 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the post-effective amendment, which is summarized below, for a complete statement of the proposed transactions.

By Commission Order dated December 17, 1973 (HCAR No. 18221), SFI was authorized to borrow from the Operating Companies from time to time through December 31, 1975, an aggregate amount not to exceed $90,000,000, as partial financing of SFI's capital requirements for the period 1974 to 1976. Borrowings under such $90,000,000 commitment were to be made, however, only to the extent that outside sources of financing were unavailable.

It is stated that SFI has negotiated a borrowing arrangement with First National City Bank ("FNCB") to provide outside financing (a) for a major portion of SFI's fuel oil inventory through 1976, presently estimated to vary between 5,000,000 and 10,500,000 barrels valued at as much as $115,500,000, (b) for expenditures relating to the construction of certain oil storage facilities to be owned by SFI in connection with SFI's overall storage program, (c) for progress payments for the construction of certain tows to be owned by SFI in connection with SFI's overall transportation program, and (d) for other miscellaneous expenditures in connection with SFI's fuel supply program and for general corporate purposes.

SFI proposes, by entering into a loan agreement with FNCB ("FNCB Loan Agreement"), to establish a line of credit with FNCB under which SFI may borrow and reborrow, for a period of two years from the date of the FNCB Loan Agreement, up to an aggregate of $40,000,000 outstanding at any one time.

The borrowings by SFI from FNCB will be evidenced by promissory notes ("FNCB Notes"), payable two years after the date of the FNCB Loan Agreement, which will bear interest on the unpaid principal amount thereof at a rate per annum equal to one hundred fifteen percent (115 percent) of the base rate charged by FNCB on 90-day loans to responsible and substantial commercial borrowers, with adjustments in the interest rate to be made effective as of the first day of the week following the week in which any change in such base rate of FNCB occurs. There is no requirement that SFI maintain compensating balances in connection with the borrowings from FNCB under the line of credit. The FNCB Notes will be prepayable at any time, in whole or in part, without penalty or premium.

In consideration for FNCB's commitment under the FNCB Loan Agreement, SFI will pay to FNCB a commitment fee from the date of the FNCB Loan Agreement to its termination date two years thereafter, computed at the rate of one-half of one percent (½ of 1 percent) per annum of the average daily unused portion of the commitment. The FNCB Agreement also provides that SFI may, at its option, terminate early, or reduce, from time to time, FNCB's commitment.

Under the terms of the proposed FNCB Loan Agreement, the Operating Companies will severally covenant and agree with FNCB to take any and all action as, from time to time, may be necessary to keep SFI in a sound financial condition and to place SFI in a position to discharge, and to cause SFI to discharge, its obligations to FNCB pursuant to the FNCB Loan Agreement and the FNCB Notes. The Operating Companies will further covenant and agree that they will, unless otherwise consented to in writing by FNCB, maintain their respective shares of ownership of the Common Stock of SFI, for the period during which any portion of the principal amount of the FNCB Notes remains unpaid, in approximately the same proportions as currently held by them.

SFI represents that, in carrying out its financing programs for the years 1974 through 1976, it will at all times maintain the aggregate of its capital stock, surplus and principal amount of its indebtedness to the Operating Companies at an amount equal to at least 35 percent of SFI's total capitalization.

As indicated above, SFI's cash requirements to finance fuel oil inventory from January 1, 1974 through 1976 have increased, under present estimates, by $55,500,000 from those set forth in the original filing. SFI consequently proposes to revise the amounts previously specified in the filing to be expended in the years 1974, 1975 and 1976 to $45,000,000, $16,500,000 and $16,500,000, respectively, for fuel oil inventory.

Fees and expenses anticipated in connection with the transactions proposed herein aggregate $5,500, including charges of $500 for administrative services, at cost, of Middle South Services, Inc., the service company of the Middle South Utilities System, and legal fees estimated not to exceed $5,000.

It is stated that no State or Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than April 12, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration as further amended by said post-effective amendment which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated addresses, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended by said post-effective amendment or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

NEW ORLEANS PUBLIC SERVICE, INC.

Proposal To Issue and Sell First Mortgage Bonds at Competitive Bidding

MARCH 22, 1974.

Notice is hereby given that New Orleans Public Service Inc., 317 Baronne Street, New Orleans, Louisiana 70160 ("NOPSI"), an electric utility subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act and Rule 50 promulgated thereunder as applicable to the following proposed transaction. All interested parties are referred to said application, which is summarized below, for a complete statement of the proposed transaction.

NOPSI proposes to issue and sell, at competitive bidding, $35 million principal amount of its First Mortgage Bonds ("Bonds"), due May 1, 2004. The interest rate, which shall be a multiple of ⅛ of 1 percent, and the price, which will be not less than 100 percent nor more than 102.75 percent of the principal amount thereof, will be determined by competitive bidding. The Bonds will be issued under the Mortgage and Deed of Trust dated as of July 1, 1944 ("Indenture") between NOPSI and The Chase Manhattan Bank, Trustee, as supplemented and amended from time to time, and as further supplemented by a supplemental indenture to be dated May 1, 1974 ("Supplemental Indenture"). The Supplemental Indenture provides, among other things, that Bonds shall not be redeemed at the applicable general redemption price prior to May 1, 1979, from the proceeds of borrowings secured by NOPSI at an effective interest cost to NOPSI of less than the effective interest cost of the Bonds.

The application states that NOPSI will use the net proceeds from the sale of Bonds to retire $31,983,000 principal amount of First Mortgage Bonds, due July 1, 1974, to finance, in part, its 1974 construction program, and for other lawful purposes.

A statement of the fees, commissions and expenses incurred or to be incurred in connection with the proposed transaction will be supplied by amendment. The approval of the City of New Orleans is required for the issuance of the Bonds.

V 39 61 MAR 28 74 XUM

An application has been made to, and approval granted by, that authority with respect to the proposed transaction. No other State commission, and no Federal commission, other than this Commission has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 17, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant of the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[70-5478]

PENNSYLVANIA ELECTRIC CO. ET AL.

Proposed Acquisition by Subsidiary Company of All Assets of Associate Company and Related Transactions

MARCH 21, 1974.

Notice is hereby given that General Public Utilities Corporation ("GPU"), a registered holding company, and two of its electric utility subsidiary companies, Pennsylvania Electric Company ("Penelec") and Waterford Electric Light Company ("Waterford"), 80 Pine Street, New York, New York 10005, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7, 9(a), 10, 12(b), 12(d), and 12(f) of the Act and rules 43, 44, and 45 promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

Penelec proposes to acquire from GPU, in exchange for 37,447 shares of Penelec's authorized and unissued common stock, plus $4.72 in cash, all of the issued and outstanding capital stock of Waterford, a wholly-owned subsidiary of GPU organized under the laws of Pennsylvania. The aggregate par value of the shares of additional Penelec common stock plus the cash payment of $4.72 is equal to GPU's carrying value for the Waterford capital stock of $748,944.72. GPU acquired the Waterford capital stock on December 16, 1968, pursuant to an order of the Commission (Holding Company Act Release No. 16243 (December 16, 1968)).

The business of Waterford is confined to the purchase, distribution, and sale of electric power and energy in a relatively small area located entirely within the existing service area of Penelec, approximately 15 miles from the city of Erie, Pennsylvania. At December 31, 1973, Waterford served 1,199 residential customers, 160 commercial and industrial customers, and one street lighting customer. Waterford purchases from Penelec its entire requirements of electric power and energy.

Waterford will declare a dividend on its common stock in an amount equivalent to its accumulated retained earnings from the date of acquisition by GPU of all the said common stock of Waterford to the close of business on the date preceding Penelec's acquisition of such stock. (Such earned surplus accumulated since the date of acquisition, December 16, 1968, by GPU amounted to $157,363 at December 31, 1973.) GPU's carrying value for the capital stock of Waterford ($748,944.72) is the sum of (a) the fair market value of the shares of GPU common stock delivered by GPU to the shareholders of Waterford in 1968 in exchange for the Waterford capital stock, (b) GPU's expenses incurred in connection with the acquisition of such Waterford capital stock, and (c) the subsequent cash capital contributions of $260,000 made by GPU to Waterford. GPU will record the additional Penelec common stock received by it at the par value thereof so that its additional investment in Penelec plus the $4.72 in cash to be delivered by Penelec in lieu of the issuance of a fractional share will merely be substituted for its existing investment in Waterford.

Immediately after Penelec's acquisition of the Waterford capital stock, Waterford will adopt a plan of liquidation pursuant to which Waterford will be dissolved and all of its assets will be transferred to Penelec (as Waterford's sole stockholder) subject to Waterford's liabilities and obligations. Upon such liquidation, the aggregate of the par value of the additional Penelec common stock and the cash payment of $4.72 by Penelec to GPU will be $166,925.27 in excess of the net assets (at net original cost) received by Penelec upon the liquidation of Waterford. GPU will make a cash capital contribution to Penelec of $166,925.27 in order to enable Penelec to write off such excess against the capital surplus resulting from such cash capital contribution so that Penelec will thereafter carry Waterford at net original cost.

The filing states that the Pennsylvania Public Utility Commission has jurisdiction over certain of the proposed transactions and that no other state or federal commission, other than this Commission, has jurisdiction over the proposed transactions. The fees and expenses in connection with the proposed transactions will be filed by amendment.

Notice is further given that any interested person may, not later than April 15, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in

this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

UTAH POWER & LIGHT CO.

Proposed Cash and Property Contribution by Registered Holding Company to Geothermal Steam Exploration Venture

MARCH 22, 1974.

Notice is hereby given that Utah Power & Light Company ("Utah"), 1407 West North Temple Street, P.O. Box 899, Salt Lake City, Utah 84110, an electric utility company and a registered holding company, has filed an application, and amendments thereto, pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 9 and 10 of the Act as applicable to the proposed transaction. All interested persons are referred to the application, as amended, which is summarized below, for a complete statement of the proposed transaction.

On December 26, 1973, Utah entered into a Joint Venture Agreement ("agreement") with Geothermal Kinetics, Inc. ("GKI"), a Nevada corporation, creating a joint venture (venture) to explore for, develop and produce geothermal steam resources for use in the generation of electricity.

The agreement provides, among other things, that the venture will endeavor to drill sufficient wells to provide a steam supply for an electric generating station. In the event the venture is successful in the production of geothermal steam or other commodities of value, Utah shall have the exclusive right to purchase such production. The agreement provides that if Utah elects not to purchase such production, the substances produced may be sold to others, with the proceeds from any sale to be shared equally by Utah and GKI.

Utah's initial cash contribution to the venture is proposed to be a maximum of $500,000. These funds contributed by Utah are to be used for expenses connected with the drilling and completion of an initial test well in Box Elder County, Utah. Costs in excess of $500,000 for the initial test well will be borne by GKI. Utah will also transfer to the venture certain of Utah's geothermal rights in Bannock County, Idaho. Any additional expenditures or contributions by Utah in connection with the venture will require further authorization of this Commission.

GKI has agreed to transfer to the venture all GKI's interest in certain steam leases in Box Elder County, Cache County and Iron County, Utah together with subsequent leases to be acquired in the same area. GKI will also contribute all its geological, geophysical and geochemical data, studies and interpretations relating to said leases.

Fees and expenses to be incurred in connection with the proposed transaction are to be supplied by amendment. It is stated that the Utah Public Service Commission has authorized Utah's participation in the agreement and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than April 17, 1974, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as amended or as it may be further amended, may be granted as provided in rule 23 of the general rules and regulations promulgated under the Act, or the

TARIFF COMMISSION

ESTIMATED CONSUMPTION OF BROOM CORN BROOMS

Report to the President

MARCH 21, 1974.

In accordance with Executive Order 11377 of October 23, 1967 (copy attached [1]), to assist the President in the exercise of his authority under headnote 3 to schedule 7, part 8, subpart A, of the Tariff Schedules of the United States (79 Stat. 948; 19 U.S.C. 1202), the U.S. Tariff Commission herein reports its judgment as to the estimated domestic consumption of broom corn brooms for the year 1973, and the basis for that estimate. For convenience, the Commission also reports corresponding data for the years 1965 and 1972.

ESTIMATED CONSUMPTION OF BROOM CORN BROOMS

In the judgment of the Commission, the consumption in the calendar years 1965, 1972, and 1973 of brooms wholly or in part of broom corn was as follows (in dozens):

Type of broom	1965 [1]	1972 [2]	1973
Whiskbrooms of a kind provided for in items 750.26 to 750.28, inclusive, of the tariff schedules	470,612	446,238	436,514
Other brooms of a kind provided for in items 750.29 to 750.31, inclusive, of the tariff schedules	2,878,995	2,649,368	2,554,884

[1] As reported to the President on May 2, 1968.
[2] As reported to the President on April 25, 1973.

BASIS FOR THE COMMISSION'S JUDGMENT WITH RESPECT TO BROOM CORN BROOMS

The Commission estimated consumption of broom corn brooms in 1973 by the same methods it used to estimate consumption in its previous reports pursuant to Executive Order 11377. Apparent annual consumption was determined by adding the quantity of shipments by domestic producers to the quantity of imports and subtracting therefrom the quantity of exports. Data on imports were obtained from the U.S. Customs Service, Department of the Treasury; data on production and exports were estimated from responses to questionnaires sent to all known domestic producers of broom corn brooms.

The data for each of the components used in the computation of apparent annual consumption of broom corn brooms are as follows (in dozens):

Item	1965 [1]	1972 [2]	1973
	Whiskbrooms of a kind provided for in TSUS items 750.26 to 750.28, inclusive		
U.S. producers' shipments	318,691	338,008	333,202
Imports	152,686	109,257	104,092
Exports	765	1,027	780
Apparent consumption	470,612	446,238	436,514
	Other brooms in a kind provided for in TSUS items 750.29 to 750.31, inclusive		
U.S. producers' shipments	2,596,457	2,457,669	2,351,674
Imports	296,897	197,556	205,783
Exports	14,359	5,857	2,573
Apparent consumption	2,878,995	2,649,368	2,554,884

[1] As reported to the President on May 2, 1968.
[2] As reported to the President on April 25, 1973.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

WATCHES AND WATCH MOVEMENTS FROM INSULAR POSSESSIONS

Determination of Apparent United States Consumption of Watch Movements in 1973 and of Quotas for Duty-Free Entry in 1974 of Watches and Watch Movements From Insular Possessions

In accordance with headnote 6(c) of schedule 7, part 2, subpart E, of the Tariff Schedules of the United States (TSUS), the Tariff Commission has determined that the apparent United States consumption of watch movements for the calendar year 1973 was 50,134 thousand units, and that the number of watches and watch movements, the product of the Virgin Islands, Guam, and American Samoa, which may be entered free of duty during the calendar year 1974 under headnote 6(b) of said subpart E of the TSUS is as follows:

	Thousand units
Virgin Islands	4,874
Guam	464
American Samoa	232

By order of the Commission.

WESTLAND SHOE CORP.

Workers' Petition for a Determination; Notice of Investigation

On the basis of a petition filed under section 301(a)(2) of the Trade Expansion Act of 1962, on behalf of the workers and former workers of the Westland Shoe Corp., Biddeford, Maine, a wholly-owned subsidiary of Standard Prudential Corp., New York, New York, the United States Tariff Commission, on March 22, 1974, instituted an investigation under section 301(c)(2) of the Act to determine whether, as a result in major part of concessions granted under trade agreements, articles like or directly competitive with footwear for men and women (of the types provided for in items 700.35, 700.43, 700.45 and 700.55 of the Tariff Schedules of the United States) produced by said firm are being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision thereof.

The optional public hearing afforded by law has not been requested by the petitioners. Any other party showing a proper interest in the subject matter of the investigation may request a hearing, provided such request is filed on or before April 8, 1974.

The petition filed in this case is available for inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets NW., Washington, D.C., and at the New York City office of the Tariff Commission located in Room 437 of the Customhouse.

Issued: March 25, 1974.

By order of the Commission.

[SEAL] KENNETH R. MASON,
Secretary.

DEPARTMENT OF LABOR

Office of the Secretary

DELAWARE

Availability of Extended Unemployment Compensation

The Federal-State Extended Unemployment Compensation Act of 1970, 84 Stat. 708, establishes a program of extended unemployment compensation which provides for payment of extended unemployment compensation to unemployed workers who have received all of the regular unemployment compensation to which they are entitled, commencing when unemployment is high (according to indicators set forth in the law) and terminating when unemployment ceases to be high (according to indicators set forth in the law). Pursuant to § 203(b)(2) of the Act, notice is hereby given that J. Thomas Schranck, Secretary of the Delaware Department of Labor, has determined that there was a State "on" indicator in Delaware for the week ending March 9, 1974, and that an extended benefit period will commence with the week beginning March 24, 1974.

Signed at Washington, D.C., this 25th day of March 1974.

WILLIAM H. KOLBERG,
Assistant Secretary for Manpower.

Notice of application for variance was published in the FEDERAL REGISTER on August 23, 1973 (38 FR 22683). The notice invited interested persons, including affected employers and employees, to submit written data, views and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were notified of their right to request a hearing on the application for a variance. No written comments and no request for a hearing have been received.

II. *Facts.* The applicants use end trim saws to trim linear moulding to various lengths. The operator of a trim saw stands several feet from the saw, with a working table between him and the blade. Using marks on the table as a guide, the operator trims the ends off the moulding by bringing the moulding down onto the saw.

Consolidated Pine, Inc. has placed a metal guard on each side of the saw and over a portion of the top of the saw, and has placed a barrier 50 by 60 inches and 50 inches high of one inch steel pipe around the saw, so that it prevents an employee from accidentally coming in contact with the saw.

Prineville Mouldings, Inc. has placed a metal guard on each side of the saw, and has also placed a barrier of ½ inch steel around the saw to prevent accidental contact with the saw. This barrier is 36 by 72 inches and up to 59 inches in height.

III. *Decision.* 29 CFR 1910.213(d)(1) requires that crosscut table saws be guarded with a hood which meets certain specifications. This is intended to protect the employee against being injured by the saw blade and by splinters thrown out by the saw.

The applicants have shown that the protection provided to the saw operators by the fact that they remain several feet from the saw during operation, and by the metal guards on the sides of the saw blades, provide a place of employment as safe as it would be if they complied with the standard.

They have also shown that equivalent safety is provided to other employees in the area by the barriers which have been placed around the saws to prevent anyone from coming into accidental contact with the saws.

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and Secretary of Labor's Order No. 12-71 (36 FR 8754), it is ordered that Prineville Mouldings, Inc. and Consolidated Pine, Inc. be, and they are hereby, authorized to use their end trim saws without complying with 29 CFR 1910.213(d)(1), provided they use the guarding method described above, consisting of keeping the operators several feet from the saws by means of worktables, placing metal guards on the sides of the saws, and placing steel barriers around the saws to prevent accidental contact with the saws.

As soon as possible, Prineville Mouldings, Inc., and Consolidated Pine, Inc., shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

Effective date. This order shall become effective on March 28, 1974, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, D.C., this 25th day of March 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[V-74-16]

ROLLINS COLLEGE

Grant of Variance

I. *Background.* Rollins College, Winter Park, Florida 32789, made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596; 29 U.S.C. 655), and 29 CFR 1905.11 for a variance from the safety and health standard prescribed in 29 CFR 1910.37(i). The standard requires that a means of egress must have a ceiling height of 7'6", with projections no less than 6'8" from the floor. Facilities affected by this application are: Eleven dormitories at Rollins College, Winter Park, Florida 32789, (Rollins, Hooker, Lyman, Gale, Pugsley, Mayflower, Cross, Strong, Corrin, Fox, Rex Beach). Notice of the application for variance was published in the FEDERAL REGISTER on September 25, 1973 (38 FR 26781). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were notified of their right to request for a hearing have been a variance. No written comments and no request for a hearing have been received.

II. *Facts.* The applicant requests a variance to allow the installation of acoustical ceilings in the corridors at a height of 7'2". This ceiling will provide a cover for air conditioning pipes and a

V 39 61
MAR 28 74
XUM

base for lighting and fire detectors. The clearance requirement of 6'8" for obstructions will be maintained. The corridors have a maximum travel distance to protected stairs or exits of 30 feet, with a maximum of 13 rooms opening onto a corridor. The buildings have a maximum height of 3 stories, and all functioning rooms have outside windows for alternate means of egress. The buildings are equipped with an automatic fire alarm system which has ionization detectors for very early warning. The system automatically relays alarms to the city fire department located within ½ mile of the buildings.

III. *Decision.* 29 CFR 1910.37(i) requires that the ceiling height for means of egress shall be no less than 7'6". This is intended to provide sufficient head clearance in emergency situations. The applicant states that it intends to lower the ceiling height by 4". This is not considered to be a significant change, since very few people exceed a height of 7'2", and few of such people would be employees working for substantial periods of time in corridors of the college dormitories affected by the application. Therefore, it is decided that the applicant will be providing a place of employment as safe as that required by the standard.

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, and Secretary of Labor's Order No. 12–71 (36 FR 8754), it is ordered that Rollins College be, and it is hereby, authorized to install an acoustical ceiling at a height of 7'2" from the floor in the means of egress, in lieu of the 7'6" ceiling height required by 29 CFR 1910.37 (i), provided that it maintains a 6'8" clearance for projections.

As soon as possible, Rollins College shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

Effective date. This order shall become effective on March 28, 1974, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, D.C., this 25th day of March 1974.

JOHN STENDER,
Assistant Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice No. 24]

MOTOR CARRIER, BROKER, WATER CARRIER, AND FREIGHT FORWARDER APPLICATIONS

MARCH 22, 1974.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after March 28, 1974, except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

No. MC 340 (Sub-No. 29), filed February 5, 1974. Applicant: QUERNER TRUCK LINES, INC., 1131–33 Austin Street, San Antonio, Tex. 78208. Applicant's representative: M. Ward Bailey, 2412 Continental Life Building, Fort Worth, Tex. 76102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shortening, cooking and salad oil, and oleo margarine* (except in bulk in tank vehicles), from the plant site and storage facilities of P. V. O. International, Inc., at or near St. Louis, Mo., to points in Texas.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 20783 (Sub-No. 99), filed December 1, 1972. Applicant: TOMPKINS MOTOR LINES, INC., 638 Langley Place, Decatur, Ga. 33030. Applicant's representative: John P. Carlton, 327 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Gulfport, Miss., to points in Alabama, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New York, North Dakota, Ohio, Pennsylvania, South Carolina, South Dakota, Tennessee, Virginia, West Virginia, and Wisconsin.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or New Orleans, La.

No. MC 22229 (Sub-No. 84), filed January 25, 1974. Applicant: TERMINAL TRANSPORT COMPANY, INC., 248 Chester Avenue SE., Atlanta, Ga. 30316. Applicant's representative: Harold H. Clokey, 414 The Equitable Building, Atlanta, Ga. 30303. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except articles of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between points in that area of Florida between Florida City and Key West, Fla., usually referred to as the Florida Keys.

NOTE.—Common control may be involved. Applicant presently holds authority in the lead certificate between points in Florida not requested herein. Applicant states that the requested authority can be tacked in the lead certificate at Florida City, Fla., to provide service between points in a specified region of Florida. If a hearing is deemed necessary, applicant requests it be held at either Miami or Key West, Fla.

No. MC 29910 (Sub-No. 139) (Amendment), filed January 14, 1974, published in the FR issue of February 22, 1974, and republished as amended this issue, Applicant: ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 South 11th Street, Fort Smith, Ark. 72901. Applicant's representative: Thomas Harper, P.O. Box 43—Kelly Building, Fort Smith, Ark. 72001. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite and warehouse facilities of Day and Night Company, Payne Company, at Collierville, Tenn., as an off-route point in connection with applicant's regular route authority to and from Memphis, Tenn.

NOTE.—The purpose of this republication is to indicate that applicant seeks regular route authority. If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or New Orleans, La.

No. MC 30887 (Sub-No. 203), filed February 7, 1974. Applicant: SHIPLEY TRANSFER, INC., 49 Main Street, Reistertown, Md. 21136. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic granules*, in bulk, in tank vehicles or hopper-type vehicles, from Baltimore, Md., to points in Pennsylvania, New Jersey, Delaware, Virginia, West Virginia, and the District of Columbia, restricted to traffic having a prior movement by rail.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 33641 (Sub-No. 113), filed February 4, 1974. Applicant: I.M.L. FREIGHT, INC., 2175 S. 3270 West, Salt Lake City, Utah 84119. Applicant's representative: Stuart L. Poelman, 7th Floor Continental Bank Building, Salt Lake City, Utah 84101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving Westvaco, Alchem, and Stauffer, Wyo., and the plantsite of Texas-gulf, Inc. (located 7 miles east of Granger, Wyo.) as off-route points in connection with carrier's authorized regular route operations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Salt Lake City, Utah, or Rock Springs, Wyo.

No. MC 41406 (Sub-No. 39), filed February 5, 1974. Applicant: ARTIM TRANSFORTATION SYSTEM, INC., 7105 Kennedy Avenue, P.O. Box 2176, Hammond, Ind. 46323. Applicant's representative: Ferdinand Born, 601 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel castings*, from Benton Harbor and St. Joseph, Mich., to Glasgow, Ky.

NOTE.—Common control may be involved. Applicant states that the requested authority can be tacked at Benton Harbor and St. Joseph, Mich., in Sub-No. 18, Sheet 1, to provide a through service from Chicago, Ill., to Glasgow, Ky. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., Cleveland, Ohio, or Washington, D.C.

No. MC 41432 (Sub-No. 137), filed February 11, 1974. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, P.O. Box 10125, Dallas, Tex. 75207. Applicant's representative: W. P. Furrh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, rock, gravel, sand, household goods as defined by the Commission, and commodities requiring special equipment), serving the Holiday Industrial Park, located in DeSoto County, Miss., as an off-route point in connection with applicant's regular-route operations to and from Memphis, Tenn.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Memphis, Tenn., or Dallas, Tex.

No. MC 41432 (Sub-No. 138), filed January 31, 1974. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, P.O. Box 10125, Dallas, Tex. 75207. Applicant's representative: W. P. Furrh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Memphis, Tenn., and Collierville, Tenn., serving no intermediate points: From Memphis over U.S. Highway 72 to Collierville, and return over the same route.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Memphis, Tenn., or Dallas, Tex.

No. MC 41432 (Sub-No. 139), filed February 11, 1974. Applicant: EAST TEXAS MOTOR FREIGHT LINES, INC., 2355 Stemmons Freeway, P.O. Box 10125, Dallas, Tex. 75207. Applicant's representative: W. P. Furrh (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the facilities of Rob Roy Industries, located at or near Gilmer, Tex., as an off-route point in connection with carrier's authorized regular-route operations to and from Longview, Tex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 42212 (Sub-No. 5), filed February 13, 1974. Applicant: HARDER'S EXPRESS, INC., Route 9–H, Claverack, N.Y. 12513. Applicant's representative: Norman Weiss, 2 West 45th Street, New York, N.Y. 10036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and commodities requiring special equipment), (1) between Claverack, N.Y., and Port Jervis, N.Y., serving all intermediate points: (a) From Claverack over New York Highway 9H to junction New York Highway 23, thence over New York Highway 23 to junction Interstate Highway 87, thence over Interstate Highway 87 to junction U.S. Highway 6, thence over U.S. Highway 6 to Port Jervis, and return over the same route; (b) from Claverack to Interstate Highway 87 as above, thence over Interstate Highway 87 to U.S. Highway 209, thence over U.S. Highway 209 to Port Jervis, and return over the same route; and (c) from Claverack over New York Highway 9H to junction U.S. Highway 9, thence over U.S. Highway 9 to junction Interstate Highway 84, thence over Interstate Highway 84 to junction U.S. Highway 6, thence over U.S. Highway 6 to Port Jervis, and return over the same route.

(2) Between Claverack, N.Y., and Albany, N.Y., serving all intermediate points: (a) From Claverack over New York Highway 9H to junction U.S. Highway 9, thence over U.S. Highway 9 to Albany, and return over the same route; (b) from Claverack over New York Highway 9H to junction New York Highway 23, thence over New York Highway 23 to junction U.S. Highway 9W, thence over U.S. Highway 9W to Albany, and return over the same route; (c) from Claverack over New York Highway 9H to junction New York Highway 23B, thence over New York Highway 23B to junction U.S. Highway 9 to junction New York Highway 9J, thence over New York Highway 9J to Albany, and return over the same route; (d) from Claverack to U.S. Highway 9 as (2)(a) above, thence over U.S. Highway 9 to junction Interstate Highway 90, thence over Interstate Highway 90 to junction Interstate Highway 87, thence over Interstate Highway 87 to Albany, and return over the same route; (e) from Claverack to New York Highway 23 as above, thence over New York Highway 23 to junction New York Highway 385, thence over New York Highway 385 to junction New York Highway 144, thence over New York Highway 144 to Albany, and return over the same route; (f) from Claverack to New York Highway 23B as above, thence over New York Highway 23B to junction New York Highway 66, thence over New York Highway 66 to junction U.S. Highway 20, thence over U.S. Highway 20 to Albany, and return over the same route; and (g) from Claverack over New York Highway 9H to junction New York Highway 66, thence over New York Highway 66 to junction New York Highway 295, thence over New York Highwey 295 to junction New York

V 39 61 MAR 28 74 XUM

Highway 22, thence over New York Highway 22 to junction U.S. Highway 20, thence over U.S. Highway 20 to Albany, and return over the same route.

(3) Between Claverack, N.Y., and Ellenville, N.Y., serving all intermediate points: (a) From Claverack over New York Highway 9H to junction U.S. Highway 9, thence over U.S. Highway 9 to junction New York Highway 199, thence over New York Highway 199 to junction U.S. Highway 209, thence over U.S. Highway 209 to Ellenville, and return over the same route; (b) from Claverack over New York Highway 9H to junction New York Highway 23, thence over New York Highway 23 to junction Interstate Highway 87, thence over Interstate Highway 87 to junction U.S. Highway 209, thence over U.S. Highway 209 to Ellenville, and return over the same route; and (c) from Claverack to New York Highway 23 as in 3(b) above, thence over New York Highway 23 to junction U.S. Highway 9W, thence over U.S. Highway 9W to junction New York Highway 199, thence over New York Highway 199 to junction U.S. Highway 209, thence over U.S. Highway 209 to Ellenville and return over the same route; (4) between Claverack, N.Y., and Liberty, N.Y., serving all intermediate points: From Claverack to Ellenville as (3) above, thence over New York Highway 52 to Liberty, and return over the same route; (5) between Claverack, N.Y., and Monticello, N.Y., serving all intermediate points: (a) From Claverack to Liberty as (4) above, thence over New York Highway 17 to junction New York Highway 17B, thence over New York Highway 17B to Monticello, and return over the same route; and (b) from Claverack to Ellenville as (3) above, thence over U.S. Highway 209 to junction New York Highway 17, thence over New York Highway 17 to junction New York Highway 17B, thence over New York Highway 17B to Monticello, and return over the same route.

(6) Between Claverack, N.Y., and Kingston, N.Y., serving all intermediate points: (a) From Claverack, to New York Highway 199 as (3)(c) above, thence over New York Highway 199 to junction U.S. Highway 9W, thence over U.S. Highway 9W to Kingston, and return over the same route; (b) from Claverack over New York Highway 9H to junction New York Highway 23B, thence over New York Highway 23B to junction New York Highway 9G, thence over New York Highway 9G to junction New York Highway 199, thence over New York Highway 199 to junction U.S. Highway 9W, thence over U.S. Highway 9W to Kingston, and return over the same route; and (c) from Claverack over New York Highway 9H to junction New York Highway 23, thence over New York Highway 23 to junction U.S. Highway 9W, thence over U.S. Highway 9W to Kingston and return over the same route; (7) between Claverack, N.Y., and Newburgh, N.Y., serving all intermediate points: (a) From Claverack over New York Highway 9H to junction U.S. Highway 9, thence over U.S. Highway 9 to junction Interstate Highway 84, thence over Interstate Highway 84 to Newburgh, and return over the same route; (b) from Claverack to Interstate Highway 87, as (3)(b) above, thence over Interstate Highway 87 to Newburgh, and return over the same route; (c) from Claverack to Kingston, N.Y., as (6) above, thence over U.S. Highway 9W to junction Interstate Highway 84, thence over Interstate Highway 84 to Newburgh, and return over the same route; and (d) from Claverack to U.S. Highway 9W as (6)(c) above, thence over U.S. Highway 9W to junction New York Highway 32, thence over New York Highway 32 to junction New York Highway 208, thence over New York Highway 208 to junction New York Highway 17K, thence over New York Highway 17K to Newburgh, and return over the same route.

(8) Between Claverack, N.Y., and Middletown, N.Y., serving all intermediate points: From Claverack to Newburgh, as (7) above, thence over Interstate Highway 84 to junction New York Highway 17, thence over New York Highway 211, thence over New York Highway 211 to Middletown, and return over the same route; (9) between Claverack, N.Y., and Warwick, N.Y., serving all intermediate points: (a) From Claverack to Newburgh, as (7) above, thence over Interstate Highway 87 to junction New York Highway 17A, thence over New York Highway 17A to Warwick, and return over the same route; and (b) from Claverack to Newburgh, as (7) above, thence over Interstate Highway 84 to junction New York Highway 416, thence over New York Highway 416 to junction New York Highway 17A, thence over New York Highway 17A to Warwick, and return over the same route; (10) between Claverack, N.Y., and West Point, N.Y., serving all intermediate points: (a) From Claverack to Newburgh, N.Y., as (7) above, thence over U.S. Highway 9W to West Point, and return over the same route; and (b) from Claverack to U.S. Highway 9W, as (6)(c) above, thence over U.S. Highway 9W to junction New York Highway 218, thence over New York Highway 218 to West Point, and return over the same route.

(11) Between Claverack, N.Y., and Poughkeepsie, N.Y., serving all intermediate points: (a) From Claverack over New York Highway 9H to junction U.S. Highway 9, thence over U.S. Highway 9 to Poughkeepsie, and return over the same route; (b) from Claverack to U.S. Highway 9 as (11)(a) above, thence over U.S. Highway 9 to junction New York Highway 9G, thence over New York Highway 9G to Poughkeepsie, and return over the same route; (c) from Claverack over New York Highway 9H to junction New York Highway 82, thence over New York Highway 82 to New York Highway 199, thence over New York Highway 199 to junction New York Highway 82A, thence over New York Highway 82A to junction U.S. Highway 44, thence over U.S. Highway 44 to Poughkeepsie, and return over the same route; and (d) from Claverack to New York Highway 82 as (11)(c) above, thence over New York Highway 82 to junction New York Highway 82A, thence over New York Highway 82A to junction U.S. Highway 44, thence over U.S. Highway 44 to Poughkeepsie, and return over the same route; (e) from Claverack to New York Highway 82 as (11)(c) above, thence over New York Highway 82 to junction New York Highway 376, thence over New York Highway 376 to Poughkeepsie and return over the same route; (f) from Claverack to New York Highway 82 as (11)(c) above, thence over New York Highway 82 to junction U.S. Highway 44, thence over U.S. Highway 44 to Poughkeepsie, and return over the same route; and (g) from Claverack to New York Highway 82 as (11)(c) above, thence over New York Highway 82 to junction New York Highway 55, thence over New York Highway 55 to Poughkeepsie, and return over the same route; (12) between Poughkeepsie, N.Y., and Garrison, N.Y., serving all intermediate points: From Poughkeepsie over New York Highway 9D to Garrison, and return over the same route; (13) between Claverack, N.Y., and Woodstock, N.Y., serving all intermediate points: From Claverack to U.S. Highway 9W as (6)(c) above, thence over U.S. Highway 9W to junction New York Highway 212, thence over New York Highway 212 to Woodstock, and return over the same route;

(14) Between Claverack, N.Y., and West Hurley, N.Y., serving all intermediate points: From Claverack to New York Highway 212 as (13) above, thence over New York Highway 212 to junction New York Highway 375, thence over New York Highway 375 to junction New York Highway 28, thence over New York Highway 28 to West Hurley and return over the same route; (15) between Claverack, N.Y., and Shokan, N.Y., serving all intermediate points: From Claverack to New York Highway 28 as (14) above, thence over New York Highway 28 to Shokan, and return over the same route; (16) between Claverack, N.Y., and Cairo, N.Y., serving all intermediate points: From Claverack to New York Highway 23 as (2)(b) above, thence over New York Highway 23 to Cairo, and return over the same route; (17) between Claverack, N.Y., and Palenville, N.Y., serving all intermediate points: From Claverack to New York Highway 23 as (1)(b) above, thence over New York Highway 23 to junction New York Highway 23A, thence over New York Highway 23A to Palenville, and return over the same route; (18) between Claverack, N.Y., and Troy, N.Y., serving all intermediate points: From Claverack to U.S. Highway 9 as (2)(a) above, thence over U.S. Highway 9 to junction U.S. Highway 4, thence over U.S. Highway 4 to Troy, and return over the same route; (19) between Claverack, N.Y., and Waterford, N.Y., serving all intermediate points: From Claverack to U.S. Highway 4 as (18) above, thence over U.S. Highway 4 to Waterford, and return over the same route; (20) between Claverack, N.Y., and Latham, N.Y., serving all intermediate points: From Claverack to U.S.

Highway 4 as (18) above, thence over U.S. Highway 4 to junction New York Highway 7, thence over New York Highway 7 to Latham, and return over the same route; (21) between Claverack, N.Y., and Scotia, N.Y., serving all intermediate points: From Claverack to U.S. Highway 9 as (2)(a) above, thence over U.S. Highway 9 to junction New York Highway 5, thence over New York Highway 5 to Scotia, and return over the same route.

(22) Between Claverack, N.Y., and Mahopac, N.Y., serving all intermediate points: (a) From Claverack to New York Highway 23, as (1)(b) above, thence over New York Highway 23 to junction New York Highway 22, thence over New York Highway 22 to junction Interstate Highway 84, thence over Interstate Highway 84 to junction U.S. Highway 6, thence over U.S. Highway 6 to Mahopac, and return over the same route; and (b) from Claverack to New York (22)(a) above, thence over New York Highway 22 to junction New York Highway 292, thence over New York Highway 292 to junction New York Highway 311, thence over New York Highway 311 to junction New York Highway 52, thence over New York Highway 52 to junction New York Highway 301, thence over New York Highway 301 to junction U.S. Highway 6, thence over U.S. Highway 6 to Mahopac and return over the same route; (23) between Albany, N.Y., and Suffern, N.Y., serving all intermediate points: (a) From Albany over Interstate Highway 87 to Suffern, and return over the same route; and (b) from Albany over U.S. Highway 9 to junction New York Highway 199, thence over New York Highway 199 to junction Interstate Highway 87, thence over Interstate Highway 87, to Suffern and return over the same route; (24) between Claverack, N.Y., and Suffern, N.Y., serving all intermediate points.

From Claverack to Newburgh, as (7) above, thence over Interstate Highway 87 to Suffern, and return over the same route; and (25) between Claverack, N.Y., and New York, N.Y., serving all intermediate points: (a) From Claverack to Suffern as (24) above, thence over New York Highway 17 to the New York-New Jersey State line, thence over New Jersey Highway 17 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 95 thence over Interstate Highway 95 to New York, N.Y., and return over the same route; (b) from Claverack to New Jersey Highway 17 as (25)(a) above, thence over New Jersey Highway 17 to junction New Jersey Highway 4, thence over New Jersey Highway 4 to junction Interstate Highway 95, thence over Interstate Highway 95 to New York, N.Y., and return over the same route; (c) from Claverack to New Jersey Highway 17 as (25)(a) above, thence over New Jersey Highway 17 to junction U.S. Highway 3, thence over New Jersey Highway 3 to junction Interstate Highway 495, thence over Interstate Highway 495 to New York, N.Y., and return over the same route; (d) from Claverack to New Jersey Highway 17, as (25)(a) above, thence over New Jersey Highway 17 to junction U.S. Highway 46, thence over U.S. Highway 46 to junction Interstate Highway 95, thence over Interstate Highway 95 to junction Interstate Highway 495, thence over Interstate Highway 495 to New York, N.Y., and return over the same route; (e) from Claverack to U.S. Highway 46, as (25)(d) above, thence over U.S. Highway 46 to junction Interstate Highway 95, thence over Interstate Highway 95 to junction U.S. Highways 1 and 9, thence over U.S. Highways 1 and 9 to junction U.S. Highway 1, thence over U.S. Highway 1 to New York, N.Y., and return over the same route.

(f) From Claverack to New Jersey Highway 17 as (25)(a) above, thence over New Jersey Highway 17 to junction New Jersey Highway 7, thence over New Jersey Highway 7 to junction U.S. Highways 1 and 9, thence over U.S. Highways 1 and 9 to junction U.S. Highway 1, thence over U.S. Highway 1 to New York, N.Y., and return over the same route; (g) from Claverack to Suffern as (24) above, thence over Interstate Highway 87 to junction New York Highway 304, thence over New York Highway 304 to New York-New Jersey State line, thence over New Jersey Highway 503 to junction New Jersey Highway 4, thence over New Jersey Highway 4 to Interstate Highway 95, thence over Interstate Highway 95 to New York, N.Y., and return over the same route; (h) from Claverack to Suffern as (24) above, thence over Interstate Highway 87 to junction New York Highway 303, thence over New York Highway 303 to New York-New Jersey State line, thence over New Jersey Highway 505 junction to East Clinton Avenue, thence over East Clinton Avenue to junction New Jersey Highway 501, thence over New Jersey Highway 501 to junction New Jersey Highway 4, thence over New Jersey Highway 4 to junction Interstate Highway 95, thence over Interstate Highway 95 to New York, N.Y., and return over the same route; (i) from Claverack to Interstate Highway 95 as (25) (a, b, d, e, g, and h) above, thence over Interstate Highway 95 to junction Interstate Highway 278, thence over Interstate Highway 278 to New York, N.Y., and return over the same route; and (j) from Claverack to Suffern as (24) above, thence over Interstate Highway 87 to junction U.S. Highway 9W, thence over U.S. Highway 9W to Interstate Highway 95, thence over Interstate Highway 95 to New York, N.Y., and return over the same route.

NOTE.—Applicant presently holds the requested authority as an irregular route in MC-42212 Sub-Nos. 3 and 4, and seeks to convert this authority to regular route authority. If a hearing is deemed necessary, the applicant requests it be held at either New York, N.Y., or Washington, D.C.

No. MC 48958 (Sub-No. 118), filed February 15, 1974. Applicant: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver, Colo. 80216. Applicant's representative: Morris G. Cobb, P.O. Box 9050, 601 Ross Street, Amarillo, Tex. 79105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refined copper and commodities of unusual value*, between the plantsites and storage facilities of American Smelting and Refining Co., located at or near Amarillo, Tex., on the one hand, and, on the other, points in California, Arizona, New Mexico, Colorado, Wyoming, Nebraska, Kansas, Missouri, Iowa, Illinois, Indiana, Ohio, and Oklahoma.

NOTE.—Common control may be involved. Applicant states that the requested authority can be tacked with Sub-No. 102, at points in Arizona, to provide service between the facilities of American Smelting and Refining Co., on the one hand, and, on the other, points in Utah. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 48958 (Sub-No. 119), filed February 15, 1974. Applicant: ILLINOIS-CALIFORNIA EXPRESS, INC., 510 East 51st Avenue, Denver, Colo. 80216. Applicant's representative: Morris G. Cobb, P.O. Box 9050, 601 Ross Street, Amarillo, Tex. 79105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel and iron and steel articles*, from Chicago, Ill., and its Commercial Zone, to points in Colorado, Nebraska, Texas, and Wyoming.

NOTE.—Common control may be involved. Applicant states that the requested authority can be tacked at points in Colorado, to serve points in New Mexico, Utah, Arizona, and California, and at points in Nebraska to serve points in Kansas and Kansas City, Mo. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 364), filed February 6, 1974. Applicant: SCHNEIDER TRANSPORT, INC., 2661 S. Broadway, Green Bay Wis. 54304. Applicant's representative: D. F. Martin, P.O. Box 2298, Green Bay, Wis. 54304. Applicant's rep- to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs, including foodstuffs not for human consumption*, between Beaver Dam and Milwaukee, Wis., on the one hand, and, on the other, points in Washington, Oregon, Idaho, Montana, Wyoming, Colorado, Kansas, Nebraska, South Dakota, North Dakota, Minnesota, Iowa, Missouri, Illinois, Wisconsin, Indiana, Michigan, Kentucky, Ohio, Pennsylvania, New Jersey, Connecticut, Massachusetts, New York, Vermont, New Hampshire, Rhode Island, and Maine, restricted against the transportation of the above-named commodities in bulk, in tank vehicles, and further restricted to traffic originating at, or destined to, the plantsites and warehouse facilities of Wisconsin Cold Storage, Inc., at Beaver Dam and Milwaukee, Wis.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Washington, D.C., or Chicago, Ill.

V 39 61 MAR 28 74 XUM

No. MC 55778 (Sub-No. 20), filed February 5, 1974. Applicant: MOTOR DISPATCH, INC., 2559 South Archer Avenue, Chicago, Ill. 60608. Applicant's representative: Leonard R. Kofkin, 39 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Danville and Kankakee, Ill., points in Indiana, Michigan (on and south of a line beginning at Ludington, Mich., and extending along U.S. Highway 10 to junction Business Route U.S. Highway 10, thence along Business Route U.S. Highway 10 to Midland, Mich., thence along Michigan Highway 20 to Saginaw River to Saginaw, and thence along the Saginaw River to Saginaw Bay), and Ohio, on the one hand, and, on the other, the plant and warehouse facilities of the American Motors Corp., at or near Kenosha, Wis., and in Racine County, Wis.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 55896 (Sub-No. 44), filed January 30, 1974. Applicant: R–W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, Mich. 48180. Applicant's representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel;* and (2) *iron and steel articles*, (a) from the plantsites of Wheeling-Pittsburgh Steel Corporation, located at or near Benwood, Beech Bottom, Wheeling, and Follansbee, W. Va.; Allenport and Monessen, Pa., on the one hand, and, on the other, to points in Illinois, Indiana, Michigan, and Ohio; and (b) from the plantsites of Wheeling-Pittsburgh Steel, located at or near Steubenville, Yorkville, Martins Ferry, and Mingo Junction, Ohio, on the one hand, and, on the other, to points in Illinois and Indiana.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 59150 (Sub-No. 87), filed February 11, 1974. Applicant: PLOOF TRANSFER COMPANY, INC., 1901 Hill Street, Jacksonville, Fla. 32202. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Composition building board;* from the facilities of Johns-Manville Corp., at or near Woodstock, Va., to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo., Jacksonville, Fla., or Washington, D.C.

No. MC 59150 (Sub-No. 88), filed February 11, 1974. Applicant: PLOOF TRANSFER COMPANY, INC., 1901 Hill Street, P.O. Box 38047, Jacksonville, Fla. 32202. Applicant's representative: Martin Sack, Jr., 1754 Gulf Life Tower, Jacksonville, Fla. 32207. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from the plantsite and warehouse facilities of International Paper Company, in Georgetown County, S.C., to points in Alabama, Florida, Georgia, Kentucky, Louisiana, Mississippi, North Carolina, Tennessee, and Virginia.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla., Atlanta, Ga., or Washington, D.C.

No. MC 59570 (Sub-No. 38), filed January 23, 1974. Applicant: HECHT BROTHERS, INC., 2075 Lakewood Road, Toms River, N.J. 08753. Applicant's representative: James C. Werner (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Limestone, natural, ground, or pulversized*, from Perth Amboy, N.J., to points in Kentucky, Massachusetts, Virginia, and West Virginia; (2) *lumber and lumber products*, from Elizabeth, N.J., and its Commercial Zone, to points in Burlington, Mercer, Middlesex, Monmouth, and Ocean Counties, N.J.; and (3) *lumber and lumber products and roofing materials* (except in liquid in tank trucks), from Wilmington, Del., to points in Atlantic, Burlington, Mercer, Middlesex, Monmouth, and Ocean Counties, N.J., with the return of damaged or rejected material.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 67234 (Sub-No. 17), filed February 13, 1974. Applicant: GEORGIA-FLORIDA-ALABAMA TRANSPORTATION COMPANY, a Corporation, 1541 Reeves Street, Dothan, Ala. 36301. Applicant's representative: Maurice F. Bishop, 603 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except Class A and Class B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Evergreen, Ala., and Waynesboro, Miss.: From Evergreen, Ala., over U.S. Highway 84 to Waynesboro, Miss., and return over the same route.

NOTE.—Common control may be involved. Applicant presently holds the requested authority as an irregular route and seeks to convert this authority to regular route authority. If a hearing is deemed necessary, the applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 67234 (Sub-No. 17, filed February 15, 1974. Applicant: UNITED VAN LINES, INC., No. 1 United Drive, Fenton, Mo. 63026. Applicant's representative: A. Alvis Layne, 915 Pennsylvania Building, Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Commercial and institutional fixtures and laboratory equipment*, from Albuquerque, N. Mex., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Mississippi, Nebraska, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Ohio, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 73165 (Sub-No. 338), filed September 5, 1974. Applicant: EAGLE MOTOR LINES, INC., P.O. Box 11086, 830 North 33d Street, Birmingham, Ala. 35202. Applicant's representative: Joe W. Darden, 909–100 North Main Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Cast iron and brass valves, cast iron pressure pipe, fire hydrants and fire hydrant sections* and (2) *components, parts, attachments, accessories and* supplies used in connection with the commodities described in (1) above, from points in Marshall County, Ala., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority can be tacked with its existing authority at points in Marshall County, Ala., as follows: (a) In Sub-No. 180, on pipe, pipe connections, couplings, and fittings to provide a through service from Lone Star and Bond, Tex.; (b) in Sub-Nos. 183, 208, 216, 246, and 278 on iron and steel articles, to provide a through service from points in Brooke and Marshall Counties, W. Va.; points in Tennessee, Mississippi, Alabama, Pennsylvania, Maryland, and New York, and Tyler, Tex.; (c) in Sub-No. 186 to provide a through service from the plant site of Kentucky Electric Steel Co. in Boyd County, Ky.; (d) in Sub-No. 196, on pipe and pipe fittings to provide a through service from Swan Texas; and (e) in Sub-No. 276, on cast iron and bronze valves and components and cast iron fire hydrants to provide a through service from Birmingham, Ala., (a) through (e) to points in the United States (except Alaska and Hawaii). If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 74321 (Sub-No. 93), filed February 14, 1974. Applicant: B. F. WALKER, INC., P.O. Box 17–B, 1555 Tremont Place, Denver, Colo. 80217. Applicant's representative: Richard P. Kissinger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Refined copper, and materials and supplies* used in the manufacture and distribution of refined copper (except in bulk, in tank vehicles), between the plantsite and storage facilities of American Smelting and Refining Company, Inc., at or near Amarillo, Tex., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex., or Denver, Colo.

No. MC 76429 (Sub-No. 6), filed February 11, 1974. Applicant: WILLIAM A. STEWART, doing business as STEWART TRUCK LINE, P.O. Box 109, Dry Ridge, Ky. 41035. Applicant's representative: Phillip Tallaferro, Suite 400, General Savings Bldg., 1 W. Sixth St., Covington, Ky. 41011. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), (1) between Corinth, Ky., and Lexington, Ky.: From Corinth, Ky., over Kentucky Highway 330 to junction of Interstate Highway 75, thence over Interstate Highway 75 to Lexington, Ky., and return over the same route, serving no intermediate points, restricted against the handling of traffic originating at, destined to, or interchanged at, Cincinnati, Ohio, or points within its Commercial Zone; and (2) between Holbrook, Ky., and Owenton, Ky.: From Holbrook, Ky., over Kentucky Highway 22 to junction of U.S. Highway 227, thence over U.S. Highway 227 to Owenton, Ky., and return over the same route, serving all intermediate points.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Owenton, or Lexington, Ky.

No. MC 100666 (Sub-No. 270), filed February 11, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Bldg., 3535 NW. 58th, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic laminates*, from Verona, Miss., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Shreveport, La., or Jackson, Miss.

No. MC 100666 (Sub-No. 271), filed February 14, 1974. Applicant: MELTON TRUCK LINES, INC., P.O. Box 7666, Shreveport, La. 71107. Applicant's representative: Wilburn L. Williamson, 3535 NW. 58th, 280 National Foundation Life, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tile*, from San Antonio, Tex., to points in Alabama, Arkansas, Georgia, Kentucky, Louisiana, Mississippi, and Tennessee.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 102616 (Sub-No. 897), filed February 11, 1974. Applicant: COASTAL TANK LINES, INC., 215 East Waterloo Road, Akron, Ohio 44319. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Distillate fuel oils*, in bulk, in tank vehicles, from Vienna, Md., to the plantsites and facilities of Delaware Power & Light Company, at or near Tasley, Va., and Millsboro, Del.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Baltimore, Md., or Washington, D.C.

No. MC 105461 (Sub-No. 90), filed February 4, 1974. Applicant: HERR'S MOTOR EXPRESS, INC., P.O. Box 8, Quarryville, Pa. 17566. Applicant's representative: Robert R. Herr, 406 Quarry Place, Quarryville, Pa. 17566. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sheet metal products and accessories, equipment, and supplies*, used in the installation of sheet metal products, (1) between Columbus, Ohio, on the one hand, and, on the other, points in Pennsylvania, New York, New Jersey, Delaware, Maryland, Virginia, West Virginia, Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, and the District of Columbia; and (2) between Philadelphia, Pa., and points in Bucks County, Pa., on the one hand, and, on the other, points in Ohio and Virginia.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Philadelphia, Pa.

No. MC 107012 (Sub-No. 197), filed January 21, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Lincoln Highway and Meyer Road, Fort Wayne, Ind. 46801. Applicant's representative: Terry G. Fewell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New commercial and institutional fixtures and equipment*, from points in De Soto County., Miss., to points in Kentucky, Tennessee, South Carolina, North Carolina, Florida, Alabama, Georgia, and Louisiana.

NOTE.—Common control and dual operations may be involved. Applicant states that the requested authority can be tacked in Sub-No. 61, at points in Kentucky and Tennessee (except Hamblen County, Tenn.), to serve points in the United States including Alaska, but excluding Hawaii. If a hearing is deemed necessary, the applicant requests it be held at Memphis, Tenn., or Chicago, Ill.

No. MC 107012 (Sub-No. 198), filed February 11, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Lincoln Highway and Meyer Road, Fort Wayne, Ind. 46801. Applicant's representative: Terry G. Fewell (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *New furniture*, from Cuero, Tex., to points in Louisiana, Mississippi, Alabama, Georgia, South Carolina, Florida, Minnesota, Iowa, North Dakota, South Dakota, Kansas, Oklahoma, Montana, Wyoming, Colorado, New Mexico, Utah, and Arizona.

NOTE.—The portion of authority requested from Cuero, Tex., to points in Louisiana, Mississippi, Alabama, Georgia, South Carolina, and Florida, seeks removal of an Arkansas gateway. Common control and dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 107012 (Sub-No. 199), filed January 31, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P. O. Box 988, Lincoln Highway & Meyer Road, Fort Wayne, Ind. 46801. Applicant's representative: Michael L. Harvey (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Air coolers*, from the plant site and storage facilities of Western Auto Supply Co., located at Phoenix, Ariz., to points in Texas, New Mexico, Colorado, California, Nevada, Utah, and Oregon; (2) *damaged defective, rejected, and returned shipments of the above-named commodities*, from the above-specified destination points, to the above-named origin point, restricted to the transportation of traffic originating at the named origin facilities and destined to the destination territory.

NOTE.—Common control and dual operations were approved in MC–F–9464. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., or Chicago, Ill.

No. MC 107295 (Sub-No. 693), filed February 8, 1974. Applicant: PRE-FAB TRANSIT CO., a Corporation, 100 South Main Street, Farmer City, Ill. 61842. Applicant's representative: Dale L. Cox (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise*, as is dealt in by manufacturers and distributors of panels, paneling, shelving, mantels, and beams and related decorative items, from the plant site and warehouse facilities of Barclay Industries, Inc., located at or near Lodi, N.J., and Deer Park, N.Y., to points in Arizona, Arkansas, California, Colorado, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Tennessee,

V 39 61 MAR 28 74 XUM

Texas, Utah, Washington, Wisconsin, and Wyoming.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 107295 (Sub-No. 694), filed February 11, 1974. Applicant: PRE-FAB TRANSIT CO., 100 South Main Street, Farmer City, Ill. 61842. Applicant's representative: Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Metal buildings*, complete, knocked down, or in sections, *structural steel, metal panels, and accessories* from Warrenton, Mo., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority can be tacked at Warrenton, Mo., to provide a through service between points in the United States (except Alaska and Hawaii). If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 107295 (Sub-No. 695), filed February 14, 1974. Applicant: PRE-FAB TRANSIT CO., a Corporation, 100 South Main Street, Farmer City, Ill. 61842. Applicant's representative: Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Air distribution products*, to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Philadelphia, Pa.

No. MC 107295 (Sub-No. 699), filed February 14, 1974. Applicant: PRE-FAB TRANSIT CO., a Corporation, 100 South Main Street, Farmer City, Ill. 61842. Applicant's representative: Mack Stephenson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Building materials*, from Chicago, Chicago Heights, and Port Bryon, Ill., and Pottstown, Pa., to points in the United States (except Alaska and Hawaii).

NOTE.—Applicant states that the requested authority can be tacked at Chicago, Chicago Heights, and Port Bryon, Ill., and Pottstown, Pa., to provide service between points in the United States (except Alaska and Hawaii). If a hearing is deemed necessary, the applicant does not specify a location.

No. MC 107403 (Sub-No. 883), filed February 8, 1974. Applicant: MATLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: John Nelson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Syrup noibn*, in bulk, in tank vehicles, from Southdown, La., to Wheeling, W. Va.; (2) *nitrogen solutions*, in bulk, in tank vehicles, from the storage facilities of Skyline Terminals, Inc., at Baltimore, Md., to points in Delaware and Virginia; and (3) *commodities*, in bulk, in watercarrier supplied containers, (1) from New Orleans, La., to points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas (except (a) vegetable oil between points in Louisiana, and (b) alcohol and alcohol products, to points in Alabama, Arkansas, Florida, Georgia, Mississippi, and Tennessee); and (2) from points in Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas, to New Orleans, La., restricted to (1) traffic having a prior or subsequent movement by water in the authority sought in items (1) and (2) above, and is further restricted to traffic originating at or destined to the territory described herein; and (2) chemicals, between Baton Rouge, La., to New Orleans, La.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107496 (Sub-No. 937), filed February 8, 1974. Applicant: RUAN TRANSPORT CORPORATION, Third at Keosauqua Way, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Crude oil*, in bulk, from Clearbrook, Minn., to Superior and Saxon, Wis.; (2) *liquid resin*, from Burlington, Iowa, to Elizabethtown, Ky.; (3) *feed ingredients*, in bulk, from Weeping Water, Nebr., to points in California; (4) *refined soybean oil*, in bulk, in tank vehicles, from Belmond, Iowa, to points in Illinois; (5) *paint products*, in bulk, from Ft. Madison, Iowa, to points in Florida; (6) *petroleum products*, in bulk, in tank vehicles, from Havana, Ill., to points in Iowa; (7) *liquid feed and liquid feed supplements*, from the Cargill facilities located in Scott County, Iowa, to points in Indiana; and (8) *molasses*, in bulk, from Memphis, Tenn., to points in Arkansas and Mississippi.

NOTE.—Common control was approved in MC-F-9713 and is pending in MC-F-10042. Applicant states that the requested authority can be tacked with its existing authority: In Sub-No. 110 (1) at points in Nebraska to provide a through service to points in California, (a) on urea, from points in Iowa and Kansas; and (b) on molasses from points in Iowa, Kansas, Minnesota, Missouri, and South Dakota; (2) at Council Bluffs and Sioux City, Iowa, to serve points in Kansas and Nebraska; and (3) with the base certificate at Clear Lake, Iowa, to serve points in Minnesota on and south of Minnesota Highway 19. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Chicago, Ill.

No. MC 107515 (Sub-No. 892) (Amendment), filed January 31, 1974, published in the FR issue of March 14, 1974, and republished as amended this issue. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs* (except commodities in bulk, in tank vehicles) in vehicles equipped with mechanical refrigeration, from the plantsite and other facilities utilized by The Nestle Co., Inc., at or near Burlington, Wis., to points in the United States (except Alaska and Hawaii).

NOTE.—The purpose of this republication is to amend the applicant's territorial description. Common control may be involved. Dual operations may be involved also. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at (1) New York, N.Y.; (2) Atlanta, Ga.; or (3) Chicago, Ill.

No. MC 108065 (Sub-No. 2), filed February 8, 1974. Applicant: PATTERSON TRUCKING COMPANY, a Corporation, 1790 Dock Street, P.O. Box 13406, Memphis, Tenn. 38113. Applicant's representative: Louis I. Dailey, 2208 Sterick Building, Memphis, Tenn. 38103. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, serving the site of Holiday Industrial Park, located in De Soto County, Miss., as an off-route point in connection with carrier's regular route operations between Memphis, Tenn., and West Memphis, Ark.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Memphis, Tenn.

No. MC 110098 (Sub-No. 144), filed February 11, 1974. Applicant ZERO REFRIGERATED LINES, 1400 Ackerman Road, P.O. Box 20380, San Antonio, Tex. 78220. Applicant's representative: Donald L. Stern, 530 Univac Bldg., 7100 West Center Road, Ohama, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from Waterloo, Independence, and Vinton, Iowa, and Omaha, Nebr., to points in Missouri, Kansas, Oklahoma, Arkansas, and Texas, restricted to the transportation of traffic originating at the named origins, and destined to the points named above.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at San Antonio, Tex., or Omaha, Nebr.

No. MC 110420 (Sub-No. 704), filed September 7, 1974. Applicant: QUALITY CARRIERS, INC., P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: David A. Petersen (same address as applicant's). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Beverage bases, fruit emulsions, and fruit concentrates*, in bulk, in tank

vehicles, from points in the Chicago, Ill., Commercial Zone as defined by the Commission, to Inwood, W. Va.; Vincentown, N.J.; and Muskogee, Okla.; (2) *vinegar and vinegar stock, fermented, quick process and distilled vinegar, vinegar malt naphtha* (ethyl acetate), *salt* (calcium acetate), *vinegar acid* (acetic acid), and *vinegar wine*, in bulk, in tank and hopper-type vehicles, between Rogers, Ark.; Delta and Denver, Colo.; Chicago, Ill.; Hutchison and Wichita, Kans.; Bailey, Belding, and Fremont, Mich.; St. Paul, Minn.; Kansas City, Marionville, and Nixa, Mo.; Lyndonville and North Rose, N.Y.; Charlotte, N.C.; Oklahoma City, Okla.; Memphis, Tenn.; Dallas, Paris, and Houston, Tex.; Wenatchee and Yakima, Wash., and points in their respective Commercial Zones, restricted against the transportation of traffic wholly within one state; and (3) *sodium citrate* dry, in bulk, from Zeeland, Mich., to St. Louis, Mo.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 110563 (Sub-No. 126), filed January 21, 1974. Applicant: COLDWAY FOOD EXPRESS, INC., P.O. Box 747, Ohio Building, Sidney, Ohio 45365. Applicant's representative: John L. Maurer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsites and warehouse facilities utilized by The Miami Margarine Co. located at or near Cincinnati, Ohio, to points in Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, and Virginia, restricted to traffic originating at the above-named origin.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Cincinnati or Columbus, Ohio.

No. MC 111625 (Sub-No. 19), filed February 11, 1974. Applicant: BERMAN'S MOTOR EXPRESS, INC., IRS-Successor-In-Interest, P.O. Box 1566, Binghamton, N.Y. 13902. Applicant's representative: Norman Weiss, 2 West 45th Street, New York, N.Y. 10036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: (1) *Toilet preparations* and *candles*, and *materials and supplies* used in the manufacture of toilet preparations and candles (except in bulk), serving Binghamton, N.Y., as an off-route point; (2) *wines* and *related advertising materials*, and *materials and supplies* used in the manufacture of wines (except commodities in bulk), serving Hammondsport, N.Y., as an off-route point; (3) *ladders, scaffolds, planking, and footwalks*, and *materials and supplies* used in the manufacture thereof (except commodities in bulk), serving Bath and Newark Valley, N.Y., as off-route points; (4) *lift trucks* and *parts therefor*, and *materials and supplies* used in the manufacture of lift trucks and parts therefor (except commodities in bulk), serving Greene and Endwell, N.Y., as off-route points; (5) *drugs, medicines, pharmaceuticals, toilet preparations and related advertising materials*, and *materials and supplies* used in the manufacture of drugs, medicines, pharmaceuticals, toilet preparations (except commodities in bulk), serving Norwich, N.Y., as an off-route point; (6) *furniture* and *materials and supplies* used in the manufacture of furniture (except commodities in bulk), serving Berkshire, N.Y., as an off-route point; and (7) *pillow blocks and railway journals*, and *materials and supplies* used in the manufacture thereof (except commodities in bulk), serving Hornell, N.Y., as an off-route point, (1) through (7) in connection with carrier's presently authorized regular route operations between Elmira, N.Y., and Pittsburgh, Pa.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Binghamton, N.Y.

No. MC 111729 (Sub-No. 418), filed February 1, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success, N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Laboratory, biological and medical samples, blood specimens, blood derivatives, human blood drawing materials, human tissue, urine specimens, serum specimens, and other clinical laboratory specimens, test tubes and containers therefor; business papers, records, audit and accounting media related thereto*, (a) between Columbus, Ohio, on the one hand, and, on the other, points in Ohio County, W. Va., and points in Pennsylvania; (b) between Birmingham, Ala., on the one hand, and, on the other, points in Florida, Georgia, Tennessee, and Texas, restricted to traffic having an immediately prior or subsequent movement by air or motor vehicle; (c) between Grand Rapids, Mich., on the one hand, and, on the other, points in Illinois, Indiana, and Ohio; and (d) from points in Indiana to St. Louis, Mo.; (2) *business papers, records, audit, and accounting media* of all kinds, *and advertising materials*, (a) between Chicago, Ill., on the one hand, and, on the other, points in Indiana, on or south of U.S. Highway 40; (b) between Keyport, N.J., on the one hand, and, on the other, Tullytown, Pa., and Hicksville, N.Y.; (c) between Lanham, Md., and Baltimore, Md.; and (d) between points in Georgia, restricted in Items (2) (c) and (d) above, to traffic having an immediately prior or subsequent movement by air.

(3) *Automotive parts and supplies*, restricted against the transportation of packages or articles weighing in the aggregate more than 100 pounds, from one consignor to one consignee on any one day, (a) between Cincinnati, Ohio, on the one hand, and, on the other, points in Indiana, Tennessee, and West Virginia; (b) between Lanham and Baltimore, Md.; (c) between points in Florida; (d) between points in Georgia; (e) between points in North Carolina; and (f) between points in South Carolina, restricted in items (3) (b) through (3) (f) above, to traffic having an immediately prior or subsequent movement by air; and (4) *proofs, cuts, copy, manuscripts, artwork, negatives, positives, printed matter, small office machine parts*, restricted against the transportation of packages or articles weighing in the aggregate more than 100 pounds from one consignor to one consignee on any one day, *and business papers, records, audit and accounting media, and advertising materials*, between Warsaw, Ind., and Detroit, Mich.

NOTE.—Common control and dual operations may be involved. Applicant states that the requested authority can be tacked with (1) (a), in Sub-No. 79, at Columbus, Ohio, to provide service between Fort Wayne and Indianapolis, Ind., and Louisville, Ky., on the one hand, and, on the other, points in Ohio County, W. Va., and points in Pennsylvania, in Sub-No. 338, at King of Prussia, Pa., and Johnstown, Pa., in Sub-No. 345, to provide service between Columbus, Ohio, on the one hand, and, on the other, 12 specified points in New Jersey and New York, N.Y. (Sub-No. 338), and points in Maryland, West Virginia, and the District of Columbia (Sub-No. 345); with (1) (b), at points in Georgia, to provide service between Birmingham, Ala., on the one hand, and, on the other, Anderson, S.C., in Sub-Nos. 306 and 339, and at points in 27 specified counties in Tennessee, to provide service between Birmingham, Ala., on the one hand, and, on the other, Roanoke, Va., and Anderson, S.C., in Sub-Nos. 272 and 306.

With (1) (c), at specified points in Indiana, to provide service between Grand Rapids, Mich., on the one hand, and, on the other, Louisville, Ky., in Sub-Nos. 79 and 115, and St. Louis, Mo., in Sub-No. 285, and at specified points in Ohio, to provide service between Grand Rapids, Mich., on the one hand, and, on the other, Louisville, Ky., and Huntington, W. Va., in Sub-No. 79, and Johnstown, Pa., in Sub-No. 345; with (1) (d), at specified points in Indiana, to provide service between St. Louis, Mo., on the one hand, and, on the other, Louisville, Ky., points in Ohio and Michigan, and Chicago, Ill., in Sub-Nos. 79, 115, and 217; with (2) (a), at Chicago, Ill., to provide a service between points in Indiana, on or south of U.S. Route 40, on the one hand, and, on the other, points in Wisconsin in Sub-No. 180, points in 12 named counties in Michigan in Sub-No. 185, Dubuque, Iowa, in Sub-No. 205, eight named points in Michigan in Sub-No. 292, and Cedar Rapids, Iowa, in Sub-No. 338, and at points in Indiana on or south of U.S. Route 40, to provide a service between Chicago, Ill., on the one hand, and, on the other, Cincinnati, Ohio, in Sub-No. 300, St. Louis, Mo., in Sub-Nos. 137 and 228, Louisville, Ky., in Sub-Nos. 152 and 188, Dayton, Ohio, in Sub-No. 172, Celina, and Delaware, Ohio, in Sub-No. 266, Columbus, Ohio, in Sub-No. 302, Sandusky, Ohio, in Sub-No. 272, Owensboro and Hopkinsville, Ky., in Sub-No. 292 and 12 named points in Kentucky in Sub-No. 336.

V 39 61 MAR 28 74 XUM

With (2)(b), at Keyport, N.J., to provide service between Tullytown, Pa., and Hicksville, N.Y., on the one hand, and, on the other, Boston, Mass., in Sub-No. 110, points in Middlesex County, Mass., in Sub-No. 247, and points in Delaware County, Pa., in Sub-No. 262, at Tullytown, Pa., to provide service between Keyport, N.J., on the one hand, and, on the other, Clifton, N.J., in Sub-No. 168, Dayton, Ohio, in Sub-No. 172, Celina and Delaware, Ohio, in Sub-No. 266, points in Baltimore County, Md., in Sub-No. 290, and Columbus, Ohio, in Sub-No. 302, at Hicksville, N.Y., to provide service between Keyport, N.J., on the one hand, and, on the other, Cleveland, Ohio, in Sub-No. 164, Hartford, Conn., and Clifton, N.J., in Sub-No. 168, Providence, R.I., in Sub-No. 205, points in Middlesex County, Mass., in Sub-No. 247, points in Hillsboro County, N.H., in Sub-No. 255, Carlstadt, N.J., in Sub-No. 258, points in New Haven County, Conn., in Sub-No. 266, Philadelphia, Pa., in Sub-No. 270, points in Litchfield County, Conn., in Sub-No. 282, Celina, Ohio, in Sub-No. 288, Salem, Mass., in Sub-No. 295, Columbus, Ohio, in Sub-No. 302, and Atlantic City and Pennsauken, N.J., and Levittown, Pa., in Sub-No. 367.

With (2)(c), at Baltimore, Md., to provide service between Lanham, Md., on the one hand, and, on the other, New York, N.Y., and points in Arlington County, Va., in Sub-No. 53, Philadelphia, Pa., in Sub-Nos. 151, 178 and 204, points in Middlesex County, N.J., and Lancaster, Pa., in Sub-No. 164, points in 5 named counties in Virginia and 6 named counties in Pennsylvania in Sub-No. 178, Washington, D.C., and Wilmington, Del., in Sub-No. 204, points in New Haven County, Conn., in Sub-No. 266, points in Dauphin, Bucks, and Blair Counties, Pa., in Sub-No. 290, and Valley Forge, Pa., in Sub-No. 332; with (2)(d) at points in Georgia, to provide service between points in Georgia, on the one hand, and, on the other, points in Alabama in Sub-Nos. 187, 222 and 223, Chattanooga, Tenn., in Sub-No. 222, points in Duval County, Fla., and Davidson County, Tenn., in Sub-No. 255, points in Tennessee on and east of the Tennessee River in Sub-No. 282, points in North Carolina and South Carolina in Sub-No. 292, and Quantico, Va., in Sub-No. 341; with (3)(a), at Cincinnati, Ohio, to provide a through service between points in Indiana, Tennessee, and West Virginia, on the one hand, and, on the other, points in Kentucky in Sub-No. 146; with (3)(b), at Baltimore, Md., to provide a service between Lanham, Md., on the one hand, and, on the other, Valley Forge, Pa., in Sub-No. 332; and with (4), at Detroit, Mich., to provide a service between Warsaw, Ind., on the one hand, and, on the other, Cumberland, Md., in Sub-No. 262 transporting of proofs, copy, manuscripts, and printed matter related thereto. If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 114273 (Sub-No. 164), filed February 11, 1974. Applicant: CEDAR RAPIDS STEEL TRANSPORTATION, INC., P.O. Box 68, Cedar Rapids, Iowa 52406. Applicant's representative: Robert E. Konchar, Suite 315, Commerce Exchange Building, 2720 First Avenue NE., P.O. Box 1943, Cedar Rapids, Iowa 52406. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, from Omaha, Nebr., to points in Missouri, Illinois, Wisconsin, Indiana, Ohio, and Michigan.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 114533 (Sub-No. 292), filed February 14, 1974. Applicant: BANKERS DISPATCH CORPORATION, 4970 South Archer Avenue, Chicago, Ill. 60632. Applicant's representative: Warren W. Wallin, 330 S. Jefferson St., Chicago, Ill. 60606. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Laboratory specimens and reports*, between Omaha, Nebr., on the one hand, and, on the other, Wichita and Shawnee Mission, Kans.

NOTE.—Applicant holds contract carrier authority in MC 128616 and subs thereunder, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr., or Kanssas City, Mo.

No. MC 114632 (Sub-No. 69), filed February 8, 1974. Applicant: APPLE LINES, INC., 212 Southwest Second, P.O. Box 507, Madison, S. Dak. 57042. Applicant's representative: Andrew Clark, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Building materials and cement pipe containing asbestos fiber*, from the plantsite and warehouse facilities of Johns-Manville Products Corp., at Waukegan, Ill., to points in Colorado, Iowa, Minnesota, Nebraska, North Dakota, South Dakota, and Wyoming; and (2) *building materials*, from the plantsite of Johns-Manville Perlite Corp., at or near Joliet, Ill., to points in Iowa, Minnesota, Nebraska, North Dakota, and South Dakota.

NOTE.—Applicant holds contract carrier authority in MC 129706, therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 114725 (Sub-No. 58), filed February 8, 1974. Applicant: WYNNE TRANSPORT SERVICE, INC., 2606 North 11th Street, Omaha, Nebr. 68110. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincolrf, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank vehicles, (1) from Doniphan, Nebr., and Kansas City, Mo., to points in Kansas; and (2) from Kansas City, Mo., and Kansas City, Kans., to points in Nebraska.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 115331 (Sub-No. 360), filed February 11, 1974. Applicant: TRUCK TRANSPORT, INCORPORATED, 29 Clayton Hills Lane, St. Louis, Mo. 63131. Applicant's representative: J. R. Ferris, 230 St. Clair Avenue, East St. Louis, Ill. 62201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank vehicles, (1) from Breese, Valmeyer, and West York, Ill., to points in Indiana, Kentucky, and Missouri, and (2) from Dublin and Jordan, Ind., to points in Illinois, Kentucky, Michigan, and Ohio.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority as follows: With the base certificate; on (1) above at Selma, Mo., to serve points in Illinois, Tennessee, Iowa, Oklahoma, Kansas, and Arkansas and on (2) above at Marseilles, Ill., to serve points in Iowa, Minnesota, Missouri, Ohio, Wisconsin, and Indiana; in Sub-No. 95 on (2) above at plant site of Foster Grant Co. located at Peru, Ill., to serve points in Indiana, Wisconsin, Minnesota, and Iowa; in Sub-No. 115 on (2) above at the plant site of Apple River Chemical Co. located at East Dubuque, Ill., to serve points in Indiana, Iowa, Kansas, Missouri, Nebraska, South Dakota, Minnesota, and Wisconsin, in Sub-No. 144 on (1) above at Selma, Mo., to serve in Michigan, Minnesota, Nebraska, South Dakota, and Wisconsin; in Sub-No. 151, on (1) above at the plant site and facilities of Chevron Chemical Co. located at Sugar Creek, Mo., to serve points in Kansas, Iowa, Nebraska, and Illinois; in Sub-No. 162 on (2) above at Cairo, Ill., to serve points in Arkansas, Missouri, Tennessee, and Indiana; and in Sub-No. 242 on (1) above at points in Clark County, Mo., to serve points in Illinois, Iowa, and Indiana. If a hearing is deemed necessary, applicant requests it be held at St. Louis or Kansas City, Mo.

No. MC 115691 (Sub-No. 26), filed February 1, 1974. Applicant: MURPHY TRANSPORTATION, INC., 1414 Crawford Avenue, P.O. Drawer 1090, Anniston, Ala. 36201. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Treated and untreated lumber;* and (2) *treated and untreated posts*, from Haleyville, Ala., to points in Louisiana, Mississippi, Georgia, Florida, Tennessee, Illinois, Indiana, Ohio, Kentucky, Pennsylvania, West Virginia, New York, Wisconsin, Iowa, Minnesota, and the lower peninsula of Michigan.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Birmingham, Ala.

No. MC 115691 (Sub-No. 27), filed February 1, 1974. Applicant: MURPHY TRANSPORTATION, INC., 1414 Crawford Avenue, Anniston, Ala. 36201. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood and plywood paneling*, from the plant site, warehouse, and storage facilities of Plywood Panels, Inc., at or near New Orleans, La., to points in Alabama, Florida, Georgia, Mississippi, and Tennessee.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at New Orleans, La.

No. MC 116273 (Sub-No. 170), filed February 12, 1974. Applicant: D & L TRANSPORT, INC., 3800 South Laramie Avenue, Cicero, Ill. 60650. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Spent or waste chemicals and petroleum products*, liquid, in bulk, in tank vehicles, from points in Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and Wisconsin, to Chicago, Ill., and (2) *recycled chemicals and petroleum products*, liquid, in bulk, *in tank vehicles*, from Chicago, Ill., to points in Indiana, Iowa, Kentucky, Michigan, Missouri, Ohio, and Wisconsin, restricted to traffic originating at the origin territory and destined to the destination territory.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requesta it be held at Chicago, Ill.

No. MC 116273 (Sub-No. 171), filed February 15, 1974. Applicant: D & L TRANSPORT, INC., 3800 South Laramie Avenue, Cicero, Ill. 60650. Applicant's representative: Charles T. Jensen (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Corn products and blends thereof*, in bulk, in tank vehicles, having a prior movement by rail, from Detroit, Mich., to points in Ohio and Indiana.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority at Hammond, Ind., to serve points in Illinois, Iowa, Michigan, Minnesota, Missouri, and Wisconsin. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 117119 (Sub-No. 496), filed February 7, 1974. Applicant: WILLIS SHAW FROZEN EXPRESS, INC., P.O. Box 188, Elm Springs, Ark. 72728. Applicant's representative: L. M. McLean (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from the plantsite and warehouse facilities of Western Potato Service, Inc., at Grand Forks, N. Dak., to points in Alabama, Arizona, Arkansas, California, Colorado, Delaware, Florida, Georgia, Idaho, Indiana, Kansas, Kentucky, Louisiana, Mississippi, Missouri, Montana, Nebraska, Nevada, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, Washington, West Virginia, Wyoming, and the District of Columbia, restricted to traffic originating at the named plantsite and warehouse facilities, and destined to the points named above.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., or Omaha, Nebr.

No. MC 117815 (Sub-No. 227), filed February 5, 1974. Applicant: PULLEY FREIGHT LINES, INC., 405 SE 20th Street, Des Moines, Iowa 50317. Applicant's representative: Larry D. Knox, 9th Floor, Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, from Albert Lea, Minn., to points in Iowa, Nebraska, Missouri, Kansas, Illinois, Michigan, and Indiana, restricted to shipments originating at the named origin, and destined to the points named above.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Omaha, Nebr.

No. MC 118060 (Sub-No. 5), filed February 5, 1974. Applicant: CAPITOL PACKING CO., a Corporation, 1050 Yuma Street, Denver, Colo. 80204. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, and meat byproducts, and articles distributed by meat packinghouses* (except commodities in bulk) *and materials, supplies, and equipment* used in the processing and distribution of the commodities named above, (a) between Denver, Colo., on the one hand, and, on the other, points in Connecticut, Pennsylvania, New York, Maryland, New Hampshire, Massachusetts, New Jersey, and the District of Columbia; (b) between Sterling, Colo., on the one hand, and, on the other, points in Connecticut, Pennsylvania, New York, Maryland, New Hampshire, Massachusetts, New Jersey, and the District of Columbia; (c) between Greeley, Colo., on the one hand, and, on the other, points in Connecticut, Pennsylvania, New York, Maryland, New Hampshire, Massachusetts, New Jersey, and the District of Columbia; and (d) between Denver and Fort Morgan, Colo.; Fremont, Millard, Nebraska City, and Omaha, Nebr.; and Council Bluffs and Oakland, Iowa, on the one hand, and, on the other, points in Connecticut, Pennsylvania, New York, Maryland, New Hampshire, Massachusetts, New Jersey, and the District of Columbia.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 118457 (Sub-No. 11), filed February 6, 1974. Applicant: ROBBINS DISTRIBUTING COMPANY, INC., W. 145 S. 6550 Tess Corners Drive, Muskego, Wis. 53150. Applicant's representative: Allan B. Torhorst, 217 E. Jefferson St., Burlington, Wis. 53105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs, including frozen foodstuffs not for human consumption* (except commodities in bulk), between Beaver Dam and Milwaukee, Wis., on the one hand, and, on the other, points in Idaho, North Dakota, South Dakota, Nebraska, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Ohio, Pennsylvania, New York, and Maine, restricted to traffic originating at or destined to the facilities of Wis. Cold Storage, Inc.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 119089 (Sub-No. 4), filed February 6, 1974. Applicant: WISCONSIN REFRIGERATED SERVICES, INC., 11400 W. Burleigh Street, Milwaukee, Wis. 53222. Applicant's representative: Nancy J. Johnson, 4506 Regent Street, Suite 100, Madison, Wis. 53705. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs, including frozen foodstuffs not for human consumption*, between Beaver Dam and Milwaukee, Wis., on the one hand, and, on the other, points in Washington, Oregon, Idaho, Montana, Wyoming, Colorado, Kansas, Nebraska, South Dakota, North Dakota, Minnesota, Iowa, Missouri, Illinois, New Jersey, Connecticut, Massachusetts, New York, Vermont, New Hampshire, Rhode Island, Maine, Wisconsin, Indiana, Michigan, Kentucky, Ohio, and Pennsylvania, under contract with Wisconsin Cold Storage Company, at Milwaukee, Wis., restricted against transportation of the above-named commodities in bulk, in tank vehicles; and further restricted to traffic originating at, or destined to, the plantsites and warehouse facilities of Wisconsin Cold Storage Company, at Beaver Dam and Milwaukee, Wis.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 119767 (Sub-No. 309), filed February 6, 1974. Applicant: BEAVER TRANSPORT CO., a Corporation, P.O. Box 186, Pleasant Prairie, Wis. 53158. Applicant's representative: David A. Petersen (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs, including frozen foodstuffs not for human consumption*, between Beaver Dam and Milwaukee, Wis., on the one hand, and, on the other, points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Pennsylvania, South Dakota, and Wisconsin.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 123499 (Sub-No. 1), filed January 7, 1974. Applicant: LOWELL L.

V 39 61 MAR 28 74 XUM

TREFFERT, INC., P.O. Box 123, Franksville, Wis. 53126. Applicant's representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, Wis. 53203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fermented malt beverages*, from Columbus, Ohio, to Racine and Burlington, Wis., and (2) *fermented malt beverage containers*, from Racine and Burlington, Wis., to Columbus, Ohio.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Milwaukee or Racine, Wis.

No. MC 125023 (Sub-No. 22), filed February 12, 1974. Applicant: SIGMA-4 EXPRESS, INC., P.O. Box 9117, Erie, Pa. 16504. Applicant's representative: Paul F. Sullivan, 711 Washington Bldg., Washington, D.C. 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages*, in containers, *and related advertising material*, moving therewith, (1) from Baltimore, Md., to Erie, Pa.; (2) from Baltimore, Md., and Rochester, N.Y., to North Versailles, Pa., and (3) *empty malt beverage containers*, on return movements in (1) and (2) above.

NOTE.—Applicant states that the requested authority can be tacked at North Versailles (Pittsburgh Commercial Zone), Pa., to serve points in Illinois, Indiana, and Michigan. If a hearing is deemed necessary, applicant requests it be held at Pittsburgh, Pa.

MC 125522 (Sub-No. 6), filed October 29, 1973, published in the FR issue of December 13, 1973, republished in the FR issue of January 17, 1974, and in the third publication, as amended this issue. Applicant: GEORGE W. KUGLER, 2800 East Waterloo Road, Akron, Ohio 44312. Applicant's representative: John P. McMahon, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Clay products*, from Pottstown, Pa., to points in that part of Connecticut, Delaware, Maryland, Massachusetts, New Jersey, New York, Ohio, Rhode Island, Virginia, and the District of Columbia within 300 miles of Pottstown, Pa.; (2) *rejected* or *damaged shipments of clay products, and materials and supplies* used in the manufacture of clay products, from points in the above specified destination territory, to Pottstown, Pa.; (3) *clay products*, (a) from Clearfield, Pa., to points in Delaware, Maryland, New York, New Jersey, Virginia, West Virginia, and the District of Columbia; and (b) from Pottstown, Pa., to points in West Virginia; (4) *rejected and unused clay products, and materials* and supplies used in the manufacture of clay products, (a) from points in Delaware, Maryland, New York, New Jersey, Virginia, West Virginia, and the District of Columbia, to Clearfield, Pa., and (b) from points in West Virginia, to Pottstown, Pa.; (5) *clay products:* (a) From Pottstown, Pa., to points in Connecticut, Maryland, Massachusetts, New York, Ohio, Rhode Island, Virginia, Maine, New Hampshire, and Vermont (except points in that part of Connecticut, Maryland, Massachusetts, New York, Ohio, Rhode Island, and Virginia within 300 miles of Pottstown), and (b) from the site of the plant of the Clow Corporation at Clearfield, Pa., to points in Connecticut, Maine, Massachusetts, New Hampshire, Ohio, Rhode Island, and Vermont.

(6) *Clay products*, from Pottstown and Clearfield, Pa., to points in Illinois, Indiana, Michigan, North Carolina, South Carolina, Tennessee, and Wisconsin, (7) *returned clay products* and *materials and supplies* used in the manufacture of clay products, (a) from points in Connecticut, Delaware, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, Wisconsin, and the District of Columbia, to Pottstown, Pa., and (b) from points in Connecticut, Illinois, Indiana, Maine, Massachusetts, Michigan, New Hampshire, North Carolina, Ohio, Rhode Island, South Carolina, Tennessee, Vermont, and Wisconsin, to Clearfield, Pa., (8) *clay products*, (a) from Mogadore, Ohio, to points in Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin; (b) from Parral, Ohio, to points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (c) from Strasburg, Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia.

(9) *Returned clay products* and *materials and supplies* used in the manufacture of clay products, (a) from points in Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, and Wisconsin, to Mogadore, Ohio; (b) From points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maryland, Michigan, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, West Virginia, Wisconsin, and the District of Columbia, to Parral, Ohio; and (c) from points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin, and the District of Columbia, to Strasburg, Ohio, (a), (b), and (c) restricted against the transportation of the above-specified commodities in bulk; (10) *clay products*, (a) from the site of the United States Concrete Pipe Company plant at Mogadore, Ohio, and the site of the Clow Corporation plants at Midvale and Parral, Ohio, to points in Maine, Vermont, New Hampshire, Connecticut, Rhode Island, and Massachusetts; and (b) from the site of the United States Concrete Pipe Company plant, at Mogadore, Ohio, to points in New Jersey, Delaware, and the District of Columbia; (11) *empty containers, pallets, returned clay products*, and *materials and supplies* used in the manufacture of clay products, from their respective destination points to the plantsites and facilities of United States Concrete Pipe Company at Mogadore, Ohio, and the plantsites and facilities of Clow Corporation at Midvale and Parral, Ohio.

(12) *Refractory materials, refractory products*, and *materials* used in the installation of refractory materials and refractory products, (a) from the plantsite of Clow Corporation, at Clearfield, Pa., to points in Connecticut, Ohio, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, (b) from the plant site of the United States Concrete Pipe Company at Mogadore, Ohio, and the plant site of Clow Corporation, at Parral, Ohio, to points in Connecticut, Rhode Island, Massachusetts, New Hampshire, Maine, and Vermont, (c) from the plant site of the United States Concrete Pipe Company at Mogadore, Ohio, to points in Delaware, New Jersey, and the District of Columbia, (d) from the plantsites and facilities of Clow Corporation at Pottstown, Pa., to points in Connecticut, Delaware, Maine, Massachusetts, Maryland, New Hampshire, New Jersey, New York, Ohio, Rhode Island, Virginia, Vermont, and the District of Columbia, and (e) from the plantsites and facilities of Harbison-Walker Refractories Co., at Clearfield, Pa., to points in Delaware, Maryland, New York, New Jersey, Virginia, West Virginia, and the District of Columbia; (13) *refractory materials, refractory products and materials* used in the installation of refractory materials and refractory products which had a prior origination at Clearfield, and Pottstown, Pa., and Mogadore and Parral, Ohio, from points in Connecticut, Delaware, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Ohio, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia to the plantsites and facilities of Harbison-Walker Refractories Co. at Clearfield, Pa., and the plantsites and facilities of Clow Corporation at Clearfield, and Pottstown, Pa., and Parral, Ohio, and the plantsite and facilities of United States Concrete Pipe Company at Mogadore, Ohio.

(14) *Fibre pipe* and *attachments, parts, and fittings* therefor, (a) from Berlin, N.H., to points in Delaware, Maine, Maryland, New Jersey, New York, North Carolina, Tennessee, and Virginia, restricted to shipments originated by Clow Corporation, and (b) from points

in Lumberton Township, N.J., to points in Delaware, Kentucky, Maine, New York, North Carolina, Tennessee, Vermont, and Pennsylvania, restricted to shipments originated by Clow Corporation; (15) *manhole covers, gratings, castings*, and *attachments, parts, and fittings* therefor, from Brillion, Wis., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia and the District of Columbia, restricted to shipments originated by Clow Corporation; (16) *plastic pipe* and *attachments, parts and fittings* therefor, from Kenilworth, N.J., to points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Michigan, Minnesota, Missouri, New York, North Carolina, Ohio, Pennsylvania, Tennessee, Vermont, and Wisconsin, restricted to shipments originated by Clow Corporation; (17) *cast iron pipe and attachments, parts and fittings* therefor, from Williamstown, N.J., to points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Michigan, Minnesota, Missouri, New Hampshire, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, Tennessee, Vermont, and Wisconsin, restricted to shipments originated by Clow Corporation.

(18) *Fibre pipe, plastic pipe, cast iron pipe, manhole covers, gratings*, and *castings, and attachments, parts, and fittings* therefor, (a) from the plant sites and warehouses of Clow Corporation at Pottstown, Pa., to points in Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Michigan, Minnesota, Missouri, New York, North Carolina, Ohio, Rhode Island, Tennessee, Vermont, Wisconsin, and the District of Columbia, and (b) from the plant sites and warehouses of United States Concrete Pipe Company at Mogadore, Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, North Carolina, Pennsylvania, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; (19) *returned shipments* of the commodities specified in paragraphs 14 through 18 above, from the specified destination points, to their respective origin points; (20) *equipment, materials, and supplies* (except liquid commodities in bulk, in tank vehicles) used in the manufacture, packaging, and sale of clay and concrete products, from Oakdale and Croydon, Pa., Relay, Md., and Portage, Mich., to plantsites and facilities of United States Concrete Pipe Company at Ancor, Diamond, and Uhrichsville, Ohio; (21) *polyvinyl chloride* (except in bulk), from East Providence, R.I., to the plantsites and facilities of United States Concrete Pipe Company at Uhrichsville, Ohio, (22) *manhole covers, gratings, and castings*, and *attachments, parts, and fittings* therefor, from Neenah, Wis., to points in Ohio and Indiana, restricted to shipments originated by United States Concrete Pipe Company; (23) *sewer pipe*, other than iron and steel, and *attachments, parts, and fittings* therefor, from the plantsites and facilities of United States Concrete Pipe Company at Mogadore, Ohio, to Fort Lauderdale and Ocala, Fla.;

(36) *Sprinkler systems and parts and accessories* therefor, and *tools, materials, equipment, and supplies* (except commodities in bulk), used in the sale, packaging, distribution, installation, and repair of such systems, parts, and accessories, from the plantsite and facilities of Automatic Sprinkler Corporation of America at Monroe, Ind., to points in Colorado, Connecticut, Delaware, Illinois, Iowa, Kansas, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Dakota, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; (37) *tools, equipment, materials, and supplies* (except commodities in bulk) used in the manufacture, sale, packaging, distribution, installation, and repair of sprinkler systems and *parts and accessories* therefor, including returned shipments of such systems, parts, and accessories, from the destination points named in (36) above to the plantsite and facilities of Automatic Sprinkler Corporation of America at Monroe, Ind.; (38) *iron and steel conduit and metallic tubing, and fittings* for such commodities (except pipe used in, or in connection with, the construction, operation, maintenance, servicing, or dismantling of pipelines), (a) from the plantsite and facilities of Jones & Laughlin Steel Corporation at New Kensington, Pa., to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia, (b) from the plantsite and facilities of Jones & Laughlin Steel Corporation at Niles, Ohio, to points in Connecticut, Delaware, Illinois, Indiana, Iowa, Kentucky, Maine, Maryland, Massachusetts, Michigan, Minnesota, Missouri, New Hampshire, New Jersey, New York, Rhode Island, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, Pennsylvania, and the District of Columbia.

(39) *Clay and refractory materials and products, and materials and supplies* used in the installation thereof (except commodities in bulk), from the plantsites and facilities of Clow Corporation at Carol Stream and Streator, Ill., to points in Connecticut, Indiana, Iowa, Maine, Maryland, Massachusetts, Michigan, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, West Virginia, Wisconsin, and the District of Columbia; (40) *cast iron, pipe, cast iron fittings, and parts, valves, machinery and fire hydrants*, from Florence, N.J., to Charleston, W. Va., Norfolk, Va., Providence and Newport, R.I., Boston, Worcester, Springfield, and Salem, Mass., and points in New York, Pennsylvania, Delaware, Maryland, and Connecticut; (41) *damaged or returnable cast iron pipe, cast iron fittings and parts, valves, machinery, and fire hydrants*, from Charleston, W. Va., Norfolk, Va., Providence and Newport, R.I.; Boston, Worcester, Springfield, and Salem, Mass.; and points in New York, Pennsylvania, Delaware, Maryland, and Connecticut, to Florence, N.J.; (42) *cast iron pipe, cast iron fittings, valves, hydraulic machinery and hydraulic machinery parts and fire hydrants*, from Florence, N.J., to points in Massachusetts (except Boston, Worcester, Springfield, and Salem, Mass.), and points in Rhode Island (except Providence and Newport, R.I.); (43) *concrete pipe*, from Dover, South Kearny, Little Ferry, and Kenilworth, N.J., to New York, and points in Westchester and Nassau Counties, N.Y., on return except as otherwise authorized.

(44) *Cast iron pipe and cast iron fittings, parts, and valves*, from the plantsites and facilities of Griffin Pipe Products Co. at Florence, N.J., to points in Maine, New Hampshire, Vermont, and the District of Columbia; (45) *clay and refractory materials and products, and materials and supplies* used in the installation thereof, from the plantsites and facilities of Clow Corporation at Carol Stream and Streator, Ill., to points in Delaware, Kentucky, North Carolina and Virginia; (46) *material and supplies* (except liquid commodities, in bulk, in tank vehicles), used in the manufacturing and distribution of cast iron products, from points in Illinois, Indiana, Iowa, Maryland, Michigan, North Carolina, Ohio, Pennsylvania (except Plymouth Meeting), South Carolina, Virginia, and West Virginia, to the plantsites and facilities of Griffin Pipe Products Co. in Burlington County, N.J., restricted against the transportation (a) of sand, gravel, and limestone in bulk, in dump trucks, from points in Bucks, Montgomery, Delaware, and Philadelphia Counties, Pa., (b) of refractory products, fluxing compounds, and rimmings agents from points in Allegheny, Armstrong, Butler, and Westmoreland Counties Pa., and (c) of shipments originating at points in Canada; and (50) *propane gas*, in bulk, from Marcus Hook, Pa., to the plantsite and storage facilities of Griffin Pipe Products Co. located at or near Florence (Burlington County), N.J. RESTRICTION: The separate grants of Authority (1) through (50) described above shall be not be tacked or joined, directly or indirectly, for the purpose of performing any through service.

NOTE.—Applicant seeks by this application to convert its contract carrier authority in MC102982 and subs thereunder to common carrier authority. The purposes of this republication are (1) to include 3(b) omitted from the previous publications; (2) to restrict the operations to specific plantsites, as pertinent in subparagraphs 11, 12 (d) and (e); 13; 14 (a) and (b); 15; 16; 17; 18(b); 19; 20; 21; 22; 23; 36; 37; 38 (a) and (b); 39;

V 39 61 MAR 28 74 XUM

44; 45; and 46(c); (3) to include the destination point of the District of Columbia in 18(a); (4) to indicate the origin points in 18(b) as the plantsites and warehouses of United States Concrete Pipe Company located at Mogadore, Ohio, which was previously published as the plantsites and warehouses of Clow Corporation of the same location; (5) to delete the origin point of Ambridge, Pa. in 38(a); (6) to delete previously published items (24) through (35) as a result of the completed finance proceeding MC–F–11929; (7) to delete previously published Subparagraphs 47 through 49 in view of the Commission's Order of January 22, 1974, in George W. Kugler, Inc. Extension—MC 102982 Sub 26, and (8) to indicate the possible deletion of subparagraphs 36 and 37 which are the subject of a pending finance proceeding MC–F–12083. If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 126276 (Sub-No. 39), filed February 11, 1974. Applicant: FAST MOTOR SERVICE, INC., 9100 Plainfield Road, Brookfield, Ill. 60513. Applicant's representative: Albert A. Andrin, 29 South LaSalle Street, Chicago, Ill. 60603. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Containers*, from Danbury, Conn., to points in Illinois, Indiana, Kentucky, Michigan, Missouri, Ohio, and Wisconsin, under a continuing contract or contracts with National Can Corporation.

No MC 127824 (Sub-No. 4), filed February 14, 1974. Applicant: RONE TRUCKING, INC., U.S. Highway 231—South, Morgantown, Ky. 42261. Applicant's representative: John M. Nader, P.O. Box E, Bowling Green, Ky. 42101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips, sawdust, bark, and other wood refuse*, from points in Illinois, Indiana, Missouri, and Tennessee, to the plantsite of Wescor Corporation at or near Hawesville, Ky., under contract with Wescor Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Evansville, Ind., Louisville, Ky., or Nashville, Tenn.

No. MC 128007 (Sub-No. 58), filed February 7, 1974. Applicant: HOFER, INC., P. O. Box 583 (20th and By-Pass), Pittsburg, Kans. 66762. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (a) *Dry feed ingredients*, from Sherman, Wolfe City, Quanah, Richmond, Freeport, Stamford, Fort Worth, Temple, Harlingen, Waxahachie, Bryan, and Beaumont, Tex.; and Guymon, Oklahoma City, Altus, Hollis, and Clinton, Okla., to points in Minnesota; (b) *dry feed ingredients* from Lubbock, Rotan, Hamlin, Lamesa, Plainview, Levelland, Sweetwater, El Paso, Abilene, Hereford, Friona, Etter, Pampa, Amarillo, and Dumas, Tex., to points in Minnesota; (c) *meat scraps, dried blood, blood meal, and bone meal*, from Lubbock, Rotan, Hamlin, Lamesa, Plainview, Levelland, Sweetwater, El Paso, Abilene, Hereford, Friona, Etter, Pampa, Amerillo, and Dumas, Tex. to points in Kansas and Oklahoma; (d) *meat scraps, dried blood, blood meal, and bone meal*, from points in Kansas to points in Oklahoma, Missouri, Arkansas, Texas, Nebraska, Iowa, Minnesota, North Dakota, South Dakota, Illinois, Louisiana, New Mexico, and Colorado; (e) *dry feed ingredients*, from points in Collin and Limestone Counties, Tex.; San Antonio and Abilene, Tex.; Okmulgee County, Okla.; Tulsa and Collinsville, Okla.; Roswell, Clovis, and Albuquerque, N. Mex., to points in Nebraska, Iowa, Missouri, Minnesota, Kansas, Arkansas, Oklahoma, South Dakota, North Dakota, and Texas; and (f) *meat scraps, dried blood, blood meal, and bone meal*, from points in Lafayette and Cooper Counties, Mo., to points in Nebraska, Iowa, Missouri, Minnesota, Kansas, Arkansas, Oklahoma, South Dakota, North Dakota, and Texas.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 128007 (Sub-No. 59), filed February 6, 1974. Applicant: HOFER, INC., P.O. Box 583, Pittsburg, Kans. 66762. Applicant's representative: Clyde N. Christey, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Oil well sealing mixture*, from the plantsite and/or storage facilities of Gravette Shelling Co., Inc., at Gravette, Ark., to points in Montana, Utah, Arizona, Illinois, Michigan, Ohio, and Florida.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 128141 (Sub-No. 8), filed February 11, 1974. Applicant: TRI-STATE TRANSPORT, INC., P.O. Box 4109, Davenport, Iowa 52808. Applicant's representative: Carl E. Munson, 469 Fischer Building, Dubuque, Iowa 52001. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes transporting: *Liquid fertilizer and liquid fertilizer ingredients*, in bulk, in tank vehicles, (1) from at or near Buffalo, Iowa, to points in Illinois, Minnesota, Missouri, and Wisconsin; and (2) from Walcott, Iowa, to points in Illinois, Minnesota, Missouri, and Wisconsin, under continuing contract with Twin-State Engineering Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Davenport or Des Moines, Iowa.

No. MC 128527 (Sub-No. 47), filed February 14, 1974. Applicant: MAY TRUCKING COMPANY, a Corporation, P.O. Box 398, Payette, Idaho 83661. Applicant's representative: C. Marvin May (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates* 61 M.C.C. 209 and 766, from the facilities of Wells and Davies, Inc., at or near Payette, Idaho, to points in California, Oregon, Washington, Idaho, Nevada, Montana, Arizona, and Utah.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Boise, Idaho.

No. MC 128746 (Sub-No. 14), filed February 7, 1974. Applicant: D'AGATA NATIONAL TRUCKING CO., a Corporation, 3222 #44 South 61st Street, Philadephia, Pa. 19153. Applicant's representative: Leonard A. Jaskiewicz, 1730 M Street NW., Suite 501, Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and related advertising materials*, from Winston-Salem, N.C., and Lysander, N.Y., to points in Delaware, Maryland, New Jersey, New York, and Norristown and Philadelphia, Pa.

NOTE.—Common control may be involved. Applicant states that the requested authority can be tacked (1) with Sub-No. 7, (a) at Baltimore, Md., to serve Clarendon, Roselyn, and Alexandria, Va.; (b) at Trenton, N.J., to serve Steubenville, Columbus, Toledo, Cleveland, Youngstown, Akron, Canton, and Dayton, Ohio, and Washington, D.C.; (c) at New York, N.Y., to serve Washington, D.C.; (d) at Norristown, Pa., to serve points in West Virginia (except Weirton, Wheeling, and Keyser), and points in Massachusetts; and (e) at Philadelphia, Pa., to serve points in Maine, New Hampshire, Vermont, and Rhode Island; (2) with Sub-No. 10, at Norristown, Pa., to serve points in Maine, New Hampshire, Vermont, and Rhode Island; and (3) with Sub-No. 11, at Norristown, Pa., to serve points in Connecticut, Virginia, and the District of Columbia. If a hearing is deemed necessary, the applicant requests it be held at Philadelphia, Pa., or Washington, D.C.

No. MC 129350 (Sub-No. 40), filed February 11, 1974. Applicant: CHARLES E. WOLFE, doing business as EVERGREEN EXPRESS, Box 212, Billings, Mont. 59103. Applicant's representative: Clayton Brown (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meat, meat products, meat byproducts*, and *dairy products* and *articles distributed by meat packinghouses* as described in Sections A, B, C, and D of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles and hides), from Billings, Mont., to points in Arizona, Arkansas, California, Colorado, Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, Oregon, South Dakota, Texas, Washington, Wisconsin, and Wyoming; and (2) *such commodities* as are used by meat packers in the conduct of business when destined to and for use by meat packers, from points in Minnesota and Colorado, to Billings, Mont.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 129827 (Sub-No. 2), filed January 25, 1974. Applicant: BLAIR MOTOR SERVICE, INCORPORATED, 1531 East 14th Street, St. Louis, Mo. 63106. Applicant's representative: B. W. La Tourette, Jr., 611 Olive Street, Suite 1850, St. Louis, Mo. 63101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shoes, shoe findings, and shoe materials*, between the plantsite of Brown Shoe Company, at Trenton, Tenn., and St. Louis, Mo.

NOTE.—Dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 133119 (Sub-No. 47), filed February 8, 1974. Applicant: HEYL TRUCK LINES, INC., P.O. Box 206, 235 Mill Street, Akron, Iowa 51001. Applicant's representative: Roger Heyl (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), (a) from Fargo and West Fargo, N. Dak., to Minneapolis, St. Paul, and Duluth, Minn.; Eau Claire, Kenosha, Madison, Wis.; Chicago, Ill.; Omaha, Nebr.; and Sioux City, Iowa; (b) from Sioux City, Iowa, to Omaha, Nebr.; Fargo and West Fargo, N. Dak.; Kenosha, Milwaukee, Madison, and Eau Claire, Wis.; Detroit, Mich.; Kansas City and St. Joseph, Mo.; and (c) from Omaha, Nebr., to Sioux City and Des Moines, Iowa; Fargo and West Fargo, N. Dak.; Kansas City and St. Joseph, Mo.; and Minneapolis, Minn., restricted in (a), (b), and (c) to traffic originating at the facilities of Flavorland Industries, Inc., at the named origins and destined to the named destinations; (2) *meats, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Hospers, Iowa, to Sioux Falls, S. Dak.; Omaha, Lincoln, and Schuyler, Nebr.; Minneapolis, St. Paul, Rochester, and Duluth, Minn.; Eau Claire, Madison, and Milwaukee, Wis.; Kansas City, St. Joseph, and St. Louis, Mo.; New Orleans, La.; and Elgin, Rock Island, Peoria, Joliet, Rockford, and Chicago, Ill., restricted to traffic originating at the facilities of Banner Beef Co. at the named origin, and destined to the named destinations; and (3) *meats, meat products, and meat byproducts, and such commodities* as are used by meat packers in the conduct of their business, as described in Sections A and D of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from points in Kansas, Missouri, Nebraska, Iowa, and Minnesota, to the facilities of Yankton Sioux Industries at or near Wagner, S. Dak., restricted to traffic originating at the named origins and destined to the named destination.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, or Omaha, Nebr.

No. MC 133296 (Sub-No. 6), filed February 11, 1974. Applicant: DRACHE TRUCK LINE, INC., P.O. Box 42, Medford, Minn. 5504. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and related advertising materials*, from Trenton, N.J. to points in Minneapolis Minn., under continuing contract with Rex Distributing Co., Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 133316 (Sub-No. 9), filed December 22, 1972. Applicant: FRANK R. GIVIGLIANO, doing business as GIVIGLIANO TRANSPORT, 1513 San Pedro Street, P.O. Box 22, Trinidad, Colo. 81082. Applicant's representative: Joseph F. Nigro, 1515 Cleveland Place, Suite 400, Denver, Colo. 80202. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods, commodities in bulk, Classes A and B explosives, commodities requiring special equipment and those of unusual value), between Denver, Colo., and Red River, N. Mex.: From Denver over Interstate Highway 25 to Raton, N. Mex., thence over U.S. Highway 64 to Eagle Nest, N. Mex., thence over New Mexico Highway 38 to Red River, and return over the same route, serving the intermediate points of Colorado Springs, Pueblo, and Trinidad, Colo., all intermediate points in New Mexico, and the off-route point of Springer, N. Mex.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Raton, N. Mex., or Trinidad or Denver, Colo.

No. MC 133549 (Sub-No. 4), filed January 31, 1974. Applicant: STANLEY L. BERVEN, 117 Fairview Drive, South Sioux City, Nebr. 68776. Applicant's representative: Stewart A. Huff, 314 Security Bank Building, Sioux City, Iowa 51101. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed and animal and poultry feed supplements*, in bulk and in bag, or in combination, from the plantsites of O. A. Cooper Company, located at or near Beatrice, Humboldt, and Cozad, Nebr., Abilene, Kans., and Oklahoma City, Okla., to points in Nebraska, Kansas, Oklahoma, and those points in Colorado, on and east of U.S. Highway 71, and on and north of U.S. Highway 24 (Interstate 70), under contract with O. A. Cooper Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Sioux City, Iowa, Omaha, Nebr., or Kansas City, Mo.

No. MC 134806 (Sub-No. 20), filed February 14, 1974. Applicant: B–D–R TRANSPORT, INC., P.O. Box 813, Brattleboro, Vt. 05301. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Skis, skiing equipment and accessories*, from Middletown, Conn., to Chicago, Ill., Denver, Colo., Salt Lake City, Utah, and Reno, Nev., under contract or contracts with Olin Ski Company, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Hartford, Conn., or Washington, D.C.

No. MC 134888 (Sub-No.)3, filed February 11, 1974. Applicant: MOROSA BROS. TRANSPORTATION CO. a Corporation, 4800 Stein Road, Bakersfield, Calif. 93309. Applicant's representative: Carl H. Fritze, 1545 Wilshire Boulevard, Los Angeles, Calif. 90017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Limestone*, crushed, ground, or pulverized, in bulk, from the plant site of La Habra Products, Inc., at or near Lucerne, Calif., to points in Nevada.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held in Los Angeles, Calif.

No. MC 134922 (Sub-No. 60), filed February 11, 1974. Applicant: B. J. MCADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: L .C. Cypert (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Ground barites* (except in bulk), from Gonzales, Houston, and Zavalla, Tex., and Morgan City, La., to points in Alabama, Arkansas, Florida, Georgia, Kentucky, Louisiana, Mississippi, Oklahoma, and Tennessee; and (2) *common ground clay and ground soapstone* (except in bulk), from Gonzales, Palestine, and Zavalla, Tex., to points in Oklahoma.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Houston, Tex., or Little Rock, Ark.

No. MC 134952 (Sub-No. 2), filed February 11, 1974. Applicant: LOUIS E. RITT AND DIANNE RITT, doing business as ANTRIM COUNTY AVIATION, Box 395, Bellaire, Mich. 49615. Applicant's representative: Robert E. McFarland, 635 Elm Street, Birmingham, Mich. 48011. Authority sought to operate as a *common carrier*, by motor vehicle, over

V 39 61 MAR 28 74 XUM

irregular routes, transporting: *General commodities* (except commodities in bulk, Classes A and B explosives, household goods as defined by the Commission, and commodities requiring special handling), between points in Antrim, Charlevoix, Cheboygan, and Emmet Counties, Mich., on the one hand, and, on the other, the Detroit Metropolitan Wayne County Airport, at or near Romulus, Mich., and the Willow Run Airport, at or near Ypsilanti, Mich., restricted to traffic having a prior or subsequent movement by air.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lansing or Detroit, Mich.

No. MC 135007 (Sub-No. 41), filed February 6, 1974. Applicant: AMERICAN TRANSPORT, INC., P.O. Box 37406, Millard Station, Millard, Nebr. 68137. Applicant's representative: Charles J. Kimball, 2310 Colorado State Bank Building, 1600 Broadway, Denver, Colo. 80202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen foods and commodities* exempt from economic regulation under Section 203(b)(6) of the Interstate Commerce Act, when moving in connection with frozen foods, (a) from Solon and Cleveland, Ohio, to points in the United States (except Alaska); (b) from King of Prussia, Pa., to points in Ohio, New York, New Jersey, California, Florida, Pennsylvania, Georgia, Texas, Colorado, Missouri, Kansas, Utah, Washington, Nebraska, Iowa, Minnesota, Wisconsin, Indiana, Kentucky, Maryland, and the District of Columbia; (c) from Patterson, Calif., to points in California, Washington, Ohio, Texas, Colorado, Utah, Kansas, Nebraska, Iowa, Missouri, Minnesota, Wisconsin, Indiana, Kentucky, Florida, Georgia, New York, Pennsylvania, Maryland, and the District of Columbia; and (d) from Quincy, Ill., to points in California, New York, New Jersey, Ohio, Florida, Georgia, Colorado, Pennsylvania, Maryland, Indiana, Kentucky, Minnesota, Wisconsin, Nebraska, Kansas, Iowa, Missouri, Texas, Utah, Washington, and the District of Columbia; and (2) *ingredients, materials, and supplies* used in the production and distribution of frozen foods, from points in California, Washington, Oregon, Tennessee, Texas, Mississippi, Nebraska, North Carolina, and Illinois, to Solon, Ohio, King of Prussia, Pa., Patterson, Calif.; and Quincy, Ill., under a continuing contract or contracts with Stouffer Foods, Division of the Stouffer Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Cleveland, Ohio.

No. MC 135170 (Sub-No. 3), filed February 7, 1974. Applicant: TRI-STATE ASSOCIATES, INC., P.O. Box 188, Federalsburg, Md. 21632. Applicant's representative: James C. Hardman, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Containers, container ends and accessories, and materials, equipment, and supplies*, used in connection with the manufacture, sale, and distribution of containers, from Philadelphia, Pa., and Baltimore, Md., to points in Delaware and Virginia, under continuing contract with American Can Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 135821 (Sub-No. 2), filed February 11, 1974. Applicant: MADELINE MILESTONE, 4233 Leiper Street, Philadelphia, Pa. 19124. Applicant's representative: John W. Frame, Box 626, 2207 Old Gettysburg Road, Camp Hill, Pa. 17011. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise as is dealt in by wholesale or retail department stores*, between Philadelphia, Pa., on the one hand, and, on the other, points in Georgia and Florida, under a continuing contract or contracts with Lionel Leisure, Inc., at New York, N.Y., restricted to the transportation of traffic moving from or to the stores and facilities of Lionel Leisure, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Harrisburg, Pa.

No. MC 135874 (Sub-No. 39), filed February 6, 1974. Applicant: LTL PERISHABLES, INC., 132nd and Q Streets, Omaha, Nebr. 68137. Applicant's representative: Donald L. Stern, 530 Univac Building, 7100 W. Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs, including frozen foodstuffs not for human consumption* (restricted against the transportation of the abovenamed commodities in bulk, in tank vehicles), between Beaver Dam and Milwaukee, Wis., on the one hand, and, on the other, points in Iowa, Kansas, Missouri, and Nebraska, restricted to traffic originating at, or destined to the plantsites and warehouse facilities of Wisconsin Cold Storage, Inc., at Beaver Dam and Milwaukee, Wis.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis.

No. MC 135877 (Sub-No. 14), filed October 29, 1973. Applicant: RONALD R. BRADER, doing business as SPECIALIZED TRUCKING SERVICE, 1508 South 4th Avenue, Yakima, Wash. 98902. Applicant's representative: Ronald R. Brader (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Pool tables and table tennis tables, knocked down, parts thereof, accessories, equipment, and supplies* used in connection with pool and table tennis tables, between the plant and warehouse facilities of Frederick-Willys, Inc., at or near Corcoran, Calif., on the one hand, and, on the other, points in Oregon and Washington; and (2) *wooden shakes, shingles, ridges, and other accessorial parts* for installation of roofs, between points in Washington, on the one hand, and, on the other, points in California and Nevada.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., or Yakima, Wash.

No. MC 136318 (Sub-No. 21), filed February 5, 1974. Applicant: COYOTE TRUCK LINE, INC., 395½ B West Fleming Drive, Morganton, N.C. 28655. Applicant's representative: Walter F. Jones, Jr., 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Pressed wood board*, from points in Oregon, to Lenoir, Pleasant Garden, Thomasville, and Winston-Salem, N.C., and Appomatox, Va., under contract with Thomasville Furniture Industries, Inc., located at Thomasville, N.C.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Raleigh, N.C.

No. MC 136786 (Sub-No. 45), filed February 15, 1974. Applicant: ROBCO TRANSPORTATION, INC., 3033 Excelsior Blvd., Suite 205, Minneapolis, Minn. 55416. Applicant's representative: Val Higgins, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat byproducts and articles distributed by meat packinghouses* (except hides and commodities in bulk, in tank vehicles), from Billings, Mont., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at the plantsites and storage facilities utilized by Pierce Packing Co., and Midland Empire Packing Co., Inc., at Billings, Mont., and destined to points in the named States.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Billings, Mont.

No. MC 136941 (Sub-No. 3), filed January 28, 1974. Applicant: CHANCE CORPORATION, General Delivery, Tse Benito, N. Mex. Applicant's representative: Lynn William Mitton, P.O. Box 849, Window Rock, Ariz. 86515. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, in tank vehicles, Classes A and B explosives, household goods and commodities which require the use of special equipment because of size or weight), between points in Gamerco, N. Mex.; Holbrook, Snowflake, Winslow, and Flagstaff, Ariz.; Ignacio, Colo.; Clearfield, Richfield, and Brigham City, Utah, under contract with The Bureau of Indian Affairs, United States Department of the Interior, Property and Supply Office.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Gallup, N. Mex., or Window Rock, Ariz.

No. MC 138128 (Sub-No. 7), filed February 8, 1974. Applicant: LEMMONS & CO., INC., 535 South Second Street, Boonville, Ind. 47601. Applicant's representative: Michael V. Gooch, 777 Chamber of Commerce Building, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from points in Wabash, Williamson, and Saline Counties, Ill., to points in Gibson, Knox, Posey, Vanderburgh, and Warrick Counties, Ind.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind., or Washington, D.C.

No. MC 138438 (Sub-No. 5), filed January 14, 1974. Applicant: DONALD M. BOWMAN, JR., Route 3, Box 26, Hagerstown, Md. 21740. Applicant's representative: Charles E. Creager, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Brick* and *tile* from Williamsport and Hagerstown, Md., to the District of Columbia, and those points in Pennsylvania, West Virginia, Virginia, and Delaware within 165 miles of Williamsport and Hagerstown, Md.; (2) *concrete products*, from Hagerstown, Md., to points in Connecticut, Delaware, Illinois, Indiana, Massachusetts, Michigan, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Virginia, West Virginia, and the District of Columbia; (3) *brick* (except refractory brick) from Hagerstown and Williamsport, Md., to points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and West Virginia; (4) *brick* (except refractory brick), and *tile*, (a) from Winchester, Va., to points in Delaware, New Jersey, New York, Ohio, Pennsylvania, and West Virginia; (b) from Somerset, Va., to points in West Virginia, Maryland, Pennsylvania, and the District of Columbia; and (c) from points in Arlington County, Va., to points in West Virginia, Maryland, and Pennsylvania; (5) *brick*, (a) from points in Frederick County, Md., to the District of Columbia and points in Virginia and West Virginia; (b) from Rossville, Md., to the District of Columbia and points in Virginia; and (c) from Martinsburg, W. Va., to points in Maryland, Virginia, Pennsylvania, Delaware, New Jersey, New York, Connecticut, Massachusetts, and the District of Columbia.

(6) *Building materials* and *supplies* and *materials and supplies* used in the manufacture, packaging, and distribution thereof (except commodities in bulk, and those which because of size or weight require the use of special equipment), *tan bark and marble chips*, from Gibbsboro, N.J., to points in Delaware, Maryland, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia; and (7) *tan bark*, from Williamsport, Md., (a) to points in Delaware, Illinois, Indiana, Mississippi, New Jersey, New York, Ohio, Pennsylvania, Virginia, West Virginia, and the District of Columbia; and (b) to points in Delaware, Illinois, Indiana, Mississippi, New Jersey, New York, Ohio, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia; and (8) *cattle hides*, from points in Illinois, Indiana, Ohio, and Pennsylvania, to Williamsport, Md.

NOTE.—Applicant seeks to convert its existing authorities held in M.C. 117613, lead certificate and Sub-Nos. 1, 2, 6, 7, 11, and 12, to common carrier authority. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 138635 (Sub-No. 10), filed February 13, 1974. Applicant: CAROLINA WESTERN EXPRESS, INC., 650 Eastwood Drive, Gastonia, N.C. 28052. Applicant's representative: John R. Sims, Jr., Suite 600, 1707 H St., NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic fabric yarns*, from the plantsites of A. M. Smyre Manufacturing Company, at Ranlo, N.C., to points in California.

NOTE.—Applicant holds contract carrier authority in MC 136464 (Sub-No. 2), therefore dual operations may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Charlotte, N.C.

No. MC 138694 (Sub-No. 1), filed February 4, 1974. Applicant: RALPH ADAMS, doing business as BLUE LINE TRUCKING, P.O. Box 1086, Beaumont, Calif. 92223. Applicant's representative: Thomas E. Rubbert, Suite 2104, 606 South Olive Street, City National Bank Building, Pershing Square, Los Angeles, Calif. 90014. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Steel grinding balls*, in bulk, in shipper-owned buckets, from Indio, Calif., to Eagle Mountain, Calif., under contract with Kaiser Steel Corp.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif., or San Francisco, Calif.

No. MC 138835 (Sub-No. 15), filed February 14, 1974. Applicant: EASTERN REFRIGERATED TRANSPORT, INC., Post Office Box 1059, Harrisonburg, Va. 22801. Applicant's representative: Harry J. Jordan, 1000 Sixteenth Street, NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Frozen bakery products*, from the plantsite and warehouse facilities of Mrs. Smith's Pie Company at Pottstown and Philadelphia, Pa., to points in Virginia, North Carolina, South Carolina, Kentucky, Tennessee, Ohio, Indiana, Illinois, Missouri, West Virginia, Wisconsin, Minnesota, Iowa, Maine, Vermont, New Hampshire, Massachusetts, Connecticut, and Rhode Island, and (2) *rejected shipments of the same commodities* on return.

NOTE.—Common control may be involved. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 138896 (Sub-No. 7), filed February 6, 1974. Applicant: AJAX TRANSFER COMPANY, a Corporation, 550 East Fifth Street South, South St. Paul, Minn. 55075. Applicant's representative: Donald L. Stern, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuff, including frozen foodstuffs not for human consumption*, restricted against the transportation of the above-named commodities in bulk, in tank vehicles, between Beaver Dam and Milwaukee, Wis., on the one hand, and on the other, points in Minnesota, Iowa, Illinois, North Dakota, South Dakota, and Michigan, restricted to traffic originating at, or destined to, the plantsites and warehouse facilities of Wisconsin Cold Storage, Inc., at Beaver Dam and Milwaukee, Wis.

NOTE.—Applicant holds contract carrier authority in MC 119391 and subs thereunder, therefore dual operations may be involved. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Milwaukee, Wis.

No. MC 139118 (Sub-No. 1), filed February 11, 1974. Applicant: GENERAL MOVERS CORPORATION, Building No. 16, Lakewood Industrial Park, Tacoma, Wash. 98499. Applicant's representative: Del Benedict, 3600 South 124th, Seattle, Wash. 98168. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in King, Pierce, Kitsap, Thurston, and Yakima Counties, Wash., restricted to the transportation of shipments having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of pickup and delivery service in connection with the packing, crating, and containerization or unpacking, uncrating, and decontainerization of such shipments.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Seattle or Tacoma, Wash.

No. MC 139176, filed October 11, 1973, published in the FEDERAL REGISTER issue of December 6, 1973, and republished as corrected this issue. Applicant: CASCADE MOBILE HOME TRANSPORT, INC., 650 Lancaster Dr. NE., Salem, Oreg. 97301. Applicant's representative: John G. McLaughlin, 620 Blue Cross Building, 100 SW. Market Street, Portland, Oreg. 97201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mobile homes, sectional buildings, travel trailers, and campers and recreational vehicles*, in initial and secondary movements, between points in Oregon, Washington, and Idaho.

NOTE.—The purposes of this republication are: (1) To note the correct MC No. which

V 39 61 MAR 28 74 XUM

was previously published as MC 138176; and (2) to indicate the following hearing information:

HEARING: Joint Board 81, June 10, 1974 (1 week), at 9:30 a.m. local time, at Salem, Oreg. in a hearing room to be later designated.

No. MC 139177 (Sub-No. 1), filed February 11, 1974. Applicant: MAIERS TRANSFER & STORAGE CO., INC., 515 25th Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper and paper products*, from the plantsite of Hoerner-Waldorf Corporation, at St. Cloud, Minn., to points in North Dakota, under contract with Hoerner-Waldorf Corporation.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 139321 (Sub-No. 2), filed February 11, 1974. Applicant: COILE CONTRACT CARRIER, INC., Blue Ridge Industrial Park, P.O. Box 705, Norcross, Ga. 30071. Applicant's representative: Alan E. Serby, 1600 First Federal Building, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Lead bearing scrap materials, non-ferrous scrap metal and equipment, materials, and supplies*, used in the processing thereof, and (b) *brass ferrules and brass flanges; and lead wood solder and scrap materials*, from points in Alabama, Florida, Illinois, Indiana, Kentucky, Maryland, Massachusetts, Minnesota, Missouri, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, West Virginia, Wisconsin, Georgia, Arkansas, Michigan, Delaware, Connecticut, and New Jersey, to plantsites and warehouse facilities utilized by Seitzinger's, Inc., at Atlanta, Ga.; and (2) (a) *metal alloys;* and (b) *fabricated lead products*, from the plantsites and warehouse facilities of Seitzinger's, Inc., at Atlanta, Ga., to points in the United States on and east of the westernmost boundaries of Minnesota, Iowa, Missouri, Arkansas, and Texas, under a continuing contract with Seitzinger's, Inc., restricted against the transportation of commodities in bulk, and those which because of size or weight require the use of special equipment, and further restricted to services to be performed under a continuing contract with Seitzinger's, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 139408 (Sub-No. 1), filed February 11, 1974. Applicant: BULMAN TRUCKING SERVICE, INC., P.O. Box 268, Waukon, Iowa 52172. Applicant's representative: Thomas E. Leahy, Jr., 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Butter*, from Waukon, Iowa, to New York City, N.Y., under contract with Meadowland Dairy Association.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn., Omaha, Nebr., or Kansas City, Mo.

No. MC 139495 (Sub-No. 1), filed February 13, 1974. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Frederick J. Coffman, 521 South 14th Street, P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Soybean oil*, in bulk, from the plantsites of Cargill, Inc., at Wichita, Kans.; Archer Daniels Midland Co., at Fredonia, Kans.; and Kansas Soya Products Co., at Emporia, Kans.; to the plantsite of Wilson & Co., Inc., at Oklahoma City, Okla.; and (2) *animal fats and oils, vegetable oils and blends thereof*, in bulk, from the plantsite of Wilson & Co., Inc., at Oklahoma City, Okla., to points in Arkansas, Indiana, Kansas, Tennessee, and Texas, restricted to the transportation of traffic originating at the above named origins, and destined to the points named above.

NOTE.—Applicant holds contract carrier authority in MC 133106 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Lincoln, Nebr., or Kansas City, Mo.

No. MC 139518 (Sub-No. 1), filed February 11, 1974. Applicant: GEORGE E. PAGEL, Rt. 1, Box 29, Stratford, S. Dak. 57474. Applicant's representative: Raymond M. Schutz, 500 Capitol Building, Aberdeen, S. Dak. 57401. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt*, in bags and in bulk, from Hutchinson, Kans., to points in South Dakota.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Pierre, S. Dak.

No. MC 139523 (Sub-No. 1), filed February 11, 1974. Applicant: JOHN ARDITO AND HAROLD FLAUM, doing business as J & H TRUCKING CO., 439 Bayview Avenue, Inwood, N.Y. Applicant's representative: Arthur J. Piken, 1 Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a contract carrier, by motor vehicle, over irregular routes, transporting: *Such commodities as are dealt in, used by, and sold by retailers and distributors or carpeting, rugs, and padding*, (1) from Inwood, N.Y., to Bridgeport, Conn., and points in Baltimore County, Md.; (2) from Barrington, R.I., to Inwood, N.Y.; and (3) between Inwood, N.Y., on the one hand, and, on the other, points in New Jersey, Bucks, Chester, Delaware, and Montgomery Counties, Pa., and Philadelphia, Pa., and Dedham, Mass., under contract with Allen Carpet Shops, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 139546 (Sub-No. 2), filed February 11, 1974. Applicant: JAMES B. GRAY, INC., Danforth, Me. 04424. Applicant's representative: Theodore Polydoroff, Suite 600, 1250 Connecticut Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips*, in bulk, from Patten and Crystal, Me., to points in Maine on the International Boundary line between the United States and Canada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Portland, Me.

No. MC 139562, filed January 11, 1974. Applicant: FRED E. WILLIS AND CHARLES M. HALL, a Partnership, doing business as TIMELY AIR TRUCKING, 31059 Ecorse Road, Romulus, Mich. 48174. Applicant's representative: Timothy R. Sinclair, Roseville Theatre Building, Roseville, Mich. 48066. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, commodities in bulk, household goods as defined by the Commission and those requiring special equipment), between Detroit Metropolitan Airport and Chicago O'Hare International Airport, restricted to the transportation of traffic having an immediate prior or subsequent movement by air.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Detroit or Lansing, Mich.

No. MC 139563, filed February 11, 1974. Applicant: WEATHERS BROTHERS TRANSFER CO. OF N.C., a Corporation, 921 East Forsyth Street, Jacksonville, Fla. 32202. Applicant's representative: Sol H. Proctor, 1107 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods in containers*, having a prior or subsequent movement beyond the points applied for, between points in North Carolina, restricted to the performance of pickup and delivery service in connection with the packing, crating, and containerization or unpacking, uncrating, and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Jacksonville, Fla.

No. MC 139564, filed February 11, 1974. Applicant: WEATHERS BROTHERS TRANSFER CO., INC., 921 East Forsyth Street, Jacksonville, Fla. 32202. Applicant's representative: Sol H. Proctor, 1107 Blackstone Building, Jacksonville, Fla. 32202. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, between points in Florida, restricted to the transportation of shipments having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted

to the performance of pickup and delivery service in connection with the packing, crating, and containerization or unpacking, uncrating, and decontainerization of such shipments.

NOTE.—If a hearing is deemed necessary the applicant requests it be held at Jacksonville, Fla.

No. MC 139566, filed February 5, 1974. Applicant: FEDERAL ARMORED EXPRESS, INC., 910 S. Grundy Street, Baltimore, Md. 21203. Applicant's representative: Russell R. Sage, 421 King Street, Tavern Square, Suite 301, Alexandria, Va. 22314. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transportings: *United States bonds*, between points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with General Services Administration.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139569, filed February 7, 1974. Applicant: G & T TRUCKING CO., a Corporation, Rural Route #1, Box 698, Shakopee, Minn. 55379. Applicant's representative: James E. Ballenthin, 630 Osborn Building, St. Paul, Minn. 55102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Washed and unwashed sand, gravel, aggregate, crushed rock, and asphalt materials*, in bulk, in bottom dump and end dump trailer vehicles and in dump trucks, (a) from points in Minnesota, to the plant sites of Mathy Construction Company and its affiliated companies located in Wisconsin; and (b) from points in Wisconsin, to the plant sites of Mathy Construction Company and its affiliated companies located in Minnesota; and (2) *black oil* (road oil) and *burner fuel*, from points in Minnesota, to the plant sites of Mathy Construction Company and its affiliated companies located in Wisconsin, under a continuing contract or contracts with Mathy Construction Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Paul, Minn.

No. MC 139577, filed February 6, 1974. Applicant: ADAMS TRANSIT, INC., Friesland, Wis. 53935. Applicant's representative: Edward Solle, Executive Building, Suite 100, 4513 Vernon Boulevard, Madison, Wis. 53705. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs, including frozen foodstuffs not for human consumption*, between Beaver Dam and Milwaukee, Wis., on the one hand, and on the other, points in Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Nebraska, New Jersey, New York, North Dakota, Ohio, Pennsylvania, South Dakota, and Wisconsin, restricted against the transportation of the abovenamed commodities in bulk, in tank vehicles, and further restricted to traffic originating at, or destined to, the plantsites and warehouse facilities of Wisconsin Cold Storage, Inc., at Beaver Dam and Milwaukee, Wis.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Washington, D.C., Chicago, Ill., Milwaukee, Wis. or Madison, Wis.

No. MC 139605 (Amendment) filed December 3, 1973, published in the FR issue of January 17, 1974, as MC-135056 (Sub-No. 4) and republished as amended this issued. Applicant: MJR ENTERPRISES, a corporation, 20407 S. Normandie Ave., Torrance, Calif. 90502. Applicant's representative: Donald Murchison, 9454 Wilshire Blvd., Suite 400, Beverly Hills, Calif. 90212. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by retail furniture stores, including counter and cabinets, and store fixtures and equipment, (1) between points in California, Oregon, and Washington, on the one hand, and, on the other, points in the United States including Alaska, but excluding Hawaii; and (2) from Salt Lake City and Ogden, Utah, to points in Idaho.

NOTE.—The purpose of this republication is to indicate that applicant seeks common carrier authority. If a hearing is deemed necessary, applicant requests it be held at Los Angeles, Calif.

MOTOR CARRIER PASSENGER APPLICATIONS

No. MC 84728 (Sub-No. 61), filed February 4, 1974. Applicant: SAFEWAY TRAILS, INC., 1200 Eye Street NW., Washington, D.C. Applicant's representative: James E. Wilson, Suite 1032, Pennsylvania Bldg., Washington, D.C. 20004. Authority sought to operats as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage, and express and newspapers* in the same vehicle with passengers, between junction Interstate Highway 295 and New Jersey Highway 73, and junction Interstate Highway 295 and U.S. Highway 206, as follows: From junction Interstate Highway 295 and New Jersey Highway 73 over Interstate Highway 295 to junction Interstate Highway 295 and U.S. Highway 206, and return over the same route.

NOTE.—By this application, applicant seeks authority under the provisions of the Commission's rules in 49 C.F.R. 1042.1 Superhighway Rules. If a hearing is deemed necessary, applicant does not specify a location.

No. MC 89037 (Sub-No. 7), filed February 8, 1974. Applicant: CONTINENTAL PACIFIC LINES, a CORPORATION, doing business as CONTINENTAL PACIFIC TRAILWAYS, 1501 South Central Avenue, Los Angeles, Calif. 90021. Applicant's representative: R. Y. Schuremen, 1545 Wilshire Boulevard, Los Angeles, Calif. 90017. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in special operations and round-trip tours, beginning and ending at points in Clark, Cowlitz, Lewis, Thurston, Pierce, and King Counties, Wash.; and points in Multnomah, Washington, Clackamas, Marion, Linn, Lane, Douglas, Josephine, and Jackson Counties, Oreg., and extending to points in the United States, including Alaska, but excluding Hawaii.

NOTE.—Common control was approved in MC-F-10160 and MC-F-10161. Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at Portland, Oreg., and Seattle, Wash.

No. MC 115300 (Sub-No. 2), filed February 8, 1974. Applicant: CHARLES SIMMONS, SR., doing business as HILTON HEAD TRUCK LINES, P.O. Box 1026, Hilton Head Island, S.C. 29928. Applicant's representative: J. Thomas Mikell, P.O. Box 1107, Beaufort, S.C. 29902. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers, baggage, and express freight*, in packages, not to exceed 150 pounds each in weight, in regular and charter operations, between Savannah, Ga., Levy, Hardeeville, Bluffton, Pritchardville, S.C., and points on Hilton Head Island, S.C.

NOTE.—Applicant states that the requested authority cannot be tacked with its existing authority. If a hearing is deemed necessary, applicant requests it be held at either Columbia, or Charleston, S.C.

No. MC 116767 (Sub-No. 3), filed March 4, 1974. Applicant: THE GRAY LINE, INC., 1010 Eye Street NW., Washington, D.C. 20001. Applicant's representative: S. Harrison Kahn, Suite 733, Investment Building, Washington, D.C. 20005. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Passengers*, between Sterling, Va., inclusive of the Sterling Park and Sugarland Run residential areas, on the one hand, and, on the other, points in the District of Columbia, under a continuing contract or contracts with Sugarland Run Jaycees, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 139560, filed February 14, 1974. Applicant: LEO R. DEE, doing business as DEE BUS SERVICE, 54 Orchard Road, (West) Concord, Mass. 01742. Applicant's representative: Frank Daniels, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, in charter operations, beginning and ending at Concord, Mass., and extending to points in New York, Maine, New Hampshire, Vermont, Connecticut, Rhode Island, District of Columbia, Virginia, Pennsylvania, New Jersey, Delaware, and Maryland.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass.

No. MC 139561, filed February 14, 1974. Applicant: HUB BUS LINES, INC., 739

V 39 61 MAR 28 74 XUM

Boylston Street, Boston, Mass. 02116. Applicant's representative: Frank Daniels, 15 Court Square, Boston, Mass. 02108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicle with passengers, in charter operations, beginning and ending at Boston, Mass., and extending to points in Maine, New Hampshire, Vermont, Connecticut, Rhode Island, New York, New Jersey, Delaware, Pennsylvania, Maryland, District of Columbia, Virginia, North Carolina, South Carolina, Tennessee, Alabama, Georgia, and Florida.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

BROKER APPLICATION

No. MC 21763 (Sub-No. 1), filed February 6, 1974. Applicant: ALLIED BUS CORPORATION, 165 West 46th Street, New York, N.Y. 10036. Applicant's representative: Sidney J. Leshin, 575 Madison Avenue, New York, N.Y. 10022. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at New York, N.Y., and Los Angeles, Calif., to sell to common motor carrier service the transportation of *passengers and their baggage*, in all expense tours, *for individuals and groups*, in special and charter operations, between cities in the United States, having airports for international flights, on the one hand, and, on the other, points in the United States, including Alaska and Hawaii, restricted to traffic having an immediate prior or subsequent movement by air in foreign commerce. If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y.

By the Commission.

[Notice 474]

ASSIGNMENT OF HEARINGS

MARCH 25, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

W-406 Sub 11, Ohio Barge Line, Inc., Extension Upper Mississippi River, now assigned continued hearing April 2, 1974, at Washington, D.C., is postponed indefinitely.

MC 138875 Sub 9, Shoemaker Trucking Co., now assigned *April 1, 1974* at Portland, Oregon, is postponed to *April 2, 1974* at Portland, Oregon, in Room 103, Pioneer Courthouse, 555 SW. Yamhill Street.

MC 1872 Sub-81, Ashworth Transfer, Inc., now being assigned June 17, 1974 (2 weeks), at San Francisco, California, in a hearing room to be later designated.

MC 83539 Sub-379, C & H Transportation Co., Inc., now being assigned June 17, 1974 (2 weeks), at San Francisco, California, in a hearing room to be later designated.

MC 125433 Sub-41, F-B Truck Line Company, now being assigned June 17, 1974 (2 weeks), at San Francisco, California, in a hearing room to be later designated.

MC 92633 Sub-22, Zirbel Transport, Inc., now being assigned June 24, 1974 (1 week), at Portland, Oregon, in a hearing room to be later designated.

MC 65660 Sub 7, Warner & Smith Motor Freight, Inc., continued to April 16, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

[SEAL] JOSEPH M. HARRINGTON, *Acting Secretary.*

[FR Doc.74-7215 Filed 3-27-74;8:45 am]

[No. AB-6 (Sub-No. 10)]

BURLINGTON NORTHERN INC.

Notice of Abandonment

Upon consideration of the record in the above-entitled proceeding and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, that no environmental impact statement need be issued in this proceeding because this proceeding does not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefore:

It is ordered, That applicant be, and is hereby, directed to publish the appended notice in a newspaper of general circulation in King County, Wash., within 15 days of the date of service of this order, and certify to this Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 19th day of March, 1974.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. AB-6 (Sub-No. 10)]

BURLINGTON NORTHERN, INC., ABANDONMENT BETWEEN ISSAQUAH AND TANNER, KING COUNTY, WASH.

The Interstate Commerce Commission hereby gives notice that by order dated March 19, 1974, it has been determined that the proposed abandonment of the line of the Burlington Northern, Inc., between Issaquah and Tanner, King County, Wash., a distance of approximately 19.26 miles, if approved by the Commission, would not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that the abandonment will facilitate plans of local governmental and public interest groups to expand the involved area's recreation and tourism potential and it is consistent with State and local land use plans. In addition, rail service to major shippers along the line will be available over other rail lines in the area. The determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available for public inspection upon request at the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-6989.

Interested parties may comment on this matter by the submission of representations to the Interstate Commerce Commission, Washington, D.C. 20423, on or before April 12, 1974.

[FR Doc.74-7218 Filed 3-27-74;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

MARCH 25, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before April 12, 1974.

FSA No. 42819—*Perlite Rock from Antonito, Colorado.* Filed by Western Trunk Line Committee, Agent (No. A-2699), for interested rail carriers. Rates on rock, perlite, broken or crushed, dried or not dried, in carloads, as described in the application, from Antonito, Colorado, to Fordtown, Tennessee.

Grounds for relief—Market competition.

Tariff—Supplement 404 to Western Trunk Line Committee, Agent, tariff 134-Q, I.C.C. No. A-4620. Rates are published to become effective on April 25, 1974.

By the Commission.

[SEAL] JOSEPH M. HARRINGTON, *Acting Secretary.*

[Notice 40]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

MARCH 20, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131) published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

No. MC 409 (Sub-No. 51 TA), filed March 7, 1974. Applicant: SCHROETLIN TANK LINE, INC., P.O. Box 511, Sutton, Nebr. 68979. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Anhydrous ammonia*, from the Mapco Pipeline terminal at or near Clay Center, Kans., to points in Iowa, Nebraska, and Missouri, for 180 days. SUPPORTING SHIPPER: Charles D. Rosas, Supervisor of Transportation, Farmland Industries, Inc., P.O. Box 7305, Kansas City, Mo. 64116. SEND PROTESTS TO: Max H. Johnston, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 320 Federal Building & Court House, Lincoln, Nebr. 68508.

No. MC 30844 (Sub-No. 496 TA), filed March 6, 1974. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Box 5000, Waterloo, Iowa 50704. Applicant's representative: Paul Rhodes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such articles* as are dealt in by retail discount stores (except foodstuffs and commodities in bulk), from New York, N.Y., to Birmingham, Ala.; Atlanta, Ga.; Quincy, Ill.; West Lafayette, Ind.; Paducah, Ky.; Baton Rouge, La.; Detroit, and Benton Harbor, Mich.; Springfield and St. Louis, Mo.; and Houston, Tex., for 180 days. SUPPORTING SHIPPER: Mangel Stores Corporation, 115 West 18th Street, New York, N.Y. 10011. SEND PROTESTS TO: Herbert W. Allen, Transportation Specialist, Bureau of Operations, Interstate Commerce Commission, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 42605 (Sub-No. 2 TA), filed March 11, 1974. Applicant: CARL H. BETZ, R.D. No. 1, Orefield, Pa. 18069. Applicant's representative: Paul B. Kemmerer, 1620 North 19th Street, Allentown, Pa. 18104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Organic plant food*, in bulk, bags and packages, from Washington, D.C., to points in Virginia, Maryland, Delaware, Pennsylvania, New Jeresy, New York, Connecticut, Rhode Island, Massachusetts, New Hampshire, Vermont, and Maine, for 180 days. SUPPORTING SHIPPER: Harry V. Ryder, Jr., Vice President, Organic Recycling, Inc., 967 South Matlack Street, West Chester, Pa. 19380. SEND PROTESTS TO: F. W. Doyle, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Federal Building, 600 Arch Street, Room 3238, Philadelphia, Pa. 19106.

NATIONAL ADVISORY COUNCIL ON SUPPLEMENTARY CENTERS AND SERVICES

PUBLIC MEETING

Notice is hereby given, pursuant to Public Law 92-463, that the next meeting of the National Advisory Council on Supplementary Centers and Services will be held on April 4, 1974, at 3:30 p.m. at the Quality Inn, Pentagon City, 300 Army Navy Drive, Arlington, Virginia.

The National Advisory Council on Supplementary Centers and Services is established under section 309 of Public Law 91-230. The Council is directed to advise the President and the Congress concerning the operation of Title III of the Elementary and Secondary Education Act.

Agenda items for the Meeting will include: Reviewing and discussing pending ESEA Title III legislation; developing a plan for the release of the Sixth Annual Report of the Council; selecting topics for Quarterly reports; and discussing the operational plan for FY 1975.

The meeting of the Committee shall be open to the public. Records shall be kept of all Council proceedings and shall be available for public inspection at the office of the Council's Executive Director, located in Suite 529, 425 13th Street, NW., Washington, D.C.

Signed at Washington, D.C., on March 22, 1974.

GERALD J. KLUEMPKE,
Executive Director.

FEDERAL ENERGY OFFICE

ELECTRIC UTILITIES COMMITTEE

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770) notice is hereby given that the Electric Utilities Advisory Committee will hold a meeting on Friday, March 29, 1974, at 3:00 P.M. in Room 3140-A, New Post Office, Benjamin Franklin Station, 12th and Pennsylvania Ave., NW., Washington, D.C. The Committee was established to advise the Administrator, FEO, with direct and timely access to the technical knowledge possessed by a wide range of highly qualified independent businessmen engaged in the management of electric utilities. The agenda for the meeting is as follows:

1. Development of plans to maximize use of coal.
2. Allocation of fuels to electric utilities on efficiency of use basis.
3. Expansions of nuclear generating stations.
4. Agency interrelationships with regard to Federal energy policies.

The meeting is open to the public, however, space and facilities are limited. Further information concerning the meetings may be obtained from Richard Waller, Federal Energy Office, Washington, D.C., telephone: 202-961-6181.

The chairman of the committee is empowered to conduct the meeting in a fashion that will, in his judgement, facilitate the orderly conduct of business.

Minutes of the meeting will be made available for public inspection at the Federal Energy Office, 12th and Pennsylvania Avenue, NW., Washington, D.C.

Issued in Washington, D.C. on March 26, 1974.

WILLIAM N. WALKER,
General Counsel.

PETROLEUM INDUSTRY ADVISORY COMMITTEE (INDEPENDENT SECTOR); NORTHEAST GROUP

Notice of Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Public Law 92-463, 86 Stat. 770), notice is hereby given that the Northeast Group of the Petroleum Industry Advisory Committee (Independent Sector) will hold a meeting on Thursday, April 4, 1974, at 3:00 P.M., in Room 3140-A, New Post Office, Benjamin Franklin Station, 12th and Pennsylvania Avenue, NW., Washington, D.C. The committee was established to advise the Administrator, FEO, with direct and timely access to the technical knowledge possessed by a wide range of highly qualified independent businessmen engaged in the independent sector of the petroleum industry. The agenda for the meeting is as follows:

I. FEO Policy Toward Gas and Electric Utilities:
   —Impact on national energy consumption of massive conversion of heating units from fuel oil to natural gas and electricity.
   —Impact of such conversions on independent marketers of fuel oil.
   —Implementation of conservation policies relating to gas and electric consumption.

II. 1974-75 Allocation Program for No. 2 Fuel Oil and Residual Fuel Oil
   —Recommendations for amendment.

III. Incentives for Construction of New Storage Capacity.

The meeting is open to the public; however, space and facilities are limited. Further information concerning the meetings may be obtained from Del Perry, Federal Energy Office, Washington, D.C., telephone: 202-343-6951.

The chairman of the committee is empowered to conduct the meeting in a fashion that will, in his judgment, facilitate the orderly conduct of business.

Minutes of the meeting will be made available for public inspection at the Federal Energy Office, 12th and Pennsylvania Avenue, NW., Washington, D.C.

Issued in Washington, D.C. on March 26, 1974.

WILLIAM N. WALKER,
General Counsel.

ELECTROPLATING POINT SOURCE CATEGORY; COPPER, NICKEL, CHROMIUM AND ZINC ON FERROUS AND NONFERROUS MATERIALS SUBCATEGORY

Effluent Guidelines and Standards

V 39 61 MAR 28 74 XUM

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

PART 413—ELECTROPLATING POINT SOURCE CATEGORY

Subpart A—Copper, Nickel, Chromium, and Zinc on Ferrous and Nonferrous Materials Subcategory

On October 5, 1973, notice was published in the FEDERAL REGISTER (38 FR 27694), that the Environmental Protection Agency (EPA or Agency) was proposing effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources within the electroplating of copper, nickel, chromium, and zinc on ferrous and nonferrous materials subcategory of the electroplating category of point sources.

The purpose of this notice is to establish final effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources in the electroplating category of point sources, by amending 40 CFR Chapter I, Subchapter N, to add a new Part 413. This final rulemaking is promulgated pursuant to sections 301, 304 (b) and (c), 306 (b) and (c) and 307(c) of the Federal Water Pollution Control Act, as amended (the Act); 33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316 (b) and (c) and 1317(c); 86 Stat. 816 et seq.; Pub. L. 92-500. Regulations regarding cooling water intake structures for all categories of point sources under section 316(b) of the Act will be promulgated in 40 CFR 402.

In addition, the EPA is simultaneously proposing a separate provision which appears in the proposed rules section of this Part II of the FEDERAL REGISTER, 39 FR 11515, stating the application of the limitations and standards set forth below to users of publicly owned treatment works which are subject to pretreatment standards under section 307 (b) of the Act. The basis of that proposed regulation is set forth in the associated notice of proposed rulemaking.

The legal basis, methodology and factual conclusions which support promulgation of this regulation were set forth in substantial detail in the notice of public review procedures published August 6, 1973 (38 FR 21202) and in the notice of proposed rulemaking for the electroplating of copper, nickel, chromium, and zinc on ferrous and nonferrous materials subcategory. In addition, the regulations as proposed were supported by two other documents: (1) The document entitled "Development Document for Proposed Effluent Limitations Guidelines and New Source Performance Standards for the Copper, Nickel, Chromium, and Zinc Segment of the Electroplating Point Source Category" (August, 1973) and (2) the document entitled "Economic Analysis of Proposed Effluent Guidelines for the Electroplating Point Source Category (Copper, Nickel, Chromium, and Zinc)" (September, 1973). Both of these documents were made available to the public and circulated to interested persons at approximately the time of publication of the notice of proposed rulemaking.

Interested persons were invited to participate in the rulemaking by submitting written comments within 30 days from the date of publication. Prior public participation, in the form of solicited comments and responses from the States, Federal agencies, and other interested parties, was described in the preamble to the proposed regulation. The EPA has considered carefully all of the comments received, and a discussion of these comments with the Agency's response thereto follows.

(a) *Summary of comments.* The following responded to the request for written comments contained in the preamble to the proposed regulation; C. E. Mange Development Laboratory, Welch Allyn Inc., Platers Supply Company, General Motors Corporation, Colorado Department of Public Health, Municipality of Metropolitan Seattle, MacDermid, Inc., County Sanitation Districts of Los Angeles County, Sybron Corporation, Van Der Horst Corporation of America, U.S. Department of Health, Education, and Welfare, Environmental Resources Defense Council, Commonwealth of Massachusetts, Pratt and Whitney Division of United Aircraft Corporation, Columbus Industrial Association, Keeler Brass Company, Lancy Laboratories, National Association of Metal Finishers, American Electroplaters' Society, Chrome-Rite Company, Masters Electro-Plating Association, Association of Home Appliance Manufacturers, Oxy Metal Finishing Corporation, Metal Finishing Suppliers' Association, Chromium, Inc., E. I. DuPont de Nemours, Inc., General Electric Company, Raytheon Company, Ford Motor Company, Whirlpool Corporation, Western Electric, Scientific Control Laboratories, Inc., Electronic Industries Association, The Bendix Corporation, U.S. Department of Commerce, Eastman Kodak Company, TRW, Inc., Burndy Corporation, Jamestown Electroplating Works, Inc., Douglas and Lomason Company, Revere Copper and Brass, Inc., Metropolitan Sanitary District of Greater Chicago, State of New York Department of Environmental Conservation, Sargent and Company, Digital Equipment Corporation, AMP, Inc., Products Finishing, Wald Manufacturing Company, Inc., United States Water Resources Council, S. K. Williams Company, Manufacturing Jewelers and Silversmiths of America, Inc., U.S. Department of the Interior, True Temper Corporation, Dallas Water Utilities, Texas Instruments, Inc., Institute of Printed Circuits, Caterpillar Tractor Company, State of Connecticut Department of Environmental Protection, State of Michigan Department of Natural Resources, and API Industries, Inc.

(1) Approximately one-third of the comments received stated that the use of milligrams per square meter plated as the basis for effluent limitations is impractical, uneconomical, or difficult to apply. Alternate bases for the guidelines were suggested by several commenters.

While it may be difficult or inconvenient for some platers to determine their production in terms of square meters plated, it is not impossible. Section 308 of the "Act" authorizes the Administrator to require the owner or operator of any point source to establish and maintain records to determine compliance with effluent limitations. Paragraphs (b) of §§ 413.12 and 413.15 have been added to this regulation to provide the plater flexibility in complying with recordkeeping and production reporting requirements imposed by the guidelines.

The effluent limitations applicable to a particular discharger may be determined by multiplying the effluent limitations in paragraph (a) of § 413.12 for existing sources by the production expressed in sq m or sq ft. The product of this calculation has dimensions of mg or lb. An effluent factor of 200 liters per sq m (5 gallons per sq ft) is the water use for rinsing typical of plants in the electroplating industry. Individual dischargers may decide that further water conservation is necessary or desirable to meet effluent limitations based on the best practicable control technology currently available.

(2) Several comments stated that the effluent limitations as proposed would impose a severe economic hardship on the small plater.

If small shops employ chemical treatment with good water use, they should meet the guidelines as proposed. Hence, an exemption or relaxation of the standards based on size is warranted only from an economic or administrative standpoint and not on the basis of technical feasibility of waste treatment. After an analysis of additional data supplied by the industry and a re-evaluation of the economic impact of the guidelines, it was determined that the minimum cost for effective physical-chemical waste treatment may create an economic burden on the very small plater. On the basis of this further analysis, the best practicable control technology currently available for shops plating less than 33 sq m per hour or having a total installed current capacity less than 2000 amperes was determined to be cyanide destruction, if any, equalization and pH adjustment. The final regulation reflects the additional analysis and the revision of the best practicable control technology currently available to alleviate the economic impact of the Guidelines on the small plater.

(3) Several commenters suggested that the waste water control and treatment techniques suggested in the Development Document are not proven and are not completely reliable.

Numerous techniques to reduce the discharge of pollutants are discussed in the Development Document. All techniques are not applicable to every plater, but each is successfully demonstrated in the industry.

(4) Comments were received that process modifications such as eliminating copper plating by increasing the thickness of nickel or substituting trivalent chromium baths for hexavalent baths are not practical.

The regulations are based on proven treatment technology with emphasis on water conservation. Such process modifications are suggested as alternate methods to meet the guidelines under certain circumstances. No claim is made that such modifications are practical for every plater.

(5) Several comments indicated that the proposed guidelines would create severe adverse economic effects on the electroplating industry in general.

As discussed in section "E", the economic impact of the final guidelines is expected to be significantly lower than that of the proposed guidelines. This is due to a significant reduction in the number of plants to be affected by the guidelines and to reduced requirements for very small operations (less than 33 square meters plated per hour, or less than 2000 amperes installed current capacity).

Because pretreatment requirements are being proposed as a separate package, the guidelines now being promulgated will affect only about 25 percent of the industry, the remaining 75 percent being plants that discharge to municipal treatment systems. On this basis and with consideration of the reduced requirement for very small operations the economic analysis indicates that fewer than 100 closures are expected as a result of the 1977 requirements, as compared to an estimated more than 500 for the guidelines as proposed. These plants would represent fewer than 600 employees and less than 2.0 percent of the total independent plating capacity. For 1983, fewer than 80 additional closures are expected, representing less than 250 employees and less than 1.0 percent of the total independent plating capacity.

Although most of these closures would occur in semiurban areas, it still has been estimated that about half of the affected employees should find re-employment in the electroplating industry while the remainder would have to seek re-employment in other industries.

(6) Commenters suggested that the proposed effluent limitations would impose a severe technological hardship on the industry and that the effluent limitations are too stringent.

The effluent limitations are being achieved by numerous platers and can be met by many others by only minor changes in operation. The baseline technology for the electroplating industry, chemical treatment, has been practiced by the industry for over 25 years. By controlling the volume of waste water generated and employing a well-designed and well-operated chemical treatment system, platers can meet the guidelines as promulgated.

(7) Numerous comments indicated that solid waste disposal and groundwater contamination problems may be created by the proposed guidelines.

It is recognized that the removal of metals from waste water by chemical precipitation methods produces a sludge which requires adequate precautions to prevent contamination of surface and subsurface waters. It is expected that the guidelines will focus attention on the problem of solids disposal so that satisfactory solutions will be found. Chemical precipitation with solids separation is widely accepted as the best practicable control technology for this industry. The sludge produced should be disposed of in an acceptable landfill.

Soluble metal salts produced by certain concentration or recovery techniques such as evaporation pose a greater environmental hazard than the metallic hydroxides resulting from chemical treatment. An environmentally acceptable solution to this problem, which is not peculiar to the electroplating industry, is expected prior to the deadline for application of the best available technology economically achievable in 1983.

(8) Several comments were received that the proposed effluent limitations guidelines are not consistent with the interim guidelines for metal finishing. The industry generally agrees with the interim guidelines effluent concentrations and with the concept of chemical treatment of waste waters as the best practicable control technology currently available.

The essential difference between the interim guidelines concentrations and the proposed effluent limitations guidelines is that the latter place a limit on the absolute amount of pollutants discharged to surface waters. Restrictions on concentration alone do not achieve the same result in terms of limiting the total amount of pollutants discharged.

The interim effluent concentrations were developed to be broadly applicable to metal finishing operations. The effluent limitations guidelines were developed for copper, nickel, chromium and zinc electroplating operations and are based on a program of extensive technical data analysis to satisfy the detailed requirements of sections 301, 304(b), 306, and 307 of the Act. The results of the study to develop effluent limitations guidelines show conclusively that the interim guidelines concentrations and the effluent limitations guidelines are consistent and complementary.

(9) A comment was received that § 413.15 of the proposed regulation was not clear as to whether all existing electroplaters or only new sources would be required to pretreat to the standards of performance.

The pretreatment standards proposed in § 413.15 apply to new sources. Section 413.16 of the regulation promulgated herein states the applicability of standards of performance as pretreatment standards for new sources.

(10) Several commenters stated that EPA should establish a separate category of effluent limitations for manufacturers which employ electroplating as a part of the overall manufacturing process.

The effluent limitations guidelines and standards of performance for the electroplating category of sources are applicable only to those portions of a manufacturing process which include an electroplating operation. When applied to captive facilities, such as those operated by aircraft engine manufacturers, only the electroplating operations described in § 413.10 are subject to the effluent limitations and standards of performance promulgated herein. Separate effluent limitations guidelines and standards of performance for the metal fabricating industries will be developed by EPA.

(11) The U.S. Department of Commerce stated that the concentration of total suspended solids upon which the limitations are based appears unrealistically low and the limitation should be revised upward.

The data presented in section IX of the Development Document for the proposed regulations show that numerous plants surveyed are achieving 15 mg/l or less total suspended solids and that an exemplary plant achieved a monthly average total suspended solids figure of 15 mg/l or less for a period of twelve consecutive months. Verification effluent sampling and analysis conducted by the EPA contractor showed an average of 22 mg/l total suspended solids in the discharge from exemplary plants based on short sampling periods. As a result of further data analysis, EPA concluded that the monthly average effluent limitations for total suspended solids should be revised upward both for existing and for new sources.

(12) A number of commenters observed that the levels specified as best practicable control technology currently available in the proposed guidelines were not achievable.

The Agency re-examined the assumptions on which the proposed guidelines were based. These assumptions included a typical water use of 80 liters/sq m of plated area, and an effluent concentration for each of the parameters controlled of 0.5 mg/l, except for cyanide, hexavalent chromium and total suspended solids, which were set at 0.05 mg/l, 0.05 mg/l and 15 mg/l respectively. While the specified concentrations were achieved by a number of the exemplary plants reviewed by the contractor, only one such plant was able to achieve the concentrations while simultaneously maintaining water usage at or below the 80 l/sq m, figure. Accordingly, the Agency believed that it would be inappropriate to establish best practicable control technology currently available solely on the basis of the performance of a single plant. With a revised water usage of 160 l/sq m, the limitations have been achieved by two plants directly studied by the contractor; moreover, industry data indicate that eight additional plants achieve this level of control. Thus, this level of performance can, with greater certainty, be said to constitute best practicable control technology currently available, and the final guidelines have been revised to reflect these findings.

(b) *Revision of the proposed regulation prior to promulgation.* As a result of public comments and continuing review and evaluation of the proposed regula-

V 39 61 MAR 28 74 XUM

tion by the EPA, the following changes have been made in the regulation:

(1) The best practicable control technology for small platers (less than 33 square meters surface plated per hour or less than 2000 amperes installed current capacity) has been redefined in § 413.12 (c) to be cyanide destruction, if any, equalization and pH adjustment to alleviate the economic impact of the guidelines on the segment of the industry most severely affected by the proposed regulations.

(2) The monthly average effluent limitations and standards of performance for total suspended solids have been revised upward to reflect the conclusions of further technical analysis.

(3) Paragraph (b) of §§ 413.12 and 413.15 have been added to require that point source dischargers maintain production records to determine compliance with the effluent limitations pursuant to section 308 of the Act.

(4) Section 304(b)(1)(B) of the Act provides for "guidelines" to implement the uniform national standards of section 301(b)(1)(A). Thus Congress recognized that some flexibility was necessary in order to take into account the complexity of the industrial world with respect to the practicability of pollution control technology. In conformity with the Congressional intent and in recognition of the possible failure of these regulations to account for all factors bearing on the practicability of control technology, it was concluded that some provision was needed to authorize flexibility in the strict application of the limitations contained in the regulation where required by special circumstances applicable to individual dischargers. Accordingly, a provision allowing flexibility in the application of the limitations representing best practicable control technology currently available has been added to each subpart, to account for special circumstances that may not have been adequately accounted for when these regulations were developed.

(5) The limitations for best practicable control technology currently available and new source performance standards have been revised to reflect a more liberal and realistic water use factor. See section IX of the Development Document for illustrations of operations and methods of applications.

(c) *Economic impact.* The economic impact of the final guidelines is expected to be significantly lower than that of the proposed guidelines because of three factors: (1) The estimate of the total number of independent plants affected by the guidelines has been reduced by eliminating plants in SIC 3471 that do not use copper, nickel, chromium or zinc in their operations, (2) plants discharging to municipal systems, approximately three-fourths of the industry, are not affected by the guidelines now being promulgated and (3) the requirements in 1977 for low volume plants (less than 33 square meters plated per hour) have been relaxed.

In light of these changes, the revised economic impact indicates that less than 100 independent operations could close as a result of the 1977 guidelines. These plants would represent fewer than 600 employees and less than 2.0 percent of the total independent plating capacity. This impact is substantially lower than the estimate of more than 500 expected closures associated with the proposed guidelines. The revised analysis for 1983 indicates fewer than 80 additional closures are expected representing about 250 employees and less than 1.0 percent of the total independent plating capacity.

Price increases for 1977 are still expected to be in the range of 15 percent for those plants not connected to municipal treatment systems. Additional increases of up to 8 percent are expected for 1983.

The potential impact cited above should have only minimal impact on overall industry viability. The total potential capacity loss for 1977 and 1983 is less than 3.0 percent. This should be replaced easily by existing plants and new plants. Moreover, although the final guidelines will affect only direct dischargers so that most of the closures will occur in semi-urban areas, it still has been estimated that half of the affected employees would be able to find re-employment in the electroplating industry.

As in the earlier analysis, it has been concluded that some captive shops could be affected by the guidelines. However, as with the independent shops, the impact on captive shops should be reduced significantly because the guidelines will apply only to direct dischargers and because the requirements for low volume operations in 1977 have been relaxed.

(d) *Cost-benefit analysis.* The detrimental effects of the constituents of waste waters now discharged by point sources within the copper, nickel, chromium, and zinc on ferrous and nonferrous materials segment of the electroplating point source category are discussed in section VI of the report entitled "Development Document for Effluent Limitations Guidelines for the Copper, Nickel, Chromium, and Zinc on Ferrous and Nonferrous Materials Manufacturing Segment of the Electroplating Point Source Category" February, 1974). It is not feasible to quantify in economic terms, particularly on a national basis, the costs resulting from the discharge of these pollutants to our Nation's waterways. Nevertheless, as indicated in section VI, the pollutants discharged have substantial and damaging impacts on the quality of water and therefore on its capacity to support healthy populations of wildlife, fish and other aquatic wildlife and on its suitability for industrial, recreational and drinking water supply uses.

The total cost of implementing the effluent limitations guidelines includes the direct capital and operating costs of the pollution control technology employed to achieve compliance and the indirect economic and environmental costs identified in Section VIII and in the supplementary report entitled "Economic Analysis of Proposed Effluent Guidelines Electroplating Industry" (September, 1973). Implementing the effluent limitations guidelines will substantially reduce the environmental harm which would otherwise be attributable to the continued discharge of polluted waste waters from existing and newly constructed plants in the electroplating industry. The Agency believes that the benefits of thus reducing the pollutants discharged justify the associated costs which, though substantial in absolute terms, represent a relatively small percentage of the total capital investment in the industry.

(e) *Solid waste control.* Solid waste control must be considered. The waterborne wastes from the electroplating industry may contain a considerable volume of metals in various forms as a part of the suspended solids pollutant. Best practicable control technology and best available control technology as they are known today, require disposal of the pollutants removed from waste waters in this industry in the form of solid wastes and liquid concentrates. In some cases these are nonhazardous substances requiring only minimal custodial care. However, some constituents may be hazardous and may require special consideration. In order to ensure long term protection of the environment from these hazardous or harmful constituents, special consideration of disposal sites must be made. All landfill sites where such hazardous wastes are disposed should be selected so as to prevent horizontal and vertical migration of these contaminants to ground or surface waters. In cases where geologic conditions may not reasonably ensure this, adequate precautions (e.g., impervious liners) should be taken to ensure long term protection to the environment from hazardous materials. Where appropriate the location of solid hazardous materials disposal sites should be permanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

(f) Publication of information on processes, procedures, or operating methods which result in the elimination or reduction of the discharge of pollutants.

In conformance with the requirements of section 304(c), a manual entitled, "Development Document for Effluent Limitations Guidelines and New Source Performance Standards for the Copper, Nickel, Chromium, and Zinc Segment of the Electroplating Point Source Category," has been published and is available for purchase from the Government Printing Office, Washington, D.C. 20401 for a nominal fee.

(g) *Final rulemaking.* In consideration of the foregoing, 40 CFR Chapter I, Subchapter N is hereby amended by adding a new Part 413, Electroplating Point Source Category, to read as set forth below.

This final regulation is promulgated as set forth below and shall be effective May 28, 1974.

Dated: March 20, 1974.

JOHN QUARLES,
Acting Aministrator.

AUTHORITY: Secs. 301, 304 (b) and (c), 306 (b) and (c) and 307(c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 1316 (b) and (c) and 1317(c)); 86 Stat. 816 et seq.; Pub. L. 92-500.

Subpart A—Electroplating of Copper, Nickel, Chromium, and Zinc on Ferrous and Nonferrous Materials Subcategory

§ 413.10 Applicability; description of the electroplating of copper, nickel, chromium, and zinc on ferrous and nonferrous materials subcategory.

The provisions of this subpart are applicable to discharges of pollutants resulting from the process in which a ferrous or nonferrous base material is rack or barrel electroplated with copper, nickel, chromium, zinc, or any combination thereof.

§ 413.11 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 136 shall apply to this subpart.

(b) The term "sq m" shall mean the area plated with copper, nickel, chromium, zinc, or treated by chromating expressed in square meters.

(c) The term "sq ft" shall mean the area plated with copper, nickel, chromium, zinc, or treated by chromating expressed in square feet.

(d) The term "operation" shall mean any step in the plating process in which copper, nickel, chromium, or zinc metal or chromate is deposited on a base material following by a rinse.

(e) The term "CN,A" shall mean those cyanides amenable to chlorination as described in 1972 Annual Book of ASTM Standards, 1972, Standard D 2036–72, Method B, page 553.

§ 413.12 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any 1 day	Effluent limitations: Average of daily values for 30 consecutive days shall not exceed—
	Metric units (milligrams per square meters per operation)	
Cu	160	80
Ni	160	80
CrVI	16	8
Cr, total	160	80
Zn	160	80
CN,A	16	8
CN, total	160	80
TSS	4,800	3,200
pH	Within the range 6.0 to 9.5.	
	English units (pounds per million square feet per operation)	
Cu	32.7	16.4
Ni	32.7	16.4
CrVI	3.3	1.6
Cr, total	32.7	16.4
Zn	32.7	16.4
CN,A	3.3	1.6
CN, total	32.7	16.4
TSS	982.0	654.0
pH	Within the range 6.0 to 9.5.	

(b) Pursuant to section 308 of the Act, point sources subject to the provisions of this subpart shall maintain records of production expressed in sq m or sq ft as defined in § 413.11 for the purpose of determining compliance with the effluent limitations in § 413.12(a) of this subpart. For the purpose of complying with the requirements of this paragraph, a discharger may establish a correlation between area plated and another parameter, such as ampere-hours used in plating.

(c) Application of the factors listed in section 304(b) requires variation from the effluent limitations set forth in § 413.12(a) for any point source subject to such effluent limitations with a production less than 33 square meters per hour or an installed direct current capacity less than 2000 amperes. For such sources, the best practicable control technology currently available consists of cyanide destruction, if any, equalization and pH adjustment to a range of 6.0 to 9.0 prior to discharge.

§ 413.13 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable: there shall be no discharge of process waste water pollutants to navigable waters.

(b) Application of the factors listed in section 304(b) of the Act may require variation from the effluent limitation set forth in this section for any point source subject to such effluent limitation with a production less than 120 sq m per hour. If variation is determined to be necessary for any such source, such source shall be subject to effluent limitations no less stringent than those required by the standards of performance for new sources set forth in § 413.15.

§ 413.14 [Reserved]

§ 413.15 Standards of performance for new sources.

(a) The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any 1 day	Effluent limitations: Average of daily values for 30 consecutive days shall not exceed—
	Metric units (milligrams per square meters per operation)	
Cu	80	40
Ni	80	40
CrVI	8	4
Cr, total	80	40
Zn	80	40
CN,A	8	4
CN, total	80	40
TSS	2,400	1,600
pH	Within the range 6.0 to 9.5.	
	English units (pounds per million square feet per operation)	
Cu	16.4	8.2
Ni	16.4	8.2
CrVI	1.6	.8
Cr, total	16.4	4.2
Zn	16.4	4.2
CN,A	1.6	.8
CN, total	16.2	4.7
TSS	491.0	327.0
pH	Within the range 6.0 to 9.5.	

V 39 61 MAR 28 74 XUM

(b) Pursuant to section 308 of the Act, point sources subject to the provisions of this subpart shall maintain records of production expressed in sq m or sq ft as defined in § 413.11 for the purpose of determining compliance with the effluent limitations in § 413.15(a) of this subpart. For the purpose of complying with the requirements of this paragraph, a discharger may establish a correlation between area plated and another parameter, such as ampere-hours used in plating.

§ 413.16 Pretreatment standards for new sources.

The pretreatment standards under section 307(c) of the Act for a source within the electroplating of copper, nickel, chromium and zinc on ferrous and nonferrous materials subcategory, which is a user of a publicly owned treatment works (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.133 shall be amended to read as follows:

In addition to the prohibitions set forth in 40 CFR 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works shall be the standard of performance for new sources specified in 40 CFR 413.15; provided that, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall, except in the case of standards providing for no discharge of pollutants, be correspondingly reduced in stringency for that pollutant.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 413]

ELECTROPLATING POINT SOURCE CATEGORY

Subpart A—Copper, Nickel, Chromium and Zinc on Ferrous and Nonferrous Materials Subcategory

PROPOSED APPLICATION OF EFFLUENT LIMITATIONS GUIDELINES FOR EXISTING SOURCES TO PRETREATMENT STANDARDS FOR INCOMPATIBLE POLLUTANTS

Notice is hereby given pursuant to sections 301, 304 and 307(b) of the Federal Water Pollution Control Act, as amended (the Act) 33 U.S.C. 1251, 1311, 1314 and 1317(b); 86 Stat. 816 et seq.; Pub. L. 92-500, that the proposed regulation set forth below concerns the application of effluent limitations guidelines for existing sources to pretreatment standards for incompatible pollutants. The proposal will amend 40 CFR Part 413—Electroplating Point Source Category, establishing for each subcategory therein the extent of application of effluent limitations guidelines to existing sources which discharge to publicly owned treatment works. The regulation is intended to be complementary to the general regulation for pretreatment standards set forth at 40 CFR 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982).

The proposed regulation is also intended to supplement a final regulation being simultaneously promulgated by the Environmental Protection Agency (EPA or Agency) which provides effluent limitations guidelines for existing sources and standards of performance and pretreatment standards for new sources within the copper, nickel, chromium and zinc on ferrous and nonferrous materials subcategory of the electroplating point source category. The latter regulation applies to the portion of a discharge which is directed to the navigable waters. The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the guidelines and standards (40 CFR Part 413) promulgated simultaneously apply. However, the proposed regulation applies to the introduction of incompatible pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories: "Compatible" and "incompatible." Compatible pollutants are generally not subject to pretreatment standards. (See 40 CFR 128.110 (State or local law) and 40 CFR 128.131 (Prohibited wastes) for requirements which may be applicable to compatible pollutants.) Incompatible pollutants are subject to pretreatment standards as provided in 40 CFR 128.133, which provides as follows:

In addition to the prohibitions set forth in § 128.131, the pretreatment standard for incompatible pollutants introduced into a publicly owned treatment works by a major contributing industry not subject to section 307 (c) of the Act shall be, for sources within the corresponding industrial or commercial category, that established by promulgated effluent limitations guidelines defining best practicable control technology currently available pursuant to sections 301(b) and 304(b) of the Act; *Provided*, That, if the publicly owned treatment works which receives the pollutants is committed, in its NPDES permit, to remove a specified percentage of any incompatible pollutant, the pretreatment standard applicable to users of such treatment works shall be correspondingly reduced for that pollutant; and provided further that when the effluent limitations guidelines for each industry are promulgated, a separate provision will be proposed concerning the application of such guidelines to pretreatment.

The regulation proposed below is intended to implement that portion of § 128.133, above, requiring that a separate provision be made stating the application to pretreatment standards of effluent limitations guidelines based upon best practicable control technology currently available.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR Part 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations guidelines is appropriate to support the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations guidelines to users of publicly owned treatment works.

Section 413.15 of the proposed regulation for point sources within the copper, nickel, chromium and zinc on ferrous and nonferrous materials subcategory (October 5, 1973; 38 FR 27699), contained the proposed pretreatment standard for new sources. The regulation promulgated simultaneously herewith contains § 413.16 which states the applicability of standards of performance for purposes of pretreatment standard for new sources.

A preliminary Development Document was made available to the public at approximately the time of publication of the notice of proposed rulemaking, and the final Development Document, entitled "Development Document for Effluent Limitations Guidelines and New Source Performance Standards for the Copper, Nickel, Chromium and Zinc Segment of the Electroplating Point Source Category," is now being published. The economic analysis report, entitled "Economic Analysis of Proposed Effluent Guidelines for the Electroplating Point Source Category (Copper, Nickel, Chromium, and Zinc)" (September, 1973), was made available at the time of proposal. Copies of the final Development Document and economic analysis report will continue to be maintained for inspection and copying during the comment period at the EPA Information Center, Room 227, West Tower, Waterside Mall, 401 M Street, SW., Washington, D.C. Copies will also be available for inspection at EPA regional offices and at State water pollution control agency offices. Copies of the Development Document may be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the economic analysis report will be available for purchase through the National Technical Information Service, Springfield, Virginia 22151.

On June 14, 1973, the Agency published procedures designed to insure that, when certain major standards, regulations, and guidelines are proposed, an explanation of their basis, purpose and environmental effects is made available to the public (38 FR 15653), the procedures are applicable to major standards, regulations and guidelines which are proposed on or after December 31, 1973, and which either prescribe national standards of environmental quality or require national emission, effluent or performance standards or limitations.

The Agency determined to implement these procedures in order to insure that the public was provided with background information to assist it in commenting on the merits of a proposed action. In brief, the procedures call for the Agency to make public the information available to it delineating the major environmental effects of a proposed action, to discuss the pertinent nonenvironmental factors affecting the decision, and to explain the viable options available to it and the reasons for the option selected.

The procedures contemplate publication of this information in the FEDERAL REGISTER, where this is practicable. They provide, however, that where such publication is impracticable because of the length of these materials, the material may be made available in an alternate format.

The Development Document referred to above contains information available to the Agency concerning the major environmental effects of the regulation proposed below. The information includes: (1) The identification of pollutants present in waste waters resulting from the electroplating of copper, nickel, chromium or zinc, the characteristics of these pollutants, and the degree of pollutant reduction obtainable through implementation of the proposed standard; and (2) the anticipated effects on other aspects of the environment (including air, subsurface waters, solid waste disposal and land use, and noise) of the treatment technologies available to meet the standard proposed.

The Development Document and the economic analysis report referred to above also contain information available to the Agency regarding the estimated cost and energy consumption implications of those treatment technologies and the potential effects of those costs on the price of electroplating. The two reports

V 39 61 MAR 28 74 XUM

exceed, in the aggregate, 100 pages in length and contain a substantial number of charts, diagrams and tables. It is clearly impracticable to publish the material contained in these documents in the FEDERAL REGISTER. To the extent possible, significant aspects of the material have been presented in summary form in the preamble to the proposed regulation containing effluent limitations guidelines, new source performance standards and pretreatment standards for new sources within the electroplating category (38 FR 27694; October 5, 1973). Additional discussion is contained in the analysis of public comments on the proposed regulation and the Agency's response to those comments. This discussion appears in the preamble to the promulgated regulation (40 CFR Part 413) which currently is being published in the rules and regulations section of this Part II of the FEDERAL REGISTER (39 FR 11510).

The options available to the Agency in establishing the level of pollutant reduction obtainable through the best practicable control technology currently available, and the reasons for the particular level of reduction selected are discussed in the documents described above. In applying the effluent limitations guidelines to pretreatment standards for the introduction of incompatible pollutants into municipal systems by existing sources in the copper, nickel, chromium and zinc on ferrous and nonferrous materials subcategory, the Agency has, essentially, three options. The first is to declare that the guidelines do not apply. The second is to apply the guidelines unchanged. The third is to modify the guidelines to reflect: (1) Differences between direct dischargers and plants utilizing municipal systems which affect the practicability of the latter employing the technology available to achieve the effluent limitations guidelines; or (2) characteristics of the relevant pollutants which require higher levels of reduction (or permit less stringent levels) in order to insure that the pollutants do not interfere with the treatment works or pass through them untreated.

As described in the Development Document, the process waste waters from the electroplating subcategory contain high concentrations of heavy metals and cyanide which could interfere with the operation of publicly owned treatment works, pass through such works untreated or inadequately treated or otherwise be incompatible with such treatment works. In the opinion of the EPA, these process waste waters should be treated to the level required by the application of the best practicable control technology currently available before discharge of these materials to publicly owned treatment works.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA Information Center, Environmental Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman. Comments on all aspects of the proposed regulations are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which is available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data is essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing pretreatment standards for existing sources, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301, 304 and 307(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Information Center, Room 227, West Tower, Waterside Mall, 401 M Street SW., Washington, D.C. 20460. The EPA information regulation, 40 CFR 2, provides that a reasonable fee may be charged for copying.

In consideration of the foregoing, it is hereby proposed that 40 CFR Part 413 be amended to add § 413.14. All comments received on or before April 29, 1974, will be considered.

Dated: March 20, 1974.

JOHN QUARLES,
Acting Administrator.

Part 413 is proposed to be amended by adding § 413.14 to Subpart A as follows:

§ 413.14 Pretreatment standards for existing sources.

For the purpose of pretreatment standards for incompatible pollutants established under 40 CFR 128.133, the effluent limitations guidelines set forth in 40 CFR 413.12 above shall apply and, subject to the provisions of 40 CFR Part 128 concerning pretreatment, process waste water from this subcategory may not be introduced into a publicly owned treatment works, except in compliance with such limitations.

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

Rules and Regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Labor; Correction

In the FEDERAL REGISTER of August 10, 1973, (FR Doc. 73-16524) appearing on page 21621, § 213.3315(a) (32) was revoked in error. Section 213.3315(a) (32) reads as follows:

§ 213.3315 Department of Labor.

(a) *Office of the Secretary.* * * *

(32) One Special Assistant to the Counselor to the Secretary.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-7296 Filed 3-28-74;8:45 am]

PART 213—EXCEPTED SERVICE

Action

Section 213.3359 is amended to show that one position of Director, Evaluation Division, and one position of Director, Policy Management Division, Office of Policy and Program Development are excepted under Schedule C.

Effective on March 29, 1974, § 213.3359 (m) and (n) are added as set out below.

§ 213.3359 Action.

* * * * *

(m) Director, Evaluation Division, Office of Policy and Program Development.

(n) Director, Policy Management Division, Office of Policy and Program Development.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-7297 Filed 3-28-74;8:45 am]

Title 39—Postal Service

CHAPTER III—POSTAL RATE COMMISSION

PART 3002—ORGANIZATION

Change in Office Hours

APRIL 1, 1974.

The hours of the Postal Rate Commission will change effective April 1, 1974. Accordingly, § 3002.2(e) of the Code of Federal Regulations is changed to:

§ 3002.2 The Commission and its offices.

* * * * *

(e) *Hours.* The offices of the Commission will be open from 8:00 a.m. to 4:30 p.m. with the Docket Section open from 8:00 a.m. to 5:15 p.m. of each day except Saturdays, Sundays, and holidays, unless otherwise directed by Executive Order or officially declared, with appropriate notice.

* * * * *

By the Commission.

[SEAL] JOSEPH A. FISHER,
Secretary.

[FR Doc.74-7271 Filed 3-28-74;8:45 am]

Title 7—Agriculture

CHAPTER VIII—AGRICULTURAL STABILIZATION AND CONSERVATION SERVICE (SUGAR), DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—SUGAR REQUIREMENTS AND QUOTAS

[Sugar Reg. 811, Amdt 3]

PART 811—CONTINENTAL SUGAR REQUIREMENTS AND AREA QUOTAS

Requirements, Quotas, and Quota Deficits for 1974

Basis and purpose and bases and considerations. This amendment is issued pursuant to the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended; 7 U.S.C. 1101), hereinafter referred to as the "Act". The purpose of this amendment to sugar regulation 811, as amended, is to determine and prorate or allocate the deficits in quotas established pursuant to the Act.

Section 204(a) of the Act provides that the Secretary shall, as often as facts are ascertainable by him but in any event not less frequently than each 60 days after the beginning of each calendar year, determine whether any area or country will not market the quota for such area or country. On the basis of the quota established for Puerto Rico for the calendar year 1974, a finding was heretofore made (38 FR 31412) that Puerto Rico will be unable to market its quota by 700,000 short tons, raw value, and accordingly a quota deficit was determined for Puerto Rico for 700,000 tons. On the basis of the latest information on sugar production from the current Puerto Rican crop, it is herein found that Puerto Rico will be unable to fill its sugar quota by an additional 55,000 short tons, raw value. Therefore, a total deficit is herein determined in the 1974 quota for Puerto Rico of 755,000 short tons, raw value.

It has been determined that on the basis of the 1973 crop harvest and the probable marketing of the 1974 crop in 1974 that the Texas Cane Area will be unable to market its 1974 quota by an estimated 40,000 tons. A deficit, therefore, is herein determined in the 1974 quota of the Texas Cane Area of 40,000 tons.

If production exceeds the present estimates for Puerto Rico or the Texas Cane Area, the marketing opportunities for each area within the total mainland quota for such area will not be limited as a result of the deficit determination and proration provided herein.

On the basis of information available to the Department, Venezuela will not be able to market any sugar to the United States in 1974. Therefore a deficit of 63,540 tons is herein determined in the quota established for Venezuela which consists of 46,726 tons of its section 202 quota and 16,814 tons of deficit declarations previously prorated to it.

Deficits determined herein for Puerto Rico, the Texas Cane Area and Venezuela totaling 158,540 tons are allocated pursuant to section 204(a) of the Act by assigning 30.08 percent of the section 202 deficits or 42,631 tons to the Republic of the Philippines and prorating the balance of 115,909 tons to Western Hemisphere countries.

On the basis of evidence submitted to the Department from Haiti, Panama, and Honduras, it is hereby determined that the combined deficits and shortfalls in their 1973 quotas of 11,446 tons, 3,363 tons, and 10,351 tons, respectively, were due to crop disaster and the quotas of these countries for future years will not be subject to reduction pursuant to section 202(d)(4) of the Act. Peru, Guatemala, Argentina and India fell short of filling their 1973 quotas through combined deficits and shortfalls totaling 25,873 tons. It is hereby determined that such deficits and shortfalls were within reasonable tolerances under circumstances which prevailed last year and that the quotas of these countries for 1974 and subsequent years will not be subject to reduction pursuant to section 202(d)(4) of the Act.

It is hereby determined that deficits previously declared and those declared herein constitute all known deficits on which data are currently ascertainable by the Department.

On the basis of preliminary data a reduction of 179,309 tons was made in the 1974 quota established for the West Indies (38 FR 31412) pursuant to section 202(d)(4) of the Act. On the basis of final import data in 1973 such reduction in

V 39 62 MAR 29 74 XUM

the 1974 quota for the West Indies is reduced herein to 178,693 tons.

In 1973 Ireland was short of filling its quota by 4,244 tons while exporting to countries other than the United States. Therefore, pursuant to section 202(d)(4) of the Act the 1974 quota currently established for Ireland is hereby reduced by 4,244 tons, the amount of its shortfall. The quantity of 4,244 tons is allocated by assigning 30.08 percent to the Republic of the Philippines and prorating the balance to Eastern Hemisphere countries pursuant to section 202(d)(5) of the Act.

By virtue of the authority vested in the Secretary of Agriculture by the Act, part 811 of this chapter is hereby amended by amending §§ 811.31, 811.32, and 811.33 as follows:

1. Section 811.31 is amended by amending paragraph (a)(2) to read as follows:

§ 811.31 Quotas for domestic areas.

(a)(1) * * *

(2) It is hereby determined pursuant to section 204(a) of the Act that for the calendar year 1974 the Domestic Beet Sugar Area, the Texas Cane Area and Puerto Rico will be unable by 725,667, 40,000 and 755,000 short tons, raw value, respectively, to fill the quotas established for such areas in paragraph (a)(1) of this section. Pursuant to section 204(b) of this Act, the determination of such deficits shall not affect the quotas established in paragraph (a)(1) of this section.

* * * * *

2. Section 811.32 is amended by amending paragraph (a) to read as follows:

§ 811.32 Proration and allocation of deficits in quotas.

(a) The total deficits determined in quotas established under section 202 of the Act in short tons, raw value, are as follows: Domestic Beet Sugar Area 725,667; Puerto Rico 755,000; the Texas Cane Area 40,000; and Venezuela 46,726. Such deficits totaling 1,567,393 short tons, raw value, are reallocated by (1) allocating 399,781 tons to the Republic of the Philippines; (2) prorating 929,278 tons to Western Hemisphere countries with quotas in effect in accordance with section 204(a) of the Act; and (3) assigning 238,334 tons to foreign countries on a first-come, first-served basis pursuant to paragraph (d)(2) of § 811.33 as set forth in Amendment 2 of this part.

3. Section 811.33 is amended by amending paragraphs (b) and (c) to read as follows:

§ 811.33 Quotas for foreign countries.

* * * * *

(b) For the calendar year 1974, the quota for the Republic of the Philippines is 1,599,081 short tons, raw value, representing 1,126,020 short tons, established pursuant to section 202(b) of the Act, 399,781 short tons established pursuant to section 204(a) of the Act and 73,280 short tons established pursuant to section 202(d) of the Act. Of the quantity of 1,126,020 short tons established pursuant to section 202(b) of the Act, only 59,920 short tons, raw value, may be filled by direct-consumption sugar pursuant to section 207(d) of the Act.

(c) For the calendar year 1974, the prorations to individual foreign countries other than the Republic of the Philippines pursuant to section 202 of the Act are shown in columns (1) and (2) of the following table. Deficit prorations previously established in this Sugar Regulation 811 are shown in column (3). New deficits and deficit prorations established herein are shown in column (4) and total quotas and prorations are shown in column (5).

Countries	Basic quotas	Temporary quotas and prorations pursuant to Sec. 202(d)[1]	Previous deficit prorations	New deficits and deficit prorations	Total quotas and prorations

Amendment 2 quotas[2]	131,572	43,428	238,334	----------	413,334
Total	2,487,137	958,563	1,068,517	52,369	4,566,586

[1] Proration of the quotas withheld from Cuba, Southern Rhodesia, Bahamas, Uganda, West Indies, Peru, Venezuela, and Ireland.

[2] Quota made available to foreign countries on a first-come, first-served basis pursuant to section 202(d)(2) of the Act and in Sugar Regulation 811, Amendment 2 (39 FR 3945). Quantities shown in columns (1), (2), and (3) represent the amounts that would have been prorated to the Philippines and countries with quotas in the respective columns had proration been made in the usual manner under section 202 (b), (c), and (d)(1) of the Act.

* * * * *

(Secs. 201, 202, 204, and 403; 61 Stat. 923, as amended, 924, as amended, 925, as amended, 932; and (7 U.S.C. 1111, 1112, 1114, and 1153).)

Effective date. This action determines deficits in the Puerto Rican, the Texas Cane Area, and Venezuela quotas of 55,000, 40,000, and 63,540 tons, respectively, and prorates and allocates such deficit to the Republic of the Philippines and Western Hemisphere quota countries. In order to promote orderly marketing, it is essential that this amendment be effective immediately so that all persons selling and purchasing sugar for consumption in the continental United States can promptly plan and market under the changed marketing opportunities. Therefore, it is hereby determined and found that compliance with the notice, procedure, and effective date requirements of 5 U.S.C. 553 is unnecessary, impracticable and contrary to the public interest and this amendment shall be effective when filed for public inspection in the Office of the Federal Register.

Signed at Washington, D.C. on March 25, 1974.

GLENN A. WEIR,
Acting Administrator, Agricultural Stabilization and Conservation Service.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 632]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Mar. 31–April 6, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total

available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.932 Lemon Regulation 632.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is easier so far this week because of unseasonal weather and the trade is clearing up stocks of fruit on hand. Average f.o.b. price was $5.94 per carton the week ended March 23, 1974 compared to $5.92 per carton the previous week. Track and rolling supplies at 152 cars were up 22 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on March 26, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period March 31, 1974, through April 6, 1974, is hereby fixed at 240,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Dated: March 27, 1974.

FLOYD F. HEDLUND,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-7416 Filed 3-28-74;8:45 am]

CHAPTER X—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MILK), DEPARTMENT OF AGRICULTURE

[Milk Order Nos. 32, 50, 62]

MILK IN THE SOUTHERN ILLINOIS, CENTRAL ILLINOIS AND ST. LOUIS-OZARKS MARKETING AREAS

Order Suspending Certain Provisions

This order of suspension is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and of the orders regulating the handling of milk in the Southern Illinois, Central Illinois and St. Louis-Ozarks marketing areas.

Notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 9387) concerning a proposed suspension of certain provisions of the orders. Interested persons were afforded opportunity to file written data, views, and arguments thereon.

After consideration of all relevant material, including the proposal set forth in the aforesaid notice, data, views, and arguments filed thereon, and other available information, it is hereby found and determined that for the months of March through December 1974, the following provisions of the orders do not tend to effectuate the declared policy of the Act:

PART 1032—MILK IN THE SOUTHERN ILLINOIS MARKETING AREA

1. In § 1032.71 that part of paragraph (f) which reads, "except for the months specified below, shall be", and the provisions contained in paragraphs (g) through (k) in their entirety.

PART 1050—MILK IN THE CENTRAL ILLINOIS MARKETING AREA

2. In § 1050.71 that part of paragraph (f) which reads, "except for the months specified below, shall be", and the provisions contained in paragraphs (g) through (k) in their entirety.

PART 1062—MILK IN ST. LOUIS-OZARKS MARKETING AREA

3. In § 1062.71 that part of paragraph (f) which reads, "except for the months specified below, shall be", and the provisions contained in paragraph (g) through (k) in their entirety.

STATEMENT OF CONSIDERATION

The suspension will make inoperative those provisions of Order Nos. 32, 50 and 62 that provide for the accumulation and disbursement of money due producers with the intent of encouraging seasonal adjustments in milk production. Under such provisions (the "takeout-payback" plan), money withheld from the pool during March through July (15 cents per hundredweight during March and July, and 25 cents per hundredweight during April, May, and June) is paid out to producers for deliveries of milk during September through December (20 percent in September and December and 30 precent in October and November).

Suspension in the Southern Illinois and St. Louis-Ozarks orders was requested by Mid-America Dairymen, Inc., and in the Southern Illinois and Central Illinois orders by Associated Milk Producers, Inc., Mississippi Valley Milk Producers and Prairie Farms Dairy, Inc.

In response to the invitation for written data, views, or arguments the National Farmers' Organization also requested that the respective provisions be suspended from the three orders for 1974. Also, a proprietary handler who obtains a substantial part of his milk from supply plants in Wisconsin supported petitioners' request as a means of preventing disorderly marketing conditions in the coming months.

The basis for the request by the petitioners is to provide the highest possible blend price to producers during the months of March through July 1974 to offset anticipated higher production costs. Also, blend prices zoned to the production areas of the respective orders could result in prices that are below competitive pay prices with other Federal order markets and with manufacturing plants competing for milk supplies. Without this suspension action the milk supply for the respective orders could be placed in jeopardy.

For the foregoing reasons, petitioners, who represent a substantial majority of

V 39 62 MAR 29 74 XUM

producers supplying the respective markets, request that the seasonal payment plan be suspended for this year in the Southern Illinois, Central Illinois and St. Louis-Ozarks markets. No opposition to the request was filed in response to the invitation for written data, views, or arguments. Accordingly, it is concluded that the specified provisions of the respective orders should be suspended for the months of March through December 1974.

It is hereby found and determined that thirty days' notice of the effective date hereof is impractical, unnecessary and contrary to the public interest in that:

(a) This suspension is necessary to reflect current marketing conditions and to maintain orderly marketing conditions in the marketing areas in that it is the only practical means of rendering the provisions inoperative for the period designated;

(b) This suspension does not require of persons affected substantial or extensive preparation prior to the effective date; and

(c) Notice of proposed rulemaking was given interested parties and they were afforded opportunity to file written data, views or arguments concerning this suspension.

Therefore, good cause exists for making this order effective for the months of March through December 1974.

It is therefore ordered, That the aforesaid provisions of the order are hereby suspended for the months of March through December 1974 effective.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Effective date: March 29, 1974.

Signed at Washington, D.C., on March 26, 1974.

CLAYTON YEUTTER,
Assistant Secretary.

[FR Doc.74-7265 Filed 3-28-74;8:45 am]

[Docket No. AO–184–A34; Milk Order 98]

PART 1098—MILK IN THE NASHVILLE, TENNESSEE, MARKETING AREA

Order Amending Order

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto: and all of the said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Nashville, Tennessee, marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary in the public interest to make this order amending the order effective not later than April 1, 1974. Any delay beyond that date would tend to disrupt the orderly marketing of milk in the marketing area.

The provisions of this order are known to handlers. The recommended decision of the Deputy Administrator, Regulatory Programs, was issued February 15, 1974, and the decision of the Assistant Secretary containing all amendment provisions of this order was issued March 18, 1974. The changes effected by this order will not require extensive preparation or substantial alteration in method of operation for handlers. In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order effective April 1, 1974, and that it would be contrary to the public interest to delay the effective date of this amendment for 30 days after its publication in the FEDERAL REGISTER. (Sec. 553(d), Administrative Procedure Act, 5 U.S.C. 551–559).

(c) *Determinations.* It is hereby determined that:

(1) The refusal or failure of handlers (excluding cooperative associations specified in Sec. 8c(9) of the Act) of more than 50 percent of the milk, which is marketed within the marketing area, to sign a proposed marketing agreement, tends to prevent the effectuation of the declared policy of the Act;

(2) The issuance of this order, amending the order, is the only practical means pursuant to the declared policy of the Act of advancing the interests of producers as defined in the order as hereby amended; and

(3) The issuance of the order amending the order is approved or favored by at least two-thirds of the producers who participated in a referendum and who during the determined representative period were engaged in the production of milk for sale in the marketing area.

ORDER RELATIVE TO HANDLING

It is therefore ordered, That on and after the effective date hereof, the handling of milk in the Nashville, Tennessee, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

1. Section 1098.7 is revised as follows:

§ 1098.7 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted regulatory agency, which milk is received at a pool plant or diverted pursuant to § 1098.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to a utilization other than Class I pursuant to § 1098.46(a)(4)(ii) and the corresponding step of § 1098.46(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

2. In § 1098.9, paragraph (a) is revised as follows:

§ 1098.9 Producer-handler.

* * * * *

(a) Produces milk and operates a distributing plant;

* * * * *

3. Section 1098.10 "Approved plant" is revoked and new §§ 1098.10 and 1098.10a are added as follows:

§ 1098.10 Distributing plant.

"Distributing plant" means a plant in which fluid milk products approved by a duly constituted regulatory agency for fluid consumption, or filled milk, are processed or packaged and from which there is route disposition in the marketing area during the month.

§ 1098.10a Supply plant.

"Supply plant" means a plant from which a fluid milk product acceptable to a duly constituted regulatory agency for fluid consumption, or filled milk, is shipped during the month to a pool plant.

4. Section 1098.11 is revised as follows:

§ 1098.11 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) A distributing plant that has route disposition, except filled milk, during

the month of not less than 50 percent of the fluid milk products, except filled milk, approved by a duly constituted regulatory agency for fluid consumption that are physically received at such plant or diverted as producer milk to a nonpool plant pursuant to § 1098.13 and that has route disposition, except filled milk, in the marketing area during the month of not less than 15 percent of its total disposition of fluid milk products, except filled milk, during the month.

(b) A supply plant from which not less than 50 percent of the total quantity of milk approved by a duly constituted regulatory agency for fluid consumption that is physically received from dairy farmers at such plant or diverted as producer milk to a nonpool plant pursuant to § 1098.13 during the month is shipped as fluid milk products, except filled milk, to pool plants pursuant to paragraph (a) of this section. A plant that was a pool plant pursuant to this paragraph in each of the immediately preceding months of August through February shall be a pool plant for the months of March through July unless the milk received at the plant does not continue to meet the requirements of a duly constituted regulatory agency or a written application is filed by the plant operator with the market administrator on or before the first day of any such month requesting that the plant be designated as a nonpool plant for such month and each subsequent month through July during which it would not otherwise qualify as a pool plant.

(c) A plant that is approved by a duly constituted regulatory agency to handle milk for fluid consumption in the marketing area that is operated by a cooperative association, for which pool plant status has been requested by the cooperative association, and from which during the month the quantity of fluid milk products (except filled milk) shipped to pool plants qualified pursuant to paragraph (a) of this section plus the milk physically received at such plants by direct delivery from the farms of producer members of the cooperative association is not less than two-thirds of the producer milk received at or diverted from pool plants of the cooperative association plus its members' producer milk received at or diverted from all other pool plants during the same month. If the cooperative association operating a plant qualified as a pool plant pursuant to this paragraph files with the market administrator prior to the first day of any month a written request for nonpool status for such month, the plant shall be a nonpool plant for such month and for each of the next 11 months in which it does not qualify as a pool plant pursuant to paragraph (a) or (b) of this section.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant qualified pursuant to paragraph (a) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another order issued pursuant to the Act and from which a greater quantity of fluid milk products, except filled milk, is disposed of during the month from such plant as route disposition in the marketing area regulated by the other order than as route disposition in the Nashville, Tenn., marketing area: *Provided,* That such a distributing plant which was a pool plant under this order in the immediately preceding month shall continue to be subject to all of the provisions of this part until the third consecutive month in which a greater proportion of its route disposition is made in such other marketing area, unless the other order requires regulation of the plant without regard to its qualifying as a pool plant under this order, subject to the proviso of this paragraph: *And provided further,* On the basis of a written application made either by the plant operator or by the cooperative association supplying milk to such operator's plant, at least 15 days prior to the date for which a determination of the Secretary is to be effective, the Secretary may determine that the route disposition in the respective marketing areas to be used for purposes of this paragraph shall exclude (for a specified period of time) route disposition made under limited term contracts to governmental bases and institutions;

(3) A distributing plant qualified pursuant to paragraph (a) of this section which meets the requirements of a fully regulated plant pursuant to the provisions of another Federal order and from which a greater quantity of Class I milk, except filled milk, is disposed of during the month in the Nashville, Tenn., marketing area as route disposition than as route disposition in the other marketing area, and such other order which fully regulates the plant does not contain provision to exempt the plant from regulation, even though such plant has greater route disposition in the marketing area of the Nashville, Tenn., order; and

(4) Any supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant qualified as a pool plant pursuant to paragraph (b) of this section during the preceding August through January period.

5. In § 1098.13, paragraph (c) is revoked and paragraph (b) is revised as follows:

§ 1098.13 Producer milk.

* * * * *

(b) Diverted from a pool plant to a non-pool plant that is not a producer-handler plant. Such milk shall be accounted for as received by the diverting handler at the location of the nonpool plant.

6. In § 1098.18 the title "Route" is changed to "Route disposition" and § 1098.18 is revised as follows:

§ 1098.18 Route disposition.

"Route disposition" means any delivery (including delivery by a vendor or a sale from a plant store) of any fluid milk product classified as Class I milk other than a delivery to a milk or filled milk processing plant.

§ 1098.53 [Amended]

7. In § 1098.53, the word "pool" as it appears in paragraph (a) thereof is deleted.

8. In § 1098.81, a new paragraph (c) is added to read as follows:

§ 1098.81 Payments to market administrator.

* * * * *

(c) On or before the 25th day after the end of the month each handler who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (c)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the lowest price class) and the lowest price class.

9. In § 1098.83, paragraph (b) is revised as follows:

§ 1098.83 Butterfat and location differentials to producers and on nonpool milk.

* * * * *

(b) In making payments to producers pursuant to § 1098.82(b), the uniform price pursuant to § 1098.71 and the uniform base price pursuant to § 1098.72 for producer milk received at a plant shall be reduced according to the location of the plant, each at the rates set forth in § 1098.53; and

* * * * *

10. In § 1098.85, paragraph (c) is revised as follows:

§ 1098.85 Expense of administration.

* * * * *

(c) Class I milk disposed of from a partially regulated distributing plant as route disposition in the marketing area that exceeds Class I milk received during the month at such plant from pool plants and other order plants.

§ 1098.91 [Deleted]

11. Section 1098.91 is deleted.

12. In § 1098.92, paragraph (b) (1) and (3) is revised as follows:

V 39 62 MAR 29 74 XUM

§ 1098.92 **Obligations of handler operating a partially regulated distributing plant.**

* * * * * *

(b) * * *

(1) Determine the respective amounts of skim milk and butterfat disposed of as route disposition in the marketing area;

(2) * * *

(3) Deduct the quantity of reconstituted skim milk in fluid milk products disposed of as route disposition in the marketing area;

* * * * * *

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Effective date: April 1, 1974.

Signed at Washington, D.C., on March 26, 1974.

CLAYTON YEUTTER,
Assistant Secretary.

[FR Doc.74–7264 Filed 3–28–74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

PART 73—SCABIES IN CATTLE

Area Quarantined

This amendment quarantines a portion of Castro County in Texas because of the existence of cattle scabies. The restrictions pertaining to the interstate movement of cattle from quarantined areas as contained in 9 CFR Part 73 as amended, will apply to the area quarantined.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, a new paragraph (a) relating to the State of Texas is added to read:

§ 73.1a **Notice of quarantine.**

(a) Notice is hereby given that cattle in certain portions of the State of Texas are affected with scabies, a contagious, infectious, and communicable disease; and therefore, the following area in such State is hereby quarantined because of said disease:

That portion of Castro County comprised of sections 1 through 4, Block 0–7, Abstract No. 999 through 1002 (G. W. Irwin Survey).

* * * * * *

(Sec. 4–7, 23 Stat. 32 as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3, 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141.)

Effective date. The foregoing amendment shall become effective on March 26, 1974.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of cattle scabies and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would made additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of March 1974.

J. K. ATWELL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–7267 Filed 3–28–74;8:45 am]

PART 73—SCABIES IN CATTLE

Release of Area Quarantined

This amendment releases a portion of Logan County in Colorado from the areas quarantined because of cattle scabies. Therefore, the restrictions pertaining to the interstate movement of cattle from quarantined areas contained in 9 CFR Part 73, as amended, will not apply to the excluded area, but the restrictions pertaining to the interstate movement of cattle from nonquarantined areas contained in said Part 73 will apply to the excluded area. No areas in Colorado remain under quarantine.

Accordingly, Part 73, Title 9, Code of Federal Regulations, as amended, restricting the interstate movement of cattle because of scabies is hereby amended as follows:

In § 73.1a, paragraph (e) relating to the State of Colorado is deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; secs. 3, 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 115, 117, 120, 121, 123–126, 134b, 134f); 37 FR 28464, 28477; 38 FR 19141)

Effective date. The foregoing amendment shall become effective on March 26, 1974.

The amendment relieves restrictions no longer deemed necessary to prevent the spread of cattle scabies and should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of March 1974.

J. K. ATWELL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–7269 Filed 3–28–74;8:45 am]

PART 78—BRUCELLOSIS

Subpart D—Designation of Modified Certified Brucellosis Areas, Specifically Approved Stockyards, and Slaughtering Establishments

MODIFIED CERTIFIED BRUCELLOSIS AREAS

This amendment deletes the following area from the list of areas designated as Modified Certified Brucellosis Areas in 9 CFR 78.13 because it has been determined that this area no longer comes within the definition of § 78.1(l): Creek County in Oklahoma.

The following counties were deleted from the list of Modified Certified Brucellosis Areas in 9 CFR 78.13 on the specified date: Pittsburg and Pottawatomie Counties in Oklahoma on March 4, 1974. Since said date, it has been determined that these counties again come within the definition of § 78.1(l); and therefore, they have been redesignated as Modified Certified Brucellosis Areas.

Accordingly, § 78.13 of said regulations designating Modified Certified Brucellosis Areas is hereby revised to read as follows:

§ 78.13 **Modified Certified Brucellosis Areas.**

(a) All States of the United States are hereby designated as Modified Certified Brucellosis Areas except Oklahoma.

(b) The following State is hereby designated as a Modified Certified Brucellosis Area except for the counties named:

Oklahoma except Creek and Muskogee Counties.

Secs. 4–7, 23 Stat. 32, as amended, secs. 1 and 2, 32 Stat. 791–792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; and secs. 3 and 11, 76 Stat. 130, 132; (21 U.S.C. 111–113, 114a–1, 115, 117, 120, 121, 125, 134b, 134f); 37 FR 28464, 28477, 38 FR 19141, 9 CFR 78.16).

Effective date. The foregoing amendment shall become effective March 29, 1974.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and relieves certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions of 5 U.S.C., it is found upon good cause that notice and other public procedure with respect to

the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 26th day of March 1974.

J. K. ATWELL,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.74–7268 Filed 3–28–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74–SW–11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to amend the Pine Bluff, Ark., control zone.

A new airport traffic control tower was commissioned on March 15, 1974, at Grider Field, Pine Bluff, Ark., and will operate from 0700–2000 local time daily. Concurrently, the Pine Bluff Flight Service Station will be part time from 0600–1800 local time daily. Weather observations will be taken either by the airport traffic control tower personnel or the flight service station personnel during the hours 0600–2000 local time daily. This will require an alteration of the Pine Bluff, Ark., control zone to part time effective 0600–2000 local time daily.

Since this amendment will impose no undue burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective on March 29, 1974, as hereinafter set forth.

In § 71.171 (39 FR 354), the Pine Bluff, Ark., control zone is amended to read:

PINE BLUFF, ARK.

That airspace within a 5-mile radius of Grider Field (latitude 34°10'35" N., longitude 91°55'55" W.) and within 2 miles each side of the Pine Bluff VORTAC 186° radial, extending from the 5-mile radius zone to 10.5 miles south of the VORTAC. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Fort Worth, Tex., on March 19, 1974.

HENRY L. NEWMAN,
Director, Southwest Region.

[FR Doc.74–7236 Filed 3–28–74;8:45 am]

[Docket No. 13580; Amdt. 909]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Miscellaneous Amendments

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, effective May 9, 1974:

Clinton, Okla.—Clinton-Sherman Arpt., VOR Rwy 35, Orig.
Grand Rapids, Mich.—Kent County Arpt., VOR Rwy 18, Amdt. 2.
Grand Rapids, Mich.—Kent County Arpt., VOR Rwy 36, Amdt. 6.
Oakdale, Calif.—Oakdale Arpt., VOR Rwy 10, Orig.

* * * effective April 11, 1974:

Pocahontas, Iowa—Pocahontas Municipal Arpt., VORTAC Rwy 29, Orig.

* * * effective March 20, 1974:

Eureka, Calif.—Murray Field, VOR–A, Amdt. 3.

2. Section 97.25 is amended by originating, amending, or canceling the following SDF–LOC–LDA SIAPs, effective May 9, 1974:

Clinton, Okla.—Clinton-Sherman Arpt., LOC (BC) Rwy 17, Orig.
Grand Rapids, Mich.—Kent County Arpt., LOC (BC) Rwy 8R, Amdt. 8.
Sioux City, Iowa—Sioux City Municipal Arpt., LOC (BC) Rwy 13, Amdt. 13.

* * * effective April 4, 1974:

Lewisburg, W. Va.—Greenbrier Valley Arpt., LOC Rwy 4, Amdt. 1, canceled.

3. Section 97.27 is amended by originating, amending, or canceling the following NDB/ADF SIAPs, effective May 9, 1974:

Clinton, Okla.—Clinton-Sherman Arpt., NDB Rwy 17, Orig.
Grand Rapids, Mich.—Kent County Arpt., NDB Rwy 26L, Amdt. 7.
Sioux City, Iowa—Sioux City Municipal, NDB Rwy 13, Amdt. 9.
Sioux City, Iowa—Sioux City Municipal, NDB Rwy 31, Amdt. 17.

* * * effective April 11, 1974:

Pocahontas, Iowa—Pocahontas Municipal Arpt., NDB Rwy 11, Orig.

* * * effective April 4, 1974:

Ashland, Ohio—Ashland County Arpt., NDB Rwy 18, Orig.
Calhoun, Ga.—Tom B. David Field, NDB Rwy 35, Orig.

* * * effective March 28, 1974:

Nome, Alaska—Nome Arpt., NDB Rwy 27, Amdt. 1.

* * * effective March 19, 1974:

Houghton Lake, Mich.—Roscommon County Arpt. NDB Rwy 27, Amdt. 3.

4. Section 97.29 is amended by originating, amending, or canceling the following ILS SIAPs, effective May 9, 1974:

Clinton, Okla.—Clinton-Sherman Arpt., ILS Rwy 35, Orig.
Grand Rapids, Mich.—Kent County Arpt., ILS Rwy 26L, Amdt. 8.
Sioux City, Iowa—Sioux City Municipal Arpt., ILS Rwy 31, Amdt. 17.

* * * effective April 4, 1974:

Lewisburg, W. Va.—Greenbrier Valley Arpt., ILS Rwy 4, Orig.

* * * effective March 20, 1974:

Louisville, Ky.—Standiford Field, ILS Rwy 1, Amdt. 1.

* * * effective March 19, 1974:

Atlantic City, N.J.—NAFEC, Atlantic City Arpt., ILS Rwy 31, Amdt. 1.

5. Section 97.31 is amended by originating, amending, or canceling the following RADAR SIAPs, effective May 9, 1974:

Sioux City, Iowa—Sioux City Municipal Arpt., RADAR–1, Orig.

Correction:

In Docket Nr. 13573, Amendment 908, to Part 97 of the Federal Aviation Regulations, published in the FEDERAL REGISTER under § 97.27, effective May 2,

CHAPTER II—CIVIL AERONAUTICS BOARD

[Reg. ER-840; Amdt. 11]

PART 241—UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

Fuel Consumption and Inventories; Reporting Requirements

Pursuant to Chairman Timm's letter of January 17, 1974, all route and supplemental air carriers have been reporting on an interim basis, fuel cost data on a form titled "CAB Form T–90, Fuel Consumption and Inventories." The letter also advised carriers to continue to file this report on a monthly basis, pending its inclusion as a schedule to the Form 41 reports of Part 241 of the Board's Economic Regulations. The reports received thus far, as well as the results of a survey conducted by the Air Transport Association of its 22 member carriers, have disclosed no substantial disagreement with the Board's need for the data nor any reason to believe that the imposition of this reporting requirement constitutes an undue burden on the carriers affected thereby.

The Board finds that it has an urgent regulatory need, so long as the present fuel situation remains basically unchanged, to have this data furnished by the carriers on a regular monthly basis. The Board therefore finds that, in view of the unquestioned need for the data to be furnished pursuant to this regulation and the demonstrated ability of the affected carriers to comply with this requirement, notice and public procedure hereon are unnecessary and would be contrary to the public interest. Accordingly, the Board has adopted the within amendment to Part 241.

The final rule incorporates substantially the same reporting requirements and instructions as were set forth in the interim reporting Form T–90. However, in light of certain questions and comments which have been raised with respect thereto, we have slightly revised the form and clarified the instructions for its completion, as more fully discussed hereinbelow.

To the extent that any of the within revisions, however minor, is regarded by an affected carrier as imposing an unnecessary reporting burden, we shall allow petitions for reconsideration with respect to such revisions. Twelve (12) copies of such petitions shall be filed with the Docket Section, Civil Aeronautics Board, Washington, D.C. 20428, on or before April 8, 1974. Copies of any petition filed will be available for inspection in the Docket Section. The filing of petitions shall not operate to stay the effective date of the within rules.

1. *Domestic and international operations.* All route and supplemental air carriers will continue to report on the new Form 41 Schedule P–5(b) (formerly designated as T–90) for fuel issued and acquired domestically for scheduled and nonscheduled operations. Such fuel as is consumed in "domestic" operations, as defined herein, is to be reported in columns (8) and (9), "Consumed By Carrier In Domestic Operations," indicating in the appropriate section of the report whether it came from the "Carrier's Storage Facilities" or was "Delivered Directly to the Aircraft by Others," as the case may be. In addition, we are adopting the suggestion of some carriers that, in order to conform to book inventories and thus make this report self-balancing, fuel drawn from domestic inventories for consumption in international operations should also be reported; this information is accordingly to be reported in columns (6) and (7), "Sold to Others and Consumed by Carrier in International Operations."[1] However, since the purpose of requiring information with respect to international operations is to facilitate balancing the carrier's inventory reports, this information is to be reported only with respect to fuel issued from "Carrier's Storage Facilities."

For the purposes of this rule, "domestic" operations are those flight stages with both terminals within the 50 States of the United States and the District of Columbia, just as the term is presently defined in section 03 of the Board's Economic Regulations. However, flight stages to and from Canada and Mexico, which are presently reported as domestic operations in the Form 41 reports, will be considered as international operations[2] for the purposes of this schedule.

It should also be noted that, although all bonded fuel will continue to be reported in Account 45.1, Aircraft Fuels, for the purposes of report Schedule P–5(b),[3] bonded fuels will be reported only to the extent that other fuel is reported.

The following examples illustrate the reporting of "domestic" and "international" operations:

EXAMPLE I

A carrier issues fuel from its "Carrier's Storage Facilities" for a flight to be operated Seattle/San Francisco/Mexico City and return to Seattle via San Francisco. The carrier would report on Schedule P–5(b), in the section for "Carrier's Storage Facilities":

1. The cost of all fuel loaded at Seattle with the next terminal to be San Francisco should be reported in columns (8) and (9), "Consumed by Carrier in Domestic Operations."

2. The cost of all fuel loaded at San Francisco with the next terminal to be Seattle should also be reported in columns (8) and (9), "Consumed by Carrier in Domestic Operations."

3. The cost of all fuel loaded at San Francisco with the next terminal to be Mexico City should be reported in columns (6) and (7), "Sold to Others and Consumed in International Operations," and the gallonage and costs so reported should be properly footnoted.

NOTE: Any fuel loaded in Mexico City is not from domestic storage facilities and information relating thereto is therefore excluded from this schedule.

EXAMPLE II

A carrier purchases fuel which is "Delivered Directly to Aircraft by Others" and operates the same flight sequence as set forth in Example I. The carrier would report on Schedule P–5(b), in the section for "Delivered Directly to Aircraft by Others":

1. The cost of all fuel loaded at Seattle with the next terminal to be San Francisco should be reported in columns (8) and (9), "Consumed by Carrier in Domestic Operations."

2. The cost of all fuel loaded in San Francisco with the next terminal to be Seattle should also be reported in columns (8) and (9), "Consumed by Carrier in Domestic Operations."

NOTE: Fuel purchased in San Francisco with the next terminal to be Mexico City would not be purchased for a "domestic" operation and would therefore not be reported.

2. *Miscellaneous clarifications.* Clarification has been requested as to which of various factors should be included or excluded in calculating the cost of fuel on Schedule P–5(b). Although shrinkage should be included in determining the cost of fuel, the following factors should be excluded from the cost of fuel:

a. "Through-put" and "in to plane" service fees,[4] and

b. Nonrefundable Federal and State excise taxes. Under the Uniform System of Accounts and Reports, "through-put" and "in to plane" service fees should be reflected in "Account 43.9, Other Services—Outside," and nonrefundable Federal and State excise taxes reflected in "Account 69, Taxes—Other than Payroll."

Clarification has also been requested as to the method used to determine cost data reported on Schedule P–5(b). The fuel costs reporter in the section for "Delivered Directly to Aircraft by Others" should be stated in terms of total actual dollars. In the section for "Carrier's Storage Facilities," the total fuel costs are to be reported and calculated on the periodic average method. In applying this method, the total cost of Beginning Inventory, Column (3), plus Receipts,[6] column (5), is weighted by the total respective gallons, columns (2) and (4). The resulting quotient should then be applied to extend the gallons issued and in ending inventory. The following will illustrate the method:

	January			February		
	Gallons	Unit cost[1]	Cost	Gallons	Unit cost[1]	Cost
Beginning inventory	525,000		$145,000	420,000		$117,600
Receipts	1,750,000		492,000	1,740,000		519,600
Total	[2] 2,275,000		[2] 637,000	[2] 2,160,000		[2] 637,200
Issues:						
Sold to others and consumed by carrier in international operations	25,000	$0.28	7,000	6,000	$0.295	1,770
Consumed by carrier in domestic operations	1,830,000	.28	512,400	1,785,000	.295	526,575
Total issues	1,855,000		519,400	1,791,000		528,345
Ending inventory	420,000	.28	117,600	369,000	.295	108,855

[1] Shown merely for illustrative purposes.
[2] See the following equation:

$$\frac{\$637,000}{2,275,000 \text{ gal}} = \$0.28 \text{ per gallon}$$

[3] See the following equation:

$$\frac{\$637,200}{2,160,000 \text{ gal}} = \$0.295 \text{ per gallon}$$

3. *Technical revisions.* Certain carriers suggested that the Board give consideration to permit grouping station data under a specified amount rather than to require that each station be reported irrespective of quantity or cost. The Board believes this suggestion has merit and accordingly the form and instructions have been revised herein to permit grouping as "Miscellaneous" all stations where less than 5,000 gallons of fuel per month are issued in total, so long as the number of stations so grouped is indicated.

Also, where space on Schedule P–5(b) is not adequate to list all stations, copies of this schedule may be attached, so long as all stations reporting "Carrier's Storage Facilities" data and all stations reporting "Delivered Directly to Aircraft by Others" data are clearly identified in the attached copies.

Other carriers have suggested that a longer reporting deadline be granted, since the current reporting deadline of 10 days is inadequate in light of the coordination problem inherent when numerous stations are reporting data. The Board believes that this suggestion has merit and accordingly we are allowing Schedule P–5(b) to be filed 15 days after the close of the month.

Finally, the Cost of Living Council has recently advised the Board that it needs the data to be reported on Schedule P–5(b) and that the data would be even more useful if broken down by fuel type. While the Board believes that this data would facilitate its own analysis and evaluation, we recognize that most carriers use the basic Jet A fuel. Accordingly, we have changed the reporting instructions only to provide that, where the amounts reported for a station include other than Jet A fuel, a footnote should be added to Schedule P–5(b) indicating the number of gallons and applicable costs of such other fuel included in the amounts reported for that station.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 241 of its Economic Regulations (14 CFR Part 241) effective May 1, 1974 as follows:

1. Amend Section 22—General Reporting Instructions, as follows:

Section 22—[Amended]

A. By adding new Schedule P–5(b) in the list in paragraph (a), titled "List of Schedules in CAB Form 41" as follows:

List of schedules in CAB Form 41 report

Schedule No.	Schedule title	Filing frequency
•	•	•
P–5(a)	Components of flight equipment depreciation	Quarterly.
P–5(b)	Fuel consumption and inventories	Monthly.
P–6	Maintenance, passenger service, and general service and administrative expense functions—all carrier groups.	Quarterly.
•	•	•

[1] In order to facilitate analysis of the data reported under this heading, we are requiring annotation of that portion of fuel volume and cost which is attributable to international operations.

[2] For purposes of this regulation, international operations shall include "territorial operations," i.e., flight stages with both terminals within territory under U.S. jurisdiction where at least one of the terminals is not within a State or the District of Columbia

[3] Filed as part of original document.

[4] Service charges or gallonage levies assessed by or against the fuel vendor or concessionaire and passed on to the carrier in a segregated and identifiable form.

[6] Commonly referred to as purchases.

V 39 62 MAR 29 74 XUM

B. By adding new Schedule P-5(b) to the list in paragraph (a) titled "Due Dates of Schedules in CAB Form 41 Report," as follows:

Due dates of schedules in CAB Form 41 report

Due date [1]	*Schedule No.*
Jan. 15_____	P-5(b).
Jan. 30_____	B-1, P-1(a), T-1, T-2, T-3, T-7, T-41.
Feb. 10 [2]____	A, B-2, B-3, B-4, B-5, B-7, B-7(b), B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-2(a), P-3, P-3(a), P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, P-8, P-9.1, P-9.2, P-10, T-6.
Feb. 15_____	P-5(b).
Mar. 1_____	B-1, P-1(a), T-1, T-7.
Mar. 15_____	P-5(b).
Mar. 30_____	B-1, B-9, B-41, B-42, B-43, B-44, B-46, P-1(a), P-41, G-41, G-42, G-43, G-44, T-1, T-7.
Apr. 15_____	P-5(b).
Apr. 30_____	B-1, P-1(a), T-1, T-2, T-3, T-7.
May 10_____	A, B-1, B-2, B-3, B-4, B-5, B-7, B-7(b), B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-(2)a, P-3, P-3(a), P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, P-8, P-9.1, P-9.2, P-10, T-6.
May 15_____	P-5(b).
May 30_____	B-1, P-1(a), T-1, T-7.
June 15_____	P-5(b).
June 30_____	B-1, P-1(a), T-1, T-7.
July 15_____	P-5(b).
July 30_____	B-1, P-1(a), T-1, T-2, T-3, T-7.
Aug. 10_____	A, A-1, B-2, B-3, B-4, B-5, B-7, B-7(b), B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-2(a), P-3, P-3(a), P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, P-8, P-9.1, P-9.2, P-10, T-6.
Aug. 15_____	P-5(b).
Aug. 30_____	B-1, P-1(a), T-1, T-7.
Sept. 15_____	P-5(b).
Sept. 30_____	B-1, P-1(a), T-1, T-2, T-3, T-7.
Oct. 15_____	P-5(b).
Oct. 30_____	B-1, P-1(a), T-1, T-7, T-41.
Nov. 10_____	A, B-2, B-3, B-4, B-5, B-7, B-7(b), B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-2(a), P-3, P-3(a), P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, P-8, P-9.1, P-9.2, P-10, T-6.
Nov. 15_____	P-5(b).
Nov. 30_____	B-1, P-1(a), T-1, T-7.
Dec. 15_____	P-5(b).
Dec. 30_____	B-1, P-1(a), T-1, T-7.

[1] Due dates falling on a Saturday, Sunday, or national holiday will become effective the first following working day.

[2] B and P reporting dates are extended to Mar. 30, if preliminary schedules are filed at the Board by Feb. 10.

2. Amend Section 24—Profit and Loss Elements, as follows:

Section 24—[Amended]

A. By inserting, following the reporting instructions for Schedule P-5(a) and preceding the reporting instructions for Schedule P-6, reporting instructions for Schedule P-5(b), to read as follows:

SCHEDULE P-5(b)—

FUEL CONSUMPTION AND INVENTORIES

(a) This schedule shall be filed monthly by all route air carriers.

(b) A single copy (original only) of this schedule shall be filed for the fuel issued and acquired from domestic sources for scheduled and nonscheduled operations conducted by the air carrier.

(c) For the purpose of this schedule, fuel drawn for domestic operations is that fuel drawn for use between certificated flight stages with both terminals within the 50 States of the United States and the District of Columbia. The cost of fuel drawn within the United States and the District of Columbia for a flight stage outside of the United States and the District of Columbia is: (1) If drawn from "Carrier's Storage Facilities," included in columns (6) and (7), "Sold to Others and Consumed by Carrier in International Operations," footnoted as to that portion so reported therein, and (2) excluded from Schedule P-5(b) if it is "Delivered Directly to Aircraft by Others."

(d) The indicated data shall be grouped in alphabetical sequence by station as to: (1) Fuel issued from "Carrier's Storage Facilities," as reported in columns (2) through (11), and (2) fuel "Delivered Directly to Aircraft by Others," as reported in columns (8) and (9) only. Where the amounts reported for a station include other than Jet A fuel, a footnote should be added to this schedule indicating the number of gallons and applicable costs included in the amounts reported for that station. However, for stations where less than 5,000 gallons of fuel per month are issued in total, the aggregate fuel information for all such stations may be reported as "Miscellaneous," denoting the number of stations so reported.

(e) The cost of fuel shall include shrinkage, but shall exclude (1) "through-put" and "in to plane" fees, i.e., service charges or gallonage levies assessed by or against the fuel vendor or concessionaire and passed on to the carrier in a segregated and identifiable form, and (2) nonrefundable Federal and State excise taxes.

(f) All costs reported under the caption "Carrier's Storage Facilities," except those actual costs which are to be reported in column (5), "Receipts," shall be computed on the periodic average method. Under this method, the average is computed by dividing the total cost of the Beginning Inventory plus Receipts during the period by the total number of units in these groups. The resulting quotient shall then be applied to extend the units issued and in ending inventory.

(g) Actual costs shall be used to report the cost of fuel under "Delivered Directly to Aircraft by Others."

(h) The beginning inventory of each schedule shall be the ending inventory of the prior period schedule. Differences shall be properly annotated and reconciled.

3. Amend Section 32—General Reporting Instructions, as follows:

Section 32 [Amended]

A. By adding new Schedule P-5(b) in the list in paragraph (a), titled "List of Schedules in CAB Form 41," as follows:

List of schedules in CAB Form 41 report

Schedule No.	Schedule title	Filing frequency
•	•	•
P-5(a)_____	Components of flight equipment depreciation_____	Quarterly.
P-5(b)_____	Fuel consumption and inventories_____	Monthly.
P-6_____	Maintenance, passenger service, and general service and administrative expense functions—all carrier groups.	Quarterly.
•	•	•

B. By adding new Schedule P-5(b) to the list in paragraph (a) titled "Due Dates of Schedules in CAB Form 41 Report," as follows:

Due dates of schedules in CAB Form 41 report

Due date [1]	*Schedule No.*
Jan. 15_____	P-5(b).
Jan. 30_____	B-11, T-3.1.
Feb. 10 [2]____	A, B-1, B-2.1, B-7, B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-3.1, P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, T-6.
Feb. 15_____	P-5(b).
Mar. 1_____	B-11, T-3.1.
Mar. 15_____	P-5(b).
Mar. 30_____	B-11, B-41, B-43, B-44, B-46, G-41, G-42, G-43, G-44, T-3.1.
Apr. 15_____	P-5(b).
Apr. 30_____	B-11, T-3.1.
May 10_____	A, B-1, B-2.1, B-7, B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-3.1, P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, T-6.
May 15_____	P-5(b).
May 30_____	B-11, T-3.1.
June 15_____	P-5(b).
June 30_____	B-11, T-3.1.
July 15_____	P-5(b).
July 30_____	B-11, T-3.1.
Aug. 10_____	A, A-1, B-1, B-2.1, B-7, B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-3.1, P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, T-6.
Aug. 15_____	P-5(b).
Aug. 30_____	B-11, T-3.1.
Sept. 15_____	P-5(b).
Sept. 30_____	B-11, T-3.1.
Oct. 15_____	P-5(b).
Oct. 30_____	B-11, T-3.1.
Nov. 10_____	A, B-1, B-2.1, B-7, B-8, B-10, B-12, B-13, B-14, P-1.1, P-1.2, P-2, P-3.1, P-4, P-5.1, P-5.2, P-5(a), P-6, P-7, T-6.
Nov. 15_____	P-5(b).
Nov. 30_____	B-11, T-3.1.
Dec. 15_____	P-5(b).
Dec. 30_____	B-11, T-3.1.

[1] Due dates falling on a Saturday, Sunday, or national holiday will become effective the first following working day.

[2] B and P reporting dates are extended to Mar. 30, if preliminary schedules are filed at the Board by Feb. 10.

4. Amend Section 34—Profit and Loss Elements, as follows:

Section 34—[Amended]

A. By inserting, following the reporting instructions for Schedule P-5(a) and preceding the reporting instructions for Schedule P-6, reporting instructions for Schedule P-5(b), to read as follows:

SCHEDULE P-5(b)—FUEL CONSUMPTION AND INVENTORIES

(a) This schedule shall be filed monthly by all supplemental air carriers.

(b) A single copy (original only) of this schedule shall be filed for the fuel issued and acquired from domestic sources for scheduled and nonscheduled

V 39 62 MAR 29 74 XUM

operations conducted by the air carrier.

(c) For the purposes of this schedule, fuel drawn for domestic operations is that fuel drawn for use between certificated flight stages with both terminals within the 50 States of the United States and the District of Columbia. The cost of fuel drawn within the United States and the District of Columbia for a flight stage outside of the United States and the District of Columbia is: (1) If drawn from "Carrier's Storage Facilities," included in columns (6) and (7), "Sold to Others and Consumed by Carrier in International Operations," footnoted as to that portion so reported therein, and (2) excluded from Schedule P-5(b) if it is "Delivered Directly to Aircraft by Others."

(d) The indicated data shall be grouped in alphabetical sequence by station as to (1) fuel issued from "Carrier's Storage Facilities," as reported in columns (2) through (11) and (2) Fuel "Delivered Directly to Aircraft by Others," reported in columns (8) and (9) only. Where the amounts reported for a station include other than Jet A fuel, a footnote should be added to this schedule indicating the number of gallons and applicable costs included in the amounts reported for that station. However, for stations where less than 5,000 gallons of fuel per month are issued in total, the aggregate fuel information for all such stations may be reported as "Miscellaneous," denoting the number of stations so reported.

(e) The cost of fuel shall include shrinkage, but shall exclude (1) "through-put" and "in to plane" fees, i.e., service charges or gallonage levies assessed by or against the fuel vendor or concessionaire and passed on to the carrier in a segregated and identifiable form and (2) nonrefundable Federal and State excise taxes.

(f) All costs reported under the caption "Carrier's Storage Facilities," except those actual costs which are to be reported in column (5), "Receipts," shall be computed on the periodic average method. Under this method, the average is computed by dividing the total cost of the Beginning Inventory plus Receipts during the period by the total number of units in these groups. The resulting quotient shall then be applied to extend the units issued and in ending inventory.

(g) Actual costs shall be used to report the cost of fuel under "Delivered Directly to Aircraft by Others."

(h) The beginning inventory of each schedule shall be the ending inventory of the prior-period schedule. Differences shall be properly annotated and reconciled.

5. Amend CAB Form 41 by adding new Schedule P-5(b) as shown in Exhibit A below to the rule and made a part thereof.

(Secs. 204(a) and 407 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 766 (49 U.S.C. 1324, 1377))

Effective: May 1, 1974.

Adopted: March 14, 1974.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

NOTE: The reporting requirements herein have been approved by the General Accounting Office in accordance with the Federal Reports Act of 1942, as amended.

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER A—GENERAL

SUBCHAPTER C—DRUGS

SUBCHAPTER F—BIOLOGICS

RECODIFICATION EDITORIAL AMENDMENTS

The Commissioner of Food and Drugs, for the purpose of establishing an orderly development of informative regulations for the Food and Drug Administration, furnishing ample room for expansion of such regulations in years ahead, and providing the public and affected industries with regulations that are easy to find, read, and understand, has initiated a recodification program for Chapter I of Title 21 of the Code of Federal Regulations.

The fifth document in a series of recodification documents that will eventually include all regulations administered by the Food and Drug Administration appears elsewhere in this issue of the FEDERAL REGISTER. The regulations formerly under Parts 130, 131, 164, 165, and 167 of Subchapter C—Drugs, have been reorganized into Parts 310, 312, 314, 328, 329, 330, 369, and 429 of new Subchapter D—Drugs for Human Use, in an effort to provide greater clarity and adequate space for the development of future regulations.

These recodified regulations are referenced in Parts 1, 2, 3, 8, 132, 135, 144, 146, and 601 of this chapter.

Regulations pertaining to veterinary drugs have been left in Part 131.

To provide uniformity and continuity during the recodification the Commissioner concludes that the references to the recodified material should be revised at this time, and the title of Part 131 be revised to reflect its new composition. Therefore, Parts 1, 2, 3, 8, 131, 132, 135, 144, 146, and 601 of Chapter I of Title 21 of the Code of Federal Regulations are amended as follows:

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

§ 1.102 [Amended]

1. In § 1.102(b) by changing the reference "§ 164.7" to read "§ 429.12."

§ 1.106 [Amended]

2. In § 1.106:

a. In paragraph (j), by changing the reference "§ 167.1(a)" to read "§ 328.3(a)"; and by changing the reference "Part 167" to read "Part 328."

b. In paragraph (l)(2) by changing the reference "§ 130.3" to read "§ 312.1."

§ 1.115 [Amended]

3. In § 1.115(b)(2) by changing the reference "Part 164" to read "Part 429."

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

§ 2.65 [Amended]

4. In § 2.65(a) by changing the parenthetical reference "(21 CFR Parts 164 and 8, respectively)" to read "(21 CFR Parts 429 and 8, respectively)."

§ 2.121 [Amended]

5. In § 2.121:

a. In paragraph (u) (1) and (2) by changing the reference "§ 130.3" to read "§ 312.1"; and by changing the reference "§ 130.3a" to read "§ 312.9."

PART 3—STATEMENTS OF GENERAL POLICY OR INTERPRETATION

§ 3.15 [Amended]

6. In § 315(a)(2) by changing the reference "§ 130.4(c)" to read "§ 314.1(c)."

§ 3.29 [Amended]

7. In § 3.29(c)(3) by changing the reference "§ 130.4(c)" to read ""§ 314.1(c)."

§ 3.36 [Amended]

8. In § 3.36(d) by changing the reference "§ 130.4(c)" to read "§ 314.1(c)."

§ 3.48 [Amended]

9. In § 3.48(c) by changing the reference "§ 130.3" to read "§ 312.1."

§ 3.52 [Amended]

10. In § 3.52:

a. By changing the reference "§ 130.3" in the introductory text of paragraph (c) to read "§ 312.1."

b. In paragraph (d)(1) by changing the reference "§ 130.3a(a)" to read "§ 312.9(a)."

§ 3.53 [Amended]

11. In § 3.53(c) by changing the reference "§ 130.3" to read "§ 312.1."

§ 3.67 [Amended]

12. In § 3.67(d)(2) by changing the reference "§ 130.4(c)(2)" to read "§ 314.1(c)(2)."

§ 3.77 [Amended]

13. In § 3.77(b), by changing the phrase "Bureau of Narcotics and Dangerous Drugs" to read "Drug Enforcement Administration, Department of Justice" each time it appears; and by changing the reference "§ 130.44" to read "§ 310.505."

§ 3.81 [Amended]

14. In § 3.81(d) by changing the reference "§ 130.9 (d) and (e)" to read "§ 314.8(d) and (e)."

§ 3.90 [Amended]

15. In § 3.90(d) by changing the reference "§ 130.9(d)" to read "§ 314.8(d)."

§ 3.91 [Amended]

16. In § 3.91:

a. In paragraph (c)(4)(ii) by changing the reference "§ 130.9(d)" to read "§ 314.8(d)."

b. In paragraph (c)(4)(v) by changing the reference "§ 130.4" to read "§ 314.1" each time it appears.

PART 8—COLOR ADDITIVES

§ 8.28 [Amended]

17. In § 8.28(b) by changing in the last sentence the reference "§§ 130.14–130.26 of this chapter" to read "§§ 314.200 through 314.232 of this chapter."

PART 131—INTERPRETIVE STATEMENTS RE WARNINGS ON VETERINARY DRUGS FOR OVER-THE-COUNTER SALE

18. The heading for Part 131 is revised to read as set forth above.

PART 132—REGISTRATION OF PRODUCERS OF DRUGS AND LISTING OF DRUGS IN COMMERCIAL DISTRIBUTION

§ 132.1 [Amended]

19. In § 132.1(d) by changing the reference "§ 130.3" to read "§ 312.1."

§ 132.1 [Amended]

20. In § 132.31(b) by changing the reference "§ 130.3" to read "§ 312.1 of this chapter."

PART 135—NEW ANIMAL DRUGS

§ 135.1 [Amended]

21. In § 135.1(1) by changing the reference "§ 130.38" to read "§ 310.9."

§ 135.37 [Amended]

22. In the introductory text of § 135.37 by changing the reference "§ 130.38" to read "§ 310.9."

PART 144—ANTIBIOTIC DRUGS; EXEMPTIONS FROM LABELING AND CERTIFICATION REQUIREMENTS

§ 144.8 [Amended]

23. In § 144.8 by changing the reference "§ 130.3," each time it appears, to read "§ 312.1."

§ 144.26 [Amended]

24. In § 144.26(b)(18)(i), (22)(i), (32)(i), (35), (39), (42), (44), (45), (49), (50), (54), (56), (59), (60), (61), (62), and (63), by changing the reference "§ 130.4(c)(3)" to read "§ 314.1(c)(3)"; and by changing the reference "§ 130.9" to read "§ 314.8."

PART 146—ANTIBIOTIC DRUGS; PROCEDURAL AND INTERPRETIVE REGULATIONS

§ 146.1 [Amended]

25. In § 146.1(g)(2) by changing the reference "§ 130.12(a)(5)" to read "§ 314.111(a)(5)."

PART 601—LICENSING

§ 601.25 [Amended]

26. In § 601.25(d)(2) by changing the reference "§ 130.12(a)(5)(ii)" to read "§ 314.111(a)(5)(ii)."

The changes being made are nonsubstantive in nature and for this reason notice and public procedure are not prerequisites to this promulgation.

Dated: March 27, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.74-7384 Filed 3-28-74;8:45 am]

Chapter II—Drug Enforcement Administration; Department of Justice

Part 1301—Registration of Manufacturers, Distributors, and Dispensers of Controlled Substances

Part 1308—Schedules of Controlled Substances

Etorphine Hydrochloride Transfer to Schedule II

A notice dated November 15, 1973, and published in the FEDERAL REGISTER on November 23, 1973 (38 FR 32262) proposed the transfer of etorphine hydrochloride from Schedule I to Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (Pub. L. 91-513). All interested persons were given 30 days after publication to submit their objections, comments, or requests for a hearing.

In response to the said notice, the Administration received two comments and one objection. The Department of Health and Social Services, State of Wisconsin by letter dated December 20, 1973, concurred in the proposed transfer. The Division of Wildlife, Department of Wildlife, State of Colorado, by letter dated December 10, 1973, suggested that the distribution of etorphine hydrochloride should not be limited to licensed veterinarians. The Food and Drug Administration has restricted the use of etorphine hydrochloride and diprenorphine by or on the order of a licensed veterinarian. The Drug Enforcement Administration shall transmit additional information to the Food and Drug Administration indicating its willingness to permit other qualified persons to use these substances if the Food and Drug Administration deems it proper and changes the labelling of the substances.

The American Pharmaceutical Association by letter dated December 20, 1973, objected to the restricted distribution of etorphine hydrochloride alleging that the Drug Enforcement Administration does not have the authority to deny any registrant the right to distribute controlled substances in schedules for which he is registered without deciding whether the American Pharmaceutical Association is an interested party with standing to object to the regulation, the Administration clearly has the authority to proscribe regulation, the Administration clearly has the authority to proscribe regulations restricting the distribution of etorphine hydrochloride. Section 871(b) of Title 21 of the United States Code provides that "the Attorney General may promulgate and enforce any rules, regulations, and procedures which he may deem necessary and appropriate for the efficient execution of his functions under this title." Additional authority is found in Sections 301, 307, and 308 of the Controlled Substances Act (21 U.S.C. 827, 828 and 871(b)).

The Administration does acknowledge the necessity for codification of these procedures and amendments to Title 21 of the Code of Federal Regulations are published in this volume of the FEDERAL REGISTER.

Based upon the investigations of the Drug Enforcement Administration and upon the scientific and medical evaluation and recommendation of the Secretary of Health, Education, and Welfare, received pursuant to section 201(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(b)), the Administrator of the Drug Enforcement Administration finds that etorphine hydrochloride:

(1) Has a high potential for abuse;

(2) Has a currently accepted medical use in treatment in the United States with severe restrictions; and

(3) May, if abused, lead to severe psychological or physical dependence.

On July 3, 1973 (38 FR 17717), the Administrator of the Drug Enforcement Administration ordered that § 1308.11(c) of Title 21 of the Code of Federal Regulations be amended by adding a new item, Drotebanol. The amendment to § 1308.11(c) renumbers the items therein to place Drotebanol in alphabetical order with the other controlled substances.

Therefore, under the authority vested in the Attorney General by section 201(a) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 811(a)), and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the Code of Federal Regulations (see 38 FR 18380, July 2, 1973) the Administrator orders that:

a. Section 1301.02(b) of Title 21 of the Code of Federal Regulations be amended by inserting a new paragraph (b)(4)(iv) and renumbering paragraphs (b)(4)(iv)–(xiv) to read:

V 39 62 MAR 29 74 XUM

§ 1301.02 Definitions.

• • • • • •

(b) • • •

(4) • • •

(iv) Etorphine hydrochloride;

(v) Ethylmorphine;

(vi) Hydrocodone;

(vii) Hydromorphone;

(viii) Metopon;

(ix) Morphine;

(x) Oxycodone;

(xi) Oxymorphone;

(xii) Thebaine;

(xiii) Mixed alkaloids of opium listed in § 1308.12(b)(2) of this chapter;

(xiv) Cocaine; and

(xv) Ecgonine;

b. Section 1308.11(c) of Title 21 of the Code of Federal Regulations be amended by revising subparagraphs (9)–(23) of paragraph (c) to read:

§ 1308.11 Schedule I.

• • • • • •

(c) • • •

(9) Drotebanol	9335
(10) Etorphine (except hydrochloride salt)	9056
(11) Heroin	9200
(12) Hydromorphinol	9301
(13) Methyldesorphine	9302
(14) Methyldihydromorphine	9304
(15) Morphine methylbromide	9306
(16) Morphine methylsulfonate	9306
(17) Morphine-N-Oxide	9307
(18) Myrophine	9308
(19) Nicocodeine	9309
(20) Nicomorphine	9312
(21) Normorphine	9313
(22) Pholcodine	9314
(23) Thebacon	9315

(c) Section 1308.12(b) of Title 21 of the Code of Federal Regulations be amended by revising paragraph (b)(1) to read:

§ 1308.12 Schedule II.

• • • • • •

(b) • • •

(1) Opium and opiate, and any salt, compound, derivative, or preparation of opium of opiate, excluding naloxone hydrochloride, but including the following:

(i) Raw opium	9600
(ii) Opium extracts	9610
(iii) Opium fluid extracts	9620
(iv) Powdered opium	9639
(v) Granulated opium	9640
(vi) Tincture of opium	9630
(vii) Apomorphine	9030
(viii) Codeine	9050
(ix) Ethylmorphine	9190
(x) Etorphine hydrochloride	9059
(xi) Hydrocodone	9193
(xii) Hydromorphone	9194
(xiii) Metopon	9260
(xiv) Morphine	9300
(xv) Oxycodone	9143
(xvi) Oxymorphone	9652
(xvii) Thebaine	9333

• • • • • •

The requirements imposed on the substance controlled by this order are as follows:

1. *Registration.* Any person who manufactures, distributes, engages in research, imports or exports any of this substance or who proposes to engage in the manufacture, distribution, importation, or exportation of, or research with, this substance shall obtain a registration to conduct that activity on or before April 19, 1974.

2. *Security.* This substance must be manufactured, distributed and stored in accordance with §§ 1301.71, 1301.72(a), 1301.73, 1301.74(a), 1301.75, and § 1301.76 of Title 21 of the Code of Federal Regulations. In addition, all registrants desiring to handle etorphine hydrochloride will be required to use a safe or steel cabinet equivalent to a U.S. Government Class V security container after August 1, 1974. In the event that this imposes special hardships, the Drug Enforcement Administration will entertain any justified requests for extensions of time.

3. *Labelling and packaging.* All labels on commercial containers of, and all labelling of, this substance which is packaged after April 19, 1974 shall comply with the requirements of §§ 1302.03–1302.05 and 1302.08 of Title 21 of the Code of Federal Regulations. In accordance with § 1302.08 of Title 21 of the Code of Federal Regulations, the Administrator finds that in order to protect the public health and safety early compliance with these requirements is necessitated by the high potential for abuse and the limited medical use of this substance. The shipment of etorphine hydrochloride should be under secure conditions using substantial packaging material with no markings on the outside of the package which would indicate the content. Shipment would be by the most secure means of transport available.

4. *Quotas.* Quotas for this substance have been established pursuant to section 1303 of Title 21 of the Code of Federal Regulations.

5. *Inventory.* Registrants possessing this substance will not be required to take an additional inventory.

6. *Records.* All registrants shall continue to keep records pursuant to §§ 1304.21–1304.27 of Title 21 of the Code of Federal Regulations. In addition, records for this substance shall be maintained separately from all other records on or before April 19, 1974.

7. *Reports.* All registrants are required to continue filing reports pursuant to Sections 1304.37–1304.41 of Title 21 of the Code of Federal Regulations. In addition, registrants supplying this substance are required to forward copies of the order forms received to the Drug Enforcement Administration on a weekly basis on or before April 19, 1974.

8. *Order forms.* Each distribution of this substance requires the use of an order form pursuant to Part 1305.03 of Title 21 of the Code of Federal Regulations. Order forms for etorphine hydrochloride shall contain this substance alone or with diprenorphine (but shall not contain any other substance) on or after April 19, 1974.

9. *Prescriptions.* The Food and Drug Administration has restricted the use of this substance by or on the order of a licensed veterinarian. Therefore, this substance is not to be obtained by use of a prescription.

10. *Importation and exportation.* All importation and exportation of any of this substance on or after April 19, 1974 shall be in compliance with Part 1312 of Title 21 of the Code of Federal Regulations.

11. *Criminal liability.* Any activity with etorphine hydrochloride not authorized by or in violation of the Controlled Substances Act or the Controlled Substances Import and Export Act before April 19, 1974 shall be unlawful. The applicable penalties shall be those of a Schedule I narcotic controlled substance. On April 19, 1974, etorphine hydrochloride for the purposes of criminal liability shall be treated as a Schedule II controlled substance. It should be noted that penalties of Schedule I or II narcotic controlled substances are the same. The only effect of the transfer will be for pleading purposes.

12. Other. In all other respects, this order is effective on April 19, 1974.

Dated: March 25, 1974.

JOHN R. BARTELS, Jr.,
Administrator,
Drug Enforcement Administration.

[FR Doc.74–7275 Filed 3–28–74;8:45 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

[T.D. 7309]

PART 301—PROCEDURE AND ADMINISTRATION

Time for Performance of Acts Where Last Day Falls on a Legal Holiday

By a notice of proposed rulemaking appearing in the FEDERAL REGISTER for Monday, July 16, 1973 (38 FR 18897), an amendment to the regulations on Procedure and Administration (26 CFR Part 301) under section 7503 of the Internal Revenue Code of 1954 was proposed in order to conform such regulations to the changes made by Pub. L. 90–363, 82 Stat. 250, which amended 5 U.S.C. 6103(a), regarding the observance of certain legal holidays on Monday. The amendment of 5 U.S.C. 6103(a) was effective on January 1, 1971. After consideration of all such relevant matter as was presented by interested persons, certain changes were made, and the proposed amendment of the regulations, subject to the changes indicated below, is adopted by this document.

The amendment to the regulations is designed to conform § 301.7503–1(b)(1) to the present District of Columbia law regarding the date of observance of legal holidays. The District of Columbia now observes Washington's Birthday on the third Monday in February, Memorial Day on the last Monday in May, Veterans' Day on the fourth Monday in October, and Thanksgiving on the fourth Thursday in November. Columbus Day is also considered a legal holiday in the District of Columbia for all calendar years after 1970, and is observed on the second Monday in October. Under the amendment of the regulations, the dates of observance of these holidays for purposes of the Internal Revenue Code of 1954 will correspond to the dates of observance of these holidays in the District of Columbia. So that the amendment to the regulations will not adversely affect certain taxpayers who relied on the current regulations, for the calendar years 1971, 1972, 1973, and 1974, taxpayers may, at their option (except with respect to the performance of any act relating to the jurisdiction of a court), treat Washington's Birthday as falling on either February 22 or the third Monday in February. For the calendar years 1971, 1972, and 1973, taxpayers may, at their option (except with respect to the performance of any act relating to the jurisdiction of a court), treat Memorial Day as falling on either May 30 or the last Monday in May, and Veterans' Day as falling on either November 11 or the fourth Monday in October. The option is denied to taxpayers in those cases where the performance of an act relates to the jurisdiction of a court in order to be consistent with William M. Winkler, 56 T.C. 844 (1971). In that case the United States Tax Court held that in computing the 150-day filing requirement of section 6213(a) of the Code, Monday, February 15, 1971, was a legal holiday (Washington's Birthday) in the District of Columbia. The Tax Court made no mention of the availability of an option in cases where the performance of an act relates to the jurisdiction of a court.

The proposed regulations did not extend optional treatment to Veterans' Day for 1973 or Washington's Birthday for 1974.

Pursuant to paragraph 4(a) of Treasury Order 221, published in the FEDERAL REGISTER for June 10, 1972 (37 FR 11696), certain regulations of the Internal Revenue Service continue in effect as regulations of the Bureau of Alcohol, Tobacco, and Firearms until superseded or revised. The regulations amended by this Treasury decision are among those that continue to apply for purposes of the laws administered by the Bureau in addition to applying for purposes of the laws administered by the Internal Revenue Service. The Director, Bureau of Alcohol, Tobacco, and Firearms has, for this reason, joined as a signatory to this Treasury decision.

Adoption of amendment to the regulations. On Monday, July 16, 1973, a notice of proposed rulemaking was published in the FEDERAL REGISTER (33 FR 18897) to amend the Regulations on Procedure and Administration (26 CFR Part 301) under section 7503 of the Internal Revenue Code of 1954 in order to conform such regulations to the changes made by Pub. L. 90–363, 82 Stat. 250, which amended 5 U.S.C. 6103(a), regarding the observance of certain legal holidays on Monday. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the following regulations are hereby adopted:

PARAGRAPH (b)(1) of § 301.7503–1 is amended as set forth below:

(This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917 (26 U.S.C. 7805)))

REX D. DAVIS,
Director, Bureau of Alcohol, Tobacco, and Firearms.

DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: March 22, 1974.

JOHN H. HALL,
Deputy Assistant Secretary of the Treasury.

Paragraph (b)(1) of § 301.7503–1 is amended to read as follows:

§ 301.7503–1 Time for performance of acts where last day falls on Saturday, Sunday, or legal holiday.

• • • • • •

(b) *Legal holidays.* (1) For the purpose of section 7503, the term "legal holiday" includes the legal holidays in the District of Columbia. Such legal holidays found in D.C. Code Ann. § 28–2701 (1967) and 5 U.S.C. 6103(a), as enacted and made effective by the Act of June 28, 1968 (82 Stat. 250), are—

(i) January 1, New Year's Day,

(ii) January 20, when such day is Inauguration Day,

(iii) Third Monday in February, Washington's Birthday,

(iv) Last Monday in May, Memorial Day,

(v) July 4, Independence Day,

(vi) First Monday in September, Labor Day,

(vii) Second Monday in October, Columbus Day,

(viii) Fourth Monday in October, Veterans' Day,

(ix) Fourth Thursday in November, Thanksgiving Day, and

(x) December 25, Christmas Day.

When a legal holiday in the District of Columbia falls on a Sunday, the next day is a legal holiday in the District of Columbia (see D.C. Code Ann. § 28–2701 (1967)). For the purpose of section 7503, when a legal holiday in the District of Columbia (other than Inauguration Day) falls on a Saturday it shall be treated as falling on the preceding Friday. For calendar years prior to 1971, Washington's Birthday will be treated as falling on February 22, Memorial Day on May 30, and Veterans' Day on November 11. For calendar years 1971, 1972, 1973, and 1974, the taxpayer may, at his option (except with respect to the performance of any act relating to the jurisdiction of a court), treat Washington's Birthday as falling on either February 22 or the third Monday in February. For calendar years 1971, 1972, and 1973, the taxpayer may, at his option (except with respect to the performance of any act relating to the jurisdiction of a court), treat Memorial Day as falling on either May 30 or the last Monday in May, and Veterans' Day as falling on either November 11 or the fourth Monday in October. Columbus Day is not a legal holiday in the District of Columbia in any calendar year prior to 1971.

[FR Doc.74–7342 Filed 3–27–74;8:45 am]

[T. D. 7310]

PART 301—PROCEDURE AND ADMINISTRATION

Disclosure or Use of Information by Preparers of Returns

By a notice of proposed rulemaking appearing in the FEDERAL REGISTER for December 20, 1972 (37 FR 28070), amendments to the Regulations on Procedure and Administration (26 CFR Part 301) were proposed in order to conform the regulations to section 7216 of the Internal Revenue Code of 1954, relating to the disclosure or use of information by preparers of returns, as added by section 316 of the Revenue Act of 1971 (85 Stat. 529). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the proposed amendments of the regulations, subject to the changes indicated below, are adopted by this document.

Section 7216(a) of the Code provides that any person who is engaged in the business of preparing, or providing services in connection with the preparation of, income tax returns or declarations of estimated tax and who discloses any tax return information or uses such information for any purpose other than to prepare, or assist in preparing, a return shall be guilty of a misdemeanor and, upon conviction thereof, shall be fined not more than $1,000, or imprisoned not more than 1 year, or both. Section 7216(a) also applies to any person who for compensation prepares any such return or declaration, whether or not such person is in the tax return preparer business.

Section 7216(b) provides certain exceptions to the new penalty rule. A tax return preparer may without penalty disclose tax return information if such disclosure is made pursuant to any other provision of the Internal Revenue Code or pursuant to an order of a court. The penalty does not apply to the use of information in the preparation of State and local tax returns. Furthermore, the Secretary or his delegate is authorized to prescribe regulations under which other disclosures or uses will not be subject to the penalty.

As published with the notice of proposed rule making, § 301.7216–1 contained in paragraph (a) the general rule for the application of section 7216 and in paragraph (b) detailed definitions of the terms "tax return", "tax return preparer", "tax return processor", and "tax return information". This document makes a technical change in paragraph (a) to make clear that the tax return referred to therein is the return of the taxpayer in respect of whom the information was furnished. Paragraph (b) is revised substantially by this document. The distinction between a tax return preparer and a tax return processor is eliminated. Persons who under the notice of

V 39 162
MAR 29 74
XUM

proposed rule making were defined as tax return processors are included within the new definition of tax return preparers. As a result of this revision, all of the disclosures or uses permitted without formal written consent under § 301.7216–2, and with formal written consent under § 301.7216–3, are applicable to all persons classified as tax return preparers.

Pursuant to the authority granted to the Secretary or his delegate, § 301.7216–2, as set forth in the notice of proposed rule making provided that certain disclosures or uses of tax return information were permitted without the formal written consent of the taxpayer. The taxpayer's attorney was permitted to disclose or use tax return information in connection with the rendering of legal services, such as estate planning, preparation of trial briefs, etc., to the taxpayer. Accountants were permitted to disclose or use tax return information in the preparation of books of account, working papers, and accounting statements or reports, or in the performance of other services for a taxpayer. In addition, other disclosures without the formal written consent of the taxpayer were permitted, such as a disclosure by a tax return preparer to a tax return processor, or a disclosure by one employee to another employee of a tax return preparer or a tax return processor.

A number of changes have been made by this document in proposed § 301.7216–2. Thus, a new paragraph (b) has been added to authorize in appropriate circumstances the disclosure or use, in the preparation of a tax return of one taxpayer, of tax return information furnished by another taxpayer. These situations are limited to those involving related taxpayers having no adverse interest. The rules governing attorneys and accountants have been combined and revised, and specifically extended to corporate fiduciaries, such as trust companies and bank trust departments, with the objective of permitting, without formal written consent of the taxpayer, the disclosure or use of tax return information in the customary and ordinary course of performing the professional or fiduciary services to or for the taxpayer. Another new rule makes clear that a tax return preparer may, without penalty, make tax return information available to the fiduciary of a taxpayer who, after furnishing the information, has become incompetent, insolvent, or bankrupt, or to the fiduciary of the estate of a deceased taxpayer. The rule on disclosure by one employee to another employee of a tax return preparer has been clarified and made applicable to officers and partners. The rule relating to use of information in the preparation of State returns has been expanded to apply to disclosure or use in the preparation or audit of State returns. In addition, the rules on retention of records and compiling of taxpayer lists have been made less restrictive.

Under the notice of proposed rule making, and pursuant to the authority granted to the Secretary or his delegate, certain disclosures or uses were permitted under § 301.7216–3 only with the formal written consent of the taxpayer. These consents were required to permit tax return preparers to use tax return information in connection with the solicitation of certain additional current business, to allow lawyers and accountants to disclose to third parties, and to permit tax return preparers to use the tax return information of one taxpayer in preparing the tax return of another taxpayer entering into a tax-related transaction with the first. These rules were intended to cover situations where tax return information could not be disclosed or used pursuant to § 301.7216–2.

Section 301.7216–3 has been revised in this document. The rule on solicitation of current business has been revised so that it applies only to matters not related to the Internal Revenue Service. Existing rules in Treasury Department Circular No. 230 (31 CFR 10.30) and Rev. Proc. 68–20, 1968–1 C.B. 812, govern the solicitation of employment in matters related to the Internal Revenue Service. The rule on disclosure to third parties has been expanded to apply to all tax return preparers; it will not apply where disclosure without formal written consent is permitted under § 301.7216–2 in the performance of professional or fiduciary services. The rule on use of tax return information in connection with another person's return has been revised to apply to disclosures or uses where the new § 301.7216–2(b) added by this document does not permit disclosure or use without formal written consent. A revised rule permits the formal consent to be signed by the taxpayer or his duly authorized agent or fiduciary. Two examples affecting certified public accountants have been eliminated from proposed § 301.7216–3(c) since the situations involved will be covered by revised § 301.7216–2(e).

In view of the foregoing, the amendments of the regulations as proposed are hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. Section 301.7216–1, as set forth in the notice of proposed rule making, is changed by deleting subparagraph (3) of paragraph (b), by redesignating subparagraph (4) of paragraph (b) as subparagraph (3), and by revising paragraph (a), subparagraph (2) of paragraph (b), subparagraph (3) of paragraph (b), as so redesignated, and so much of paragraph (b) as precedes subparagraph (1) thereof, to read as set forth below:

PAR. 2. Section 301.7216–2, as set forth in the notice of proposed rulemaking, is changed to read as set forth below:

PAR. 3. Section 301.7216–3, as set forth in the notice of proposed rulemaking, is changed by revising the heading of such section, by revising paragraphs (a) and (b), by deleting examples (2) and (3) in paragraph (c), by redesignating examples (4) and (5) in paragraph (c) as examples (2) and (3), and by revising example (3) as so redesignated, as set forth below:

(This Treasury decision is issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917 (26 U.S.C. 7805)))

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: March 25, 1974.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

§ 301.7216 Statutory provisions; disclosure or use of information by preparers of returns.

SEC. 7216. *Disclosure or use of information by preparers of returns*—(a) *General rule.* Any person who is engaged in the business of preparing, or providing services in connection with the preparation of, returns of the tax imposed by chapter 1, or declarations or amended declarations of estimated tax under section 6015, or any person who for compensation prepares any such return or declaration for any other person, and who—

(1) Discloses any information furnished to him for, or in connection with, the preparation of any such return or declaration, or

(2) Uses any such information for any purpose other than to prepare, or assist in preparing, any such return or declaration, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than $1,000, or imprisoned not more than 1 year, or both, together with the costs of prosecution.

(b) *Exceptions*—(1) *Disclosure.* Subsection (a) shall not apply to a disclosure of information if such disclosure is made—

(A) Pursuant to any other provision of this title, or

(B) Pursuant to an order of a court.

(2) *Use.* Subsection (a) shall not apply to the use of information in the preparation of, or in connection with the preparation of, State and local tax returns and declarations of estimated tax of the person to whom the information relates.

(3) *Regulations.* Subsection (a) shall not apply to a disclosure or use of information which is permitted by regulations prescribed by the Secretary or his delegate under this section.

[Sec. 7216 as added by sec. 316, Rev. Act 1971 (85 Stat. 529)]

§ 301.7216–1 Penalty for disclosure or use of tax return information.

(a) *In general.* Section 7216(a) provides in effect that, except as provided in section 7216(b), any tax return preparer (as described in paragraph (b)(2) of this section) who on or after January 1, 1972, discloses or uses any tax return information (as described in paragraph (b)(3) of this section) other than for the specific purpose of preparing, assisting in preparing, or obtaining or providing services in connection with the preparation of, any tax return of the taxpayer by or for whom the information was made available to a tax return preparer, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be fined not more than $1,000, or imprisoned not more than 1 year, or both, together with the costs of prosecution. Pursuant to section 7216(b), the provisions of section 7216(a) and this paragraph do not apply to any disclosure or use permitted under § 301.7216–2 or § 301.7216–3.

(b) *Definitions.* For purposes only of section 7216 and §§ 301.7216–1 through 301.7216–3—

(1) *Tax return.* The term "tax return" means any return (or amended return) of the income tax imposed by chapter 1 or 2 of the Code, or any declaration (or amended declaration) of estimated tax made under section 6015.

(2) *Tax return preparer.* (i) The term tax return preparer means any person—

(A) Who is engaged in the business of preparing tax returns,

(B) Who is engaged in the business of providing auxiliary services in connection with the preparation of tax returns,

(C) Who is remunerated for preparing, or assisting in preparing, a tax return for any other person, or

(D) Any individual who, as part of his duties or employment with any person described in (A), (B), or (C) of this subdivision, performs services which assist in the preparation of, or assist in providing auxiliary services in connection with the preparation of, a tax return.

For example, assume that a bank is a tax return preparer within the meaning of (A) of this subdivision and it employs one individual to solicit the necessary tax return information for the preparation of a tax return and another individual to prepare the return on the basis of the information that is furnished. Under these circumstances, both employees are tax return preparers. Also, for example, a secretary to a tax return preparer who types or otherwise works on returns prepared by the preparer is a tax return preparer.

(ii) A person is engaged in the business of preparing tax returns as described in subdivision (i)(A) of this subparagraph if, in the course of his business, he holds himself out to taxpayers as a person who prepares tax returns, whether or not tax return preparation is his sole business activity and whether or not he charges a fee for such services.

(iii) A person is engaged in the business of providing auxiliary services in connection with the preparation of tax returns as described in subdivision (i)(B) of this subparagraph if, in the course of his business, he holds himself out to tax return preparers or to taxpayers as a person who performs such auxiliary services, whether or not providing such auxiliary services is his sole business activity and whether or not he charges a fee for such services. For example, a person part or all of whose business is to provide a computerized tax return processing service based on tax return information furnished by another person is a tax return preparer.

(iv) A tax return preparer described in subdivision (i)(C) of this subparagraph includes any person who—

(A) For remuneration but not in the course of a business prepares a tax return for another person, or

(B) For remuneration and on a casual basis helps a relative, friend, or other acquaintance to prepare the latter's tax return.

(v) A person is not a tax return preparer merely because he leases office space to a tax return preparer, furnishes credit to a taxpayer whose tax return is prepared by a tax return preparer, or otherwise performs some service which only incidentally relates to the preparation of tax returns. For example, assume that a tax return preparer contracts with a department store for the rental of space in the store, and that the store advertises that taxpayers who use the tax return preparation service may charge the cost of having their tax return prepared to their charge account with the department store. Under such circumstances, the department store is not a tax return preparer.

(3) *Tax return information.* The term "tax return information" means any information, including but not limited to a taxpayer's name, address, or identifying number, which is furnished in any form or manner by a taxpayer for, or in connection with, the preparation of a tax return of such taxpayer. Information furnished by a taxpayer includes information which is furnished on behalf of the taxpayer by any person; for example, any person required under section 6012 to make a return for such taxpayer, such as a guardian for a minor, by a duly authorized agent for his principal, by a fiduciary for an estate or trust, or by a receiver, trustee in bankruptcy, or assignee for a corporation.

§ 301.7216–2 Disclosure or use without formal consent of taxpayer.

(a) *Disclosure pursuant to other provisions of Internal Revenue Code.* The provisions of section 7216(a) and § 301.7216–1 shall not apply to any disclosure of tax return information if such disclosure is made pursuant to any other provision of the Code or the regulations thereunder. Thus, for example, the provisions of such sections do not apply to a disclosure pursuant to section 7269 to an officer or employee of the Internal Revenue Service of information concerning the estate of a decedent or a disclosure pursuant to section 7602 to an officer or employee of the Internal Revenue Service of books, papers, records, or other data which may be relevant to the liability of any person for the income tax.

(b) *Disclosure or use of information in the case of related taxpayers.* (1) A tax return preparer may use, in preparing a tax return of a second taxpayer, and may disclose to such second taxpayer in the form in which it appears on such return, any tax return information which the preparer obtained from a first taxpayer if—

(i) The second taxpayer is related to the first taxpayer within the meaning of subparagraph (2) of this paragraph,

(ii) The first taxpayer's tax interest in such information is not adverse to the second taxpayer's tax interest in such information, and

(iii) The first taxpayer has not expressly prohibited such disclosure or use.

(2) For purposes of subparagraph (1)(i) of this paragraph, one taxpayer is related to another taxpayer if they have any one of the following relationships: husband and wife, child and parent, grandchild and grandparent, partner and partnership, trust or estate and fiduciary, corporation and shareholder, or members of a controlled group of corporations as defined in section 1563.

(3) See § 301.7216–3(a)(3) for disclosure or use of tax return information of the taxpayer in preparing the tax return of a second taxpayer where the requirements of this paragraph are not satisfied.

(c) *Disclosure pursuant to court order.* The provisions of section 7216(a) and § 301.7216–1 shall not apply to any disclosure of tax return information if such disclosure is made pursuant to the order of any court of record, Federal, State, or local, clearly identifying the information to be disclosed.

(d) *Disclosure for use in revenue investigations or court proceedings.* A tax return preparer may disclose tax return information (1) to his attorney, or to an employee of the Internal Revenue Service, for use in connection with an investigation of such tax return preparer conducted by the Internal Revenue Service or (2) to his attorney, or to any officer of a court, for use in connection with proceedings involving such tax return preparer before the court.

(e) *Attorneys and accountants.* A tax return preparer who is lawfully engaged in the practice of law or accountancy and prepares a tax return for a taxpayer to or for whom it renders legal or accounting services may disclose or use the tax return information of such taxpayer in the ordinary course of rendering such legal or accounting services to or for such taxpayer. Thus, for example, a lawyer who prepares a tax return for a taxpayer to or for whom he renders legal services may disclose or use the tax return information of the taxpayer for, or in connection with, the rendering of legal services, such as estate planning or administration, or preparation of trial briefs or trust instruments, to the taxpayer or his estate. In further illustration, an accountant who prepares a tax return for a taxpayer to or for whom he renders accounting services may disclose or use the tax return information of the taxpayer for, or in connection with, the preparation of books of account, working papers, or accounting statements or reports of the taxpayer and, in the normal course of rendering such accounting services to or for the taxpayer, may, with the express or implied consent of the taxpayer, make such tax return information available to stockholders, management, suppliers, lenders, or other third parties.

(f) *Corporate fiduciaries.* A trust company, trust department of a bank, or other corporate fiduciary which prepares a tax return for a taxpayer to or for whom it renders fiduciary, investment, or other custodial or management services may (1) disclose or use the tax return information of such taxpayer in the ordinary course of rendering such services to or for the taxpayer or (2), with

V 39 62 MAR 29 74 XUM

the express or implied consent of the taxpayer, make such information available to the taxpayer's attorney, accountant, or investment advisor.

(g) *Disclosure to taxpayer's fiduciary.* If after furnishing tax return information to a tax return preparer the taxpayer dies or becomes incompetent, insolvent, or bankrupt, or his assets are placed in conservatorship or receivership, the tax return preparer may disclose such information to the duly appointed fiduciary of the taxpayer or his estate, or to the duly authorized agent of such fiduciary.

(h) *Disclosure by tax return preparer to tax return processor.* A tax return preparer may disclose tax return information of a taxpayer to another tax return preparer described in § 301.7216–1(b)(2)(i)(B) for the purpose of having the second tax return preparer transfer that information to, and compute the tax liability on, a tax return of such taxpayer by means of electronic, mechanical, or other form of tax return processing service.

(i) *Disclosure by one officer, employee, or member to another officer, employee, or member.* An officer, employee, or member of a tax return preparer may transfer any tax return information to another officer, employee, or member of the same tax return preparer for the purpose of performing services which assist in the preparation of, or assist in providing auxiliary services in connection with the preparation of, the tax return of a taxpayer by or for whom the information was furnished.

(j) *Identical information obtained from other sources.* The provisions of section 7216(a) and § 301.7216–1 shall not apply to the disclosure or use by a tax return preparer of information which is identical to any tax return information which has been furnished to him if such identical information was obtained otherwise than in connection with the preparation of, or providing auxiliary services in connection with the preparation of, a tax return.

(k) *Disclosure or use of information in preparation or audit of State returns.* The provisions of section 7216(a) and § 301.7216–1 shall not apply to the disclosure or use by any tax return preparer of any tax return information in the preparation or audit of, or in connection with the preparation or audit of, any tax return or declaration of estimated tax required of the taxpayer under the law of any State or political subdivision therefor, of the District of Columbia, or of any possession of the United States.

(l) *Retention of records.* A tax return preparer may retain tax return information of a taxpayer, including copies of tax returns or data processing tapes prepared on the basis of such tax return information, and may use such information in connection with the preparation of other tax returns of the taxpayer or in connection with an audit by the Internal Revenue Service of any tax return. The provisions of paragraph (m) of this section respecting the transfer of a taxpayer list apply also to the transfer of any records and related workpapers to which this paragraph applies.

(m) *Lists for solicitation of tax return business.* Any tax return preparer may compile and maintain a separate list containing the names and address of taxpayers whose tax returns he has prepared or processed. This list may be used by the compiler solely to contact the taxpayers on the list for the purpose of offering tax information or additional tax return preparation services to such taxpayers. The compiler of the list may not transfer the taxpayer list, or any part thereof, to any other person unless such transfer takes place in conjunction with the sale or other disposition of the tax return preparation business of such compiler. A person who acquires a taxpayer list, or a part thereof, in conjunction with such a sale or other disposition shall be subject to the provisions of this paragraph with respect to such list as if he had been the compiler of such list. The term "list", as used in this paragraph, includes any record or system whereby the names and addresses of taxpayers are retained.

§ 301.7216–3 Disclosure or use only with formal consent of taxpayer.

(a) *Written consent to use or disclosure*—(1) *Solicitation of other business.* (i) If a tax return preparer has obtained from the taxpayer a consent described in paragraph (b) of this section, he may use the tax return information of such taxpayer to solicit from the taxpayer any additional current business, in matters not related to the Internal Revenue Service, which the tax return preparer provides and offers to the public. The request for such consent may not be made later than the time the taxpayer receives his completed tax return from the tax return preparer. If the request is not granted, no follow up request may be made. This authorization to use the tax return information of the taxpayer does not apply, however, for purposes of facilitating the solicitation of the taxpayer's use of any services or facilities furnished by a person other than the tax return preparer, unless such other person and the tax return preparer are members of the same affiliated group within the meaning of section 1504. Thus, for example, the authorization would not apply if the other person is a corporation which is owned or controlled directly or indirectly by the same interests which own or control the tax return preparer but which is not affiliated with the tax return preparer within the meaning of section 1504(a). Moreover, this authorization does not apply for purposes of facilitating the solicitation of additional business to be furnished at some indefinite time in the future, as, for example, the future sale of mutual fund shares or life insurance, or the furnishing of future credit card services. It is not necessary, however, that the additional business be furnished in the same locality in which the tax return information is furnished.

(ii) For prohibition against solicitation of employment in matters related to the Internal Revenue Service, see 31 CFR 10.30 (Treasury Department Circular No. 230) and § 7 of Rev. Proc. 68–20, 1968–1 C.B. 812.

(2) *Permissible disclosures to third parties.* If a tax return preparer has obtained from a taxpayer a consent described in paragraph (b) of this section, he may disclose the tax return information of such taxpayer to such third persons as the taxpayer may direct. However, see § 301.7216–2 for certain permissible disclosures without formal written consent.

(3) *Disclosure or use of information in connection with another person's return.* A tax return preparer may disclose or use any tax return information, which was obtained from a first taxpayer, in preparing a tax return of a second taxpayer if the tax return preparer has obtained from the first taxpayer a written consent described in paragraph (b) of this section. See § 301.7216–2(b) for disclosure or use in certain cases without formal consent.

(b) *Form of consent.* A separate written consent, signed by the taxpayer or his duly authorized agent or fiduciary, must be obtained for each separate use or disclosure authorized in paragraph (a) (1), (2) or (3) of this section and shall contain—

(1) The name of the tax return preparer,

(2) The name of the taxpayer,

(3) The purpose for which the consent is being furnished,

(4) The date on which such consent is signed,

(5) A statement that the tax return information may not be disclosed or used by the tax return preparer for any purpose (not otherwise permitted under § 301.7216–2) other than that stated in the consent, and

(6) A statement by the taxpayer, or his agent or fiduciary, that he consents to the disclosure or use of such information for the purpose described in subparagraph (3) of this paragraph.

(c) *Illustrations.* The application of this section may be illustrated by the following examples:

Example (1). In order to stimulate the making of loans, a bank advertises that it is in the business of preparing tax returns. A taxpayer goes to the bank to have his tax return prepared. After the return has been completed by the bank, the employee of the bank who obtained the tax return information from the taxpayer explains that the taxpayer owes an additional $400 in taxes and that the bank's loan department may be able to offer the taxpayer a loan to pay the tax due. If the taxpayer decides to accept the opportunity offered to apply for a loan, the bank must first have the taxpayer execute a written consent described in paragraph (b) of this section for the bank to use any of such information which is required in determining whether to make the tax loan.

Example (2). An individual who sells life insurance and shares in a mutual fund is also in the business of preparing tax returns. A taxpayer who has gone to the individual to have his tax return prepared is requested, at the time he picks up his completed tax return, to give his consent to the individual's use of his tax return information in connection with such individual's solicitation of the taxpayer's purchasing a life insurance policy and shares in the mutual fund. Before the individual may use such tax return information as a basis for soliciting such additional business from the taxpayer, the taxpayer must execute separate written consents under paragraph (b) of this section, one authorizing the use of such information as a basis for soliciting the sale of the mutual fund shares and a second authorizing the use of such information as a basis for soliciting the sale of the life insurance.

Example (3). The facts are the same as in example (2) except that the individual does not sell life insurance but does sell shares in several mutual funds. If the request is for the purpose of using the tax return information as a basis for soliciting the sale at one time of shares in mutual funds A and B, only one written consent under paragraph (b) of this section is required of the taxpayer. If, however, the request is for the purpose of using the tax return information as a basis for soliciting the sale of shares in fund A at one time, and the sale of shares in fund B at a later time, two written consents under such paragraph are required of the taxpayer.

[FR Doc.74–7343 Filed 3–27–74;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 73–100R]

PILOT RULES FOR THE GREAT LAKES AND INLAND WATERS

Lights and Day Signals; Passing a Floating Plant; Pilot Vessels

These amendments to the Pilot Rules for the Great Lakes add regulations for—

a. Lights and day signals for vessels, dredges, and vessels working on wrecks and obstructions, etc.;

b. Passing a floating plant working in a navigable channel; and

c. Lights for Great Lakes pilot vessels.

These regulations are identical to the regulations in Part 201 of Title 33 which are administered by the U.S. Army Corps of Engineers. The Corps of Engineers has revoked Part 201 in the FEDERAL REGISTER of May 16, 1973 (38 FR 12804). The effective date of that revocation is the effective date of the regulations published in this document.

Though Part 201 applies to both the Great Lakes and Western Rivers, the regulations in this document apply only to the Great Lakes. Sections 95.52 through 95.66 of the Pilot Rules for Western Rivers already contain regulations similar to those in Part 201.

These amendments are based on a notice of proposed rulemaking published in the Wednesday, August 1, 1973, issue of the FEDERAL REGISTER (38 FR 20467). Interested parties were invited to comment on the proposal. No comments in response to the notice of proposed rulemaking were received. Accordingly, the proposed amendments are adopted in this document without substantive change.

The proposed regulations were numbered in the notice of proposed rulemaking as §§ 90.31 through 90.46. In this document they have been renumbered as §§ 90.22 through 90.37 to provide organization that is consistent with the organization of the Pilot Rules in Part 80 and Part 95 of Title 33. To accomplish the renumbering of these regulations, the present §§ 90.22 through 90.30 in Part 90 are renumbered as §§ 90.38 through 90.46.

This document also deletes the footnotes in Title 33 that immediately precede § 80.18 of Part 80 and § 95.51 of Part 95. These footnotes explained that some of the Pilot Rules for the Great Lakes were contained in Part 201. Notice and public procedure on these amendments to Part 80 and Part 95 are unnecessary because the amendments are clerical in nature and do not amend any regulations.

In accordance with the foregoing, Chapter I of Title 33 of the Code of Federal Regulations is amended as follows:

PART 80—PILOT RULES FOR INLAND WATERS

1. The Note immediately preceding § 80.18 and following the centerhead after § 80.17 entitled "Lights And Day Signals For Vessels, Dredges of All Types, And Vessels Working on Wrecks and Obstructions, Etc." is deleted.

(Sec. 1, Pub. L. 85–656, 72 Stat. 612 (33 U.S.C. 157); Sec. 6, Pub. L. 89–670, 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 49 CFR 1.46(b))

PART 90—PILOT RULES FOR THE GREAT LAKES

2. Sections 90.22 through 90.30 grouped under the centerhead entitled MISCELLANEOUS are redesignated as §§ 90.38 through 90.46 and grouped under the same centerhead.

3. New §§ 90.22 through 90.37 to be grouped under the centerhead entitled "Lights and Day Signals for Vessels, Dredges, and Vessels Working on Wrecks and Obstructions, Etc." are added to read as follows:

LIGHTS AND DAY SIGNALS FOR VESSELS, DREDGES, AND VESSELS WORKING ON WRECKS AND OBSTRUCTIONS, ETC.

Sec.

90.22 Signals to be displayed by a towing vessel when towing a submerged or partly submerged object upon a hawser when no signals can be displayed upon the object which is towed.

90.23 Steam vessels, derrick boats, lighters, or other types of vessels made fast alongside a wreck, or moored over a wreck which is on the bottom or partly submerged, or which may be drifting.

90.24 Dredges held in stationary position by moorings or spuds.

90.25 Self-propelling suction dredges under way and engaged in dredging operations.

90.26 Vessels moored or anchored and engaged in laying cables or pipe, submarine construction, excavation, mat sinking, bank grading, dike construction, revetment, or other bank protection operations.

90.27 Lights to be displayed on pipelines.

90.28 Lights generally.

90.29 Vessels moored or at anchor.

PASSING FLOATING PLANT WORKING IN NAVIGABLE CHANNELS

90.30 Passing signals.

90.31 Speed of vessels passing floating plant working in channels.

90.32 Light-draft vessels passing floating plant.

90.33 Aids to navigation marking floating-plant moorings.

90.34 Obstruction of channel by floating plant.

90.35 Clearing of channels.

90.36 Protection of marks placed for the guidance of floating plant.

90.37 Lights for Great Lakes pilot vessels.

AUTHORITY: Sec. 3, 28 Stat. 649, as amended (33 U.S.C. 243); Sec. 6(b)(1), Pub. L. 89–670, 80 Stat. 937 (49 U.S.C. 1655(b)(1)); 40 CFR 1.46(b), unless otherwise noted.

LIGHTS AND DAY SIGNALS FOR VESSELS, DREDGES, AND VESSELS WORKING ON WRECKS AND OBSTRUCTIONS, ETC.

§ 90.22 Signals to be displayed by a towing vessel when towing a submerged or partly submerged object upon a hawser when no signals can be displayed upon the object which is towed.

(a) The vessel having the submerged object in tow shall display by day, where they can best be seen, two shapes, one above the other, not less than six feet apart, the lower shape to be carried not less than 10 feet above the deck house. The shapes shall be in the form of a double frustrum of a cone, base to base, not less than two feet in diameter at the center nor less than eight inches at the ends of the cones, and to be not less than four feet lengthwise from end to end, the upper shape to be painted in alternate horizontal stripes of black and white, eight inches in width, and the lower shape to be painted a solid bright red.

(b) By night the towing vessel shall display the regular side lights, but in lieu of the regular white towing lights shall display four lights in a vertical position not less than three feet nor more than six feet apart, the upper and lower of such lights to be white, and the two middle lights to be red, all of such lights to be of the same character as the regular towing lights.

§ 90.23 Steam vessels, derrick boats, lighters, or other types of vessels made fast alongside a wreck, or moored over a wreck which is on the bottom or partly submerged, or which may be drifting.

(a) Steam vessels, derrick boats, lighters, or other types of vessels made fast alongside a wreck, or moored over a wreck which is on the bottom or partly submerged, or which may be drifting, shall display by day two shapes of the same character and dimensions and displayed in the same manner as required by § 90.22(a), except that both shapes shall be painted a solid bright red, but where more than one vessel is working under the above conditions, the shapes need be displayed only from one vessel on each side of the wreck from which they can best be seen from all directions.

V 39 62 MAR 29 74 XUM

(b) By night this situation shall be indicated by the display of a white light from the bow and stern of each outside vessel or lighter not less than six feet above the deck, and in addition thereto there shall be displayed in a position where they can best be seen from all directions two red lights carried in a vertical line not less than three feet nor more than six feet apart, and not less than 15 feet above the deck.

§ 90.24 Dredges held in stationary position by moorings or spuds.

(a) Dredges which are held in stationary position by moorings or spuds shall display by day two red balls not less than two feet in diameter and carried in a vertical line not less than three feet nor more than six feet apart, and at least 15 feet above the deck house and in a position where they can best be seen from all directions.

(b) By night they shall display a white light at each corner, not less than six feet above the deck, and in addition thereto there shall be displayed in a position where they can best be seen from all directions two red lights carried in a vertical line not less than three feet nor more than six feet apart, and not less than 15 feet above the deck. When scows are moored alongside a dredge in the foregoing situation they shall display a white light on each outboard corner, not less than six feet above the deck.

§ 90.25 Self-propelling suction dredges under way and engaged in dredging operations.

(a) Self-propelling suction dredges under way and engaged in dredging operations shall display by day two black balls not less than two feet in diameter and carried in a vertical line not less than 15 feet above the deck house, and where they can best be seen from all directions. The term "dredging operations" shall include maneuvering into or out of position at the dredging site, but shall not include proceeding to and from the site.

(b) By night they shall carry, in addition to the regular running lights, two red lights of the same character as the white masthead light and in a vertical line beneath that light, the red lights to be not less than three feet nor more than six feet apart and the upper red light to be not less than four feet nor more than six feet below the masthead light, and on or near the stern two red lights in a vertical line not less than four feet nor more than six feet apart, to show through four points of the compass; that is, from right astern to two points on each quarter.

§ 90.26 Vessels moored or anchored and engaged in laying cables or pipe, submarine construction, excavation, mat sinking, bank grading, dike construction, revetment, or other bank protection operations.

(a) Vessels which are moored or anchored and engaged in laying cables or pipe, submarine construction, excavation, mat sinking, bank grading, dike construction, revetment, or other bank protection operations, shall display by day, not less than 15 feet above the deck, where they can best be seen from all directions, two balls not less than two feet in diameter, in a vertical line not less than three feet nor more than six feet apart, the upper ball to be painted in alternate black and white vertical stripes six inches wide, and the lower ball to be painted a solid bright red.

(b) By night they shall display three red lights, carried in a vertical line not less than three feet nor more than six feet apart, in a position where they can best be seen from all directions, with the lowermost light not less than 15 feet above the deck.

(c) Where a stringout of moored vessels or barges is engaged in the operations, three red lights carried as prescribed in paragraph (b) of this section shall be displayed at the channelward end of the stringout. Where the stringout crosses the navigable channel and is to be opened for the passage of vessels, the three red lights shall be displayed at each side of the opening instead of at the outer end of the stringout. There shall also be displayed upon such stringout one horizontal row of amber lights not less than six feet above the deck, or above the deck house where the craft carries a deck house, in a position where they can best be seen from all directions, spaced not more than 50 feet apart so as to mark distinctly the entire length and course of the stringout.

§ 90.27 Lights to be displayed on pipe lines.

Pipe lines attached to dredges, and either floating or supported on trestles, shall display by night one row of amber lights not less than eight feet nor more than 12 feet above the water, about equally spaced and in such number as to mark distinctly the entire length and course of the line, the intervals between lights where the line crosses navigable channels to be not more than 30 feet. There shall also be displayed on the shore or discharge end of the line two red lights, three feet apart, in a vertical line with the lower light at least eight feet above the water, and if the line is to be opened at night for the passage of vessels, a similar arrangement of lights shall be displayed on each side of the opening.

§ 90.28 Lights generally.

(a) All the lights required by §§ 90.22 to 90.27, except as provided in §§ 90.22 (b) and 90.25(b), shall be of such character as to be visible on a dark night with a clear atmosphere for a distance of at least two miles.

(b) The lights required by § 90.22(b) to be of the same character as the regular towing lights, and the lights required by § 90.25(b) to be of the same character as the masthead light, shall be of such character as to be visible on a dark night with a clear atmosphere for a distance of at least five miles.

(c) All floodlights or headlights which may interfere with the proper navigation of an approaching vessel shall be so shielded that the lights will not blind the pilot of such vessel.

§ 90.29 Vessels moored or at anchor.

Vessels of more than 65 feet in length when moored or anchored in a fairway or channel shall display between sunrise and sunset on the forward part of the vessel where it can best be seen from other vessels one black ball not less than two feet in diameter.

PASSING FLOATING PLANT WORKING IN NAVIGABLE CHANNELS

§ 90.30 Passing signals.

(a) Vessels intending to pass dredges or other types of floating plant working in navigable channels, when within a reasonable distance therefrom and not in any case over a mile, shall indicate such intention by one long blast of the whistle, and shall be directed to the proper side for passage by the sounding, by the dredge or other floating plant, of the signal prescribed in the local pilot rules for vessels under way and approaching each other from opposite directions, which shall be answered in the usual manner by the approaching vessel. If the channel is not clear, the floating plant shall sound the alarm or danger signal and the approaching vessel shall slow down or stop and await further signal from the plant.

(b) When the pipe line from a dredge crosses the channel in such a way that an approaching vessel cannot pass safely around the pipe line or dredge, there shall be sounded immediately from the dredge the alarm or danger signal and the approaching vessel shall slow down or stop and await further signal from the dredge. The pipe line shall then be opened and the channel cleared as soon as practicable; when the channel is clear for passage the dredge shall so indicate by sounding the usual passing signal as prescribed in paragraph (a) of this section. The approaching vessel shall answer with a corresponding signal and pass promptly.

(c) When any pipe line or swinging dredge shall have given an approaching vessel or tow the signal that the channel is clear, the dredge shall straighten out within the cut for the passage of the vessel or tow.

NOTE: The term "floating plant" as used in §§ 9.30 to 90.36, includes dredges, derrick boats, snag boats, drill boats, pile drivers, maneuver boats, hydraulic graders, survey boats, working barges, and mat sinking plant.

§ 90.31 Speed of vessels passing floating plant working in channels.

Vessels, with or without tows, passing floating plant working in channels, shall reduce their speed sufficiently to insure the safety of both the plant and themselves, and when passing within 200 feet of the plant their speed shall not exceed five miles per hour. While passing over lines of the plant, propelling machinery shall be stopped.

§ 90.32 Light-draft-vessels passing floating plant.

Vessels whose draft permits shall keep outside the buoys marking the ends of mooring lines of floating plant working in channels.

§ 90.33 Aids to navigation marking floating-plant moorings.

Breast, stern, and bow anchors of floating plant working in navigable channels shall be marked by barrel or other suitable buoys. By night approaching vessels shall be shown the location of adjacent buoys by throwing a suitable beam of light from the plant on the buoys until the approaching vessel has passed, or the buoys may be lighted by red lights, visible in all directions, of the same character as specified in § 90.28(a).

§ 90.34 Obstruction of channel by floating plant.

Channels shall not be obstructed unnecessarily by any dredging or other floating plant. While vessels are passing such plant all lines running therefrom across the channel on the passing side which may interfere with or obstruct navigation shall be slacked to the bottom of the channel.

§ 90.35 Clearing of channels.

When special or temporary regulations have not been prescribed and action under the regulations contained in §§ 90.30 to 90.34 will not afford clear passage, floating plant in narrow channels shall, upon notice, move out of the way of vessels a sufficient distance to allow them a clear passage. Vessels desiring passage shall, however, give the master of the floating plant ample notice in advance of the time they expect to pass.

NOTE: If it is necessary to prohibit or limit the anchorage or movement of vessels within certain areas in order to facilitate the work of improvement, application should be made through official channels for establishment by the Secretary of the Army of special or temporary regulations for this purpose.

§ 90.36 Protection of marks placed for the guidance of floating plant.

Vessels shall not run over anchor buoys, or buoys, stakes, or other marks placed for the guidance of floating plant working in channels; and shall not anchor on the ranges of buoys, stakes, or other marks placed for the guidance of such plant.

§ 90.37 Lights for Great Lakes pilot vessels.

(a) A power driven pilot vessel when engaged on pilotage duty and under way:

(1) Shall carry a white light at the masthead at a height of not less than 20 feet above the hull, visible all round the horizon at a distance of at least 3 miles and at a distance of 8 feet below it a red light similar in construction and character. If such a vessel is of less than 65 feet in length the vessel may carry the white light at a height of not less than 9 feet above the gunwale and the red light at a distance of 4 feet below the white light.

(2) Shall carry the sidelights prescribed by Great Lakes Rule 3 (33 U.S.C. 252) or by the Act of April 25, 1940 (46 U.S.C. 526b), as appropriate, and a white light at the stern showing an unbroken light over an arc of the horizon of 135°, so fixed as to show the light 67½° from right aft on each side of the vessel, and of such a character as to be visible at a distance of at least 2 miles.

(3) Shall show one or more flareup lights at intervals not exceeding 10 minutes. An intermittent white light visible all round the horizon may be used in lieu of flareup lights.

(b) A sailing pilot vessel when engaged on pilotage duty and underway:

(1) Shall carry a white light at the masthead visible all round the horizon at a distance of at least 3 miles.

(2) Shall be provided with the sidelights prescribed in paragraph (a)(2) of this section or the portable lanterns prescribed by Great Lakes Rule 8 (33 U.S.C. 257), as appropriate, and shall, on the near approach of or to other vessels, have such lights ready for use, and shall show them at short intervals to indicate the direction in which the pilot vessel is heading, but the green light shall not be shown on the port side nor the red light on the starboard side. The vessel shall also carry the stern light prescribed in paragraph (a)(2) of this section.

(3) Shall show one or more flareup lights at intervals not exceeding 10 minutes.

(c) A pilot vessel when engaged on pilotage duty and not under way shall carry the lights and show the flares prescribed in paragraph (a) (1) and (3) or (b) (1) and (3) of this section, as appropriate, and if at anchor shall also carry the anchor lights prescribed in Great Lakes Rule 9 (33 U.S.C. 253).

(d) A pilot vessel when not engaged on pilotage duty shall show the lights or shapes for a similar vessel of the same length.

PART 95—PILOT RULES FOR WESTERN RIVERS

4. The Note immediately preceding § 95.51 and following the centerhead after § 95.45 entitled "Lights and Day Signals for Vessels, Dredges of All Types, and Vessels Workin on Wrecks and Obstructions, Etc." is deleted.

Effective date. March 29, 1974.

Dated: March 22, 1974.

C. R. BENDER,
Admiral, U.S. Coast Guard,
Commandant.

[FR Doc.74-7288 Filed 3-28-74;8:45 am]

[CGD 73-124 R]

PART 110—ANCHORAGE REGULATIONS

Special Anchorage Area, Basin Point, Potts Harbor, Maine

This amendment to the Anchorage regulations is based on a notice of proposed rulemaking published in the June 19, 1973, issue of the FEDERAL REGISTER (38 FR 15970). The amendment establishes a special anchorage area in the vicinity of Basin Point in Potts Harbor near South Harpswell, Maine. In special anchorage areas, vessels under 65 feet in length, when at anchor, are not required to carry or exhibit anchor lights.

The establishment of a special anchorage area merely relaxes the lighting requirements of vessels at anchor, and does not impact on the use of the area in any other way.

Twelve comments were received as a result of the proposal. Eight of the comments expressed no objection to the proposal.

The United States Environmental Protection Agency, Boston, Massachusetts, recommended that the applicant be advised that he must conform at all times with applicable State and Federal Water Quality Standards. The Coast Guard issued a notice of proposed rulemaking on March 1, 1974 (39 FR 8038) concerning rules governing the design, construction, installation, and operation of marine sanitation devices. Comments were requested to be submitted prior to May 14, 1974. Under section 312 of the Federal Water Pollution Control Act (FWPCA), the Environmental Protection Agency (EPA) has promulgated Federal standards of performance for marine sanitation devices, which are required by the Act to be designed to prevent the discharge of untreated or inadequately treated sewage into or upon the navigable waters from new vessels and existing vessels, except vessels not equipped with installed toilet facilities.

Another comment was received objecting to the proposal on the grounds that more boats in the area would mean more pollution and more gas and oil spilled. The requirement of the Marine Sanitation Devices will overcome the pollution problem. There is a federal law which prohibits the discharge of gas and oil into the navigable waters of the United States.

The State of Maine, Department of Inland Fisheries and Game voiced no objection to the proposal provided no dredging is conducted. Any dredging planned in the area would require the approval of the Corps of Engineers and require an Environmental Impact Statement.

One person questioned the description of the anchorage and also suggested that opinions of the property owners in the vicinity of the special anchorage area be obtained. The individual also stated that he was not in favor of having a marina controlling waters beyond its land boundaries. The Commander, First Coast Guard District replied to the commenter explaining the description of the proposed anchorage area. The individual was further advised that the local control and administration of the anchorage would lie with the town of Harpswell Harbor Master and not with the local marina.

With respect to the opinions of local property owners, the Commander, First

V 39 62
MAR 29 74
XUM

Coast Guard District, has on file letters from 5 shoreline residents of the proposed anchorage area who do not express any dissatisfaction with the proposal provided their rights as property owners are protected.

In consideration of the foregoing, the proposed amendment is adopted without change, and is set forth below.

Effective date. This amendment is effective April 30, 1974.

Dated: March 21, 1974.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Part 110 of title 33 of the Code of Federal Regulations is amended by adding a new § 110.5(c–1) to read as follows:

§ 110.5 Casco Bay, Maine.

• • • • •

(c–1) *Basin Point, Potts Harbor, east side of Basin Point.*—The water area east of Basin Point enclosed by a line beginning at the southernmost extremity of Basin Point at latitude 43°44'17" N., longitude 70°02'36" W.; thence easterly to latitude 43°44'17" N., longitude 70°02'10" W.; thence north northeasterly to a point on the shoreline at latitude 43°44'43" N., longitude 70°02'05" W.; thence following the shoreline to the point of beginning.

• • • • •

(Sec. 1, 30 Stat. 98, as amended; sec. 6(g)(1)(B), 80 Stat. 937 (33 U.S.C. 180), (49 U.S.C. 1655(g)(1)(B)), 49 CFR 1.46(c)(2).)

[FR Doc.74-7283 Filed 3-28-74;8:45 am]

Title 36—Parks, Forests, and Public Property

CHAPTER II—FOREST SERVICE, DEPARTMENT OF AGRICULTURE

PART 292—NATIONAL RECREATION AREAS

Subpart C—Sawtooth National Recreation Area—Private Lands

Proposed regulation was published in the FEDERAL REGISTER on May 25, 1973 (38 FR 13754), to add a new Subpart C to Part 292, Chapter II, Title 36, Code of Federal Regulations, concerning private lands within the Sawtooth National Recreation Area.

Interested persons were given the opportunity to participate in the rulemaking through the submission of comments. Comments were received from governmental agencies (national, State, and local), organizations, companies, and formal groups as well as many private landowners and individuals. The majority of the respondents expressed concern about existing private land uses that were in conflict with various portions of the proposed regulations and suggested numerous changes.

Several respondents felt definitions for designated communities and private property should be more specific to allow a better understanding of these classifications in the recreation area. The definition for a designated community was clarified to indicate that these areas are classified and shown on the Land Use Category Map dated December 15, 1973. The definition of private property was revised to specifically exclude unpatented mining claims. Many respondents felt the proposed private land classifications were too arbitrary and difficult to understand. The residential classifications (R–1, R–5, and R–10) have been eliminated and a single residential classification established for existing or future subdivision development outside designated communities. Some respondents felt the mineral classification was difficult to understand. Since mineral activity can occur in any one of the four land classifications, subject to certification, the mineral classification was not changed.

Many comments were received to include Obsidian and Sawtooth City as designated communities. Sawtooth City has been added as a designated community because the visual impact of this development can be controlled. Obsidian was not included as a designated community due to critical visual conflicts. A provision was added in the regulations to allow a phasing out period for existing, nonconforming uses in Obsidian and other locations in the recreation area to reduce the personal hardship. The area immediately east of U.S. Highway 93, in the vicinity of Obsidian, is classified to allow continuance of commercial and residential developments with some modifications.

A few respondents expressed a desire to have a committee formed to review and/or approve certification by the Area Ranger. Since the Secretary of Agriculture is directed to administer the recreation area, and appeal provisions are afforded to the Chief of the Forest Service for any landowner affected by a decision of the Area Ranger, provisions for such a committee were not provided.

Some respondents felt a time period should be established requiring the action of the Area Ranger on requests for certification. A 45-day period was established within which the Area Ranger will notify the applicant of his decision and/or need for additional information.

Some respondents suggested that provision for land exchanges be made to relocate nonconforming or conflicting uses. Some suitable lands in the National Recreation Area will be identified and classified in the general overall plan that will solve some problem conflicts. Federal lands located in or adjacent to designated communities will be considered for exchange only after acceptable community development plans and ordinances have been implemented.

Some landowners commented that specific standards were needed in the designated communities. Specific standards have been included for designated communities. In addition, the framework is provided for the preparation of acceptable community development plans and implementation of ordinances to assure proper use and development. The community development plan and ordinances, when approved, will replace the present standards.

Some respondents were in favor of the proposed regulations and expressed their support in adoption and implementation.

Part 292 is revised by adoption of the proposed Subpart C, as changed to read as follows:

Subpart C—Sawtooth National Recreation Area—Private Lands

Sec.
292.14 Introduction.
292.15 General provisions—procedures.
292.16 Standards.

AUTHORITY: Provisions of section 4(a), Act of August 22, 1972 (86 Stat. 613).

Subpart C—Sawtooth National Recreation Area—Private Lands

§ 292.14 Introduction.

(a) *Purpose.* In accordance with the provisions of the Act establishing the Sawtooth National Recreation Area (86 Stat. 612), the regulations of this subpart establish standards for the use, subdivision and development of privately owned property within the boundaries of the Sawtooth National Recreation Area. The standards are in furtherance of the preservation and protection of the natural, scenic, historic, pastoral, and fish and wildlife values and to provide for the enhancement of the recreational values of the Recreation Area. Unless, in the judgment of the Secretary, such property is being used, or is in imminent danger of being used, in a manner incompatible with such standards, the property or any interest therein may not be acquired by condemnation. However, private land or an interest therein, determined to be necessary for access to and utilization of public property, and for recreation and other facilities, may be condemned without regard to this restriction, subject however, to the limitation in § 292.15(j).

(b) *Amendment of regulations.* Amendments to these regulations shall be made in accordance with the Administrative Procedures Act (60 Stat. 238, 5 U.S.C. 553), including the publishing of the amendments as a notice of proposed rulemaking with final adoption after interested persons have been given an opportunity to participate in the rulemaking through submission of comments.

(c) *Definitions*—(1) *Cluster-type development.* Planned unit development which allows flexibility in neighborhood and subdivision lot design by dedicating or reserving the land so saved to open space.

(2) *Community development plan.* A narrative plan with maps which sets forth specific standards for desirable development of a community.

(3) *Designated community.* A populated area divided into lots, blocks and streets as platted and recorded in the official records of the county, containing residences and commercial establishments providing goods and services and retaining the atmosphere of a western frontier ranch-type town and so classified in § 292.15(a).

(4) *Dude ranching.* Development oriented to furnish an outdoor recreational or educational experience related to ranching. Facility development is compatible with the pastoral environment, rustic in nature and harmoniously colored.

(5) *Mineral operations.* All functions, work and activities in connection with exploration, development, mining or processing of mineral resources except prospecting which will not cause significant surface disturbance and will not involve removal of more than a reasonable amount of mineral deposit for analysis and study.

(6) *Private property.* Lands or interests in lands not owned by Federal, State, or local governments but not including unpatented mining claims.

(7) *Ranch-type character.* A low profile, rambling, well-proportioned, rustic appearing, rough-sawn wood or wood and stone structure or group of structures harmoniously situated within a natural environment.

(8) *Residential outbuilding.* Nonhabitable building detached from the residence, such as a garage, woodshed or storage building.

(9) *Secretary.* Secretary of Agriculture.

(10) *Area Ranger.* The Forest Officer having administrative authority for the Sawtooth National Recreation Area.

§ 292.15 General provisions—procedures.

(a) *Classification of private property.* For the purpose of establishing specific standards applicable to the several parcels of private land within the boundaries, such properties are classified and assigned to land use categories as shown on the Land Use Category Map, dated December 15, 1973, on file and available for public inspection in the office of the Area Ranger, Sawtooth National Recreation Area, Ketchum, Idaho. The classification of private properties is based on evaluation of scenic, natural, historic, pastoral, wildlife, and other values.

(b) *Land use categories.* Land use categories shown on the map referred to in paragraph (a) of this section are:

(1) *Designated community.* All properties inside a designated community.

(2) *Residential.* Areas for residential development outside designated communities.

(3) *Commercial.* Areas for commercial development outside designated communities.

(4) *Agriculture.* All properties outside designated communities not placed in a residential or commercial land use category.

(5) *Mineral.* Any areas in the land use in subparagraphs (1) through (4) of this paragraph, used for mineral operations.

(c) *Changes in classification.* The Secretary may make changes in the classification of private lands set forth in paragraph (a) of this section by incorporating such changes in an amendment of these regulations.

(d) *Certification of compliance with standards*—(1) *Present use.* Any owner of property may request in writing the Area Ranger to examine the present use of the property and issue a certification that such present use conforms to the applicable standards established in § 292.16 for the land use category in which the property is placed. If after examination the Area Ranger determines that the present use of the property does so conform, he will issue a certification to this effect.

(2) *Planned development or change in use.* Any owner of property who proposes to change the use or develop his property for other than agricultural use may submit to the Area Ranger a use or development plan setting forth the manner in which and the time by which the property is to be developed and the use to which the property is to be put. If the Area Ranger determines that the development and use plan conforms to the applicable standards established in § 292.16 for the land use category in which the property is placed, he will issue a certification to this effect.

(3) *Notification of action.* Within 45 days after receipt of request for certification, the Area Ranger shall:

(i) Issue the certification.

(ii) Notify applicant that additional information is needed before action can be taken on the application.

(iii) Notify applicant that certification is denied, and reasons for denial.

(iv) Notify applicant that action on the request is deferred for a specified period of time for stated reasons.

(e) *Qualified certifications.* (1) Any owner of a property classified residential or commercial under paragraph (a) of this section which had been improved and was being used for residential or commercial purposes on the effective date of these regulations, but which does not conform to the standards established for properties in the land use category in which the property is placed may nevertheless be issued a certification for period not to exceed 10 years so that the improvements may be made to conform to the standards. Such certification shall specify that it is only effective so long as the property is not subdivided, and is not further improved and the improvements existing on the effective date of these regulations, are not reconstructed, altered or relocated, except to meet standards. The certification shall specify the date on which it shall terminate.

(2) If the Area Ranger determines, prior to certification, that a part or all of a property, for which a request for certification is made, is needed for access to and utilization of public property or for recreation and other facilities, he may except from the certification that part of the property needed for these purposes.

(f) *Revocation of certification.* The Area Ranger will revoke a certification when he finds that the property is being used or developed not in conformance with the terms of the certification or the applicable standards established in § 292.16 or is in imminent danger of being so used or developed. Notice of such revocation will be in writing and delivered to the owner in person or by certified mail. A partial revocation may be made when a portion of a property covered by a certification is determined to be needed for access to and utilization of public property or for recreation and other facilities.

(g) *Effect of certification.* Property for which a certification is held by the owner shall not be acquired by the Secretary by condemnation.

(h) *Effect of noncompliance with standards.* Property for which a determination has been made that it is being used or developed not in conformance with the applicable standards established in § 292.16 for the land use category in which the property is placed may be acquired by the Secretary by condemnation.

(i) *Acquisition by negotiated purchase.* (1) Any privately owned land or interest in land determined by the Secretary to be needed in furtherance of the objectives and purposes for which the Sawtooth National Recreation Area was established may be acquired by negotiated purchase subject only to the limitation in paragraph (j) of this section.

(2) Property which has been developed for use prior to the effective date of these regulations, but which is not in conformance with applicable standards may be acquired by the Secretary through negotiated purchase and the Secretary may permit the owners, their successors or assigns to retain a right of use and occupancy of the improved property for a definite term not beyond December 31, 1988.

(j) *Limitation on acquisitions.* Acquisitions of lands or interests therein for access to and utilization of public property and for recreation and other facilities shall not exceed 5 percent of the total acreage of all private property within the Sawtooth National Recreation Area on August 22, 1972. A land acquisition plan shall be prepared by the Area Ranger and approved by the Regional Forester showing those properties needed for access to and utilization of public property or for recreation and other facilities. Said plan may be revised from time to time upon approval by the Regional Forester. Said plan shall be available for inspection by the public in the office of the Area Ranger.

(k) *Land exchanges.* Some parcels of Federal lands within the Sawtooth National Recreation Area are classfied or may be subsequently classified in the overall general plan for the Recreation Area as suitable for selection through land exchange. Using existing land exchange authorities, these Federal lands may be made available for selection by parties owning land within the boundaries of the National Recreation Area to resolve some existing or potential land use conflicts. The values of the properties so exchanged shall be approximately equal, or, if they are not approximately equal, they shall be equalized by the payment of cash. Federal lands which may be located within the boundaries of designated communities will be considered

V 39162
MAR 29 74
XUM

for exchange only after acceptable community development plans and ordinances have been implemented.

(l) *Appeals.* (1) Any landowner who is adversely affected by a decision of the Area Ranger under these regulations may take an appeal to the Chief, Forest Service, by filing with the Area Ranger within 30 days a written notice of appeal and a written statement setting forth the reasons why the decision is contrary to, or in conflict with the facts, the law or these regulations; except a denial of a land exchange application is not appealable. Review and decision on the appeal shall be by the Chief or his designated representative: *Provided, however,* That if more than 45 days are required for a decision after receiving the notice of appeal and statement of reasons, the Chief or his designated representative shall notify the landowner and specify the reasons for the delay.

(2) Any landowner who is adversely affected by the decision of the Chief or his designated representative may take an appeal to the Secretary by filing with the Chief, within 30 days after such decision is made, a written notice of appeal and a written statement setting forth the reasons why the decision appealed from is contrary to, or in conflict with the facts, the law or these regulations. Upon receipt of the notice and statement the Chief shall prepare his own statement setting forth the facts and circumstances upon which his decision was based and shall transmit the record to the Secretary for his decision.

(m) *Judicial review.* The United States District Court for the District of Idaho shall have jurisdiction to review these regulations upon a complaint filed within 6 months after the effective date of these regulations, by any affected landowner in an action for a declaratory judgment as provided in the Act of August 22, 1972 (86 Stat. 612), section 4(a).

§ 292.16 Standards.

The standards established in these regulations are in furtherance of the preservation and protection of the natural, scenic, historic, pastoral, and fish and wildlife values and to provide for the enhancement of the recreation values of the Recreation Area.

(a) *Applicability.* The standards set forth in this section for each land use category shall apply to the private land in each such land use category as classified by the Secretary in accordance with § 292.15.

(b) *Changes in standards.* Changes in and addition to the standards may be made from time to time through amendment of these regulations.

(c) *General standards.* The following standards apply to properties in all land use categories.

(1) Use and development of the property will be in conformance with applicable Federal, State, and local laws, regulations and ordinances.

(2) Development, improvement and use of the property will not materially detract from the scenic, natural, historic, pastoral, and fish and wildlife values of the area.

(3) There will be adequate provision for disposal of solid and liquid waste originating on or resulting from use of the property.

(4) All new utilities will be underground.

(5) No structures or other improvements will be constructed in or encroaching upon streambeds, banks and flood plains of live or intermittent streams. Streambeds, banks, and flood plains will not be disturbed, except as may be necessary to construct, operate, and maintain irrigation, fisheries, utilities, roads, and similar facilities or improvements. Any such necessary encroachment will avoid impeding water flow, sedimentation of streams or entrance of deleterious material into streams.

(d) *Designated communities.* (1) The following standards are established until replaced as provided for in subparagraph (2) of this paragraph.

(i) No buildings or structures, or part thereof, erected, constructed, reconstructed, altered, moved, or used for any purpose, except in conformance with the standards established herein.

(ii) No excavation or topographic change, except that required for foundations, utilities, or roads, that would modify or change the scenic beauty of natural hillsides or mountain slope lands.

(iii) Minimum 100-foot frontage on new building sites.

(iv) All new buildings set in 10 feet from each side of property line.

(v) All new buildings set back 20 feet from front property line.

(vi) Only one single-family dwelling for each building site or lot.

(vii) No new building to exceed two stories in height as determined from ground level.

(viii) No building or structure erected with foundation pillars or stilts that exceeds 36 inches above ground level. Pillars or stilts if used, must be enclosed.

(ix) Minimum of 750 square feet for new residences.

(x) All new buildings constructed of logs, shakes, rough lumber, rough wood, and native stone.

(xi) Mobile or semimobile homes permitted only in existing mobile home parks.

(xii) Nonreflective roofs on new buildings.

(xiii) All new steps and walks constructed of wood.

(xiv) Paints or stains to be of earth tones common to the area.

(xv) All buildings and structures, including fences, to be maintained in a useable and serviceable condition or removed. Properties to be maintained in a clean and orderly condition.

(xvi) Existing plus new buildings or structures cannot occupy more than 30 percent of the land surface on a lot less than 20,000 square feet in area. On any lot larger than 20,000 square feet, existing plus new buildings cannot occupy more than 6,500 square feet. Existing properties exceeding this amount as of the effective date of these regulations may not be further developed.

(xvii) The standards in subdivisions (v), (vi), (ix), and (xvi) of this subparagraph shall not apply to properties developed for commercial purposes.

(2) The Area Ranger shall cooperate with each designated community in the preparation of a community development plan and implementing ordinances which will assure that use and development of the private properties within the community will be consistent with the purposes for which the Sawtooth National Recreation Area was established and with the overall general plan of the Recreation Area. The Secretary may then, by amendment of these regulations, replace the standards adopted pursuant to subparagraph (1) of this paragraph with the standards set forth in such community development plan and implementing ordinances as the standards applicable to that designated community.

(e) *Residential.* (1) Vegetative cover and screening requirements. Any combination of vegetative screening, topography, and structure design that renders the residence inconspicuous and not obtrusive as seen from main travel routes.

(2) Buildings.

(i) Not more than one residence on each separately owned contiguous property as recorded in the records of the appropriate county on date of publication of these regulations.

(ii) Not more than two outbuildings with each residence. Aggregate square foot area of outbuildings not to exceed 400 square feet.

(iii) Dwelling size not less than 750 square feet of floor space.

(iv) Building architecture compatible with location and the pastoral environment, rustic in nature, harmoniously colored or natural wood finish or suitable wood substitutes, nonreflective roofs and sidings.

(v) Height of buildings to be in keeping with site characteristics and normally not exceeding on-site tree height, or 30 feet.

(vi) Sufficient setback of buildings from centerline of public roads for safety and unhampered traffic flow.

(vii) Minimum building setback from property line—10 feet.

(3) No excavation or topographic change except that required for buildings, roads, and utilities.

(4) Removal of live trees and other vegetation limited to that necessary to accommodate buildings and roads to allow installation of utilities.

(5) Roads designed, located, and constructed to minimize adverse esthetic impact and soil erosion.

(6) Owner identification and sale or rental signs not to exceed 2 square feet in size.

(7) Buildings and structures, including fences, to be maintained in a usable and serviceable condition or removed.

(8) No further reduction in size of residential ownerships except that which will not impair the objectives for which the Sawtooth National Recreation Area was established. A certification will be issued pursuant to § 292.15(d) upon application in such cases.

(f) *Commercial.* (1) General. Service provided must serve a need which cannot readily or adequately be provided in a designated community, and must be compatible with the purposes for which the Sawtooth National Recreation Area was established.

(2) Buildings.

(i) Building architecture to be compatible with the pastoral environment, rustic in nature, harmoniously colored or natural wood finish or suitable wood substitutes, nonreflective roofs and sidings.

(ii) Building height to be in keeping with building size, scale, setback from roads and property boundaries, site size, setting, building design and type of use.

(iii) Sufficient setback of buildings from centerline of public roads for safety and unhampered traffic flow.

(3) Only signs identifying the commercial enterprise being conducted on the property. Signs not to exceed 20 square feet in area, 6 feet in length and 15 feet maximum height. Signs to be subdued in appearance and harmonizing in design and color with the surroundings. Signs not complying with the standard may be approved by certifications issued pursuant to § 292.15(d) in special cases.

(4) No flashing lights.

(5) No new mobile or semimobile homes and mobile home parks except where they may be located without substantially impairing or detracting from the scenic, natural, historic, pastoral, and fish and wildlife values of the area.

(g) *Agriculture.* (1) Only structures which do not substantially impair or detract from the scenic, natural, historic, pastoral, and fish and wildlife values of the area and which are necessary for ranching or dude ranching such as dwellings, barns, storage buildings, fences, corrals, irrigation facilities, roads, and utilities.

(2) Buildings to be ranch-type character with log or other rustic exterior with harmoniously colored or natural wood finish and nonreflective surfaces.

(3) Fences and other improvements to be in harmony with the western ranching atmosphere.

(4) Minimum setback of new buildings to be 150 feet from public roads where determined feasible by the Area Ranger.

(5) No further reduction in size of agricultural ownerships except that which will not impair the objectives for which the Sawtooth National Recreation Area was established. A certification will be issued pursuant to § 292.15(d) upon application in such cases.

(6) No signs, billboards or advertising devices except a property identification sign and one sale or rental sign not to exceed 2 square feet in area, harmonious in design and color with the surroundings. Signs not complying with this standard may be approved by certifications issued pursuant to § 292.15(d) in special cases.

(7) Any tree removal and related slash disposal and soil erosion prevention measures to be conducted in a manner that will minimize detrimental effects to the site and adjoining lands.

(8) The general topography of the landscape to be unaltered except for incidental excavation or topographic change required by ranching activities.

(9) Structures and improvements, including fences, to be maintained in usable condition or removed. Those recognized as having historic or esthetic value may remain.

(10) Roads to be designed, located and constructed to minimize esthetic impact and soil movement.

(11) Agricultural practices to be limited to hay production and pasture and range grazing in a manner which does not degrade water quality or result in accelerated soil erosion.

(h) *Mineral operations.* The standards set forth in this paragraph shall apply to a private property or portion thereof in any land use category which is used for mineral operations. To aid in determining whether a planned mineral operation will conform to these standards, the owner of the property shall submit to the Area Ranger a proposed plan of operations. If the Area Ranger determines that the proposed operation conforms to the standards established herein he will approve the plan and such approval shall constitute the certification provided for in § 292.15(d).

(1) Operations will be confined to those locations where they may be conducted without substantially impairing or detracting from the scenic, natural, historic, pastoral, and fish and wildlife values of the area.

(2) The general standards set forth in paragraph (c) of this section shall apply to any mineral operations.

(3) The operations as described in the plan of operation and as they are carried out in accordance with the plan shall:

(i) Comply with Federal and State air and water quality and waste disposal standards.

(ii) Minimize adverse impacts on scenic values.

(iii) Provide for prompt stabilization and restoration of areas disturbed by the operations.

Effective date. These regulations take effect April 29, 1974.

Dated: March 25, 1974.

ROBERT W. LONG,
Assistant Secretary for Conservation, Research, and Education.

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT, DEPARTMENT OF THE INTERIOR

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5418]

ALASKA

Amendment of Public Land Order No. 5180

By virtue of the authority vested in the President by the Act of June 25, 1910, as amended, 43 U.S.C. 141 (1970), and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), and by virtue of the authority vested in the Secretary of the Interior by section 17(d)(1) of the Alaska Native Claims Settlement Act of December 18, 1971, 43 U.S.C. 1616(d)(1), 1970 Supplement II (hereinafter referred to as the Act), it is ordered as follows:

1. Subject to valid existing rights, Public Land Order No. 5180, of March 9, 1972, as amended, 37 FR 5583–5584, withdrawing lands for classification and for protection of the public interest in lands, is hereby further amended to add the following described lands:

All unreserved public lands in Alaska, or those which may become unreserved unless specified by order at that time.

The lands described above aggregate approximately 15,300,000 acres.

2. While the lands described in paragraph 1 of this order remain withdrawn, the lands shall be subject to administration by the Secretary of the Interior under applicable laws and regulations, and his authority to make contracts, to grant leases, permits, rights-of-way, or easements shall not be impaired by this withdrawal. Applications for leases under the Mineral Leasing Act will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

3. It is hereby determined that the promulgation of this order is not a major Federal action significantly affecting the quality of the human environment and that no detailed statement pursuant to

V 39 62 MAR 29 74 XUM

section 102(2)(C) of the National Environmental Policy Act of 1969, 42 U.S.C. 4332(2)(C), is not required.

ROGERS C. B. MORTON,
Secretary of the Interior.

MARCH 25, 1974.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Tawaukon National Wildlife Refuge, N. Dak.

The following special regulation is issued and is effective March 29, 1974.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

NORTH DAKOTA

TEWAUKON NATIONAL WILDLIFE REFUGE

Sport fishing on the Tewaukon National Wildlife Refuge, Cayuga, North Dakota, is permitted only on the areas designated by signs as open to fishing. These open areas are Lake Tewaukon, Mann Lake, and Sprague Lake, comprising 1,440 acres, and are shown on maps available at refuge headquarters and from the office of the Area Manager, Bureau of Sport Fisheries and Wildlife, Box 1897, Bismarck, North Dakota 58501. Sport fishing shall be in accordance with all applicable State regulations subject to the following special conditions:

(1) The open season for sport fishing on Sprague Lake and Mann Lake extends from May 4, 1974, through September 30, 1974, daylight hours only.

(2) The open season for sport fishing on Lake Tewaukon extends from May 4, 1974, through November 15, 1974, daylight hours only.

(3) Fishing on Lake Tewaukon will be limited to certain designated shoreline areas from October 1, 1974, through November 15, 1974, and fishing from boats is not permitted.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through November 15, 1974.

TYRUS W. BERRY,
Acting Refuge Manager.

MARCH 20, 1974.

[FR Doc.74-7259 Filed 3-28-74;8:45 am]

Title 6—Economic Stabilization

CHAPTER I—COST OF LIVING COUNCIL

PART 150—COST OF LIVING COUNCIL PHASE IV PRICE REGULATIONS

PART 152—COST OF LIVING COUNCIL PHASE IV PAY REGULATIONS

Exemption of Anthracite, Bituminous Coal, and Lignite

The purpose of these amendments is to exempt prices charged for anthracite, bituminous coal, and lignite by firms which manufacture those products, to add a further exemption for the prices charged by firms primarily engaged in providing mining services to the coal industry, and to add a parallel exemption to the Phase IV pay regulations.

The Council has determined that exemption of coal will encourage increased production to meet current energy problems, as the greatly increased world demand for coal has caused prices to rise and availability of supplies to decrease. Approximately 80 percent of coal sales are already exempt under § 150.54(n) which exempts sales of coal under long-term contracts to public utilities, under § 150.54(d) which exempts export prices, and § 150.60 which exempts firms with 60 or fewer employees. In addition, over 13 percent of the industry's production is accounted for by captive coal firms which are controlled by steel firms or electric utilities using the coal firms' products. Sales by these coal firms are generally intra-firm transfers and are not subject to direct price controls. Thus, average coal prices are not expected to be affected severely by this exemption. Most of the remaining 7 percent of coal sales are to steel mills, industrial establishments, and public utilities. The Council feels that this exemption should help to augment the domestic availability of coal by discouraging exports in the short run and by encouraging the opening of new mines which will increase production in the long run.

In return for decontrol the Council has received voluntary commitments from 10 of the leading bituminous coal producers (1) to increase bituminous coal production, (2) to request the Bituminous Coal Operators Association to begin negotiations on the present labor agreement which expires in November 1974, and (3) not to permit the weighted average price charged for coal to rise above $30 a ton before November 12, 1974.

Therefore, in accordance with the Council's policy of removing controls selectively where conditions warrant, the Council is today exempting the prices charged for the following products by manufacturers of those products: anthracite, bituminous coal, and lignite as listed in the Standard Industrial Classification Manual, 1972 edition, Industry Nos. 1111 and 1211. As a corresponding action the Council is also exempting the prices charged by firms that provide anthracite, bituminous coal, and lignite mining services as listed in the Standard Industrial Classification Manual, 1972 edition, in Industry Numbers 1112 and 1213. This exemption is an expansion of the already existing exemption of sales of coal under long-term contracts to public utilities, § 150.54(n).

Under §§ 150.11(e) and 150.161(b), a firm with revenues from the sale of exempt items remains subject to the profit margin constraints and reporting provisions of the Phase IV program unless during its most recent fiscal year it derived both less than $50 million in annual sales or revenues from the sale or lease of nonexempt items and 90 percent or more of its sales or revenues from the sale of exempt items or exempt sales.

As a complementary action to the exemption from price controls, the Council has also exempted pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the coal mining industry. The exemption is set forth in new § 152.39m. "Establishment in the coal mining industry" is defined as an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Major Group No. 11 (Anthracite Mining) or 12 (Bituminous Coal and Lignite Mining) and primarily engaged in mining or mining service activities classified under such Major Groups.

The exemption is inapplicable to any employee engaged in construction operations (within the meaning of § 152.102 (f)), even if the employee works at an establishment classified under Major Group 11 or 12. This limitation on the exemption is necessary because the Council and the Construction Industry Stabilization Committee exercise mandatory control jurisdiction over pay adjustments in the construction industry and it would be inappropriate at this time to exempt construction pay adjustments.

The exemption is inapplicable to any employee who receives an item of incentive compensation, or who is a member of an executive control group. The exemption is also inapplicable to any employee whose duties and responsibilities are not of a type exclusively performed in or related to the coal mining industry and whose pay adjustments are historically related to the pay adjustments of employees performing such duties outside the industry and are not related to the pay adjustments of other employees that are within this or another industry exempted under Subpart D of Part 152. The exemption is further inapplicable to employees who are part of an appropriate employee unit where 25 percent or more of the members of such unit are not engaged on a regular and continuing basis in the operation of an establishment engaged in activities exempted under Subpart D. In cases of uncertainty of application, particularly with respect to mining activities that may be related to construction, inquiries concerning the scope or coverage of the pay exemption should be addressed to the Administrator, Office of Wage Stabilization, P.O. Box 672, Washington, D.C. 20044.

As with all exemptions from Phase IV controls, firms subject to these amendments remain subject to review for compliance with appropriate regulations in effect prior to these exemptions. A firm affected by these amendments will be held responsible for its pre-exemption compliance under all phases of the Economic Stabilization Program. A firm affected by these exemptions alleged to be in violation of stabilization rules in effect prior to these exemptions is subject to the same compliance actions as a non-exempt firm. These compliance actions include investigations, issuance of notices of probable violation, issuance of remedial orders requiring rollbacks or refunds, and possible penalty of $2,500 for each stabilization violation.

The Council retains the authority to reestablish price and wage controls over any of the industries exempted by these amendments if price or wage behavior is inconsistent with the policies of the Economic Stabilization Program. The Council also has the authority, under §§ 150.162 and 152.6, to require firms to file special or separate reports setting forth information relating to the Economic Stabilization Program in addition to any other reports which may be required under the Phase IV controls program.

Because the purpose of these amendments is to grant an immediate exemption from the Phase IV price and pay regulations, the Council finds that publication in accordance with normal rulemaking procedure is impracticable and that good cause exists for making these amendments effective in less than 30 days. Interested persons may submit written comments regarding this amendment. Communications should be addressed to the Office of the General Counsel, Cost of Living Council, 2000 M Street NW., Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92-210, 85 Stat. 743; Pub. L. 93-28, 87 Stat. 27; E.O. 11695, 38 FR 1743; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489.)

In consideration of the foregoing, Parts 150 and 152 of Title 6 of the Code of Federal Regulations are amended as set forth herein, effective March 27, 1974.

Issued in Washington, D.C., on March 27, 1974.

JAMES W. MCLANE
Deputy Director,
Cost of Living Council.

1. In 6 CFR Part 150, § 150.54(n) is amended to read as follows:

• • • • •

§ 150.54 Certain price adjustments.

(n) *Anthracite, bituminous coal, and lignite.* Prices charged by firms engaged in providing anthracite, bituminous coal, and lignite mining services and firms engaged in the manufacturing of anthracite, bituminous coal, and lignite are exempt if those activities are within the scope of Major Groups 11 or 12 of the Standard Industrial Classification Manual, 1972 edition.

• • • • •

2. In 6 CFR Part 152, Subpart D is amended by adding thereto a new § 152.39m to read as follows:

§ 152.39m Coal mining industry.

(a) *Exemption.* Pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the coal mining industry or in support of such operation are exempt from and not limited by the provisions of this title.

(b) *Establishment in the coal mining industry.* For purposes of this section, "Establishment in the coal mining industry" means an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Major Group No. 11 (Anthracite Mining) or 12 (Bituminous Coal and Lignite Mining) and primarily engaged in mining or mining service activities classified under such Major Group.

(c) *Covered employees.* For purposes of this section, an employee is considered to be engaged on a regular and continuing basis in the operation of an establishment in the coal mining industry or in support of such operation only if such employee is employed at an establishment in the coal mining industry and only if such employee is employed by the firm which operates such establishment.

(d) *Limitation.* The exemption provided in paragraph (a) of this section shall not be applicable to—

(1) An employee engaged in construction operations (within the meaning of § 152.102(f)).

(2) An employee who receives an item of incentive compensation subject to the provisions of § 152.124, § 152.125, or § 152.126.

(3) An employee who is a member of an executive control group (determined pursuant to § 152.130).

(4) Employees whose occupational duties and responsibilities are of a type not exclusively performed in or related to the coal mining industry and whose pay adjustments are—

(i) Historically related to the pay adjustments of employees performing such duties outside the coal mining industry; and

(ii) Not related to pay adjustments of another unit of employees engaged on a regular and continuing basis in the operation of an establishment exempted under this subject, or in the operation of an establishment in the coal mining industry or in support of such operation within the meaning of paragraph (c) of this section.

(5) Employees who are members of an appropriate employee unit if 25 percent or more of the employees who are members of such unit are not engaged on a regular and continuing basis in the operation of an establishment engaged in activities exempted under this subpart.

(e) *Effective date.* The exemption provided in this section shall be applicable to pay adjustments with respect to work performed on and after March 27, 1974.

[FR Doc.74-7430 Filed 3-27-74;4:47 pm]

PART 155—PHASE IV PRICE PROCEDURAL REGULATIONS

Exceptions and Compliance Procedures

The purpose of this amendment is to further provide for the effective and orderly administration of compliance matters by precluding consideration of exceptions requests in cases which would more appropriately be resolved through compromise of civil penalties.

The Cost of Living Council recently took several steps to simplify and otherwise improve its procedural regulations in order to more effectively resolve compliance matters. Among other actions, the Council delegated full authority to the Internal Revenue Service to resolve price violations cases through the compromise of civil penalties procedures and to dispose of Phase I, II and III price violations matters through the use of the Phase IV price procedural regulations.

The present amendment is intended to further improve the Phase IV compliance effort by cutting off consideration of exception requests in those cases where the firm concerned has already violated the regulation from which an exception is sought and compliance actions have been initiated by the Council or the IRS. The Council believes that too much delay has been encountered in resolving violations cases where requests for retroactive exceptions have been permitted and that any mitigating factors such as inequity or hardship which the firm in violation may wish to assert are more properly raised under the compromise of civil penalties procedures.

Heretofore, a firm which violated a price rule (such as charging a price in excess of the freeze price or exceeding the profit margin limitation) was permitted after receiving a remedial order to file a request for exception from the regulation concerned. If the exception was granted, the effect was to retroactively nullify the violation and to revoke the remedial order. If the exception was denied the firm could seek reconsideration. If the relief requested was ultimately denied upon reconsideration the Council would resume its compliance effort through reactivation of the remedial order. However, review of such cases through the exceptions channels has unnecessarily burdened the Council's staff and in some cases as much as one year has elapsed before ultimate resolution of the matter.

Furthermore, review of the matter through the exceptions procedures appears inappropriate from other considerations. Based on experience to date in Phase IV, the Council believes that the practice of retroactively excusing violations through the exceptions procedures does not advance the goals of the Economic Stabilization Program. Instead, it tends to encourage non-compliance and is unfair to firms which are similarly situated but which faithfully adhere to the regulations for their duration or which, while complying with the regulations, seek exceptions prospectively.

Finally, this amendment will permit the Council to work more rapidly toward completion of pending exceptions cases which are unaffected by this amendment. At the same time this amendment will permit the IRS to more promptly dispose of pending violations cases. The amendment therefore is expected to significantly aid in the effort to complete action on exceptions and compliance matters remaining in Phase IV.

V 39 62 MAR 29 74 XUM

While now denied the possibility of relief through the exceptions procedures, a firm in violation may nevertheless obtain substantial relief, if merited, through compromise procedures. For example, a firm which received a remedial order to remit all revenues derived from charging prices in violation of the freeze regulations may request that due to inability to pay the amount involved or other extenuating circumstances the penalty be reduced to an appropriate amount to be mutually agreed in accordance with the compromise of civil penalties procedures. Under this method of disposition of the case, the payment of a civil penalty serves to strengthen the Council's compliance efforts by deterring unlawful pricing behavior while at the same time substantial relief is afforded in meritorious cases.

This amendment applies to profit margin violations as well as to more specific pricing violations. As a general rule, the fact that a profit margin violation was not realized or discovered until the financial statements for the fiscal year concerned were prepared does not excuse the violation. Most firms check profit margin compliance on a quarterly basis and a firm which has triggered the profit margin limitation by raising prices bears the affirmative responsibility to set prices at levels which will avoid a profit margin violation. If a violation is discovered by the IRS or the Council, it is too late to seek an exception to adjust the base period profit margin in order to avoid the violation for the fiscal year concerned. However, an exception with respect to the base period may be sought with respect to future profit margin compliance. In addition, any mitigating factors with respect to the profit margin violation for the year concerned may be raised under the appropriate violations procedures including compromise of civil penalties.

To carry out the Council's intent in this matter, a sentence is added to § 155.41 which provides that when a firm comes under investigation or receives a notice of probable violation or a remedial order it no longer qualifies to seek an exception which would nullify a violation covered by that investigation, notice or order. Pending exceptions requests affected by this amendment will be dismissed with notification to both the applicant and the IRS compliance division. However, any request for reconsideration which relates to an exception which was denied in whole or in part prior to the effective date of this amendment remains unaffected by this amendment and will continue to be processed.

Because the purpose of this amendment is to provide immediate guidance with respect to decisions of the Council, the Council finds that publication in accordance with normal rule making procedure is impracticable and that good cause exists for making this amendment effective in less than 30 days. Interested persons may submit written comments regarding this amendment. Communications should be addressed to the Office of the General Counsel, Cost of Living Council, 2000 M Street, NW., Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1473; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489.)

In consideration of the foregoing, Part 155 of Title 6 of the Code of Federal Regulations is amended as set forth herein, effective March 27, 1974.

Issued in Washington, D.C., on March 27, 1974.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

The first paragraph of § 155.41 is amended to read as follows:

§ 155.41 Purpose and scope.

Exceptions from the provisions of Part 150 of this title may be granted for the purpose of preventing or correcting a serious hardship or gross inequity. However, a person who has violated the regulation with respect to which an exception is sought and who in connection with that matter is under investigation or has received a notice of probable violation or remedial order shall not qualify to obtain an exception which would nullify that violation in whole or in part.

[FR Doc.74–7393 Filed 3–27–74;2:46 pm]

PART 150—PHASE IV PRICE REGULATIONS

PART 152—PHASE IV PAY REGULATIONS

Exemption of Aluminum Production and Certain Aluminum Products

The purpose of these amendments is to exempt under the Phase IV price regulations the sale by producers, manufacturers and wholesalers of aluminum ores, alumina, aluminum ingot, basic shapes, castings, forgings and most aluminum products and to add a parallel exemption under the Phase IV pay regulations.

The Cost of Living Council has not permitted prices for aluminum and copper to rise in accordance with the general cost-justification and prenotification procedures in Phase IV. Instead, the Council has permitted price increases only upon special periodic review of prices and costs in these industries. In December 1973, the Council promulgated a special rule (§ 150.208) which permitted an upward adjustment in base prices to the level of May 1970. In explaining this action, the Council stated that proposed price increases above those levels would be held in abeyance pending a further review of these industries in March 1974.

Having now completed its review of current costs and prices in the aluminum industry, the Council has concluded that it is appropriate to extend price and pay exemption to this industry at this time. An exemption with respect to all nonferrous metals except aluminum and copper was previously granted, and the Council has not yet completed its review of costs and prices in the copper industry.

The Council has determined that price controls have contributed to the establishment of a two-tier pricing structure, in which the foreign and domestic spot price for aluminum ingot is approximately ⅓ higher than the price which domestic producers are able to charge. This situation has led to two undesirable developments. First, there is increased incentive to export metal for which strong demand is present in the U.S. Second, the smaller nonintegrated manufacturers of aluminum products, who make up about 20 percent of the market and who must buy a significant portion of their raw material needs (aluminum ingot or billet) from the foreign or domestic spot market, are unable to purchase metal at a price which would allow them to meet domestic competitive prices for finished products. It is anticipated that several plants of small nonintegrated firms will close within the next few weeks due to unavailability of billet unless these firms are permitted to charge prices for their products which more nearly reflect foreign and domestic spot metal prices.

In addition, industry production is now close to 100 percent capacity, due to increased worldwide demand. It is expected that decontrol will spur plans for the increased capacity which will be necessary to meet future domestic and foreign aluminum needs.

Finally, the Council has obtained individual and voluntary commitments for price restraint from four leading aluminum producers in return for decontrol at this time. First, the firms have separately committed to price ceilings for 99.5 percent primary aluminum ingot, the primary raw material for fabricated aluminum products. Compared with a current price under controls of 29 cents per pound and a current world price of about 34 cents to 35 cents and a spot price of over 40 cents per pound, the committing firms have agreed to charge no more than 31.5 cents through June 1 and no more than 33.5 cents per pound through August 1, 1974. Second, prices which may be charged for other primary basic shapes during these periods must not exceed price levels which reflect the established market relationships between 99.5 percent primary aluminum ingot and those other primary basic shapes. Third, through August 1, 1974, the historic rate of sales of primary aluminum basic shapes to unrelated domestic nonintegrated firms will be maintained in order to avoid market distortions. This applies only to sales not covered by existing contractual agreements.

Under these amendments, prices charged for aluminum ores (including bauxite), alumina, aluminum ingot, basic shapes and all other aluminum products at the manufacturing and wholesaling level are exempt as long as the product contains more than 50 percent by value of aluminum, aluminum alloy and other price-exempt metal. The exemption does not extend, however, to the sale of metal cans (SIC 3411) or automotive stampings (SIC 3465) which contain aluminum or aluminum alloy, or to the sale of chemicals (other than alumina) which contain aluminum. The aluminum products covered by this exemption are listed in Industry No. 1051 and in Major Groups 33 and 34 of the Standard Industrial Classification Manual, 1972 edition. The exemption of products under Major Group 33 includes, but is not limited to, the products listed under Industry Nos. 3334, 3353, 3354, 3355 and 3361. Although some of the aluminum products within Major Group 33 are listed under Industry Nos. 3341, 3357, 3398, and 3399, other products listed under those Industry Nos. are not exempted by these amendments. For example, "nonferrous insulated wire", listed under SIC Industry No. 3357, is not exempt under these amendments if it is copper wire or otherwise does not meet the content test stated above. The same consideration apply to the exemptions under Major Group 34.

Under §§ 150.11(e) and 150.161(b), a firm with revenues from the sale of exempt items remains subject to the profit margin constraints and reporting provisions of the Phase IV program unless during its most recent fiscal year it derived both less than $50 million in annual sales or revenues from the sale or lease of nonexempt items and 90 percent or more of its sales or revenues from the sale of exempt items or exempt sales.

As a complementary action to the exemption from price controls, the Council has also exempted pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the aluminum industry. The exemption is set forth in new § 152.39n. "Establishment in the aluminum industry" is defined as an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Major Group Number 33 or 34, and primarily engaged in the manufacturing or processing of items whose raw material content is, by value, greater than 50 percent aluminum or aluminum alloy or other price-exempt metal. The definition also includes an establishment engaged in the wholesaling of the aforementioned items, a manufacturer of alumina, and an establishment engaged in the mining of bauxite and other aluminum ores (SIC Industry Number 1051).

The definition expressly excludes manufacturers of aluminum containers classified under Industry Number 3411, and establishments engaged in the manufacture of automotive stampings, classified under Industry Number 3465.

The exemption is inapplicable to any employee who receives an item of incentive compensation, or who is a member of an executive control group. The exemption is also inapplicable to any employee whose duties and responsibilities are not of a type exclusively performed in or related to the aluminum industry and whose pay adjustments are historically related to the pay adjustments of employees performing such duties outside the industry and are not related to the pay adjustments of other employees that are within this or another industry exempted under Subpart D of Part 152. The exemption is further inapplicable to employees who are part of an appropriate employee unit where 25 percent or more of the members of such unit are not engaged on a regular and continuing basis in the operation of an establishment engaged in activities exempted under Subpart D. In cases of uncertainty of application, inquiries concerning the scope or coverage of the pay exemption should be addressed to the Administrator, Office of Wage Stabilization, P.O. Box 672, Washington, D.C. 20044.

As with all exemptions from Phase IV controls, firms subject to these amendments remain subject to review for compliance with appropriate regulations in effect prior to these exemptions. A firm affected by these amendments will be held responsible for its pre-exemption compliance under all phases of the Economic Stabilization Program. A firm affected by these exemptions alleged to be in violation of stabilization rules in effect prior to these exemptions is subject to the same compliance actions as a nonexempt firm. These compliance actions include investigations, issuance of notices of probable violation, issuance of remedial orders requiring rollbacks or refunds, and possible penalty of $2,500 for each stabilization violation.

The Council retains the authority to reestablish price and wage controls over any of the industries exempted by these amendments if price or wage behavior is inconsistent with the policies of the Economic Stabilization Program. The Council also has the authority, under §§ 150.162 and 152.6, to require firms to file special or separate reports setting forth information relating to the Economic Stabilization Program in addition to any other reports which may be required under the Phase IV controls program.

Because the purpose of these amendments is to grant an immediate exemption from the Phase IV price and pay regulations, the Council finds that publication in accordance with normal rulemaking procedure is impracticable and that good cause exists for making these amendments effective in less than 30 days. Interested persons may submit written comments regarding this amendment. Communications should be addressed to the Office of the General Counsel, Cost of Living Council, 2000 M Street NW., Washington, D.C. 20508.

(Economic Stabilization Act of 1970, as amended, Pub. L. 92–210, 85 Stat. 743; Pub. L. 93–28, 87 Stat. 27; E.O. 11695, 38 FR 1743; E.O. 11730, 38 FR 19345; Cost of Living Council Order No. 14, 38 FR 1489.)

In consideration of the foregoing, Parts 150 and 152 of Title 6 of the Code of Federal Regulations are amended as set forth herein, effective March 28, 1974.

Issued in Washington, D.C., on March 28, 1974.

JAMES W. MCLANE,
Deputy Director,
Cost of Living Council.

1. In Part 150, a new paragraph (k) is added to § 150.58 to read as follows:

§ 150.58 Additional price adjustments.

* * * * *

(k) *Aluminum Production and Certain Aluminum Products.*

The prices which manufacturers, producers, providers and wholesalers of the following aluminum ores, products, and services charge for those ores, products and services are exempt: the aluminum ores, products, and services listed in the SIC Manual, 1972 edition, under Industry No. 1051, Major Groups 33 and 34 (except Industry Nos. 3411 and 3465), and alumina. The exemption provided in the preceding sentence applies only to those products (other than aluminum ore and alumina) whose raw material content by value is greater than 50 percent aluminum, aluminum alloy, and other price-exempt metal. The exemption of products under Major Group 33 includes, but is not limited to, the products listed under Industry Nos. 3334, 3353, 3354, 3355, and 3361.

2. In 6 CFR Part 152, Subpart D is amended by adding thereto a new § 152.39n to read as follows:

§ 152.39n Aluminum industry.

(a) *Exemption.* Pay adjustments affecting employees engaged on a regular and continuing basis in the operation of an establishment in the aluminum industry or in support of such operation are exempt from and not limited by the provisions of this title.

(b) *Establishment in the aluminum industry.* For purposes of this section, "Establishment in the aluminum industry" means an establishment classified in the Standard Industrial Classification Manual, 1972 edition, under Major Group Number 33 (Primary Metal Industries) or 34 (Fabricated Metal Products, Except Machinery and Transportation Equipment), and primarily engaged in the activities classified under such

V 39 162 MAR 29 74 XUM

Numbers with respect to items whose raw material content is, by value, greater than 50 percent aluminum or aluminum alloy or other price-exempt metal. The term also means an establishment primarily engaged in the wholesaling of the aforementioned items, an establishment classified under Industry Number 1051 (Bauxite and Other Aluminum Ores) primarily engaged in the mining of such ores, and an establishment primarily engaged in the manufacture of alumina. Notwithstanding the provisions of the first sentence of this paragraph, the term does not mean an establishment primarily engaged in the manufacture of metal cans made of aluminum alloy and classified under Industry Number 3411 (Metal Cans) or primarily engaged in the manufacture of automotive stampings and classified under Industry Number 3465 (Automotive Stampings).

(c) *Covered employees.* For purposes of this section, an employee is considered to be engaged on a regular and continuing basis in the operation of an establishment in the aluminum industry or in support of such operation only if such employee is employed at an establishment in the aluminum industry and only if such employee is employed by the firm which operates such establishment.

(d) *Limitations.* The exemption provided in paragraph (a) of this section shall not be applicable to—

(1) An employee who receives an item of incentive compensation subject to the provisions of § 152.124, 152.125, or 152.126.

(2) An employee who is a member of an executive control group (determined pursuant to § 152.130 of this chapter).

(3) Employees whose occupational duties and responsibilities are of a type not exclusively performed in or related to the aluminum industry and whose pay adjustments are—

(i) Historically related to the pay adjustments of employees performing such duties outside the aluminum industry; and

(ii) Not related to pay adjustments of another unit of employees engaged on a regular and continuing basis in the operation of an establishment exempted under this subpart or in the operation of an establishment in the aluminum industry or in support of such operation within the meaning of paragraph (c) of this section.

(4) Employees who are members of an appropriate employee unit if 25 percent or more of the employees who are members of such unit are not engaged on a regular and continuing basis in the operation of an establishment exempted under this subpart.

(e) *Effective date.* The exemption provided in this section shall be applicable to pay adjustments with respect to work performed on and after March 28, 1974.

Title 24—Housing and Urban Development

CHAPTER II—OFFICE OF ASSISTANT SECRETARY FOR HOUSING PRODUCTION AND MORTGAGE CREDIT—FEDERAL HOUSING COMMISSIONER (FEDERAL HOUSING ADMINISTRATION), DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—MORTGAGE AND LOAN INSURANCE PROGRAMS UNDER NATIONAL HOUSING ACT

[Docket No. R-74-235]

PART 201—PROPERTY IMPROVEMENT AND MOBILE HOME LOANS

Factory Inspection of Mobile Homes

On September 4, 1973 a notice of proposed rulemaking was published in the FEDERAL REGISTER (38 FR 23803) by the Department of Housing and Urban Development proposing a new system for third party factory inspection of mobile homes financed with loans insured under this part.

Interested persons were given 30 days in which to submit written comments or suggestions. Comments and suggestions were received from trade associations, state agencies, mobile home manufacturers, testing laboratories, and other interested parties.

Comments germane to the proposal were favorable. Some respondents suggested clarification and improvements in the text.

Suggestions that have been adopted are as follows:

(1) In § 201.520, *Structural design and standards*, paragraph (b) has been amended to provide that compliance with specifications in effect at the time the home is manufactured is required, rather than compliance at the time the loan is made. This change is made by reason of the fact that at the time the loan is made the standards may have been changed from those in effect at the time the home was manufactured.

(2) The text of paragraph (b) of § 210.520 and the text of § 210.510 have also been amended to provide that the home shall bear the "label or seal" of the approved inspection agency.

Several respondents expressed doubts as to the requirements that the Secretary may set for approval of testing laboratories, the adequacy of the approval procedures of state agencies, and the effect that the Secretary's proposal may have on existing state requirements.

The regulation requires that as a condition of application for approval by the Commissioner a testing laboratory must be either an agency of a state, or if a private testing laboratory, have been approved by at least two states. Private testing laboratories meeting this condition would still be required to obtain approval of the Commissioner.

Testing laboratories would be required to meet all applicable state or local requirements and the Secretary's requirements would not preempt such requirements, or otherwise affect or modify these requirements.

A respondent suggested that there should be collaboration with the Veterans Administration on inspection procedures. Since inspection by the Veterans Administration of mobile home manufacturers is done by government employees rather than by "third parties", collaboration on this question would not be pertinent.

A respondent expressed concern that there might be a duplication of inspection of appliances that had been previously inspected and "labeled" or "listed" by an inspection organization.

Inspection under these regulations is confined to compliance with ANSI standards. ANSI standards provide for acceptance of "listed" or "labeled" products and therefore no re-inspection of "labeled" or "listed" appliances would be called for.

It was suggested § 201.521 be amended to substitute the term "testing program" for "quality control program". This change was not made as the term "quality control program" is most descriptive of the objective of this rule.

A respondent suggested that the requirement that inspection agencies be "independent" be omitted. Another respondent suggested that "independent" be defined in terms of financial strength and other criteria. These suggestions were not accepted. While some hardship may result, the requirement that an inspection agency be independent appears to be necessary to avoid real or apparent conflicts of interest. Measuring a testing agency's qualification in terms of its financial strength would appear not to be a clearly relevant criterion.

1. Accordingly, § 201.520(b) is amended to read as follows:

§ 201.520 Structural design and standards.

* * * * *

(b) *ANSI criteria.* The requirement of paragraph (b) of this section may be satisfied by compliance with the specifications in effect at the time the home is manufactured, which are prescribed in mobile home standard No. A119.1, as approved by the American National Standards Institute (formerly the United States of America Standards Institute), hereinafter referred to as "ANSI." A certification shall be obtained from the manufacturer stating that the mobile home was constructed in accordance with the ANSI requirements and that the home bears the label or seal of an independent inspecting agency certifying that the mobile home was constructed in accordance with the ANSI requirements.

* * * * *

2. A new § 201.521 is proposed to read as follows:

§ 201.521 Factory inspection.

The home shall display a seal or label certifying that it has been subject to representative inspections in accordance with a quality control program approved by the Commissioner and is in compliance with the requirements of § 201.520. Inspections shall be made by a testing agency or organization approved by the Commissioner.

3. A new § 201.522 is proposed to read as follows:

§ 201.522 Private testing organization.

A private testing organization which applies for approval by the Commissioner, shall establish that it has been approved by at least two official state agencies to inspect and certify mobile homes and that it is actively engaged in the inspection and certification of mobile homes.

(Sec. 7(d), 79 Stat. 670 (42 U.S.C. 3535(d)); sec. 2, 48 Stat. 1246 (12 U.S.C. 1703))

Effective date. This amendment is effective April 29, 1974.

SHELDON B. LUBAR,
Assistant Secretary of Housing Production and Mortgage Credit, FHA Commissioner.

[FR Doc.74-7331 Filed 3-28-74;8:45 am]

V 39 62 MAR 29 74 XUM

Proposed Rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

[21 CFR Parts 1301, 1304, 1305]

ETORPHINE HYDROCHLORIDE AND DIPRENORPHINE

Proposed Controls

The Drug Enforcement Administration on November 23, 1973, published a notice in the FEDERAL REGISTER (38 FR 32262) proposing the transfer of etorphine hydrochloride from Schedule I to Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821 et seq.). A final notice transferring etorphine hydrochloride to Schedule II is published this date in the FEDERAL REGISTER.

Etorphine hydrochloride is a derivative of the opium alkaloid Thebaine. It is a morphine-like agent with an analgesic potency, depending on test methods, that is 80 to 1,000 times greater than morphine. Because of its ability to produce narcosis at very low doses, etorphine hydrochloride has been approved by the Food and Drug Administration for the immobilization of wild and exotic animals (38 FR 15050).

Diprenorphine, a Schedule II controlled substance, is the only effective antidote to reverse the state of narcosis produced by etorphine hydrochloride. Diprenorphine has been approved by the Food and Drug Administration as an etorphine hydrochloride antagonist. (38 FR 15050.)

Due to the high potential for abuse of these substances with their limited medical uses and ability to produce severe psychological and physical dependence, the Drug Enforcement Administration, in concert with the Special Action Office of Drug Abuse Prevention and the Food and Drug Administration promulgated and agreed to specific procedures relating to their distribution. The American Cyanamid Co. (the holder of the New Animal Drug Application) and the D–M Pharmaceuticals Inc. (the firm marketing the product under the New Animal Drug Application) have agreed to abide by the following procedures to ensure against the abuse, diversion or misuse of these substances:

1. The distribution of etorphine hydrochloride and diprenorphine is restricted to licensed veterinarians engaged in zoo and exotic animal practice, wildlife management programs, and/or research. Only veterinarians who are directly engaged in zoo and exotic animal practice, wildlife management programs, and/or research may obtain etorphine hydrochloride or diprenorphine. These substances will not be available to other practicing veterinarians or other practitioners (except for authorized researchers). The Food and Drug Administration has restricted the use of etorphine hydrochloride and diprenorphine by or on the order of a licensed veterinarian. The Drug Enforcement Administration shall transmit additional information to the Food and Drug Administration indicating its willingness to permit other qualified persons to use these substances if the Food and Drug Administration deems it proper and changes the labelling of the substances.

2. In order to provide maximum security in the distribution, storage and use of etorphine hydrochloride and diprenorphine, all registrants submitting order forms for these substances will be checked by the Drug Enforcement Administration to ensure that they are properly authorized to handle these substances and are prepared to adhere to the special safeguards set forth in the regulations. [An amendment to § 1301.74 (g) to implement this requirement is proposed below.]

3. Registrants handling etorphine hydrochloride or diprenorphine shall be required to store these substances in a safe or steel cabinet equivalent to a United States Government Class V security container. The storage of these substances will be limited to reasonable quantities to avoid increased vulnerability of theft. [An amendment to § 1301.75(d) of the regulations to implement this requirement is proposed below.]

4. The order forms submitted by registrants desiring to purchase etorphine hydrochloride or diprenorphine must contain those substances only. If an order form for etorphine hydrochloride and diprenorphine is submitted to the supplier containing any other controlled substance it shall not be filled. [Amendments to § 1305.16 (Special procedure for filling certain order forms) and § 1305.06 (Procedure for executing order forms) to implement these requirements are proposed below.]

5. The supplier of etorphine hydrochloride and diprenorphine must maintain order forms for those substances separately from all other order forms and records required to be maintained by the registrant pursuant to 21 CFR Part 1304. [An amendment to § 1305.13 (Preservation of order forms) to implement this requirement is proposed below.]

6. An additional reporting requirement is imposed upon the manufacturer of etorphine hydrochloride and diprenorphine. The manufacturer is required to forward a copy of all order forms received for these subtances to the Drug Enforcement Administration for inspection on a weekly basis. [An amendment to § 1304.38(d) (Reports from manufacturers of bulk materials or dosage units) to implement this requirement is proposed below.]

7. Etorphine hydrochloride and diprenorphine shall only be shipped to the purchaser at the location printed by the Administration on the order form. Shipment is to be made by the most secure method using substantial packaging with no markings on the outside. [An amendment to § 1305.16(b) (ii) to implement this requirement is proposed below.]

Therefore, under the authority vested in the Attorney General by Sections 301, 307, 308, 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821, 827, 828 and 871(b)), and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 21 of the Code of Federal Regulations, the Administrator proposes that:

1. Section 1301.74 of Title 21 of the Code of Federal Regulations be amended by adding a new paragraph (g) to read as follows:

§ 1301.74 Other Security Controls for Non-practitioners.

* * * * * *

(g) Before the initial distribution of etorphine hydrochloride and/or diprenorphine to any person, the registrant must verify that the person is authorized to handle the substance(s) by contacting the Drug Enforcement Administration.

* * * * * *

2. Section 1301.75 of Title 21 of the Code of Federal Regulations be amended by adding a new paragraph (d) to read as follows:

§ 1301.75 Physical Security Controls for Practitioners.

* * * * * *

(d) Etorphine hydrochloride and diprenorphine shall be stored in a safe or steel cabinet equivalent to a U.S. Government Class V security container.

* * * * * *

3. Section 1304.38 of of Title 21 of the Code of Federal Regulations be amended by adding a new paragraph (d) to read as follows:

§ 1304.38 Reports from the Manufacturers of Bulk Materials or Dosage Units.

* * * * * *

(d) Registrants manufacturing etorphine hydrochloride or diprenorphine shall, on a weekly basis, forward a copy of the order forms received for these substances to the Administration.

* * * * * *

4. Section 1305.06(b) of Title 21 of the Code of Federal Regulations be amended by adding a new phrase to read as follows:

§ 1305.06 Procedure for Executing Order Forms.

* * * * * *

(b) Only one item shall be entered on each numbered line. There are five lines on each order form. If one order form is not sufficient to include all items in an order, additional forms shall be used. Order forms for etorphine hydrochloride and diprenorphine shall contain only these substances. The total number of items ordered shall be noted on that form in the space provided.

* * * * * *

5. Part 1305 of Title 21 of the Code of Federal Regulations be amended by adding a new § 1805.16 to read as follows:

§ 1305.16 Special Procedure for Filling Certain Order Forms.

(a) The purchaser of etorphine hydrochloride or diprenorphine shall submit copy 1 and 2 of the order form to the supplier and retain copy 3 in his own files.

(b) The supplier, if he determines that the purchaser is a veterinarian engaged in zoo and exotic animal practice, wildlife management programs and/or research and authorized by the Administrator to handle these substances shall fill the order in accordance with the procedures set forth in § 1305.09 except that: (i) Order forms for etorphine hydrochloride and diprenorphine shall only contain these substances in reasonable quantities and (ii) the substances shall only be shipped to the purchaser at the location printed by the Administration upon the order form under secure conditions using substantial packaging material with no markings on the outside which would indicate the content.

* * * * * *

6. Section 1305.13 be amended by adding a new paragraph (d) to read as follows:

§ 1305.13 Preservation of Order forms.

* * * * * *

(d) The supplier of etorphine hydrochloride and diprenorphine shall maintain order forms for these substances separately from all other order forms and records required to be maintained by the registrant.

In order to protect the public welfare by ensuring that etorphine hydrochloride and diprenorphine are manufactured, distributed, stored, and used in a proper manner, the foregoing provisions shall be effective on the date of publication as interim procedures until the proposals are finalized.

All interested persons are invited to submit their comments and objections in writing regarding this proposal. These comments or objections should state with particularity the issues concerning which the person desires to be heard. Comments and objections should be submitted in quintuplicate to the Hearing Clerk, Office of Chief Counsel, Drug Enforcement Administration, Department of Justice, Room 611, 1405 Eye Street NW., Washington, D.C. 20537, and must be received no later than April 26, 1974.

In the event that an interested party submits objections to this proposal which present reasonable grounds for this rule not to be finanlized and requests a hearing in accordance with 21 CFR 1308.45, the party will be notified by registered mail that a hearing will be held at the time and place set forth in the letter. A notice of hearing will simultaneously be published in the FEDERAL REGISTER. If objections submitted do not present such reasonable grounds, the party will so be advised by registered mail.

If no objections presenting reasonable grounds for a hearing on the proposal are received within the time limitations and all interested parties waive or deemed to waive their opportunity for the hearing or to participate in the hearing, the Administrator may cancel the hearing, and after giving consideration or written comments, issue his final order pursuant to 21 CFR 1308.48 without a hearing.

Dated: March 25, 1974.

JOHN R. BARTELS, Jr.,
Administrator,
Drug Enforcement Administration.

DEPARTMENT OF LABOR

Office of Federal Contract Compliance

[41 CFR Parts 60–1, 60–50]

RELIGIOUS ENTITIES

Proposed Exemption

Notice is hereby given that pursuant to Executive Order 11246 (30 FR 12319), as amended by Executive Order 11375 (32 FR 14303), the Department of Labor proposes to clarify the employment obligations of religious corporations, associations, educational institutions and societies under Executive Order 11246 (as amended). This proposal is intended to establish consistency between the religious exemption provisions of section 702 of the Civil Rights Act of 1964, as amended by the Equal Employment Opportunity Act of 1972, and the rules and regulations of the Office of Federal Contract Compliance.

This proposed rulemaking concerns matters relating to public contracts. While public participation is not required, the Department of Labor, in keeping with the spirit of 5 U.S.C. 553, invites submission of written comments, suggestions or objections regarding these proposed amendments to Mr. Philip J. Davis, Director, Office of Federal Contract Compliance, U.S. Department of Labor, 14th Street and Constitution Avenue, NW., Washington, D.C. 20210, on or before April 29, 1974.

In consideration of the foregoing, it is proposed to amend Chapter 60 of Title 41, Code of Federal Regulations, as follows:

PART 60–1—OBLIGATIONS OF CONTRACTORS AND SUBCONTRACTORS

1. A new paragraph (a)(5) is proposed to be added to § 60–1.5 reading as follows:

§ 60–1.5 Exemptions.

(a) * * *

(5) *Contracts with religious entities.* The requirements of the equal opportunity clause shall not apply to a religious corporation, association, educational institution or society with respect to the employment of individuals of a particular religion to perform work connected with the carrying on by such corporation, association, educational institution, or society of its activities.

* * * * * *

PART 60–50—GUIDELINES ON DISCRIMINATION BECAUSE OF RELIGION OR NATIONAL ORIGIN

2. A new paragraph (e) is proposed to be added to § 60–50.1 reading as follows:

§ 60–50.1 Purpose and scope.

* * * * * *

(e) Nothing contained in this Part 60–50 is intended to supersede or otherwise limit the exemption set forth in § 60–1.5(a)(5) of this chapter for contracts with religious entities.

Signed at Washington, D.C., this 19th day of March 1974.

PETER J. BRENNAN,
Secretary of Labor.

BERNARD E. DELURY,
Assistant Secretary for Employment Standards.

PHILIP J. DAVIS,
Director, Office of Federal Contract Compliance.

Proposed Definition

Correction

In FR Doc. 74–4305 appearing at page 7287 as the Part IV of the issue of Monday, February 25, 1974, make the following changes:

1. In the third column on page 7291, in the second line of paragraph 5., the word "Operations" should read "Opinions".

2. In column three on page 7292, in the second from the last paragraph, the date "April 26, 1973" should read "April 26, 1974".

V 39 62 MAR 29 74 XUM

Office of Education

[45 CFR Part 141]

STRENGTHENING INSTRUCTION IN ACADEMIC SUBJECTS IN PUBLIC SCHOOLS

Notice of Proposed Rule Making

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92–318) and pursuant to the authority contained in Title III–A of the National Defense Education Act of 1958, as amended, 20 U.S.C. 441–444, the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 45, Part 141 of the Code of Federal Regulations to read as set forth below.

At present, there will be guidelines under this program. Should guidelines be issued in the future, they would be limited to material in the nature of suggestions and recommendations for program management and operation.

1. *Program purpose.* Title III–A of the National Defense Education Act provides for assistance to States to strengthen academic subjects through the acquisition of laboratory and other special equipment, and minor remodeling.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations proposed below reflect the results of this study as it pertains to the program under Title III–A of the National Defense Education Act. Upon publication of revised Part 141 as a final regulation, after comments and hearing, all preceding rules, regulations, guidelines, and other published interpretations and orders issued in connection with or affecting the program will be superseded effective thirty days after such publication.

3. *Effect of Office of Education general provisions regulations.* The proposed regulations differ from the current regulations in that provisions have been deleted relating to general fiscal and administrative matters which are now covered in the overall Office of Education General Provisions Regulations published in the FEDERAL REGISTER at 38 FR 30654 (November 6, 1973), in connection with the same study under section 503 of the Education Amendments of 1972 of which this publication is a part. (Reference is made in particular to the provisions of proposed Part 100b of Title 45 CFR, containing general provisions for State administered programs, which would be applicable to the program under Title III–A of the National Defense Education Act.)

4. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act (20 U.S.C. 1232(a)) and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case the citation is to all that appears in that section between the citation and the next preceding citation. When the citation appears only at the end of the section it applies to the entire section.

5. *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations as follows:

A hearing will take place at the U.S. Office of Education on April 25, 1974, in the auditorium of Regional Office Building Three (ROB–3) located at 7th and D Streets, SW, Washington, D.C., beginning at 10:00 a.m.

The purpose of the hearing is to receive comments and suggestions on the published materials.

Parties interested in attending the hearing should notify the Office of Education, 400 Maryland Avenue SW., Room 2079–G, Washington, D.C. 20202, Attention: Chairman, Office of Education Task Force on section 503, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

Written comments and recommendations may also be sent to the above address. All relevant material received prior to the date of the hearing will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 9 a.m. and 4:30 p.m., Monday through Friday of each week.

Dated: February 20, 1974

JOHN OTTINA,
U.S. Commissioner of Education.

Approved: March 15, 1974.

FRANK CARLUCCI,
Acting Secretary of Health, Education, and Welfare.

Subpart A—Definitions; General Provisions

§ 141.1 Definitions.

As used in this part:

"Academic subjects" means the following elementary and secondary school subjects: The arts, civics, economics, English geography, history, the humanities, industrial arts, mathematics, modern foreign languages, reading, and science.

"Act" means the National Defense Education Act of 1958, 20 U.S.C. Ch. 17.

"Arts" includes, but is not limited to, music (instrumental and vocal), dance, drama, folk art, creative writing, architecture and allied fields, painting, sculpture, photography, graphic and craft arts, industrial design, costume and fashion design, film, television, radio, tape and sound recording, and the arts related to the presentation, performance, execution and exhibition of such major art forms.

"Audiovisual library" means a facility used for the acquisition, preparation, maintenance, and circulation of audiovisual materials for education in academic subjects in public elementary and secondary schools, and controlled and operated by a State or local educational agency or other public school authority below the State level.

"Class" means a group of students assembled for instruction for a given period of time under a teacher or teachers.

"Electronic digital and analog computing equipment" means electronic devices capable of input (receiving information), memory (storing information), programs (performing arithmetical and logical operations), and output (presenting the results of the processing). Input devices may be in the form of key or paper punches, magnetic tape impregnators, magnetic ink, printed characters, or keyboard. Memory devices may be in the form of magnetic drums, tapes, disks, cards, or cores. The term also includes output media which may be in the form of punch cards, magnetic or paper tape, printed copy, or visual display. (Special purpose computing devices and auxiliary equipment whose major application is in data processing and other business and administrative areas are not eligible except for those elements which may be essential for scientific problem solving or for mediating instruction in one of the academic subjects.)

"Equipment" means laboratory and other special equipment as defined in this section, including materials as defined in § 100.1 of this chapter.

"Humanities" includes, but is not limited to, the study of the following: Language, both modern and classic; linguistics; literature; history; jurisprudence; philosophy; archeology; the history, criticism, theory, and practice of the arts; and those aspects of the social sciences which have humanistic content and employ humanistic methods.

"Laboratory and other special equipment" (a) The term includes: (1) Fixed or movable articles, including electronic digital and analog computing equipment, which are particularly appropriate for use in providing education in academic subjects in a public elementary or secondary school and which are to be used either by teachers in connection with teaching or by students in learning in such subjects; (2) audiovisual equipment (including projectors, recorders, television cameras, television receivers, closed-circuit television distribution systems, and ancillary television projection and reception equipment to be used primarily for nonbroadcast purposes, except where broadcast takes the place of closed-circuit cable systems), to be used, either by teachers in connection with teaching or by students in connection with learning, primarily in providing education in academic subjects in a public elementary or secondary school; (3) materials (as defined in § 100.1 of this chapter) and devices (other than those used for printing, such as printing presses and offset printing machines) to be used for preparation of audiovisual and instructional materials for academic subjects; (4) storage equipment to be used solely for the care and protection of the items specified in paragraph (a) (1)–(3) of this definition, when used in laboratories or classrooms; (5) testgrading equipment to be used primarily in providing education in academic subjects in a public elementary or secondary school; and (6) specialized equipment for audiovisual libraries serving public elementary or secondary schools when such equipment is to be used primarily in providing education in academic subjects.

(b) The term excludes such items as general-purpose furniture, school public address systems, or items for the maintenance and repair of equipment. However, the term does include equipment for maintenance, repair, and storage of materials in audiovisual libraries.

"Local educational agency" means a public board of education or other public authority legally constituted within a State for either administrative control or direction of, or to perform a service function for, public elementary or secondary schools in a city, county, township, school district, or other political subdivision of a State, or such combination of school districts or counties as is recognized in a State as an administrative agency for its public elementary or secondary schools. It also includes any other public institution or agency having administrative control and direction of a public elementary or secondary school.

"Minor remodeling" (notwithstanding the definition set forth in § 100.1 of this chapter) means those minor alterations, in a previously completed building in space used or to be used a laboratory or classroom for education in academic subjects, which are needed to make effective use of equipment in providing education in such subjects. The term also includes those minor alterations in a previously completed building which are needed to make effective use of the items referred to in paragraph (a) (5)–(6) of the definition of "Laboratory and other special equipment" in this section. The term may also include the extension of utility lines, such as for water and electricity, from points beyond the confines of the space in which the minor remodeling is undertaken but within the confines of such previously completed building, to the extent needed to make effective use of equipment. The term does not include building construction, structural alterations to buildings, building maintenance, repair, or renovation.

"Project": (a) As applied to the acquisition of laboratory or other special equipment or minor remodeling the term means (1) a proposal submitted by a local educational agency, or agencies, or other public school authority below the State level, or (2) in cases where the State educational agency operates one or more public elementary or secondary schools or audiovisual libraries, a proposal submitted by the highest administrative officer of such school or audiovisual library.

(b) Proposals shall contain: (1) Description and current cost estimates of the equipment to be acquired or minor remodeling to be performed; (2) certification that the equipment is to be used primarily for providing education in academic subjects, except that in the case of storage equipment the certification shall be to the effect that the storage equipment will be used solely for the care and protection of equipment and materials used in providing such education; and (3) information showing the direct relationship of the proposed expenditures to the overall design for enriching the planned educational program and the achievement of desired curriculum goals in academic subjects.

"School" means a division of instructional organization consisting of a group of pupils comprised of one or more grade groups, organized on a class basis as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant of one or more buildings. More than one school may be housed in one school plant as when elementary and secondary schools are so housed.

"Secondary school" means a school which provides secondary education, as determined under State law or, if such school is not in a State, as determined by the Commissioner. The term does not include any education provided beyond grade 12 except that (notwithstanding the definition set forth in § 100.1 of this chapter) it may include a public junior college when it is a part of or an extension of the secondary school system of the State as determined under State law.

"Services": (a) "Supervisory services" mean the services rendered by a qualified person in the promotion, maintenance, and improvement of instruction in one or more of the academic subjects;

(b) "Related Services" mean those technical activities which support supervisory services in academic subjects.

"Standards" are means for determining the suitability of equipment or minor remodeling as it relates to the improvement of instruction on one or more of the academic subjects in public elementary and secondary schools.

(a) With respect to equipment acquisition: "standards" mean criteria, categories of eligible equipment and materials, and such relevant information as the State wishes to use in determining eligibility, including any limitations, prohibitions, or minimum quality requirements developed by the State to encourage long-range planning and to ensure acquisition of equipment appropriate for a specific program of instruction.

(b) With respect to minor remodeling: "standards" are criteria for determining approvability of projects. Such standards shall include a requirement that there be a direct relationship between the minor remodeling and the improvement of instruction in the academic subjects.

"State" means a State of the Union, the District of Columbia, Puerto Rico, the Canal Zone, Guam, American Samoa, the Virgin Islands, and the Trust Territory of the Pacific Islands.

"State educational agency" or "State agency" means the State board of education or other agency or officer primarily responsible for the State supervision of public elementary and secondary schools, or, if there is no such officer or agency, an officer or agency designated by the Governor or by State law.

"Textbook" means a book, workbook, or manual which is used as the principal source of study material for a given class or group of students, a copy of which is

V 39 62 MAR 29 74 XUM

expected to be available for the individual use of each pupil in that class or group of students.

(20 U.S.C. 403, 443)

§ 141.2 General provisions regulations.

Assistance under this part is subject to applicable provisions contained in Subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters.

(20 U.S.C. 443)

Subpart B—State Plans

§ 141.3 Purpose.

(a) *States.* A basic condition for the payment of Federal funds to a State under sections 301–304 of the Act is a State plan that meets the requirements of sections 303(a) and 1004(a) of the Act in providing a program under which funds paid to the State under its allotment under section 302(a) of the Act will be expended solely for projects approved by the State educational agency for the acquisition of laboratory and other special equipment suitable for use in providing education in academic subjects, and minor remodeling.

(b) *Departments of Interior and Defense.* The basic condition for the payment of funds under Title III–A of the Act to the Department of the Interior or the Department of Defense is a plan which describes the projects to be carried out with the funds together with such other information and assurances as the Commissioner may require.

(20 U.S.C. 443(a), 588 (B))

§ 141.4 Effect of State plan.

The State plan, when approved by the Commissioner, shall constitute the basis on which Federal grants will be made, as well as a basis for determining the propriety of State and local expenditures in which Federal participation is requested.

(20 U.S.C. 443(a))

§ 141.5 Effect of Department plan.

A plan from the Department of the Interior or the Department of Defense, when approved by the Commissioner, shall constitute the basis on which payments will be made to those Departments under Title III–A of the Act and the basis for determining the propriety of the expenditures of those funds by those Departments.

(20 U.S.C. 588(B))

§ 141.6 Program and operational procedures.

(a) The administration of the program shall be kept in conformity with the approved plan, the regulations in this part, and Title III–A of the Act.

(b) A description of the program and operational procedures shall be recorded and made available to the public upon request.

(c) Whenever there is any material change in the content or administration of the program, or when there has been any material change in pertinent State law or in the organization, policies, or operations of the State agency affecting the program under the plan, the plan shall be appropriately amended.

(20 U.S.C. 443(a))

§ 141.7 Submission.

(a) (1) A State plan shall be submitted to the Commissioner by a duly authorized officer of the State agency. (2) A plan submitted by the Department of the Interior or the Department of Defense shall be submitted by an officer of that Department.

(b) A State plan shall give the official name of the agency which will administer the plan and shall indicate that such agency meets the criteria for a State educational agency.

(20 U.S.C. 443(a), 584(a)(3), 588(B))

§ 141.8 Certificate of the State Attorney General or other appropriate State legal officer.

The State plan shall also include as an attachment a certificate by the appropriate State legal officer to the effect that the State educational agency named in the plan is the agency having authority to administer the State plan or to supervise the administration of the State plan; that the State educational agency has authority under State law to develop, submit, and administer or supervise the administration of the plan; and that the State has authority under State law to carry out the State plan.

(20 U.S.C. 443(a))

§ 141.9 Approval by the Commissioner.

The Commissioner will approve each plan which he determines meets the applicable requirements of Title III–A of the Act and regulations in this part, and will notify the applicant of the granting or withholding of approval in each such case. However, no final action, other than one of approval, will be taken by the Commissioner unless he first notifies the applicant of his proposed action and affords the applicant a reasonable opportunity for a hearing on whether the affected plan meets such requirements.

(20 U.S.C. 443(b), 584(b))

§ 141.10 Ineligibility to participate.

Whenever the Commissioner, after reasonable notice and opportunity for a hearing, finds:

(a) That the plan fails to comply with the requirements of Title III–A of the Act or the regulations in this part; or

(b) that in the administration of the plan there is a failure to comply substantially with any such provisions, the Commissioner will notify the applicant that the applicant will not be regarded as eligible to participate in the program under Title III–A of the Act until the Commissioner is satisfied that there is no longer any such failure to comply.

(20 U.S.C. 584(c))

§ 141.11 State plan assurances.

Each State plan shall contain the following assurances:

(a) *Authority.* That the State agency will administer the plan and has adequate authority to do so under State law.

(b) *Fiscal procedures.* That the State agency has provided for such fiscal control and fund accounting procedures as will assure proper disbursement of and accounting for Federal funds paid to the State under the plan, including the funds paid by the State to local educational agencies. Subject to the applicable provisions of Part 100b of this chapter, such administration shall be conducted in accordance with applicable State laws, policies, and procedures.

(c) *Reports.* That the State agency will participate in periodic consultations and will make reports to the Commissioner, at such time, in such form, and containing such information, as the Commissioner may consider reasonably necessary to enable him to perform his duties under the Act and will keep such records and afford such access thereto, and will comply with such other requirements as the Commissioner may find necessary to assure the correctness and verification of such reports.

(d) *Description of program.* That the State agency has developed a program under which funds paid to the State from its allotment under section 302(a) of Title III–A of the Act will be expended solely for (1) projects approved by the State agency for the acquisition of (i) laboratory and other special equipment (other than supplies consumed in use), including audiovisual materials and equipment, (ii) printed and published materials (other than textbooks), suitable for use in providing education in academic subjects in public elementary and secondary schools, and (iii) testgrading equipment for those schools and specialized equipment for audiovisual libraries serving those schools; and (2) projects approved by the State agency for minor remodeling of laboratory or other space used for those materials or equipment. In addition that the State agency has developed a program under which funds paid to the State from its allotment under section 302(b) will be expended solely for projects for (i) expansion or improvement of supervisory and related services in public elementary and secondary schools, including leadership and services to local educational agencies to improve instruction in academic subjects, and (ii) for the administration of the State plan. The programs developed pursuant to sections 302(a) and 302(b) must either be set forth in the State plan itself or be incorporated therein by reference as separate existing and identified documents available for inspection by the Commissioner.

(e) *Principles for determining priority of projects.* That the State agency has established the principles that will be applied in determining the priority of and order of undertaking of projects for assistance under the provisions of Title III–A of the Act. Such principles must either be set forth in the State plan itself or be incorporated therein by reference as a separate existing and identified document available for inspection by the Commissioner.

(f) *Opportunity for hearing.* That the State agency has provided for an opportunity for a hearing before the State agency to any applicant for a project under Title III–A of the Act.

(g) *Standards.* That the State agency has established standards for laboratory and other special equipment to be acquired with assistance furnished under Title III–A of the Act and will advise the Commissioner of those standards. These standards are to be related to the State's program for improving instruction in academic subjects and shall be applied by the State in approving projects for the acquisition of equipment.

(h) *Financial participation.* Whether the State agency has established requirements to be imposed upon applicants for financial participation in projects assisted under Title III–A of the Act, including any provision for taking into account the resources available to any applicant for such participation relative to the resources for participation available to all other applicants. These requirements must either be set forth in the State plan itself or be incorporated therein by reference as a separate existing and identified document available for inspection by the Commissioner.

(20 U.S.C. 443, 584)

Subpart C—State Administration

§ 141.19 Establishment of principles to govern priorities.

In meeting the requirements contained in § 141.11(e), a State must provide a list of principles which reflect its major educational concerns in the academic subject fields and which have a bearing on the functioning of the Title III–A program. These principles are then to be used as a basis for the development of priorities. The priorities themselves, while not a required part of the State plan, must be prepared by the State to be used for the purpose of assigning relative importance and order of approval of projects submitted by local educational agencies under this part.

(20 U.S.C. 443(a)(2))

§ 141.20 Administrative review and evaluation.

The State agency and the Department of the Interior and the Department of Defense shall provide for the administration and supervision of all plan programs. Program and administrative review and evaluation shall be conducted by the State agency or the Department of the Interior or the Department of Defense, as the case may be, at least annually to appraise the status of the programs and their administration in terms of plan provisions and program objectives. The State agency shall include a report of such administrative review and evaluation in its annual report.

(20 U.S.C. 443, 584(a)(1), 588(B))

§ 141.21 Advisory committees.

If State advisory committees are used in one or more aspects of the State plan, the State agency shall establish policies for the establishment of the committees, for the qualification and selection of members, for the establishment of the duties of members and of the committee, and for the payment of committee expenses, if any.

(20 U.S.C. 443, 584)

§ 141.22 Continuing review by Commissioner of State administration.

In order to assist the State agency in adhering to statutory requirements and to the provisions of its approved State plan, the Commissioner will be responsible for conducting periodic reviews, including onsite reviews of the administration of programs under Title III–A of the Act. These reviews will involve analysis of activities and procedures used by State agencies to conduct the program, including the development and monitoring of management activities.

(20 U.S.C. 584)

Subpart D—Federal Financial Participation

§ 141.30 Equipment and minor remodeling.

The Federal Government will pay from each State's allotment an amount equal to one-half of the sums expended for the purchase of equipment and for minor remodeling, when expended for an approved project under an approved State plan. There can be no Federal financial participation in the expenditures for a project if the project, including any amendments thereto, had not been approved by the State agency prior to the incurrence of the expenditures.

(20 U.S.C. 444(a)).

§ 141.31 Supervision and administration.

The Federal Government will pay from each State's allotment for Title III–A of the Act one-half of the total sum expended by the State for supervision, related services, and administration in programs established under the approved State plan.

(20 U.S.C. 444(b))

§ 141.32 Public nature of funds.

The expenditures to be used in computing Federal financial participation must be made from public funds. Public funds do not include contributions by private organizations or individuals unless such contributions are deposited in accordance with State law to the account of the unit or agency of State or local government without such conditions or restrictions as would negate their public character.

(20 U.S.C. 444)

§ 141.33 Reallotment.

(a) If the Commissioner determines that any part of the amount allotted to any State for any fiscal year under section 302(a) of the Act will not be required for that year, that part will be available on such dates during that year as the Commissioner may fix for reallotment to other States. The reallotment will be made in proportion to the amounts originally allotted to other States for that year, except that the total amount available to each State will be reduced to the extent it exceeds the sum the Commissioner determines that that State needs and will be able to use for that year, and the total of such reductions shall be similarly reallotted among the States whose allotments were not so reduced.

(b) The amounts to be so reallotted will be determined by the Commissioner on the basis of (1) reports filed by the States of the amounts required to carry out the State plan approved by the Commissioner, and (2) such other information as he may have available. Each State agency shall, if requested, submit to the Commissioner, on such date or dates as he may specify, a report or reports showing the anticipated need during the current fiscal year for the amount previously allotted or any amount needed in addition thereto, and such other information as the Commissioner may request.

(c) If the Commissioner determines that any amount reserved for any fiscal year for making loans under section 305 of the Act will not be required for that year, that part shall be available for allotment to the States in the manner provided for reallotment of Title III–A funds under paragraph (a) of this section.

(20 U.S.C. 442(c))

§ 141.34 Allotment to the Department of the Interior and the Department of Defense.

The Commissioner will make allotments, according to their respective needs for the types of programs authorized under Title III–A of the Act, to the Secretary of the Interior for elementary and secondary schools operated for Indian children by the Department of the Interior, and to the Secretary of Defense for elementary and secondary schools operated for overseas dependents by the Department of Defense.

(20 U.S.C. 588(B))

Subpart E—Acquisition of Equipment and Minor Remodeling

§ 141.46 Equipment and minor remodeling eligible for Federal financial participation.

A State educational agency may approve projects for the acquisition, with Federal financial participation, of items or equipment, or for minor remodeling, for education in academic subjects only to the extent that equipment or minor remodeling for such academic subjects are covered by the State plan current at the time of project approval.

(20 U.S.C. 443)

§ 141.47 Equipment and minor remodeling costs eligible for Federal financial participation.

(a) *Equipment.* (1) Acquisition of equipment includes the costs of delivery to the school and installation. (2) Expenditures in which Federal participation is claimed may include the cost of raw or processed materials or component parts to be made into finished products or complete equipment units for instruction in academic subjects, including the cost of making and assembling the equipment.

(b) *Minor remodeling.* A minor remodeling project may include the costs of

V 39 62
MAR 29 74
XUM

materials and the labor of local school or district personnel, provided that the costs are properly substantiated by documentation.

(20 U.S.C. 443)

§ 141.48 Use of equipment in other subject areas.

Equipment acquired under an approved project for academic subjects may be used when available and suitable in providing education in other subjects, if there exists a critical need therefor in the judgment of local school authorities. Equipment shall be deemed available only when it is not needed for the time being for use in academic subjects.

(20 U.S.C. 443)

Public Health Service

[42 CFR Part 52]

EMERGENCY MEDICAL TECHNIQUES

Proposed Project Grants for Research

Notice is hereby given that the Assistant Secretary of Health, Office of the Secretary, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Part 52 of Title 42, CFR, "Grants for Research Projects."

The purpose of the proposed amendment is to implement section 1205 of the Public Health Service Act (42 U.S.C. 300d–4), which was added by section 2(a) of the Emergency Medical Services Systems Act of 1973, Pub. L. 93–154. Section 1205 of the Public Health Service Act authorizes the Secretary of Health, Education, and Welfare to make grants to public or private nonprofit entities for the support of research in emergency medical techniques, methods, devices, and delivery.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed amendment of 42 CFR Part 52 to the Bureau of Health Services Research, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, on or before April 29, 1974. All comments received in response to this notice will be available for public inspection in the above-named office on weekdays between the hours of 8:30 a.m. and 5:00 p.m.

It is therefore proposed to amend 42 CFR Part 52 in the manner set forth below.

Dated: March 6, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: March 25, 1974.

CASPAR W. WEINBERGER,
Secretary.

1. The citation of authority is amended by adding the words "sec. 1205, 87 Stat. 597; U.S.C. 300d–4." As amended, the citation of authority reads as follows:

AUTHORITY: The provisions of this Part 52 issued under secs. 215, 58 Stat. 690, as amended, 301, 81 Stat. 504; (42 U.S.C. 216, 1857g). Secs. 301, 58 Stat. 691, as amended; 303, 70 Stat. 929; 304, 81 Stat. 534; 396, 79 Stat. 1063; 103, 81 Stat. 486; 204, 79 Stat. 998; (42 U.S.C. 241, 242a, 242b, 280b–6, 1857b, 3253); sec. 1205, 87 Stat. 597; 42 U.S.C. 300d–4. Reorganization Plan No. 3 of 1966, 31 FR 8855, 80 Stat. 1610; 3 CFR 1966 Comp.; Reorganization Orders and Delegations of Mar. 13, Apr. 1, 1968 (33 FR 4894, 5426) and Jan. 17, 1969 (34 FR 1279).

2. Section 52.1 is amended by revoking the words "grants for studies in providing services outside hospitals." As amended, § 52.1 reads as follows:

§ 52.1 Applicability.

The regulations of this part apply to grants for the support of health related research projects as set forth in § 52.10. They do not apply to general research support grants, demonstration grants, or other grants as may be authorized by law, such as grants for the construction of research facilities (see Part 57 of this chapter), for the construction of hospital or other medical facilities (see Part 53 of this chapter), for the award of fellowships (see Part 61 of this chapter), traineeships (see Part 63 of this chapter), or training grants (see Part 64 of this chapter).

3. Section 52.10 is amended by deleting the period at the end of paragraph (e) and inserting in lieu thereof "; and", and by adding a new paragraph (f), to read as follows:

§ 52:10 Nature and purpose of research project grant.

• • • • •

(f) Emergency medical techniques, methods, devices, and delivery as authorized by section 1205 of the Public Health Service Act (42 U.S.C. 300d–4).

4. In § 52.13, paragraph (a) is amended by adding at the end of the second sentence the words "and in the case of applications for support of research in emergency medical services, special consideration shall be given to applications for grants for research relating to the delivery of emergency medical services in rural areas." As amended, § 52.13(a) reads as follows:

§ 52.13 Evaluation and disposition of applications.

(a) *Evaluation.* All applications filed in accordance with § 52.12 shall be evaluated by the Secretary through such officers and employees and such experts or consultants engaged for this purpose as he determines are specially qualified in the areas of research involved in the project, including review by an appropriate National Advisory Council or other body as may be required by law. The Secretary's evaluation shall take into account among other pertinent factors the scientific merit and significance of the project, the competency of the proposed staff in relation to the type of research involved, the feasibility of the project, the likelihood of its producing meaningful results, the proposed project period, and the adequacy of the applicant's resources available for the project and the amount of grant funds necessary for completion, and in the case of application for support of research in emergency medical services, special consideration shall be given to applications for grants for research relating to the delivery of emergency medical services in rural areas.

DEPARTMENT OF TRANSPORTATION

Coast Guard

[33 CFR Part 117]

[CGD 74 72]

DRAWBRIDGE OPERATION REGULATIONS

Chesapeake and Delaware Canal, Del.

At the request of the U.S. Army Corps of Engineers, the Coast Gaurd is considering amending the regulations for the Penn Central lift bridge across the Chesapeake and Delaware Canal to allow the use of radiotelephones in lieu of sound and visual signals to request the opening of this bridge when communications have been satisfactorily established. This amendment is being considered to assure maximum safety of navigation. This section will only apply to the Penn Central Railroad bridge because the Reedy Point drawbridge has been replaced by a high level fixed bridge.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Commander, Fifth Coast Guard District (oan), Federal Building, 431 Crawford Street, Portsmouth, Virginia 23705. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Fifth Coast Guard District.

The Commander, Fifth Coast Guard District, will forward any comments received before April 30, 1974, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by:

1. Amending the heading of § 117.235a to read as follows:

§ 117.235a Chesapeake and Delaware Canal, Del.; Penn Central Railroad vertical lift bridge.

• • • • •

2. Adding a new paragraph (c) to § 117.235a to read as follows:

§ 117.235a Chesapeake and Delaware Canal, Del.; Penn Central Railroad vertical lift bridge.

• • • • •

(c) This bridge is equipped with an FM radiotelephone station and those vessels equipped with an FM radiotelephone station may contact the bridge by radiotelephone via Channel 13 (or whatever channel is currently assigned by the Federal Communications Commission). Sound signals may be omitted if radiotelephone communications are satisfactorily established and maintained between the draw tender and the approaching vessel, until the vessel has passed through the lift span.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937 (33 U.S.C. 499, 49 U.S.C 1655(g)(2)); 49 CFR 146(c)(5); 33 CFR 1.05–1(c)(4)).

Dated: March 21, 1974.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.74-7280 Filed 3-28-74;8:45 am]

[33 CFR Part 117]

[CGD 74 71]

DRAWBRIDGE OPERATION REGULATIONS

Chuckatuck Creek, Va.

At the request of the Virginia Department of Highways, the Coast Guard is considering revising the regulations for the drawbridge at mile 1.0 across Chuckatuck Creek, Nansemond, Virginia. Present regulations require that the draw open on signal from 7:00 a.m. to 3:00 p.m., daily except Sunday and at all other times if at least 4 hours notice is given. The proposed regulations would require at least 2 hours notice at all times. The requirement that the bridge open on signal from 7:00 a.m. to 3:00 p.m. is being eliminated because of limited openings of the bridge (52 from July 1971 through April 1973). The reduced notice time would allow sufficient time for Highway Department personnel to travel to the bridge for draw openings. The emergency requirement is being reworded in order to clarify its meaning.

Interested persons may participate in this proposed rulemaking by submitting written data, views, or arguments to the Commander, Fifth Coast Guard District (oan), Federal Building, 431 Crawford Street, Portsmouth, Vrginia 23705. Each person submitting comments should include his name and address, identify the bridge, and give reasons for any recommended change in the proposal. Copies of all written communications received will be available for examination by interested persons at the office of the Commander, Fifth Coast Guard District.

The Commander, Fifth Coast Guard District, will forward any comments received before April 30, 1974, with his recommendations to the Chief, Office of Marine Environment and Systems, who will evaluate all communications received and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

In consideration of the foregoing, it is proposed that Part 117 of Title 33 of the Code of Federal Regulations, be amended by revising subparagraph (23) of paragraph (f) of § 117.245 to read as follows:

§ 117.245 Navigable waters discharging into the Atlantic Ocean south of and including Chesapeake Bay and into the Gulf of Mexico, except the Mississippi River and its tributaries and outlets; bridges where constant attendance of draw tenders is not required.

• • • • •

(f) • • •

(23) Chuckatuck Creek, Va.; Virginia Department of Highways bridge on U.S. Route 17 between Nansemond and Isle of Wight County. The draw shall open on signal if at least 2 hours notice is given. If an emergency exists the draw shall open as soon as possible.

• • • • •

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; (33 U.S.C. 499, 49 U.S.C. 1655(g)(2)); 49 CFR 1.46(c)(5), 33 CFR 1.05–1(c)(4))

Dated: March 21, 1974.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74–SO–34]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Vidalia, Ga., transition area.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Vidalia transition area described in § 71.181 (39 FR 440) would be amended as follows:

"• • • longitude 82°22'15" W.) • • •" would be deleted and "• • • longitude 82°22'15" W.); within a 6.5-mile radius of Reidsville Airport, Reidsville, Ga. (latitude 32°03'19" N., longitude 82°-09'19" W.); within 3 miles each side of the 295° bearing from Prison RBN (latitude 32°03'27" N., longitude 82°09'09" W.), extending from the 6.5-mile radius area to 8.5 miles northwest of the RBN • • •" is substituted therefor.

The proposed alteration is required to provide controlled airspace protection for IFR operations at Reidsville Airport. A prescribed instrument approach procedure to this airport, utilizing the Prison (private) Nondirectional Radio Beacon, is proposed in conjunction with the alteration of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on March 21, 1974.

PHILLIP M. SWATEK,
Director, Southern Region.

[FR Doc.74-7238 Filed 3-28-74;8:45 am]

[14 CFR Part 75]

[Airspace Docket No. 74–SO–18]

RNAV ROUTE

Proposed Alteration

The Federal Aviation Administration (FAA) is considering an amendment to Part 75 of the Federal Aviation Regulations that would alter a segment of RNAV Route No. J812R in the vicinity of Atlanta, Ga.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before April 29, 1974, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examinaiton by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue, SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would realign J812R between ALMA, Ga., and SHUTO as follows:

V 39 62
MAR 29 74
XUM

Waypoint	Latitude-longitude	Ref. Facility	Rho/Theta
ALMA	31°22'1" N., 82°30'30" W.	SAV	243.7° M/80.5.
SINCA	33°05'19" N., 83°33'03" W.	AOS	250.4° M/76.3.
CANTE	34°19'29" N., 84°25'39" W.	CHA	135.5° M/52.4.
SHUTO	37°14'52" N., 85°21'50" W.	TYS	320° M/107.3.

As presently aligned, the route creates points of conflict with inbound traffic at LANDS and SINCA, and with outbound traffic at CANTE and SOCLE. Realignment as proposed would move the route centerline westward as much as 27 miles, thereby eliminating the points of conflict.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on March 25, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74-7237 Filed 3-28-74;8:45 am]

FEDERAL HOME LOAN BANK BOARD

[12 CFR Parts 545, 549]

[No. 74-59]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Authorization and Limitations of Issuing Negotiable Certificates of Deposit

JANUARY 30, 1974.

The Federal Home Loan Bank Board considers it desirable to propose to amend various sections of Parts 545 and 549 of the rules and regulations for the Federal Savings and Loan System (12 CFR Parts 545 and 549) for the purpose of authorizing Federal associations to issue negotiable certificates of deposit as described below. By a companion Resolution (Resolution No. 74-60; January 30, 1974), the Board proposes collateral amendments to the rules and regulations for Insurance of Accounts (12 CFR Ch. V, Subchapter D).

The principal amendment to said Part 545 would be to add a new § 545.1-5 thereto which would authorize, and place limitations on, the issuance of negotiable certificates of deposit. Under paragraph (a) of proposed § 545.1-5, each Federal association which has adopted the charter provision set forth in § 545.1-3 (12 CFR 545.1-3)—a "deposit-type" association—could accept savings deposits for fixed periods of time and bearing fixed rates of interest which are evidenced by certificates which by their form are negotiable instruments under the law of the State where the home office of the association is located. Negotiable certificates of deposit would have the same status and priority as is provided under § 545.1-2 (12 CFR 545.1-2) for savings deposits authorized by that section.

Paragraph (b) of proposed § 545.1-5 would permit payment of interest on negotiable certificates of deposit either monthly, quarterly, semiannually or at the conclusion of the fixed-term.

Paragraph (c) of proposed § 545.1-5 would set forth limitations on negotiable certificates of deposit. In substance, Federal associations would not be permitted to issue a negotiable certificate of deposit: (1) Which has a principal amount of less than $100,000; (2) which has a term of less than 30 days or more than 10 years; (3) which permits the association to redeem or accelerate payment of the certificate before the end of its fixed-term; (4) which permits the holder to add to it, or withdraw principal from it, before the end of its fixed-term; (5) which permits any renewal or extension at the end of its fixed-term; or (6) which provides for the payment of any interest after the end of its fixed-term.

Also, paragraph (c) of proposed § 545.1-5 would require that before the association could issue negotiable certificates of deposit, the association must obtain an opinion by its legal counsel that the form of the certificate complies with the requirements of applicable law (including applicable State negotiable instruments law) and regulations and the association's charter, and must submit the form of certificate and the legal opinion to the Federal Savings and Loan Insurance Corporation. The legal opinion would not need to be obtained if the association uses a form of certificate which has already been approved by the Corporation for use by Federal associations. At this time it is not expected that the Corporation will approve certificate forms for general use by all Federal associations until sufficient experience is gained concerning the form of negotiable certificates of deposit. As a result, each association desiring to issue negotiable certificates of deposit would have to first submit its certificate forms and legal opinions to the Corporation. Specific Board or staff approval of the certificate form would not be required by the regulation, but it is expected that an association would wait for a reasonable period of time for staff comments before beginning to issue a certificate form submitted to the Corporation.

Paragraphs (d) and (e) of proposed § 545.1-5 are concerned with the provisions to be set forth on the face of the certificate form. Under paragraph (e), a certificate which meets the requirements of paragraphs (c), (d) and (f) could be in such form as the board of directors of the association may determine. For example, it could be registered or nonregistered, be payable to bearer or to the order of a specified person or entity, or be a coupon-type instrument. Under paragraph (d), a negotiable certificate of deposit form would be required in substance to include in its provisions and display in easily read type: (1) The amount of the deposit and the date on which it is made; (2) the rate of interest to be paid, the date or dates on which principal is payable, and the date or dates or the frequency of payment of interest; (3) a statement as to deposit and withdrawal restrictions; and (4) a statement that interest will not accrue on, or be credited to, the deposit after the end of its fixed term.

Also, paragraph (d) of proposed § 545.1-5 would require the certificate form to disclose whether the holder of the certificate has membership and voting rights in the association. Under paragraph (f) of proposed § 545.1-5 the association's board of directors may decide whether to grant membership and voting rights to holders of negotiable certificates of deposit or designated classes thereof. However, if membership and voting rights are granted, the certificate would have to be in registered form.

The issuance of negotiable certificates of deposit would be subject to the restrictions of § 563.25 of the rules and regulations for Insurance of Accounts (12 CFR 563.25) concerning sales commissions and the use of brokers. Such issuance would also be subject to § 526.5-1 of the regulations for the Federal Home Loan Bank System (12 CFR 526.5-1) which places a percentage of total savings accounts limitation on certificate accounts of $100,000 or more paying a return at a rate in excess of 6.75 percent.

The Board also proposes to amend §§ 545.1-4, 545.2 and 545.4-1 of said Part 545 (12 CFR 545.1-4, 545.2 and 545.4-1) in connection with permitting the issuance of negotiable certificates of deposit. Section 545.1-4(a) would be amended by adding "and § 545.1-5" after the phrase "In addition to the savings deposits authorized by § 545.1-2" at the beginning thereof. Section 545.4-1 would be amended by adding a new paragraph (c) which would provide in substance that § 545.4-1 does not limit the authority of Federal associations to issue negotiable certificates of deposit.

Authorizing Federal associations to issue negotiable certificates of deposit requires several changes to § 545.2, captioned "Evidence of ownership". Generally, these changes deal with what records and proof of ownership would be required in connection with the issuance of negotiable certificates of deposit. Paragraph (a) of § 545.2 would be revised so that a Federal association issuing a negotiable certificate of deposit would not be required to obtain a signature card from the owner of such deposit if it is not in registered form. This change is desirable in connection with the issuance of negotiable certificates of deposit which are in bearer form and in order to facilitate distribution of negotiable certificates of deposit through a dealer or broker.

Paragraph (b) of § 545.2 is revised to make clear that at least for the time being the Board will not prescribe negotiable certificates of deposit forms as discussed above. Said paragraph (b) would also be revised by deleting the last sentence thereof since there are no longer any Federal associations holding Charter E.

Similar conforming amendments would be made to paragraphs (c) and (d) of § 545.2. It should be noted, however, that the second sentence of paragraph (c) would be revised and a new third sentence added to indicate that applicable State negotiable instruments law would determine the rules for valid and sufficient release of the association for any payment of a negotiable certificate of deposit.

Part 549 deals with the powers of a receiver and the conduct of a receivership. A new § 549.5-2 would be added thereto to make clear that written notifications required by §§ 549.5(a) and 549.5-1(b)(1) need not be sent to holders of negotiable certificates of deposit which are not in registered form.

Accordingly, the Board hereby proposes to amend said Parts 545 and 549 as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue, NW., Washington, D.C. 20552, by April 30, 1974, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

1. Section 545.1-4(a) would be amended to read as follows:

§ 545.1-4 Other savings deposits.

(a) *General.* In addition to the savings deposits authorized by §§ 545.1-2 and 545.1-5, any Federal association which has a charter in the form of Charter N or Charter K (rev.) and which has adopted the charter provision set forth in § 545.1-3 may, subject to the provisions of this section, accept savings deposits for fixed periods of time and bearing fixed rates of interest, which savings deposits shall have the same status and priority as is provided under subparagraph (3) of paragraph (b) of § 545.1-2 for savings deposits authorized by that section. Holders of savings deposits authorized by this section shall, to the same extent as is provided in subparagraph (2) of paragraph (b) of § 545.1-2 for holders of savings deposits authorized by that section, be members of the association and have voting rights.

* * * * * *

2. A new § 545.1-5 to read as follows would be added immediately after § 545.1-4:

§ 545.1-5 Negotiable certificates of deposit.

(a) *General.* In addition to the savings deposits authorized by §§ 545.1-2 and 545.1-4, any Federal association which has adopted the charter provision set forth in § 545.1-3 may, subject to the provisions of this section, accept savings deposits for fixed periods of time and bearing fixed rates of interest which are evidenced by certificates which by their form are negotiable instruments under the law of the State where the home office of the association is located (hereinafter referred to as "negotiable certificates of deposit"). Negotiable certificates of deposit issued pursuant to the authority contained in this section shall have the same status and priority as is provided under § 545.1-2(b)(3) for savings deposits authorized by that section.

(b) *Payment of interest.* Interest on negotiable certificates of deposit authorized by this section shall be paid at the rate fixed, or negotiated on an individual basis, by the association prior to the acceptance of the deposit; but such rate shall not exceed the applicable maximum rate prescribed in Part 526 of this Chapter. The board of directors of the association shall provide that interest on such deposits, or designated classes thereof, shall be paid either monthly, quarterly, semiannually, annually, at the conclusion of the fixed term, or on any dates on which interest may be paid on savings deposits authorized by § 545.1-2. The board of directors of the association may provide for the payment of interest on negotiable certificates of deposit authorized by this section on the same basis, terms, and conditions as is provided for the distribution of earnings by § 545.1-1.

(c) *Limitations on negotiable certificates of deposit.* In accepting savings deposits under the authority contained in paragraph (a) of this section, a Federal association shall not:

(1) Issue any negotiable certificate of deposit of less than $100,000;

(2) Issue any negotiable certificate of deposit for a term of less than 30 days or more than 10 years;

(3) Issue any negotiable certificate of deposit which by its terms is subject to redemption or acceleration by the association;

(4) Issue any negotiable certificate of deposit which by its terms permits the holder thereof to add to or withdraw principal from such certificate of deposit before the end of its fixed-term;

(5) Issue any negotiable certificate of deposit under this section unless the association has first (i) obtained a written opinion by its legal counsel that the form of the certificate complies with the requirements of applicable law and regulations and the association's charter, which opinion shall be retained by the association so long it continues to issue certificates in such form, and (ii) submitted a copy of such certificate, together with a copy of such legal opinion, to the Federal Savings and Loan Insurance Corporation: *Provided*, That such legal opinion need not be obtained if the association uses a form of negotiable certificate of deposit which has already been approved by the Corporation for use by Federal associations;

(6) Issue any negotiable certificate of deposit which by its terms permits any renewal or extension at the end of its fixed-term; or

(7) Issue any negotiable certificate of deposit which provides for the payment of any interest for any period during which the funds deposited remain with the association after the end of the fixed-term of the savings deposit evidenced by such certificate.

(d) *Provisions required in negotiable certificates of deposit.* Each negotiable certificate of deposit issued by a Federal association pursuant to the authority contained in paragraph (a) of this section shall include in its provisions and display in easily read type:

(1) The amount of the deposit and the date on which it is made;

(2) The rate of interest to be paid, the date or dates on which principal is payable, and the date or dates or the frequency of payment of interest;

(3) A statement that the holder of the certificate is not permitted to add to, or withdraw principal from, the savings deposit evidenced by the certificate before the end of its fixed-term;

(4) A statement that no interest shall accrue on, or be credited to, the savings deposit evidenced by the certificate after the end of its fixed-term; and

(5) A statement as to whether the holder of the certificate has membership and voting rights in the association.

(e) *Form of certificate.* Certificates evidencing savings deposits accepted pursuant to the authority contained in this section shall, subject to paragraphs (c), (d) and (f) of this section, be in such form as the board of directors of the association may determine. Such certificates shall not be incorporated in passbooks.

(f) *Membership and voting rights.* The board of directors of the Federal association shall determine whether holders of savings deposits evidenced by negotiable certificates of deposit issued pursuant to the authority contained in this section, or designated classes thereof, are membrs of the association and have voting rights as provided in § 545.1-2(b)(2) for holders of savings deposits authorized by that section. If the board of directors determines that holders of negotiable certificates of deposit are members of the association and have voting rights, such holders shall have membership and voting rights to the same extent provided in § 545.1-2(b)(2) for holders of savings deposits authorized by that section. If the holders of negotiable certificates of deposit are given membership and voting rights, the name and address of the owner of the certificate shall be registered on the books of the association and the certificate shall be made transferable only on such books.

Section 545.2 would be revised to read as follows:

§ 545.2 Evidence of ownership.

(a) *Signature card.* In connection with the issuance of a savings account other than a negotiable certificate of deposit issued under § 545.1-5 which is not in registered form, a Federal association shall obtain a card containing the signature of the owner of such account or his duly authorized representative and shall preserve such signature card in the records of the association.

V 39 62 MAR 29 74 XUM

(b) *Account books and certificates.* A Federal association that has Charter N or Charter K (rev.) shall issue to each holder of its savings accounts an account book, or a separate certificate, evidencing the ownership of the account and the interest of the holder thereof in the capital of such Federal association. Each such certificate shall be in form prescribed by the Board. (The Board has prescribed for use by all Federal associations that have Charter K, forms of certificates evidencing the ownership of savings share accounts, short-term savings share accounts, and investment share accounts; and has prescribed for use by all Federal associations that have Charter N or Charter K (rev.) forms of certificates, other than a negotiable certificate of deposit, evidencing ownership of savings accounts. Illustrative copies of these forms may be obtained from the Federal Home Loan Bank Board, Washington, D.C., or from any Federal Home Loan Bank.)

(c) *Ownership of record.* A Federal association may treat the holder of record of a savings account, including a negotiable certificate of deposit which is in registered form, as the owner for all purposes without being affected by any notice to the contrary unless such Federal association has acknowledged in writing notice of a pledge of such savings account or notice of a transfer or negotiation of such a negotiable certificate of deposit. The receipt or acquittance of any member, including a minor person or a married woman, who holds a savings account other than a negotiable certificate of deposit shall be a valid and sufficient release and discharge of the association for any payment to such person on any savings account. Valid and sufficient release and discharge of the association for any payment of a negotiable certificate of deposit shall be determined under applicable State negotiable instruments law. Savings accounts of a Federal association, other than negotiable certificates of deposit which are not in registered form, shall be transferable only upon the books of the association and upon proper application by the transferee and the acceptance of the transferee as a member upon terms approved by the board of directors.

(d) *Duplicate account books and certificates.* Upon filing with a Federal association by the holder of record as shown by the books of the association, by the holder of a negotiable certificate of deposit, or by a legal representative of either of such holders, of an affidavit to the effect that the certificate or account book evidencing his savings account with the association has been lost or destroyed, and that such certificate or account book has not been pledged or assigned in whole or in part, and in the case of a negotiable certificate of deposit has not been transferred by him, such Federal association shall issue a new certificate or account book evidencing such savings account in the name of the holder of record or such holder of a negotiable certificate of deposit: *Provided*, That the board of directors shall, if in its judgment it is necessary, require a bond in an amount sufficient to indemnify the association against any loss which might result from the issuance of such new certificate or account book.

4. A new paragraph (c) to read as follows would be added to § 545.4–1:

§ 545.4–1 Payments to third parties by withdrawals or transfer of savings accounts; checks and money orders.

* * * * * *

(c) *Negotiable certificates of deposit.* Nothing in this section shall limit the authority of Federal associations under § 545.1–5 to accept savings deposits for fixed periods of time and bearing fixed rates of interest which are evidenced by certificates which by their form are negotiable instruments under the law of the State where the home office of the association is located.

5. A new § 549.5–2 to read as set forth below would be added immediately after § 549.5–1:

§ 549.5–2 Notifications required in this part.

The written notifications required by the fifth sentence of § 549.5(a) and the fifth sentence of § 549.5–1(b)(1) need not be sent to holders of negotiable certificates of deposit issued pursuant to § 545.1–5 of this chapter which are not in registered form.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[12 CFR Parts 563, 564]

[No. 74–60]

FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Proposed Approval of Issuing Negotiable Fixed-Rate, Fixed-Term Accounts

JANUARY 30, 1974.

The Federal Home Loan Bank Board considers it desirable to propose to amend various sections of Parts 563 and 564 of the rules and regulations for Insurance of Accounts (12 CFR Parts 563 and 564) for the purpose of approving the issuance of negotiable fixed-rate, fixed-term accounts by insured institutions as described below. By a companion Resolution (Resolution No. 74–59; January 30, 1974), the Board proposes collateral amendments to the rules and regulations of the Federal Savings and Loan System (12 CFR Ch. V, Subchapter C).

The principal amendment to said Part 563 would be to add a new § 563.3–3 thereto which would approve, and place limitations on, the issuance of negotiable fixed-rate, fixed-term accounts. Under paragraph (a) of proposed § 563.3–3, each insured institution could accept accounts bearing a definite rate of return for fixed periods of time evidenced by certificates which by their form are negotiable instruments under the law of the State where the principal office of the institution is located. A certificate which meets the provisions of paragraphs (b), (c) and (d) of proposed § 563.3–3 could be in such form as the board of directors of the institution may determine. For example, it could be registered or nonregistered, be payable to bearer or to the order of a specified individual or entity, or be a coupon-type instrument.

Paragraph (b) of proposed § 563.3–3 would set forth limitations on negotiable fixed-rate, fixed-term accounts. In substance, insured institutions would not be permitted to issue a negotiable fixed-rate, fixed-term account: (1) which has a principal amount of less than $100,000; (2) which has a term of less than 30 days or more than 10 years; (3) which permits the association to redeem or accelerate payment of the certificate before the end of its fixed-term; (4) which permits the holder to add to it, or withdraw principal from it, before the end of its fixed-term; (5) which permits any renewal or extension at the end of its fixed-term; or (6) which provides for the payment of any interest after the end of its fixed-term.

Also, paragraph (b) of proposed § 563.3–3 would require that before the insured institution could issue negotiable certificates of deposit, the institution must obtain an opinion by its legal counsel that the form of certificate complies with the requirements of applicable law (including applicable State negotiable instruments law) and regulations and the institution's charter, and must submit the form of certificate and the legal opinion to the Federal Savings and Loan Insurance Corporation. The legal opinion would not need to be obtained if the institution uses a form of certificate which has already been approved by the Corporation for use by institutions in the State where the institution is located. At this time it is not expected that the Corporation will approve certificate forms for general use by all insured institutions in a particular State until sufficient experience is gained concerning the form of negotiable certificates of deposit. As a result, each institution desiring to issue negotiable fixed-rate, fixed-term accounts would have to first submit its cretificate forms and legal opinions to the Corporation. Specific Board or staff approval of the certificate form would not be required by the regulation, but it is expected that an institution would wait for a reasonable period of time for staff comments before beginning to issue a certificate form submitted to the Corporation.

Paragraph (c) of proposed § 563.3–3 is concerned with the provsions to be set forth on the face of the certificate form. The certificate form would be required to include in its provisions and display in easily read type: (1) The amount of the deposit and the date on which it is made;

(2) the rate of interest to be paid, the date or dates on which principal is payable, and the date or dates or frequency of payment of interest; (3) a statement as to deposit and withdrawal restrictions; (4) a statement that interest will not accrue on, or be credited to, the deposit after the end of its fixed-term; and (5) whether the holder of the certificate has membership and voting rights in the institution.

Paragraph (d) of proposed § 563.3–3 would require that if the holders of negotiable fixed-rate, fixed-term accounts have membership and voting rights in the insured institution, the name and address of the owner of the account shall be registered on the books of the institution and the certificate evidencing the account shall be made transferable only on such books.

The issuance of negotiable fixed-rate, fixed-term accounts would be subject to the restrictions of § 563.25 of the rules and regulations for Insurance of Accounts (12 CFR 563.25) concerning sales commissions and the use of brokers. Such issuance would also be subject to § 526.5–1 of the regulations for the Federal Home Loan Bank System (12 CFR 526.5–1) which places a percentage of savings limitation on certificate accounts of $100,000 or more paying a return at a rate in excess of 6.75 percent.

The Board aslo proposes to amend §§ 563.3–1, 563.4, 563.7–2 and 563.17–1 (12 CFR 563.3–1, 563.4, 563.7–2 and 563.17–1) in connection with approving the issuance of negotiable fixed-rate, fixed-term accounts. Section 563.3–1(a) would be amended by adding the phrase "In addition to accounts approved by § 563.3–3" at the beginning thereof. Section 563.7–2(a) would be amended by adding § 563.3–3 to the list of sections referred to therein.

Section 563.4, captioned "Transfer of securities", presently requires that all securities issued by an insured institution shall be made transferable only on the books of the institution. This section would be revised so that negotiable fixed-rate, fixed-term accounts which are not in registered form would not be required to be made transferable only on the books of the institution.

Section 563.17–1(c)(5), captioned "Records with respect to insured accounts", would be revised so that the records of an insured institution would not be required to contain the signature of the holder of a negotiable fixed-rate, fixed-term account which is not in registered form. Such records would be required to reflect the balance in such account, however.

Part 564 of the rules and regulations for Insurance of Accounts (12 CFR Part 564) deals with settlement of insurance. Paragraph (a) of § 564.1 (12 CFR 564.1) captioned "Settlement of insurance upon default", would be amended to indicate that the Corporation need not send written notice of the time and place of payment of insurance to the holders of negotiable certificates of deposit and negotiable fixed-rate, fixed-term accounts which are not in registered form. If the institution has outstanding at the time of default such a deposit or account which is not in registered form, the Corporation would be required, however to publish, in a newspaper of general circulation in the area in which such institution's principal office is located, a notice to all account holders of such institution of the time and place of payment of insurance.

Section 564.2 (12 CFR 564.2) sets forth general principles applicable in determining the insured members of an insured institution and the amount of their insured accounts. Paragraph (b)(1) thereof states, in part, that "The account records of the insured institution shall be conclusive as to the existence of any relationship pursuant to which the funds in the account are invested and on which a claim for insurance coverage is founded * * *." A new paragraph (b)(5) would be added to § 564.2 which would provide that paragraph (b) does not apply with respect to negotiable certificates of deposit and negotiable fixed-rate, fixed-term accounts which are not in registered form. Paragraph (b)(5) would require that affirmative proof must be offered in all cases to substantiate a claim by the holder of such a deposit or account as to the existence of any relationship upon which a claim for insurance coverage is founded.

A new § 564.13, captioned "Accounts evidenced by negotiable certificates", would be added to Part 564 which would be comparable to a similar regulation of the Federal Deposit Insurance Corporation (12 CFR 330.11). In substance, new § 564.13 would provide that the holder of a negotiable certificate of deposit or a negotiable fixed-rate, fixed-term account which is not in registered form will be recognized for all purposes involving claims in connection with settlement of insurance upon default as if the name and interests of such holder could be determined from the books and records of the insured institution. However, the certificate must have been negotiated to such holder prior to the date of the closing of the institution and affirmative proof of such negotiation must be offered in all cases to substantiate the claim. In that connection, a new example of insurance coverage for negotiable certificates of deposit and negotiable fixed-rate, fixed-term accounts would be added to the Appendix to Part 564. The purpose of the example is to explain that the insurance coverage as to the holders of a certificate evidencing such a deposit or account is unaffected by the insurance coverage which was afforded to a previous holder of such certificate.

Accordingly, the Board hereby proposes to amend said Parts 563 and 564 as set forth below.

Interested persons are invited to submit written data, views, and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue, NW., Washington, D.C. 20552, by April 30, 1974, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

1. Section 563.3–1(a) would be revised to read as follows:

§ 563.3–1 Fixed-rate, fixed-term accounts.

(a) *General approval.* In addition to accounts approved by § 563.3–3, a State-chartered institution which, in accordance with State law, may accept accounts bearing a definite rate of return for fixed periods of time (hereinafter referred to as "fixed-rate, fixed-term accounts") and whose board of directors has adopted a resolution providing for the issuance of such fixed-rate, fixed-term accounts may, subject to the limitations contained in paragraph (b) of this section and to the disclosure provisions contained in paragraph (c) of this section, issue certificates evidencing such fixed-rate, fixed-term accounts in such form as the board of directors of the institution may determine.

* * * * * *

2. A new § 563.3–3 to read as follows would be added immediately following § 563.3–2:

§ 563.3–3 Negotiable fixed-rate, fixed-term accounts.

(a) *General approval.* In addition to accounts approved by § 563.3–1, a State-chartered institution which, in accordance with State law, may accept accounts bearing a definite rate of return for fixed periods of time evidenced by certificates which by their form are negotiable instruments under the law of the State in which the principal office of the institution is located (hereinafter referred to as "negotiable fixed-rate, fixed-term accounts") and whose board of directors has adopted a resolution providing for the issuance of such negotiable fixed-rate, fixed-term accounts may, subject to paragraphs (b), (c) and (d) of this section, issue certificates evidencing such negotiable fixed-rate, fixed-term accounts in such form as the board of directors of the institution may determine.

(b) *Limitations.* In issuing certificates evidencing negotiable fixed-rate, fixed-term accounts pursuant to the approval contained in paragraph (a) of this section, an insured institution shall not:

(1) Issue any negotiable fixed-rate, fixed-term account of less than $100,000;

(2) Issue any negotiable fixed-rate, fixed-term account for a term of less than 30 days or more than 10 years;

(3) Issue any negotiable fixed-rate, fixed-term account which by its terms is subject to redemption or acceleration by the institution;

(4) Issue any negotiable fixed-rate, fixed-term account which by its terms permits the holder thereof to add to or

V 39 62 MAR 29 74 XUM

withdraw principal from such account before the end of its fixed-term;

(5) Issue any negotiable fixed-rate, fixed-term account under the approval contained in this section unless the institution has first (i) obtained a written opinion by its legal counsel that that form of certificate evidencing such account complies with the requirements of applicable law and regulations and the institution's charter, which opinion shall be retained by the institution so long as it continues to issue certificates in such form, and (ii) submitted a copy of such form of certificate, together with a copy of such legal opinion, to the Federal Savings and Loan Insurance Corporation: *Provided*, That such legal opinion need not be obtained if the institution uses a form of certificate which has already been approved by the Corporation for use by insured institutions in the State where such institution is located;

(6) Issue any negotiable fixed-rate, fixed-term account which by its terms permits any renewal or extension at the end of its fixed-term; or

(7) Issue any negotiable fixed-rate, fixed-term account which provides for the payment of any interest for any period during which the funds in the account remain with the institution after the end of the fixed-term of such account.

(c) *Provisions required in negotiable fixed-rate, fixed-term accounts.* Each certificate evidencing a negotiable fixed-rate, fixed-term account accepted pursuant to the approval contained in paragraph (a) of this section shall include in its provisions and display in easily read type:

(1) The amount of the negotiable fixed-rate, fixed-term account and the date on which it is issued;

(2) The rate of interest to be paid, the date or dates on which principal is payable, and the date or dates or frequency of payment of interest;

(3) A statement that the holder of the certificate is not permitted to add to, or withdraw principal from, the savings account evidenced by the certificate before the end of its fixed-term;

(4) A statement that no interest shall accrue on, or be credited to, the savings account evidenced by the certificate after the end of its fixed-term; and

(5) A statement as to whether the holder of the certificate has membership and voting rights in the institution.

(d) *Membership and voting rights.* If the holders of negotiable fixed-rate, fixed-term accounts, or designated classes thereof, have membership and voting rights in the insured institution, the name and address of the owner of the account shall be registered on the books of the institution and the certificate evidencing the account shall be made transferable only on such books.

3. Section 563.4 would be revised to read as follows:

§ 563.4 Transfer of securities.

Except for negotiable certificates of deposit and certificates evidencing negotiable fixed-rate, fixed-term accounts which are not in registered form, all securities issued by an insured institution shall be made transferable only on the books of the insured institution.

4. Section 563.7–2 would be revised to read as follows:

§ 563.7–2 Form, return, and maturity of securities.

Securities of any insured institution which are (a) in conformity with § 563.3–1, § 563.3–2, § 563.3–3, or § 563.8–1 or § 545.24 of this chapter, (b) issued in connection with any borrowing which is in conformity with § 563.8, (c) issued in connection with any transaction which is not a borrowing or the issuance of a savings account and is not in nonconformity with the terms of any provision of this part which by its terms is applicable to such transaction, or (d) issued with specific prior approval of the Corporation are, as to form, return, and maturity (as referred to in those parts of the third sentence of subsection (b) of section 403 of the National Housing Act, as now or hereafter in effect, which refer to the form, return, and maturity of securities), hereby approved by the Corporation.

5. Section 563.17–1(c)(5) would be revised to read as follows:

§ 563.17–1 Examinations and audits; appraisals; establishment and maintenance of records.

* * * * * *

(c) *Establishment and maintenance of records.* * * *

(5) *Records with respect to insured accounts.* Except as provided in the next sentence of this paragraph (c)(5), the records of an insured institution with respect to each withdrawable or repurchasable share, investment certificate, deposit, or savings account issued by such institution shall include the signature of the owner of such account or his duly authorized representative, together with a record reflecting the balance in such account. The records of an insured institution with respect to each negotiable certificate of deposit and certificate evidencing a negotiable fixed-rate, fixed-term account which are not in registered form need not include the signature of the holder of such certificate but shall reflect the balance in such account.

* * * * * *

6. Section 564.1(a) would be revised to read as follows:

§ 564.1 Settlement of insurance upon default.

(a) *General.* In the event of a default by an insured institution, the Corporation will promptly determine, from the savings account contracts and the books and records of the institution, the insured members thereof and the amount of the insured account of each such member. The Corporation will give to each member (except holders of negotiable certificates of deposit and negotiable fixed-rate, fixed-term accounts which are not in registered form) written notice of the time and place of payment of insurance by mail at the last known address as shown on the books of the insured institution. If an insured institution has outstanding at the time of default any negotiable certificates of deposit or certificates evidencing negotiable fixed-rate, fixed-term accounts which are not in registered form, the Corporation shall also, concurrently with the mailing of such written notice, publish (in a newspaper printed in the English language and of general circulation in the city or county in which the principal office of such insured institution is located) a notice to all account holders of such insured institution of the time and place of payment of insurance.

* * * * * *

7. Section 564.2(b) would be revised by adding a new subparagraph (5) thereto to read as follows:

§ 564.2 General principles applicable in determining insurance of accounts.

* * * * * *

(b) *Records.* * * *

(5) The provisions of this paragraph shall not apply with respect to "negotiable certificates of deposit" issued pursuant to § 545.1–5 of this chapter and "negotiable fixed-rate, fixed-term accounts" issued pursuant to the approval contained in § 563.3–3 of this chapter which are not in registered form. Affirmative proof must be offered in all cases to substantiate a claim by the holder of such a deposit or account as to the existence of any relationship upon which a claim for insurance coverage is founded.

* * * * * *

8. A new § 564.13 to read as follows would be added immediately after § 564.12:

§ 564.13 Accounts evidenced by negotiable certificates.

A "negotiable certificate of deposit" issued pursuant to § 545.1–5 of this chapter and a "negotiable fixed-rate, fixed-term account" issued pursuant to the approval contained in § 563.3–3 of this chapter which is not in registered form will be recognized for all purposes involving claims in connection with settlement of insurance upon default as if the name and interests of such holder could be determined from the books and records of the insured institution as required by this Part 564: *Provided*, That the certificate evidencing such deposit or account was in fact negotiated to such holder prior to the date of the closing of the insured institution. Affirmative proof of such negotiation must be offered in all cases to substantiate the claim.

9. A new Section H and a new example of insurance coverage would be added at the end of the Appendix following Part 564 to read as follows:

APPENDIX—EXAMPLES OF INSURANCE COVERAGE AFFORDED ACCOUNTS IN INSTITUTIONS INSURED BY THE FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

* * * * *

H. NEGOTIABLE CERTIFICATES OF DEPOSIT AND NEGOTIABLE FIXED-RATE, FIXED-TERM ACCOUNTS

Example 1

Question: A has $100,000 invested in a negotiable certificate of deposit. A transfers the certificate of deposit to B, who has $20,000 in a single-ownership account. B then transfers the certificate of deposit to C. What is the insurance coverage?

Answer: While A holds the certificate of deposit, it is insured for $20,000, leaving $80,000 uninsured. While B holds the certificate of deposit, it is added to his single-ownership account and his insurance coverage is $20,000, leaving $100,000 uninsured. While C holds the certificate of deposit, it is insured for $20,000 leaving $80,000 uninsured.

(Secs. 402, 403, 405, 48 Stat. 1256, 1257, 1259, as amended; (12 U.S.C. 1725, 1726, 1728). Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943–48 Comp., p. 1071)

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Parts 1001, 1002, 1004, 1015, 1033, 1036, 1040, 1049]

[Docket Nos. AO–14–A53, etc.]

MILK IN THE BOSTON REGIONAL AND CERTAIN OTHER MARKETING AREAS

Partial Decision on Proposed Amendments

In the matter of:

7 CFR Part	Marketing area	Docket No.
1001	Boston Regional	AO 14–A53.
1002	New York-New Jersey	AO 71–A68.
1004	Middle Atlantic	AO 160–A51.
1015	Connecticut	AO 305–A31.
1033	Ohio Valley	AO 166–A44.
1036	Eastern Ohio-Western Pennsylvania.	AO 179–A39.
1040	Southern Michigan	AO 225–A28.
1049	Indiana	AO 319–A22.

A public hearing was held upon proposed amendments to the marketing agreements and the orders regulating the handling of milk in the aforesaid marketing areas. The hearing was held, pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice (7 CFR Part 900), at Washington, D.C., on February 20–28, 1974, pursuant to notice thereof issued on February 14, 1974 (39 FR 5642).

The material issues on the record of the hearing relate to:

1. The immediate need for making inoperative the butter-powder formula under each order during the next few months.

2. Appropriate longer-term basis of pricing reserve milk under the eight orders.

3. Whether an emergency exists to warrant the omission of a recommended decision.

Sixteen proposals concerning the pricing of milk to which the butter-powder formula applies were submitted by interested parties for consideration at the hearing. Certain of the proposals called for either emergency suspension or immediate amendment action with respect to elimination of the butter-powder pricing formula. Other proposals involved adoption of new pricing formulas.

This partial decision deals with issues 1 and 3. Issue 2 is reserved for later decision.

FINDINGS AND CONCLUSIONS

The following findings and conclusions on the material issues are based on evidence presented at the hearing and the record thereof:

1. *The immediate need for making inoperative the butter-powder formula under each order during the next few months.* The price for reserve milk disposed of in manufacturing uses other than butter and nonfat dry milk in the eight markets under consideration should not be based on the butter-powder formula price but rather on the average of prices paid for manufacturing grade milk in Minnesota and Wisconsin. Milk utilized in butter and nonfat dry milk production in this April–July 1974 period should be priced below such Minnesota-Wisconsin price by the amount, not to exceed 50 cents, that the butter-powder formula price is less than the Minnesota-Wisconsin price.

Since mid-1968 in the four northeastern markets and for several years prior thereto in the other four markets, reserve milk (Class II milk under the Boston Regional, Connecticut, Indiana, Middle Atlantic, and New York-New Jersey orders and Class III milk under the Eastern Ohio-Western Pennsylvania, Ohio Valley, and Southern Michigan orders) has been priced at the lower of either the Minnesota-Wisconsin price or a butter-nonfat dry milk formula price. Except for a few occasions, these two pricing formulas have been in close alignment. Annually, the butter-powder formula price and the Minnesota-Wisconsin price have been in relative balance. For instance, the butter-powder formula price averaged 5 cents per hundredweight below the Minnesota-Wisconsin price in 1968, 17 cents below in 1969, 10 cents below in 1970, 6 cents above in 1971, 2 cents below in 1972, and 7 cents below in 1973.

Since January 1, 1969, there have been three periods when the Minnesota-Wisconsin price and the butter-powder formula price varied by more than 25 cents per hundredweight. The first period was October-December 1969 and January-April 1970 when the Minnesota-Wisconsin price varied from 31 to 42 cents over the butter-powder formula price; the second period was in August and September 1973 when the butter-powder formula price exceeded the Minnesota-Wisconsin price 36 and 33 cents, respectively; and finally, since October 1973, the Minnesota-Wisconsin price has exceeded the butter-powder formula price by $0.47, $0.78, $1.13, and $1.18 for October, November, and December 1973, and January 1974, respectively.

This current unprecedented price disparity between these two formulas is a result of a $2.32 increase since July 1973 in the prices paid for manufacturing grade milk as reflected in the Minnesota-Wisconsin pay price series compared to an increase of $1.00 in the butter-powder formula price. Substantive differences between the two price formulas are likely to continue at least through the immediate peak production months.

Substantial quantities of milk used to produce manufactured dairy products are associated with the eight orders. The annual volume of reserve milk supplies priced under the eight orders in 1971, 1972, and 1973 ranged from 26 to 28 billion pounds. Such reserve supplies have represented about 45 percent of the total volume of Class II and Class III milk priced under all Federal milk orders. Moreover, nearly 40 percent of the reserve supplies in the eight markets is produced during the four-month period, April–July.

When considered collectively for all eight markets, the principal regular outlets for reserve milk is in the so-called soft products such as cream, cottage cheese, ice cream, and ice milk mixes and condensed products. To a lesser extent, reserve milk in the eight markets is also used in hard cheese production. During the months of seasonally high production, significant quantities of butter and nonfat dry milk are processed since producer receipts exceed the volume of milk that can be utilized in the other lowest class use outlets.

The butter-powder formula was adopted under these orders principally on the basis that butter and nonfat dry milk plants were used to process milk in excess of Class I and soft product uses. Recently hard cheese production has increased in this northeastern region and such outlet for milk now accounts for a greater proportion of the market for seasonal reserve milk supplies.

A compelling reason that immediate action be taken is to eliminate the competitive disparity that currently exists between processors of reserve milk in the eight markets under consideration and similar processors in other Federal orders and unregulated processors of manufactured dairy products. The competitive market for products manufactured from reserve milk is essentially national in scope. Hence, dairy products manufactured from Federal order priced reserve milk compete with products made from unregulated manufacturing grade milk. In recognition of this fact, it is essential that prices for reserve milk be maintained at comparable levels among Federal order markets with prevailing competitive pay prices for manufacturing grade milk at plants buying such milk.

Under existing circumstances, the current prices of reserve milk as established by the butter-powder price formula in

V 39 62 MAR 29 74 XUM

the eight markets under consideration are substantially below the competitive market value of milk for similar uses in other Federal orders as well as the prices being paid by unregulated processors of manufacturing grade milk. Processors of reserve milk in the eight markets have a substantially lower milk cost and thus higher gross margins are available to them than for their competitors. This disparity, if permitted to continue, will lead to dislocation of normal production and processing patterns and disruption of normal efficient marketing channels. To achieve competitive equality it is necessary to provide uniform pricing of reserve milk under the eight orders herein considered and the adjacent nearby orders to the West as well as align such prices with the competitive pay prices being paid for the majority of unregulated manufacturing grade milk in the United States. It is concluded, therefore, that this objective can best be achieved through the use of the Minnesota-Wisconsin price series.

It is quite evident that current reserve milk prices in the eight markets herein considered are not providing producers a return for that portion of their milk utilized in manufactured dairy products reflecting its full use value. Producers should not be expected to continue to accept less for their milk not needed for Class I uses than its full use value.

The current lower reserve price levels are provided by the butter-powder price formula are significantly depressing the uniform price received by producers. The amount of this depressing effect on uniform prices varies among markets by the proportion of reserve milk for a particular market in a given month. However, the record evidence indicated that the relative impact on uniform prices of using the butter-powder formula price rather than the Minnesota-Wisconsin price in determining reserve milk prices for the four-month period, October 1973–January 1974, in five markets (New York-New Jersey, Boston Regional, Connecticut, Middle Atlantic, and Eastern Ohio-Western Pennsylvania) was a weighted average reduction of nearly 32 cents per hundredweight.

Under this price depressing situation, dairy farmers are not encouraged to maintain milk production at levels necessary to meet current and anticipated market needs for milk and milk products. For the eight markets under consideration, total producer receipts in 1973 decreased 4.8 percent from 1972. Receipts in December were 4.6 percent below a year ago. The percentage of producer milk utilized in Class I in the eight markets increased from 60.3 percent in 1972 to 62.4 percent in 1973. Utilization of Class I milk in December 1973 was 64.4 percent.

Under these market conditions, an immediate increase in reserve milk prices will help encourage the production of adequate supplies of milk since total U.S. milk production is less than domestic demand for milk and the markets represent a large proportion of total U.S. milk production.

Certain producer groups strongly urged that the current inequities in reserve milk pricing in the eight orders can best be achieved by immediately suspending the application of the butter-powder price formula. Under this proposal, all reserve milk would be priced at the Minnesota-Wisconsin price. This proposed course of action is not adopted since it fails to consider that some reserve milk during this flush period will have no other available market outlet than in butter and powder production which, at present, is a lower-valued use of reserve milk.

As indicated previously, this decision provides for a special price for reserve milk used to produce butter and nonfat dry milk for the April–July 1974 period at not more than 50 cents per hundredweight less than the price applicable to milk used in other manufactured dairy products. This special price is designed to recognize the lower use value of reserve milk utilized in butter and nonfat dry milk production. It should accommodate the orderly disposition of reserve milk that cannot be utilized in other manufactured products, which may occur during the seasonal flush.

The average prices paid at butter and by-product plants in the U.S. in recent months has not dropped more than 42 cents under the Minnesota-Wisconsin price. An amount in excess of the 50-cent limit adopted, such as the $1.18 which the butter-powder formula would provide, could result in a special butter-powder price sufficiently below the regular reserve milk price to encourage processors of ice cream and cottage cheese to displace producer milk with nonfat dry milk and butter made from milk priced at the lower special price. The net effect of this potential substitution, if practiced by handlers, would lower total returns to producers.

In order to facilitate and equitably apply this special butter-powder price, the accompanying amendatory orders provide an additional provision to the handler's pool obligation treating the 50 cent price differential as a credit.

To facilitate the marketing of excess milk supplies, milk and cream moved to a nonpool plant for processing into butter and nonfat dry milk should be eligible for the credit to the extent that the amount processed into such products in the plant is sufficient to account for the amount of milk moved to such plant. In the event that there is an insufficient quantity of butter and nonfat dry milk made in a plant to account for the receipts from more than one Federal order source, the quantity processed into butter and nonfat dry milk should be prorated among those Federal order sources for which a similar price credit is allowed.

Two of the orders, Middle Atlantic and Southern Michigan, contain a base-excess plan of payments to producers. Since the excess price under the orders is based on the lowest class price, the credits on milk used to produce butter and nonfat dry milk appropriately should be allocated against the value of excess milk to the extent that the volume of excess milk is sufficient to cover the volume of milk on which the credit is allowed.

3. *Whether an emergency exists to warrant the omission of a recommended decision.* The due and timely execution of the function of the Secretary under the Act imperatively and unavoidably requires the omission of a recommended decision and opportunity for exceptions thereto on Issue No. 1. The current marketing conditions in the aforesaid marketing areas are such that it is urgent that remedial action be taken as soon as possible. It is necessary to correct at the earliest opportunity the disparity in alignment of reserve milk prices under the eight orders with the order prices in the midwest as well as the prices being paid for manufacturing grade milk. Accordingly, the requests for a recommended decision are denied.

The notice of hearing stated that consideration would be given to economic and emergency marketing conditions relating to the proposed amendments. Certain parties at the hearing requested emergency action be taken. Interim emergency action is necessary pending a detailed review of new pricing formulas presented on the record.

It is therefore determined that good cause exists for the omission of the recommended decision and the opportunity for filing exceptions thereto.

Rulings on Proposed Findings and Conclusions

Briefs and proposed findings and conclusions were filed on behalf of certain interested parties. These briefs, proposed findings and conclusions and the evidence in the record were considered in making the findings and conclusions set forth above. To the extent that the suggested findings and conclusions filed by interested parties are inconsistent with the findings and conclusions set forth herein, the requests to make such findings or reach such conclusions are denied for the reasons previously stated in this decision.

On the record of the hearing, separate motions were presented to the Administrative Law Judge that (1) the scope of the hearing be broadened to consider the proposed revision of all classification provisions of the orders, as well as to include the proposed revision of many additional Federal milk orders; and (2) the Department provide information during the hearing as to the identity, type of operation, and market outlet of products processed by plants handling manufacturing grade milk in the States of Minnesota and Wisconsin. The motions were denied.

In post-hearing briefs, it was requested that consideraiton be given to a reversal of the rulings.

The Administrative Law Judge's rulings have been reviewed in light of the arguments presented. The rulings, for the reasons stated by the Administrative Law Judge on the record, are hereby affirmed.

General Findings

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) The tentative marketing agreements and the orders, as hereby proposed to be amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(b) The parity prices of milk as determined pursuant to section 2 of the Act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the marketing areas, and the minimum prices specified in the tentative marketing agreements and the orders, as hereby proposed to be amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The tentative marketing agreements and the orders, as hereby proposed to be amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in, marketing agreements upon which a hearing has been held.

Marketing Agreement and Order

Annexed hereto and made a part hereof are two documents, a marketing agreement regulating the handling of milk,[1] and an order amending the orders regulating the handling of milk in the aforesaid specified marketing areas, which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions.

It is hereby ordered, That this entire decision, except the attached marketing agreement, be published in the Federal Register. The regulatory provisions of the marketing agreements are identical with those contained in the orders as hereby proposed to be amended by the attached order which is published with this decision.

[1] Filed as part of original document.

Determination of Producer Approval and Representative Period

December 1973 (September 1973 for the New York-New Jersey order) is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the orders, as amended and as hereby proposed to be amended, regulating the handling of milk in the aforesaid specified marketing areas, is approved or favored by producers, as defined under the terms of each of the orders (as amended and as hereby proposed to be amended), who during such representative period were engaged in the production of milk for sale within the aforesaid marketing areas.

Signed at Washington, D.C., on: March 27, 1974.

Clayton Yeutter,
Assistant Secretary.

Order[*] Amending the Order, Regulating the Handling of Milk in the Certain Specified Marketing Areas.

Findings and Determinations

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of each of the aforesaid orders and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein. The following findings are hereby made with respect to each of the aforesaid orders.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreements and to the orders regulating the handling of milk in the aforesaid specified marketing areas. The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as thereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered that on and after the effective date hereof the handling of milk in each of the specified marketing areas shall be in conformity to and in compliance with the terms and conditions of each of the orders, as amended, and as hereby amended, as follows:

PART 1001—MILK IN THE BOSTON REGIONAL MARKETING AREA

1. The introductory text of § 100.61(b) preceding the table is revised as follows:

§ 1001.61 Class prices.

* * * * *

(b) *Class II price.* Subject to the adjustment set forth below for the applicable month, the Class II price shall be the lesser of the basic formula price for the month or a butterpowder formula price for the month computed pursuant to paragraph (b)(1) through (3) of this section: *Provided*, That from the effective date hereof through July 1974, the price computed pursuant to paragraph (b)(1) through (3) of this section shall not be the Class II price.

* * * * *

2. In § 1001.64, a new paragraph (j) is added as follows:

§ 1001.64 Computation of value of fluid milk products at class prices.

* * * * *

(j) Deduct for each of the months from the effective date hereof through July 1974, an amount computed by multiplying the quantity of producer milk classified as Class II milk and used to produce butter or nonfat dry milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1001.61(b)(1) through (3).

PART 1002—MILK IN THE NEW YORK-NEW JERSEY MARKETING AREA

1. The introductory text of § 1002.50a (c) preceding the table is revised as follows:

§ 1002.50a Class prices.

* * * * *

(c) Subject to the adjustment set forth below for the applicable month, the Class II price shall be the lesser of the basic formula price for the month or a butter-powder formula price computed pursuant to paragraph (c)(1) through (3) of this section: *Provided*, That from the effective date hereof through July 1974, the price computed pursuant to paragraph (c)(1) through (3) of this section shall not be the Class II price.

* * * * *

[*] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

V 39 62 MAR 29 74 XUM

2. In § 1002.70, the introductory text is revised and a new paragraph (f) is added as follows:

§ 1002.70 Net pool obligation of handlers.

Each handler's net pool obligation for milk received at each plant and unit shall be computed separately pursuant to paragraphs (a) through (d) of this section and then combined into one total to be adjusted by any credit applicable pursuant to paragraphs (e) and (f) of this section to determine the handler's total net pool obligation.

* * * * *

(f) Deduct for each of the months from the effective date hereof through July 1974, an amount computed by multiplying the quantity of pool milk classified as Class II milk and used to produce butter or nonfat dry milk by the lesser of 50 cents per hundred-weight or the amount that the basic formula price exceeds the price computed pursuant to § 1002.50a(c) (1) through (3).

PART 1004—MILK IN THE MIDDLE ATLANTIC MARKETING AREA

1. The introductory text of § 1004.50(b) preceding the table is revised as follows:

§ 1004.50 Class prices.

* * * * *

(b) *Class II price.* Subject to the adjustment set forth below for the applicable month, the Class II price shall be the lesser of the basic formula price for the month or a butter-powder formula price computed pursuant to paragraph (b) (1) through (3) of this section: *Provided,* That from the effective date hereof through July 1974, the price computed pursuant to paragraph (b) (1) through (3) of this section shall not be the Class II price.

* * * * *

2. In § 1004.60, a new paragraph (f) is added as follows:

§ 1004.60 Pool obligation of each pool handler.

* * * * *

(f) Deduct for each of the months from the effective date hereof through July 1974 an amount computed by multiplying the quantity of producer milk classified as Class II milk used to produce butter or nonfat dry milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1004.50(b) (1) through (3).

3. In § 1004.61, paragraph (b) (1) (i) is revised as follows:

§ 1004.61 Computation of weighted average price and uniform prices for base milk and excess milk.

(b) * * *

(1) * * *

(i) Multiply the quantity of such milk which does not exceed the total quantity of producer milk received by such handlers assigned to Class II milk by the Class II milk price less 5 cents: *Provided,* That for each month from the effective date hereof through July 1974, there shall be deducted from the value of such excess milk an amount determined pursuant to § 1004.60(f) that is not in excess of an amount determined by multiplying the quantity of excess milk by the lesser or 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1004.50(b) (1) through (3);

* * * * *

PART 1015—MILK IN THE CONNECTICUT MARKETING AREA

1. The introductory text of § 1015.61 (b) preceding the table is revised as follows:

§ 1015.61 Class prices.

* * * * *

(b) *Class II price.* Subject to the adjustment set forth below for the applicable month, the Class II price shall be the lesser of the basic formula price for the month or a butter-powder formula price computed pursuant to paragraph (b) (1) through (3) of this section: *Provided,* That from the effective date hereof through July 1974 the price computed pursuant to paragraph (b) (1) through (3) of this section shall not be the Class II price.

* * * * *

2. In § 1015.63, paragraph (g) is revised and a new paragraph (h) is added as follows:

§ 1015.63 Value of each handler's fluid milk products.

* * * * *

(g) Add together the values resulting from the computations described in paragraphs (a) through (e) of this section and subtract therefrom the values resulting from the computations described in paragraphs (f) and (h) of this section. The remainder shall be known as the value of fluid milk products.

(h) Deduct from the effective date hereof through July 1974 an amount computed by multiplying the quantity of producer milk classified as Class II milk used to produce butter or nonfat dry milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1015.61(b) (1) through (3).

PART 1033—MILK IN THE OHIO VALLEY MARKETING AREA

1. The introductory text of § 1033.51 (c) is revised as follows:

§ 1033.51 Class prices.

* * * * *

(c) *Class III price.* The Class III price shall be the basic formula price for the month, but not to exceed an amount computed as follows: *Provided,* That from the effective date hereof through July 1974, the price computed pursuant to paragraph (c) (1) through (3) of this section shall not be the Class III price:

* * * * *

2. In § 1033.60, a new paragraph (h) is added as follows:

§ 1033.60 Computation of the net pool obligation of each handler.

* * * * *

(h) Deduct for each of the months from the effective date hereof through July 1974, an amount computed by multiplying the quantity of producer milk classified as Class III milk and used to produce butter or nonfat dry milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1033.51(c) (1) through (3).

PART 1036—MILK IN THE EASTERN OHIO-WESTERN PENNSYLVANIA MARKETING AREA

1. The introductory text of § 1036.50(c) is revised as follows:

§ 1036.50 Class prices.

* * * * *

(c) *Class III price.* The Class III price shall be the basic formula price for the month, but not to exceed an amount computed as follows: *Provided,* That from the effective date hereof through July 1974, the price computed pursuant to paragraph (c) (1) through (3) of this section shall not be the Class III price:

* * * * *

2. In § 1036.60, a new paragraph (f) is added as follows:

§ 1036.60 Handler's value of milk for computing uniform price.

* * * * *

(f) Deduct for each of the months from the effective date hereof through July 1974, an amount computed by multiplying the quantity of producer milk classified as Class III milk and used to produce butter or nonfat milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1036.50(c) (1) through (3).

PART 1040—MILK IN THE SOUTHERN MICHIGAN MARKETING AREA

1. The introductory text of § 1040.50 (c) is revised as follows:

§ 1040.50 Class prices.

* * * * *

(c) *Class III price.* The Class III price shall be the basic formula price, but not to exceed an amount computed as follows: *Provided,* That from the effective date hereof through July 1974, the price computed pursuant to paragraph (c) (1) through (3) of this section shall not be the Class III price:

* * * * *

2. In § 1040.60, a new paragraph (h) is added as follows:

§ 1040.60 Handler's value of milk for computing uniform price.

* * * * *

(h) Subtract for each of the months from the effective date hereof through July 1974, an amount computed by multiplying the quantity of producer milk classified as Class III milk used to produce butter or nonfat dry milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1040.50(c) (1) through (3).

3. In § 1040.61, paragraph (d) is revised as follows:

§ 1040.61 Computation of uniform prices for base milk and excess milk (including uniform price and adjusted uniform price).

* * * * *

(d) The excess milk price which shall be the Class III price pursuant to § 1040.50(c): *Provided,* That for each month from the effective date hereof through July 1974, the excess milk price shall be determined as follows:

(1) Multiply the total pounds of excess milk for the month by the Class III price;

(2) Subtract the amount determined pursuant to § 1040.60(h) that is not in excess of an amount determined by multiplying the quantity of excess milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1040.50(c) (1) through (3); and

(3) Divide the resultant value by the total hundredweight of excess milk. The resultant hundredweight price shall be the uniform price of excess milk of 3.5 percent butterfat content.

PART 1049—MILK IN THE INDIANA MARKETING AREA

1. The introductory text of § 1049.50(b) is revised as follows:

§ 1049.50 Class prices.

* * * * *

(b) *Class II price.* The Class II price shall be the basic formula price computed pursuant to § 1049.51, but not to exceed an amount computed as follows: *Provided,* That from the effective date hereof through July 1974, the price computed pursuant to paragraph (b) (1) through (3) of this section shall not be the Class II price:

* * * * *

2. In § 1049.60, a new paragraph (f) is added as follows:

§ 1049.60 Handler's value of milk for computing uniform price.

* * * * *

(f) Deduct for each of the months from the effective date hereof through July 1974, an amount computed by multiplying the quantity of producer milk classified as Class II used to produce butter or nonfat dry milk by the lesser of 50 cents per hundredweight or the amount that the basic formula price exceeds the price computed pursuant to § 1049.50(b) (1) through (3).

Notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

ORGANIZATION AND FUNCTIONS

This material supersedes the statements on organization and functions published at 37 FR 20961–20990, 38 FR 23341 and 23342, and 38 FR 30011 and 30012.

Dated: March 25, 1974.

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

1100 ORGANIZATION AND STAFFING

1110 ORGANIZATION AND FUNCTIONS OF THE INTERNAL REVENUE SERVICE

SEC. 1111 *Establishment of the Internal Revenue Service.*

SEC. 1111.1 *Mission.*

The mission of the Service is to encourage and achieve the highest possible degree of voluntary compliance with the tax laws and regulations and to maintain the highest degree of public confidence in the integrity and efficiency of the Service. This includes communicating the requirements of the law to the public, determining the extent of compliance and causes of non-compliance, and doing all things needful to a proper enforcement of the law.

SEC. 1111.2 *Organic Act.*

(1) The Office of the Commissioner of Internal Revenue was established by an act of Congress (12 Stat. 432) on July 1, 1862, and the first Commissioner of Internal Revenue took office on July 17, 1862.

(2) The act of July 1 provided:

"• • • That, for the purpose of superintending the collection of internal duties, stamp duties, licenses, or taxes imposed by this Act, or which may be hereafter imposed, and of assessing the same, an office is hereby created in the Treasury Department to be called the Office of the Commissioner of the Internal Revenue; • • • Commissioner of Internal Revenue, • • • shall be charged, and hereby is charged, under the direction of the Secretary of the Treasury, with preparing all the instructions, regulations, directions, forms, blanks, stamps, and licenses, and distributing the same or any part thereof, and all other matters pertaining to the assessment and collection of the duties, stamp duties, licenses, and taxes, which may be necessary to carry this Act into effect, and with the general superintendence of his office, as aforesaid, and shall have authority, and hereby is authorized and required, to provide proper and sufficient stamps or dies for expressing and denoting the several stamp duties, or the amount thereof in the case of percentage duties, imposed by this Act, and to alter and renew or replace such stamps from time to time, as occasion shall require; • • •"

(3) By common parlance and understanding of the time, an office of the importance of the Office of Commissioner of Internal Revenue was a bureau. The Secretary of the Treasury in his report at the close of the calendar year 1862 stated that "The Bureau of Internal Revenue has been organized under the Act of the last session • • •" Also it can be seen that Congress had intended to establish a Bureau of Internal Revenue, or thought they had, from the act of March 3, 1863, in which provision was made for the President to appoint with Senate confirmation a Deputy Commissioner of Internal Revenue "who shall be charged with such duties in the bureau of internal revenue as may be prescribed by the Secretary of the Treasury, or as may be required by law, and who shall act as Commissioner of internal revenue in the absence of that officer, and exercise the privilege of franking all letters and documents pertaining to the office of internal revenue." In other words, "the office of internal revenue" was "the bureau of internal revenue," and the act of July 1, 1862 is the organic act of today's Internal Revenue Service.

SEC. 1111.3 *History.*

SEC. 1111.31 *Internal taxation.*

Madison's Notes on the Constitutional Convention reveal clearly that the framers of the Constitution believed for some time that the principal, if not sole, support of the new Federal Government would be derived from customs duties and taxes connected with shipping and importations. Internal taxation would not be resorted to except infrequently, and for special reasons. The first resort to internal taxation, the enactment of internal revenue laws in 1791 and in the following 10 years, was occasioned by the exigencies of the public credit. These first laws were repealed in 1802. Internal revenue laws were reenacted for the period 1813–1817 when the effects of the war of 1812 caused Congress to resort to internal taxation. From 1818 to 1861, however, the United States had no internal revenue laws and the Federal Government was supported by the revenue from import duties and the proceeds from the sale of public lands. In 1862 Congress once more levied internal revenue taxes. This time the establishment of an internal revenue system, not exclusively dependent upon the supplies of foreign commerce, was permanent.

SEC. 1111.32 *Background and evolution of present organization.*

(1) Before the establishment of the Office of Commissioner of Internal Revenue, taxes were collected by "Supervisors" of collection districts who were appointed by the President, subject to Senate confirmation. These Supervisors worked under the direct control of the Treasury Department. The Revenue Act of 1813 provided, for the first time, for a "Collector" and a "Principal Assessor" for each collection district, and for deputy collectors and assistant assessors. Collectors and Assessors appear to be the original forerunners of the twentieth century Collectors of Internal Revenue and Internal Revenue Agents in Charge.

(2) Since 1862, the Internal Revenue Service has undergone a period of steady growth as the means for financing Government operations shifted from the levying of import duties to internal taxation. Its expansion received considerable impetus in 1913 with the ratification of the Sixteenth Amendment to the Constitution under which Congress received constitutional authority to levy taxes on the income of individuals and corporations. With the enactment of income tax laws the work of the Revenue Service began to take on a highly technical character.

(3) From the World War I period through 1951, the basic organizational structure of the Internal Revenue Service remained essentially unchanged even though there were marked increases in the number of taxpayers serviced, revenue receipts, employees and the overall workload. The Service was organized, in Washington and the field, on a program or "type-of-tax" basis, with jurisdictionally separate organizations, or "Units," charged with the administration of different types of taxes.

SEC. 1111.4 *Reorganization Plan No. 1 of 1952 and other changes.*

(1) On January 14, 1952, the President of the United States submitted to Congress Reorganization Plan No. 1 of 1952, calling for a comprehensive reorganization of the Internal Revenue Service. On March 13, 1952, the last motion to defeat the Plan was voted down in the Senate, and the Plan became effective on March 15, 1952.

(2) Reorganization Plan No. 1 of 1952 brought about four basic changes in the Internal Revenue Service:

(a) The organization of the Service along functional lines—i.e., operations, administration, technical, planning, and inspection;

(b) The abandonment of the system of political appointments to positions below the Commissioner;

(c) The integration of most field revenue programs under District Directors of Internal Revenue; and

(d) The establishment of a system of regional administration under Regional Commissioners of Internal Revenue.

(3) The Reorganization Plan provided authority for the establishment of 25 Offices of Regional Commissioners (referred to as "District Commissioners" in the Plan). By December 1, 1952, the Offices of 17 Regional Commissioners had been established. The major field programs, including alcohol and tobacco tax enforcement, were integrated under District Directors; the appellate program and the permissive alcohol and tobacco tax functions were placed in the Offices of Regional Commissioners; and, in the National Office, all activities were placed under Assistant Commissioners for Inspection; Operations; and Technical; an Assistant to the Commissioner, and an Administrative Assistant to the Commissioner.

(4) In 1953, a number of organizational refinements were effected. The number of regions was reduced to 9; the field operations of Alcohol and Tobacco Tax were centralized at the regional level; and the delinquent accounts and returns program was transferred from the Audit Divisions in the Offices of District Directors to their Collection Divisions. In the National Office, the position of Deputy Commissioner was established and the Bureau of Internal Revenue was redesignated as the Internal Revenue Service.

(5) Other significant changes since 1953 include establishment of the Offices of Assistant Commissioners for Administration, Data Processing, and Planning and Research; redesignation of the Assistant Commissioner (Operations) as the Assistant Commissioner (Compliance); discontinuance of the Columbus and Toledo (Ohio) districts and consolidation of the Upper and Lower Manhattan districts, effective January 1, 1960; establishment of the Anchorage (Alaska) district on January 1, 1961; transfer on September 13, 1963 of the Director of Practice from the Internal Revenue Service to the Office of the Secretary of the Treasury to be under the immediate supervision of the General Counsel; effective January 1, 1964, reduction in the number of regions to 8 and discontinuance of the districts of Camden (New Jersey), Kansas City (Missouri), Scranton (Pennsylvania), and Syracuse (New York); and, effective January 4, 1965, reduction in the number of regions to 7. On December 19, 1968, Alcohol and Tobacco Tax Division was changed to Alcohol, Tobacco and Firearms Division. Effective July 1, 1971, the Office of Assistant Commissioner (Data Processing) was redesignated Office of Assistant Commissioner (Accounts, Collection, and Taxpayer Service). Effective November 14, 1971, the position of Assistant Commissioner (Stabilization) was established. Effective July 1, 1972, the Alcohol, Tobacco and Firearms activity was transferred from the Internal Revenue Service to be a separate bureau within the Department of the Treasury.

SEC. 1112 *Service Organization.*

(1) The Internal Revenue Service is a component part of the Treasury Department. The Service is headed by the Commissioner of Internal Revenue who serves under the direction of the Secretary of the Treasury.

(2) The Internal Revenue Service consists of a National Office in Washington, D.C., and a field organization. The latter consists of 7 Internal Revenue regions, each headed by a Regional Commissioner who reports to the Deputy Commissioner; 58 Internal Revenue districts, each headed by a District Director, and 10 service centers, each headed by a Director, who report to a Regional Commissioner; and a computer center and a data center under the direction of the Assistant Commissioner (Accounts, Collection, and Taxpayer Service) in the National Office. In addition, there are in the field 7 Regional Inspectors and 7 Regional Counsels, who report to the Assistant Commissioner (Inspection) and the Chief Counsel, respectively, in Washington, D.C.

(3) In administering the appellate functions direct from the regional office, the Regional Commissioner maintains and supervises branch offices headed by Chiefs, Appellate Branch Office, who report to the Assistant Regional Commissioner (Appellate) who also carries the title of Chief, Appellate Division. Chief, Appellate Branch Office, may also supervise sub-offices administered by an Assistant Chief or local representative of the Chief.

(4) The Regional Counsels also maintain and supervise branch offices.

(5) In each Internal Revenue district there are offices in communities where concentration of workload in audit, collection, intelligence, or stabilization activities requires the assignment of personnel.

SEC. 1113 *National Office.*

SEC. 1113.1 *Mission.*

The mission of the National Office is to develop broad nationwide policies and programs for the administration of the internal revenue laws and related statutes, and to direct, guide, coordinate, and control the endeavors of the Internal Revenue Service.

SEC. 1113.2 *Basic Organization.*

The principal offices which form the National Office are: The Office of the Commissioner; the Office of the Assistant Commissioner (Administration); the Office of the Assistant Commissioner (Compliance); the Office of the Assistant Commissioner (Accounts, Collection, and Taxpayer Service); the Office of the Assistant Commissioner (Inspection); the Office of the Assistant Commissioner (Planning and Research); the Office of the Assistant Commissioner (Technical); the Office of the Assistant Commissioner (Stabilization); and the Office of the Chief Counsel.

SEC. 1113.3 *Office of the Commissioner.*

The Commissioner of Internal Revenue, in conformity with policies and delegations of authority made by the Secretary of the Treasury, establishes the policies and administers the activities of the Internal Revenue Service. The Office of the Commissioner includes the Deputy Commissioner, the Assistant to the Commissioner, Assistant to the Commissioner (Public Affairs) and the Tax Administration Advisory Staff.

SEC. 1113.31 *Deputy Commissioner.*

The Deputy Commissioner assists and acts for the Commissioner in planning, directing, coordinating and controlling the policies and programs and in giving executive leadership to the activities of the Internal Revenue Service. The Deputy Commissioner also supervises the Regional Commissioners of Internal Revenue, and makes allocations of funds and personnel to them.

SEC. 1113.32 *Assistant to the Commissioner.*

The Assistant to the Commissioner reviews and takes final action for the Commissioner on documents involving technical matters prepared for the Commissioner's signature, including regulations, reports on proposed legislation, rulings, correspondence, compromises and reports to the Joint Committee on Internal Revenue Taxation involving refunds or credits of any income, war profits, excess profits, estate, or gift taxes in excess of $100,000. The Assistant to the Commissioner makes independent studies for the Commissioner.

SEC. 1113.33 *Assistant to the Commissioner (Public Affairs).*

The Assistant to the Commissioner (Public Affairs) counsels and advises the Commissioner, Deputy Commissioner and other levels of management on matters where public interest or response is involved in the determination of Service policies and the execution of Service programs. Plans, develops and coordinates the Service-wide policies and programs for providing information to the public through mass communication methods to help improve knowledge and understanding of Federal tax and related laws and their administration, for the primary purpose of encouraging and facilitating maximum voluntary compliance by the public. Conducts continuous studies of the Service's public affairs activities to identify and act on problems and opportunities for improvement. Maintains liaison with and provides functional supervision to regional and district offices in public affairs matters and carries out public affairs programs at the National Office and directs the activities of the Public Affairs Division. Evaluates for the Commissioner public response to Service policies and programs and recommends Service actions where indicated.

SEC. 1113.331 *Administrative Office.*

Provides administrative support for the public affairs function. Coordinates budget formulation and financial planning for the Division and assists in developing staffing, training, and personnel

V 39 62 MAR 29 74 XUM

plans for field public affairs activities. Provides the necessary administrative support to the internal operation of the Division, maintaining liaison with Personnel, Training, Facilities Management, and Fiscal Management personnel. Provides library and reference services for public affairs personnel and a daily newspaper clipping service for top Service and Department officials. Services requests for inspection and copies of exempt organization returns, Abstracts and Statements for accepted offers in compromise. Maintains the Freedom of Information Reading Room and services requests for documents on deposit therein.

SEC. 1113.332 *Operations Branch.*

Responsible for the continuing relationships and day-to-day contacts with national media and Washington bureaus of media serving local communities, on all aspects of the IRS mission and operations. Media include the press, radio, television, news services, trade associations, and other organizations that provide information to large segments of the public. Seeks out and develops new media outlets. Maintains a knowledge of all significant Service objectives, activities and problems; and an awareness of public interest and news developments which affect the Service. Conducts information activities both in response to media requests and as initiated in response to Service-recognized needs. The activities include answering queries, arranging interviews, reviewing articles, arranging news conferences, organizing public appearances, preparing news releases, radio and television announcements, fact sheets, feature articles, and conducting other information efforts to further Service objectives and assist the media in serving their audiences or members. Responsibilities also encompass assisting field officials in relationships with local media in situations where immediate action is required. Compiles the Commissioner's Letter, National Office Notes and other communications to employees. Responds to public correspondence relating to national news stories.

SEC. 1113.333 *Programs Branch.*

Responsible for formulating nationwide public affairs programs and providing the information materials, program guidance, coordination, and assistance necessary to implement those programs. Consults with operating officials to determine Service objectives and priorities, develops supporting information themes and objectives, and plans specific information actions, timetables and materials. Develops public affairs audio-visual materials and written materials for distribution to media through IRS field offices. Advises field offices of National Office information programs and projects; provides training, procedural guidance, and program assistance; supervises field visits; analyzes reports and other indicators of program effectiveness; prepares program evaluations and initiates action to improve programs where necessary. Serves as primary point of contact with field Public Affairs Officers and assures prompt National Office response to their inquiries, requests for disclosure guidance under Freedom of Information Act, and other needs. Compiles the Commissioner's Annual Report and the Service segment of the Secretary's Annual Report.

SEC. 1113.34 *Tax Administration Advisory Staff.*

The Tax Administration Advisory Staff provides leadership within the Service for the development and implementation of comprehensive programs of assistance in tax administration to developing nations, and on occasion, to the more developed nations, in line with the foreign policy of the United States and its commitments to the Organization of American States, the United Nations, and other international institutions. It is the central point of contact within the Service with foreign governments, the State Department and international organizations on all matters involving the exchange of technical assistance in tax administration. The Staff designs broad programs aimed at modernizing and strengthening tax administration in developing countries; it determines program requirements in terms of number and qualifications of advisors and selects, trains, and assigns such advisors. It provides technical leadership and direction, continually monitors, and periodically evaluates country programs to ensure maximum effectiveness of assistance efforts. The Staff develops and arranges study and observation programs in tax administration for foreign tax officials, which are conducted largely in the U.S. and occasionally at overseas sites. The Staff maintains close liaison with the Department of State and the Agency for International Development (AID), foreign governments, international organizations, and the Office of the Secretary on matters concerning the foreign tax assistance program, most of which is conducted cooperatively with AID. The Director, Tax Administration Advisory Staff, has been delegated authority to arrange for and authorize temporary assignment of personnel between the IRS and State and local governments and institutions of higher education. The Director is responsible for determining that requests for individual assignments or for projects of assistance involving several assignments are consistent with the intent of the Act and that the requirements for mutual benefit to the Service and the requesting organization are met. The Director is also authorized to set the amount of the financial support to be provided by the Service and to make such other determinations as are needed. The Staff will furnish or arrange for any necessary technical direction and support of employees on assignment to other organizations.

SEC. 1113.4 *Office of Assistant Commissioner (Administration).*

The Assistant Commissioner (Administration) is the principal assistant to the Commissioner in planning and executing the Administration program of the Internal Revenue Service, which includes fiscal management, personnel, facilities management, training, employment policy, and management improvement. Jointly, with other Assistant Commissioners, he participates in the general management of the Service by coordinating Administration with other functions to accomplish the objectives of a comprehensive and well-integrated Revenue program. On general administrative matters represents the Commissioner in relationships with the Congress; the Department of the Treasury Office of the Secretary and other components of the Department of the Treasury; and such agencies as the Office of Management and Budget, the Civil Service Commission and General Services Administration. Supervises the activities of the Fiscal Management, Personnel, Facilities Management, and Training Divisions in the National Office, and is responsible for functional supervision of Administration activities in the field.

SEC. 1113.41 *Facilities Management Division—Office of the Director.*

Develops, directs, coordinates, and evaluates policies and programs for providing essential support activities for the operating divisions' primary programs and carries them out in the National Office. Its programs are designed to increase the effectiveness of the Internal Revenue Service, reduce its operating costs, and improve taxpayer relations by tailoring Internal Revenue Service physical facilities and by providing support services to best meet the Service's total needs. These programs include information and records systems, space, property, supply, transportation, and telecommunications management, procurement and contracting, printing and distribution, national emergency planning, safety, document and physical security, and the settlement of tort claims. Develops the standards and procedures necessary for effective performance of its functions. This Division consists of five branches: National Office Facilities, Information Systems, Protective Programs, Space and Property, and Publishing Services.

SEC. 1113.411 *National Office Facilities Branch.*

Develops, coordinates, directs, and evaluates the Contracting and Procurement Programs of the Internal Revenue Service. Develops procurement policy and procedures, and provides guidelines and consultative assistance for all Internal Revenue Service Procurement Programs. Appraises procurement programs through a systematic program of visits to field offices and through review and analysis of reports and accomplishments. In addition, develops, coordinates, directs and evaluates all Facilities Management programs and activities (except printing and distribution and National Office emergency relocation planning) within the National Office, including the National Training Center and the National Computer Center, within the broad guidelines established by the Division Director. Thse activities include: Information and records systems, space management, transportation management, property and supply management, telecommunications management, protective programs, and contracting and procurement. Maintains liaison with National Office officials, other Government agencies, public utilities, contractors, private carriers, and other private and public organizations to coordinate and improve service in all of these activities.

SEC. 1113.412 *Information Systems Branch.*

Plans, develops, promotes, coordinates, and evaluates programs designed to increase the effectiveness of Servicewide operations in the following areas: Records Management — documentation standards; correspondence; and the management of records creation, retrieval, retention, and disposal; Information Systems Analysis—internal mail and files management; management of information and records handling equipment and supplies; studies of information utilization and flow, and of paperwork management; analysis, either singly, or in collaboration with the Systems Development Division of the information needs of management at various levels of the Service, and the development of reporting and management information systems to effectively and economically meet those needs; guidelines and standards for application of microphotography (excepting microphotographic publishing), and other information handling and word processing technology; Reports Management—development of Servicewide reports management policies, procedures, and standards; control, review and evaluation of National Office generated reporting and management information systems; maintenance of a Servicewide information inventory and of the National Office Reports Catalogue; Mail and Transportation Management—coordination and planning for those services provided by the U.S. Postal Service, or private shippers and service units of IRS, for physically transporting, controlling, delivering, sorting and distributing material in solid forms such as correspondence, documents, receipts, microfilm, or magnetic tape; Telecommunications Systems—services and facilities for transmitting and receiving data and information and the operation of telephone, telegraph, facsimile, and data communications systems, equipment and circuitry. The Branch determines the need for program emphasis and goals, develops the programs and promotes and coordinates their acceptance and implementation with other components of the Service; provides standardized techniques, guidelines, and consultative services needed in these areas by the Service. Collaborates with the Systems Development Division in matters involving communications and information storage and retrieval systems. Acts as liaison for the Service with other Federal agencies and industry in matters concerning Branch program activities.

SEC. 1113.413 *Protective Programs Branch.*

Develops, coordinates, administers, and evaluates Servicewide programs of civil defense and emergency planning which includes contingency plans for coping with demonstrations, civil disorder and bomb threats; accident prevention; physical and document security and identification. Ensures continuity of operations by preventing or minimizing loss through acident, employee injury, fire, theft, enemy attack, natural disaster, and civil disturbance, and breaches of security of facilities, equipment, and documents. Exercises the authority to settle claims arising out of the activities of the Internal Revenue Service under the Federal Tort Claims Act, the Military Personnel and Civilian Employees' Claims Act and the Claims Collection Act, and administers the program to ensure equitable settlement and payment of claims.

SEC. 1113.414 *Publishing Services Branch.*

Plans, develops, coordinates, administers, and evaluates the policies, systems, procedures, and standards for the publishing needs of the Internal Revenue Service in consonance with the Congressional Joint Committee on Printing Regulations. Participates in agency-wide program planning and development. Responsible for the fiscal control, planning, analysis, graphic design, requirements determination, procurement, integrated scheduling, inventory maintenance, and distribution of all published material. Administers the Servicewide forms management program and the publishing systems for forms, publications and envelopes. Provides for comprehensive graphic presentation program assistance and services. Initiates, directs, and coordinates studies to develop or improve processes in the publishing and graphic arts fields including duplicating and printing equipment; office reproduction machines; electronic composition; visual media; inventory, storage, and mail and distribution systems for published material. Provides functional supervision and logistical support to field components for the management of printing (including procurement), forms, graphic design, and distribution. Represents IRS in liaison and negotiation with other governmental agencies, private industry groups, and the public on matters pertaining to IRS publishing activities.

SEC. 1113.415 *Space and Property Branch.*

Plans, develops, promotes, coordinates, and evaluates programs designed to increase the effectiveness of Servicewide operations in the following areas: Space Management—planning requirements for IRS space, providing standards for environmental quality programs and for the acquisition, maintenance, utilization and disposal of space to ensure an effective, efficient, and appropriate physical working environment for all Service employees, and a pleasing environment for public visitors; Property and Supply Management—conducts utilization studies, establishes requirements, designs, disposes of and maintains furniture, furnishings, certain non-capitalized and capitalized equipment including data processing auxiliary and accessory equipment; manages property accountability and the IRS motor vehicle fleet management; Electronic Support Systems—provides support services for the requirements, procurement, installation and inspection of electronic data processing systems and other electronic, electromechanical audiovisual and other computerized or automated devices, equipment and systems; analyzes and conducts power reliability studies for IRS buildings. The Branch determines the need for program emphasis and goals, develops the programs and promotes and coordinates their acceptance and implementation with other components of the Service; provides standardized techniques, guidelines, and consultative services needed in these areas by the Service. Confers and collaborates with the Systems Development Division and the Acounts and Data Processing Division in matters involving new systems and equipment related to branch functions, and with other government agencies and private industry to assure proper installation. Acts as liaison for the Service with other Federal agencies and industry in matters concerning Branch program activities.

SEC. 1113.42 *Fiscal Management Division.*

Develops, plans, coordinates and evaluates the financial management and budget policies and programs of the Internal Revenue Service. Develops and assists in the justification of the Service's budget; advises on its execution; establishes procedures covering the accounting system for appropriated funds; and directs the budget and fiscal activities carried out in the National Office. Counsels and advises the Commissioner, the Deputy Commissioner and all levels of management on matters concerning budget and the fiscal management of funds appropriated for the administration of the Service. The Division, under the direction of the Fiscal Management Officer, consists of two branches: Accounting Branch and Budget Branch.

SEC. 1113.421 *Accounting Branch.*

The Accounting Branch develops, prescribes, and installs the Service's financial accounting system to produce timely and accurate data for budgetary and fiscal management purposes. It also collaborates with Planning and Analysis and Facilities Management Divisions in developing and administering the financial reporting system, as it relates to IRS management information systems.

SEC. 1113.422 *Budget Branch.*

The Budget Branch develops the Service's budget in conformance with the established over-all program policies through consultation and cooperation with the responsible operating officials. It prescribes budget procedures and directs the preparation of budget estimates for the Service; participates in the development of standards for the measurements of work necessary in the justification of estimates or the evaluation of financial plans; prepares requests for the apportionment of reapportionment of

V 39 62 MAR 29 74 XUM

appropriations; allots funds in accordance with the approved financial plan and properly authorized revisions thereof; establishes the procedures and records necessary to properly reflect the execution of the budget; and collaborates with the Planning and Analysis and Facilities Management Divisions in developing and administering a reporting system reflecting the status of the budget and financial plan, as it relates to IRS management information systems.

SEC. 1113.43 *Personnel Division—Office of the Director.*

Plans, directs and leads in the development, coordination and evaluation of the personnel policies and programs of the Service. Provides functional supervision over personnel operations throughout the Service and personnel programs in the regions, districts and service centers, including long-range planning, organization and staffing studies, staff development and program evaluation. Administers centralized personnel activities including those for employees of the National Office. Acts as appellate office for the Commissioner on adverse action and grievance appeals and designates hearing officers when requested. Through the Technical Advisor directs appropriate personnel activities to promote effective manpower utilization. Prepares certain Servicewide personnel reports for the Civil Service Commission and other agencies. Exercises line supervision over the Eastern and Western Assessment Centers in their activities involving evaluation of candidates for supervisory, managerial and executive positions. Reviews and approves Servicewide security clearances for non-critical sensitive positions.

SEC. 1113.431 *Union Relations Branch.*

Develops and coordinates policies, procedures and instructions in the areas of union-management relationships, employee conduct, disciplinary actions and appeal procedures. Serves as IRS functional specialist; reviews, evaluates, assists, interprets, disseminates information and exercises functional supervision over Service activities in these program areas. Acts as liaison between the Service and the Office of the Secretary, Treasury Department Bureaus, and Civil Service Commission and other Federal agencies and provides comments on legislation, for these program areas. Responsible for liaison, consultation and negotiation with unions.

SEC. 1113.432 *Employment Branch.*

Develops and coordinates policies, procedures, and program instructions including technical training programs for the employee programs of the Service such as: recruitment; selection; placement; appointment; career status; details; veteran's preference; orientation and placement follow-up; reduction-in-force equal employment; separations; awards and incentive programs; high quality increases; pay administration; employee benefits and services; fitness for duty; and recreation and fund-raising. Develops and coordinates redeployment programs and procedures; coordinates, as required, personnel programs affecting service center installations. Develops and coordinates policies and procedures pertaining to participation of the Interagency Boards. Reviews and advises on budgetary and staffing proposals relative to recruitment, selection and utilization of personnel. Exercises functional supervision over counterpart operations throughout the Service, and participates as functional specialists in evaluation of field programs. Provides staff expertise in personnel management techniques for the development and application of automated processes to personnel management. Administers the Personnel Reports Management System. Processes Section 6(c) retirement cases.

Develops and maintains automated personnel data specifications; coordinates these specifications with the IRS Data Center and submits them to the Data Center for implementation.

SEC. 1113.433 *National Office Branch.*

Develops and executes policies, programs and procedures relating to recruitment, selection, placement, employee relations, position classification, discipline, performance evaluation promotion, manpower utilization, and other aspects of a complete personnel program for National Office and certain field positions with the exception of those requiring Treasury or Civil Service approval; reviews the budget for proposed position reallocations pertinent to the above positions. In addition, performs the following duties pertaining to Servicewide programs: renders support to the Tax Administration Advisory Staff; administers National Placement Program; reviews and processes regional employment cases for which authority has not been delegated to regions; processes proposals for Gallatin Awards; and answers general inquiries and other correspondence concerning applications for employment, reassignment, promotion, etc.

SEC. 1113.434 *Position Management Branch.*

Plans, develops and coordinates procedures and program instructions to enable line managers to most effectively establish and manage positions in their organization. Provides advice to managers as to job content, grade structure and organization design. Assists managers in assessing position management effectiveness in their organization. Working with functional representatives, develops occupational standards and guides such as case classification guides, rating schedules, classification and qualification guides. Coordinates with the Office of the Secretary on all classification, position management and occupational standards questions requiring the Secretary's Office's consideration. Exercises Servicewide functional supervision for position management operations. Provides program advice and assistance to Regional Offices and National Office Branch and assesses their program effectiveness. Performs such centralized services as classification of positions for which authority has not been delegated to the field, development of standard position descriptions, and preparation of recommendations and justifications for classification of supergrade positions. Adjudicates classification appeals and administers Wage Grade Systems. In collaboration with the Training Division, formulates and provides functional classification training courses to maintain and improve the level of technical excellence in the execution of the Servicewide position management program; and develops, negotiates and administers Servicewide training agreements.

SEC. 1113.435 *Careers Branch.*

Develops and coordinates policies, procedures, and program instructions for the Service's technical, supervisory, managerial, and executive career programs. Develops techniques and criteria for evaluating supervisory, managerial, and executive potential; exercises functional personnel direction, over implementation and follow-through on career programs; performs essential personnel services for career programs for supervisory and managerial positions; provides staff assistance to the Executive Resources Board which selects and assigns executive personnel; and administers the employee performance evaluation and promotion programs. Provides staff expertise in personnel management techniques including the conduct and direction of studies requiring the use of psychological and other social science methodology; coordinates and administers the IRS testing program (noncompetitive written test).

SEC. 1113.44 *Training Division—Office of the Director.*

The Director formulates and recommends overall training policies of the Internal Revenue Service and provides professional training leadership and guidance to Service Officials and personnel. Performs the following functions: Conducts research and special studies to determine the best methods of employee development for the Service, and provides expert advice and counsel on training techniques and methodology; in cooperation with IRS management, the Director identifies the need for, and administers Service training programs, approves and is responsible for development and preparation of training courses and program materials, and supports the Tax Administration Advisory Staff; determines program emphasis and goals, establishes standards and procedures for the effective and efficient administration of Service training programs, and evaluates training for effectiveness and economy; administers the Taxpayer Education Program and coordinates the efforts of the field and National Office divisions concerned; advises on and approves training costs estimates for all Servicewide training, and administers the special fiscal allotment (250) used to finance centralized training activities; carries out the training policies and programs of the Service in the National Office.

SEC. 1113.441 *Administrative Services Office.*

Provides administrative support for the Training function. Performs the following: Assists the Director in carrying out Servicewide administrative management responsibilities related to the Training function; coordinates and maintains overall Servicewide training budget formulation and execution, and work and financial plans; develops, coordinates, and maintains the Training Manual System; coordinates and develops intra-divisional projects such as budget formulation, work and financial plans, and PPBS updatings; conducts studies of intra-divisional activities; conducts special intra-divisional projects of an administrative nature; provides all necessary administrative support for internal operations of the Training Division.

SEC. 1113.442 *Compliance Training Branch.*

Provides professional training support for the Compliance technical training program (Audit; Intelligence; and Appellate). Jointly and in cooperation with appropriate Compliance officials, performs the following functions: Determines training priorities and goals of the Compliance technical training programs; identifies training needs, and defines and articulates training objectives; plans, designs, develops, coordinates and conducts Compliance technical training programs; evaluates the implementation and effectiveness of the total Compliance technical training program; supports, coordinates, and evaluates field Compliance technical course development. In addition: Monitors all pilot Compliance technical training projects and administers those conducted centrally; reviews and updates training methods, instructional techniques, materials, and supervisory practices as they relate to training; keeps Compliance technical training materials current; in cooperation with Compliance officials, establishes and maintains criteria for employee performance evaluation as it relates to effective training programs; with assistance of National Training Center and Compliance, develops Compliance technical training guidelines and standards, and conducts experimental projects.

SEC. 1113.443 *ACTS Training Branch.*

Provides professional training support for the Accounts, Collection and Taxpayer Service technical training program. Jointly and in cooperation with appropriate ACTS officials, performs the following functions: Determines training priorities and goals of the ACTS technical training program; identifies training needs, and defines and articulates training objectives; plans, designs, develops, coordinates and conducts ACTS technical training programs; evaluates the implementation and effectiveness of the total ACTS technical training program; supports, coordinates, and evaluates field ACTS technical course development; monitors all pilot ACTS technical training projects and administers those conducted centrally; reviews and updates training methods, instructional techniques, materials and supervisory practices as they relate to training, keeps ACTS technical training materials current; in cooperation with ACTS officials, establishes and maintains criteria for employee performance evaluation as it relates to effective training programs; in cooperation with Taxpayer Service officials, plans, designs, coordinates and evaluates appropriate and useful informational and educational materials for public use; with assistance of National Training Center and ACTS, develops ACTS training guidelines and standards, and conducts experimental projects.

SEC. 1113.444 *Management Training Branch.*

Provides professional training support for the Service in areas of organizational and career development; executive management, and supervision; cross-functional; and Career Education Awards. Performs the following functions: In cooperation with key Service officials, determines general and functional supervisory, management, and executive training goals of the Service, identifies training needs and, in cooperation with the appropriate Service activities and functions, defines supervisory, management and executive training objectives; plans, designs, develops, coordinates and conducts supervisory, management and executive training programs; evaluates the implementation and effectiveness of total supervisory, management and executive training programs; supports, coordinates and evaluates field supervisory and management course development; monitors all pilot supervisory and management training projects and administers those conducted centrally; reviews and updates supervisory, management, and executive training methods, instructional techniques and materials; in cooperation with appropriate IRS officials, establishes and maintains criteria for employee performance evaluation as it relates to effective training programs; reviews, coordinates and evaluates Service's Organizational Development and Career Development Programs; establishes guidelines, coordinates and evaluates Servicewide Administration and Equal Employment Opportunity Training Programs; develops guidelines for and administers Career Education Awards; supports Tax Administration Advisory Staff in determining training needs of foreign tax officials and developing training programs to meet these needs; in cooperation with appropriate organizations, develops and conducts communications and cross-functional training programs.

SEC. 1113.445 *National Office Training Branch.*

Provides professional training support for the National Office, Inspection, Chief Counsel, National Computer Center and the Data Center. Performs the following functions: In cooperation with key National Office officials, determines clerical, technical, supervisory, and managerial training goals for National Office personnel; identifies training needs and, in cooperation with National Office officials, defines training objectives and establishes training priorities; plans, designs, develops, coordinates, conducts and evaluates all National Office intra-functional training programs, plus appropriate cross-functional training programs (e.g., supervisory, communications, instructor training, clerical skills); in cooperation with appropriate officials, determines training priorities, goals, and objectives for Inspection, Chief Counsel, National Computer Center and Data Center; plans, designs, develops, coordinates, conducts and evaluates Inspection Chief Counsel, National Computer Center and Data Center training programs; administers, reviews and monitors pilot training projects; keeps National Office Inspection, Chief Counsel, National Computer Center and Data Center training materials current; reviews and updates training methods, instructional techniques and materials; administers training facilities in the National Office.

SEC. 1113.446. *National Training Center.*

Provides the educational research and development and specialized techniques input to the Training Division. Performs the following functions: Conducts research in training methodology and techniques; monitors and conducts experimental projects utilizing advance training technology; evaluates and determines feasibility of experimental projects becoming operational training programs; establishes Servicewide standards in training methodology, techniques and equipment, and develops materials requiring specialized training staff support; develops Servicewide guidelines for instructor and course-developer training; establishes standards for Servicewide staff development in specialized skills of training profession, and coordinates training staff development; establishes the standards for and coordinates the administration of the Regional Training Center network; maintains library at NTC; coordinates development and production of Servicewide materials requiring specialized staff support (e.g., videotape, film strip); maintains control and oversees distribution of Servicewide printed materials; administers the National Training Center facility.

SEC. 1113.5 *Office of Assistant Commissioner (Compliance).*

The Assistant Commisioner (Compliance) is the principal assistant to the Commissioner on all matters pertaining to the compliance and appellate programs of the Service, in encouraging and achieving the highest possible degree of voluntary compliance by taxpayers, and in providing effective functional supervision of those activities in the field. These include audit and investigation of returns; criminal fraud investigations; the administrative system of tax appeals; administration of laws relating to alcohol, alcoholic beverages, tobacco, firearms, and explosives; and the receipt and processing of wagering, narcotics, alcohol and tobacco tax, and firearms returns and applications. Through the Disclosure Staff, in the immediate Office of the Assistant Commissioner, administers the disclosure provisions of the law and regulations concerning inspection of returns

V 39 62 MAR 29 74 XUM

and other matters of official record; administers the Freedom of Information Act and regulations; administers the regulations governing testimony of Service employees in nontax matters; administers the tax check program involving high level Federal employees; and certifies documents under the Treasury Department seal, furnishing copies where appropriate. The Assistant Commissioner (Compliance) directs, coordinates and evaluates the work of the Appellate Division, the Audit Division, the Intelligence Division, and the Office of International Operations.

SEC. 1113.51 [Reserved]

SEC. 1113.52 *Appellate Division—Office of the Director.*

Accomplishes the Appellate mission of resolving tax controversies without litigation, on a basis which is fair and impartial to both the Government and the taxpayer by developing and supervising (functional supervision) nationwide programs for final appeal consideration, within the Service, of cases involving income, profits, estate, gift, employment and excise taxes (other than alcohol, tobacco, narcotics, firearms, and wagering), offers-in-compromise, refund claims and overassessments, in which the taxpayer protests the decision of the District Director, and of cases docketed in the United States Tax Court (with concurrence of Regional Counsel and prior to the opening date of the Tax Court session concerned). Develops nationwide Appellate budget estimates and long-range plans; evaluates financial plans and budget execution of regional Appellate Divisions. Conducts Appellate Reports and Information Retrieval Activity (ARIRA) programs and nationwide Appellate reporting system. Collaborates with Planning and Research, Accounts, Collection, and Taxpayer Service; and other segments of the Service in a research effort to create a comprehensive information storage and retrieval system. Furnishes administrative services for the operation of the Appellate Division of the National Office. Also directs or performs certain centralized Appellate functions.

SEC. 1113.521 *Coordination and Management Staff.*

Assists in developing and recommending policies, plans, programs, and basic procedures and provides top-level managerial assistance through the following principal functions: Develops and recommends operations policies, plans, programs, and basic procedures relating to the Appellate function. Assists and advises regional Appellate offices on technical and administrative problems to enable them more effectively to accomplish their objectives. Establishes and conducts a field visitation program, and maintains continuous field liaison to assure that established policies, programs, plans, and instructions are carried out in a uniform, effective manner. Evaluates adequacy of staffing and managerial performance in regional Appellate offices. Performs coordination functions across regional lines and with other Service elements. Supervises task forces working on special projects such as training, position descriptions, offices systems, and management improvement. Represents the Director in meetings of National Office and regional officials, and staff members serve on various committees as designated. Analyzes and interprets program status and progress in accomplishing the overall Appellate mission. Originates statistical analyses and graphic presentations with explanations and interpretations to disclose program status and progress with trends and deviations highlighted. These analyses serve as the basis for program direction and long-range program planning for the Appellate activity.

SEC. 1113.522 *Programs and Procedures Branch.*

Conducts program and procedural studies concerning Appellate activity and recommends methods to efficiently accomplish Appellate mission. Reviews and analyzes operational reports, field issuances and compiled data (such as ARIRA tables) to identify significant trends, procedural problems, etc., and submits recommendations to Director, where appropriate. Provides procedural instructions and procedural advice to Appellate field organization to effectively implement policies, plans, and programs relating to Appellate function. Maintains Part VIII of the Internal Revenue Manual and related Handbooks and coordinates Appellate procedures with other functions concerned. Provides material for inclusion in Statement of Procedural Rules concerning Appellate activity. Supervises task forces working on special projects relating to Appellate programs and procedures. Develops and coordinates training programs to improve skills of Appellate personnel. Provides forms and form letters for use in Appellate operation. Considers and processes employee suggestions submitted under the Incentive Awards Program relating to Appellate and implements those that are adopted.

SEC. 1113.523 *Special Services Branch.*

Advises and assists in cases involving controversies as to valuation through the following principal functions: Participates in the development of Service position and procedures in complex valuation matters. Helps to maintain uniformity of treatment of valuation issues throughout the regional Appellate Divisions by furnishing advice, and conducting training sessions. Furnishes expert advice and assistance to the National Office, regional Appellate Division, and Regional Counsel on difficult valuation problems. Provides expert witnesses to testify at trials involving complex valuation issues. Develops programs and techniques aimed at eliminating, to the greatest extent possible, the need for time consuming trials of valuation issues in the Tax Court or other courts. Provides regional Appellate Divisions with technical assistance of a general nature through the following principal functions: Analyzes and processes requests for technical information and digests technical information and other technical communications for dissemination to Regional Offices when information is of general Appellate interest. Maintains liaison on matters relating to cases requiring submission to the Congressional Joint Committee on Internal Revenue Taxation. Develops and aids in formulation and presentation of Appellate technical seminar programs. Recognizes need for specialized technical workshops and prepares program materials for them. Post-reviews closing agreements approved by regional Appellate officials. Also reviews closing agreements prior to submission to the Assistant Commissioner (Compliance) for approval. Identifies troublesome technical or qualitative areas and trends; and recommends solutions to help Regional Offices meet their objectives. Conducts special studies (such as prime issues) to assist the Director and the Assistant Regional Commissioners (Appellate) in their programming and long-range planning. Administers a continuing progra mfor evaluating and analyzing regional post-review effectiveness.

SEC. 1113.53 *Audit Division—Office of the Director.*

Accomplishes the Audit mission of encouraging and achieving the highest possible degree of voluntary compliance by taxpayers and tax exempt organizations with the tax laws. This is accomplished through developing and functionally supervising well designed and executed examination programs which utilize appropriated resources effectively and through plans for optimum audit programs in the future. These programs and plans provide for determining types and degrees of noncompliance and taking effective action to increase compliance. Also supervises the performance of certain centralized audit functions.

SEC. 1113.531 *Office Services Staff.*

Furnishes services in support of the Audit Division. Maintains liaison with the Office of the Assistant Commissioner (Administration) on fiscal, personnel, training, and facilities matters. Provides centralized mail, files, distribution, messenger, and library services for the Division.

SEC. 1113.532 *Programs Branch.*

Plans, implements, and evaluates nationwide programs for the examination monitoring of Audit Division's portion of of income, excise, employment, and estate and gift tax returns. Responsible for the development, implementation, and monitoring of Audit Division's portion of other enforcement programs. Provides assistance to field components in the conduct of their returns examination programs. Develops long-range plans and strategies for the accomplishment of its portion of the Audit mission. Issues IRM and other procedural material required for the execution of examination programs. Participates with other Compliance activities. Technical, and ACTS in the development and implementation of examination programs. Participates in planning and is responsible for implementing the returns classification program. Prepares replies to correspondence relating to income, excise, employment, and estate and gift tax matters.

SEC. 1113.533 *Exempt Organization Examination Branch.*

Plans, implements, and evaluates nationwide programs for the examination of exempt organization returns and records. Responsible for the development, implementation, and monitoring of the Audit Division's portion of the pension trust program. Plans and implements the program for issuance of exemption determination letters. Develops long-range plans and strategies for the accomplishment of its portion of the Audit mission. Maintains close communication and liaison with the Office of the Assistant Commissioner (Technical) on both exempt organization and pension trust matters. Reviews or post reviews revenue agent reports for quality and uniformity of exempt organization examinations. Issues IRM and other procedural material required for the execution of exempt organization and pension trust examinations. Determines uses to be made of the Exempt Organization Master File (EOMF) data and works with other Service activities in fulfilling their needs from the EOMF. Also determines uses for the Employees' Plans Master File (EPMF) and coordinates with the office of the Assistant Commissioner (ACTS) in such matters. Prepares replies to correspondence relating to exempt organization matters.

SEC. 1113.534 Centralized Activities *Branch.*

Provides technical coordination on complex Audit matters with other Compliance activities, Assistant Commissioner (Technical), and the Chief Counsel, Plans, implements, and monitors nationwide programs for Joint Committee, conference and review programs. Monitors and reports on cases docketed for Tax Court and assists Chief Counsel and Department of Justice in trial and settlement of cases. Performs centralized activities relating to qualification for enrollment and practice. Monitors the providing of necessary management services for the Audit activity and serves as liaison with the Office of the Assistant Commissioner (Administration) on administrative matters affecting the entire Audit activity.

Provides liaison with the Office of the Assistant Commissioner (Technical) and the Tax Forms Coordinating Committee on Audit matters. Conducts economic studies pertinent to Section 482 allocations and post reviews and provides expert testimony concerning such allocations. Issues IRM and other procedural material required for the execution of the branch's programs. Prepares answers to correspondence deemed to be nationally significant concerning field Audit operations (with the exception of exempt organization and pension trust matters).

SEC. 1113.535 *Resources and Analysis Branch.*

Responsible for integrating the program planning and evaluation activities, such as budget, PPB and NORP support for the Audit activity. Regulates all program research activities for the Division including TCMP, DIF development, and other special analytical studies. Responsible for providing the Director and the other Audit branches with timely analyses of overall program effectiveness with regard to both resource expenditure and results achieved. Prepares Division submissions for PFP and budget requests. Plans, implements, and monitors programs to provide management information such as SCRIP. Provides functional direction to the Audit Service activity. Plans the Audit classification of returns program. Issues IRM and other procedural material required to carry out the branch's programs. Provides coordination support for the Audit activity in respect to services provided by the ACTS organization.

SEC. 1113.54 [Reserved]

SEC. 1113.55 *Intelligence Division—Office of the Director.*

Accomplishes the Intelligence mission with reference to enforcement of the criminal statutes applicable to income, estate, gift, employment, and certain excise tax laws by developing and supervising (functional supervision—which includes evaluation) nationwide programs for the investigation of suspected criminal violations of such laws and the recommendation of prosecution and/or assertion of the 50% ad valorem addition to the tax, when warranted, development of information concerning the extent of criminal violations of all Federal tax laws (except those relating to alcohol, tobacco, narcotics, and firearms), and measurement of the effectiveness of the investigation process. The Division also conducts, coordinates, and directs the investigation of cases which have been centralized, and performs certain other centralized Intelligence functions.

SEC. 1113.551 *Administrative Office.*

Is responsible for furnishing administrative services for the operation of the Intelligence Division of the National Office by: developing and preparing budget requests and financial plans as well as supervising budget execution, providing for the administrative needs of the Division (such as providing and maintaining investigative and administrative central filing systems and processing mail, and maintaining liaison with the Office of Assistant Commissioner (Administration) on all National Office Intelligence Division matters (including fiscal management, personnel, training, and facilities management matters); developing and preparing projections of personnel costs and staffing charts; collaborating with Administration in the procurement of investigative equipment for field and National Office use, and maintaining inventory and current records as to location of Intelligence Division investigative equipment; and conducting special studies relating to personnel, space, budget and equipment.

SEC. 1113.552 *Staff Assistance (Visitation).*

Is responsible for: planning and conducting a visitation program for on-site evaluation, guidance, and assistance; coordinating with, and maintaining close liaison with each of the several branches of the Division for the purpose of inquiring into specific field activities of special interest to each of the branches and keeping each fully apprised of conditions and developments in the field.

SEC. 1113.553 *Operations Branch.*

Is responsible for: providing the field with operational assistance, and conducting, directing, and coordinating the investigation of centralized cases by: interviewing informants, maintaining liaison with Committees of Congress, representatives of the Service and other Government agencies in order to obtain, develop, and disseminate to the field pertinent information relating to tax evasion; coordinating, conducting, or directing investigations which are inter-regional in scope, of a sensitive nature, or of national interest; responding to communications on matters pertaining to operations; keeping Service and Treasury officials informed of significant developments in sensitive cases and those of national interest; identifying operational and management deficiencies in investigations coordinated, conducted, or directed by the National Office and initiating corrective action or referring identified deficiencies to the appropriate branch; and maintaining a program for case research and development including establishment of criteria for use in the automatic processing of returns to aid in identification of returns having criminal potential; and participating, as directed, in field visits.

SEC. 1113.554 *Program Branch.*

Is responsible for: providing effective management and technical programs, plans, and procedures for accomplishment of the Intelligence mission and identifying as well as correcting deficiencies in programming, planning, and procedural guidelines, including the Manual and the investigative handbook, through statistical analyses and studies, review of policies, management reports, reports of field visits and other issuances, and through consultation and coordination with other Service elements. Consulting and coordinating with other Service elements on such matters as the findings in internal audit reports, legislative proposals, development of organizational and staffing standards and personnel classification standards; collaborating with the Planning and Analysis Division in developing the Intelligence Division's long-term program objectives and resource requirements within the Service's Long Range Planning System; collaborating with the Fiscal Management Division in the evaluation of field financial proposals; submitting recommendations for the allocation of Intelligence personnel and funds; collaborating with the Information Systems Branch for the report of management and investigative accomplishments; consolidating, evaluating, and disseminating information reflecting accomplishments of programs and plans; preparing the Intelligence portion of the

V 39 62 MAR 29 74 XUM

Cost Reduction—Management Improvement Report and the Commissioners Annual Report; and participating, as directed, in field visits.

SEC. 1113.555 *Technical Development Branch.*

Is responsible for: developing and maintaining professionals skills of special agents, developing investigative techniques and performing certain support functions in the accomplishment of the Intelligence mission by: conducting studies and developing Intelligence training programs in collaboration with the Training Division; directing and conducting centralized Intelligence training programs; instructing at, and collaborating in the program development and conduct of the Criminal Investigators School; maintaining liaison and providing technical guidance on and participation in course development and instruction which is carried out at the National Training Center for the Intelligence Division; coordination and evaluating field training: identifying deficiencies in training programs and materials and initiating corrective action or referring identified deficiencies to the appropriate branch; developing Intelligence investigative equipment standards and allocating investigative equipment and automobiles to the field; keeping abreast of developments in the use of automatic data processing equipment by taxpayers and third parties, such as banks, brokerage houses, and insurance companies to determine the type and extent of training needed by special agents to obtain necessary financial information where automatic data processing equipment is used; cooperating with the Personnel Division in the development of guidelines and standards for recruitment, selection, and career development of Intelligence personnel; preparing final Intelligence recommendations in cases unresolved at regional level; evaluating and recommending disposition of Incentive Awards suggestions; maintaining a current record of special skills of individual special agents; disseminating information on current developments, such as legal decisions, unique defenses, and unusual investigative approaches, through the issuance, monthly, of the Intelligence Digest; collaborating with the Public Affairs Division in the preparation of news releases regarding closed cases; collaborating with the Tax Administration Advisory Staff and the National Training Center in orientation of enforcement officials of other Federal agencies and of State and foreign governments concerning Intelligence techniques, procedures and practices, and participating, as directed, in field visits.

SEC. 1113.56 *Office of International Operations—Director of International Operations.*

The Office of International Operations administers the Internal Revenue laws and related statutes (except those relating to alcohol, tobacco, narcotics and firearms) as they relate to citizen taxpayers residing or doing business abroad, foreign taxpayers deriving income from sources within the United States, and taxpayers who are required to withhold tax on income flowing abroad to nonresident aliens and foreign corporations; acts as staff advisor to the Assistant Commissioner (Compliance) in the international area on all compliance functions, and as the international specialist provides assistance and guidance to the Compliance Divisions and makes recommendations on all aspects of the international enforcement program to the Assistant Commissioner (Compliance) and the Division Directors concerned; acts as competent authority in administering the operating provisions of tax conventions; performs and coordinates for the Service all foreign investigations and requests for information (other than those relating to rulings, regulations or assistance in the field of foreign tax administration) from foreign countries and United States possessions. Also computes and collects taxes due from the Alien Property Custodian, administers the provisions of the Internal Revenue Code authorizing the acceptance of foreign currency in payment of United States tax liabilities, coordinates foreign travel of Service personnel, and maintains foreign posts.

SEC. 1113.561 *Administrative Office.*

Responsible for the personnel, training, budget and fiscal and general administrative services, including procurement and supply, printing and communication services and other administrative services necessary to the effective operation and management of the Office of International Operations, including Foreign Posts and the Puerto Rico Office. Coordinates and develops the management improvement and incentive awards programs and special projects. Initiates and administers the security, safety and records management program. Develops the financial plan and budget estimates, fiscal programs, cost estimates, and is responsible for control of funds, report on budget execution and International Transaction estimates. Coordinates in conjunction with the Facilities Management Division the printing requirements and distribution of special publications, documents and tax forms required by the Office of International Operations, and the distribution of all tax forms to the United States Embassies and Consulates.

SEC. 1113.562 *Collection and Taxpayer Service Division.*

The Collection and Taxpayer Service Division is responsible for the receipt and transmittal of tax returns and documents received in the Office of International Operations; filed by nonresident liens, foreign corporations, nonresident alien estates, withholding agents (Forms 1042), information returns with respect to foreign corporations (Forms 959), and information returns with respect to foreign personal holding companies (Forms 957 and 958); the deposit to the credit of the Service Center Director of tax remittances received in OIO. Authorizes extensions of time for filing; provides year round taxpayer service to citizens and aliens; administers the automatic exchange of information and reciprocal collection provisions of tax treaties with foreign countries. Is responsible for the collection of delinquent accounts through distraint, seizure, levy and other means; the securing of delinquent returns; examination of officers in compromise based on doubt as to collectibility of taxes (except alcohol, tobacco and firearm taxes), offers in compromise of statutory additions based on doubt as to liability (except alcohol, tobacco, firearms, employment and withholding taxes and specific penalties), and all offers in compromise of 100 percent penalties. The Division receives, acts on, and processes information pertinent to bankruptcies, receiverships, assignments, reorganizations, probate proceedings, foreclosures and redemptions after civil foreclosure, bulk sales, gifts and prizes, and dissolutions and initiates investigations for securing delinquent returns where necessary. The Division maintains files or control records of payments received in insolvency, bankruptcy, and decedent cases and of surety bonds and other collateral posted as security for tax liability. It also maintains files and control records of property seized under distraint authority and takes appropriate action with respect to seized property to ensure that proper legal action may be timely taken.

SEC. 1113.5621 *Special Procedures Staff.*

The Special Procedures Staff is responsible for furnishing advisory assistance on technical delinquent collection and returns matters to the Chief, Collection and Taxpayer Service Division, Chief, Field Branch, Chief, Office Branch and Group Supervisors; providing liaison for the Director of International Operations with the Department of Justice, including the U.S. Attorneys, the Chief Counsel and Regional Counsel on all collection matters; ascertaining tax liability and filing of proof of claims in insolvency and decedent's estate proceedings; recommending civil suits to enforce collection or to protect the Government's interests; processing civil suits against the United States or the Office of International Operations, examining, reviewing and processing seizure and sale reports; processing applications for discharge of property from the effect of Federal tax liens and for certificates of nonattachment of Federal tax liens and certificates of subordination of the Federal tax lien; processing filed notices of Federal Tax liens and certificates of release; processing and maintaining executed collection waivers; analyzing and determining the sufficiency of various forms of collateral offered as security for release of lien or postponement of collection action; furnishing technical advice and assistance and recommendations for or against entry into suitable escrow agreements for the collection of delinquent accounts; reviewing recommendations for and holding conferences on 100 percent penalty and transferee assessments; post reviewing of accounts reported as uncollectible; reviewing recommendations and holding conferences on offers in compromise cases based on inability to pay; and maintaining files and control records on all the above type cases to ensure that proper legal and other collection actions are taken timely.

SEC. 1113.5622 *Office Branch.*

The Office Branch effects the collection of delinquent accounts and secures delinquent returns through demands made by correspondence, telephone or office interviews. It safeguards the Government's interest by causing the filing of notices of tax liens and serving or causing the service of notices of levies. It transfers to Revenue Officer groups those assignments which require field investigations or can be more efficiently completed by field Revenue Officers. The Branch carries out the Division's responsibility for district-wide execution of the year-round taxpayer service program. It provides taxpayer service to citizens and aliens, including responses to correspondence requests of tax information, and provides functional supervision of taxpayer service at other posts of duty. The Branch screens and assigns cases and maintains assignment files. It prepares periodic reports of collection and taxpayer service activities. It receives and deposits to the credit of the Service Center Director remittances received in the Office of International Operations. It receives and transmits other returns and documents received in the Office of International Operations.

SEC. 1113.5623 *Field Branch I (Headquarters).*

Field Branch I is responsible for the Officer groups in Headquarters. Within management and control of Revenue the assigned area, the Branch makes collections of delinquent accounts and conducts a continuing program for the security of delinquent returns. It safeguards the Government's interest through the filing of notices of tax liens, and enforces collection by the serving of levies, and seizure and sale of real and personal property. It recommends jeopardy assessment when deemed necessary to protect revenue, civil actions to secure payments, suits to enforce penalty for failure to honor levies, and penalty assessments as a means of collection or as a method of obtaining compliance with existing laws and regulations. The Branch recommends the issuance of certificates of discharge of property from the effects of tax liens, recommends issuances of certificates of subordination of Federal tax liens, and conducts the investigations necessary to support such recommendations. The Branch examines offers in compromise based on doubt as to collectibility of taxes (except alcohol, tobacco, and firearms taxes), offers in compromise of statutory additions based on doubt as to liability (except alcohol, tobacco, firearms, employment and withholding taxes and specific penalties), and all offers in compromise of 100% penalties.

SEC. 1113.5624 *Field Branch II (Puerto Rico).*

Field Branch II is responsible for the management and control of both Revenue Officer groups and an Office Group in Puerto Rico. Within the assigned area, the Branch makes collections of delinquent accounts and conducts a continuing program for the security of delinquent returns. It safeguards the Government's interest through the filing of notices of tax liens, and enforces collection by the serving of levies, and seizure and sale of real and personal property. It recommends jeopardy assessment when deemed necessary to protect revenue, civil actions to secure payments, suits to enforce penalty for failure to honor levies, and penalty assessments as a means of collection or as a method of obtaining compliance with existing laws and regulations. The Branch recommends the issuance of certificates of discharge of property from the effects of tax liens, recommends issuances of certificates of subordination of Federal tax liens, and conducts the investigations necessary to support such recommendations. The Branch examines offers in compromise based on doubt as to collectibility of taxes (except alcohol, tobacco, and firearms taxes), offers in compromise of statutory additions based on doubt as to collectibility of taxes (except alcohol, tobacco, and firearms taxes), offers in compromise of statutory additions based on doubt as to liability (except alcohol, tobacco, firearms, employment and withholding taxes and specific penalties), and all offers in compromise of 100 percent penalties.

SEC. 1113.563 *Audit Division.*

The Audit Division administers an international audit program involving the selection and examination of all types of Federal Tax returns filed with the Office of International Operations (except alcohol, tobacco, and firearms). Is responsible for the examination of certain offers in compromise, informant's claims for reward and related activities including the examination and approval of pension trusts and the issuance of determination letters. The audit program involves the classification of returns for field and office audits, the conduct of district conferences in unagreed cases, participation with special agents in the conduct of tax fraud investigations, and is responsible for providing manpower for the annual overseas taxpayer compliance program. Provides advice and guidance on audit work performed by the foreign posts and reviews for technical and procedural accuracy all reports of audit examinations prepared by these offices. Directs programs for the exchange of estate and gift tax data with foreign governments under the tax conventions. Performs audit functions relating to the Alien Property Custodian activity. Makes certain that Internal Revenue Agents' manpower will be applied to the most significant civil enforcement cases in the international area. Is responsible for the maintainance of good relationship with region and districts and is responsive to their requirements for assistance in the foreign area. The Audit Division consists of the Examination Branch, Service Branch, Review Staff, Conference Staff and Classification.

SEC. 1113.5631 *Conference Staff.*

The Conference Staff attains, to the maximum extent possible, the primary objective of the Conference Function—to give taxpayers ample opportunity to reach early agreement on disputed issues arising from audit examinations. Has responsibility for all OIO conference cases. Assigns, controls, coordinates, and reviews Office of International Operations jurisdictional conference cases including those in Puerto Rico, and foreign posts of duty. Holds conferences; provides direction and furnishes technical advice to other conferees; performs final district review of field audit conference reports; reviews and evaluates statistics and other records to strengthen conference function operations; and screens taxpayer protests which request Appellate hearings. Authorizes settlements in "pattern settlement cases;" reviews primary statistical forms in conference cases; coordinates and discusses with Chief, Review Staff, conference cases in which Review Staff has taken legal interpretative positions at variance with conference positions; reviews and answers dissents to conference determinations; reviews Appellate Division closings for guidance to conferees; and is responsible for protecting the statute of limitations for cases under his control. Undertakes special assignments received from Division and Office Superiors to the extent time permits.

SEC. 1113.5632 *Review Staff.*

Is responsible for reviewing for technical accuracy and policy and procedural adherence, reports of examination on income, estate, gift, and miscellaneous taxes, and offers in compromise. Prepares and issues preliminary letters and statutory notices. Grants extension of time for filing protests, and closes out statutory notices by sending the case file to the Appellate Division if a petition is filed or closing out for assessment if the time period expires on default. Receives taxpayer protests, refers protests to the Chief, Conference Staff, and closes protested cases to the Appellate Division upon recommendation of the Chief, Conference Staff. Furnishes technical advice to foreign and Puerto Rico posts and all examining personnel. Considers special problems relating to specific cases and prepares recommendations thereon. Prepares replies to technical inquiries from taxpayers from all over the world and issues determination letters as required. Considers applications for exemption from tax from foreign organizations, and issues determination letters or refers the case to the Assistant Commissioner (Technical), as appropriate. Prepares statistical reports and analyzes information on specific cases as required. Controls and reviews all forms used by the Audit Division. Controls and processes all informant's claims. Prepares requests for technical advice to the National Office on specific cases under examination.

SEC. 1113.5633 *Chief Classifying Officer.*

V 39 62
MAR 29 74
XUM

Is responsible for planning and executing the audit classification program including the selection of returns to be examined and the determination of the organizational units where the returns can best be examined. Is responsible for the planning and execution of procedures involving the classification of other documents used in connection with examinations such as transferred cases from other districts, information reports, etc.

SEC. 1113.5634 *Service Branch.*

Controls all income, estate and gift, and miscellaneous tax returns received for audit or investigation by the OIO Washington Office, Puerto Rico Office and the Foreign Programs and Research Division. Routes work to appropriate units; reproduces completed reports; provides typing service for the Audit Division; effects closing action on examined cases transmitting returns to the Collection and Taxpayer Service Division; assembles audit production and statistical data and maintains controls on statutory expirations for the entire Audit Division as well as the Foreign Programs and Research Division.

SEC. 1113.5635 *Examination Branch.*

Conducts field and office examinations relative to all types of taxes (except alcohol, tobacco, and firearms) to determine correct liabilities of citizen taxpayers residing or doing business abroad, foreign taxpayers deriving income from sources within the United States and taxpayers who are required to withhold tax on certain payments to non-resident aliens and foreign corporations. Conducts examinations of estate tax returns of U.S. citizens who died while residing abroad or non-resident aliens with substantial property or income in the U.S. and gift tax returns filed by non-resident aliens or U.S. citizens residing abroad. It also conducts examinations of offers in compromise based on doubt as to liability for taxes or for both taxes and statutory additions (except alcohol, tobacco, and firearms taxes) claims for refund, credit or abatement, and special examinations as requested including joint examinations with special agents where tax evasions may exist. Obtains information on suspected delinquent taxpayers and other tax information while in overseas areas. It furnishes technical advice and assistance on pension trust plans, processes informants' claims for reward, and recommends jeopardy assessments. Prepares memoranda to accompany closing agreements and closing letters and releases in estate and gift tax cases, and administers the program for exchange of estate and gift tax data with foreign governments under tax conventions. Audits employment tax returns of Puerto Rico residents and income tax returns of United States Government employees and Puerto Rico residents deriving income from sources outside Puerto Rico, Audits books and records of Puerto Rican affiliates of domestic taxpayers to secure information requested by districts. Examines Virgin Island corporations to determine correct subsidy allowances. Coordinates examination program on resident foreign corporations and other cases, where appropriate, with National and Regional enforcement programs. On assignment holds conferences with taxpayers and their representatives. Prepares tax returns for, and audits books of, foreign corporations and alien individuals whose property is controlled by the Alien Property Custodian and conducts conferences on these matters.

SEC. 1113.564 *Foreign Programs and Research Division.*

Plans, develops and coordinates the work programs and other activities of the foreign posts. Conducts the intelligence function with respect to taxpayers under jurisdiction of the Office of International Operations. Coordinates, directs and/or conducts all functions performed overseas by Appellate, Audit, Collection and Taxpayer Service, Intelligence and International Operations personnel. Coordinates all audit, collection and intelligence functions between the foreign posts and the Divisions of the Office of International Operations, other Service components and other Government agencies. Assists in the performance of functions under the treaties principally involving nonautomatic exchange of information. It is the focal point for all contacts with foreign governments either directly or through the foreign posts. Coordinates the foreign travel of personnel of the Internal Revenue Service. Maintains liaison with the Treasury, State, Defense, Commerce and Interior Departments concerning overseas operating matters. Plans coordinates and directs the Annual Taxpayer Compliance Audit and Collection Programs abroad. Plans and coordinates, in conjunction with the military services, the Annual Military Assistance School Program. Provides research and technical assistance and prepares guidance memoranda for other OIO Divisions. Assists the Director in performance of the Competent Authority functions. Maintains a continuing appraisal of the operation of the income and estate tax treaties for the purpose of identifying areas for renegotiation. Considers administrative and operational feasibility of proposed tax conventions regulations. Conducts analytical studies with the purpose of achieving effective tax compliance. Prepares recommendations for remedial legislation or regulatory amendments. Reviews or prepares suggested public use or internal forms and documents. Disseminates information regarding United States business activity abroad and foreign business activity in the United States. Determines the amount of administrative relief [offset] to be allowed under Revenue Procedures 64–54 and 69–13. Submits recommendations with respect to proposed changes in legislation regulations, revenue procedures, treaty provisions and other aspects of the international enforcement program.

SEC. 1113.5641 *Foreign Posts.*

Takes necessary action under division programs to establish and maintain satisfactory levels of voluntary compliance. Develops information indicating possible tax evasion, delinquency or non-compliance. Conducts audits of income, estate and gift tax returns of a type justifying field investigation or contact abroad and conducts investigations on tax evasion cases. Effects collection of delinquent taxes when personal contact or investigation abroad is required. Obtains information on audit, intelligence and collection matters for other service components on collateral requests. Holds taxpayer conferences and effects settlements in income, estate and gift tax cases, claims, offers in compromise, etc., including those referred abroad by International Operations headquarters for such purposes. Under specific direction assists in the exercise of the Competent Authority provisions of tax treaties by holding discussions with foreign government representatives. Maintains close liaison with foreign governments in tax treaty, enforcement, exchange of information, technical and other matters. Maintains close liaison with U.S. military authorities and taxpayer groups in the area. Develops and implements enforcement, taxpayer assistance and school programs, taxpayer-education releases, and similar measures designed to assure a high level of compliance. Is responsible for the development and maintenance of desirable public relations, initiating appropriate taxpayer-education programs in the area. Furnishes technical assistance to taxpayers on all tax matters.

SEC. 1113.5642 *Research and Technical Branch.*

Accumulates and analyzes data concerning foreign tax laws, U.S. Tax Treaties, U.S. law changes, revenue rulings and statements of Service policy in the international area. Prepares, coordinates and reviews guidance memoranda within the Office of International Operations. Assists in the performance of the Competent Authority functions. As directed, represents the United States Government at conferences with foreign Competent Authorities. Reviews drafts of proposed tax conventions and regulations thereunder regarding the administrative and operational feasibility of the convention and regulations. Seeks out operational and administrative problems in the tax treaty area. Prepares analytical studies of technical problems and tax avoidance schemes in the international area. Prepares plans and programs to combat tax avoidance and evasion in the international area. Reviews or prepares suggested tax forms and other material. Coordinates technical matters regarding proposed legislation and similar matters with the various Divisions of the National Office and other Government agencies. Accumulates data on the extent, nature, location of U.S. taxpayer business and trust interest outside of United States and similar data on foreign business entities doing business in the United States. Accumulates data on other foreign business operations of concern to U.S. Determines the amount of administrative relief (offset) to be allowed

under Revenue Procedures 64–54 and 69–13 and, where appropriate, prepares closing agreements. Submits recommendations on proposed changes in legislation, regulations, revenue procedures, treaty provisions and other aspects of the international enforcement program. Provides data on foreign tax laws to technical field personnel responsible for determining correct Subparts F and G income and earnings and profits of controlled foreign corporations under the 1962 Revenue Act. Prepares periodic reports of the progress and activity in the international area.

SEC. 1113.5643 *Foreign Programs Branch.*

Provides functional supervision of the work programs and other activities of the foreign posts. Conducts the intelligence function with respect to taxpayers under jurisdiction of the Office of International Operations. Coordinates all functions performed overseas by Appellate, Audit, Collection and Taxpayer Service, Intelligence and International Operations personnel. Coordinates all audit collection, and intelligence functions between the foreign posts and the Divisions of the Office of International Operations other Service components and other Government agencies. Evaluates foreign programs. Provides point of contact for foreign governments either directly or through the foreign posts. Coordinates Internal Revenue Service. Maintains liaison with the Treasury, State, Defense, Commerce and Interior Departments concerning overseas operating matters. Plans and coordinates, in conjunction with the military services, the Annual Military Assistance and School Program.

SEC. 1113.6 *Office of Assistant Commissioner (Accounts, Collection, and Taxpayer Service).*

The Assistant Commissioner (Accounts, Collection, and Taxpayer Service), is the principal assistant to the Commissioner on all matters pertaining to the development of programs, systems, methods and procedures for implementation and operation of the Internal Revenue Service Automatic Data Processing Plan, the accounting for the internal revenue, the receipt and integrated processing of tax returns and other documents, the review and coordination of all reports, the collection of delinquent accounts, obtaining delinquent returns, and providing responsive services to taxpayers. He exercises line supervision over the activities performed in the various Divisions in the National Office which are within his jurisdiction and the National Computer Center and the Internal Revenue Service Data Center, and is functionally responsible for ACTS activities in Regional Offices, District Offices and Service Centers. Confers and collaborates with officials of other Government agencies and private industry to ensure compatibility of data which will be integrated into the ADP system of each.

SEC. 1113.61 *Administrative Service Office.*

Plans, organizes, coordinates, and directs the administrative management activities of the Office of Assistant Commissioner (Accounts, Collection, and Taxpayer Service) at the National level, assisting and collaborating with Division Directors and the National Computer Center Director in providing budget, personnel, records and reports management, space management, duplication, supply, and other administrative services necessary for the internal administration, management, operation and functioning of the Office.

SEC. 1113.62 *Program Review and Analytical Services Staff.*

The Program Review and Analytical Services Staff provides the Assistant Commissioner (ACTS) with: in-depth evaluations of Service Center, Data Center and Regional Office operations, programs and effectiveness in the ACTS areas to meet his needs for NORP participation as well as for his day-to-day management appraisals and decisions; independent centralized and integrated analyses of all ACTS programs, including the identification of actual, emerging, and potential problems to management particularly as they impact on two or more ACTS Divisions or other IRS organizations; assessments of program accomplishments, trends, or developments of specific interest to the Assistant Commissioner; and design and the undertaking of advanced analytical research programs and projects (in conjunction with other ACTS Divisions and IRS offices) to improve operational effectiveness and/or to shed insight on program alternatives.

Provides analytical service support and assistance, including specialized statistical services, to the individual Directors of the Accounts and Data Processing, Collection, and Taxpayer Service Divisions and the Director of the Data Center by identifying, evaluating, interpreting, reporting, and assisting in reporting progress towards accomplishment of their respective missions and program objectives. Provides specialist and consultant services and assistance in analytical methods to these officials as well as to Regional personnel in understanding and utilizing techniques and data resulting from integrated analyses of relevant internal and external data.

Coordinates the need for, and advises individual ACTS Divisions on, information system requirements for data, reports and information systems design, reports management activities. Also, in conjunction with ACTS Divisions, develops input for the Annual Internal Audit Program to obtain additional data for evaluation of ACTS program management. Coordinates with Divisions and Internal Audit preparation of the Monthly Informal Report to the Commissioner on significant findings pertaining to ACTS activities.

SEC. 1113.63 *Planning Staff.*

The Planning Staff is the principal advisor to the Assistant Commissioner (ACTS) for insuring the optimal use of ACTS resources for the Service in both tax and non-tax related applications. Develops and administers, in cooperation with all other offices, long-range goals; identifies a budgeting and control system as it relates to goal setting; recommends policy or program decisions on the basis of feasibility or operations research studies; systematizes requests for ACTS services; prepares final ACTS PPBS documents; and performs general staff work on all high-level planning and resource allocations as directed by the Assistant Commissioner (ACTS).

Develops and consolidates long-range goals for the ACTS organization, recommends priorities of work and alternatives, insures that all facets of major work projects are recognized, and identifies the impacts of recommended or proposed actions. Monitors the resources expended in the attainment of established goals and participates in the final system acceptance.

Systematizes the activities relating to requests for ACTS services by: identifying, controlling and monitoring major requirements, requesting and assisting in cost/benefit analysis, presenting the recommendations and priority assignments to the resource allocation boards (ADP Review Board, Data Center Committee) and the appropriate Assistant Commissioners. Independently reconciles and evaluates the cost/manpower/computer accomplishments of ACTS.

Consolidates and finalizes the preparation and submission of PPBS documents to insure consistency with long-range plans and resource requirements commensurate with the objectives and goals of the Assistant Commissioner (ACTS) and top line officials of the Service.

SEC. 1113.64 *Accounts and Data Processing Division—Office of the Director.*

Plans, coordinates and directs the development of returns processing programs and revenue accounting functions. Directs the operation of the present tax administration system in service centers, the National Computer Center, and district offices, and will operate the new, integrated tax administration systems. This responsibility encompasses: The development of major tax administration programs and issuance of detailed systems requirements, forms, procedures, and computer programs for the receipt and processing of tax returns and related documents or data (except alcohol and tobacco tax and firearms returns and applications); accounting for revenue collections and tax deposits; fulfilling the related requirements of other Service activities and the Department of the Treasury; maintenance of taxpayer master file and non-master file accounts; required financial and operating reports; design of master file related management and data control systems; systems acceptability testing of manual procedures, machine instructions, computer inputs, processes and outputs before implementation; and the maintenance of all operational ADP master files and related systems. Functional supervision—including determining the effectiveness of on-going programs, procedures, systems to achieve Service objectives; and providing leadership in the installation or modifications

V 39 | 62 MAR 29 74 XUM

of assigned tax administration programs and processing systems; prompt identification of and follow-up with regional management and coordination with Director, Program Review and Analytical Services Staff, ACTS, on significant operational problems which could impair attaining Service goals and objectives—over accounts and data processing activities in the regional offices, service centers, and district offices. Line supervision over the National Computer Center and liaison between the Center and other organizational units of the Service.

SEC. 1113.641 *National Computer Center.*

Plans, directs, and coordinates the master file operations of the totally integrated tax administration system. Functions include: establishment, maintenance, and updating of the individual, business, employee plans and exempt organizations master files through around-the-clock operation of a large-scale computer system complex. Provides reciprocal controls with service centers of the receipt, processing, and shipment of tax account data. Produces output data for use in issuing refunds, bills or notices, answering inquiries, conducting delinquency checks, detecting fraudulent refund claims, classifying returns for audit purposes, preparing reports, and other matters concerned with processing and enforcement activities of the Service. Provides line supervision over National Office Computer Facility which is principally responsible for computer testing support for the totally integrated tax administration system. Responsible for scheduling and coordinating with Service Centers on production matters and receipts, control and servicing of file searches for Disclosure Staff, Intelligence, Internal Audit and other Service offices. Responsible for financial planning, recruitment, and training, and other administrative matters of the National Computer Center.

SEC. 1113.642 *Office of the Executive Assistant.*

Responsible for providing assistance to the Director in the general overall management and evaluation of Accounts and Data Processing operations both within the Division and functional areas in the field. Coordinates and monitors Division program plans in the areas of organization, personnel, training, security, space and furniture acquisition, financial planning and funding. Finalizes financial and Program-Planning and Budgeting System documents for Division programs covering field operations and the National Office. Coordinates with Internal Audit on program reviews and follows up on findings and corrective action pertaining to the programs and mission of Accounts and Data Processing. Coordinates the Division reports management program. Manages the Division Internal Work Planning and Control System. Prepares speeches and other required papers on Division activities. Represents the Division in the orientation of foreign tax officials and other dignitaries. Provides office management and directives management for the Accounts and Data Processing Division.

SEC. 1113.643 *Associate Director (Accounts and Services).*

Directs the data processing program management for the present tax administration system, and will direct the program management of the new, integrated tax administration systems. Develops programs for approval; and designs, implements, and evaluates systems and procedures for data processing applications. Functions include: participates in developing new systems or revision of existing systems, including a cost/benefit analysis; plans and coordinates resource requirements for accomplishments of programs (collaborates with involved client organizations); prepares, issues, and monitors program requirement packages (PRP's) and ADP Handbook procedures; participates in systems acceptability testing with approval authority for proprietary programs; evaluates program effectiveness through feedback from on-site review, field office communications, customers, and Internal Audit, promptly resolving program problems; develops management information and quality review systems applicable to activities in service centers and NCC; responsible for development and coordination of service center and master file requirements relating to special studies and other research activities; provides analyses and recommendations of action required by tax legislation; and coordinates participation of ACTS in the data exchange programs, e.g., requests from Federal, State, and municipal entities for non-report and non-statistical formatted data from the master file.

SEC. 1113.6431 *Compliance and Special Programs Branch.*

Managers data processing programs relating to Compliance and other Service components, and external customers for the totally integrated tax administration system. Develops programs for approval; and designs, implements and evaluates systems and procedures for data processing applications. Develops new systems or revises existing systems in area of responsibility, including a cost/benefit analysis. In collaboration with client organization, responsible for aggregate planning and coordination of resource requirements for accomplishment of programs; prepares, issues, and monitors program requirement packages (PRP's) and ADP Handbook procedures for area of responsibility. Participates in system acceptability testing for those systems related to its program area with final approval authority for proprietary programs. Evaluates program effectiveness through feedback from on-site review, field office communications, customers, and Internal Audit, promptly resolving program problems. Develops management information systems applicable to activities in service centers, district offices, and NCC. Responsible for development and coordination for service center and master file requirements relating to special studies and other research activities. Coordinates participation of ACTS in the data exchange programs, e.g., requests from Federal, State, and municipal entities for non-report and non-statistical formatted data from the master file.

SEC. 1113.6432 *Revenue Accounting and Processing Branch.*

Manages data processing programs relating to processing of tax returns and related documents from receipt through posting to the master file, including service center and district office deposit activities for the totally integrated tax administration system. Develops programs for approval; and designs, implements, and evaluates systems and procedures for data processing applications. Develops new systems or revises existing systems in area of responsibility, including a cost/benefit analysis. Responsible for aggregate planning and coordination of resource requirement packages (PRP's) and ADP Handbook procedures for area of responsibility. Participates in systems acceptability testing for those systems related to its program area with final approval authority for proprietary programs. Evaluates program effectiveness through feedback from on-site review, field office communications, customers, and Internal Audit, promptly resolving program problems.

SEC. 1113.6433 *Taxpayer Accounts Services Branch.*

Manages data processing programs of service center and district office activities relating directly with taxpayer's accounts occurring subsequent to master file posting of the return for the totally integrated tax administration system. Develops programs for approval; and designs, implements and evaluates systems and procedures for data processing applications. Programs include activities such as correspondence, adjustments, notice review, payment tracers and other IDRS related activities. Develops new systems or revises existing systems in area of responsibility, including a cost/benefit analysis. Responsible for aggregate planning and coordination of resource requirements for accomplishment of programs. Prepares, issues, and monitors program requirement packages (PRP's) and ADP Handbook procedures for area of responsibility. Develops quality review systems applicable to activities in Service Centers and NCC. Participates in systems acceptability testing for those systems related to its program area with final approval authority for proprietary programs. Evaluates program effectiveness through feedback from on-site review, field office communications, customers, and Internal Audit, promptly resolving program problems.

SEC. 1113.6434 *Accounting Operations Branch.*

Assures that accounting operations in Service Centers are performed in accordance with prescribed procedures and provides assistance in account balancing or other problems through field visitations, phone calls and correspondence. Provides Division Management with information gathered through field contact relating to the accounting function.

Suggests revisions to the Revenue Accounting System and assists in preparation of field instructions; engages in consultation and preparation of special accounting related projects such as those involved in new service center activation and apportionment of accountability. Also prepares specifications for the maintenance of the centralized accounting function which accounts for monies to be transferred to U.S. territories such as Puerto Rico, Guam and the Virgin Islands. Prepares annual financial statements and maintains accounting data necessary for the proper planning of receipts and cash flow by the Department of the Treasury.

Prepares reports of revenue receipts and refunds paid for management and various IRS publications. Reviews revenue and refunds paid data prepared by the National Computer Center and Service Centers and prepares quarterly certifications of trust fund collections, refunds and credits such as those for the Highway, Land and Water Conservation, Airport and Airway, and Railroad Retirement Trust Funds. Maintains administrative control over Joint Committee refund cases from time of receipt, through processing, to time of final dispatch to service center for preparation of refund check. Reviews pending and enacted legislation, government and other publications to keep current with all actions affecting the revenue. Acts as liaison with other agencies in the Department of the Treasury, Railroad Retirement Board, Joint Committee on Internal Revenue Taxation, Office of Business Economics, and other agencies, industries, individuals and associations involved in the Nation's revenue.

SEC. 1113.644 *Associate Director (Computer Systems).*

Directs and coordinates the operations of computer systems and processing programs for the present tax administration system and will operate the new, integrated tax administration systems, commensurate with established ACTS goals and recommends determination of supporting computer hardware, as well as auxiliary and accessory equipment, and software requirements for service centers, district offices and the National Computer Center. In addition, includes: participation in studies of proposed computer systems, including telecommunications and real time processing applications; develops and maintains computer software support; evaluates computer systems utilization and is responsible for outside agency computer systems reporting; coordinates installation of computer systems, evaluating planned operational effectiveness; develops standards and guidelines for uniformity by all programmers; develops application and scientific computer programs; participates in systems acceptability testing of all procedures and computer programs before systems acceptability testing of all procedures and computer programs before systems located at service centers and the National Computer Center; provides technical advice and consulting services to other Service offices on computer systems problems; coordinates participation of ACTS in the Government-wide ADP Sharing program; and develops and coordinates the recruitment and training of programmer trainees.

SEC. 1113.6441 *Master File Programming Branch.*

Develops, documents, and maintains computer systems and processing programs to establish, update, analyze and produce required outputs from Master Files of taxpayer accounts and related data files at the National Computer Center for the totally integrated tax administration system. Analyzes new or revised computer-oriented systems requirements to develop required run schematics, detailed logic and block diagrams, machine coding and run tests, documentation and instructions for National Computer Center input, Master Files processing and output programs, including data controls and files extracts. Coordinates with Accounts and Services, and the Service Center Programming, Data Retrieval Programming and Systems Support Branches to ensure compatibility with computer input/output programs in the Internal Revenue Service Centers. Assists the Systems Testing Branch in conducting tests of computer programs and instructions prior to operational use. Identifies operational programming problems, recommends recovery action, if practicable, and makes required program changes. Participates in the review and analysis of proposed computer systems requirements to determine feasibility, completeness, and compatibility with related IRS systems. Provides functional supervision over Resident Programmer Analysts located at the National Computer Center.

SEC. 1113.6442 *Service Center Programming Branch.*

Develops, documents, and maintains computer systems and processing programs and related off-line equipment instructions for tax return and all related data transcription and processing operations including residual master files and data controls in the Internal Revenue Service Centers for the totally integrated tax administration system. Analyzes new or revised computer-oriented systems requirements to develop required run schematics, detailed logic and block diagrams, machine coding and run tests, documentation and instructions for Service Center computer input/output programs, data controls and related processes. Coordinates with the Accounts and Services, and the Master File Programming, Data Retrieval Programming and Systems Support Branches to ensure compatibility with all IRS computer processes particularly at the National Computer Center. Assists the Systems Testing Branch in conducting tests of computer programs and instructions prior to operational use. Identifies operational programming problems, recommends recovery action if practicable and makes required program changes. Participates in the review and analysis of proposed computer systems requirements to determine feasibility, completeness, and compatibility with related IRS systems. Develops and maintains computer programs to fulfill requirements for management information systems integrated or related with the tax processing system. Provides functional supervision of Resident Programmer Analysts located at the Service Centers.

SEC. 1113.6443 *Data Retrieval Programming Branch.*

Develops, documents, and maintains computer systems and processing programs for the Service Centers and district and local offices that are required for the Integrated Data Retrieval System (IDRS). Designs file structure and determines the need for individual computer runs and the relationship of these runs for IDRS. Requirements of the system are received from the branches under Associate Director, Accounts and Services and are coordinated for clarity and programming feasibility. The computer system is diagrammed; file content and format is determined; individual program logic is designed, coded and tested. Complete program documentation is prepared for distribution to all Service Centers and district and local offices including detailed operating instructions. Programs are all prepared to operate synchronously with the individual, business, and residual master files, and other automated and manual systems for the totally integrated tax administration system. Programming activities include real time processing of terminal inquiries and update action plus a large number of multi-programmed batch runs. The batch processing, which also has related real time processing, includes such items as: updating the Account Data files on a daily and weekly basis with data from the National Computer Center and data from all of the various stages of processing in the Service Center; analysis of accounts notice output; maintenance of adjustment and correspondence case inventories; and various audit and collection related activities. Some principal subsystems that are a part of IDRS processing are: Correspondex System, Document Request System, Unidentified Remittance System, On-Line Adjustment System, System for Direct Deposit of Receipts. Participates in the review and analysis of proposed computer systems requirements to determine feasibility, completeness, and compatibility with related IRS system. Coordinates with the Master File Programming and Service Center Programming Branches in the functional supervision over Resident Programmer Analysts located at the service centers and the National Computer Center.

SEC. 1113.6444 *Systems Testing Branch.*

Plans, develops, schedules and conducts acceptability tests simulating live operation of new or revised systems, procedures, forms, instructions, and computer programs designed to process tax returns, related documents and data in the district offices, service centers, or National Computer Center, including accounting, document and other internal

V 39 62 MAR 29 74 XUM

controls over such operations for the totally integrated tax administration system. Coordinates with other ACTS operating and user organizations in testing the system as acceptable for implementation, analyzes total system requirements, develops appropriate tests documents and data, and establishes predetermined control and output results. Tests all manual procedures; machine processes and computer programs, under predetermined controls as planned, to determine readiness of the system to produce records and outputs meeting all requirements. Identifies any deficiencies of problem areas, recommends evident modification or clarification, and tests any changes. Recommends acceptability to the client organization for their certification.

SEC. 1113.6445 *Systems Support Branch.*

Develops, maintains and modifies all software products, required for the Service's totally integrated tax administration system as a service function to the programming branches within the Division. Studies and evaluates proprietary software packages for application on any IRS system. Provides technical advice and consulting services to other Service offices including development of scientific computer programs. Provides a systems "debug" service to application programmers within the Division. Maintains the variety of skills and knowledge necessary to support the several different computer systems and programming languages utilized in the Service. Maintains a current knowledge of computer equipment, including auxiliary and related equipment, software technology, and telecommunication and real time processing applications. Participates in determining immediate or long-range computer systems equipment requirements for data processing; develops plans and schedules for meeting those requirements, and recommends acceptance, modification, or rejection of suppliers proposals. Coordinates installation of computer systems and evaluates effectiveness compared with contract requirements. Evaluates computer systems utilization and is responsible for outside agency computer systems reporting. Responsible for computer operation support functions, (e.g., tape library, computer scheduling) including related procedures and programming, for the Service Centers, National Computer Center, and the National Office. Develops and Issues standards and techniques for uniform guidance and use by all programmers; coordinates participation of ACTS in the Government-wide ADP Sharing Program. In coordination with Training Division, assists in developing and conducting data processing functional training seminars, for Service personnel and specialized training courses for programmer trainees.

SEC. 1113.65 *Collection Division—Office of the Director.*

Accomplishes the Collection mission with reference to the filing and payment requirements of the internal revenue laws by providing and supervising (functional supervision) nationwide programs for issuance of Certificates of Compliance to departing aliens, disposition of certain offers in compromise, collection of unpaid accounts, determination and analysis of why accounts become delinquent, and prevention of accounts from becoming delinquent; obtaining of delinquent returns, measurement of the types and degrees of non-filing, determination and analysis of the reasons for non-filing and reduction of non-filing.

SEC. 1113.651 *Special Projects Branch.*

Exercises responsibility over projects and activities not directly identified with a program management branch or the Special Service Staff. Exercises continuing responsibility for the coordination of management processes which apply to all programs and activities of the Division by performing the following functions: Monitors, coordinates and integrates the planning activities of the Division, including the preparation of program planning document, PPBS Program Memoranda and Program and Financial Plan, Work Plans and budget and financial documents. Maintains Work Planning and Control System (including maintenance of the Operations List) current and compatible with procedural issuances and coordinates the establishment of work priorities within the System. Monitors, studies, coordinates and integrates field collection (DAR activities), organization functions, position responsibilities, staffing and related personnel matters. Serves as Division consultant on these matters. Collaborates and maintains liaison with the Office of the Assistant Commissioner (ACTS) on information system requirements for data and data processing, reports and information systems design, other reports management activities, and on information storage and retrieval matters (also collaborating and maintaining liaison with the Office of Assistant Commissioner (Planning and Research) on information storage and retrieval), and coordinates and maintains management surveillance over all these matters within the Collection Division. Collaborates and maintains liaison with the Office of Assistant Commissioner (Administration) in determining field Collection training needs, evaluating and administering Collection training programs, and providing Collection functional guidance and review for development of training materials at the National Training Center. Conducts general management and other special studies and performs other assignments, which are not within the specific jurisdiction of the program management branches, when authorized by the Director or Assistant Director. Assists Director in determining permanent functional assignments within the Division where such assignments are not clearly covered within the established functional responsibilities. Coordinates internal audit matters related to the Collection Division, and is responsible for completed action on internal audit reports, keeping branches informed on these matters. Responsible, on a continuing basis, for management improvement, work simplification, better utilization of resources, etc., with reference to assigned programs.

SEC. 1113.652 *Delinquent Accounts Branch.*

Exercises program management responsibility for Collection Division's functional supervision of the payment requirements of the Internal Revenue laws through the Delinquent Accounts Program (collection of unpaid accounts, determination and analysis of why accounts become delinquent, and prevention of accounts from becoming delinquent) and of the functional supervision of offers in compromise based on doubt as to collectibility of taxes (except alcohol, tobacco and firearms taxes), offers in compromise of statutory additions based on doubt as to liability or doubt as to collectibility (except alcohol, tobacco, firearms, employment, withholding and excise taxes and specific penalties) and all offers in compromise of 100% penalties, by performing the following functions with reference to the Delinquent Accounts and Offer in Compromise Programs: Formulates and recommends policies. Develops short, intermediate and long-range program content and activities. Relates these to program planning documents, preliminary work plans and budget and financial plans. Develops, reviews and revises as necessary, systems, procedures, methods and other instructions for Collection field personnel, including the development of techniques. Analyzes, evaluates and reports to Division Director on status, progress and trends with reference to assigned programs and takes appropriate action required. Evaluates and reports to Division Director on status and trends of Field Operations involving assigned programs. Collaborates with Office of Assistant Commissioner (ACTS) on substantive program and systems matters pertaining to assigned programs. Identifies the need for and seeks improvement (in collaboration with the Special Projects Branch) of reports and information systems and training guides. Identifies need for and seeks improvement of records and internal forms in collaboration with Facilities Management Division. Recommends appropriate action on Incentive Awards suggestions referred by the Administrative Services Office and on internal audit reports referred by the Special Projects Branch. Conducts studies required for problem identification, problem solving, planning, assistance to the regions, and engages in "troubleshooting" for assigned programs. Makes a performance evaluation of offers in compromise in certain district acceptance cases. Reviews offers in compromise within functional jurisdiction requiring the Commissioner's approval. Participates in Division visits to field offices and conducts special purpose visits as required. Serves as taxpayer liaison office for the Division by the performance of the following principal functions: Responds to inquiries (personal visits, correspondence and telephone) from sources external to the Internal Revenue Service (e.g. taxpayers, members of Congress, Treasury Department and other Departments and Agencies) on matters pertaining to Collection Programs, activities and functions. Conducts correspondence and engages in conferences with taxpayers, officials of the Service, States, other Federal Agencies, members of Congress and Congressional Committees on Collection Division activities and functions. Monitors the Division's sensitive case program. Responsible on a continuing basis, for management improvement, work simplification, better utilization of resources, etc., with reference to assigned programs.

SEC. 1113.653 *Returns Compliance Branch.*

Exercises program management responsibility for Collection Division's functional supervision of the filing requirements of the Internal Revenue laws through the Returns Compliance and Delinquent Returns Programs (obtaining of delinquent returns, measurement of the types and degrees of non-filing, determination and analysis of the reasons for non-filing and reduction of non-filing) by performance of the following functions with reference to the Returns Compliance and Delinquent Returns Program. Formulates and recommends policies. Develops short, intermediate and long-range program content and activities. Relates these to program planning documents, preliminary work plans and budget and financial plans. Develops, reviews and revises as necessary: systems, procedures, methods and other instructions for Collection field personnel, including the development of techniques. Analyzes, evaluates and reports to Division Director on status, progress and trends with reference to assigned programs and takes appropriate action required. Evaluates and reports to Division Director on status and trends of field operations involving assigned programs. Collaborates with Office of Assistant Commissioner (ACTS) on substantive program and systems matters pertaining to assigned programs. Identifies the need for and seeks improvement (in collaboration with the Special Projects Branch) of reports and information systems and training guides. Identifies need for and seeks improvement of records and internal forms in collaboration with Facilities Management Division. Recommends appropriate action on Incentive Award suggestions referred by the Administrative Service Office and on internal audit reports referred by the Special Projects Branch. Conducts studies required for problem identification, problem solving, planning assistance to the regions, and engages in "trouble-shooting" for assigned programs. Participates in Division visits to field offices and conducts special purpose visits as required. Responsible, on a continuing basis, for management improvement, work simplification, better utilization of resources, etc., with reference to assigned programs.

SEC. 1113.66 *Taxpayer Service Division—Office of the Director.*

Plans, develops and directs a comprehensive Service-wide Taxpayer Service Program which recognizes that taxpayers must have the ability as well as the willingness to comply with Federal tax law. Ensures a consistent and uniform policy of service to all taxpayers.

Responsible for coordinating and integrating all field Taxpayer Service related activities (other than those requesting technical determinations), regardless of organizational boundaries. In this regard ensures that prompt, accurate, and responsive replies are made to taxpayer inquiries and that appropriate and useful informational and educational materials for public use are prepared and distributed. Participates in the formulation of policies affecting the taxpaying public. Assists (utilizing internal audits to the extent practical) in determining the effectiveness of taxpayer service activities in all areas and at all organizational levels. In this regard, recommends how procedures might be changed and resources increased, decreased, or shifted to provide better overall service to the taxpayer. Exercises functional supervision over regional and district taxpayer service activities. Conducts research on assessing and improving the effectiveness of various Taxpayer Service activities.

SEC. 1113.661 *Operations Branch.*

Exercises general program management responsibility to ensure prompt, accurate and responsive replies to taxpayer inquiries directed to district offices and service centers. This includes prompt replies to correspondence received from taxpayers, members of Congress, tax practitioners, and other regarding operations aspects of the ACTS organization.

Develops, reviews and modifies, as necessary, procedures, methods, and other instructions to assist field managers and employees in the accomplishment of Program objectives.

Reviews selected correspondence to identify problem areas within the Taxpayer Service Division or to have the matter referred so the appropriate activity may take necessary remedial action. Provides liaison between district office taxpayer service operations and service center data processing operations as they related to Service-generated output or taxpayer-initiated actions.

Provides input to the Planning and Development Branch for Program Management guidelines, PPBS materials, work plans, estimates of staff and budget requirements to meet Program goals and objectives.

In conjunction with the Training Division, develops or reviews materials for field and National Office training programs for Taxpayer Service personnel. Issues up-to-date tax information, e.g., handbooks, guidelines, TAX-NEWS, and the like, to ensure dissemination of accurate tax information to the public by TSR's.

Provides guidance and assistance in the implementation of a comprehensive Servicewide Taxpayer Service Program; and participates in the evaluation of its operational effectiveness. Responsible, on a continuing basis, for submitting recommendations for initiating studies and conducting field operational studies to improve the effectiveness of field operations, management improvement, work simplification and the like.

SEC. 1113.662 *Planning and Development Branch.*

Develops long-range plans and objectives for a comprehensive Taxpayer Service and Assistance Program and coordinates these plans with other activities assigned responsibility for various programs related to Taxpayer Service. Prepares, coordinates, and integrates the planning activities of the Division, including the preparation of Program Planning documents, PPBS materials, Programs and Financial plan, Work Plans, and budget documents. Assist in the determination of staff requirements to meet program objectives and long-range plans.

Assesses taxpayer needs, conducts in-depth research studies to measure effectiveness of selected methods of providing taxpayer service as well as measure various related programs, and recommends effective and economical methods of informing and educating taxpayers in their rights and responsibilities. Related programs to be measured include telephone assistance, filing period publicity, taxpayer education, taxpayer publications, and the like, to determine how to most effectively meet taxpayer needs.

Represents both taxpayers and the Assistant Commissioner (ACTS) on the Forms Committee; and suggests alternative solutions to meet Service objectives with minimum inconvenience to taxpayers. Assures that the needs of taxpayers are considered in the design of tax forms and other Service publications; and that instructions are issued which make compliance simpler or more understandable for the public.

Identifies subject matter areas giving taxpayers problems and endeavors to alleviate these by coordinating with other National Office Divisions in the preparation of appropriate technical publications, news releases, institute training materials, et cetera. Review forms, form letters, computer notices, and other issuances to ensure that information or instructions contained therein are understandable to the public.

Provides assistance in personnel management activities and program evaluation. Collects and presents statistical data in an organized and readily usable form in measuring accomplishments against objectives. Prepares materials designed to aid field personnel in achieving the highest Program goals at a minimum cost. Serves as Taxpayer Service Division representative in TCMP matters. Develops and coordinates the issuance of Revenue Procedures on the use of "substitute" tax forms and schedules. Coordinates internal audit matters related to the Taxpayer Service Division and has responsibility for completing action on such reports and for collaboration with the Field Operations Branch on these matters.

V 39 62 MAR 29 74 XUM

SEC. 1113.67 *IRS Data Center.*

Responsible for the performance of Non-Master File data processing operations for the Service. This includes: design of manually and electronically oriented processing systems; detail design of computer programming requirements and instructions; writing of computer programs; testing and debugging of computer routines; systems acceptability testing; installation of new systems; and maintenance of systems after they become operational. Such systems provide for the preparation of Department of the Treasury payrolls; fiscal reports; statistics of income; Taxpayer Compliance Measurement Programs, including both work progress reports and special studies; special tax research; personnel analysis reports; work planning and control reports; data for PPBS and other purposes; special tabulations and comparisons for States and other Federal agencies; and statistical information for management control by National and Regional Office officials; and other special applications not included in the Business and Individual Master File systems.

SEC. 1113.7 *Office of Assistant Commissioner (Inspection).*

The Assistant Commissioner (Inspection) acts as the principal assistant to the Commissioner in planning and carrying out the inspection program of the Internal Revenue Service. This includes the independent review and appraisal of all Internal Revenue Service activities as a basis for protective and constructive service to management, and the carrying out of a program for assisting management to maintain the highest standards of honesty and integrity among its employees. The Assistant Commissioner (Inspection) plans and directs the inspection program at both the national and regional levels. At the National Office level he supervises two divisions: the Internal Audit Division and the Internal Security Division; and at the regional level he supervises the Regional Inspectors.

SEC. 1113.71 *Internal Audit Division—Office of the Director.*

The Internal Audit Division has responsibility for conducting a program providing for an independent review and appraisal of the operations of the Internal Revenue Service. This review provides information on the condition of all the functional activities of the Service at the National, regional and district levels and is sufficient in scope to provide a basis for constructive management action by the Service officials responsible for the activities involved. The Division is also responsible for a systematic verification and analysis of financial transactions and a review and appraisal of the protective measures and controls established at all operating levels. The organizational structure for program operations consists of the National Office Internal Audit Division, and the regional Internal Audit staffs which are headquartered in the same location as the Regional Inspectors. The Director of the Internal Audit Division, under the general supervision of the Assistant Commissioner (Inspection), is responsible for the development and execution of the Division's program.

SEC. 1113.711 *Operations Branch.*

The Operations Branch has responsibility for ensuring a continuing effective internal audit of the Service's Administration, Appellate, Audit, Counsel, Intelligence, Technical, Office of International Operations, and Economic Stabilization Program activities by developing guidelines for the annual internal audit plans; by reviewing and making recommendations on regional internal audit plans; by conducting National Office and coordinated nationwide audits; by carrying out special surveys, examinations, and projects as assigned by higher authority, such as audits of the Tax Division of the U.S. Virgin Islands Government, and the Treasury Department's Exchange Stabilization Fund and Alcohol, Tobacco and Firearms activities; by coordinating, evaluating, and reviewing and following through on audit findings; and by bringing significant audit disclosures to the attention of top National Office management officials including the Commissioner. Participates in the program of staff guidance, review and evaluation of the auditing activities of regional Internal Audit staffs. Consults with top officials in the Offices of the Assistant Commissioners and the Office of Chief Counsel on recommendations for improving procedures and controls. Carries out special assignments in cooperation with the Internal Security Division on cases requiring the specialized knowledge and training of personnel of the Internal Audit Division. Exercises continuing direction and control over all Internal Audit aspects of Inspection integrity assignments conducted nationwide, including on-job visitations. Maintains liaison with National Office Internal Security Division on Security cases pending in the regional offices. Analyzes and summarizes Internal Audit Division's annual accomplishments and prepares required internal and external reports.

SEC. 1113.712 *Program Development Branch.*

The Program Development Branch has responsibility for developing the Division's policy and procedural instructions and internal audit program guidelines for the continuing effective internal audit of all activities in the Revenue Service's field offices. Also has responsibility for developing and carrying out career development programs for Internal Audit staff members nationwide to increase staff management capability and professional auditing proficiency, including conducting basic and advanced Internal Audit training programs. Keeps abreast of new developments in Service programs to determine their effect on Internal Audit's responsibilities in the auditing of field operations. Coordinates with other functional areas of the Office of Assistant Commissioner (Inspection) as necessary, including participation in a program of on-site review and evaluation of the activities of the regional Internal Audit staffs. Maintains liaison with Officers of Assistant Commissioners and Chief Counsel, to determine operating problems or developments that should be given internal audit program attention. Keeps abreast of latest professional management auditing techniques and methods to ensure timely adaptation to the Service's internal audit program. Maintains the division's program of continuing review of special long-range Service projects, e.g., Taxpayer Compliance Measurement Program.

SEC. 1113.713 *Data Processing Activities Branch.*

The Data Processing Activities Branch has responsibility for ensuring a continuing effective internal audit of the Service's Accounting, Data Processing, Collection and Taxpayer Service activities by developing guidelines for the annual internal audit plans; by reviewing and making recommendations on regional internal audit plans; by conducting National Office and coordinated nationwide audits; by carrying out special surveys, examinations, and projects as assigned by higher authority; by coordinating, evaluating, and reviewing and following through on audit findings; and by bringing significant audit disclosures to the attention of top National Office management officials including the Commissioner. Participates with management during the development stages of new or improved ADP systems to ensure the incorporation of effective management controls. Develops systems and procedures to utilize automatic data processing in carrying out principal segments of the Internal Audit Division's program. Participates in the program of staff guidance, review and evaluation of the auditing activities of regional Internal Audit staffs. Consults with top officials in the Offices of the Assistant Commissioners and the Office of Chief Counsel on recommendations for improving procedures and controls; keeps abreast of current data processing developments, including technological changes, so that proper consideration can be given to carrying out the Internal Audit Division's program. Coordinates with other functional areas of the Office of Assistant Commissioner (Inspection) in order to obtain data processing services requested by them or provide other information pertinent to the mission of these functions. Analyzes and summarizes Internal Audit Division's annual accomplishments and prepares required internal and external reports.

SEC. 1113.72 *Internal Security Division.*

The Internal Security Division plans, develops, and controls the Internal Security program for the Internal Revenue Service so as to assist management in assuring the highest standards of honesty, integrity and security among Service employees and maintain public confidence in the integrity of the Service. The program includes personnel background investigations and investigations of complaints or allegations of misconduct or irregularities, including criminal, concerning Service employees; also investigations of non-Service persons when their actions may affect the integrity of the Service or safety of Service personnel, including attempts to bribe or otherwise corrupt Service personnel; this authority includes investigation of attempts to interfere with administration of Internal Revenue laws through threats, assaults or forcible interference, and also the unauthorized disclosure of Federal tax information. The program also includes background investigations of certain applicants for enrollment to practice before the Internal Revenue Service, investigations of charges against tax practitioners, formal investigations of accidents involving Service employees or property, investigations of complaints alleging discrimination because of race, creed, color or national origin; and the maintenance of records and case files relating to investigations conducted. The Division also conducts such special investigations, studies, and inquiries as required for the Commissioner, Office of the Secretary, or other components of the Treasury Department. The Division is composed of three branches: Field Coordination Branch, Investigations Branch, Planning and Programming Branch.

SEC. 1113.721 *Field Coordination Branch.*

The Field Coordination Branch controls and coordinates on a nationwide basis *all* investigations conducted by the Internal Security function. These investigations cover alleged violations of Federal criminal statutes and of the regulations and rules governing the conduct of Service personnel; actions of non-Service persons that may affect the integrity of the Service, including attempts to bribe or otherwise corrupt Service personnel; charges against persons enrolled or entitled to practice before the Internal Revenue Service; the investigation of the character and background of applicants for, or incumbents of, positions in the Service; enrollee applicant cases; formal investigations under the Federal Tort Claims Act; and other investigations as required for the Commissioner and other components of the Treasury Department. The Branch maintains a continuing review and control of all investigations to: assure that proper priorities are established and that the investigation workload is accomplished in an effective and efficient manner on an overall regional, as well as an individual Inspector basis; assure that the scope of the investigations and the facts and evidence are sufficient to provide a basis for conclusions by management, the Department of Justice or other authority; assure that established policies, procedures and techniques are being followed properly and uniformly; assure effective investigation accomplishments, uniformity in investigative coverage, and that there is proper form and quality of reports, as well as administrative and criminal dispositions; develops data and recommendations for improvement, simplification, and standardization of investigative operations, many of which are passed along for use by management in connection with directing program execution as well as planning and programming Internal Security activities; and directs the maintenance of records and case files relating to investigations conducted by the Internal Security function. The Branch maintains liaison on criminal and other investigative matters with the Office of the Chief Counsel, other law enforcement and security segments of the Treasury Department and the Internal Revenue Service, Department of Justice, Federal Bureau of Investigation and other Federal law enforcement agencies.

SEC. 1113.722 *Investigations Branch.*

The Investigations Branch, operating on a nationwide basis, is responsible for conducting extremely confidential investigations of complaints and allegations of misconduct or irregularities concerning high level officials of the Service and other special investigations which by reason of their complexity or sensitivity, or because of their potential effect on the maintenance of public confidence in the integrity of the Service, demand special handling. The Branch, as the investigative branch of the Internal Security Division for National Office personnel, is responsible for conducting background investigations of applicants for, or incumbents of, positions in the Service, certain applicants for enrollment to practice before the Internal Revenue Service, and for applicants for positions with certain other components of the Treasury Department. In addition the Branch conducts investigations of alleged violations of Federal criminal statutes and rules and regulations governing the conduct of Service personnel; actions of non-Service persons that may affect the integrity of the Service, including attempts to bribe or otherwise corrupt Service personnel; charges against persons enrolled to practice before the Internal Revenue Service; formal investigations under the Federal Tort Claims Act; investigations of alleged discrimination because of race, creed, color or national origin; and other special investigations as may be required for the Commissioner and other components of the Treasury Department. The Branch maintains liaison with the Regional Inspectors and Assistant Regional Inspectors (Internal Security) to coordinate joint activities and in special situations to render assistance in the handling of difficult investigations.

SEC. 1113.723 *Planning and Programming Branch.*

The Planning and Programming Branch is responsible for providing staff assistance to the Division Director in planning and programming the Internal Security Division program. This includes formulating policies; developing technical and administrative procedural instructions, including manual issuances and investigative handbooks; conducting inspections of the management and operation of the regional Internal Security Division; conducting special surveys of National Office Internal Security activities; developing and coordinating training programs for the Division; providing technical and staff assistance to the Treasury Law Enforcement Officer Training School; compiling and analyzing reports of operational costs, workload data, and statistics concerning criminal and administrative actions resulting from Internal Security investigations; evaluating manual issuances or proposals originating outside Inspection which are pertinent to Internal Security functions; conducting special staff studies; and maintaining liaison with other branches of the Internal Security Division, the Internal Audit Division, and other offices of the Service.

SEC. 1113.8 *Office of Assistant Commissioner (Planning and Research).*

The Assistant Commissioner (Planning and Research) acts as the principal assistant to the Commissioner and the Deputy Commissioner in the development and administration of the Long-Range Plan, related objectives and policies, and in the analysis of all Service programs for the purpose of promoting maximum effectiveness in the administration of the Internal Revenue Code with the most efficient and economical expenditure of resources; provides leadership and coordination in Federal-State cooperative tax administration; provides liaison with the States on administrative matters related to Federal collection of State individual income taxes; and is responsible for research, statistics, and systems development. The Assistant Commissioner (Planning and Research) represents the Commissioner on these matters in relations with the Department of the Treasury, the Congress, other Government agencies and outside organizations. He discharges these primary responsibilities in cooperation with the appropriate Assistant Commissioners (or other principal officials), each of whom exercises related responsibilities within his own functional area. The Assistant Commissioner (Planning and Research) is responsible for and supervises the activities of the Planning and Analysis Division, Research Division, Statistics Division, Systems Development Division, Tax Systems Redesign Division, and Internal Management Documents Division.

SEC. 1113.81 *Planning and Analysis Division.*

The Planning and Analysis Division develops and administers the systems for producing a comprehensive multi-year Long-Range Plan, for coordinating and integrating program objectives of the Service, and for analyzing all Service programs—with the aim of optimizing the collection of internal revenue taxes. To these ends, in cooperation with responsible offices, it develops the Service's Long-Range Plan; through Special Studies, approved by the Deputy Commissioner, evaluates the desirability and costs of existing and proposed plans, organizations, and program objectives; and develops criteria and presentations to measure accomplishments. It coordinates the preparation of the annual Program

V 39 62 MAR 29 74 XUM

Memoranda analyzing the objectives, costs and benefits of the Long-Range Plan. The Division, in cooperation with other responsible offices, determines the scope of operating data, needed for performance reporting and for marginal productivity and other kinds of operations research analyses in connection with the Long-Range Plan, Program Memoranda, and Special Studies.

SEC. 1113.82 *Research Division.*

The Research Division conducts advanced research (independently or in conjunction with other offices) into the Federal tax system to develop new approaches to improve the Service's operations and to reduce the compliance burden on the taxpayer; directs such research, within the framework of tax policy determined by the Office of the Secretary of the Treasury; furnishes leadership and coordination for the program of Federal-State cooperation in the field of tax administration; and serves as the liaison office for administrative matters with the States in connection with the Federal collection of State individual income taxes. The Division serves as the focal point of the Service for assistance to the Chief Counsel and the Office of the Secretary of the Treasury in the development of legislative proposals and in the identification and evaluation of administrative implications of such proposals; coordinates and works with other activities of the Service in assisting the Chief Counsel and Tax Legislative Counsel in the drafting of legislation; develops, coordinates and monitors plans to implement provisions of new legislation affecting tax administration; and keeps the Commissioner apprised of significant legislative developments and progress in implementing provisions of new legislation. The Division actively participates with other staffs of the Assistant Commissioners and of the Department of the Treasury in the preparation of legislative proposals and regulation revisions resulting from the research conducted; designs and carries out surveys, studies, polls, and other forms of research to provide basic data needed for the formulation of legislative proposals and operating programs and plans; and prescribes the nature and content of statistical analyses made by other offices but required for the research functions of the Division.

SEC. 1113.83 *Statistics Division.*

The Statistics Division conducts research and prepares statistics with respect to the operation of the income tax laws as required annually by the Internal Revenue Code to provide basic information for tax studies and legislation by the Congress and its committees, for administrative use by the Secretary of the Treasury and the Commissioner of Internal Revenue, and for the Federal benchmark statistical programs on income, wealth, and finance; and performs other related research and statistical functions. The Division provides support services for the Reports Management program. The Division consists of the Income, Finance, and Wealth Branch, the Statistical Techniques Branch, the Mathematical Statistics Branch, and the Program Management Branch.

SEC. 1113.831 *Administrative Office.*

Performs all administrative management activities, including personnel, budget, and fiscal programs, cost estimates, allocations and control of funds, records management, travel, space and equipment utilization. Coordinates and controls, in conjunction with the Facilities Management Division the printing requirements of the Division and statistical processing contracts, other office services required. Serves as a focal point for Division contacts with Personnel Fiscal Management, and Facilities Management Divisions.

SEC. 1113.832 *Income, Finance, and Wealth Branch.*

The Income, Finance, and Wealth Branch performs statistical and economic research with respect to the operations of the income tax laws as required by the Internal Revenue Code. It identifies and analyzes actual and prospective needs of users of income, wealth, and financial data reported on tax returns. The Branch plans, evaluates, and modifies these needs to develop an integrated statistical program and prepares specifications for data preparation. It interprets, analyzes, and presents the resulting statistics through publications of the Internal Revenue Service, such as the "Statistics of Income" series, and in consultation with appropriate policy and management officials.

SEC. 1113.833 *Statistical Techniques Branch.*

The Statistical Techniques Branch performs technical statistical services in support of the program of the Division. It prepares projections and estimates of tax return populations by type of return and geographic area, and produces other workload measures of the Service. It uses statistical techniques to analyze problems and improve efficiency in work programs. It plans, prepares the analysis, and presents the results of statistical studies for the Service, other Federal Agencies, and for approved reimbursable projects. It conducts research in the development and adaptation of statistical techniques designed to promote efficient operations. It prepares Service statistical guidelines and taxpayer aids. It supplies special statistical services in response to requests and advice on applications of statistical techniques to technical and administrative tax problems. It provides the technical service in development of management information and other reports.

SEC. 1113.834 *Mathematical Statistics Branch.*

The Mathematical Statistics Branch has the Statistics Division's responsibility for the probability sampling portions of the Service's research and operational programs and aiding, on request, other agencies with their sampling problems. This responsibility includes such things as the application of computer methods to sampling techniques used in such programs as Statistics of Income and Taxpayer Compliance Measurement; the use of area survey techniques to measure tax delinquency; assisting in the application of sample audit techniques to processing functions; using time samples to develop cost data for the Long-Range Plan; and review of sampling plans developed in other areas of the Service.

SEC. 1113.835 *Program Management Branch.*

Designs and develops operational plans for use in producing the statistics required by the Division's program, and prepares related procedures, forms, and instructions. Coordinates budget development for, and the planning, scheduling, and processing of the statistical work performed at decentralized locations. Conducts research into methods for controlling quality. Develops and applies operating techniques for quality control, providing standards of measurement and instituting methods developed through operations research. Evaluates statistics produced in terms of original specifications, costs, and procedures. Serves as the focal point for collaboration between National Office and field statisticians in the execution of continuing programs such as Statistics of Income, Taxpayer Compliance Measurement, and Statistical Quality Control. Guides and coordinates the activities of statisticians in the field processing centers to insure uniformity of method and adherence to common goals. Plans uniform statistical applications to be implemented by statisticians in the field processing centers. Provides the technical and clerical support for the manual compilation of management information and other reports.

SEC. 1113.84 *Systems Development Division.*

The Systems Development Division is concerned both with electronic systems and other systems, except for the implementation of the new integrated tax administration data processing systems. It conducts a continuing program relative to the availability and capability of electronic data processing systems and other electronic or automation equipment and systems, the feasibility and adaptability of electronic equipment to specific Service tasks, and the development of special modifications for Service purposes. The Division reviews and coordinates projects of other offices involving the adaptation of electronic equipment and participates in the selection and installation of electronic equipment and systems. With respect to other systems, the Division examines and makes recommendations for improvement or extension of internal systems (such as those reating to reporting, processing, accounting, enforcement, records management, and communications), reviews and coordinates system-improvement efforts of other offices, and initiates and develops projects of its own; furnishes other offices of the Service, on request, advisory and consultative services on

systems problems; studies possibilities of integrating paperwork and data-handling systems and equipment; and surveys, develops and tests equipment used or usable by the Service.

SEC. 1113.85 *Tax Systems Redesign Division.*

The Tax Systems Redesign Division is responsible for the development of requirements, preparing requests for proposals from vendors, evaluating vendors' proposals and recommending appropriate contract awards, and installing the new integrated tax administration data processing systems. These new systems replace not only the existing systems for revenue accounting and processing, with their limited capacity for serving other segments of the Service, but also provide an integrated data processing system available to all elements of the Service. Staffing and programs of the division represent all of the major organizational components, and close and continuous liaison is required with all users of the systems. The division is responsible for designing, implementing, and installing integrated tax administration systems which involve the service center, district offices, the National Computer Center, and the National and Regional offices. Responsibilities include such things as: development of major programs and procedural implementation instructions, preparation of detailed systems requirements and computer programs, design of systems acceptability tests, and design and management of data control systems. The division is also responsible for insuring the uninterrupted processing of returns, revenue accounting, and related activities while the original data processing system is being replaced by the new tax administration systems. While extensive coordination with user activities is required, and user skills are represented in the division staffing, the division is basically a self-contained organization (except for administrative support) having all the requisite skills and capable of expanding as the number and intensity of assignments increase. Subordinate organizational structure will be established as required at various stages, and the division will be absorbed into the continuing organization at the conclusion of the implementation stage.

SEC. 1113.86 *Internal Management Documents Division.*

The Internal Management Documents Division is responsible for designing and administering the Service's Internal Management Document System and for establishing standards for style and format of such National Office documents. The division reviews all Internal Management Documents, and memorandums and letters addressed to a group of field officials, issued from the National Office, for adequacy of coordination and clearance; determination of proper category for issuance; conformance with established Service policies, delegations of authority, and organizational titles and designations; effects coordination and clearance of such issuances as may be required; and arranges for publication in the Federal Register of statements of Service organization and functions, and Commissioner's delegations of authority which affect the rights and duties of taxpayers. The division is responsible for substantive review, evaluation and coordination of new and revised statements of Service policy, delegation orders, and organizational changes, prepared for the Commissioner's approval; and effects coordination for Planning and Research matters involving the Freedom of Information Act and liaison with the Tax Administration Advisory Staff.

SEC. 1113.9 *Office of Assistant Commissioner (Technical).*

The Assistant Commissioner (Technical) acts as the principal assistant to the Commissioner in providing basic principles and rules for the uniform interpretation and application of the Federal tax laws (other than alcohol, tobacco, and firearms taxes under Subtitle E of the Internal Revenue Code). In carrying out this mission, he: Publishes rulings to announce interpretative positions of the Service; publishes explanatory booklets, pamphlets and other materials for the guidance of taxpayers and Service officials; issues rulings and advisory statements to taxpayers and Service officials; issues opinion letters to sponsoring organizations on master and prototype pension, annuity, and profit-sharing plans; directs programs for clarification and simplification of tax rules; develops (and is responsible for the technical content of) all tax return forms and instructions (other than those relating to alcohol, tobacco and firearms taxes); reviews other public-use tax forms and form letters; acts as competent authority in matters involving interpretation or application of tax treaties; provides advice and assistance on technical matters throughout the Service, and to the Department of the Treasury, other Government agencies, and Congressional Committees; conducts a technical liaison program with Service field offices, conducts a Technical Field Conference program; coordinates with the Research Division of Planning and Research in providing advice and assistance on legislative matters; coordinates with the Office of Chief Counsel and the Department of the Treasury in providing advice and assistance on regulatory matters; reviews all new or amendatory regulations for administrative feasibility and adequacy; administers the activities of the Art Advisory Panel embracing a Service-wide program for providing guidance and direct assistance to field offices in the disposition of income, estate and gift tax cases involving fine arts valuation; coordinates with the Office of the Chief Counsel and the Department of Justice in providing advice and assistance in connection with matters in litigation; and coordinates with the other Assistant Commissioners, the Department of the Treasury, other Government agencies, and outside professional groups and industry and trade associations on matters of mutual concern. The Assistant Commissioner (Technical) is authorized to prescribe the extent, if any, to which any ruling issued by or pursuant to authorization from him, shall be applied without retroactive effect. He is also authorized to enter into and approve a written agreement (Closing Agreement) with any person relating to the internal revenue tax liability, other than certain excise taxes, of such person (or of the person or estate for whom he acts) in respect of any prospective transactions or completed transactions affecting returns to be filed. The Assistant Commissioner (Technical) is responsible for and supervises the activities of three divisions: Income Tax Division; Miscellaneous and Special Provisions Tax Division; and Technical Publications and Services Division.

SEC. 1113.91 *Income Tax Division—Office of the Director.*

Has primary responsibility for providing basic principles and rules for uniform interpretation and application of the Federal tax laws in those areas involving: Income and employment taxes to corporate and noncorporate taxpayers (including individuals, partnerships, estates, and trusts); depreciation depletion, and valuation issues; the taxable status of exchanges and distributions in connection with corporate organizations, reorganizations, and liquidations; taxes imposed on self-employment income; and exemption of farmers' cooperatives from tax under IRC 521. In carrying out these responsibilities, the Division: Issues rulings to taxpayers and technical advice and general technical information to District Directors and Regional Commissioners; advises the Appellate and Audit Divisions of the Service's position on particular issues; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases to be published for the guidance and information of taxpayers and Service personnel; drafts, or reviews, IR-Manual issuances to be published for the guidance of Service personnel; reviews or assists in preparing technical booklets, training materials, pamphlets, and other materials prepared for the guidance of taxpayers and Service personnel; conducts special studies of technical problem areas, including reappraisals of current rules and practices, with a view toward reducing controversy and promoting uniformity; determines the status of certain organizations as agencies or instrumentalities of the United States, a State or political subdivision thereof, or the District of Columbia, or agencies or instrumentalities of governments of foreign countries or political subdivisions thereof; reviews Actions on Decisions announcing the Commissioner's position on adverse decisions of the United States Tax Court, prior to publication in the Internal Revenue Bulletin; initiates recommendations and coordinates with the Research Division of Planning and Research in providing advice and assistance on legislative matters; initiates recommendations and coordinates with the Office of Chief Counsel and the Department of the Treasury in providing advice and assistance on regulatory matters; coordinates with the Office of the Chief Counsel and the Department of

V 39 62 MAR 29 74 XUM

Justice in providing advice and assistance in connection with matters in litigation; reviews newly proposed and amendatory regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program which disclose tax administrative problems, abuses, and inequities, as well as the views of field personnel as to the quality and effectiveness of regulations and tax return forms, the need for new or amendatory legislation or regulations, etc.; coordinates on matters of mutual concern with other Technical divisions, the Compliance organization, other offices of the Department of the Treasury, and other Government agencies; supplies the Audit Division with names or essential identifying characteristics of persons or organizations, and otherwise advises and assists the Audit Division in the selection of representative cases, involving issues on which Service position needs to be established, clarified, or otherwise developed; aids the Audit Division in developing the scope of and techniques needed in the examinations or investigations of such issues; supplies information for use by the Audit Division in programming, evaluating, and guiding audit operations throughout the Service; participates in the development of tax return forms and instructions and reviews pertinent portions of public-use forms and instructions; invites outside professional groups and industry and trade associations to participate in conferences and to submit comments, briefs, and suggestions in connection with tax problems and matters involving Revenue Rulings or Revenue Procedures proposed for the solution of tax problems; conducts conferences in the regional offices to discuss major programs of the Technical organization, to present papers on particular substantive technical areas, to discuss and explore possible solutions to technical areas of concern to field offices, and to discuss other matters of mutual concern; makes determinations with respect to earnings and profits of corporations and the taxable status of distributions to shareholders; acts on applications for changes in or adoption of accounting methods and periods; and acts as competent authority in matters involving interpretation or application of tax treaties. In areas involving the application of Federal tax laws in connection with provisions relating to depreciation, depletion and valuation issues, this Division also: Passes upon requests for approval of plans for the aggregation of nonoperating mineral interests as a single property; post-audits the depreciation, depletion, and valuation issues of cases on which engineering reports have been prepared and a sample of other large cases involving such issues; upon request, provides direct assistance to regional and district offices on cases involving depreciation, depletion, and valuation issues; provides, or secures, expert witnesses in support of the Government position in cases in litigation, and assists Government counsel in preparation and presentation of cases and in negotiations of settlements; prepares and presents material on professional and technical developments at engineering meetings, and upon request, in coordination with Compliance, develops, and conducts training programs for engineers; prepares material for inclusion in the Engineers' Coordination Digest calling attention to important new developments and to nonuniform treatment of issues; and administers the activities of the Art Advisory Panel embracing a Service-wide program for providing guidance and direct assistance to field offices in the disposition of income, estate, and gift tax cases involving fine arts valuation. This Division also post-reviews field determination letters relating to the status of farmers' cooperatives under IRC 521. The Director is responsible for and supervises the activities of four branches: Corporation Tax Branch; Individual Income Tax Branch; Engineering and Valuation Branch; and Reorganization Branch.

SEC. 1113.911 *Corporation Tax Branch.*

In matters involving the application of Federal income tax laws to corporate taxpayers, including the taxation of insurance companies and those relating to consolidated returns of affiliated groups, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances, including material for the Exempt Organization Handbook relating to cooperatives; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; and participates in the Technical Field Conference Program. This Branch also performs the same functions involving either corporate or noncorporate taxpayers with respect to: Income of States, Municipalities, etc.; appearances, etc., with respect to legislation; amortization of pollution control facilities; research and experimental expenditures; inventories, including LIFO; allocation of income and deductions among related taxpayers; sales of low income housing projects; cooperatives and their patrons; exemption of farmers' cooperatives from tax under IRC 521; regulated investment companies and their shareholders; controlled foreign corporations and their U.S. shareholders; foreign tax matters which involve determination of sources of income; nonresident alien individuals and partnerships or of alien residents of Puerto Rico; compensation of employees of foreign governments or international organizations; income affected by treaty; foreign tax credit; earned income from sources without the United States; income from possessions; involuntary conversions; small business investment company stock losses; withholding of tax on nonresident aliens and foreign corporations; mitigation of effect of renegotiation of government contracts; requests for permission for change in or adoption of accounting periods and methods (except methods of accounting for depreciation and depletion); acts as competent authority in matters involving interpretation or application of tax treaties; and makes determinations with respect to earnings and profits of corporations and the taxable status of distributions to shareholders. This Branch also post-reviews field determination letters relating to the status of farmers' cooperatives under IRC 521.

SEC. 1113.912 *Engineering and Valuation Branch.*

In matters involving the application of Federal tax laws in engineering and valuation areas, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures; Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; passes upon requests for permission to change methods of accounting for depreciation and depletion and for approval of plans for the aggregation of nonoperating mineral interests as a single property; conducts a post-audit review of field engineer reports and a sample of non-engineer reports which contain depreciation, depletion, and valuation issues for purposes of assessing the field treatment of engineering issues in order to provide uniform guidance, both on an individual basis by report, and on a Servicewide basis by publication in the Engineers' Coordination Digest; provides direct assistance to regional and district offices, upon request; assists the Office of Chief Counsel and the Department of Justice in preparing and presenting cases in litigation, provides or secures expert witnesses in support of the Government's litigating position, and furnishes technical expertise in the negotiation of trial and pre-trial settlements; prepares and presents material on professional and technical developments at engineering meetings, and upon request, in coordination with Compliance, develops and conducts training programs for engineers; prepares material for inclusion in the Engineers' Coordination Digest calling attention to important new developments and to non-uniform treatment of issues; prepares and maintains an up-to-date Engineering Citator; and administers the activities of the Art Advisory Panel embracing a Servicewide program for providing guidance and direct assistance to field offices in the disposition of income, estatae and gift tax cases involving fine arts valuation.

SEC. 1113.913 *Individual Income Tax Branch.*

In matters involving the application of Federal income tax laws to noncorporate taxpayers (including partnerships, estates, and trusts), and with respect to the application of employment tax laws to both corporate and noncorporate taxpayers, and with respect to the taxes imposed on self-employment income, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; and participates in the Technical Field Conference Program. This Branch also performs the same functions involving either noncorporate or corporate taxpayers with respect to: Charitable contributions; tenant-stockholders of cooperative housing corporations; employee stock option and stock purchase plans; real estate investment trusts; and election of certain small business corporations as to tax status and related matters, except the rules relating to certain qualified pension plans.

SEC. 1113.914 *Reorganization Branch.*

In matters involving the application of Federal income tax laws to exchanges and distributions in connection with corporate organizations, reorganizations, liquidations, and spin-offs, to stock dividends, redemptions, exchanges in obedience to Securities and Exchange Commission orders, to distributions pursuant to the Bank Holding Company Act, and to losses on small business stock, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions and reviews pertinent portions of public-use forms and instructions; and participates in the Technical Field Conference Program. This Branch also performs the same functions with respect to determinations as to whether distribution, exchanges, or transfers referred to in IRC 306(b)(4), 355(a)(1)(D)(ii), 367, and 1492 are in pursuance of a plan having as one of its principal purposes the avoidance of Federal income taxes.

SEC. 1113.92 *Miscellaneous and Special Provisions Tax Division—Office of the Director.*

Has primary responsibility for providing basic principles and rules for uniform interpretation and application of the Federal tax laws in those areas involving Estate, gift, and certain excise taxes; organizations exempt from income tax under IRC 501; procedure and administration provisions of the Internal Revenue Code; matters requiring actuarial determinations; and the qualification of pension, annuity, profit-sharing, stock bonus, and bond purchase plans, and the tax treatment of employees and their beneficiaries and deductions for employer contributions under such plans. In carrying out these responsibilities, the Division: Issues rulings to taxpayers and technical advice and general technical information to District Directors and Regional Commissioners; advises the Appellate and Audit Divisions of the Service's position on particular issues; issues opinion letters to sponsoring organizations on master and prototype pension, annuity, and profit-sharing plans; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases to be published for the guidance and information of taxpayers and Service personnel; drafts, or reviews, IR-Manual issuances to be published for the guidance of Service personnel; reviews or assists in preparing technical booklets, training materials, pamphlets and other materials, prepared for the guidance of taxpayers and Service personnel; conducts special studies of technical problem areas, including reappraisals of current rules and practices, with a view toward reducing controversy and promoting uniformity; reviews Actions on Decisions announcing the Commissioner's position on adverse decisions of the United States Tax Court, prior to publication in the Internal Revenue Bulletin; initiates recommendations and coordinates with the Research Division of Planning and Research in providing advice and assistance on legislative matters; initiates recommendations and coordinates with the Office of Chief Counsel and the Department of the Treasury in providing advice and assistance on regulatory matters; coordinates with the Office of the Chief Counsel and the Department of Justice in providing advice and assistance in connection with matters in litigation; reviews newly proposed and amendatory regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program which disclose tax administrative problems, abuses, and inequities, as well as the views of field personnel as to the quality and effectiveness of regulations and tax return forms, the need for new or amendatory legislation or regulations, etc.; coordinates on matters of mutual concern with other Technical divisions, the Compliance organization, other offices of the Department of the Treasury, and other Government agencies; supplies the Audit Division with names or essential identifying characteristics of persons or organizations, and otherwise advises and assists the Audit Division in the selection of representative cases, involving issues on which Service position needs to be established, clarified, or otherwise developed; aids the Audit Division in developing the scope of and techniques needed in the examinations or investigations of such issues; supplies information for use by the Audit Division in programming, evaluating, and guiding audit operations throughout the Service; participates in the development of tax return forms and instructions and reviews pertinent portions of public-use forms and instructions; invites outside professional groups and industry and trade associates to participate in conferences and to submit comments, briefs, and suggestions in connection with tax problems and matters involving Revenue Rulings or Revenue Procedures proposed for the solution of tax problems; conducts conferences in the regional offices to discuss major programs of the Technical organization, to present papers on particular substantive technical areas, to discuss and explore possible solutions to technical areas of concern to field offices, and to discuss

V 39 62 MAR 29 74 XUM

other matters of mutual concern; and acts as competent authority in matters involving interpretation or application of tax treaties. This Division also performs the same functions with respect to determinations under IRC 170(b)(1)(A) in all situations involving a provision of Subchapter F of Chapter 1, Chapter 42, or section 6033 of the Code, and in any other situation bearing on the status of an organization as a private foundation. In tax matters dealing with actuarial questions: Provides or secures expert witnesses in support of the Government position in cases in litigation, and assists Government counsel in preparation and presentation of cases and in negotiations of settlements; and furnishes expert consulting assistance to other Service components, including the Office of the Chief Counsel, to the Department of the Treasury, and to other Federal and State Government agencies. This Division also: Post-reviews field determination letters relating to the status of organizations under IRC 501, and relating to qualification of pension, annuity, profit-sharing, stock bonus, and bond purchase plans under IRC 401 through 407; prepares and submits to the Audit Division special audit coordination digests calling attention to district determinations that do not conform to published Service positions on issues under IRC 401 through 407; on a certiorari basis, reviews and decides cases appealed by taxpayers to the National Office for reconsideration of determinations by District Directors under IRC 401 through 407; and provides the final level of appeal in the Service on proposals by District Directors to revoke the exempt status of organizations under IRC 501. The Director is responsible for and supervises the activities of six branches: Actuarial Branch; Administrative Provisions Branch; Estate and Gift Tax Branch; Excise Tax Branch; Exempt Organizations Branch; and Pension Trust Branch.

SEC. 1113.921 *Actuarial Branch.* In matters involving the application of Federal tax laws in the actuarial area, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other branches on matters of mutual concern; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; participates in the Technical Field Conference Program; and provides, or secures, expert witnesses in support of the Government position in cases in litigation involving pension plans, insurance, and other tax matters dealing with actuarial questions, and assists Government counsel in preparation and presentation of cases and in negotiations of settlements. This Branch also furnishes expert consulting assistance to other Service components (including the Office of the Chief Counsel), to the Department of the Treasury, and to other Federal and State Government agencies on actuarial questions involved in: Valuation of life estates, remainder interests, contingent assurances, series of payments, and reversionary interests; tax treatment of pension, profit-sharing, stock bonus, annuity, life insurance, accident and health, and other benefit and compensation plans and contracts; deductions for amounts paid or accrued on indebtedness under insurance contracts; and taxation of life insurance companies.

SEC. 1113.922 *Administrative Provisions Branch.*

In matters involving the application of the procedure and administration provisions of the Internal Revenue Code, and similar provisions of related statutes, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon requests submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches and other offices of the Service on matters of mutual concern; advises and assists the Audit Division in regard to the Service's Audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; and participates in the Technical Field Conference Program.

SEC. 1113.923 *Estate and Gift Tax Branch.*

In matters involving the application of Federal estate and gift laws, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; as requested, furnishes assistance in negotiations or renegotiations of estate and gift tax conventions with representatives of foreign countries; acts as competent authority in matters involving interpretation or application of tax treaties; and participates in the Technical Field Conference Program.

SEC. 1113.924 *Excise Tax Branch.*

In matters involving the application of Federal excise tax laws other than those involving excise taxes imposed by Chapter 42 on private foundations and certain related parties, and the alcohol, tobacco and firearms taxes (but including the manufacturer's excise tax on firearms under IRC 4181 and 4182), this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; and participates in the Technical Field Conference Program.

SEC. 1113.925 *Exempt Organizations Branch.*

In matters involving the exemption of organizations under IRC 501, this Branch: Issues rulings, technical advice, and general technical information; drafts Revenue Rulings, Revenue Procedures, Announcements and Releases, and IR-Manual issuances; reviews or assists in preparing technical booklets, pamphlets, and other materials for the guidance of Service personnel and the public; maintains in current status a comprehensive Exempt Organizations Handbook; conducts special studies directed toward resolving technical problem areas; reviews Actions on Decisions; provides advice and assistance to other offices of the Service (including the Office of the Chief Counsel), the Department of the Treasury, other Government agencies, and Congressional Committees; reviews proposed regulations for administrative feasibility and adequacy; analyzes and acts upon reports submitted by field offices under the Technical Coordination Program; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; post-reviews field determination letters; coordinates with other Technical branches on matters of mutual concern; advises and assists the Audit Division in regard to the Service's audit program; participates in the development of tax return forms and instructions, and reviews pertinent portions of public-use forms and instructions; post-reviews field determination letters and, on a certiorari basis, reviews and decides cases appealed by taxpayers to the National Office for reconsideration of District Directors' determinations; prepares special audit coordination digests regarding conformance of field actions with established positions on stated issues; determines the applicability of the annuity treatment under IRC 72, the death benefit, exclusion under IRC 101(b), and the sick pay exclusion under IRC 105(d), to distributions under qualified plans and exempt employees' trusts; passes upon the tax treatment accorded deferred compensation under nonqualified plans; and participates in the Technical Field Conference Program. This Branch also performs the same functions with respect to pension trust matters involving: Exemption of employees' trusts under IRC 501; collateral matters involving the treatment of medical benefits for retired employees under qualified pension plans, the limitations and restrictions on self-employed persons participating in qualified plans, and the tax treatment of distributions to non-resident aliens; deductions by acquiring corporations for carryovers under IRC 381(c)(11) and (20); feeder organizations; prohibited transactions; liability for tax on unrelated business taxable income; and additional requirements and limitations under IRC 1379 with respect to plans that provide contributions or benefits for shareholder-employees of an electing small business corporation.

SEC. 1113.93 *Technical Publications and Services Division—Office of the Director.*

Has primary responsibility in Technical for functions related to: Tax return forms; other public-use forms and form letters; taxpayer publications; internal-use technical publications; field liaison programs; Part XI of the Manual; the "Freedom of Information Act"; technical and general correspondence; Congressional liaison; research facilities and reference services; and control and maintenance of correspondence files and exempt organization application files. In carrying out these responsibilities, the Division: Conducts a program for the development, annually or as needed, of all Federal tax return forms and instructions (other than those relating to alcohol, tobacco, and firearms taxes); coordinates and assists in the work of the National Office Tax Forms Coordinating Committee in planning, reviewing and approving tax return forms materials; assists the National Office Tax Forms Coordinating Committee by reviewing other public-use forms and form letters used by the Service; furnishes technical assistance to the Department of the Treasury and others on tax return matters; conducts a program for publication of the Internal Revenue Bulletin and related publications; conducts a program for preparation and publication of technical booklets, pamphlets, and other materials for the guidance of taxpayers, tax practitioners and Service personnel; reviews tax guide material prepared by other Government agencies; reviews or drafts tax guide material for dissemination through newspapers, other periodicals, radio, and television; reviews tax law training material for classroom and correspondence instruction of Service personnel; drafts expository papers on major technical developments for the instruction of Service personnel; drafts digests of significant developments to keep Service personnel abreast of changes; promotes and coordinates the Technical liaison program with regional and district offices; conducts special surveys of Service field offices; coordinates the Technical Field Conference Program; coordinates the development and publication of material for Part XI of the Internal Revenue Manual; coordinates the activities of the Technical organization under the Freedom of Information Act; coordinates Technical's correspondence program; provides research facilities and reference services; and maintains, and processes requests for inspection of, exempt organization application files. The Director is responsible for and supervises the activities of three branches: Tax Forms Development Branch; Technical Publications Branch; and Technical Services Branch.

SEC. 1113.931 *Tax Forms Development Branch.*

Assists in conducting the Service's public-use forms and instructions, and form letters programs. In carrying out these responsibilities; this Branch: On annual basis, or when otherwise necessary, initiates, develops, and revises the technical content of all Federal tax return forms, instructions, schedules, etc., relating to income, employment, estate, gift, and excise taxes (other than those relating to alcohol, tobacco, and firearms taxes); provides the principal support and assistance to the National Office Tax Forms Coordinating Committee in planning, reviewing and approving all tax return forms materials; provides the principal support and assistance to the National Office Tax Forms Coordinating Committee in its review and approval functions relating to other public-use forms and form letters; prepares replies to inquiries from Members of Congress, other Government agencies, professional groups, and the public on matters relating to the forms program; evaluates, and prepares replies to, suggestions on matters relating to tax return forms and other public-use forms; prepares Announcements and

V 39 62 MAR 29 74 XUM

Releases, and IR-Manual issuances, relating to tax return forms and other public-use forms; provides advice and assistance to other offices in the Service, the Department of the Treasury, and Congressional Committees in matters relating to tax return forms and instructions; and coordinates with other Technical branches on matters of mutual concern.

SEC. 1113.932 *Technical Publications Branch.*

Conducts the publications programs of the Technical organization. In carrying out this responsibility, this Branch: Compiles material for publication in the weekly Internal Revenue Bulletin, which is the Commissioner's authoritative instrument for announcing official rulings and procedures of the Service and for publishing Treasury Decisions, Executive Orders, tax conventions, legislation, court decisions, and other items of general interest; compiles all precedent material in the weekly Internal Revenue Bulletins for publication in semiannual Cumulative Bulletins; prepares digests of all substantive materials in the Bulletin for publication in the Index-Digest System, complete with topical indexes and finding lists, for research use by the public and Service personnel; compiles record retention requirements from regulations for publication in the Federal Register; drafts summaries of selected authoritative material for publication in Tax Briefs to keep Service personnel abreast of significant developments in Federal taxation; compiles the Service's Looseleaf Regulations System and drafts appropriate transmittals and filing instructions; compiles items to be published in the biennial Cumulative List of Exempt Organizations, its bimonthly supplements, and the announcements of current deletions in the Bulletin; initiates actions to preserve the standards and improve the effectiveness of the Bulletin system; drafts plain-language explanations of all Federal tax laws (other than those relating to alcohol, tobacco, and firearms taxes) for publication in booklets such as Your Federal Income Tax, Tax Guide for Small Business, Farmer's Tax Guide, and numerous pamphlets, to inform the public about the rights and duties of taxpayers; drafts plain-language instructional material for publication in the Teaching Taxes program; reviews material relating to Federal taxation in booklets and other issuances initiated by other Government agencies, and by others, when such cooperation is in the best interests of the Service; reviews for technical accuracy releases, articles, notices, and radio and television program materials, prepared for issuance by Public Affairs Division; drafts in-depth analyses and explanations of major developments in Federal taxation for publication in quarterly, annual, and special issues of the Review of Technical Developments, which are used to update the technical skills of Service personnel; participates in the drafting and reviewing of technical tax handbooks and guides for Service personnel and technical law text materials for use in Service training programs; drafts material for publication in Reports on Current Tax Literature to keep Service officials apprised about articles, comments, etc., published outside the Service regarding tax loopholes or inequities, and criticism of Service position; prepares Announcements and Releases, and IR-Manual issuances relating to the publications program; coordinates with other Technical branches, Chief Counsel, Audit Division, and others on matters of mutual concern; and coordinates with Publications Branch of Facilities Management Division and the Government Printing Office in the development of Production Control Schedules, format design, proof processing, and other matters of mutual interest.

SEC. 1113.933 *Technical Services Branch.*

Issues general technical information letters, coordinates the overall correspondence program of the Technical or for Technical. In carrying out these responsibilities, this Branch: Issues direct replies to all communications involving requests for information of a general technical or procedural nature, including a substantial portion of Congressional inquiries directed to Technical; serves as liaison office and point of contact on all Congressional office inquiries, oral or written, relating to matters under the jurisdiction of Technical; coordinates with other offices in Compliance, Chief Counsel, Accounts, Collection and Taxpayer Service, and administration on correspondence crossing jurisdictional lines; keeps the Assistant Commissioner (Technical) informed regarding incoming communications involving sensitive or controversial matters; promotes and coordinates the Technical liaison program with regional and district offices involving the submission of field reports on administrative problems, tax abuses, tax inequities, the quality and effectiveness of tax return forms and instructions, and the need for new or amendatory regulations; conducts special surveys to obtain factual information from Service field offices on particular tax areas at the request of the Department of the Treasury or National Office components; coordinates the Technical Field Conference program whereby teams of specialists in the various tax areas and representatives of the Chief Counsel's office and the Audit Division meet with field officials in district offices to discuss technical matters of mutual interest or concern; coordinates the preparation and clearance of material for Part XI of the Internal Revenue Manual; coordinates actions for the Technical organization on matters involving the Freedom of Information Act; maintains a technical reference library and provides research assistance and reference services for personnel of the Technical organization and other offices in the National Office, corresponds with field offices to supply or request needed information on current or prior matters; analyzes, acknowledges receipt, and directs the flow of all incoming correspondence, including requests for rulings and technical advice, general technical inquiries, reports submitted by Service field offices under the Technical Coordination Program, etc., to the appropriate Technical divisions or branches; and processes, maintains, and services all closed correspondence files and related records for the Technical organization. This Branch also maintains and services exempt organization application files that are open to public inspection, processes requests for indelete certain materials that are exempt from public inspection.

SEC. 1113.(10) *Office of Assistant Commissioner (Stabilization).*

The Assistant Commissioner (Stabilization) is the principal assistant to the Commissioner in administering the Stabilization Program of the Internal Revenue Service, which includes monitoring and enforcing the stabilization of prices, wages, and salaries pursuant to the coverage, classifications, and implementation procedures established by the Cost of Living Council. Such functions include, but are not limited to: advising the Cost of Living Council on matters concerning compliance with and implementation of decisions and regulations issued by the Council, and suggest changes which would lead to greater voluntary compliance or more effective use of resources; operation and maintenance of a nationwide network of Stabilization offices established in support of the Economic Stabilization Program; dissemination of information and guidance in response to inquiries from the public, to the extent authority has been delegated by the Cost of Living Council; planning for an effective enforcement program, including selecting industry targets, conducting investigations initiated locally or as directed by the Cost of Living Council; receiving, investigating, and resolving by obtaining compliance, where possible, complaints received with respect to alleged program violations, and taking enforcement action or recommending it to the Cost of Living Council, when necessary; receiving and processing price stabilization forms, reports, applications, and other information required to be submitted by firms covered under Phase IV regulations; making decisions and issuing orders with respect to notices of proposed price increases to the extent authority has been delegated by the Cost of Living Council; making decisions and issuing orders with respect to special filings, including applications for volatile pricing authority, loss or low profit pricing, merchandise pricing plans as delegated by the Cost of Living Council; making decisions and issuing orders with respect to individual requests for exceptions from the price regulations, and with respect to requests for reconsideration of initial decisions made and orders issued, to the extent authority has been delegated by the Cost of Living Council; and maintaining adequate records and making periodic reports to the Cost of Living Council. The Assistant Commissioner (Stabilization) is responsible for and supervises the activities of the Technical

Programs Division, the Compliance and Enforcement Division, the Planning and Program Staff, and the Administrative Office.

SEC. 1113.(10)1 *Planning and Program Staff.*

The Planning and Program Staff is the principal advisor to the Assistant Commissioner (Stabilization) for insuring maximum use of Stabilization resources through planning for and evaluating the utilization of these resources. Also coordinates matters affecting all Divisions of Stabilization, provides liaison with the Cost of Living Council, and consults with IRS functional officials in manpower or program issues which bear on Stabilization operations. In matters involving resources, this staff develops and monitors, in cooperation with other offices and the Cost of Living Council, long-range goals; estimates resource needs and prepares financial plans and recommends dollar and manpower resource allocations for all Stabilization activities based upon projected workload; monitors the execution of Stabilization manpower and financial resources; assesses the resource impact of current program and proposed program changes; and works with other National Office activities on manpower allocations. Develops organization, staffing, and position management control guidelines and coordinates all personnel management actions having Servicewide impact. Spearheads in-depth analyses of district and regional office operations, and effectiveness of stabilization areas, and provides the A/C (Stabilization) with data to meet his needs for NORP participation as well as for ongoing management appraisals and decisions. Assesses program accomplishments, trends, or developments of specific interest to the Assistant Commissioner. Coordinates with Internal Audit a program for obtaining additional data relevant to an evaluation of Stabilization program management. Provides recurring and other special reports to Deputy Commissioner, Commissioner, and the Cost of Living Council. Is the principal liaison with Stabilization field offices and provides assistance to the field on matters involving several divisions and represents the Assistant Commissioner at field conferences. Analyzes the biweekly field reports and coordinates for the Assistant Commissioner, division responses to field requests for corrective action and is responsible for identifying field problems and providing assistance when field problems arise as a result of unclear procedures, conflicting instructions, or lack of definitive policy interpretations. Coordinates with Public Affairs Division in developing an effective public information program for Stabilization.

SEC. 1113.(10)2 *Administrative Office.*

Plans, organizes, coordinates, and directs the administrative management activities of the Office of Assistant Commissioner (Stabilization) at the National level, assisting and collaborating with Division Directors in providing personnel, space management, duplication, supply, and other administrative services.

SEC. 1113.(10)3 *Technical Programs Division.*

Serves as the organization responsible for activities relating to the processing of price prenotifications, price increase reports, quarterly financial reports, merchandise pricing plans, exceptions, reconsiderations and other documents required to be filed in accordance with Economic Stabilization Regulations. It is also responsible for providing technical and interpretive advice and assistance to the IRS Stabilization Program and to the public.

Develops programs on and exercises functional supervision over Servicewide Economic Stabilization activities involving the processing of price prenotifications, price increase reports, quarterly financial reports, merchandise pricing plans, exceptions, reconsiderations and other documents required to be filed in accordance with Economic Stabilization Regulations. Develops procedures and assists field offices to assure uniformity and consistency of decisions; provides advice to field offices on case-related matters; reviews and approves proposed actions recommended by district offices in certain specific cases. For consistency of decisions, recommends appropriate action, and transmits decisions to district offices; reviews field office case processing to discern trends and precedents; identifies problem areas of nationwide concern, for consideration by the Cost of Living Council; identifies the need for, and recommends to the Cost of Living Council delegations of authority to the Internal Revenue Service; develops management information to be used to keep Internal Revenue Service management and the Cost of Living Council apprised of price prenotifications, merchandise pricing plans, exceptions and reconsiderations program execution. Provides technical and general information to the public; develops or reviews all Stabilization forms and publications; reviews proposed regulations and ruling; furnishes interpretive support to other organizational components of the Assistant Commissioner (Stabilization), serves as the liaison with other Federal, State, and local government agencies and with private or public interest groups. Provides technical assistance to the field and assures program uniformity.

The Director is responsible for and supervises the activities of three Branches: Interpretations Branch, Price Analysis Branch and Publications and Guidance Materials Branch. The Director also serves as Deputy Assistant Commissioner (Stabilization).

SEC. 1113.(10)31 *Interpretations Branch.*

Serves as the organization responsible for providing technical and interpretive advice and assistance to the IRS Stabilization Program.

Receives, comments on the reviews for administrative feasibility and adequacy Cost of Living Council drafts of regulations; reviews documents, questions and answer, news releases, forms and other publications to ensure technical accuracy; advises on Stabilization disclosure matters, testimony instructions, and release of Stabilization information as requested under the Freedom of Information Act; serves as contact point for all field technical problems; promotes and conducts institutes and conferences designed to foster voluntary compliance; exercises functional responsibility for programs concerning walk-in and telephone requests for public service or assistance, written inquiries, and other requests of a service nature performed in the field; provides assistance and guidance to the field in implementing, monitoring, and evaluating technical and service programs; coordinates activities of the Local Service and Compliance Centers with the Office of the Assistant Commissioner (ACTS).

SEC. 1113.(10)32 *Price Analysis Branch.*

Plans, directs and exercises functional supervision over field office activities relating to the processing of price prenotifications, price increase reports, quarterly financial reports, merchandise pricing plans, exceptions, reconsiderations and other documents required to be filed in accordance with Economic Stabilization Regulations. Develops procedures and assists field offices to assure uniformity and consistency of decisions; provides advice to field offices on case-related matters; reviews and approve proposed actions recommended by district offices in certain specific cases. For consistency of decisions, recommends appropriate action, and transmits decisions to district offices; reviews field office case processing to discern trends and precedents; identifies problem areas of nationwide concern, for consideration by the Cost of Living Council; identifies the need for, and recommends to the Cost of Living Council delegations of authority to the Internal Revenue Service; develops management information to be used to keep Internal Revenue Service management and the Cost of Living Council apprised of price prenotifications, merchandise pricing plans, exceptions and reconsiderations program execution.

SEC. 1113.(10)33. *Publications and Guidance Materials Branch.*

Develops publications and guidance material procedures for field and National Office use. Determines the content, directs the compilations, and reviews the Stabilization Program Guidelines (SPG) Service. Develops plain language publications and educational material used to inform Service employees and the public of substantive and procedural matters. Translates selected publications into Spanish for use in the Spanish-speaking communities. Identifies need for and develops publications independently and at the request of the Cost of Living Council; distributes publications throughout the country to appropriate business firms, associations, and other professional organizations. Plans, coordinates, and provides editorial support for publication of forms and form

V 39 62 MAR 29 74 XUM

letters; reviews, for administrative feasibility, consistency, and adequacy, all proposed Cost of Living Council public-use forms. Coordinates the presentation and clearance of Stabilization material for the IR Manual. Operates a correspondence unit that serves as the National Office clearing and routing center for all public and Congressional correspondence relating to Stabilization matters; maintains liaison with the Cost of Living Council concerning Congressional inquiries to the field; and maintains adequate records.

SEC. 1113.(10)4 *Compliance and Enforcement Division.*

In matters involving compliance and enforcement activities under the Phase IV Economic Stabilization regulations, this division: develops and exercises functional supervision of nationwide and local investigative and industry monitoring programs as directed by the Cost of Living Council or initiated by IRS; designs, implements, and reports on CLC-directed pay or price investigations of firms; designs, implements, and reports on CLC-directed pay or price factfinding surveys for industries, both in the controlled and uncontrolled sectors; designs, implements and reports on IRS locally initiated pay or price investigations for firms in controlled industries; develops and exercises functional supervision of nationwide and local enforcement activities as authorized and directed by CLC; designs, implements and reports analysis of economic developments and trends within broad industry groupings as received from field offices and nationally-gathered providing same to CLC as leads for enforcement and compliance action; engages in other special projects deemed appropriate by CLC and IRS; coordinates investigations involving several districts or regions; provides guidance to certain districts which have operational responsibility for conducting such investigations; informs and reports to CLC on investigation and analysis progress and status; designs and engages in a program of handling citizen complaints of violations of the ESP regulations; coordinates activities with other Stabilization organizational elements; and maintains adequate records. The Director is responsible for and supervises the activities of four branches: Compliance Investigations Branch, Case Control and Reports Branch, Industry Survey and Analysis Branch and Pay Branch.

SEC. 1113.(10)41 *Compliance Investigations Branch.*

In matters involving compliance administration, this branch: formulates policy and programs involving compliance with the Economic Stabilization Act; designs, initiates, and reports on nationwide and local Cost of Living Council directed price investigations; assists Cost of Living Council in formulating, implementing, monitoring and evaluating audit specifications and procedures, informs Cost of Living Council as to case progress and status; provides assistance and guidance to the field in implementing investigations; coordinates investigations involving several districts or regions; coordinates activities with other Stabilization organization elements and maintains adequate records.

SEC. 1113.(10)42 *Industry Survey and Analysis Branch.*

In matters involving the survey and analysis of industries, this branch: conducts Cost of Living Council directed price fact-finding surveys of industries; conducts CLC—and IRS-assigned special projects and analysis; engages in special economic analysis and targeting to monitor, analyze and present findings relating to on-going industry surveys where indicated with results and findings given to CLC for action and follow-up authority; maintains a program of nationwide information-gathering on economic developments and trends within broad industry groups by receiving, processing and analyzing information received from field offices, providing information to the CLC as leads for enforcement and compliance action; informs the CLC as to monitoring progress and status; provides assistance and guidance to the field in implementing and evaluating information-monitoring programs; drafts procedures for field information-monitoring programs; coordinates activities with other Stabilization organizational elements; coordinates monitoring operations which are of nationwide significance or involve several districts, and maintains adequate records.

SEC. 1113.(10)43 *Pay Branch.*

In matters of wage and pay investigations and surveys for both the controlled and uncontrolled industry sectors of the economy, this branch: designs, implements, monitors, evaluates and reports on CLC-directed nationwide pay investigations; designs, implements, evaluates and reports on CLC-directed pay factfinding surveys and monitoring of nationwide wage and pay matters in the uncontrolled sector; manages and controls wage and pay investigations, surveys and programs; informs the Cost of Living Council as to case progress and status; coordinates activities with other Stabilization organizational elements; coordinates investigations which are of nationwide significance or involve several districts, and maintains adequate records.

SEC. 1113.(10)44 *Case Control and Reports Branch.*

Designs, develops, installs, monitors, and evaluates reporting systems for the Office of Assistant Commissioner (Stabilization) in coordination with the Cost of Living Council. Consults and participates in the design and development of other Stabilization information systems. Develops statistical indicators to evaluate operations in a particular program area or element in order to identify significant trends. Provides an advisory service to the A/C Stabilization by identifying significant happenings, developing trends, identifying possible trouble areas and forecasting conditions within the Stabilization Program. Develops and monitors, in cooperation with CLC, an interactive computer/remote terminal management information system. Provides computer output reports to IRS/ESP. Provides CLC with manual reports not on the data base. Identifies and fulfills training needs for remote terminal operators in 29 key districts. Provides a nationwide net of telecommunications and facsimile transmission facilities for the ESP. Provides an automated Case Control system for monitoring directed investigations. Coordinates and develops specifications for Stabilization's IRS data processing requirements. Provides records management for Stabilization. Maintains adequate records and controls.

SEC. 1113.(11) *Office of the Chief Counsel.*

The Chief Counsel, and Assistant General Counsel of the Treasury Department, serves as a member of the Commissioner's executive staff and as counsel and legal officer to the Commissioner on all matters pertaining to the administration and enforcement of the internal revenue laws and related statutes, and on all legal matters pertaining to the Service's economic stabilization activities. The key officials under his supervision are: Deputy Chief Counsels, Associate Chief Counsel (Litigation), Associate Chief Counsel (Technical), Staff Assistants, Technical Advisors, Special Assistants, Director of the Operations and Planning Division, and Regional Counsel.

SEC. 1113.(11)1 *Deputy Chief Counsels.*

The two Deputy Chief Counsels act for and represent the Chief Counsel in the development of policies governing the Office of the Chief Counsel, and assist the Chief Counsel in the formulation of tax litigation policy and the interpretation and development of the internal revenue laws.

SEC. 1113.(11)2 *Associate Chief Counsel (Litigation).*

Plans, directs, coordinates and controls the policies and programs pertaining to Tax Court Litigation; Criminal Tax; General Litigation; and Refund Litigation work.

SEC. 1113.(11)21 *Tax Court Litigation Division.*

The Tax Court Ligitation Division develops policies, programs, and procedures relating to the disposition of tax cases pending in the United States Tax Court; supervises and coordinates the defense and settlement and the processing and handling of such cases, including preparation of pleadings, recomputations and other documents filed with the Tax Court together with hearings thereon to assure uniform treatment; coordinates and reviews Tax Court matters prepared in the Regional Offices; including the rendering of technical advice to the field offices, the approval of Chief Counsel's Decisions, the review of briefs to be filed with the Tax Court and recommendations of field offices for acquiescence or non-acquiescence in adverse Tax Court decisions; prepares recommendations to the Department of Justice for the Commissioner's appeals to the Courts of Appeals and prepares petitions and records on review in such cases; makes recommendations to that Department regarding offers in compromise or settlement and prepares recommendations for or against filing petitions for writs of certiorari to the Supreme Court in such cases. It supervises the preparation and trial of cases assigned to, and handled by, attorneys in the Trial Branch.

SEC. 1113.(11)22 *Criminal Tax Division.*

The Criminal Tax Division handles and prepares for final decision those criminal tax cases referred to the Chief Counsel by Regional Counsel or by the National Office. It considers cases in which the Regional Commissioner and the Director of the Intelligence Division of the Office of the Assistant Commissioner (Compliance) do not concur in recommendations of Regional Counsel involving prosecution. The Division prepares acquiescence memorandums or protest letters on decisions by the Department of Justice or United States Attorneys against prosecution and recommendations to the Department of Justice respecting appeals of court decisions in criminal tax cases. It also prepares law opinions in cases involving penalties or other legal questions with respect to criminal cases or investigations or with respect to the disclosure of information. The Division coordinates with the Department of Justice or interested branches of the Service any questions involving investigations or actions respecting the civil aspects of pending criminal cases.

SEC. 1113.(11)23 *General Litigation Division.*

The General Litigation Division supervises and coordinates legal work or Regional Counsel on collection litigation matters. It reviews certain offers in compromise (except those concerning alcohol, tobacco, and firearms taxes). It prepares advisory opinions on collection litigation matters. The Division prepares and reviews recommendations to the Department of Justice concerning certiorari, appeal and petition for review in relation to all collection litigation cases. It handles certain legal work for the Director of General Operations. The General Litigation Division prepares and reviews recommendations to the Department of Justice concerning the defense of injunction actions to restrain the assessment or collection of federal taxes; offers in settlement; the waiver or release of a right to redeem under 28 U.S.C. 2410; and suits for the civil enforcement of summonses. Similarly, the Division considers recommendations that the Commissioner authorize or sanction affirmative action in insolvency cases (including decendents' estate proceedings), suits for foreclosure of mortgages or other liens and suits to quiet title where the United States is named as a party defendant, cases involving appointment of a receiver in aid of foreclosure of Federal tax liens, and suits for the collection of taxes.

SEC. 1113.(11)24 *Refund Litigation Division.*

The Refund Litigation Division performs all necessary legal service on behalf of the Internal Revenue Service in connection with taxpayers' suits for refund of taxes (except alcohol and tobacco taxes). It determines and coordinates the legal position of the Service in such suits and incorporates such determinations in recommendations to the Department of Justice with respect to the defense of such suits, the acceptance or rejection of settlement proposals and appeals and petitions for certiorari from adverse court decisions. The Division performs all necessary legal services on behalf of the Service in connection with all civil litigation affecting the Service and not within the responsibility of any other Division.

SEC. 1113.(11)3 *Associate Chief Counsel (Technical).*

Plans, directs, coordinates and controls the policies and programs pertaining to Legislation and Regulations, and Interpretative work.

SEC. 1113.(11)31 *Legislation and Regulations Division.*

The Legislation and Regulations Division has the basic responsibility for representing the Internal Revenue Service in connection with legislation affecting the various internal revenue taxes and for the preparation of regulations required to be issued in connection with those taxes, except for taxes relating to alcohol, tobacco, and certain firearms. In discharging this responsibility, the Division: participates in the development and drafting of new and amendatory internal revenue legislation and in connection therewith furnishes required technical assistance; prepares new and revised regulations; prepares reports on private and public bills; prepares news and information releases relating to regulations; prepares responses to correspondence concerning legislation and regulations from the Congress and the public; and, in developing regulations, arranges and conducts public hearings and meeting with taxpayers and their representatives and with professional and industry groups. The Division prepares Executive orders and related papers authorizing the inspection of tax returns, and reviews and prepares amendments to the Statement of Procedural Rules. The Division represents the Internal Revenue Service with respect to the negotiation and drafting of tax treaties with foreign countries and the preparation of the necessary implementing regulations.

SEC. 1113.(11)32 *Interpretative Division.*
